INDEPENDENT AUDITOR'S REPORT

Board of Education  
Aguilar School District RE-6  
Aguilar, Colorado 81020

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Aguilar School District Number RE-6, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Aguilar School District Number RE-6, as of June 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension trend data on pages i through ix and 35 through 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Aguilar School District Number RE-6's basic financial statements. The combining and individual fund financial statements, other schedules and state required schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, other schedules and state required schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements, other schedules and state required schedules, are fairly stated, in all material respect, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**Aguilar School District Re-6  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2017**

As management of the Aguilar School District Re-6, we offer readers of the Aguilar School District's financial statements this narrative overview and analysis of the financial activities of the Aguilar School District for the year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the District's financial statements, which follow this section.

**Financial Highlights**

Under GASB 68 the District's proportionate share of the net pension liability of the Colorado state retirement system, the Public Employees Retirement Association (PERA), is recorded as a liability of the District. In 2015 the District was required to implement GASB 68 resulting in a net pension liability of \$2,871,139 which increased to \$3,068,263 for 2016. In November 2016 the PERA Board adopted revised actuarial, economic and demographic assumptions causing a significant increase to the net pension liability for all school districts in Colorado. The District's net pension liability increased to \$5,991,150 for 2017.

The ending net position at June 30, 2017 decreased \$869,750 compared to \$364,408 the prior year. Revenues increased \$204,808 from the prior year while expenses increased by \$710,150. Following are highlights of changes in activities:

- During the FY 2016-17 revenues related to governmental activities were: State Equalization, \$1,358,856 up from \$1,170,307 the previous year; Specific Ownership, \$51,728 down from \$53,411 the previous year; Property Taxes, \$368,434 up from \$359,250 the previous year.
- The funded pupil count increased from 111.9 for FY 2015-16 to 112.7 for FY 2016-17. Per pupil operating revenue increased from \$13,664 to \$14,000 for the respective fiscal years. Total program funding from the School Finance Act is further impacted by the "Average Funded Pupil Count" and the risk add-on adjustment based on the number of students eligible for free lunch. Overall, total program funding increased \$48,735 over the previous year
- Federal aid and grants received in the General Fund totaled \$136,927 down from \$180,508 last year. The change is due to decreased spending from turnaround diagnostic grants that ended during 2016-17.
- Miscellaneous revenues for FY 2016-17 totaled \$9,047 compared to \$39,054 the prior year. The difference is insurance claim proceeds from a hail claim in the spring of 2016.
- Expenses increased \$710,150 primarily due to the increase to amortization of pension costs caused by changes to the underlying assumptions implemented by PERA in November 2016.

**Aguilar School District Re-6  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2017**

**Overview of the Financial Statements**

Management's discussion and analysis is intended to serve as an introduction to the District's basic financial statements. Comparison to the prior year's activity is provided in this document. Data for fiscal year 2017 is compared to fiscal year 2016. The School District's basic financial statements are comprised of three components: 1) district-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**District-Wide Financial Statements**

The district-wide statements report information about the District as a whole using accounting methods similar to those used in private sector companies. The statement of net position includes all of the government's assets, liabilities and deferred flows.

The district-wide statements report the District's net position is one way to measure the District's financial health or position. Increase or decrease in the District's net position could indicate whether the District's financial health is improving or deteriorating. When considering the District's financial health, one needs to consider many mitigating factors over which the District has little influence such as: enrollment, state funding, changes in the District's tax base, and outside economic influences. These factors, along with the condition of the school buildings, are very critical to a District's financial health, especially in a district with limited local control.

*Governmental activities:* Most of the district's basic services are included here, such as instruction, transportation, maintenance, operations, and administration. State funding from equalization and property taxes finance most of these activities. This information is comprised of all of the following Aguilar School District Re-6 District Funds: 1) the general fund, 2) the preschool fund, 3) the food service fund and 4) the bond redemption fund.

*Business-type activities:* The District had no business-type activities.

**Fund Financial Statements**

The fund financial statements are intended to provide more detailed information about the District's funds. It focuses on its most significant or "major" funds, not the District as a whole spending on particular programs. Like other local governments, Aguilar School District Re-6 uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The District's funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

*Governmental Funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) balances remaining at year-end which are available for spending.

**Aguilar School District Re-6  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2017**

These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash.

The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Aguilar School District Re-6 maintains individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the (1) general fund and (2) the bond redemption fund considered major funds and 3) non-major funds made up of the food service fund.

*Proprietary Funds:* Enterprise funds are used to report the same functions presented as business-type activities in the district-wide financial statements. The Aguilar School District Re-6 has no proprietary funds.

*Fiduciary Funds:* Fiduciary funds are used to account for resources held for the benefit of parties outside the government, such as student activity funds. The district is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the District's own programs.

**Notes to the Financial Statements**

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Financial Analysis of the District as a Whole**

As noted earlier, net position may serve over time a useful indicator of the district's financial position. The District's net position on June 30, 2017 was \$1,795,224 including restricted net position to meet TABOR reserve requirements totaling \$58,000, amounts held to meet debt obligations of \$74,034 and \$5,833 reserved for food service operations. Unrestricted net position of the District totaled \$(3,615,840). Following is a summary of the District's net position for 2017 compared to 2016:

**Highlights from the Statement of Net Position**

1. Cash and investments, reported as current assets, increased by \$161,269 while accounts receivable decreased by \$45,881 and current liabilities decreased by \$48,648.
2. Capital assets decreased by the annual depreciation totaling \$204,690.

**Aguilar School District Re-6  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2017**

3. Noncurrent liabilities increased \$2,879,639 primarily due to the net effect of paying off debt in the amount of \$50,000 and the increase in the District's estimated share of the PERA pension liability totaling \$2,922,887.
4. Deferred outflow of resources increased \$1,926,047 while deferred inflows decreased \$91,327 for a net change of \$1,834,720 entirely due to GASB 68 reporting of the District's share of PERA pension liability and changes to the underlying assumptions used to compute the liability for 2017.

**Governmental Activities**

Following are highlights of governmental activities changes from prior year. The majority of the cost for governmental activities is financed with state equalization and property taxes.

- Total Revenue increased by \$204,808 of which \$188,549 is from the increase in the State share of Public School Finance.
- Grants and Contributions increased by \$35,947 primarily due to a one-time insurance reimbursement for property damage offset by a decrease in federal grants for turnaround of academic performance, which ended during 2016-17.
- Expenses increased by \$710,150 of which \$840,406 is from amortization of pension costs under GASB 68. Operations and maintenance decreased \$84,550 primarily from the cost of facility repairs. Instructional staff support decreased \$82,016 primarily due to less professional development funded from grants that ended during 2016-17.
- Net position decreased by \$869,750 for the current year compared to \$364,408 the prior year, both of which were significantly impacted by GASB 68 reporting of the District's share of the PERA liability.

Following is a summary of current year revenues, expenses and changes in net position compared to the prior year.

**Business Type Activities**

The District has no business-type activities.

**Financial Analysis of the District's Funds**

Funding from the School Finance Act for the General Fund and Colorado Pre-School Project Fund is based on the pupil count and the per pupil funding amount set by the Colorado Department of Education. Total program funding is made up of local property taxes, specific ownership taxes and State equalization, which is the State's share of School Finance Act funding. Total program funding, which makes up 72% of the Districts total governmental fund revenue, increased \$48,735 primarily due to a \$335 increase in per pupil operating revenue.

**Aguilar School District Re-6  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2017**

Per pupil operating revenue increased, in part, due to an increase in the number of students eligible for free lunch, which affects the at-risk funding added to the base per pupil amount. Other increases to per pupil funding are from normal inflationary increases and a reduction in the negative adjustment made to balance the State budget.

Students enrolled in pre-school who qualify for and are funded by the Colorado Pre-School Project (CPP) program are funded at one-half of the per pupil rate. Students enrolled in kindergarten are funded at 58% by the School Finance Act with CPP providing additional funding for full day Kindergarten. All other students enrolled in first through twelfth grade are funded at 100% of the per pupil amount.

**Capital Assets and Debt Administration**

There were no capital asset additions in 2017. Table 4 shows capital assets for 2017 compared to 2016 (net of depreciation). Accumulated depreciation at June 30, 2017 is \$3,651,670 compared to 3,446,980 at June 30, 2016.

**Table 4

**Long-term Debt**

As of June 30, 2017 the Aguilar School District Re-6 held the following long-term debt:

- During the fiscal year ended June 30, 2001 the District with district voter approval issued general obligation bonds to assist in the financing of construction projects. These bonds were issued in 2002 for the original amount of \$ 900,000 and mature serially on December 1 in amounts varying from \$ 30,000 to \$ 70,000 with interest from 3.00% to 5.75% payable semi-annually. The general obligation bond balance for the year ended June 30, 2017 was \$305,000 compared to \$355,000 the prior year, a decrease of \$50,000.

**Aguilar School District Re-6  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2017**

**Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstances that could significantly affect its financial health in the future.

- Enrollment decreased annually from FY 2010-2013. In 2014 enrollment climbed back to its 2011 level and increased again in 2015 by 20 students. Funded pupil count decreased 3.6 in 2016 and increased 0.8 in 2017. Funded pupil count for 2018 is not expected to change from the 2017 level. Per pupil funding was predicted to increase by \$424 for 2017-18.
- The District completed construction of the new Jr/Sr. High School addition and took occupancy on November of 2005. The District now has a highly functional preschool thru twelfth grade educational facility where deferred maintenance is not an issue that is common to many other districts in Colorado.
- The United States and the State of Colorado experienced slowing economic conditions for several years. One impact of this economic slowing was a reduction in the State of Colorado's general fund revenues and annual decreases in per pupil funding for schools to balance the State budget. Revenues are recovering, but it will take several years to reach the pre-recession per pupil funding level plus annual increases required by statute for the recessionary years.
- During the recession, the District relied on its reserves to continue to fund educational programs. The District can no longer look to reserves to sustain its programs, therefore, the District will need to closely monitor its operating costs and adjust to expected revenues.

Amounts reported for governmental activities in the statement of net position are different because:

<u>Total Fund Balance – Governmental Funds</u>	434,659
Capital Assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$9,229,867 and the accumulated depreciation is \$3,651,670.	5,578,197
Property tax revenue is recognized when earned (claim to resources established) rather than when “available.” All of the deferred property tax is shown as not available in the funds.	14,380
Interest is recognized when paid in the funds. This is accrued interest payable to year end.	(1,462)
Bond premiums are recognized as revenues when received in the funds.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND  
 BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
 For the Year Ended June 30, 2017

---

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances – Total Governmental Funds 191,306

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$3,000 are capitalized and the cost is allocated over their estimated used lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlays More Than \$3,000	-	
Depreciation Expense	(204,690)	(204,690)

Property tax revenues are not recognized for amounts levied and due but not “available” at year end and are reported as deferred revenue in the governmental funds. They are, however, recorded as revenues in the statement of activities. 5,660

The governmental funds report debt proceeds as an other financing source, while repayment of debt principal is reported as an expenditure. The effect of premiums is recognized when the debt is issued in governmental funds, whereas these amounts are deferred and amortized in the statement of activities. Interest expense is recognized as it accrues in the statement of activities regardless of when it is due. The net effect of these differences follows:

Repayment of Debt Principal	50,000	
Change in Compensated Absences	(8,432)	
Interest Expense	<u>1,919</u>	43,487

The increase in net pension liability, along with the changes and amortizations of deferred flows associated with the net pension liability are not recorded at the fund level:

AGUILAR SCHOOL DISTRICT RE-6  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2017

---

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Aguilar School District RE-6 (the District) conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of the more significant policies:

The District operates under an elected Board of Education with seven members.

The District is the lowest level of government, which is considered to be financially accountable over all activities related to public school education in Aguilar School District RE-6. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. The Board of Education members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

A.      Reporting Entity

Governmental Accounting Standards board (GASB) Statement No. 14 (as amended by Statements No. 34, No. 39 and No. 61)), "*The Financial Reporting Entity*" (GASB No. 14) describes the financial reporting entity as it relates to governmental accounting. According to this Statement, the financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations whose exclusion from the reporting entity's financial statements would cause those statements to be misleading or incomplete. Any organizations that can be described by these last two items are included with the primary government in the financial statements as component units.

This District is not included in any other governmental "reporting entity" as defined in GASB No. 14 and does not include any other component unit as part of its "reporting entity". As required by accounting principles generally accepted in the USA, these basic financial statements present the District (the primary government) and its component units.

NOTE 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements

The Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's governmental and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C.      Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, operating statements present increases and decreases in net current assets and unreserved fund balance as a measure of available spendable resources. This means that only current liabilities are generally included on their balance sheets.

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services or privileges provided 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

All governmental fund types use the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. Revenues are considered to be available if collected within 60 days after year-end.

Property and automotive ownership taxes are reported as receivables and deferred inflows when levied and as revenues when due for collection in the following year and determined to be available.

Grants and entitlement revenues are recognized when compliance with matching requirements is met. A receivable is established when the related expenditures exceed revenue receipts.

Expenditures are recorded when the related fund liability is incurred with the exception of general obligation and capital lease debt service which is recognized when due and certain accrued sick and personal pay which are accounted for as expenditures when expected to be liquidated with expendable available financial resources.

Proprietary fund types are accounted for on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. The measurement focus in these funds is on the flow of economic resources and emphasizes the determination of net income. All assets and all liabilities associated with their activity are included on their statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's ongoing operations. The principal operating revenues of the District's proprietary funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C.      Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

D.      Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred flows, fund equity, revenues and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The major funds presented in the accompanying basic financial statements are as follows:

- Major Governmental Funds
  1. General Fund – the general operating fund of the District; used to account for all resources that are not required legally or by sound financial management to be accounted for in another fund.
  2. Bond Redemption Debt Service Fund – used to account for the accumulation of resources for, and the payment of, long-term general obligation debt principal, interest, and related costs.

Additionally, the District reports the following fund type:

The Student Activity Fund – this fund is used to account for the activities of student clubs and organizations held in a fiduciary capacity by the District.

E.      Cash and Investments

Cash represents amounts on deposit with financial institutions or held by the District. The District is allowed to invest in the following types of investments: short-term certificates of deposit, repurchase agreements, money market deposit accounts, mutual funds, government pools, and U.S. Treasury Obligations. The District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments are recorded at fair value in accordance with GASB Statement No. 72 *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F.    Receivables

Property taxes levied in 2016 but uncollected in 2017 are identified as property taxes receivable. Amounts of property taxes that are not available at June 30, 2017 are recorded as deferred inflows, and are presented net of an allowance for uncollectible taxes. Program grants are recorded as receivables and revenues at the time reimbursable project costs are incurred.

G.    Inventories

Materials and supplies inventories are stated at cost. Inventories recorded in the Food Services Fund consist of purchased and donated commodities. Purchased inventories are stated at cost. Donated inventories, received at no cost under a program supported by the Federal Government, are recorded at their estimated fair value at the date of receipt.

The cost of all inventories is recorded as an asset when the individual inventory items are purchased, and as an expenditure or expense when consumed.

H.    Capital Assets

Capital assets, which include property, vehicles and equipment, are utilized for general District operations and are capitalized at actual or estimated cost. Donations of such assets are recorded at estimated fair value at the time of donation. Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Maintenance, repairs, and minor renovations are recorded as expenditures when incurred. Major additions and improvements are capitalized. When assets used in the operation of the governmental fund types are sold, the proceeds of the sale are recorded as revenues in the appropriate fund. The District does not capitalize interest on the construction of capital assets in governmental funds. However, the District does capitalize interest on the construction of capital assets in business-type activities.

The monetary threshold for capitalization of assets is \$3,000. The District's capital assets are depreciated using the straight-line method over the estimated useful lives of the fixed assets (3-40 years). Depreciation of all capital assets is charged as an expense against their operations. Depreciation is recorded in the year of acquisition.

NOTE 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

J. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net position. The District records long-term debt of governmental funds at the face value. The District's general obligation bonds are serviced from property taxes and other revenues of the Debt Service Fund. Capital leases are serviced from property taxes and other revenues of the General Fund. The long-term accumulated unpaid accrued sick leave is serviced from property taxes and other revenues by the respective fund type from future appropriations.

K. Constitutional Amendment

In November 1992, Colorado voters approved Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations, which apply to the State of Colorado and local governments. It requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of an expiring tax, or tax policy change directly causing a net tax revenue gain to any entity.

In November of 1999 the registered voters approved a ballot resolution authorizing Aguilar School District RE-6 to collect, retain and expend all revenues from any source provided that no property tax mill levy be increased without the consent of the voters.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future years. TABOR requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be three percent or more of fiscal year spending (excluding bonded debt service). As of June 30, 2017 the District reserved \$58,000 for this purpose.

AGUILAR SCHOOL DISTRICT RE-6  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2017

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Constitutional Amendment (continued)

Spending and revenue limits are determined based on the prior fiscal year's spending adjusted for inflation in the prior calendar year plus annual increases in funded student enrollment. Fiscal year spending is generally defined as expenditures and reserve increases with certain exceptions.

L. Property Taxes

Under Colorado law, all property taxes are due and payable in the year following the year levied. The 2016 property tax calendar for Las Animas County was as follows:

Levy Date	December 22, 2016
Lien Date	January 1, 2017
Tax Bills Mailed	January 1, 2017
First Installment Due	February 28, 2017
Second Installment Due	June 15, 2017
If Paid in Full, Due	April 30, 2017
Tax Sale – 2015 Delinquent Property Taxes	October 25, 2016

M. Accumulated Staff Leave

District policy allows for the accumulation of staff leave. Staff eligible for retirement under the Public Employees Retirement Association (PERA) statutes are paid an amount of money equal to their number of unused leave days times the daily per diem when there is a separation from service. Maximum reimbursable days may not exceed 60.

Compensated absences are reported as non-current liabilities in the government-wide financial statements. As of June 30, 2017, the District has recorded an estimated liability of \$107,676 relating to accrued sick leave payable.

A summary of changes in compensated absences is as follows:

	Balance <u>July 1, 2016</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>June 30, 2017</u>
Accumulated Sick Leave	<u>99,244</u>	<u>8,432</u>	<u>-</u>	<u>107,676</u>

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Interest Expense

All interest expense has been reported as unallocated in the Government-wide financial statements.

NOTE 1    SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P.        GASB Statement No. 54

The Government Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

1. Nonspendable such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned).
2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District Board of Directors (the District's highest level of decision-making authority).
4. Assigned fund balance classification is intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed.
5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund Balance Classification Policies and Procedures

Committed Fund Balance Policy:

The District's Committed Fund Balance is fund balance reporting required by the School Board, either because of a School Board Policy in the School Board Policy Manual, or because of motions that passed at School Board meetings.

Assigned Fund Balance Policy:

The District's Assigned Fund Balance is fund balance reporting occurring by School Board Administration authority, under the direction of the Chief Business Officer.

Order of Fund Balance Spending Policy

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First, non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then unrestricted fund balances are determined following the order of committed, assigned, and unassigned.

Fund Balance Classification by Fund:

	<u>General Fund</u>	<u>Bond Redemption Fund</u>	<u>Food Service Fund</u>	<u>Total Governmental Funds</u>

NOTE 2      RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental funds balance sheet includes a reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities.

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for governmental fund statements to the economic resources measurement and full accrual basis used for government-wide statements. However, certain items having no effect on measurement and basis were eliminated from the government fund statements during the consolidation of governmental activities.

NOTE 3      BUDGETARY INFORMATION

Revenues and expenditures are controlled by budgetary accounting systems in accordance with various legal requirements. The budgeted revenues and expenditures represent the original adopted budget as subsequently adjusted by the Board of Education in accordance with Colorado School Laws. Budgets are generally prepared on the same basis as that used for accounting purposes.

The District has set procedures to be followed in establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the Business Manager submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public notices are released to obtain taxpayer comments.
3. Prior to June 30, the budget is legally enacted through passage of a resolution.
4. The Business Manager is authorized to transfer budgeted amounts between categories within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education.
5. Formal budgetary integration should be employed as a management control device during the year for the General Fund, Debt Service Funds, and Special Revenue Funds.

NOTE 3      BUDGETARY INFORMATION (Continued)

6. Budgets for the General, Debt Service, and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets are adopted for the Pupil Activity Agency Fund.

All appropriations lapse at the end of each fiscal year. Authorization to transfer budgeted amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent of Schools and may be delegated to an appropriate level of management. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

Budgetary amounts reported in the accompanying basic financial statements are as originally adopted and amended by the Superintendent and/or the Board of Education throughout the year.

NOTE 4      CASH AND INVESTMENTS

Deposits

The Colorado Public Deposit Protection Act (PDPA), requires that all units of local government deposit cash in eligible public depositories, eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

At June 30, 2017, the District's bank balance and corresponding carrying balance were as follows:

	<u>Carrying Balance</u>	<u>Bank Balance</u>
Insured (FDIC)	250,000	250,000
Uninsured, Collateralized under the Public Deposit Protection Act of the State of Colorado	227,576	304,528

Cash with County Treasurer	101,561	-
Cash on Hand	300	-
<u>Total Cash and Deposits</u>	<u>642,822</u>	<u>554,525</u>

As presented above, deposits with a bank balance of \$304,528 and a carrying balance of \$227,576 as of June 30, 2017 are uninsured, are exposed to custodial risk, and are collateralized with securities held by the pledging financial institution.

ACCRUED SALARIES AND BENEFITS

Salaries and retirement benefits of certain contractually employed personnel are paid over a twelve-month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, and June 30, 2017 are estimated to be \$138,293. Accordingly, the accrued compensation is reflected as a liability in the accompanying financial statements of the various funds.

NOTE 8      PENSION PLAN

**Defined Benefit Pension Plan**

Summary of Significant Accounting Policies

Pensions. Aguilar School District RE-6 participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description. Eligible employees of the Aguilar School District RE-6 are provided with pensions through the School Division Trust Fund (SCHDTF) - a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investment/pera-financial-reports](http://www.copera.org/investment/pera-financial-reports).

Benefits provided. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s), under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.

AGUILAR SCHOOL DISTRICT RE-6  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2017

---

NOTE 8      PENSION PLAN (Continued)

- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs), referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contributions.* Eligible employees and Aguilar School District RE-6 are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. 24-51-401, et seq. Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below.

Rates are expressed as a percentage of salary as defined in C.R.S. §24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the Aguilar School District RE-6 is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from Aguilar School District RE-6 were \$172,961 for the year ended June 30, 2017.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2017, the Aguilar School District RE-6 reported a liability of \$5,991,150 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The Aguilar School District RE-6 proportion of the net pension liability was based on Aguilar School District RE-6 contributions to the SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the Aguilar School District RE-6 proportion was 0.0201 percent, which was 0.00006 percent less than its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the Aguilar School District RE-6 recognized pension expense of \$905,513. At June 30, 2017, the Aguilar School District RE-6 reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

*Actuarial assumptions.* The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial Cost Method	Entry Age
Price inflation	2.80 percent
Real wage growth	1.10 percent
Wage Inflation	3.90 percent
Salary increases, including wage inflation	3.90 – 10.10 percent
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.50 percent
Discount Rate	7.50 percent
Future post-retirement benefit increases:

NOTE 8      PENSION PLAN (Continued)

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 – 9.70 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Mortality rates used in the December 31, 2015 valuation were based on the RP-2000 combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years. Active member mortality was based upon the same mortality rates but adjusted to 55 percent of the base rate for males and 40 percent of the base rate for females. For disabled retirees, the RP-2000 Disabled Mortality Table (set back 2 years for males and set back 2 years for females) was assumed.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability roll-forward procedures.

NOTE 8      PENSION PLAN (Continued)

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The long-term expected rate of return on pension plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

- Investment rate of return assumption decreased from 7.50 percent per year, compounded annually, net of investment expenses to 7.25 percent per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80 percent per year to 2.40 percent per year.
- Real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90 percent per year to 3.50 percent per year.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best -estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

\*In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Discount rate.* The discount rate used to measure the total pension liability was 5.26 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated economic and demographic actuarial assumptions adopted by PERA’s Board on November 18, 2016.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.

NOTE 8      PENSION PLAN (Continued)

- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute. AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86 percent, resulting in a discount rate of 5.26 percent.

As of the prior measurement date, the projection test indicated, the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on plan investments of 7.50% was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate. The discount rate was 7.50 percent, 2.24 percent higher compared to the current measurement date.

**NOTE 8**      **PENSION PLAN (Continued)**

*Sensitivity of the Aguilar School District RE-6 proportionate share of the net pension liability to changes in the discount rate.* The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease (4.26%)	Current Discount Rate (5.26%)	1% Increase (6.26%)
Proportionate share of the net pension liability	7,533,679	5,991,150	4,734,816

*Pension plan fiduciary net position.* Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**Defined Contribution Pension Plan**

**Voluntary Investment Program**

*Plan Description* – Employees of the Aguilar School District RE-6 that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA, Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees, PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Funding Policy* – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions and investment earnings. For the year ended June 30, 2017, program members contributed \$1,422.

**Other Post-Employment Benefits**

**Health Care Trust Fund**

*Plan Description* – The Aguilar School District RE-6 contributes to the Health Care Trust Fund (“HCTF”), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

NOTE 8      PENSION PLAN (Continued)

*Funding Policy* – The Aguilar School District RE-6 is required to contribute at a rate of 1.02 percent of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the Aguilar School District RE-6 are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ending June 30, 2017, 2016 and 2015, the Aguilar School District RE-6 contributions to the HCTF were \$9,546, \$8,832 and \$8,932, respectively equal to their required contributions for each year.

NOTE 9      JOINT VENTURE

Not reflected in the accompanying financial statements is the District's participation in the South Central Board of Cooperative Educational Services (BOCES). The BOCES is an organization that provides member districts educational services at a shared lower cost per district.

The District has one member on the Board. This Board has final authority for all budgeting and financing of the joint venture. The BOCES by-laws indicated that the entity is to have perpetual existence, but in the event of its dissolution, all assets shall be divided among member school districts on a pro rata basis determined by the BOCES board. The joint venture summary audited financial information as of June 30, 2016, the latest year for which audits information is available is as follows:

Assets and Deferred Outflows	2,980,723
Liabilities and Deferred Inflows	<u>7,804,017</u>
Net Position	<u>(4,823,294)</u>
Revenues	3,658,221
Expenses	<u>3,253,671</u>
Change in Net Position	<u>404,550</u>

The BOCES is not included as a component unit of the District as the financial responsibility is minimal, there is no financial interdependency, the District does not have the ability to significantly influence the operations of the BOCES and the District is not accountable for fiscal matters of the BOCES. The BOCES files an audited financial statement annually with Colorado State Auditor's Office.

NOTE 10      COLORADO SCHOOL DISTRICT SELF INSURANCE POOL

The District belongs to the Colorado School District's Self-Insurance Pool. The Pool was established by the Colorado Association of School Boards (CASB) to provide insurance coverage to participants in the areas of General Liability, Errors and Omissions, Automobile Liability, Auto Physical Damage, Auto Personal Injury Protection, Real and Personal Property, Crime, Workers' Compensation and other coverage. The Board of Directors is composed of eight persons; seven of whom are appointed by the Board of Directors of CASB and the Executive Director of CASB. The Pool is managed by an independent manager chosen by the Board of Directors. Each member's initial contribution and subsequent contributions are determined by the Pool based on factors including, but not limited to, the Aggregate Pool claims, the cost of Administrative and other operating expenses, the number of participants, the adequacy of both Operating and Reserve Funds and other factors touching on the status of the Pool or an individual participant, and as approved by the Colorado Insurance Commissioner.

As the District did not exercise oversight responsibility nor have sufficient control over Pool activities, the Pool is not a component unit of the District and only the District's share of contributions to the Pool is recorded as Expenditures in the Insurance Reserve Fund.

The District's share in the Pool is not determinable from current information, but is estimated to be less than 1%. The District's share, if calculated, would not be material to the Pool's financial information at June 30, 2017.

An audited summary of the Colorado School District's Pool financial information at December 31, 2016 (latest information available) follows:

NOTE 11     RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District participates in the Colorado School District Self Insurance Pool. The Pool insures property and liability exposures through contributions made by member districts. The District does not maintain an equity interest in the self-insurance pool. The District funds its pool contributions, outside insurance purchases, deductibles, and uninsured losses through the General Fund.

The District continues to carry commercial insurance for all other risks of loss, including errors and omissions and property. Settled claims resulting from these risks have not exceeded commercial or District coverages in any of the past three years. There has been no significant reduction in insurance coverage from the prior year in any of the major categories of risk.
