INDEPENDENT AUDITOR'S REPORT

**To the Board of Education
Roaring Fork School District RE-1
Glenwood Springs, Colorado**

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Roaring Fork School District RE-1, (the "District"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this include the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considered internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also include evaluation of the appropriateness of accounting policies used and the reasonableness of significant account estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Member: American Institute of Certified Public Accountants

**INDEPENDENT AUDITOR'S OPINION
To the Board of Education
Roaring Fork School District RE-1**

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Roaring Fork School District RE-1, as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis in Section B be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules in Section E are not a required part of the District's basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements taken as whole. The introductory section, combining fund financial statements, individual budgetary schedules, the Colorado Department of Education Auditor's Electronic Data Integrity Check Figures and the statistical section listed in the accompanying table of contents are presented for the purposes of additional analysis and are not a required part of the basic financial statements. The combining fund financial statements, the individual budgetary schedules, and the Colorado Department of Education Auditor's Electronic Data Integrity Check Figures are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

**INDEPENDENT AUDITOR'S OPINION
To the Board of Education
Roaring Fork School District RE-1**

Other Matters (continued)

In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express do not express an opinion or provide any assurance on them

Additionally, the Schedule of Expenditures of Federal Awards included in the Single Audit section is presented for purposes of additional analysis as required by the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance") and is not a required part of the District's financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying account and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepting in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with provisions of laws, regulations, contract, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the District's internal control over financial reporting and on compliance.

Roaring Fork School District RE-1

Management's Discussion and Analysis

**Roaring Fork School District RE-1
Management's Discussion and Analysis
As of and for the fiscal year ended June 30, 2017**

As management of the Roaring Fork School District RE-1 (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017.

Financial Highlights

- On the Fund Financial Statements, as of June 30, 2017, General Fund unassigned and assigned fund balances totaled \$11.1 million or 21% of General Fund expenditures. Fund balance reserved under the provisions of TABOR was \$1.7 million. The total Governmental Funds fund balance was \$90.5 million compared to \$163.8 million for the prior year. The significant decrease in fund balance was due to the expenditure of building project funds associated with a bond election passed by voters in November 2015.
- On the District-wide Financial Statements, the liabilities of the District exceeded its assets as of June 30, 2017 by \$76.3 million (net position) compared to \$41.7 million for the prior year. The negative net position is due to the implementation of Government Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions (an Amendment of GASB No. 27)*, which requires employers to recognize long-term pension liabilities. The District's allocated share of the Colorado Public Employees' Retirement Association (PERA) net pension liability was \$135 million compared to \$97.6 million for the prior year, resulting in a significant reduction in the District's net position.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements have three components: 1) District-wide financial statements; 2) Fund financial statements; and 3) Notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

District-wide Financial Statements: The district-wide financial statements are designed to provide readers with a broad overview of the District's finances, using accounting methods similar to those used by a private-sector business.

The Statement of Net Position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the district's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and changes in long-term compensated absences).

The district-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues. Most of the District's basic services are reflected here, such as instructional services, support services and student activities. Other services include activities relating to building maintenance and operations, student transportation, food service, and technology and administration.

The district-wide financial statements can be found on pages C1 and C2 of this report.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide more detailed information about the operations of the District by fund instead of the District as a whole. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, unlike the district-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. The District's governmental funds include the General Fund, Food Service Fund, Designated Purpose Grant Fund, Capital Projects Capital Reserve Fund, Building Fund, Bond Redemption Fund and Pupil Activity Special Revenue Fund.

Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for all of its funds. Budgetary comparison statements have been provided to demonstrate compliance with state budget statutes.

The basic major governmental fund financial statements can be found on pages C3 through C6.

Fiduciary Funds: Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. Fiduciary Funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for Fiduciary Funds is much like that used for Proprietary Funds. The Fiduciary Fund used by the District accounts for student clubs and other organizations.

The basic Fiduciary Fund financial statement can be found on page C7 of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements. The Notes to the Financial Statements can be found on pages D1 to D33 of this report.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents supplementary information concerning the District's annual appropriated budgets.

District-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a district's financial position. For the year ended June 30, 2017, the District's total net position was (\$76,268,767), which included the District's net pension liability of \$223 million. This liability is the District's proportionate share of the School Division Trust Fund pension liability, administered by the Public Employees' Retirement Association of Colorado. This was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016.

The following table provides a comparative summary of the District's net position as of June 30, 2017 and 2016:

Roaring Fork School District RE-1 Summary of Net Position

	Governmental Activities	
	FY 2017	FY 2016
Assets:		
Current and other assets	\$ 117,848,746	175,781,850
Capital assets	182,056,801	114,073,111
Total Assets	<u>\$ 299,905,547</u>	<u>289,854,961</u>
Deferred Outflows	<u>\$ 91,041,729</u>	<u>20,004,012</u>
Liabilities:		
Other liabilities	\$ 26,664,890	10,862,974
Long-term liabilities	439,402,183	339,115,072
Total Liabilities	<u>\$ 466,067,073</u>	<u>349,978,046</u>
Deferred Inflows	<u>\$ 1,148,970</u>	<u>1,608,931</u>
Net Position		
Net investment in capital assets	\$ 31,190,959	28,048,458
Restricted	13,678,635	15,889,462
Unrestricted	(121,138,361)	(85,665,924)
Total Net Position	<u>\$ (76,268,767)</u>	<u>(41,728,004)</u>

Of total assets, 61% are capital assets (e.g. land, buildings, and equipment) compared to 39% for the prior year. The District uses these assets to provide instruction and related services to its students. The increase in this percentage is due to an increase in capital assets associated with bond program construction projects, resulting in a corresponding decrease in cash and cash equivalents.

Deferred outflows have increased \$71 million due primarily to an increase in deferred outflows related to the District's share of the PERA pension liability. Deferred outflows represent a consumption of net assets by the pension that actually relate to a future reporting period. In this case, the significant change results from modified actuarial assumptions used to determine deferred outflows, including increased mortality rates and decreased rates of return on investments. See further description on page D23.

Of total liabilities as of June 30, 2017, 48% represents the net pension liability (see description above), and 46% represents outstanding principal and unamortized premium on general obligation debt.

District-wide Financial Analysis (continued)

Note that net position may serve as an indicator of the District's financial position over time. The District's net position has decreased by approximately \$34.5 million from the prior year due entirely to the PERA pension liability. Had it not been for this change, the District's net position would have increased by \$2.9 million.

The PERA board of trustees has proposed a comprehensive package of reforms to PERA benefits in order to improve PERA's funding status. These changes will be deliberated during the 2018 legislative session. For more information, visit copera.org.

The following table presents a summary of activities and changes in net position for the fiscal years ended June 30, 2017 and 2016:

Roaring Fork School District RE-1 Summary of Activities and Changes in Net Position

	Governmental Activities	
	FY 2017	FY 2016
Revenues:		
<i>Program revenues</i>		
Charges for services	\$ 3,097,365	\$ 3,062,058
Operating grants and contributions	6,267,446	5,870,919
Capital grants and contributions	1,435,494	253,262
<i>General revenues</i>		
Property taxes	46,395,077	46,951,715
Specific ownership taxes	2,467,244	1,994,413
State revenue	19,173,144	18,702,581
Investment earnings	605,407	146,250
Other	894,816	1,054,215
Total revenues	<u>80,335,993</u>	<u>78,035,413</u>
Expenditures:		
Direct Instruction	66,564,719	44,648,669
Indirect Instruction	9,951,801	5,959,523
Transportation	3,161,094	1,825,363
Operations and maintenance	7,380,781	5,819,055
Support services	3,584,144	2,965,982

Student activities	1,694,567	1,755,338
Food services	2,256,642	1,590,776
Payments to component unit	1,230,087	1,229,753
Interest	9,949,671	4,116,920
Total Expenses	<u>114,876,756</u>	<u>76,017,164</u>
Change in net position	(34,540,763)	2,018,249
Net position- July 1	(41,728,004)	(43,746,253)
Net position - June 30	<u>\$ (76,268,767)</u>	<u>\$ (41,728,004)</u>

Governmental Activities:

Change in Net Position

Net position from governmental activities decreased by \$34.5 million as reflected above. This change is comprised of increases in total assets and deferred outflows of \$81.1 million offset by increases in total liabilities and deferred inflows of \$115.6 million.

The increase in total assets and deferred outflows is comprised of the following:

- Current assets decreased by \$57.9 million due primarily to a decrease in cash and invested assets resulting from the expenditure of bond proceeds associated with voter-approved general obligation bonds issued for capital improvements.
- Capital assets increased by \$68 million as a result of current year depreciation expense of \$6.9 million offset by net capital asset additions of \$74.9 million.
- Deferred charges increased by \$71 million due primarily to an increase in deferred pension expenses (see further description above, and on page D23).

The increase in total liabilities and deferred inflows is the result of the following:

- Current liabilities increased by about \$15.8 million due primarily to an increase in accounts payable associated with construction-in-progress on bond projects.
- Long-term liabilities increased by \$100.3 million due primarily to an increase in the PERA pension liability of \$109.5 million offset by a decrease in bonded debt of \$8.3 million.

Operating Revenues

The majority of school district operating revenues are generated from Total Program Funding as determined by the School Finance Act of 1994 (see further discussion in Economic Factors below). Total Program Funding is comprised of general fund property taxes, specific ownership taxes, and state equalization (a portion of state funding). Of the \$46.4 million in local property taxes reflected above, approximately 48% is generated under the School Finance Act, 19% is generated by additional voter-approved mill levy overrides, and 33% is generated by the bond redemption fund mill levy for the repayment of interest and principal on voter-approved debt.

The graph below summarizes total revenues by source for governmental activities:

Financial Analysis of the District's Funds

The District utilizes fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balances may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$90,532,867. Of this amount, \$76 million represents the Building Fund, which will be spent within two years with the completion of projects associated with the successful November 2015 bond election. Excluding the Building Fund, combined ending fund balances were \$30.5 million, a decrease of \$100,000 from the prior year.

The following graph provides a view of the District's ending fund balances for the last five fiscal years (excluding the Building Fund):

General Fund Analysis

The District's budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. Original and final adopted budgets, as well as variances between actual revenues, expenditures, and final budgeted amounts are reflected in the Required Supplementary Information beginning on page E1 of the audited financial statements. Excluding the temporary Building Fund, the most significant budgeted fund is the General Fund.

Differences between the original and final budget for the General Fund

State Law permits school districts to adopt budget revisions and supplemental appropriations for additional revenues received. There were no changes in budgeted revenues or expenditures for the General Fund during fiscal year 2016/17.

Variances between budgeted and actual revenues for the General Fund

As reflected on page E1, General Fund revenues exceeded budget by \$1.4 million. The primary contributors to this favorable budget variance include the following:

- \$102,000 due to higher than anticipated enrollment
- \$108,000 in additional property taxes due to a supplemental tax levy for refunds and abatements issued by counties in 2015/16, which were re-levied for collection in 2016/17
- \$398,000 due to higher than expected specific ownership tax collections (vehicle registration taxes)
- \$97,000 for higher than anticipated rates of return on invested balances
- \$108,000 in additional funds received under the English Language Proficiency Act for activities aimed at improving the delivery of instruction to second language learners
- \$73,000 in additional funding under the State's READ Act targeted to increasing the achievement of students with significant reading deficiencies
- \$192,000 in additional e-rate funding associated with a significant investment in technology infrastructure (the related expenditures are reflected in the capital reserve capital projects fund)
- \$82,000 for supplemental one-time at-risk funding
- \$134,000 for increased Medicaid reimbursement for services provided to Medicaid-eligible students.

Variances Between Budgeted and Actual General Fund Expenditures

Direct Instruction:

Direct instruction expenditures were under budget by \$2.1 million due primarily to:

- A credit of \$133,000 issued by Mountain Board of Cooperative Education Services based on a prior year accounting of actual program costs vs. amounts assessed
- Unspent funds allocated for:
 - Curricular materials and related professional development – \$931,000
 - Building materials, supplies, and budget contingency funds - \$552,000
 - Technology mill levy funds - \$458,000

These funds will be carried over for expenditure in 2017/18. It should be noted that while we budget annually for the complete expenditure of unspent allocations, that is not likely to occur in any given year since amounts are often planned to accumulate over a number of years prior to their expenditure (for example, for the replacement of a technology equipment or network upgrades on a four year cycle).

Indirect Instruction:

Indirect instruction expenditures were under budget by \$341,000 due to the elimination of dean of students position, unfilled nursing positions, and unused funds under the English Language Proficiency Act that will be carried over for expenditure in 2017/18 to acquire curricular resources for the bilingual programs at Basalt Elementary and Riverview Schools.

Transportation:

Transportation was over budget by \$34,115 as a result of higher than anticipated wage costs resulting from a restructuring of the transportation department including the addition of a director to the department, and an decrease in driver position vacancies.

Operations and Maintenance:

Expenditures were under budget by \$565,745 due primarily to unfilled custodial, maintenance and grounds positions (\$267,000), as well as savings on natural gas and electricity costs (\$181,000) resulting from lower than anticipated rate increases as well as the implementation of energy conservation measures including the installation of high efficiency boilers and LED lighting retrofits.

General Fund Budget – Fiscal year 2017/18:

The complete budget document can be viewed on the District's website at www.rfsd.k12.co.us.

Revenues: The budget assumes no change in enrollment, and an increase in per pupil funding from \$7,651 to \$7,902 as approved by the legislature prior to the budget's adoption in June 2017. Due to the impact of the economic recession on the State's budget, per pupil funding is approximately 11% or \$5.4 million less than the amount the district is entitled to under the Colorado School Finance Act before the application of the "budget stabilization factor" instituted during the recession.

Expenditures: The budget reflects the following assumptions relative to salaries and benefits, which comprise approximately 82 percent of general fund expenditures:

- Staff salaries will increase an average of 1.8 percent effective with the new fiscal year. This percentage is consistent with the typical cost-of-living increase granted in the fall.
- The District's contribution to employee health insurance will increase 6% from \$661 to \$701 per month per full-time employee.
- The District's contribution to PERA will increase by 0.5% from 19.65% to 20.15% of employee wages in accordance with Colorado statutes.

Reserves: The budget reflects scheduled uses of reserves of about \$2.9 million. In the unlikely event that 100 percent of such funds are expended in fiscal year 2017/18, the District's General Fund reserve (fund balance) is projected to be \$9.1 million as of June 30, 2018. This reserve level exceeds the District's "target" reserve of \$5.7 million. The target reserve level is equal to 10 percent of general fund revenues excluding funds allocated to the District charter school. Additionally, reserves would significantly exceed the statutorily required minimum emergency reserve of \$1.7 million established by the TABOR Amendment. □A detailed schedule of reserve uses is included in the budget document. All reserve amounts budgeted for expenditure in fiscal year 2017/18 are for one-time expenditures, such as capital projects, or represent areas of the budget unspent in 2016/17 that will be carried over for expenditure in 2017/18.

Capital Assets

The District's governmental capital assets, net of accumulated depreciation, totaled \$182,057,000 as of June 30, 2017. The District capitalizes assets, including land, buildings and improvements, equipment, and construction in progress, with an original cost greater than \$5,000 and a useful life of more than two years.

Additional information as well as a detailed classification of the District's net capital assets can be found in the Notes to the Financial Statement on page D13 of this report.

Long-Term Debt

As of the end of the current fiscal year, the District's outstanding general obligation debt was \$191.7 million representing a decrease of approximately \$8 million from the prior year.

Colorado School law limits the amount of bonded indebtedness to the greater of 20% of the most current valuation for assessment of the taxable property in the District as certified by the County Assessor's Office or 6% of the most recent actual valuation of the taxable property in the District, as certified by the County Assessor's Office. The District was below the limits of \$206 million and \$537 million, respectively, as of June 30, 2017.

Additional information, as well as a detailed classification of the District's total long-term liabilities, can be found in the Notes to the Financial Statements on pages D15 through D21 of this report.

Economic Factors

The Public School Finance Act of 1994 is the largest source of revenue for the District's operating funds. The School Finance Act calculates per-pupil funding by school district based upon a formula that takes into account cost of living, number of students, district size, personnel vs. non-personnel costs, number of at-risk students, among other factors. The purpose of this act was to establish a financial base of support for public education, to move toward a uniform mill levy tax state-wide for all districts, and to limit future growth of and reliance upon property tax to support public education. Funding sources under the School Finance Act are derived by the following formula:

$$\text{Total Program Funding} = \text{local property taxes} + \text{general specific ownership taxes} + \text{state equalization}$$

For fiscal year 2016/17 and 2015/16, local property and specific ownership taxes comprised 56% of Total Program Funding (TPF) while state equalization generated 44%.

In 2007, state legislation was passed to stabilize school district mill levies in order to address a growing revenue imbalance created by TABOR and the School Finance Act of 1994. The revenue limits in TABOR, which were repeated in the School Finance Act, had historically forced mill levies downward in districts, such as ours, when property values were rising. This resulted, to some degree, in the State being required to fund a higher percentage share of the School Finance Act. The new legislation froze the mill levy essentially allowing school property tax collections to increase at the same rate as assessed values. The legislation resulted in a significant increase in the local tax share of the District's TPF from 69% in 2008/09 to 88% in 2010/11. The increase in local funding results in a related decrease in the State's share of funding required by the School Finance Act. Conversely, since TABOR does not allow mill levies to increase as assessed values decrease (the mill levy freeze remains intact), this trend reversed in FY 2011/12 due to the 29% decline in District assessed values that occurred as a result of the impact of the recession. The downward trend in the percentage of TFP funded through local taxes continued with another decline in assessed value in 2013/14. This trend reversed again in 2015/16 with an 18% increase in assessed value.

School district finance has also been significantly impacted by Amendment 23 since its approval by voters in November 2000. This state constitutional amendment required that statewide base per pupil funding and state categorical program funding increase by inflation plus one percent for ten years beginning with the fiscal year ended June 30, 2002. After that ten-year window expired, the state was required to increase funding at the rate of inflation. This funding calculation attempted to align Colorado districts to inflation-adjusted funding levels of 1988. However, with significant revenue shortfalls in fiscal year 2011, the State added a negative (budget stabilization) factor to the per pupil School Finance Act calculation described above. This negative factor has essentially negated the intent of Amendment 23.

Next Year's Budget and Fund Balance

The District's General Fund fund balance at the end of fiscal year 2017 totaled \$13.2 million with \$8.2 million of that amount being unassigned. The fiscal year 2018 budget anticipates decreasing this balance by \$2.9 million as discussed above. The entire amount of the reserve has been appropriated for expenditure if necessary.

Component Units

Only summary information regarding component units appears in the District's financial statements. The District has one component unit, Carbondale Community (charter) School. The charter's financial statement information is presented in a separate column in the Government-wide Statement of Net Position and in the Statement of Activities on pages C1 and C2, respectively. The charter school issues its own audited financial statement report which can be viewed on their website at compass.ccs.schoolfusion.us.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Roaring Fork School District, CFO/Asst. Superintendent, 1405 Grand Avenue, Glenwood Springs, Colorado 81601. Additional financial information can be obtained on the District's website at www.rfsd.k12.co.us.

ROARING FORK SCHOOL DISTRICT RE-1
Reconciliation of Governmental Funds Balance Sheet to Statement of Net Position
June 30, 2017

Governmental Funds Total Fund Balance	\$ 90,532,867
Property taxes receivable will be collected this calendar year, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds.	1,309,548
Capital assets used in governmental activities are not considered current financial resources and, therefore, are not reported in the governmental funds.	271,216,977
Deferred items such as premiums and deferred refunding costs are treated as current transactions on the fund financial statements but are capitalized and amortized on the Statement of Net Position.	(19,276,741)
Accumulated depreciation is not recognized in the governmental funds because capital acquisition costs are expended at the time of acquisition.	(89,160,176)
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds. This is the amount of bonded debt payable.	(191,659,988)
Long-term liabilities, including compensated absences, are not due and payable in the current period and, therefore, are not reported in the funds. This is the amount of compensated absences not currently payable.	(2,432,838)
Interest payable on debt is not recorded on the fund statements but, rather is recognized as an expenditure when due. This is the accrued interest on bonded debt that has been incurred, but not yet due.	(658,556)
Long-term liabilities, including net pension obligations, are not due and payable in the current period and therefore are not reported in the funds. This is the amount of the District's net pension liability, adjusted for changes in pension related actuarial assumptions, proportion of collective pension amounts, differences between actual and expected experience and investments earnings, and differences between actual and annualized contributions to the pension plan, that are amortized over the average remaining service life of all active and inactive plan participants.	(136,139,860)
Governmental Activities Net Position	\$ (76,268,767)

ROARING FORK SCHOOL DISTRICT RE-1
Reconciliation of Revenues, Expenditures and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2017

Governmental Funds Changes in Fund Balances	\$ (73,269,452)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay during the year, net of disposals.	67,983,689
Deferred property tax revenue does not provide current financial resources and are deferred on the governmental fund financial statements but, recognized on the government-wide financial statements. This is the deferred property tax recognized in the Statement of Activities.	(98,392)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. This is the amount of principal payments.	24,007,064
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds. Interest is recorded as an expenditure in the funds when it is due, while interest is recorded when incurred in the Statement of Activities. This is the change in interest payable during the year.	(364,801)
Accrued compensated absences reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This is the change in accrued compensated absences during the year.	(56,182)
Changes in the District's net pension obligation reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This is the change in District's net pension obligation during the year, including differences between employer contributions to the pension plan and amortization of pension-related deferrals.	(36,979,571)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This is the amount of the bond proceeds.	(15,962,366)
Governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	199,248
Governmental Activities Change in Net Position	\$ (34,540,763)

June 30, 2017

I. Summary of Significant Accounting Policies

Roaring Fork School District RE-1 (the "District") was formed in 1959 and is located in Colorado's Central Rocky Mountains. The geographical boundaries include portions of Eagle, Garfield, and Pitkin counties. For 2017, the District provided services to five thousand seven hundred-three (5,703) students. The District's mission is "*Roaring Fork Schools will ensure that every student develops the enduring knowledge, skills and character to thrive in a changing world*". The District operates the following Schools:

Elementary Schools	Middle Schools	High Schools
Sopris Elementary School	Basalt Middle School	Basalt High School
Glenwood Springs Elementary	Glenwood Springs Middle	Roaring Fork High School
Crystal River Elementary School	Carbondale Middle School	Glenwood Springs High School
Basalt Elementary School		Bridges High School
Carbondale Community School		

The District's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established by GAAP used by the District are discussed below.

A. Reporting Entity

The District was formed under the laws of the State of Colorado and operates under an elected Board of Education. As required by GAAP, the financial statements of the reporting entity include those of the District and organizations for which the District is considered to be financially accountable. The District applied various criteria to determine if it is financially accountable for any organization, which would require that organization to be included in the District's reporting entity. Criteria include fiscal dependency, financial benefit or burden, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. Based upon the above criteria, the District is financially responsible for funding the Carbondale Community School. The Carbondale Community School is a charter school governed by the Colorado Revised Statutes, and is financed by a portion of the District's School Finance Act Revenues (based on enrollment), state and federal grants, as well as other revenues generated by the Carbondale Community School. Separately issued financial statements are available from the Carbondale Community School. The Carbondale Community School is a discretely presented component unit to the District because of their financial relationship with the District.

The District receives funding from local, state, and federal government sources and must comply with all the requirements of these funding sources. However, the District is not included in any other governmental reporting entity.

I. Summary of Significant Accounting Policies (continued)

B. District-wide and Fund Financial Statements

The District's basic financial statements include both District-wide (financial activities of the overall District, except for fiduciary activities) and fund financial statements (reporting the District's major funds). Both the District-wide and fund financial statements categorize primary activities as either governmental or business type. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions.

1. District-wide Financial Statements

In the District-wide Statement of Net Position, the governmental activities columns are (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts—net investment in capital assets; restricted net position; and unrestricted net position.

The District-wide Statement of Activities reports both the gross and net cost of the District's functions. The functions are also supported by general government revenues (property taxes, intergovernmental revenue, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The net costs (by function) are normally covered by general revenue (property taxes, interest income, etc.).

The District-wide focus is on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

2. Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements, including fiduciary funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The fund focus is on current available resources and budget compliance. Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. One or more specific restricted or committed revenue should be the foundation for the fund.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund. Resources restricted within this fund relate to TABOR reserve requirements (see Note 3.C).

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

I. Summary of Significant Accounting Policies (continued)

B. District-wide and Fund Financial Statements (continued)

2. Fund Financial Statements (continued)

The *Capital Reserve Capital Projects Fund* – This capital projects fund accounts for and reports financial resources that are restricted by outside parties (i.e., land dedication fees), as well as amounts committed by the School Board of the District for expenditures of capital outlay, including the acquisition or construction of capital facilities and other capital assets. It excludes those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

The *Building Capital Projects Fund* – This capital projects fund accounts for resources available for acquiring capital sites, buildings, and equipment such as bond sale proceeds and grants.

The *Bond Redemption Debt Service Fund* - accounts for and reports financial resources that are restricted to expenditure for principal and interest that have been legally mandated, as well as the accumulation of resources for, and the payment of, long-term general obligation debt principal, interest, and related costs.

Special Revenue Funds – Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt or capital projects. The term “proceeds of specific revenue sources” establishes that one of more specific restricted or committed revenues should be the foundation for a special revenue fund. The District reports the following major special revenue funds:

The *Food Service Fund* accounts for all financial activities associated with the District’s school lunch program.

The *Governmental Designated Purpose Grant Special Revenue Fund* - accounts for all federal, state, and local grants which are restricted as to the type of expenditures for which they may be used.

The *Pupil Activity Special Revenue Fund* - accounts for District sponsored activities for students. Each year, the School Board of the District commits funding by way of the budget approval process.

The District reports the following fiduciary fund:

The *Student Activity Fund* accounts for assets held by the District as an agent for student clubs and other organizations which exist with the explicit approval of, and are subject to revocation by, the District’s Board of Education.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

I. Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements. Financial statement presentation refers to classification of revenues by source and expenses by function.

1. Long-term Economic Focus and Accrual Basis

Governmental activities in the government-wide financial statements and the fiduciary financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

2. Current Financial Focus and Modified Accrual Basis

The District fund financial statements use the current financial focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions under capital leases are reported as other financing sources.

3. Financial Statement Presentation

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

D. Financial Statement Accounts

1. Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The pooled cash concept is used whereby cash balances of each of the District's funds are pooled and invested in certain investments.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

1. Cash and Investments (continued)

The District is allowed to invest in the following types of investments: short-term certificates of deposit, repurchase agreements, money market deposit accounts, mutual funds, government pools, and U.S. Treasury Obligations. The District records nonparticipating interest-earning investment contracts at cost. All other securities are recorded at fair value. It is the intention of the investment pool to maximize interest income, and securities are selected according to their risk, marketability, and diversification.

2. Receivables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portion of interfund loans) or “advances to/from other funds” (i.e. the non-current portion of interfund loans).

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property taxes levied in 2016 but not yet collected in 2017 are identified as property taxes receivable and deferred inflows at June 30, 2017, and are presented net of an allowance for uncollectible taxes. Grants are recorded as receivables and revenues at the time reimbursable project costs are incurred.

3. Inventory and Prepaid Items

All inventories are valued at cost using the first-in / first-out (FIFO) method. Inventories recorded in the Food Service Fund consist of purchased and donated commodities. Donated commodities inventories are offset by unearned revenue. Donated inventories, received at no cost under a program supported by the Federal Government, are recorded at their estimated fair value at the date of receipt. The cost of all inventories is recorded as an asset when the individual inventory items are purchased, and as an expenditure or expense when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, which include land, buildings, equipment, vehicles, and infrastructure assets, are reported in the applicable governmental columns in the government-wide financial statements. The District defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost where historical records are available and at an estimated historical cost where no historical record exists. Donated capital assets are recorded at estimated fair value at the date of donation.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

4. Capital Assets (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed asset, as applicable.

Capital outlay for projects is capitalized as projects are constructed.

Infrastructure, buildings, and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Infrastructure	20 -30
Buildings and improvements	20 - 50
Equipment and vehicles	5 - 10

5. Compensated Absences

Vested or accumulated leave that is expected to be liquidated with expendable available financial resources are reported as expenditures and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated leave that are not expected to be liquidated with expendable available financial resources are reported in the governmental activities column in the district-wide financial statements. No liability is recorded for non-vesting accumulating rights.

After the completion of fifteen years of full-time service, staff members are eligible for voluntary early retirement. Staff members are entitled to a percentage of their salary as determined from their highest salary during the last five years of employment with the District. The estimated liability for all employees participating in voluntary early retirement is recorded in governmental activities in the Statement of Net Position, as a component of compensated absences.

6. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column of the statement of net position. The District records long-term debt of governmental funds at the face value. The District's general obligation bonds are serviced from property taxes and other revenues of the Debt Service Fund. Capital leases are serviced from property taxes and other revenues of the Capital Reserve Fund. The long-term accumulated unpaid vacation and accrued sick leave are serviced from property taxes and other revenues by the respective fund types from future appropriations.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

7. Pensions

The District participates in the School Division Trust Fund (“SDHDTF”), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees’ Retirement Association of Colorado (“PERA”). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

8. Deferred Outflows and Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditures) until then. The District has two items that qualify for reporting under this category on the Statement of Net Position. One item is deferred charge on refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded debt or refunding debt. Another item is the collective deferred outflows related to the District’s net pension obligation. Pension contributions made after the measurement date, and the net difference between projected and actual earnings will be recognized as a reduction of the net pension liability in future periods. See Note IV.H.

Deferred inflows of resources represent an acquisition of net position that applied to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Collective deferred inflows related to the District’s net pension obligation are reported on the Statement of Net Position and are amortized over the average remaining service life of all active and inactive plan members. See Note IV.H.

(Continued)

I. Summary of Significant Accounting Policies (continued)

D. Financial Statement Accounts (continued)

9. Fund Equity

Governmental accounting standards establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balance classifications, include Non-spendable, Restricted, Committed, Assigned, and Unassigned. These classifications reflect not only the nature of the funds, but also provide clarity to the level of restriction placed upon fund balance. Fund balance can have different levels of restraint, such as external versus internal compliance requirements. Unassigned fund balance is a residual classification with the General Fund. The General Fund should be the only fund that reports a positive unassigned balance. In all other funds, unassigned is limited to negative residual fund balance. For further details of the various fund balances classifications refer to Note IV.H.

10. Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it that are properly applicable to another fund, are recorded as expenditures or expenses in the reimbursing fund and as reductions of expenditures or expenses in the fund that is reimbursed.

E. Significant Accounting Policies

1. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the District's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenditures or expenses during the reporting period. Actual results could differ from those estimates.

2. Credit Risk

The receivables of the various funds of the District are primarily due from other governments. Management believes that the credit risk related to the receivables is minimal.

3. Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

II. Reconciliation of District-wide and Fund Financial Statements

The governmental fund Balance Sheet includes reconciliation between *fund balance – total governmental funds* and *net position of governmental activities* as reported in the District-wide Statement of Net Position. Additionally, the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances includes a reconciliation between *net change in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the District-wide Statement of Activities.

III. Stewardship, Compliance, and Accountability

A. Bond Trustee

Colorado state statutes require all property taxes levied for the purpose of satisfying bonded indebtedness to be administered by at least one third party custodian designated by the District. The third-party custodian is required to ensure all taxes levied to satisfy the obligations of bonded indebtedness are used accordingly. The District has entered into a custody agreement with UMB Bank, formally American National Bank, in order to meet this requirement.

B. Budgetary Information

Budgets are adopted on a basis consistent with generally accepted accounting principles. As required by Colorado Statutes, all funds have legally adopted budgets and appropriations. The total expenditures for each fund may not exceed the amount appropriated. Appropriations for a fund may be increased if unanticipated revenues offset them. All appropriations lapse at year-end.

As required by Colorado Statutes, the District followed the required timetable noted below in preparing, approving, and enacting its budget for 2017.

1. The proposed budget was submitted to the Board of Education by May 31 of the year preceding the budget year. The proposed budget must include a description of major educational objectives and how the proposed budget fulfills those objectives.
2. Notice was published within ten (10) days which contained: availability of proposed budget for inspection, date and time of budget adoption meeting, and that any County taxpayer may file objections prior to the adoption of the budget.
3. The Board of Education certified revenue requirements to the local County Commissioners prior to December 15.
4. The final budget was adopted prior to June 30, along with an appropriation resolution.

Supplemental appropriations for the District during fiscal 2017 resulted in budget amendments as follows:

Fund	Original Appropriation	Final Appropriation
Debt Service Fund	\$ 17,722,198	33,684,564

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

III. Stewardship, Compliance, and Accountability (continued)

C. TABOR Amendment

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20; commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future fiscal years.

TABOR also requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be 3% or more.

The District has reserved a portion of its June 30, 2017 year-end fund balance in the General Fund for emergencies as required under TABOR. As of June 30, 2017, the District had reserved \$1,682,945 in the General Fund for this purpose, which is approximately 3% of the fiscal year spending.

In 1997, the District's electorate passed a ballot question exempting the District from the revenue and expenditure limitations imposed by the TABOR Amendment. The District's electorate approved the following ballot question: *"retain, and spend all revenues received from any source...that are in excess of fiscal year spending limits that would otherwise apply under Article X, Section 20 of the Colorado Constitution"*.

The District believes it is in compliance with the requirements of the Amendment. However, the Amendment is complex and subject to interpretation. Many of its provisions will require judicial interpretation.

IV. Detailed Notes on All Funds

A. Deposits and Investments

The District's deposits and certificates of deposit are entirely covered by federal depository insurance (FDIC) or by collateral held under Colorado's Public Deposit Protection Act ("PDPA"). The FDIC insures the first \$250,000 of the District's deposits at each financial institution. Deposit balances over \$250,000 are collateralized as required by PDPA.

Fair Value of Investments

The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- *Level 1:* Quoted prices for identical investments in active markets;
- *Level 2:* Observable inputs other than quoted market prices; and,
- *Level 3:* Unobservable inputs.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

IV. Detailed Notes on All Funds (continued)

A. Deposits and Investments (continued)

At June 30, 2017, the District had the following recurring fair value measurements:

Investments Measured at Net Asset Value	Total
Colotrust	\$ 98,814,539

The District is governed by the deposit and investment limitations of state law. Unrealized gains / losses were \$0, which reflects the change in fair market value of investments. The deposits and investment balances at June 30, 2017, are as follows:

Type	Fair Value	Maturities	
		Less Than One Year	One To Five Years
Deposits:			
Cash with fiscal agent	\$ 11,193,840	\$ -	\$ -
Checking accounts	3,777,804	-	-
Investments:			
Investment pool	98,814,539	98,814,539	-
Total	\$ 113,786,183	\$ 98,814,539	\$ -

The Investment Pool represents investments in Colotrust, which is a 2a7-like pool. The fair value of the pool is determined by the pool's share price. The District has no regulatory oversight for the pool.

Interest Rate Risk. As a means of limiting its exposure to interest rate risk, the District diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer. The District coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than five years from the purchase date. As a result of the limited length of maturities, the District has limited its interest rate risk.

Credit Risk. State law and District policy limit investments to those authorized by State statutes including U.S. Agencies and 2a7-like pools. The District's general investment policy is to apply the prudent-person rule: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

Concentration of Credit Risk. The District diversifies its investments by security type and institution.

Investments may only be made in those allowed by Colorado Statutes. As a result, the District generally invests in financial institutions which are insured by the Federal Deposit Insurance Corporation, the Federal Home Mortgage Association, the Federal Savings and Loan Insurance Corporation, or investments that are federally guaranteed. Financial institutions holding District funds must provide the District with a statement of collateral in the form of a listing of securities pledged, and a copy of the certificate from the Banking Authority that states that the institution is an eligible public depository.

IV. Detailed Notes on All Funds (continued)

B. Receivables

Receivables as of year-end for the District's funds, including applicable allowances for uncollectible accounts, are as follows:

	<u>General Fund</u>	<u>Food Service Fund</u>	<u>Governmental Designated Purpose Grant Funds</u>	<u>Pupil Activity Fund</u>
Receivables:				
Taxes	\$ 1,761,738	\$ -	\$ -	\$ -
Accounts	126,796	619	-	-
Intergovernmental	832,191	128,487	678,235	-
Gross receivables	<u>2,720,725</u>	<u>129,106</u>	<u>678,235</u>	<u>-</u>
Less: allowance for uncollectible	-	-	-	-
Net receivables	<u>\$ 2,720,725</u>	<u>\$ 129,106</u>	<u>\$ 678,235</u>	<u>\$ -</u>

	<u>Bond Redemption Fund</u>	<u>Capital Reserve Fund</u>	<u>Building Fund</u>	<u>Total</u>
Receivables:				
Taxes	\$ 857,961	\$ -	\$ -	\$ 2,619,699
Accounts	-	-	-	127,415
Intergovernmental	1,577	86,008	-	1,726,498
Gross receivables	<u>859,538</u>	<u>86,008</u>	<u>-</u>	<u>4,473,612</u>
Less: allowance for uncollectible	-	-	-	-
Net receivables	<u>\$ 859,538</u>	<u>\$ 86,008</u>	<u>\$ -</u>	<u>\$ 4,473,612</u>

Governmental funds report *deferred inflows of resources* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. This includes \$1,309,548 of property tax revenue levied in fiscal 2017 but not available until fiscal 2018.

C. Capital Assets

Capital asset activity for the year ended June 30, 2017 was as follows:
Primary Government:

Governmental Activities	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets, not being depreciated:				
Land	\$ 19,963,021	\$ -	\$ -	\$ 19,963,021
Construction in progress	3,792,907	66,726,003	(1,415,479)	69,103,431
Capital assets being depreciated:				
Improvements	4,743,050	474,185	-	5,217,235
Building	158,552,689	8,417,583	-	166,970,272
Equipment	9,265,603	928,998	(231,583)	9,963,018
Total capital assets being depreciated	<u>172,561,342</u>	<u>9,820,766</u>	<u>(231,583)</u>	<u>182,150,525</u>
Total capital assets - cost	<u>196,317,270</u>	<u>76,546,769</u>	<u>(1,647,062)</u>	<u>271,216,977</u>
Less accumulated depreciation for:				
Building and improvements	(75,365,449)	(6,642,755)	-	(82,008,204)
Equipment and vehicles	(6,878,711)	(500,993)	227,732	(7,151,972)
Total accumulated depreciation	<u>(82,244,160)</u>	<u>(7,143,748)</u>	<u>227,732</u>	<u>(89,160,176)</u>
Governmental Activities Capital Assets, Net	<u>\$ 114,073,110</u>	<u>\$ 69,403,021</u>	<u>\$ (1,419,330)</u>	<u>\$ 182,056,801</u>

The District had the following capital outlay and depreciation expense for the following functions:

Governmental activities:	Capital Outlay	Depreciation
Direct instruction	\$ 74,585,422	\$ 5,778,568
Indirect instruction	13,188	595,911
General and school administration	6,163	350,182
Support programs	-	5,149
Operations and maintenance	197,340	113,392
Transportation	307,080	261,184
Food service	22,097	39,362
Total Governmental Activities	<u>\$ 75,131,290</u>	<u>\$ 7,143,748</u>

D. Interfund Transfers

Transfers were as follows:

Fund In (Out)	Amount	Reason
Governmental designated purpose grant fund/ (General fund)	\$ 466,103	To record the District's cash matching obligation(s) for grants awards
Capital reserve capital projects fund/ (General fund)	\$ 1,385,255	To support future capital reserve expenditures
Food service fund/ (General fund)	\$ 93,000	To support food service expenditures

E. Operating Leases

The District is committed under various leases for office equipment. These leases are considered, for accounting purposes, to be operating leases, and therefore, the liability and the related assets have not been recorded in these financial statements. All operating leases are annually appropriable.

IV. Detailed Notes on All Funds (continued)

F. Long-term Debt

All general obligation bonds outstanding are paid by the Bond Redemption Fund.

1. General Obligation Bonds, Series 2005A

On January 20, 2005, the District issued General Obligation Bonds Series 2005A in the amount of \$86,000,000. Net proceeds after issuance costs were deposited with an escrow agent.

Bonds of this issue are not subject to redemption prior to maturity. Principal payment dates are June 15 and December 15 each year and interest rates on the outstanding bonds vary from 2.25% to 5.00%, and the bonds mature on December 15, 2027. These bonds will be serviced by the Bond Redemption Fund.

On December 26, 2006 and January 30, 2007, the District advance refunded a portion of the Series 2005A bonds in the amount \$16,830,000 through the issuance of General Obligation Refunding Bonds, Series 2006 and General Obligation Refunding Bonds, Series 2007.

On September 21, 2011 and February 7, 2012, the District advance refunded additional amounts of the Series 2005A bonds in the total aggregate amount of \$63,390,000, through the issuance of General Obligation Refunding Bonds, Series 2011 and General Obligation Refunding Bonds, Series 2012.

The remainder of the 2005A bond issue was paid off in fiscal year 2017.

2. General Obligation Refunding Bonds, Series 2006

On December 26, 2006, the District issued General Obligation Refunding Bonds Series 2006 in the amount of \$8,719,989. Net proceeds after issuance costs were deposited with an escrow agent.

Bonds maturing on and after December 15, 2017 are subject to redemption prior to maturity at the option of the District. The Capital Appreciation Bonds are not subject to redemption prior to maturity. The bonds have bi-annual payment dates of June 15 and December 15. The interest rate on the outstanding bonds is 4.0% and the bonds mature on December 15, 2027. These bonds will be serviced by the Bond Redemption Fund.

In July 2017, a portion of the bonds were refunded by the issuance of General Obligation Refunding Bonds, Series 2016B.

Totals	<u>\$ 14,250,000</u>	<u>\$ 5,708,750</u>	<u>\$ 19,958,750</u>

6. 2002 Ground Lease - Wells Fargo

On August 15, 2002, the District entered into a ground lease agreement (the "Ground Lease") with Wells Fargo Brokerage Services, LLC ("Wells Fargo") whereby the District leased certain land owned by the District (the "North Face Property") to Wells Fargo in return for a single payment of \$2,747,250. Unless otherwise terminated, the Ground Lease ends on the earlier of June 15, 2017 or the termination of the Sublease, as detailed below. In February 2008, this lease was refinanced to obtain a lower rate of interest. Issuance costs associated with this refinance have been rolled into the new payment structure.

Concurrent with the execution of the Ground Lease, the District entered into a lease and purchase option agreement (the "Sublease") with Wells Fargo whereby the North Face Property was sublet to the District. The Sublease, which initially terminated on June 30, 2003, may be renewed solely at the District's option, for fourteen successive annual terms, with the latest date of termination on June 15, 2017. The sublease may also be terminated concurrently with the termination of the Ground Lease, as detailed above. Under the terms of the Sublease, the District is required to make annual principal and semi-annual interest payments to Wells Fargo, in accordance with a base rental schedule. At the end of the term of the lease, all rights, titles, and interest of Wells Fargo in the North Face Property are conveyed to the District upon payment of \$1.

During fiscal year 2017, the lease was paid off.

7. General Obligation Bonds, Series 2016

On January 21, 2016, the District issued General Obligation Bonds, Series 2016 in the amount of \$122,000,000 to acquire, construct, repair and improve District capital assets and to pay the costs of issuance of the Bonds.

The bonds are subject to redemption prior to maturity at the option of the District, in whole or part, on December 15, 2026 and on any date thereafter. The bonds have bi-annual payment dates of June 15 and December 15. Interest rates on the outstanding bonds vary from 1.00% to 5.00% and the bonds mature on December 15, 2035. These bonds will be serviced by the Bond Redemption Fund.

Totals	<u>\$ 119,665,000</u>	<u>\$ 70,864,825</u>	<u>\$ 190,529,825</u>

8. General Obligation Refunding Bonds, Series 2016B

On July 27, 2016, the District issued General Obligation Refunding Bonds, Series 2016B in the amount of \$15,475,000 to refund a portion of the General Obligation Refunding Bonds, Series 2006 and a portion of the General Obligation Refunding Bonds, Series 2007. Net proceeds after issuance costs were deposited with an escrow agent.

Bonds maturing on or before December 15, 2025 are not subject to redemption prior to their respective maturity dates. The Bonds maturing on or after December 15, 2026 are subject to redemption prior to maturity at the option of the District, in whole or in part, and if in part, in such order of maturity as the District shall determine and by lot within any maturity in such manner as the Paying Agent shall determine, on December 15, 2025 and on any date thereafter, at a redemption price (expressed as a percentage of principal amount) of 100%, plus accrued interest to the redemption date. The bonds have bi-annual payment dates of June 15 and December 15. The interest rates on the outstanding bonds ranges from 2% to 2.5% and the bonds mature on December 15, 2027. These bonds will be serviced by the Bond Redemption Fund.

The portion of the 2016B bond issue remaining is as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017 - 2018	\$ 160,000	\$ 352,025	\$ 512,025

Notes to the Financial Statements
June 30, 2017
(Continued)

IV. Detailed Notes on All Funds (continued)

F. Long-term Debt (continued)

9. Defeasance of Debt

As noted above, proceeds of the refunding bond issues were used to purchase U.S. government securities to retire outstanding issuances. Sufficient U.S. government, state and local governmental securities were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the District's financial records. The District is unable to determine the amount of defeased bonds outstanding at year-end.

10. Schedule of Future Payments

The District's annual debt service is as follows:

Fiscal Year Ending:	Obligation Refunding 2006	General Obligation Refunding 2007	General Obligation Refunding 2011	General Obligation Refunding 2012
2018	\$ -	\$ -	\$ 7,152,525	\$ 712,500

G. Fund Balance Disclosures

The District classifies governmental fund balances as follows:

Non-spendable – includes fund balance amounts inherently non-spendable since they represent inventories, prepaid items, long-term portions of loans receivable, etc.

Spendable Fund Balance:

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation. The District has restricted \$1,682,945 for TABOR reserves, \$11,612,548 for debt service and 60,070,884 for the building fund.

Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority, which is the School Board of the District. The District's original budget legislation begins with combining historical data, assessment of needs for the upcoming year and the District's platform to review, and/or make changes to each department's budget. The budget is formally presented to the School Board of the District via an advertised public process for their review, revisions and final approval by year-end. All subsequent budget requests made during the year, after School Board approval, must be presented via a public process and again approved by the School Board of the District. The District has committed \$431,086 representing technology mill levy reserves within the General Fund, \$437,013 for the food service fund, \$589,542 for pupil activity fund, \$383,142 for land dedication fees and \$4,573,649 for the capital reserve fund.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

IV. Detailed Notes on All Funds (continued)

G. Fund Balance Disclosures (continued)

Spendable Fund Balance (continued):

Assigned – includes spendable fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the School Board of the District or its management designees. The District has assigned \$2,948,033 of fund balance in the General Fund for special appropriations as directed by the School Board.

Unassigned – includes residual positive fund balance within the General Fund, which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

The District uses restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents or contracts that prohibit this, such as grant agreements that require dollar for dollar spending. Additionally, the District would first use committed, then assigned, and lastly unassigned amounts when expenditures are made. The District does not have an adopted minimum fund balance policy; however, the District's budget includes calculations of targeted reserve positions, which is reported annually to the School Board of the District.

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$223,038,228 for its proportionate share of the net pension liability of the SCHDTF. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The District's proportionate share of the net pension liability was based on District contributions to the SCHDTF for the calendar year 2016, relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the District's proportionate share was 0.7491% as compared to its proportionate share of 0.7422% at December 31, 2015.

IV. Detailed Notes on All Funds (continued)

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

For the year ended June 30, 2017, the District recognized pension expense of \$43,597,835. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,788,320	\$ 1,962
Change of assumptions or other inputs	72,371,254	1,005,789
Net difference between projected and actual earnings on pension plan investments	7,457,933	-
Changes in proportionate share of contributions	1,623,555	-
Difference between actual and reported contributions recognized	492,744	141,219
Contributions subsequent to measurement date	3,313,532	-
	\$ 88,047,338	\$ 1,148,970

\$3,313,532 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability calculated at the December 31, 2017 measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Amortization
2018	\$ 33,773,658
2019	33,348,908
2020	16,387,883
2021	74,387
	\$ 83,584,836

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Actuarial assumptions. The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.80%
Real wage growth	1.10%
Wage inflation	3.90%
Salary increases, including wage inflation	3.90% - 10.10%
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.50%
Discount rate	7.50%
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07; and DPS Benefit Structure (automatic)	2.00%
PERA Benefit Structure hired prior after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016:

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% - 9.70%
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.50%
Discount rate	5.26%
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07; and DPS Benefit Structure (automatic)	2.00%
PERA Benefit Structure hired prior after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

IV. Detailed Notes on All Funds (continued)

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Mortality rates used in the December 31, 2015 valuation were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years. Active member mortality was based upon the same mortality rates but adjusted to 55 percent of the base rate for males and 40 percent of the base rate for females. For disabled retirees, the RP-2000 Disabled Mortality Table (set back 2 years for males and set back 2 years for females) was assumed.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability roll-forward procedures.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

IV. Detailed Notes on All Funds (continued)

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

- Investment rate of return assumption decreased from 7.50 percent per year, compounded annually, net of investment expenses to 7.25 percent per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80 percent per year to 2.40 percent per year.
- Real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90 percent per year to 3.50 percent per year.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class.

These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the November 18, 2016 adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30 Year Expected Geometric Real Rate of Return</u>
U.S. Equity - Large Cap	21.20%	4.30%
U.S. Equity - Small Cap	7.42%	4.80%
Non U.S. Equity - Developed	18.55%	5.20%
Non U.S. Equity - Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income - Develop	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	<u>100.00%</u>	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Discount rate. The discount rate used to measure the total pension liability was 5.26 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated economic and demographic actuarial assumptions adopted by PERA's Board on November 18, 2016.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

IV. Detailed Notes on All Funds (continued)

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86 percent, resulting in a discount rate of 5.26 percent.

As of the prior measurement date, the projection test indicated the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.50 percent was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate and the discount rate was 7.50 percent, 2.24 percent higher compared to the current measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease (4.26%)	Current Discount Rate (5.26%)	1% Increase (6.26%)
Collective net pension liability	\$ 37,439,681,000	\$ 29,773,867,000	\$ 23,530,339,000
Proportionate share of net pension liability	\$ 280,463,405	\$ 223,038,228	\$ 176,267,501

Pension plan fiduciary net position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

V. Other Information

A. Defined Benefit Pension Plan

Plan Description: Eligible employees of the District are provided with pensions through the SCHDFT – a cost sharing multiple employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of Colorado Revised Statutes ("CRS") administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

V. Other Information (continued)

A. Defined Benefit Pension Plan (continued)

Benefits provided. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs), referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Notes to the Financial Statements
June 30, 2017
(Continued)**

V. Other Information (continued)

A. Defined Benefit Pension Plan (continued)

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions. Eligible employees and the District are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, et seq. Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below with rates expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42):

	For the Year Ended December 31,	
	2016	2017
Employer Contribution Rate	10.15%	10.15%
Amount of the Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount Apportioned to the SCHDTF	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. 24-51-411	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED as presented in C.R.S. 24-51-411	4.50%	5.00%
Total Employer Contribution Rate to the SCHDTF	18.13%	18.63%

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$6,618,264 for the year ended June 30, 2017.

B. Post-employment Healthcare Benefits

Plan Description. The District contributes to the Health Care Trust Fund ("HCTF"), a cost sharing multiple employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

V. Other Information (continued)

B. Post-employment Healthcare Benefits (continued)

Funding Policy. The District is required to contribute at a rate of 1.02 percent of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the District are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ended June 30, 2017, 2016, and 2015, the District's contributions to HCTF were approximately \$346,437, \$335,146, and \$322,991, respectively, equal to their required contributions for each year.

C. Defined Contribution Pension Plan

Plan Description: Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy: Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions, employer contributions and investment earnings. For the year ended June 30, 2017, 2016, and 2015, the 401(k) Plan member contributions from the District were \$465,342, \$431,287, and \$355,227, respectively. The District did not make any contributions to the plan for the years ended June 30, 2017, 2016, and 2015.

D. Risk Management

The District is exposed to various risks of loss related to worker's compensation, general liability, unemployment, torts, theft of, damage to, and destruction of assets, and errors and omissions. The District carries commercial coverage for these risks and claims and does not expect claims to exceed their coverage.

E. Contingencies

1. Legal Matters

During the normal course of business, the District incurs claims and other assertions against it from various agencies and individuals. Management of the District and their legal representatives feel none of these claims or assertions are significant enough that they would materially affect the fairness of the presentation of the financial statements at June 30, 2017.

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

V. Other Information (continued)

E. Contingencies (continued)

2. Federal Programs

Funds received from Federal grants are subject to audit and disallowance on ineligible cost. Management of the District feels any potential questioned or disallowed costs or liability arising from the Federal program audits would not materially affect the fairness of the presentation of the financial statements at June 30, 2017.

3. State Programs

The District receives payment for State equalization, State transportation and various other State revenues to fund programs. These grants and programs are subject to audit and may result in the District either refunding amounts due for overpayment or receiving additional revenue for underpayment by the State. Management does not feel that any potential adjustments would be material and that they would affect the fairness of presentation of the financial statements at June 30, 2017.

F. Jointly Governed Organization - BOCES

The District, together with nine other school districts, participates in the Mountain Board of Cooperative Educational Services (the "BOCES"). The purpose of the BOCES is to pool resources of the individual districts and to provide services common to each on a basis that is more economical than if the same services were provided individually. Administrative costs are borne equally by the districts. Services by BOCES are charged to each district based upon individual needs and the student population.

The Board of the BOCES consists of one member of the board of education of each participating district. Each district has equal voting rights in the decisions of the BOCES.

The BOCES has issued its own audited financial statements for the year ended June 30, 2016, the latest available data. The following summary information is presented:

Assets	\$ 6,805,657
Liabilities	(9,747,907)
Net Position	<u>(2,942,250)</u>
Expenses	(11,087,857)
Program Revenues	10,838,207
General Revenues	209,195
Change in Net Position	<u>(40,455)</u>
Net Position - Beginning	<u>(2,901,795)</u>
Net Position - Ending	<u>\$ (2,942,250)</u>

Roaring Fork School District RE-1
Notes to the Financial Statements
June 30, 2017
(Continued)

V. Other Information (continued)

F. Jointly Governed Organization – BOCES (continued)

For the year ended June 30, 2017 and 2016, the District made operating contributions of \$965,355 and \$1,033,038, respectively. For a complete audit report please contact Mountain BOCES at 1713 Mount Lincoln Drive West, Leadville, Colorado 80461.

G. Mill Levy Override Approvals

In 1999 and 2004, the electorate approved ballot questions authorizing the District to raise and expend local property tax revenues of \$4,000,000 in excess of limitation set forth by the Public School Finance Act of 1994 and Section 20 of Article X of the State Constitution for the purpose of meeting the District's strategic plan by attracting and retaining a quality staff, maintaining a lower student-teacher ratio in grades kindergarten through three, and providing technology resources for the District. All related expenditures are accounted for in the General Fund.

On November 1, 2011, the electorate approved a ballot question authorizing the District to raise and expend local property tax revenues of \$4.8 million annually, in addition to the \$4 million previously authorized (See note V.G.). In accordance with the ballot language, funds are to be used to preserve small class sizes, attract and retain quality staff, provide learning materials, and preserve safe learning environments.

H. Capital Project Commitments

The District has active capital projects as of June 30, 2017, which include acquiring, constructing, repairing and improving District capital assets. The District has entered into various agreements with multiple vendors for these capital projects. The aggregate remaining amount of these agreements is \$37,575,056.

I. Component Unit Restatement of Net Position

The District has restated the component unit's beginning net position by \$2,788,469 to reflect an increase in net pension liability as well as an increase in deferred outflows and inflows of resources for deferred pension expenses.

Notes to the Required Supplementary Information
June 30, 2017

I. Schedule of Employer's Proportionate Share of the Net Pension Liability

A. Changes to Assumptions or Other Inputs

1. Changes Since the December 31, 2015 Actuarial Valuation are as follows:

- The investment return assumption was lowered from 7.5 percent to 7.25 percent
- The wage inflation assumption was lowered from 3.90 percent to 3.50 percent
- The post-retirement mortality assumption for healthy lives for the School and Denver Public School ("DPS") Divisions was changed to the RP-2014 White Collar Healthy Annuitant Mortality Table with adjustments for credibility and gender adjustments of a 93 percent factor applied to ages below 80 and a 113 percent factor applied to age 80 and above, projected to 2018, or males, and a 68 percent factor applied to ages below 80 and a 106 percent factor applied to age 80 and above, projected to 2020, for females.
- For disabled retirees, the mortality assumption was changed to reflect 90 percent of RP-2014 Disabled Retiree Mortality Table.
- The mortality assumption for active members was changed to RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.
- The rates of retirement, withdrawal, and disability were revised to reflect more closely actual experience.
- The estimated administrative expense as a percentage of covered payroll was increased from 0.35 percent to 0.40 percent.
- The single equivalent interest rate (the "SEIR") for the School Division Trust Fund was lowered from 7.50 percent to 5.26 percent to reflect the changes to the projection's valuation basis, a projected year of depletion of the fiduciary net position (the "FNP"), and the resulting application of the municipal bond index rate

2. Changes Since the December 31, 2014 Actuarial Valuation are as follows:

- Valuation of the full survivor benefit without any reduction for possible remarriage.
- Reflection of the employer match on separation benefits for all eligible years.
- Reflection of one year of service eligibility for survivor annuity benefit.
- Refinement of the 18-month annual increase timing.
- Refinements to directly value certain and life, modified cash refund and pop-up benefit forms.
- Recognition of merit salary increases in the first projection year.
- Elimination of the assumption that 35% of future disabled members elect to receive a refund.
- Removal of the negative value adjustment for liabilities associated with refunds of future terminating members.
- Adjustments to the timing of the normal cost and unfunded actuarial accrued liability payment calculations to reflect contributions throughout the year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

**To the Board of Education
Roaring Fork School District RE-1
Glenwood Springs, CO**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Roaring Fork School District RE-1 (the "District") as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 8, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit on the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion of the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**INDEPENDENT AUDITOR'S REPORT
To the Board of Education
Roaring Fork School District RE-1
Glenwood Springs, CO**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

**To the Board of Education
Roaring Fork School District RE-1
Glenwood Springs, CO**

Report on Compliance for Each Major Program

We have audited the compliance of the Roaring Fork School District RE-1 (the "District") with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibilities

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibilities

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based in our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirement of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), and the Guide. Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance with those requirements.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

INDEPENDENT AUDITOR'S REPORT
To the Board of Education
Roaring Fork School District RE-1
Glenwood Springs, CO

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based in the requirements of Uniform Guidance and the Guide. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards for the Year Ended June 30, 2017:

Note 1. Basis of Presentation:

The Schedule of Expenditures of Federal Awards includes the federal grant activity of Roaring Fork School District RE-1, and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of these general purpose financial statements.

Note 2. Determining the Value of Non-Cash Awards Expended:

Food Commodities: Assessed value provided by the Federal agency.

Note 3. Sub recipients:

Roaring Fork School District RE-1 did not provide any federal awards received to sub recipients.

Note 4. Indirect Facilities and Administration Costs:

Roaring Fork School District RE-1 has elected to not use the 10% de minimis cost rate allowed in § 200.414, Indirect (F&A) Costs, of the Uniform Guidance.
