Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Akron School District R-1 (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and historical pension information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**AKRON SCHOOL DISTRICT R-1
Management Discussion and Analysis
For Fiscal Year Ended June 30, 2017**

This section of Akron School District R-1 annual financial report presents its discussion and analysis of the District's financial performance during the year ended June 30, 2017.

Financial Highlights

- The assets and deferred outflows of the Akron School District R-1 exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year. Our net position as of June 30, 2017 is \$9,959,315.
- The district's total net position decreased by \$2,099,618.
- General revenues accounted for \$4,244,075 or 89% of the \$4,781,861 in total revenues. Program specific revenues in the form of charges for services, sales, and grants accounted for \$537,786 or 11% of revenues.
- The general fund ending fund balance reached \$1,255,701. This was an increase of \$18,116 from last year.

Overview of Financial Statements

The discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. A comparison to the prior year's activity is normally provided in the document. The basic financial statements consist of four components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statement. This report also contains required and other supplementary information in addition to the basic financial statements.

Government-wide Statements

The Government-wide financial statements are designed to provide readers with information about the School District as a whole using accounting methods similar to those used by private-sector businesses.

The statement of net position includes all of the School District's assets and deferred outflow of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes.). In the government-wide financial statements, the School District's activities include the following:

- **Governmental activities:** Most of the School District's basic services are included here, such as instruction, transportation, maintenance, operations, and administration. Taxes and intergovernmental revenues principally support these activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide more detailed information about the School District's operations, focusing on the most significant or "major" funds, not the School District as a whole. The School District has two kinds of funds: governmental funds and fiduciary funds.

Governmental Funds

Most of the District's basic services are included in the governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps determine the status of financial resources that can be spent in the near future to finance the School District's program.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Thus, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and change in fund balances provide reconciliation to the government-wide financial statements in order to facilitate this comparison between governmental funds and governmental activities.

The School District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenue, expenditures and change in fund balances for the General Fund, Bond Redemption Fund and Capital Reserve Capital Projects Fund, which are considered to be major funds. Data for the other two governmental funds are combined in a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 16-19 of this report.

Fiduciary Funds

Fiduciary funds are used to count for resources held for the benefit of parties outside the school district. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on page 20-21 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements may be found on pages 22-48 of this report.

Other information

In addition to the basic financial statements, this report also presents other supplementary information concerning the School District's annual appropriated budgets with comparison statements that demonstrate compliance with budgets. Budgeted amounts may be found on pages 58-74.

Financial Analysis of the School District as a Whole

As noted earlier, net position may serve over time as a useful indicator of the School District's financial position.

89% of the School District's assets are capital assets (e.g., land, buildings and equipment). The school District uses these assets to provide instruction and related services to its students.

The following table provides a summary of the district's net position as of June 30, 2017.

	Governmental Activities		Total Percentage Change
	2017	2016	2016-2017
Current and Other assets	\$ 2,617,008	\$ 2,593,087	0.92%

Change in net position	\$ (2,099,618)	\$ (135,146)	1,453.59%

Governmental Activities

The primary source of operating revenue for school districts comes from the School Finance Act of 1994, as amended (SFA). Under the SFA the School District received \$9,286 per funded student. In fiscal year 2016-17 the funded pupil count was 357.3. Funding for the SFA comes from property taxes, specific ownership tax and state equalization. The School District receives approximately 57 percent of this funding from state equalization while the remaining amount comes from property taxes and specific ownership tax. The School District's assessed valuation generated \$1,482,848 in property taxes for fiscal year 2016-2017.

Governmental Funds

The focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School district's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the School District's net resources available for spending at the end of the fiscal year.

As the end of the fiscal year, the School District's governmental funds reported combined ending fund balances of \$2,198,320, an increase of \$77,955. The General Fund, Bond Redemption Fund and Capital Reserve Capital Projects Fund had fund balance increases of \$18,116, \$4,429 and \$61,618, respectively, while the Other Governmental Funds had a fund balance decrease of \$6,208.

General Fund Budget Highlights

The District's budget is prepared according to Colorado law and is based on accounting for transactions under generally accepted accounting principles. The most significant budgeted fund is the General Fund.

The differences that are found between the original budget and final numbers in the 2016-2017 school year are as follows:

- The Colorado Preschool Program Fund, in its thirteenth year, continues to operate without additional District subsidy. This program was able to install a new loft, storage cabinets, and purchase new Apple computers to update their classroom.
- The Food Service Program had a successful year and operated without additional District subsidy. A new steamer table was purchased for the kitchen as well.
- The non-profit scholarship trust performed well. In May of 2017, interest totaled over \$20,000, allowing the District to award three \$5,000 Simonsen Scholarships, two \$2,000 Akron Community Scholarships, one \$1,000 Akron Community Scholarship, and one \$2,000 scholarship from the one remaining Trust & Agency account.
- The PK-12 school and transportation facility has been occupied for five years.
- To maintain compliance with the original BEST Capital Construction Grant, the District set aside \$100/student to be held in a Capital Renewal Reserve Account for the purpose of maintaining and replacing facilities and equipment for the new school.
- The District has maintained a student head count of ~350 for five years; however, the District has experienced an increase in elementary class sizes. This trend has prompted the hiring of an additional third grade teacher.
- The District continued to follow the textbook rotation schedule with the purchase of junior high and high school science textbooks. The third of four payments was made on the elementary reading series as well.
- The Board of Education allowed an experience step and horizontal step based on approved education credits for salary advancement.
- The District completed the remaining items from the BEST Lease-Purchase Grant. With these funds, a variety of projects were completed including:
 - A new ice machine for the field house.
 - Classroom furniture for the additional 3rd grade class, plus additional desks and chairs for future possible growth.
 - Countertop and desk for the elementary secretary and business manager.
 - Classroom dividers in the high needs special education classroom.
 - Concrete work and landscaping around the facility.

Capital Assets and Debt Administration

Capital Assets

The School Districts investment in capital assets for its governmental activities as of June 30, 2017 amounts to \$21,460,809 (net of accumulated depreciation). This investment in capital assets includes land, buildings, and improvements,

equipment, construction in progress, and capital leases all with an original cost greater than \$5,000.

The School District's total capital assets at June 30, 2017 net of accumulated depreciation were as follows:

Additional information on the School District's capital assets can be found in note E to the basic financial statements.

	Governmental Activities
Building & Improvements	\$ 21,158,641
Other Equipment	159,423
Licensed vehicles	142,745
Total Capital Assets	<u>\$ 21,460,809</u>

Long-Term Debt

At year-end, the School District's long-term debt of \$18,628,220 represented its compensated absences of \$25,317, capital lease obligations of \$9,645, general obligation bonds of \$5,507,703 and net pension liability of \$13,085,555.

Economic Factors

The budget is based upon the goals and objectives of the accountability committee and the Board of Education. The five goals are: 1) improving student achievement, 2) maintaining a high graduation rate, 3) maintaining a high attendance rate, 4) ensuring a quality learning environment, and 5) retaining and hiring highly qualified staff. Many factors were considered by the District's administration during the process of developing the fiscal year 16-17 budget. Among them:

- The enrollment remained steady in FY17, and the enrollment outlook for FY18 is uncertain due to our community size and location.
- Health and Property insurance premiums continue to rise at a rate that is higher than the percentage of funding increase.
- Goals continue to be in place to build up reserves in the Capital Reserve Fund and the Food Services Fund.
- The Bond Redemption Fund is used to collect property taxes. Two semi-annual bond debt payments are also made from this fund. The bond fund is in its fifth year. The specific ownership taxes collected from the bond are deposited into the General Fund.
- The budget included the following considerations:
 - Salary – Staff received advancements in salary through years of experience and education steps. The District continues to make every effort to raise salaries when possible; however, the District was able to provide a Christmas bonus to all employees during the 2016-2017 school year.
 - Fringe benefits – The District will remain with the BEST health insurance program sponsored by CASB. The health insurance premiums increased slightly.
 - PERA – The employer contribution increased in January 2017 by another 0.5% for a total of 19.65%, and is expected to increase again in January of 2018.

- Operation & Maintenance – The warranty on the building is now expired; however, reserves continue to build as plans are made for various capital replacement needs.
- Pupil Transportation – The District purchased a small yellow bus in FY17 with the one-time Small Rural Funds, and will look to maintain the fleet in FY18 with the possible purchase of a new larger bus.
- Transfers – The district will continue to transfer funds to the Capital Reserve Fund and the Colorado Preschool Program Fund.
- Food Services – Lunch prices remained the same. A transfer was not required in FY17; however, money was budgeted for FY18. The food service fund purchased a new steamer table in FY17, and will look to budget for an air conditioning unit in FY18.

The District maintains the budget, financial audits, and current salary schedules on its website: www.akronrams.net.

Contacting the Districts Financial Management

This financial report is designed to provide the District's citizens, taxpayers, parents, investors and creditors with a general overview of the District's finances and to demonstrate the district's accountability for the money it receives. If you have any questions about this report or need additional information, contact Akron School District RE-1, 600 Elm Avenue, Akron, CO 80720.

This page intentionally left blank.

Basic Financial Statements

The basic financial statements of the District include the following:

Government-wide financial statements. The government-wide statements display information about the reporting government as a whole, except for its fiduciary activities.

Fund financial statements. The fund financial statements display information about major funds individually and nonmajor funds in the aggregate for governmental and enterprise funds.

Notes to the financial statements. The notes communicate information essential for fair presentation of the financial statements that is not displayed on the face of the financial statements. As such, the notes are an integral part of the basic financial statements.

AKRON SCHOOL DISTRICT R-1
Statement of Revenues, Expenditures and Changes in Fund Balance
Governmental Funds
For the Year Ended June 30, 2017

	General Fund	Bond Redemption Fund	Capital Reserve Capital Projects Fund	Other Governmental Funds
Revenues				
Local sources	\$ 1,261,755	\$ 523,043	\$ 515	\$ 300,570
Intermediate sources	262			
State sources	2,478,871			3,237
Federal sources	100,486			113,263
Total revenues	3,841,374	523,043	515	417,070
Expenditures				
Instruction	2,261,156			245,406
Supporting services	1,462,102			177,872
Debt service				
Principal		287,668	38,149	
Interest and fiscal charges		230,946	748	
Total expenditures	3,723,258	518,614	38,897	423,278
Excess of revenues over (under) expenditures	118,116	4,429	(38,382)	(6,208)
Other financing sources (uses)				
Transfers in			100,000	
Transfers out	(100,000)			
Total other financing sources (uses)	(100,000)	-	100,000	-
Net change in fund balances	18,116	4,429	61,618	(6,208)
Fund balance at beginning of year	1,237,585	485,658	225,394	171,728
Fund balance at end of year	<u>\$ 1,255,701</u>	<u>\$ 490,087</u>	<u>\$ 287,012</u>	<u>\$ 165,520</u>

The accompanying notes are an integral part of these financial statements.

Total Governmental Funds	Amounts reported for governmental activities in the statement of activities are different because:	
	Net change in fund balances - governmental funds	\$ 77,955
\$ 2,085,883	Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which depreciation exceeded capital outlays in the current period.	
262		
2,482,108		
213,749		
4,782,002		(474,601)
2,506,562	Because some property taxes will not be collected for several months after the fiscal year ends, they are not considered as "available" revenues in the governmental funds and are, instead, counted as deferred tax revenues. They are, however, recorded as revenues in the statement of activities.	
1,639,974		
325,817		(141)
231,694		
4,704,047	Repayment of principal on bonds and capital lease obligations are expenditures in the governmental funds, but the repayment reduces the long-term liability in the statement of net position.	325,817
77,955		
100,000	In the statement of activities, certain expenses related to the pension liabilities and related deferred outflows and inflows, compensated absences and accrued interest payable, are measured by the amounts incurred during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).	
(100,000)		
-		(2,028,648)
77,955		
2,120,365	Change in net position of governmental activities	<u>\$ (2,099,618)</u>
<u>\$ 2,198,320</u>

Notes to Financial Statements

Note A – Summary of significant accounting policies

This summary of the Akron School District R-1's significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. The policies are considered essential and should be read in conjunction with the accompanying financial statements.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The more significant of the District's accounting policies are described below.

A.1 – Reporting entity

The Akron School District R-1 is a school district governed by an elected five-member board of education. The financial reporting entity consists of (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The reporting entity's financial statements should present the funds of the primary government (including its blended component units, which are, in substance, part of the primary government) and provide an overview of the discretely presented component units.

The District has examined other entities that could be included as defined in number 2 and 3 above. Based on these criteria, the District has no component units.

A.2 – Fund accounting

The District uses funds to report its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types." The District does not have any proprietary funds.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked funds (special revenue funds), and the servicing of general long-term debt (debt service fund). The following are the District's major governmental funds:

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

General Fund – The General Fund is the operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include local property taxes, specific ownership taxes, and State of Colorado equalization funding, as determined by the School Finance Act of 1994, as amended.

Expenditures include all costs associated with the daily operation of the schools, except for certain capital outlay expenditures, debt service, food service operations and pupil activities.

Bond Redemption – This fund is a debt service fund used to account for the revenues from a specific tax levy for the purpose of the repayment of debt principal, interest, and other fiscal charges.

Capital Reserve Capital Projects Fund – This fund is a capital projects fund used to account for and report financial resources that have been designated for capital outlays acquisition or construction of major capital facilities and other capital assets.

The following are the District's nonmajor governmental funds:

Food Service Fund – This fund is a special revenue fund used to account for the financial activities associated with the District's food service operations.

Pupil Activity Agency Fund – This fund is a special revenue fund used to record transactions related to school-sponsored pupil organizations and activities.

Fiduciary Funds focus on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and are therefore not available to support the District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. The District has the following fiduciary fund:

Scholarship Trust Fund – This fund is a private-purpose trust fund used to account for resources held by the District in a fiduciary capacity for scholarships to be distributed to area students for post-secondary education.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Note A.3 – Basis of presentation

Government-wide financial statements – The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with a brief explanation to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund financial statements – Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources management focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balance, which reports the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Fiduciary funds focus on net position and changes in net position and are reported using accounting principles similar to proprietary funds. The District's fiduciary funds are presented in the fiduciary fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address the activities or obligations of the District, these funds are not incorporated into the government-wide financial statements.

A.4 – Basis of accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

Revenues – exchange and non-exchange transactions – Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenues from property taxes are recognized in the fiscal year for which the taxes are levied. State equalization monies are recognized as revenues during the period in which they are appropriated. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes collected within sixty days after year-end, interest, tuition, grants and student fees.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

Deferred outflows/inflows of resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Unearned revenue – Unearned revenues arise when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Unearned revenues also arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to meeting eligibility requirements. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed and the revenue is recognized.

Expenditures – the measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

A.5 – Encumbrances

Encumbrance accounting is utilized by the District to record purchase orders, contracts and other commitments for the expenditure of monies to assure effective budgetary control and accountability. Encumbrances outstanding at year-end are canceled and reappropriated in the ensuing year’s budget.

A.6 – Short-term interfund receivables/payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as internal balances on the government-wide statement of net position, and are classified as due from other funds or due to other funds on the balance sheet.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.7 – Inventories

Food Service Fund – purchased inventories are stated at cost as determined by the first-in, first-out method. Commodity inventories are stated at the United States Department of Agriculture’s assigned values, which approximate fair value, at the date of receipt. Expenditures for food items are recorded when consumed. The federal government donates surplus commodities to the national school lunch program. Commodity distributions used by the District are recorded as revenues at the date of their consumption.

A.8 – Capital assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets with a unit cost greater than \$5,000 are capitalized at cost (or estimated historical cost, if actual cost is not available) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair value on the date received. Infrastructure assets, consisting of certain improvements other than buildings (such as parking facilities, sidewalks, landscaping and lighting systems) are capitalized along with other capital assets. Improvements to assets are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not.

All reported capital assets are depreciated with the exception of land costs. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities</u>
Buildings and improvements	5-50 years
Other equipment	5-20 years
Licensed vehicles	8 years

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.9 – Compensated absences

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Compensated absences benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Accumulated sick leave benefits are paid to employees upon termination of employment.

The District's policy permits employees to accumulate a limited amount of earned but unused sick leave benefits, which vest upon reaching ten or more years of continuous service and are payable up to fifty days of unused leave at the following rates: teachers – one-half of the current substitute pay; bus drivers – one half of the current trip pay; and hourly employees – one half of the current step one hourly rate.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts, if any, are recorded in the account "accrued compensated absences" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

The amount recorded as liabilities for all applicable compensated absences include salary-related payments associated with the payment of compensated absences, using the rates in effect at the balance sheet date.

A.10 – Accrued liabilities and long-term obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the noncurrent portion of compensated absences that will be paid from governmental funds is reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. Bonds payable and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.11 – Fund balance

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories listed below.

Nonspendable, such as fund balance associated with inventories, prepaid expenditures, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned),

Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the board of education (the District's highest level of decision-making authority),

Assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and

Unassigned fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications.

Committed fund balance is established by a formal passage of a resolution. This is typically done through the adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the board of education through adoption or amendment of the budget as intended for specific purpose (such as purchase of fixed assets, construction, debt service or for other purposes).

When both restricted and unrestricted resources are available in governmental funds, the District applies expenditures against restricted fund balance first, and followed by committed fund balance, assigned fund balance and unassigned fund balance.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note A – Summary of significant accounting policies (Continued)

A.12 – Net position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are liabilities imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

A.13 – Interfund transactions

Quasi-external transactions are accounted for as revenues or expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. In general, the effect of interfund activity has been eliminated from the government-wide financial statements.

A.14 – Extraordinary and special items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the board of education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the year.

Note B – Cash and investments

Cash and deposits

Colorado State statutes govern the District's deposit of cash. The Public Deposit Protection Acts (PDPA) for banks and savings and loans require state regulators to certify eligible depositories for public deposits. The PDPA require eligible depositories with public deposits in excess of federal insurance levels to create a single institution collateral pool of defined eligible assets. Eligible collateral includes obligations of the United States, obligations of the State of Colorado or Colorado local governments and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note B – Cash and investments (Continued)

institution or held in trust for all uninsured public deposits as a group and not held in any individual government's name. The fair value of the assets in the pool must be at least equal to 102% of the aggregate uninsured deposits.

Custodial credit risk – deposits – Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have deposit policy for custodial credit risk. As of year-end, the District had total deposits of \$2,115,991, of which \$739,686 was insured and \$1,376,305 was collateralized with securities held by the pledging institution's trust department or agent in the District's name.

Investments

Authorized Investments – Investment policies are governed by Colorado State Statutes and the District's own investment policies and procedures. Investments of the District may include:

- Obligations of the U.S. Government such as treasury bills, notes and bonds
- Certain international agency securities
- General obligation and revenue bonds of United States local government entities
- Bankers acceptances of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

At year-end, the District had only investments in certificates of deposit.

The following table provides a reconciliation of cash and investments on the statement of net position:

Cash in bank	\$ 1,647,406
Cash with fiscal agent	498,573
Investments	<u>422,714</u>
Total	<u>\$ 2,568,693</u>

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note B - Cash and investments (Continued)

<u>Statement of net position</u>	
Cash	\$ 1,647,406
Cash with fiscal agent	498,573
Investments in certificates of deposit	<u>377,594</u>
Subtotal	2,523,573
 <u>Statement of fiduciary net position</u>	
Investments in certificates of deposit	<u>45,120</u>
Total	<u>\$ 2,568,693</u>

Note C - Receivables

Receivables at year-end consist of the following:

	<u>Governmental Activities</u>
Property taxes receivable	\$ 78,355
Grants receivables	2,856
Other receivables	<u>10,545</u>
Total	<u>\$ 91,756</u>

Property taxes are levied on December 15th and attach as a lien on property the following January 1st. They are payable in full by April 30th or are due in two equal installments on February 28th and June 15th. Washington County bills and collects property taxes for all taxing entities within the counties. The tax receipts collected by the counties are remitted to the District in the subsequent month.

Note D - Interfund transactions

	<u>Transfers In</u>	<u>Transfers Out</u>
<u>Governmental funds</u>		
General fund	\$ -	\$ 100,000
Capital Reserve Capital Projects Fund	<u>100,000</u>	<u>-</u>
Total	<u>\$ 100,000</u>	<u>\$ 100,000</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them. The District transferred funds in the amount of \$100,000 from the General Fund to the Capital Reserve Capital Projects Fund to set moneys aside for future capital outlays acquisition or construction of major capital facilities and other capital assets.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note E – Capital assets

Capital asset activity for the year was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
Governmental activities				
Capital assets, being depreciated:				
Buildings and improvements	\$ 24,091,898	\$ -	\$ -	\$ 24,091,898
Other equipment	280,901	14,970	-	295,871
Licensed vehicles	<u>716,609</u>	<u>61,715</u>	<u>-</u>	<u>778,324</u>
 Total capital assets, being depreciated	 <u>25,089,408</u>	 <u>76,685</u>	 <u>-</u>	 <u>25,166,093</u>
 Total capital assets	 25,089,408	 76,685	 -	 25,166,093
Less accumulated depreciation for:				
Buildings and improvements	(2,430,947)	(502,310)	-	(2,933,257)
Other equipment	(117,962)	(18,486)	-	(136,448)
Licensed vehicles	<u>(605,089)</u>	<u>(30,490)</u>	<u>-</u>	<u>(635,579)</u>
 Total accumulated depreciation	 <u>(3,153,998)</u>	 <u>(551,286)</u>	 <u>-</u>	 <u>(3,705,284)</u>
 Governmental activities capital assets, net	 <u>\$ 21,935,410</u>	 <u>\$ (474,601)</u>	 <u>\$ -</u>	 <u>\$ 21,460,809</u>

Depreciation expense was charged to programs of the District as follows:

Governmental activities	
Instruction	\$ 3,740
Operations and maintenance	1,454
Student transportation	29,489
Food service operations	13,486
Unallocated	<u>503,117</u>
 Total	 <u>\$ 551,286</u>

Note F – Accrued salaries and benefits

Salaries and benefits of certain contractually employed personnel are paid over a twelve-month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned but not paid at year-end are estimated to be \$334,941. Accordingly, this accrued compensation is reflected as a liability in the accompanying financial statements.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note G – Long-term debt

The following is a summary of the changes in long-term debt for the year:

	<u>Beginning Balances</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balances</u>	<u>Due within one year</u>
Governmental Activities					
Compensated absences	\$ 25,258	\$ 59	\$ -	\$ 25,317	\$ -
Capital lease obligations	47,794	-	(38,149)	9,645	9,645
Bonds payable	5,795,371	-	(287,668)	5,507,703	299,411
Net pension liability	<u>6,748,266</u>	<u>6,337,289</u>	<u>-</u>	<u>13,085,555</u>	<u>-</u>
Totals	<u>\$ 12,616,689</u>	<u>\$ 6,337,348</u>	<u>\$ (325,817)</u>	<u>\$ 18,628,220</u>	<u>\$ 309,056</u>

Payments on the capital lease obligations are made in the Capital Projects Fund while payments on the bonds payable are made in the Bond Redemption Fund. The net pension liability and payments on the compensated absences attributable to the governmental activities will be liquidated primarily by the General Fund. The District believes that the current portion of compensated absences is negligible and is therefore not reported.

Capital lease obligations

Transportation vehicle lease obligation – In September 2012, the District entered into an agreement with The Farmers State Bank, Akron to purchase two 2013 Thomas school buses. The agreement called for a lease term of five years with annual renewal options. Monthly payments of \$3,241 are due on the 15th of each month, with a final payment due in September 2017. The average interest rate over the lease term is 2.49%. The District has capitalized \$182,650 of assets under this capital lease.

The following is a schedule by years of future minimum lease payments under the capital lease above, together with the present value of the net minimum lease payments at year-end:

<u>Year ended June 30,</u>	<u>Debt service requirement</u>
2018	\$ <u>9,688</u>
Total minimum lease payments	9,688
Less amount representing interest	<u>43</u>
Present value of future minimum lease payments	<u>\$ 9,645</u>

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note G – Long-term debt (Continued)

Bonds Payable

\$7,084,651 general obligation bonds, dated December 16, 2010, due in annual installments beginning in fiscal year 2012 ranging from \$245,126 to \$503,675; fixed annual interest rate of 4.08% payable semi-annually on June 1st and December 1st.

Total general obligation bonds \$ 5,507,503

The following schedule represents the District's debt service requirements to maturity for all outstanding bonded indebtedness:

<u>Year ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2018	\$ 299,411	\$ 218,713	\$ 518,124
2019	311,633	206,242	517,875
2020	324,354	193,262	517,616
2021	337,594	179,751	517,345
2022	351,374	165,689	517,063
2023-2027	1,984,091	596,589	2,580,680
2028-2031	<u>1,899,246</u>	<u>158,930</u>	<u>2,058,176</u>
Totals	<u>\$ 5,507,703</u>	<u>\$ 1,719,176</u>	<u>\$ 7,226,879</u>

Note H – Defined benefit pension plan

Summary of significant accounting policies

Pensions. The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

General information about the pension plan

Plan description. Eligible employees of the District are provided with pensions through the School Division Trust Fund (SCHDTF) – a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. Section 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the :

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10% of PERA's Annual Increase Reserve (AIR) for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions. Eligible employees and the District are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. Section 24-51-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

	For the Year Ended December 31, <u>2016</u>	For the Year Ended December 31, <u>2017</u>
Employer contribution rate ¹	10.15%	10.15%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. Section 24-51-208(1)(f) ¹	<u>(1.02)%</u>	<u>(1.02)%</u>
Amount apportioned to the SCHDTF ¹	9.13%	9.13%
Amortization equalization disbursement (AED) as specified in C.R.S. Section 24-51-411 ¹	4.50%	4.50%
Supplemental amortization equalization disbursement (SAED) as specified in C.R.S. Section 24-51-411 ¹	<u>4.50%</u>	<u>5.00%</u>
Total employer contribution rate to the SCHDTF ¹	<u><u>18.13%</u></u>	<u><u>18.63%</u></u>

¹Rates are expressed as a percentage of salary as define in C.R.S. Section 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$388,977 for the year ended.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions

At year-end, the District reported a liability of \$13,085,555 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The District's proportion of the net pension liability was based on the District's contributions to the SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the District's proportion was 0.0439 percent, which was a decrease of 0.0002 percent from its proportion measured as of December 31, 2015.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

For the year, the District recognized pension expense of \$2,418,593. At year-end, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 163,806	\$ 116
Changes of assumptions or other inputs	4,245,989	59,242
Net difference between projected and actual earnings on pension plan investments	439,489	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	-	90,069
Contributions subsequent to the measurement date	<u>199,163</u>	<u>-</u>
Total	<u>\$ 5,048,447</u>	<u>\$ 149,427</u>

\$199,163 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended June 30, ___</u>	<u>Amount</u>
2018	\$ 1,842,343
2019	1,906,129
2020	947,021
2021	<u>4,364</u>
Totals	<u>\$ 4,699,857</u>

Actuarial assumptions. The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

Actuarial cost method	Entry age
Price inflation	2.80 percent
Real wage growth	1.10 percent
Wage inflation	3.90 percent
Salary increases, including wage inflation	3.90 – 10.10 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.50 percent
Discount rate	7.50 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07; and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06; (ad hoc, substantively automatic)	Financed by the annual increase reserve

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016.

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 – 9.70 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07; and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06; (ad hoc, substantively automatic)	Financed by the annual increase reserve

Mortality rates used in the December 31, 2015 valuation were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years. Active member mortality was based upon the same mortality rates but adjusted to 55 percent of the base rate for males and 40 percent of the base rate for females. For disabled retirees, the RP-2000 Disabled Mortality Table (set back 2 years for males and set back 2 years for females) was assumed.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability and roll-forward procedures.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustment for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

- Investment rate of return assumption decreased from 7.50 percent per year, compounded annually, net of investment expenses to 7.25 percent per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80 percent per year to 2.40 percent per year.
- Real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90 percent per year to 3.50 percent per year.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class.

These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the November 18, 2016 adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30 Year Expected Geometric Real Rate of Return</u>
U.S. equity – large cap	21.20%	4.30%
U.S. equity – small cap	7.42%	4.80%
Non U.S. equity – developed	18.55%	5.20%
Non U.S. equity – emerging	5.83%	5.40%
Core fixed income	19.32%	1.20%
High yield	1.38%	4.30%
Non U.S. fixed income - developed	1.84%	0.60%
Emerging market debt	0.46%	3.90%
Core real estate	8.50%	4.90%
Opportunity fund	6.00%	3.80%
Private equity	8.50%	6.60%
Cash	<u>1.00%</u>	0.20%
Total	<u>100.00%</u>	

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure the total pension liability was 5.26 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated economic and demographic actuarial assumptions adopted by PERA's Board on November 18, 2016.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimate future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan’s fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan’s fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.

- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF’s fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86 percent, resulting in a discount rate of 5.26 percent.

As of the prior measurement date, the projection test indicated the SCHDTF’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.50 percent was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate and the discount rate was 7.50 percent, 2.24 percent higher compared to the current measurement date.

Sensitivity of the District’s proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease <u>(4.26%)</u>	Current Discount <u>(5.26%)</u>	1% Increase <u>(6.26%)</u>
Proportionate share of the net pension liability	\$ 16,454,664	\$ 13,085,555	\$ 10,341,537

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note H – Defined benefit pension plan (Continued)

Pension plan fiduciary net position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Payables to the pension plan

The District did not report any payables to the pension plan at year-end.

Note I – Defined contribution pension plan

Voluntary Investment Program

Plan description. Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report of the Plan. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding policy. The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. The District does not offer matching contributions to its employees. Employees are immediately vested in their own contributions and investment earnings. For the year ended June 30, 2017, program members contributed \$21,440 for the Voluntary Investment Program.

Note J – Other postemployment benefits

Health Care Trust Fund

Plan description. The District contributes to the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at www.copera.org/investments/pera-financial-reports.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note J – Other postemployment benefits (Continued)

Funding policy. The District is required to contribute at a rate of 1.02 percent of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the District are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the fiscal years ended June 30, 2017, 2016 and 2015, the District's contributions to the HCTF were \$20,489, \$19,725 and \$19,379, respectively, equal to their required contributions for each year.

Note K – Risk management

Colorado School Districts Self-Insurance Pool

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the Colorado School Districts Self-Insurance Pool (the Pool). The Pool's objectives are to provide member school districts defined property and liability coverages through self-insurance and excess insurance purchased from commercial companies. The District pays an annual contribution to the Pool for its insurance coverages. The District's contribution for the year was \$77,502. The District continues to carry commercial insurance for all other risks of loss, including workers' compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage or the deductible in any of the past three fiscal years. There has been no significant reduction in insurance coverage from the prior year in any of the major categories of risk.

BEST Health Plan

The District joined the Colorado Boards of Education Self-Funded Trust (BEST) in 2008. This partially self-funded trust was established in 2004 to offer a stable, long-term, statewide medical program designed to meet the business objective and challenges of school districts. Medical coverage for the District employees is purchased through the trust.

The District pays a monthly premium to BEST to provide health insurance coverage and services for its plan members. Employees are responsible for paying a deductible amount before the plan begins to pay. The individual deductible amount for fiscal year 2017 was \$2,000 or \$3,500 depending on the type of plan. There is no lifetime maximum benefit for our plan members.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note K – Risk management (Continued)

Because there is the potential to incur high cost medical claims, BEST purchases stop-loss coverage to cover claims that exceed its deductible limit, which is currently \$50,000. Each year, the deductible limit is reviewed based on actuarial analysis to determine if paying an additional premium would increase or reduce the ultimate cost of risk to the District. As members of the BEST Health Plan, the District also purchases prescription coverage through the pool.

Note L – Commitments and contingencies

Federal and state funding

The District receives revenues from various federal and state grant programs which are subject to final review and approval by the grantor agencies. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Budget law

Expenditures in the Food Service Fund and Scholarship Trust Fund exceeded appropriations by \$2,782 and \$500, respectively, and may be in violation of Colorado Local Government Budget Laws.

TABOR Amendment

In November 1992, Colorado voters passed an amendment, commonly known as the Taxpayer's Bill of Rights (TABOR), to the State Constitution (Article X, Section 20) which limits the revenue raising and spending abilities of state and local governments. The limits on property taxes, revenue, and "fiscal year spending" include allowable annual increases tied to inflation and local growth in student enrollment. Fiscal year spending as defined by the amendment excludes spending from certain revenue and financing sources such as federal funds, gifts, property sales, fund transfers, damage awards, and fund reserves (balances). The amendment requires voter approval for any increase in mill levy or tax rates, new taxes, or creation of multi-year debt. Revenue earned in excess of the "spending limit" must be refunded or approved to be retained by the District under specified voting requirements by the entire electorate. On November 5, 1996, the voters of the District approved a ballot initiative permitting the District to retain, appropriate, and utilize, by retention for reserve, carryover fund balance, or expenditure, the full proceeds and revenues received from every source whatsoever, without limitation, in this fiscal year and all subsequent fiscal years notwithstanding any limitation of Article X, Section 20 of the Colorado Constitution. TABOR is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of TABOR. However, the District has made certain interpretations of TABOR's language in order to determine its compliance. The District has reserved funds in the General Fund in the amount of \$113,000 for the emergency reserve.

AKRON SCHOOL DISTRICT R-1
Notes to Financial Statements

Note M – Joint venture

The District participates in the Northeast Colorado Board of Cooperative Educational Services (BOCES). This joint venture does not meet the criteria for inclusion within the reporting entity because the BOCES:

- is financially independent and responsible for its own financing deficits and entitled to its own surpluses,
- has a separate governing board from that of the District,
- has a separate management which is responsible for the day to day operations and is accountable to the separate board,
- governing board and management have the ability to significantly influence operations by approving budgetary requests and adjustments, signing contracts, hiring personnel, exercising control over facilities and determining the outcome or disposition of matters affecting the recipients or services provided, and
- has absolute authority over all funds and fiscal responsibility including budgetary responsibility and reporting to state agencies and controls fiscal management.

The District has one member on the board. The board has final authority for all budgeting and financing of the joint venture.

Separate financial statements of the Northeast Colorado Board of Cooperative Educational Services are available by contacting their administrative office in Haxtun, Colorado.

For the year, the District's contribution was \$134,568.

Required Supplementary Information

Required supplementary information includes financial information and disclosures that are required by the Governmental Accounting Standards Board but are not considered a part of the basic financial statements. Such information includes:

- Budgetary Comparison Schedule – General Fund
- Schedule of the District’s Proportionate Share of the Net Pension Liability
- Schedule of District Contributions

AKRON SCHOOL DISTRICT R-1
Notes to the Required Supplementary Information

Note A – Budgetary data

The District adheres to the following procedures in compliance with Colorado Revised Statutes, establishing the budgetary data in the financial statements:

1. Budgets are required by state law for all funds. Prior to May 31, the superintendent of schools submits to the board of education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted by the board of education to obtain taxpayer comments.
3. Prior to June 30, the budget is adopted by formal resolution.
4. Prior to January 31, the board of education submits its adopted annual budget to the department of education.
5. Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between departments within any fund and reallocation of budget line items within any department in the General Fund rests with the superintendent of schools. Revisions that alter the total expenditures of any fund must be approved by the board of education.
6. Budgets for all funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
7. Budgeted amounts reported in the accompanying financial statements are as originally adopted and as amended by the board of education throughout the year. After budget approval, the District board of education may approve supplemental appropriations if an occurrence, condition, or need exists which was not known at the time the budget was adopted.
8. Appropriations lapse at year-end.

Note B – Factors affecting trends in amounts reported in the pension schedules

Information about factors that significantly affect trends in the amounts reported in the Schedule of the District's Proportionate Share of the Net Pension Liability and the Schedule of District Contributions is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

This page intentionally left blank.

Other Supplementary Information

Other supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

This page intentionally left blank

Budgetary Comparison Schedules - General Fund

The General Fund accounts for all transactions of the District not required to be accounted for in other funds. This fund represents an accounting of the District's ordinary operations financed primarily from property and specific ownership taxes and state aid. It is the most significant fund in relation to the District's overall operations. The schedules of revenues and expenditures are included to provide a greater level of detail to the reader of the financial statements.

Budgetary Comparison Schedule - Fiduciary Fund

These funds focus on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds.

Private-purpose trust funds – These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

- Scholarship Trust Fund – This fund is used to record the financial transactions related to the administration of a scholarship trust that is used to award scholarships to area students.

Independent Auditors' Report on Auditors' Integrity Report

Board of Education
Akron School District R-1
Akron, Colorado

We have audited the financial statements of the Akron School District R-1 (the District) as of and for the year ended June 30, 2017, and our report thereon dated November 28, 2017, which expressed an unmodified opinion on those financial statements, appears on pages 1-2. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Auditors' Integrity Report is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
