## Letter of Transmittal

July 13, 2018

Poudre Fire Authority Board of Directors

We submit, for your information and review, the Comprehensive Annual Financial Report (CAFR) for the Poudre Fire Authority, Fort Collins, Colorado, for the year ended December 31, 2017. This CAFR will be submitted to the Government Finance Officers Association (GFOA) for consideration of the Certificate of Achievement for Excellence in Financial Reporting. The certificate of achievement from GFOA will assist Poudre Fire Authority (the Authority) with compliance in Section 4b, Financial Practices, in the Center for Public Safety accreditation process.

This report consists of staff's representation concerning the finances of the Authority. Consequently, staff assumes responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed information is reported in a manner designed to present fairly the financial position and activities of the various funds of the Authority. The Authority has included all disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities.

The Intergovernmental Agreement forming the Authority states in Section 5.2 (Records and Accounts) that the Board shall provide for the auditing of all books and accounts and other financial records of the Authority on an annual basis, with such auditing to be conducted by a certified public accountant. The independent accountant, RSM US LLP, concluded, based upon the audit, that there was reasonable basis for rendering an unmodified opinion that the Authority's financial statements for the fiscal year ended December 31, 2017 are fairly presented in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A. The Authority's MD&A can be found immediately following the report of the independent auditor.

## **Governmental Structure**

The Poudre Fire Authority was formed in 1981 through the consolidation of the Poudre Valley Fire Protection District (PVFPD) and the City of Fort Collins Fire Department. Both jurisdictions adopted an intergovernmental agreement that outlines the governance of the Authority. The governing body is a five-member board of directors appointed by the Fort Collins City Council and PVFPD Board. The Authority Board of Directors appoints the Fire Chief.

This joining of forces enables the Authority to take a comprehensive, regional approach to the provision of emergency services. The results since 1981 include improved insurance ratings, lower long-term costs to the taxpayer, enhanced ability to respond to large crises situations, the elimination of duplication of resources, and long-range decision making as set forth in the past and current strategic plans. These plans are the product of an extensive process to develop a future vision of community needs and the most efficient and effective means to meet those needs. In addition, staff developed and included a Long-Range Financial Plan in the 2017 budget document and makes multi-year projections regarding the Authority's financial condition. The annual budget provides flexibility in the face of community change with annual review of the Strategic Plan and Long-Range Financial Plan.

The Authority is funded by the City of Fort Collins and the PVFPD through a combination of property taxes in the District and property, sales, and use taxes in the City. It also receives some compensation from Fire Prevention Bureau fees, wildland firefighting, urban search and rescue deployments, and hazardous materials responses provided outside of the jurisdiction.

## **Financial Condition: Economy, Long-Term Financial Planning and Major Initiatives**

2017 Economic Information: The local unemployment rate was 2.2% at the end of 2017 and compares well to the State rate of 3.0% and the national rate of 4.1%. The Fort Collins community is vibrant with innovation; craft brewers, software, hardware, bioscience, and clean energy companies contribute inventions, ideas, and products that affect the local economy positively.

The Fort Collins population grew approximately 4.0%, and the population in the Poudre Valley Fire Protection District grew approximately 2.4%. The community relies heavily on sales and use tax revenues. In 2017, sales taxes and use taxes were up 2.4% and down 12.0%, respectively, for a blended decrease of 0.5%. Inflation was 3.7%, as measured by the Denver-Boulder-Greeley Consumer Price Index for the second half of 2017 versus the second half of

2016. Assessed property values have experienced strong growth in recent years, which contributes to positive growth in the essential economic indicators for the City and District. Building permits increased from 589 to 649 in 2017.

Overall government fund net position increased 11.0% in 2017. At year-end, the Authority held \$12,126,758 in unrestricted net position, which is an increase of 18.4% from 2016. Please see page 24 for more information about the Authority's total net position.

Data-Driven and Transparent: The Authority actively embraces transparency, accountability, and continuous improvement. The Authority participates with the City of Fort Collins in its Open Book, which is an online tool designed to disclose expenses in a simple and easy to use format ([fcgov.com/openbook](http://fcgov.com/openbook)), and in its Community Dashboard, an online tool that measures the community's progress in attaining key outcomes. The Authority reports two measures; percent of time fire contained to room of origin (89.2% in 4<sup>th</sup> quarter 2017) and percent of time Authority fire personnel are on scene within 6 minutes 20 seconds in the urban area (77% in 4<sup>th</sup> quarter 2017). This tool can be accessed at [fcgov.com/metrics](http://fcgov.com/metrics). The Authority participates in the International City/County Managers Association (ICMA) Center for Performance Measurement Analytics to identify and report key outcome measures. The Authority has earned the ICMA Certificate of Excellence each year since 2012 and has applied for the award again in 2018.

Impact of Financial Policy on Financial Statements: The Authority Board has established financial policies, approved annually via Board resolution, which help to ensure financial stability. The Authority will adopt and maintain a balanced budget, as defined by state statute, wherein expenditures will not exceed available revenues plus beginning fund balances. Once the budget has been approved, the Board of Directors, upon recommendation of the Fire Chief, may make supplemental appropriations from prior year reserves and unanticipated revenue.

The modified accrual basis is used for budgeting and accounting. This means that revenues are recognized when they become measurable or available (cash basis), while expenditures are accounted for or recognized in the budgeting period incurred (accrual basis).

An unappropriated Reserve for Contingency of 3% of operating revenues can be accessed only by the Board of Directors. If the revenue reserve and contingency reserve are depleted below reserve policy level (6%), the fire chief will develop a restoration plan, which may include expenditure reductions; rate or fee increases; revenue transfers from other portions of fund balance or capital reserve, to restore balances over a two-year time period. The restoration plan will be a high financial priority and be reviewed and updated by the Authority Board every six months.

Intergovernmental Agreement/Revenue Allocation Formula: The Authority has begun to address its large funding challenges by addressing the long-term funding stream provided through the Intergovernmental Agreement's (IGA) Revenue Allocation Formula (RAF). On July 15, 2014, the Poudre Valley Fire Protection District Board and Fort Collins City Council approved a Restated Intergovernmental Agreement, between the two entities, establishing the Poudre Fire Authority. As a part of the IGA, the RAF was restated to utilize the City's sales, use, and property tax revenue forecasts to develop Authority funding, and the City's intent is to phase-in its total contribution to equal the RAF calculation over a five year period beginning in 2015.

Strategic Plan: Authority staff has developed a Strategic Plan (approved in March 2015, and again in February 2018), which will guide the Authority over the coming three to five years, will involve internal and external stakeholders, and will include goals and objectives to align the Authority's actions.

Accreditation: The Authority appeared before the Commission on Fire Accreditation International (CFAI) on August 27, 2015 and was awarded accredited status. During this meeting, the Authority presented its intended approach to the peer review team's recommendations. The Authority is integrating the processes and systems that have been established in an effort to ensure continuous quality improvement and placing continued focus on planning and analysis as a value to drive improved outcomes. A long-term savings plan was formulated for improved alerting of response crews which will continue to improve overall response times. Finally, the organization continues to work towards improved accuracy of data entry through a quality assurance program and through the Risk Assessment/Standard of Cover Process.

Emergency Medical Services Agreement: The Northern Larimer County Emergency Response Area EMS agreement with UCHHealth / Poudre Valley Hospital Emergency Medical Services was presented to the Authority Board on May 5, 2015 and approved. This agreement provides exclusive ambulance services within the Authority's jurisdiction, which will ensure continued, high quality ambulance services both within the Authority boundaries and in neighboring communities through a contractual agreement.

Timnath Intergovernmental Agreement: The IGA between the Authority, PVFPD and the Town of Timnath was approved by the Town of Timnath, Timnath Development Authority, PVFPD and the Authority in June 2015. The IGA provides tax increment funding from Timnath, through PVFPD, for the Authority's budget.

**Other Information:**

The Authority acknowledges the dedicated efforts of all officials and City and Authority staff involved in managing and accounting for the Authority's financial operations. The process of financial planning, management, and accounting requires a team effort by the Authority Board of Directors, PVFPD Board of Directors, City Council, and City and Authority staff to be successful. The preparation of this 2017 Comprehensive Annual Financial Report was made possible by the dedicated service of the City's Finance Department as well as Authority Budget staff, who worked many extra hours to ensure the completion of this document while fulfilling other responsibilities over the past few months. The Authority would also like to recognize and thank RSM US LLP, the firm that serves as the Authority's external auditor.

Respectfully submitted,

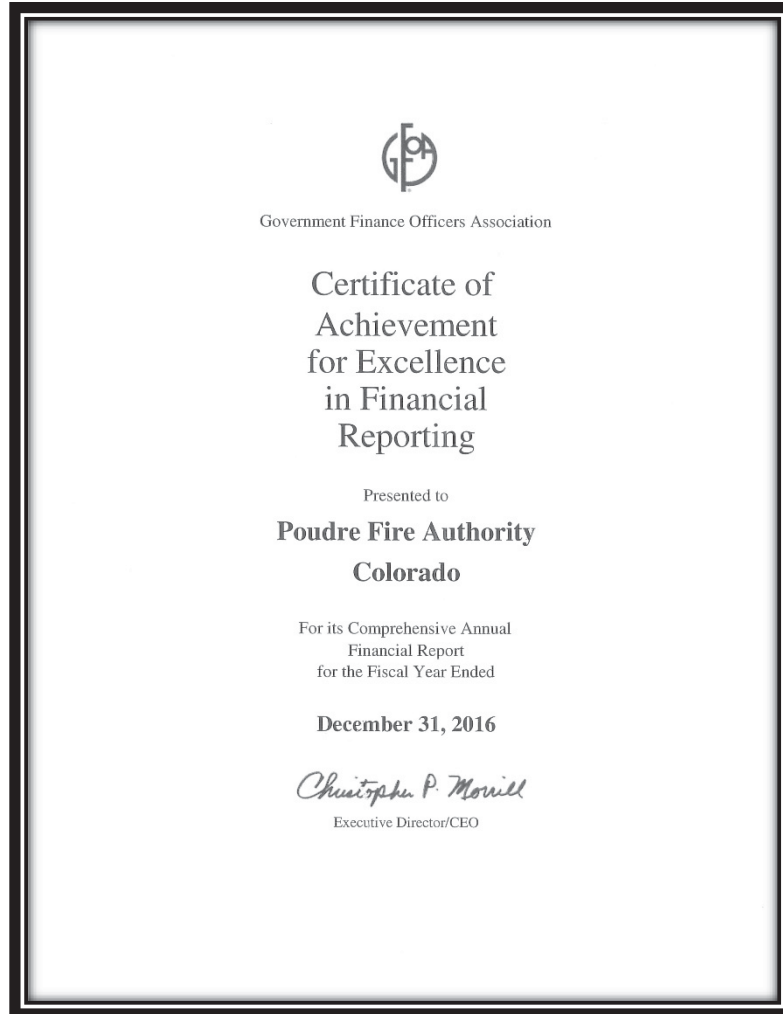

Tom DeMint  
Fire Chief

Ann Turnquist  
Administrative Services Director

Kirsten Howard  
Finance and Budget Supervisor

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Poudre Fire Authority for its comprehensive annual financial report for the fiscal year ended December 31, 2016. This was the fourth consecutive year the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

## Independent Auditor's Report

Board of Directors  
Poudre Fire Authority

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund of the Poudre Fire Authority (the Authority) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Poudre Fire Authority, as of December 31, 2017, and the respective changes in financial position and the budgetary comparisons for the General Fund, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As explained in Note I (F) to the basic financial statements, the Authority adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* which restated beginning net position of the governmental activities.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the schedule of changes in the total other post-employment benefit plan liability and related ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying budgetary comparison schedule for the Capital Projects Fund listed in the table of contents as supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Capital Projects Fund budgetary comparison schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying introductory and statistical sections, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

*RSM US LLP*

Denver, Colorado  
July 13, 2018

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

Poudre Fire Authority (the Authority) offers the readers of the Authority's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended December 31, 2017. In addition to this overview and analysis based on currently known facts, decisions and conditions, the Authority would encourage readers to consider the information presented in the Authority's basic financial statements, which begin on page 24 of this report.

### **Financial Highlights**

The assets of the Authority exceeded its liabilities at the end of the fiscal year ended December 31, 2017 by \$43,235,148 (net position). Of the net position balance, \$12,126,758 is unrestricted and is available to meet the Authority's ongoing obligations in accordance with the Authority's fund designations and fiscal policies.

The General Fund, the Authority's primary operating fund, reported an increase of \$547,089 (7.1%) in fund balance.

The Capital Projects Fund reported an increase of \$727,686 (13.4%) in fund balance.

The City of Fort Collins (City) contributed more revenue in 2017 versus 2016 due to the Amended and Restated Intergovernmental Agreement establishing the Authority, and in particular, through the Revenue Allocation Formula, which, in 2017, was in its third year of a 5-year phase-in adjustment (\$2.6 million over 5 years). In 2017 the Keep Fort Collins Great (KFCG) contribution increased by 3%; however, PFA transferred the majority of this increase to Fort Collins 911 to pay for one dispatch position. Increases in revenue were offset somewhat by increased operations costs in 2017 by adding three community safety specialists, three firefighters, one fleet maintenance technician, one Information Technology position, an EMS battalion chief, and increases in salaries and benefits. The 2017 budget supported the implementation of Accreditation recommendations and initiatives to achieve strategic goals, capital funding, and facility maintenance.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements consist of the following three components: 1) Government-wide Financial Statements, 2) Fund Financial Statements and 3) Notes to the Financial Statements. Other supplementary information is also included at the end of the report.

**Government-wide Financial Statements.** The government-wide statements are designed to provide readers with a broad overview of the Authority's finances using the accrual basis of accounting, the basis of accounting used by most private-sector businesses.

The statement of net position presents information on all of the Authority's assets and liabilities. The difference between assets and liabilities is reported as net position. Over time, increases and decreases in net position may provide an indication of whether the Authority's financial position is improving or deteriorating.

The statement of activities presents information reflecting how the Authority's net position has changed during the fiscal year just ended. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., earned but unused vacation leave).

The government-wide financial statements distinguish functions of the Authority that are principally supported by intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Authority include administration, operations, support, and community safety and service. The Authority does not currently have any business-type activities.

Fund Financial Statements. Traditional users of the Authority's financial statements will find the fund financial statement presentation more familiar. The focus is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. A major fund should generally meet both of the following criteria: 1) total assets, liabilities, revenues, or expenditures/expenses are at least 10% of the corresponding total (assets, liabilities, etc.) for that fund type (i.e., governmental or enterprise funds) and 2) total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5% of the corresponding total for all governmental and enterprise funds combined.

The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Both of the Authority's funds, General Fund and Capital Projects Fund, are governmental funds.

Governmental funds. Governmental funds are used to report those same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, the fund financial statements are prepared on the modified accrual basis. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, with the exception of long-term debt and similar long-term items which are recorded when due. Therefore, the focus of the governmental fund financial statements is on near-term inflows and outflows of spendable resources as well as on the balance of spendable resources available at the end of the fiscal year.

Since the focus of the governmental funds is on near-term resources, it is useful to compare the information presented for governmental funds with similar information presented for

governmental activities in the government-wide financial statements. To facilitate this comparison, reconciliations are provided for both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund and the Capital Projects Fund. Both of these funds are considered to be major funds.

The Authority adopts an annual appropriated budget for all of its governmental funds. A budgetary comparison statement has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 24-30 of this report.

Notes to the financial statements. The notes to the financial statements are considered an integral part of the basic financial statements since they provide additional information needed to gain a full understanding of the data provided in both the government-wide and fund financial statements. The notes to the financial statements can be found on pages 32-51 of this report.

Statement of Net Position

The following table reflects the condensed Statement of Net Position.

Statement of Net Position as of December 31		
	2017	2016 (Restated)
Current and other assets	\$ 15,878,540	\$ 14,760,078
Capital assets	30,402,823	29,394,221
Total assets	46,281,363	44,154,299
Current liabilities	3,018,693	3,263,153
Long-term liabilities	27,522	1,920,713
Total liabilities	3,046,215	5,183,866
Net position:		
Net investment in capital assets	30,402,823	27,350,984
Restricted	705,567	1,209,568
Unrestricted	12,126,758	10,409,881
Total net position	\$ 43,235,148	\$ 38,970,433

For more detailed information, see page 24 for the Statement of Net Position.

The largest portion of the Authority's net position (70.3%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment), less any debt used to acquire those assets which is still outstanding. The Authority uses these capital assets to provide emergency services to citizens; consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted balance in net position, \$705,567 consists of \$452,309 for Keep Fort Collins Great revenues received with amounts expended in 2017 for fire protection needs voted for by the citizens of Fort Collins and \$253,258 for agreements.

The balance of unrestricted net position, \$12,126,758, may be used to meet the Authority's ongoing obligations to its citizens and employees.

The Authority's total net position increased \$4,264,715 during the current fiscal year.

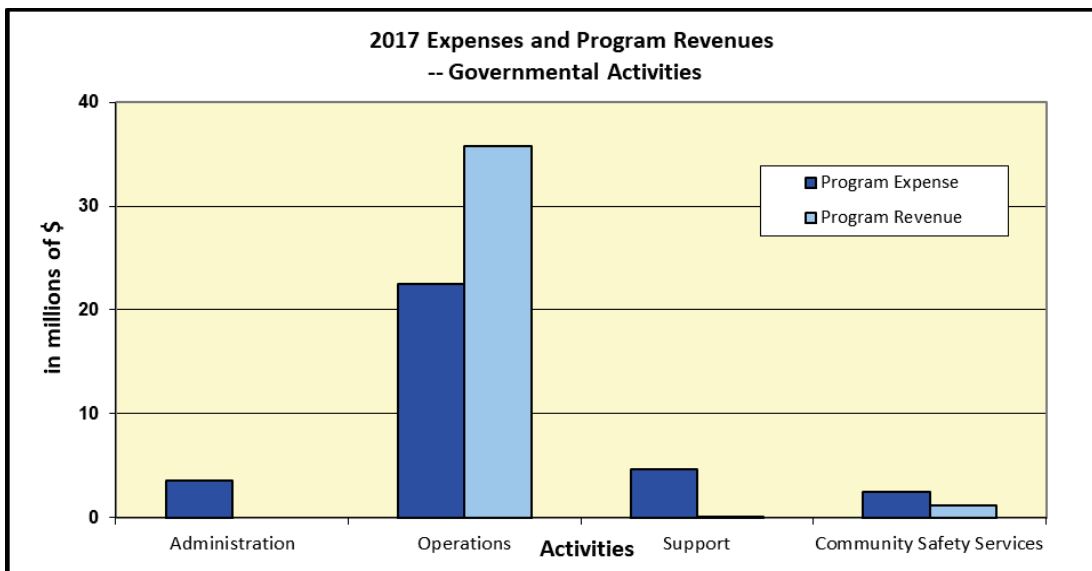

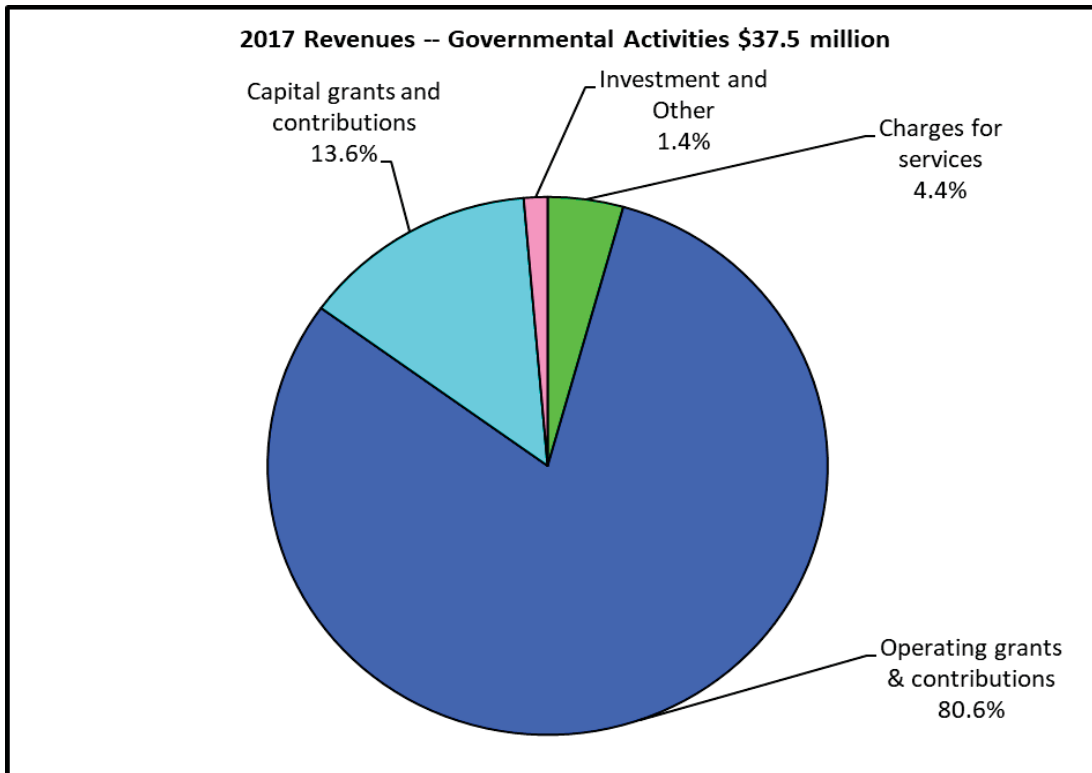

Changes in Net Position: The following table reflects a condensed summary of the activities and changes in net position. For more detailed information, see page 25 of this report.

**Statement of Activities & Changes in Net Position**

December 31

	2017	2016 (Restated)
Revenues:		
Program revenues:		
Charges for services	\$ 1,632,327	\$ 1,844,059
Operating grants and contributions	30,224,973	31,375,784
Capital grants and contributions	5,116,880	1,626,130
General revenues:		
Investment earnings	169,681	63,643
Sale of equipment	-	36,529
Miscellaneous revenue	344,311	79,398
Total Revenues	37,488,172	35,025,543
Expenses:		
Administration	3,620,184	2,443,487
Operations	22,444,203	21,609,444
Support	4,671,586	2,393,352
Community Safety Services	2,487,484	2,352,943
Total expenses	33,223,457	28,799,226
Change in net position	4,264,715	6,226,317
Net position - beginning (restated)	38,970,433	32,744,116
Net position - ending	\$ 43,235,148	\$ 38,970,433

The Authority is funded by the City of Fort Collins and the Poudre Valley Fire Protection District through a combination of property taxes in the District and property, sales, and use taxes in the City. It also receives some compensation from wildland firefighting, hazardous materials responses provided outside of the jurisdiction, interest income, and charges for service within the Community Safety and Service Division, such as building plan and sprinkler review fees. The four Divisions of the Authority (Administration, Operations, Support, and Community Safety and Service) make up the General Fund and are funded by the aforementioned revenues.

## Financial Analysis of the Authority's Funds

As noted previously, the Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Authority's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Authority's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Authority's governmental funds reported combined ending fund balances of \$14,387,298, an increase of \$1,274,775 (9.7%) as compared to the prior year. Of the ending fund balance, \$6,186,678 (43%) represents unassigned fund balance, which is available for spending at the government's discretion, \$705,567 (4.9%) is for voter approved initiatives and contractual agreements, \$970,990 (6.8%) is committed for emergencies, and \$6,524,063 (45.3%) is assigned to indicate that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders of the prior period.

The general fund is the chief operating fund of the Authority. At the end of the current fiscal year, unassigned fund balance of the general fund was \$6,186,678; restricted fund balance was \$705,567; committed fund balance was \$970,990, and assigned fund balance was \$355,907. The total fund balance was \$8,219,142.

The fund balance of the Authority's general fund increased \$547,089 from prior year. This is due to higher than anticipated revenues while expenditures remained steady.

The fund balance of the Authority's capital projects fund increased by \$727,686. This is due to the cost of Station 8 in Timnath coming in under budget, and revenue contributions for anticipated 2018 expenditures for Records Management System and Mobile Data Terminals.

## Budgetary Highlights

### Governmental Funds

General Fund: The increase from the total original budgeted expenditures to the final budget amounted to \$1,473,344 and can be summarized as follows:

Appropriations of \$1,473,344 were approved by the Authority Board from reserves, unanticipated revenue, and grant funds for facility electronic entry system, EMS equipment, Urban Search and Rescue deployments to hurricanes Harvey and Irma, Office of Emergency Management, wildland fire apparatus, major station remodel,

Northern Colorado Regional Communication Network, Colorado firefighter heart and circulatory benefits trust, and prior year encumbrances.

General Fund. Actual expenditures were \$1,076,686 less than total final budgeted expenditures and can be summarized as follows:

Actual expenditures were less than budgeted by 3.3% due to positive balances in the Administration budget in contingency, in Operations personnel costs (funds to over hire if necessary, and actual expenditures were offset by six Operations retirements in 2017), in the Community Safety and Service Division, personnel costs (two retirements and a vacant hourly position), and in Support, personnel costs (two retirements, and two positions hired mid-year) and an appropriation for EMS equipment with expenditures delayed until 2018.

Capital Assets

The Authority's investment in capital assets as of December 31, 2017 (net of accumulated depreciation) were as follows:

Capital Assets Net of Accumulated Depreciation as of December 31		
	2017	2016
Land	\$ 1,608,426	1,447,824
Construction in progress	266,865	-
Building & improvements	17,239,440	17,465,863
Improvements other than buildings	1,447,891	1,552,458
Machinery & equipment	9,840,201	8,928,076
Total Capital Assets	\$ 30,402,823	29,394,221

Additional information on the Authority's capital assets can be found on page 43-44 of this report.

### Long-Term Debt

In 2017, the Authority paid its debt, which consisted of capital lease obligations, in full. The Authority saved approximately \$450,000 in interest payments by prepaying the lease ten years prior to the final payment date.

### Economic Factors

Sales and use tax collections for the City of Fort Collins, one of the Authority joint venture partners, decreased, and the PVFPD property tax collections have increased, which signals stabilization in property values. Both the City and the District have benefitted from reduced interest rates and an increase in housing starts and building activity. An increase in retail sales, especially autos, showed positive growth in specific ownership tax. These and other factors were considered when the Authority prepared its 2017 budget.

### Financial Contact

The Authority's financial statements are designed to provide users (citizens, taxpayers, customers, and creditors) with a general overview of the Authority's finances and to demonstrate the Authority's accountability. Questions concerning any of the information presented in this report or requesting additional information should be addressed to the Authority Administrative Services Director, 102 Remington Street, Fort Collins, CO 80524.

Fund Balances--December 31	<u>\$ 8,219,142</u>	<u>\$ 6,168,156</u>	<u>\$ 14,387,298</u>

The notes to the financial statements are an integral part of this statement.

**RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES AND CHANGES IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO  
THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2017**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 1,274,775
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Expenditures for capital assets	2,890,915
Net loss on disposal of capital assets	(55,068)
Less current year depreciation	<u>(1,827,245)</u>
	1,008,602

Grant revenue in the statement of activities do not provide current financial resources and are not reported as revenues in the government fund operating statement	15,000
---	--------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Change in compensated absences	(81,387)
Change in postemployment health benefits	760
Principal payments on capital leases	2,043,237
Change in interest payable	<u>3,728</u>
	<u>1,966,338</u>

Change in net position of governmental activities	<u><u>\$ 4,264,715</u></u>
---	----------------------------

The notes to the financial statements are an integral part of this statement.

## **NOTE I. REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

An intergovernmental agreement between the City of Fort Collins (the City) and the Poudre Valley Fire Protection District (PVFPD) established the Poudre Fire Authority (the Authority) on December 22, 1981 and was amended and restated on July 15, 2014. The 1981 agreement conveyed all fire protection property of the City and PVFPD to the Authority and all firefighters of the City and the PVFPD became employees of the Authority.

The 2014 amended and restated agreement updated general terms of the 1981 agreement such as the language to appoint the 5th member of the Authority Board, the impact of annexations on the Revenue Allocation Formula, appointment of a legal advisor to the Authority, and consolidation of the 1981 agreement and amendments thereto. However, updating and revising the Revenue Allocation Formula, which details the financial contribution of the PVFPD and City of Fort Collins to the operation of the Authority, was the key change to the agreement.

The more significant accounting policies reflected in the financial statements are summarized as follows:

### **A. Reporting Entity**

The Authority was created as an independent governmental entity to provide consolidated fire and rescue service within the territorial limits of the City and the District. The Authority is administered by a governing board of five members who are appointed by the City and the PVFPD. Funding is provided to the Authority from these two entities.

The Authority is considered a stand-alone government for financial reporting purposes. As such, it follows the same principles as if it were a primary government as defined by the Governmental Accounting Standards Board (GASB) Codification.

The reporting entity of the Authority consists of its own legal entity and those organizations for which it is financially accountable. Entities for which the nature and significance of their relationship with the Authority are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete are included in the reporting entity. As of December 31, 2017, there are no legal entities that meet this criterion.

### **B. Government-wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the government. The effect of interfund activity has been removed from these statements. All activities of the Authority are governmental activities, which are generally supported by intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or program is offset by program revenues. Direct expenses are those that are clearly

associated with a specific function or program. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or program. Investment earnings and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

### **C. Measurement Focus and Basis of Accounting**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. As under accrual accounting, expenditures are generally recorded when a liability is incurred. However, debt service expenditures, as well as those related to compensated absences and incurred claims and judgments, are recorded only when payment is due.

Charges for services, amounts due from other governments and interest associated with the current fiscal period are all considered to be susceptible to accrual. Other revenue items such as licenses and permits are considered to be measurable and available only when the cash is received by the Authority; as a result, they are not susceptible to accrual.

### **D. Financial Statement Presentation**

The accounts of the Authority are organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures. The various funds are summarized by type within the financial statements.

The Authority reports the following major governmental funds:

The General fund is the Authority's primary operating fund. It accounts for all financial resources of the Authority, except those required to be accounted for in another fund.

The Capital Projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities. Revenues and other financing sources are derived primarily from intergovernmental revenue or transfers from other funds.

## **E. Budgetary Data**

### *Budgetary Accounting and Control*

Appropriated budgets are established for all funds of the Authority.

#### *General Fund*

The budget for the general fund is adopted on a basis which is consistent with generally accepted accounting principles (GAAP).

#### *Capital Projects Fund*

The Capital Projects Fund budget is not consistent with GAAP because appropriations do not lapse at year end.

#### *Legal Level of Control*

The legal level of budgetary control is at the individual fund level, except for capital projects and federal and state grants for which the legal level of control is at the project or grant level. For budgetary purposes, operating transfers are considered expenditures.

#### *Lapsing Appropriations*

All appropriations unexpended or unencumbered lapse at the end of the year to the applicable fund, except capital project and federal and state grant appropriations, which lapse when the project or grant activity is completed. Appropriations, which are encumbered at year end, are carried over to the ensuing year at which time they are matched with their corresponding expenditures.

### *Budgetary Procedures*

The Authority's budget is approved by the governing board prior to the commencement of the fiscal year. The Authority's management may transfer any unused budgeted amount or portion thereof from one budget category to any other budget category at the legal level of budgetary control without approval of the Board. Other budget amendments must be approved in the form of a resolution by the Board.

Ten resolutions making supplemental appropriations to the original adopted budget were enacted during 2017.

### *Encumbrances*

Encumbrance accounting is utilized by the Authority to record purchase orders, contracts and other commitments for the expenditure of monies to assure effective budgetary control and accountability. Encumbrances outstanding at year end represent the estimated amount of expenditures likely to result if orders for goods and services are completed. In governmental funds, encumbrances outstanding at year end are reported as assigned fund balance since they do not represent expenditures or liabilities.

## **F. Assets, Liabilities and Fund Balance/Net Position**

### **Cash and Investments**

The Authority has stated certain investments at fair value in accordance with the GASB Codification. Fair value is determined utilizing the third party custodian's statements, Wall Street Journal, Bloomberg, and other recognized pricing services.

The Authority's cash and investments are held in the name of and managed by the City of Fort Collins. Whenever possible, cash is pooled with the City's funds to enhance investment capabilities and maximize investment income. Investments are made taking into consideration cash flow needs, market conditions, and contingency plans. On behalf of the Authority, the City's investment policies prescribe eligible investments, investment diversification, and maturity and liquidity guidance, which are utilized in managing the investment portfolio.

### **Capital Assets**

Capital assets, which are acquired or constructed, are reported at historical cost or estimated historical cost in the government-wide financial statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$5,000, and an estimated useful life of five years or greater. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Capital assets other than land and impaired assets are depreciated. Depreciation is computed using the straight-line method with estimated useful lives as follows:

Buildings.....	25-50 years
Improvements other than buildings .....	15-25 years
Machinery and equipment .....	5-15 years

**Compensated Absences**

The Authority allows employees to accumulate unused vacation pay and to defer overtime pay by accumulating compensatory leave up to maximum limits. Unused sick pay is not recognized as a liability because it does not meet the criteria for accrual. The liability associated with these benefits is reported in the government-wide financial statements. Compensated absences are considered a current liability as employees typically use the full balance in the subsequent year and the Authority records usage on a first in, first out basis.

**Fund Balance/Net Position**

In the fund financial statements, fund balance of the Authority’s governmental funds may be classified as nonspendable, restricted, committed, assigned or unassigned.

Nonspendable fund balances indicate amounts which cannot be spent either: a) due to form; for example, inventories and prepaid amounts or b) due to legal or contractual requirements to be maintained intact.

Restricted fund balances indicate amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation.

Committed fund balances indicate amounts constrained for a specific purpose by a government using its highest level of decision-making authority – a Board resolution. It would require action by the same governing body (Board of Directors) to remove or change the constraints placed on the resources. This action must occur prior to year-end; however, the amount can be determined in the subsequent period.

For the capital projects fund, any remaining positive amounts not classified in the above categories are reported as assigned. For the general fund, amounts constrained for the intent to be used for a specific purpose has been delegated to the Board of Directors, which has authority to assign amounts. Amounts reported as assigned should not result in a deficit in the unassigned fund balance.

Unassigned fund balances indicate amounts in the general fund that are not classified as non-spendable, restricted, committed or assigned. The general fund is the only fund that would report a positive amount in unassigned fund balance. When both unassigned and committed or assigned resources are available for use, it is the Authority's policy to use committed or assigned resources first, then unassigned resources as needed.

In the government-wide fund financial statements, net position is restricted for amounts that are legally restricted by outside parties for specific purposes or through enabling legislation that is a legally enforceable restriction on the use of revenues. When both restricted and

unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets, if any. The government-wide statement of net position reports \$705,567 of restricted net position.

**Estimates**

The preparation of financial statements requires management to make estimates and assumptions which effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Adoption of New Accounting Pronouncements**

Effective January 1, 2017, the Authority adopted *GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB 75 requires a liability for Other Post-Employment Benefits (OPEB) obligations, known as the Net OPEB Liability (Total OPEB Liability for unfunded plans), to be recognized on the financial statements of plan sponsors. Changes in the Net OPEB Liability (Total OPEB Liability for unfunded plans) are immediately recognized as OPEB expense on the statement of activities or reported as deferred inflows/outflows of resources depending on the nature of the change.

As this statement is applied retroactively, the financial statements for the year ended December 31, 2016 have been restated to apply the changes associated with the implementation of GASB Statement No. 75 to adjust the net OPEB liability. The effect of this change is as follows:

	<u>Governmental Activities</u>
Net position December 31, 2016, as previously reported	\$ 38,783,849
Total OPEB liability	(28,282)
Removal of net OPEB obligation	214,866
Net Position January 1, 2017, as restated	<u>\$ 38,970,433</u>

The GASB has issued several Statements not yet implemented by the Authority. Authority management has not yet determined the effect the Statements will have on the financial statements. However, the Authority intends to implement all Standards by the required dates. The Standards which may impact the Authority are as follows:

*GASB Statement No. 84, Fiduciary Activities.* This Statement, issued January 2017, will be effective for the Authority beginning with its fiscal year ending December 31, 2019. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

*GASB Statement No. 87, Leases.* This statement, issued June 2017, will be effective for the Authority beginning with its fiscal year ending December 31, 2020 with earlier adoption encouraged. Statement No. 87 establishes a single approach to accounting for and reporting leases by state and local governments. Under this statement, a government entity that is a lessee must recognize (1) a lease liability and (2) an intangible asset representing the lessee's right to use the leased asset. In addition, the Authority must report the (1) amortization expense for using the asset over the shorter of the term of the lease or the useful life of the underlying asset, (2) interest expense on the lease liability and (3) note disclosures about the lease. The Statement provides exceptions from the single-approach for short-term leases, financial purchases, leases of assets that are investments and certain regulated leases. This statement also addresses accounting for lease terminations and modifications, sale-leaseback transactions, non-lease components embedded in lease contracts (such as service agreements), and leases with related parties.

## **NOTE II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

### **Excess of Expenditures Over Appropriations In Individual Funds**

The Authority has no excess of expenditures over appropriations at the fund level within each of the individual funds. The actual to budget comparisons for both governmental funds may reflect immaterial excess expenditures at the program or grant level within the fund.

## **NOTE III. DETAILED NOTES ON ALL FUNDS**

### **A. Deposits and Investments**

The Authority's deposits and investments are held in the name of and managed by the City of Fort Collins. As such, they are not evidenced by accounts or securities in the Authority's name that exist in physical or book entry form.

#### **Deposits**

The carrying amount of the Authority's deposits held by the City of Fort Collins as of December 31, 2017 was \$2,481,017. The bank balance was \$2,545,862.

## **Custodial Credit Risk – Deposits**

For deposits, custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits might not be returned. Due to the federal deposit insurance and the collateral, no deposits for the Authority were exposed to custodial credit risk.

## **Investments**

Investment policies are governed by Colorado statute and the Authority's own investment policies and procedures. Investments of the Authority may include:

- Obligations of the United States such as T-bills, notes and bonds
- Bonds or other interest-bearing obligations of which the principal and interest are unconditionally guaranteed by the United States government, such as Government National Mortgage Association (GNMA) bonds, GNMA participation certificates and GNMA pass throughs.
- Debentures or similar obligations issued by a federal intermediate credit bank or by a bank for cooperatives.
- Notes or bonds secured by mortgages or trust deeds insured pursuant to Title II of the "National Housing Act" (the Act), obligations of national mortgage associations or similar credit institutions organized under Title III of the Act and debentures issued by the Federal Housing Administration under Section 204-A of the Act.
- Repurchase agreements of any marketable security, where the market value of such security is at all times at least equal to the monies involved and there is assignment of such security to the Authority or its agent.
- A change in the interest rates on variable (floating) rate bonds likewise affects the amounts of interest received on those securities.

The Authority's investments are subject to interest rate and credit risk as described below:

### **Interest Rate Risk**

As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's investment policy limits at least 80 percent of the Authority's investment portfolio to maturities of less than five years and at least five percent of the Authority's operating investment portfolio to maturities of 120 days or less. Based on the current rate environment, the Authority assumes that all callable securities will be called on the first call date.

## **Credit Risk**

The Authority's investment policy limits investments to the top three ratings issued by nationally recognized statistical rating organizations (NRSROs). As of December 31, 2017, the Authority's investments in Federal Farm Credit Bank (FFCB), Federal Home Loan Bank (FHLB), Federal National Mortgage Association (FNMA) and Federal Home Loan Mortgage Corporation (FHLMC) agency securities were rated Aaa by Moody's Investor Services and AA+/- by Standard and Poor's. The Authority also has a share of Corporate Bonds with ratings ranging from AA- to AA+ from S&P and AA3 to AAA from Moody's. The Authority's investment policy also allows for the Authority to invest in local government investment pools.

## **Concentration of Credit Risk**

The Authority's investment policy places no limit on the amount the City, on behalf of the Authority, may invest in any one issuer. At the end of 2017, the Authority had 34.4% of its investments in FFCB, 13.1% in FHLB, 4.3% in FHLMC, and 34.1% in FNMA.

## **Custodial Credit Risk for Investments**

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Authority's investment policy restricts the holding of securities by counterparties.

## **Fair Value Measurements**

The City, on behalf of the Authority, categorizes its assets and liabilities measured at fair value within the hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest to Level 3 inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Information regarding the City's fair value, credit risk rating, maturity, and fair value measurement are described below.

Investment prices for the City's securities are reported by US Bank, the City's custodial bank.

US Bank acquires its pricing data from Interactive Data, a third party provider, which provides global security evaluations and fair value pricing for fixed income securities. Their evaluations represent a good faith opinion as to what a buyer in the marketplace would pay for a security in a current sale.

Interactive Data's evaluations are based on market data and evaluated pricing models that vary by asset class and incorporate trade, bid and other market information as well as evaluated pricing applications utilizing benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing to prepare evaluations. In addition, model processes such as the Option Adjusted Spread model are used to assess interest rate impacts and develop prepayment scenarios. For each asset class, teams of evaluators gather information from market sources and integrate relevant credit information, perceived market movements, and sector news into the evaluated pricing applications and models.

The City, on behalf of the Authority, invests primarily in fixed income securities. The investments are valued at fair value at least monthly.

The following fair value techniques were utilized in measuring the fair value of its investments.

*U.S. Government Agency and Investment Grade Corporate Securities:* U.S. Government Agency securities are reported at fair value based on a multi-dimensional relational model and Option Adjusted Spread model. The model inputs include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and other reference data including Trade Reporting and Compliance Engine (TRACE) reported trades. TRACE is a program developed by the National Association of Securities Dealers (NASD) which allows for the reporting of over-the counter transactions for eligible fixed-income securities.

The City, on behalf of the Authority, has no other investments meeting the fair value disclosure requirements of GASB Statement No. 72. As of December 31, 2017, the City, on behalf of the Authority, had the following investments and maturities:

Investment Type	Credit Risk Rating S&P/Moody's	Fair Value Measurement Level	Fair Value	Investment Maturities		
				Up to 120 days	121 days to 5 years	More than 5 years
<i>Investments measured by fair value levels</i>						
Instrumentality						
Federal Farm Credit Bank (FFCB)	AA+/AAA	2	\$ 4,475,100	90,309	4,294,401	\$ 90,390
Federal Home Loan Bank (FHLB)	AA+/AAA	2	1,703,745	-	1,703,745	-
Federal Home Loan Mortgage Corporation (FHLMC)	AA+/AAA	2	558,393	-	558,393	-
Federal National Mortgage Association (FNMA)	AA+/AAA	2	4,426,055	337,892	4,088,163	-
Corporate bonds	AA+/AA1	2	228,310	-	228,310	-
Corporate bonds	AAA/AAA	2	437,544	310,668	126,876	-

Corporate bonds	AA-/AA3	2	628,052	-	628,052	-
Corporate bonds	AA/AA2	2	65,727	-	65,728	-
Total Investments Controlled by the City			\$12,997,543	\$1,213,486	\$11,693,668	\$ 90,390
Percent of Total				9%	90%	1%

## B. Capital Assets

A summary of changes in capital asset activity for the year ended December 31, 2017 follows:

	Beginning Balance	Additions	Transfers	Deletions	Ending Balance
<u>Primary Government:</u>					
Governmental activities					
Capital assets, not being depreciated:					
Land	\$ 1,447,824	\$ 1,500	\$ 159,102	\$ -	\$ 1,608,426
Construction in progress	-	2,719,371	(2,452,506)	-	266,865
Total capital assets, not being depreciated	1,447,824	2,720,871	(2,293,404)	-	1,875,291
Capital assets, being depreciated:					
Buildings and improvements	25,549,498	74,962	228,337	-	25,852,797
Improvements other than buildings	2,137,799	-	-	-	2,137,799
Machinery and equipment	19,321,178	95,081	2,065,068	(1,152,751)	20,328,575
Total capital assets being depreciated	47,008,475	170,043	2,293,404	(1,152,751)	48,319,171
Less accumulated depreciation for:					
Buildings and improvements	(8,083,635)	(529,722)	-	-	(8,613,357)
Improvements other than buildings	(585,341)	(104,567)	-	-	(689,908)
Machinery and equipment	(10,393,101)	(1,192,956)	-	1,097,683	(10,488,374)
Total accumulated depreciation	(19,062,077)	(1,827,245)	-	1,097,683	(19,791,639)
Total capital assets being depreciated, net	27,946,397	(1,657,202)	2,293,404	(55,068)	28,527,532
Governmental activities capital assets, net	\$ 29,394,221	\$ 1,063,669	\$ -	\$ (55,068)	\$ 30,402,823

Depreciation expense was charged to functions / programs of the primary government as follows:

	Governmental Activities
Operations	\$ 1,334,978
Administration	452,700
Community Safety Services	39,567
	<u>\$ 1,827,245</u>

### C. Fund Balances

The Authority's general fund has a restricted fund balance of \$705,567 of which \$452,309 is for Keep Fort Collins Great taxes received and not spent, with \$253,258 for the Northern Colorado Regional Communication Network agreement. The general fund has \$970,990 reported as committed fund balance for government operations. There is \$355,907 reported as assigned fund balance, which is comprised of \$27,218 for workers' compensation and \$328,689 for encumbrances. The general fund's unassigned fund balance as of December 31, 2017 is \$6,186,678.

The Authority's capital projects fund reports \$6,168,156 of fund balance, all of which is assigned for capital projects.

## NOTE IV. OTHER INFORMATION

### A. Risk Management

#### Property, Liability, and Workers Compensation

The Authority obtains coverage through Colorado Special Districts Property and Liability Pool for its comprehensive automobile liability, general liability, and public official liability exposures, as well as damage or destruction of property, equipment breakdown, and crime. The Authority maintains property coverage with a \$5,000 deductible and inland marine coverage with a \$1,000 deductible. Coverage is all-risk, subject to exclusions. Earthquake and flood coverage is provided with a \$2,000,000 per occurrence limit and a deductible of 2% of the total insurable value at each location, subject to a minimum of \$5,000 per occurrence and a maximum of \$50,000 per occurrence. Crime coverage and equipment breakdown coverage have a \$2,500 and \$1,000 deductible, respectively. Vehicle comprehensive and collision coverage has a \$5,000 deductible.

In prior year 2016, the Authority renewed the liability coverage through Colorado Special Districts Property and Liability Pool. The policy has a \$50,000 per occurrence deductible for

certain types of liability claims. Coverage limits are as follows:

- General, Vehicle, & Wrongful Acts Liability - \$2 million primary, \$8 million excess policy
- Public Official Liability - \$2 million primary, \$8 million excess policy

Workers' compensation losses are insured through a standard workers' compensation policy with a \$5,000 deductible per claim.

There have been no significant claims exceeding insurance coverage limits during each of the past three years.

### **Employee Health and Illness**

The employees of the Authority receive comprehensive major medical benefits under a Preferred Provider Options health plan offered by the City of Fort Collins. Any related actuarial claims for the health plans are retained by the City of Fort Collins. Stop-loss coverage of \$225,000 per occurrence is retained as excess risk coverage. During the past three years, there have been three claims incurred by the Authority which have exceeded the stop-loss limit.

### **B. Related Party Transactions**

Due to the nature of the relationships, the Authority has related party transactions with the entities which created it. The following transactions occurred during 2017:

City of Fort Collins – As described in Note 1 (page 33), the City of Fort Collins provides funding for the Authority. During 2017, such funding amounted to \$29,001,095. The City also provided, per the IGA, accounting and administrative services to the Authority at no charge.

Poudre Valley Fire Protection District – During 2017, the District contributed funds amounting to \$5,730,446.

### **C. Employee Retirement Systems**

#### **Money Purchase Plan**

The Authority offers its firefighters defined contribution money purchase plans created in accordance with Internal Revenue Code Section 401(a). In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Firefighters are eligible to participate from the date of employment. All eligible participants are required to participate to the plan as a condition of employment. Under the plan the Authority is required

to contribute 8%, with participants required to contribute 10% of base pay each pay period. Contributions by the Authority are not taxable to the employee until withdrawn. Participant contributions are made with pre-tax dollars, with earnings on the Authority and participant contributions not taxed until withdrawn. Participants are fully vested upon initial participation into the plan. The Authority has the option to amend the terms of the plans, with approval of at least sixty-five percent of the total votes cast by actively-employed eligible firefighters and all former employees who are entitled to a benefit from the plans. The Poudre Fire Authority Board of Directors, via resolution, appointed ICMA-RC as the Plan administrator for the plan.

The Authority and participant contributions to the plan were \$1,304,085 and \$1,630,107, respectively during 2017. The Authority has no administrative involvement and does not perform the investing function for the money purchase plans. Therefore, the assets are not included as part of the financial statements of the Authority.

Civilian employees are offered a separate defined contribution money purchase plan, which is incorporated with the defined contribution money purchase plan established by the City of Fort Collins. The plan requires the Authority and participants to contribute 3% and 7.5%, respectively, of base salary each pay period. Contributions made by the Authority are not taxable to the participant until they are withdrawn. Participant contributions are made with pre-tax dollars, and the earnings on the Authority and employee contributions are not taxed until withdrawn. Employees are eligible to participate six months from the date of employment. Employees are fully vested upon initial participation in the plan. Contribution requirements are established and may be amended by the Authority. Plan provisions are established and may be amended by Council for City of Fort Collins. Neither the Authority or the City of Fort Collins have administrative involvement in the plan. Therefore, the assets are not included as part of the financial statements of the Authority.

### **Statewide Death and Disability Plan**

#### *Plan Description*

The Authority contributes to the Fire & Police Pension Association Statewide Death and Disability Plan (the Plan), a multi-employer cost sharing defined benefit plan covering full-time employees of substantially all fire and police departments in Colorado.

Contributions to the Plan are used solely for the payment of death and disability benefits. The Plan was established in 1980 pursuant to Colorado Revised Statutes. All uniformed employees are eligible to be members of the Fire & Police Pension Association.

#### *Funding Policy and Authority Contributions*

Members hired on or after January 1, 1997 are eligible to participate and do not contribute to

the Plan. The contribution rate is 2.7% effective January 1, 2017 through December 31, 2018. It should be noted this percentage can vary depending on actuarial experience.

Contributions made by the Authority for the fiscal year 2017, 2016, and 2015 were \$321,703, \$270,402 and \$241,507, respectively.

### *Benefits*

Benefits are established by Colorado statute.

If a member dies prior to retirement, the surviving spouse is entitled to a benefit equal to 40% of the member's monthly base salary with an additional 10% of base salary if a surviving spouse has two or more dependent children, or if there are three or more dependent children without a surviving spouse. Benefit entitlement continues until death of the spouse and death, marriage, or other termination of dependency of children.

A member who becomes disabled prior to retirement shall be eligible for disability benefits. Effective October 1, 2002, the benefit is 70% of base salary for total disability, 50% of base salary for a permanent occupational disability and 40% of base pay for a temporary occupation disability.

Benefits paid to members are evaluated and may be re-determined on October 1 of each year. Any increase in the level of benefits cannot increase by more than 3% for any one year. Totally disabled members and their beneficiaries receive an automatic cost of living adjustment each year of 3%.

Separately issued financial statements and the related actuarial valuation may be obtained from the Fire and Police Pension Association, 5290 DTC Parkway, Suite 100, Greenwood Village, CO 80111.

### **Retirement Health Savings Plan (RHS)**

In 2006 and 2007, the Authority offered to classified and unclassified management employees the employer-sponsored health benefits saving vehicle which allowed the employees to accumulate assets to pay for medical expenses in retirement on a tax-free basis. As of December 31, 2007, the plan was frozen. There can no longer be any money withheld for this plan. The frozen Authority plan is administered by ICMA-RC.

The RHS plan offers triple tax advantage to employees. Employee contributions are made through pre-tax payroll deductions, are invested in ICMA-RC funds and grow tax-free, with monies being withdrawn tax-free for qualifying expenses. No federal, state or FICA tax is withheld. Employees cannot change their elections after their initial enrollment. Once participants become eligible to get reimbursed from their own RHS account, they can turn in receipts to a third party administrator and be reimbursed with tax-free monies. If the employee

passes away, the employee’s spouse and dependents are automatically eligible to use the account and are reimbursed on a tax-free basis.

**D. Other Post-Employment Benefits**

As stated in Note I (Summary of Significant Accounting Policies), Part F Adoption of New Accounting Pronouncements, effective January 1, 2017, the Authority adopted GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The net OPEB obligation recorded in accordance with GASB Statement No. 45 was removed and the total OPEB liability was recorded in accordance with GASB Statement No. 75.

*Plan Description*

The Authority sponsors a single-employer health care plan which provides medical, vision, dental and prescription drug benefits to all active and retired employees and their eligible dependents. Employees retiring on or after January 1, 2010 are no longer eligible to participate in the Retiree Health Plan. In addition, those employees who retired on or after September 1, 2009, but before January 1, 2010 and elected retiree health coverage may participate in the Retiree Health Plan until age 65. To be eligible an employee must have had at least 10 or more years of service. The Authority administrative policy authorized this benefit January 1, 2010. The plan does not issue a stand-alone financial report.

*Funding Policy*

Employees pay the full premium. The current funding policy of the Authority is to pay health claims as they occur through internal allocated funds.

The required contribution is based on projected pay-as-you-go financing. For fiscal year 2017, the Authority contributed \$760. Retiree and active members receiving benefits contribute monthly premiums as outlined below:

	Premier Non-Medicare	Premier Medicare	Dental	Vision
Employee:	\$ 1,227	\$ 490	\$ 40	\$ 8
Employee +1:	2,452	981	71	16

### Participants Covered by the Benefit Terms

The following is a summary of Plan participants (both under the Authority and City of Fort Collins) at December 31, 2017:

Participants	Retiree	Spouse
Medical	4	1
Dental	13	8
Vision	11	4

Total OPEB Liability: The Authority's total OPEB liability of \$27,522 was measured as of December 31, 2017, and was determined by an actuarial valuation as of that date.

The total OPEB liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Inflation	2.50%
Salary increases,	N/A
Discount rate	3.44%
The discount rate was based on the Bond Byer 20-Bond Governmental Obligations Index	

Mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table projected generationally using Scale AA. The size of the Plan's population is not large enough to have a statistically credible independent study of retiree mortality. A standard published table appropriate to the Plan's retiree population was used with a margin for future mortality improvement relative to recent Plan experience.

**Changes in the Total OPEB Liability:**

	Increase (Decrease) Total OPEB Liability
Balance as of December 31, 2016	\$ 28,282
Changes for the year:	
Interest on total OPEB liability	1,020
Effect of assumption changes or inputs	852
Benefit payments	(2,632)
Balance as of December 31, 2017	<u>\$ 27,522</u>

Changes of assumptions and other inputs reflect a change in the discount rate from 3.78 percent in 2016 to 3.44 percent in 2017.

**Sensitivity Analysis**

The following presents the total OPEB liability of the Authority, calculated using the discount rate of 3.44 percent, as well as what the Authority’s total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.44 percent) or 1 percentage point higher (4.44 percent) than the current rate:

	1% Decrease 2.44%	Current Discount Rate 3.44%	1% Increase 4.44%
Total OPEB liability	\$ 30,327	\$ 27,522	\$ 25,143

The following presents total OPEB liability of the Authority, calculated using the current healthcare cost trend rates as well as what the Authority’s total OPEB liability would be if it were calculated using trend rates that are 1 percentage point lower or 1 percentage point higher than the current trend rates:

	1% Decrease	Current Trend Rate	1% Increase
Total OPEB liability	\$ 25,276	\$ 27,522	\$ 30,110

## **Deferred Inflows/Outflows of Resources**

For the year ended December 31, 2017, the Authority recognized OPEB expense of \$1,872. At December 31, 2017, the Authority reported \$0 in deferred outflows of resources and \$0 in deferred inflows of resources.

## **E. Legal Matters**

### *Pending Litigation and Grants*

There is one known claim pending against the Authority. After consideration of applicable insurance policy coverage, and the relative merits of the claim, it is the opinion of the Authority that the potential ultimate liability resulting from such claim, if any, will not have a material adverse financial effect on the Authority.

Under the terms of federal and state grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. Authority management believe disallowances, if any, resulting from any such audits would be immaterial. There currently are no disallowed or questioned costs.

### *Tax, Spending and Debt Limitations*

Article X, Section 20, of the State Constitution, has several limitations, including those for revenue, expenditures, property tax, and issuance of debt. The Amendment is complex and subject to judicial interpretation. In the opinion of management, the Authority is not subject to the provisions of the Amendment since it does not have the power to levy taxes or issue debt and is thus not a "District" as defined in the Amendment.

## REQUIRED SUPPLEMENTARY INFORMATION

### Other Post-Employment Benefits Plan

Total OPEB Liability	
Service cost	\$ -
Interest	1,020
Changes of assumptions and other inputs	852
Benefit payments	<u>(2,632)</u>
<b>Net change in total OPEB liability</b>	<b>(760)</b>
Total OPEB liability, beginning <b>(restated)</b>	<u>28,282</u>
Total OPEB liability, ending	<u><u>\$ 27,522</u></u>

Notes:

*Changes of assumptions:* Changes of assumptions and other inputs reflect the changes in the discount rate each period. The following are discount rates used in each period.

2017	3.44%
2016	3.78%

There is no covered payroll reported because the plan was closed to new retirees effective December 31, 2009.

GASB Statement No. 75 requires the presentation of 10 years of information. However, until a full 10-year trend is complied, the Authority will present information for those years which information is available.

## Statistical Section

This section of the Poudre Fire Authority comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Authority's overall financial health.

“Lift Ticket” Training – enables trained crews to be airlifted to rescues or events where other modes of travel would not be practical.

Financial Trends – These schedules contain trend information to help the reader understand how the Authority’s financial performance and well-being have changed over time.

Net Position by Component.....	59
Changes in Net Position .....	60
Fund Balances, Governmental Funds .....	61
Changes in Fund Balances.....	62

Revenue Capacity – This schedule contains information to help the reader assess the Authority’s most significant local revenue source – Intergovernmental Revenue.

Revenues by Source, Governmental Funds .....	63
--	----

Debt Capacity – This schedule presents information to help the reader assess the affordability of the Authority’s current levels of outstanding debt and its ability to issue additional debt in the future.

Ratio of Outstanding Debt by Type.....	64
--	----

Demographic and Economic Information – These schedules offer demographics and economic indicators to help the reader understand the environment within which the Authority’s financial activities take place.

Demographic and Economic Statistics.....	65
Principal Employers – City of Fort Collins .....	66
Full-time Equivalent Authority Employees by Function/Program .....	67

Operating Information – These schedules contain service and infrastructure data to help the reader understand how the information in the Authority financial report relates to the services the Authority provides and the activities it performs.

Operating Indicators by Function/Program.....	68
Capital Asset Statistics by Function/Program.....	69

2017	29,062	5,730	15	233	73	-	35,113

**Note:** Poudre Fire Authority, a consolidated fire department composed of the City of Fort Collins and the Poudre Valley Fire Protection District (PVFPD), receives the majority of its revenue from these two sources. In 2017 the City of Fort Collins contributed 83.27% of PFA general fund revenue from its property tax and sales and use tax revenue and KFCG sales tax initiative. The PVFPD contributed 16.73% of PFA general fund revenue from its property tax and specific ownership tax (2016 included District capital contribution and Timnath TIF funds for Station 8 staffing and construction). The Poudre Fire Authority does not have legal status to issue bonds.

**Ratio of Outstanding Debt by Type**

2017	-	N/A	N/A	-

**Notes:**

- Personal Income provided by the Bureau of Economic Analysis.

- In 2007 the Authority procured a lease purchase under the debt authority of the PVFPD to build a replacement fire station, with repayment from the City of Fort Collins' Capital Expansion fee for Fire. For accounting purposes, the lease was reported as a capital lease. The lease purchase was paid in full as of December 31, 2017, saving \$450,000 in future interest payments.

- The Authority is an independent government entity formed by the City of Fort Collins and the Poudre Valley Fire Protection District, and by itself does not have legal status to issue bonds. The Authority does not have a debt limit; it can incur debts, liabilities, or obligations, provided that no debt, liability, or obligation shall constitute a debt, liability, or obligation of either the City or the District. Aside from the lease purchase mentioned above, the Authority's policy has been to replace or acquire equipment, apparatus or real property on a cash basis.

**Source:**

Poudre Fire Authority Annual Reports

**Clarification:**

*Business Inspections - In 2005 business inspections were transferred to the Fire Prevention Bureau, with all inspections performed by state certified inspectors. Currently, PFA employs three inspectors to complete both the general and fire suppression inspections of all commercial buildings within PFA's jurisdiction.*

*Training Hours - During 2008 hours were reported based on company training hours. Years 2009 - 2017 are based on total training hours for career firefighters.*

*Public Education Contacts (all ages) - There was a shown drop from 2015 to 2016 in the overall number of people educated, which was due to (1) the team committed to saying "no" to events in which the team does not have meaningful, educational interactions with attendees, and (2) change to recording "meaningful interactions," versus the estimated number of total attendees at a given event. 2017 data reflects community member interactions with Authority staff.*
