Independent Auditor's Report

Board of Directors
Countrydale Metropolitan District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Countrydale Metropolitan District as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Countrydale Metropolitan District as of December 31, 2018, and the respective changes in financial position and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The supplementary information as listed in the table of contents is presented for purposes of legal compliance and additional analysis and is not a required part of the financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2018**

Net Change in Fund Balances - Governmental Funds \$ (323,768)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities, capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense, the allocation of the cost of any depreciable asset over the estimated useful life of the asset.

Depreciation Expense (24,433)

The issuance of long-term debt (e.g., issuance of bonds, the receipt of Developer advances) provides current financial resources to governmental funds, while the repayment of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Loan Principal Payment 535,000

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Accrued Interest on Debt - Change in Liability 1,492
Amortization of Cost of Debt Refunding (74,033)

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 1 DEFINITION OF REPORTING ENTITY

Countrydale Metropolitan District (District), a quasi-municipal corporation and political subdivision of the State of Colorado, was organized in December 1997 and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District's service area is located in Jefferson County, Colorado. The District was established to finance public improvements to be either owned and maintained by the District, dedicated to the City of Westminster, Colorado (City), or dedicated to some other appropriate governmental or non-profit entity. The District has the power to acquire, construct, complete or relocate the following facilities: parks and recreation, sanitary sewer, traffic and safety, street improvements, public transportation, water, television relay, telephone and fiber optic service, as well as mosquito control systems.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by property taxes and intergovernmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the assets, deferred outflow of resources, liabilities, and deferred inflow of resources of the District is reported as net position.

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. The District has determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The property tax revenues are recorded as revenue in the year they are available or collected.

Capital Assets

Capital assets, which include infrastructure (e.g., storm drainage, streets, and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Depreciation expense has been computed using the straight-line method over the estimated economic useful lives:

Street Improvements	20 - 40 Years
---------------------	---------------

Cost of Debt Refunding

In the government-wide financial statements, the deferred cost of debt refunding is being amortized using the interest method over the life of the new debt. The amortization amount is a component of interest expense and the unamortized deferred cost is reflected as deferred outflow of resources on the statement of net position.

Deferred Inflow/Outflow of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, *cost of debt refunding*, is deferred and recognized as an outflow of resources in the period that the amount is incurred.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, *deferred property tax revenue*, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Equity

Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity (Continued)

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the board of directors. The constraint may be removed or changed only through formal action of the board of directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the board of directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2018, are classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and Investments	\$ 520,663
Cash and Investments - Restricted	1,309,935
Total Cash and Investments	\$ 1,830,598

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Cash and investments as of December 31, 2018, consist of the following:

Deposits with Financial Institutions	\$ 1,241,412
Investments	<u>589,186</u>
Total Cash and Investments	<u><u>\$ 1,830,598</u></u>

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2018, the District's cash deposits had a bank balance of \$1,241,412 and a carrying balance of \$1,241,412.

Investments

The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk, and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the board of directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments (Continued)

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- * Local government investment pools

As of December 31, 2018, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amount</u>
Colorado Surplus Asset Fund Trust (CSAFE)	Weighted Average Under 60 Days	\$ 589,186

CSAFE

The District invested in the Colorado Surplus Asset Fund Trust (CSAFE) (the Trust), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust is similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds and highest rated commercial paper. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. CSAFE is rated AAAM by Standard & Poor's. CSAFE records its investments at amortized cost and the District records its investments in CSAFE at net asset value as determined by amortized cost. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

The detail of the District's long-term obligations is as follows:

General Obligation Debt

On July 1, 2015, the District issued \$17,100,000 of Unlimited Tax General Obligation Refunding Senior Note, Series 2015 (the "Note"). The District entered into a Loan Agreement with NBH Bank in the amount of \$17,100,000 on July 1, 2015, as evidenced by the Note (the "Loan").

Proceeds from the loan were used to refund the Limited Tax (Convertible to Unlimited Tax) General Obligation Refunding Senior Note, Series 2010A, dated December 22, 2010, in the original principal amount of \$21,500,000 (the "Refunded Note"), establish a Debt Service Reserve Fund, and pay costs incurred in connection with the Loan.

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

General Obligation Debt (Continued)

The Loan is due July 1, 2035, with an annual interest rate of 3.24%, calculated on the basis of a 360-day year and actual number of days elapsed, payable semi-annually on June 1 and December 1, beginning on December 1, 2015. Payments of principal are due annually on December 1, beginning on December 1, 2016.

The District may prepay amounts owing under the Note at any time and from time to time. The District may be required to pay a Prepayment Fee equal to interest accrued from the beginning of the last payment date to the date of prepayment, plus the present value of the difference between (a) the amount that would have been realized by the Bank on the prepaid amount for the remaining term of the Loan at the Fixed Interest Rate on the Note and (b) the amount that would be realized by the Bank by reinvesting such prepaid funds for the remaining term of the Loan.

The Loan is secured by and payable from Pledged Revenue as defined as monies derived from the Required Mill Levy, net of collection costs; Specific Ownership Taxes; and any other legally available moneys which the Board determines in its sole discretion to apply as Pledged Revenue.

The District's Required Mill Levy, as defined in the Loan, means an ad valorem mill levy imposed upon all taxable property of the District each year in an amount sufficient to pay the principal of and interest on the Loan, as the same become due and payable, and to make up any deficiencies in the Reserve Fund, without limitation of rate.

The Loan is further secured by the Debt Service Reserve Fund in the required amount of \$350,000 for so long as the Loan is outstanding.

Limited Tax (Convertible to Unlimited Tax) General Obligation Refunding Subordinate Bonds, Series 2010B

The District issued \$5,490,000 of Limited Tax (Convertible to Unlimited Tax) General Obligation Refunding Subordinate Bonds, Series 2010B, dated December 17, 2010 (the "Subordinate Bonds"). The Bond Resolution authorizing the issuance of the Subordinate Bonds was amended on July 10, 2015. The Required Mill Levy imposed by the District to pay debt service on the Subordinate Bonds has converted from a limited to an unlimited mill levy.

The Subordinate Bonds are term bonds due December 15, 2037, with an interest rate of 9.00%, payable annually on December 15. The Subordinate Bonds are subject to redemption prior to maturity, at the option of the District, as a whole or in part, on December 15, 2025 and on any date thereafter without a redemption premium.

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

Limited Tax (Convertible to Unlimited Tax) General Obligation Refunding Subordinate Bonds, Series 2010B (Continued)

The Subordinate Bonds are secured by and payable from Pledged Revenue as defined as monies derived from the imposition of the Subordinate Required Mill Levy, net of collection costs; the portion of the Specific Ownership Tax which is collected as a result of imposition of the Subordinate Required Mill Levy, net of any costs of collection; and any other legally available moneys which the District determines, in its sole discretion, to credit as Pledged Revenue, on a subordinate basis to the Loan.

The Subordinate Bonds are further secured by the Subordinate Debt Service Reserve Fund in the required amount of \$490,000 for so long as the Subordinate Bonds are outstanding.

The District's Subordinate Required Mill Levy as defined in the Amended Bond Resolution, means an ad valorem mill levy imposed upon all taxable property of the District each year in an amount sufficient to pay the principal of, premium if any, and interest on the Subordinate Bonds, as the same become due and payable, without limitation of rate.

The District's long-term obligations will mature as follows:

Authorized Debt

On November 4, 1997, November 2, 1999, and November 7, 2000, a majority of the qualified electors of the District authorized the issuance of indebtedness in an amount not to exceed \$16,500,000, \$24,600,000, and \$54,600,000, respectively. At December 31, 2018, the District had authorized but unissued indebtedness in the following amounts allocated for the following purposes:

	Amount Authorized November 4, 1997	Amount Authorized November 2, 1999	Amount Authorized November 7, 2000	Authorization Used	Authorized But Unissued

Pursuant to the Amended Service Plan, the District's debt may not exceed \$27,000,000 without the consent of the City. The issuance of the 2010A Note and the 2010B Bonds resulted in outstanding bonded debt of \$26,990,000; thus, the District has \$10,000 of debt authorization remaining under the Service Plan. The Board currently has no plans to seek a modification of the Service Plan to seek approval for bonded indebtedness in excess of this amount.

NOTE 6 NET POSITION

The District has net position consisting of two components – restricted and unrestricted.

Restricted net position includes assets that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The District had restricted net position as of December 31, 2018, as follows:

Restricted Net Position:	
Emergency Reserve	\$ 11,100
Debt Service	408,162
Total Restricted Net Position	<u>\$ 419,262</u>

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 6 NET POSITION (CONTINUED)

The District has a deficit in unrestricted net position. The deficit is a result of the District being responsible for the repayment of debt issued for the construction of public improvements which were conveyed to other governmental entities and which costs were removed from the District's financial records.

NOTE 7 RELATED PARTIES

Two of the Board members of the District are employed by or part owners of business or businesses that are involved with, may become involved with, or are directly and substantially affected by the activities of the District, and all Board members own real property that is located in the District. These relationships and ownerships, in certain circumstances, may give the appearance that conflicting interests could affect their official activities as Board members but as a general matter they do not disqualify them to serve as Board members. As and when required by law, each affected Board member files a written disclosure of any potential conflicts of interest with the District and the Colorado Secretary of State, and they refrain from voting on affected matters unless allowed by law.

NOTE 8 INTERGOVERNMENTAL AGREEMENTS

Cost-Sharing Agreements

The District has entered into two cost-sharing agreements with the City. The first agreement calls for the District to certify a fixed rate mill levy of 3 mills. The proceeds of the mill levy will be made available to the City for the purpose of jointly financing public recreation facilities. During 2018, the District paid the City \$198,190 for public recreation facilities.

The second agreement calls for the District to certify a mill levy of not less than 0.25 mills and not more than .50 mills to generate \$20,000 of revenue. All revenue generated by the mill levy is to be transferred to the City. Any excess revenue generated by the minimum (0.25 mills) is to be transferred to the City. The revenue is to be utilized to enhance golf course operations. The District paid the City \$20,000 in 2018 pursuant to this agreement.

These mill levies are in addition to the debt service and operations mill levies.

Land Lease Obligation

As of 2006, the District has assumed certain obligations of the Developer under a land lease with the City which obligates the District to pay the City on an annual basis for a portion of the costs incurred by the City to defray the costs associated with the lease of the County property necessary for the existence of the golf course in an amount not to exceed \$590,000. During 2018, the District paid the City \$30,000 under the land lease obligation. The maximum annual reimbursements are as follows:

2006 - 2007	\$20,000 per Year
2008 - 2017	\$25,000 per Year
2018 - 2027	\$30,000 per Year

NOTE 8 INTERGOVERNMENTAL AGREEMENTS (CONTINUED)

Exclusion and Service Agreement

On November 4, 2005, the District entered into an Exclusion and Service Agreement for the exclusion of certain real property in the District. The property continues to be subject to the levy of taxes for the payment of its proportionate share of the outstanding debt existing at the time of the exclusion. The property has been excluded from the boundaries of the District and is therefore excluded from any future General Fund mill levy. However, as consideration for the benefits derived from the District's continued provision of operation and maintenance services, the owner of the property agrees to pay the District a general fund fee calculated as if it were in the District. Notice of payment due is provided every January and the fee is payable at the same time that taxes are legally due.

NOTE 9 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (the Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery, and workers' compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property and public officials' liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 10 TAX, SPENDING, AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue, and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

**COUNTRYDALE METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2018**

NOTE 10 TAX, SPENDING, AND DEBT LIMITATIONS (CONTINUED)

On November 4, 1997, and November 2, 1999, the District voters passed an election question to increase property taxes \$500,000 and \$100,000, respectively, annually as adjusted for inflation, without limitation of rate, to pay the District's operations, maintenance and other expenses. Additionally, the District's electors authorized the District to collect, retain and spend all revenue without regard to any limitations under TABOR.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.
