INTRODUCTORY SECTION

June 30, 2019

To the Durango Fire Protection District Board of Directors, City Council of Durango and Community.

State law requires that governmental entities publish within seven months of the close of each calendar year (unless such deadline is extended) a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (US GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Durango Fire Protection District for the fiscal year ended December 31, 2018.

This report consists of management's representations concerning the finances of the Durango Fire Protection District. Consequently, management assumes full responsibility for the completeness and reliability for all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive framework that is designed to protect the government's assets from loss, theft or misuse, and to compile sufficient reliable information for the presentation of the Durango Fire Protection District's financial statements in conformity with US GAAP. As management, we assert to the best of our knowledge and belief, this financial report is complete and reliable in all material respects. Any system of controls has inherent limitations and the cost of the controls should not exceed the benefits derived. The objective is to provide reasonable, rather than absolute assurance, that the financial statements are free of any material misstatements.

The Durango Fire Protection District's financial statements have been audited by Haynie and Company, a firm of licensed, certified public accountants who regularly audit governmental entities in Colorado. The goal of the independent audit is to provide reasonable assurance that the financial statements of the Durango Fire Protection District for the fiscal year ended December 31, 2018, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and assessing the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unmodified opinion and that Durango Fire Protection District's financial statements for the year ended December 31, 2018, are fairly presented in conformity with US GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the financial statements in the form of Management's Discussion and Analysis ("MD&A"). This letter of transmittal is designed to complement MD&A and should be read in conjunction with the audit. The Durango Fire Protection District's MD&A can be found immediately following the report of the independent auditors.

Profile of the Durango Fire Protection District

Durango Fire & Rescue Authority was formed in 2001 through an Intergovernmental Agreement ("IGA") between the City of Durango, Animas Fire Protection District, Hermosa Cliff Fire Protection District (the "Contracting Parties"), and included the absorption of the Mercy Hospital Paramedic Ambulance system.

In 2013, the Boards (Animas, Hermosa) and City Council that make up the Authority -- in the best interest of the community and the emergency service agency that serves them -- decided to create a single fire protection district and a 15 year voter approved contract with the City of Durango. This concept to vastly improve the efficiencies of scale in board leadership, conflicting goals, and financial redundancies was overwhelmingly approved by the voters of the Fire Districts and the City.

2014 was then the *first year that our emergency service became a single district, "Durango Fire Protection District"*, with a 15 year contract to provide emergency services to the municipality of Durango.

The Durango Fire Protection District provides fire suppression (structural, wildland and vehicle), emergency medical service/ambulance service to include patient transport, rescue (water, ice, low and high angle rope, confined space, vehicle extrication), fire prevention, fire code enforcement, public education, and hazardous material response.

These services are provided to a fulltime population in excess of 40,000 people in 325 square miles of southwest Colorado. The Durango Fire Protection District is funded by a property tax, specific ownership taxes, contract fees for services, ambulance transport service fees, impact fees, wildland firefighting fees and miscellaneous revenue.

Durango Fire Protection District is governed by a seven member Board. The governing Board has fiduciary responsibilities, sets policy and works with the Chief in establishing goals. The Board is responsible for hiring the Chief of the Department. The Chief is responsible for carrying out the policies of the Board, for management and supervision of the day-to-day operations, and for managing its employees and members.

The annual budget and budget process serves as the foundation for the Durango Fire Protection District's financial planning and control. The District Board of Directors holds a public hearing and adopts its final budget no later than December 15th each year.

Appropriations for the budget are adopted on a total fund basis (General Fund and Capital Projects Fund). The Board of Directors may make additional appropriations during the budget year for expenditures required, but not in excess of the amount of actual revenues exceeding budgeted revenues and un-appropriated surplus for the fund. The Chief may transfer any unencumbered appropriation balance or a portion thereof from one classification of expenditure to another within the General Fund in order to carry out the goals and objectives of the Board of Directors and the Durango Fire Protection District.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective, the specific environment within which the Durango Fire Protection District operates. The following is a recap of the economic factors impacting the Durango Fire Protection District and municipality.

Local Economy

General: The Durango geographic area is located in the southwestern part of Colorado in the County of La Plata. La Plata County experienced considerable economic and population growth from the late 1980's to 2008, and like most of the United States, the years between 2009 and 2011 showed considerable financial declines and challenges over previously prosperous years. The years since 2011 have brought slow but steady growth with an increase of 7.2% in population and a 22.1% increase in per capita personal income from 2011 through 2017. At the end of 2017, the unemployment rate in La Plata County was 2.3%.

Durango is the largest town and the major shopping destination in La Plata County and is also home to Fort Lewis College, a four year liberal arts college with a student body of approximately 3,800 and faculty and staff of 772. Fort Lewis College Department of Economics believes that Durango's present economy is primarily based on tourism, now generating approximately 26% of all activity in La Plata County.

City of Durango: In 2018, the City provided 33% of the total revenue. The City continues to be optimistic about the future as City sales tax collections for 2018 showed an increase of 1.9% over 2017. Real estate values continue to rapidly increase within the City and days on the market are minimal for those properties. New construction has been strong in Durango for 2017 and 2018 with commercial construction being particularly strong. Housing prices and loans remain a challenge for low to moderate income families.

Durango Fire Protection District: In 2018, 67% of total revenue was provided by the District. Property taxes accounted for 28% of total revenue and, 17% of the property tax base was from oil and gas production. This is a decline from 2017 when oil and gas production made up 29% of the property tax base. The valuation on natural gas will continue to be subject to market fluctuations of revenue.

History of Our Long-term Planning and Finances

Based on the clear success of the Authority from 2002 thru 2005, the Board of Directors developed a Service Plan in 2006 to create a stand-alone special district called the "Durango Fire Protection District", which would operate in place of the current Authority. The plan was placed on the ballot, voted upon and approved in November 2006.

The second question on the November 2006 ballot was whether to fund the District, which if funded would create single governance over emergency services with a mill rate on property. The funding question failed to pass. Without a funding source it was not possible for the Durango Fire Protection District to operate the Agency.

After failure to pass a single funding solution for the newly established Durango Fire Protection District, the Authority Board of Directors commissioned an Operational Analysis in 2007.

The operational funding struggled to cover more than operating costs as the Durango Fire Protection District did not receive any separate capital funding. This is unlike the years 2002 through 2006 when the Authority received \$750,000 annually of additional capital allocation funds from all of the Contracting Parties. All of the past Boards, Councils, Consultants, current Board of Directors, and the Chief believe that for the future sustainability of services the Durango Fire Protection District will need a long-term strategic approach to its operations and capital replacement program.

The three resulting tenants of the Operational Analysis were to have single governance for emergency services -- funded through a fair and equitable mill rate for both operations and capital -- and to develop a county wide impact fee to assist in offsetting capital needs.

In 2011, the Durango Fire Protection District put together a Citizens Review Panel. After a thorough five month process the Board unanimously supported going back to the electorate to approve a single mill levy for the District; and with that approval, the support to dissolve all the other Boards. This mill levy election, once again failed at the polls by a margin of 57% to 43%.

The second failure of this legal consolidation effort was analyzed by the Board of Directors, Chief and Legal Counsel. They spent the later portion of 2012 working to craft a resolution that would be rolled out to the community in 2013. The clear goal was to restore the employee, operational and capital health of the department, while providing quality service and safety to our members.

After much effort on behalf of all the Boards, City Council, membership, staff and community, Durango Fire Protection District became a reality as a single emergency agency on January 1, 2014.

In November of 2017, the electorate of the Durango Fire Protection District as well as the citizens of the City of Durango overwhelmingly voted to increase the mill rate for fire protection by 2.5 mills. The mill rate for the property owners in the District increased from 5.7 mills to 8.2 mills.

The result of the increase in mill rate was an increase in fund balance of \$1,743,810 while allowing the District to invest \$839,336 in capital. Additional capital spending of \$4.9 million is budgeted in 2019 and additional projects and equipment replacements are planned for the following years. However there will continue to be pressure on revenues as the residential assessment rate is estimated to go from 7.2 to 6.9 for property taxes collected in 2020 and the assessed valuations of oil and gas are expected to continue to decline. This decline will be offset by increase in market valuations with properties being reassessed in 2019 as well as by new construction, but it remains to be seen how much of the decline will be offset.

Awards and Acknowledgements:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Durango Fire & Rescue Authority for its comprehensive annual financial report for the fiscal years ended December 31, 2002 – 2006 then in 2010 – 2016. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Durango Fire Protection District for its comprehensive annual financial report for the fiscal years ended December 31, 2011. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

We would like to express our appreciation to Haynie & Company, the firm that serves as the Durango Fire Protection District's external auditors.

Durango Fire Protection District | Phone: 970 382 6001

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Durango Fire Protection District
Durango, Colorado

We have audited the accompanying financial statements of the governmental activities and each major fund of Durango Fire Protection District as of and for the year ended December 31, 2018 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Durango Fire Protection District as of December 31, 2018, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

DURANGO FIRE PROTECTION DISTRICT
Management Discussion and Analysis
Year Ended December 31, 2018

Emphasis of a Matter

As discussed in Note 7 to the financial statements, management has implemented GASB Statement No. 75. As a result of this change in accounting principle, the net position as of December 31, 2017 has been restated. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Durango Fire Protection District's financial statements as a whole. The other supplementary information, introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the financial statements. The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information as listed in the table of contents is fairly stated, in all material respects, in relation to the financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

DURANGO FIRE PROTECTION DISTRICT
Management Discussion and Analysis
Year Ended December 31, 2018

As the financial management of the Durango Fire Protection District (the "District"), we offer readers of these financial statements this narrative overview and analysis of the financial activities of the District for the year ended December 31, 2018. This discussion and analysis is designed to assist the reader in focusing on the significant accomplishments, financial issues and activities, and to identify any significant changes in financial position. We encourage readers to consider the information presented here in conjunction with the financial statements as a whole.

Financial Highlights

- The assets of the District exceeded its liabilities and deferred inflows of resources at the close of its fiscal year ended December 31, 2018 by \$15,225,929 (net position). Of this amount \$8,406,388 is unrestricted and may be used to meet the District's ongoing obligations to citizens and creditors in accordance with the District's fiscal policies as more fully described below.
- Total revenues for the year ended December 31, 2018 were \$13,701,697 compared to total revenue of \$10,625,109 in 2017.
- The Fund Balance increased by a total of \$1,754,140 during 2018 and was \$11,330,901 as of December 31, 2018.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to DFPD's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The governmental activity of the District is primarily providing fire and emergency services for the Durango Fire Protection District and under contract for the City of Durango.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on pages 20 and 21 of this report.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District currently has two funds, the General Fund which is a governmental fund and the Capital Projects Fund which is also a governmental fund.

DURANGO FIRE PROTECTION DISTRICT
Management Discussion and Analysis
Year Ended December 31, 2018

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. A reconciliation of the fund balance as reported in the governmental funds to the net change in fund balance to the change in net position has been provided to facilitate the comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for its General Fund and its Capital Projects Fund. A budgetary comparison statement has been provided for these funds to demonstrate compliance with these budgets.

The governmental fund financial statements are presented on pages 22 through 25 of this report.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The Mark Carroll Pension Fund is not reflected in the government-wide financial statements because the resources of the fiduciary fund are not available to support the District's own programs.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27 through 47 of this report.

Required Supplemental Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information. These statements can be found on pages 48 through 52 of this report.

Other information: Also, this report presents certain information pertaining to the District's budget for demonstrating legal compliance with budgetary control obligations. This budgetary information can be found on pages 26 and 52 of this report.

Financial Analysis

Statement of net position: Net position, the excess of assets over liabilities, may serve, over time, as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$15,225,929 at the close of the most recent fiscal year. The overall net position increased by \$2,122,140 (16.2%). Net investment in capital assets increased from \$6,226,151 at December 31, 2017 to \$6,384,571 at December 31, 2018. Unrestricted net position increased from \$6,421,459 at December 31, 2017 to \$8,406,388 at December 31, 2018. Restricted net position increased from \$416,179 at December 31, 2017 to \$434,970 at December 31, 2018. The restricted net position, of \$434,970 is restricted for emergency reserves.

A large portion of the District's net position is its investment in capital assets. These assets include apparatus, vehicles, leasehold improvements, buildings, land and equipment. The District used these

DURANGO FIRE PROTECTION DISTRICT
Management Discussion and Analysis
Year Ended December 31, 2018

capital assets to provide service and consequently, these assets are not available to liquidate liabilities or for other spending. The debt incurred by the Animas Fire Protection District and Hermosa Cliff Fire Protection District associated with the purchase of the assets transferred by these entities has been retired. Real property associated with providing fire and emergency medical services owned by the Animas and Hermosa was also transferred to the District.

The following is a condensed comparative summary of the District's net position at December 31:

	<u>2018</u>	<u>2017</u> (As restated)
Current assets	\$ 16,539,938	\$ 14,569,457
Capital assets	6,384,571	6,266,151
Net pension assets	<u>931,206</u>	<u>-</u>
Total assets	23,855,715	20,835,608
Deferred outflows of resources	1,984,791	2,152,570
Total assets and deferred outflow of resources	25,840,506	22,988,178
Current liabilities	853,512	517,380
Noncurrent liabilities	<u>3,777,443</u>	<u>4,155,225</u>
Total liabilities	4,630,955	4,672,605
Deferred inflow of resources	5,983,622	4,577,647
Net position		
Investment in capital assets	6,384,571	6,266,151
Restricted	434,970	416,179
Unrestricted	<u>8,406,388</u>	<u>6,421,459</u>
Total net position	<u>\$ 15,225,929</u>	<u>\$ 13,103,789</u>

Statement of activities: The statement of activities reflects the cost of operation and the charges for services and receipt of grants offsetting those services. The statement of activities for 2018 shows expenses of \$11,579,557 with a net expense (after charges for services and grants) of \$8,112,561. Total general revenues were \$10,234,701, leaving a change in net position of \$2,122,140.

DURANGO FIRE PROTECTION DISTRICT
Management Discussion and Analysis
Year Ended December 31, 2018

The following is a condensed comparative summary of the District's statement of activities at December 31:

	<u>2018</u>	<u>2017</u> (As restated)
General Revenue:		
Property taxes	4,506,664	3,167,088
Specific ownership taxes	953,782	682,648
Contract with City of Durango	4,505,213	3,002,282
Other local taxes	49,769	55,861
Interest	176,585	59,598
Charges for services	3,015,206	2,811,118
Grants and contributions	451,790	800,545
Other	<u>42,688</u>	<u>45,969</u>
Total Revenue	13,701,697	10,625,109
Expenses:		
Public safety	<u>11,579,557</u>	<u>12,140,760</u>
Total Expenditures	11,579,557	12,140,760
Changes in Net Position	2,122,140	(1,515,651)
Net Position - Beginning of Year	<u>13,103,789</u>	<u>14,619,440</u>
Net Position - End of Year	<u>15,225,929</u>	<u>13,103,789</u>

Statement of revenues, expenditures, and changes in fund balance: In fiscal year 2018, the District had an excess of revenues over expenditures of \$1,743,810 before other financing sources and uses compared to an excess of \$4,216 in 2017.

In 2018, Wildland fire fees were \$1,213,084 compared to \$1,099,571 in 2017. This revenue is from a cooperative agreement between the District and the State of Colorado where the District provides personnel and equipment to assist on national wildland fire incidents. The District receives reimbursement for the cost of the personnel including benefits and other expenses incurred plus a small amount toward overhead of around 5%. In addition the District receives a daily fee for the use of equipment.

Impact fees collected for 2018 were \$148,047 up from \$146,262 in 2018. Impact fees are collected as a result of development agreements with four subdivisions within the District's service area – Three Springs and Twin Buttes both of which are located within the City of Durango, and Durango Mountain Resort and Edgemont Highlands which are both located within the Durango Fire Protection District.

Material Changes

After 2010, there was a loss in general property tax revenue, primarily due to the drop in oil and gas production and prices but exacerbated by the drop in the residential tax rate from 7.96% to 7.2%. The increased value of property in La Plata County was able to compensate for some of these losses. On November 7, 2017, the voters of the District agreed to increase the mill levy for the District by 2.5 mills from 5.7 mills to 8.2 mills. The intention of the increase was to compensate for the loss in property tax

DURANGO FIRE PROTECTION DISTRICT
Management Discussion and Analysis
Year Ended December 31, 2018

revenue, to allow the District to cover current operating expenses, to allow room for increased fire personnel, and to allow the District additional revenue for capital replacement of aging equipment and facilities. Property tax revenue increased from \$3,167,088 in 2017 to \$4,506,664 in 2018. The contract for fire protection services with the City is tied to the mill rate of the District so that revenue also increased from \$3,002,282 in 2017 to \$4,505,213 in 2018. This combined increase of \$2,841,507 is responsible for the increase in the fund balance of \$1,754,140 and the majority of the increase in net position. A small investment in capital assets was begun in 2018 with significant additional investments planned for 2019 and the following years as funding allows.

Capital Assets and Long-term Debt

Capital Assets. The District's net investment in capital assets as of December 31, 2018 is \$6,384,571. This is an increase of \$118,420 (1.8%) from December 31, 2017. The increase is due to capital additions exceeding depreciation expense and deletions. Major capital asset events during the current fiscal year included the following:

- (1) 2018 Dodge 4500 AEV Ambulance with Power Pro cot and Life Pak monitor
- (5) 2018 Chevrolet Colorado Pickups with Leer toppers for Prevention
- (4) Zoll autopulses
- (1) Hurst Edraulic Ram package

Additional information on the District's capital assets can be found in Note 4 on page 33 of this report.

Long Term Debt: As of December 31, 2018 and 2017 the District had no long term debt.

Budget Analysis

Actual revenues exceeded budgeted revenues by \$109,699 and actual expenditures were \$117,743 below budgeted which gave the District a positive variance of \$227,442 for the General Fund.

Requests for Information

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or request for additional financial information should be addressed to the Fire Chief and the Finance Director, Durango Fire Protection District, 142 Sheppard Drive, Durango, CO 81303.

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Note 1 - Summary of significant accounting policies

Reporting Entity – The Durango Fire Protection District (DFPD) is a special district formed under the Special District Act (Title 32, article 1, C.R.S.) with the mission to provide fire protection, emergency medical services, rescue, hazardous material mitigation, prevention, public education and public service in the Durango region. DFPD's service area extends mainly along US Highway 550 from the New Mexico state line north into the southern portion of San Juan County and covers the City of Durango and surrounding areas.

Two thousand and fourteen was the first year of service for DFPD as these services were previously provided by the Durango Fire and Rescue Authority (DFRA). DFRA was established by an intergovernmental agreement between the City of Durango, the Animas Fire Protection District and the Hermosa Cliff Fire Protection District in 2002 with the goal of consolidating the fire and emergency services of the three entities. In addition to the fire protection services traditionally provided by these local governments, the authority assumed operation of an ambulance service that was previously part of Mercy Medical Center.

In 2006, with the success of DFRA providing consolidated operations and the goal of creating the most efficient and effective means of providing fire and emergency services; the founding members of the Authority asked the voters to establish a single fire protection district covering the service area of all three (Animas, Hermosa, and the City of Durango).

At an election held on November 7, 2006 the electors of the Authority members approved the formation of the DFPD and an establishing decree was entered by the District Court for La Plata County. Unfortunately, at the same elections the electors failed to approve a mill levy which would provide funding for the operation of the DFPD so fire and emergency services continued to be provided by Durango Fire and Rescue Authority.

In November of 2011 the voters again declined to approve an operating mill levy. The Authority Board Members continued to believe that the consolidation of fire and emergency operations was vastly more beneficial to their constituents than each entity providing services independently, so they spent time polling citizens, determining the main objections to funding DFPD, and developed a new plan for approval of funding.

Since the property owners in the City of Durango would be most negatively impacted by a mill levy for the DFPD, the City filed a Petition for Exclusion to exclude all property within the city from DFPD. This petition was granted by the Court. On November 5, 2013 the voters of the remaining unincorporated areas within the DFPD's boundaries approved an operating mill levy of 5.7 mills. At the same election the voters of the City of Durango approved a fifteen year agreement for DFPD to provide fire and emergency services to the City. Payment is to be made through the City's General Fund rather than by property taxes, and the contractual amount will be determined by multiplying the 5.7 mill levy applied in the unincorporated portion of the District by the assessed valuation of taxable property within the City and a pro-rata share of specific ownership taxes. The effect is that the City pays for fire and emergency services at the same level they would with a mill levy but without the property owners of the City being negatively impacted.

Based on an agreement between the Authority Members (Animas, Hermosa, and the City) and DFRA, outstanding indebtedness of AFD and HCFPD was paid, all assets including reserve fund balances were transferred to DFPD, and DFPD began operations on January 1, 2014. Personnel were moved to DFPD. Animas Fire Protection District, Hermosa Cliff Fire Protection District, and Durango Fire and Rescue Authority were dissolved.

A Board of Directors consisting of seven members elected at large governs the District and the authority over daily operations is delegated to a Fire Chief. The Fire Chief is responsible for carrying out the policies of the Board, overseeing daily operations of the District, and hiring the department heads and other staff members.

Identically to how DFRA operated, the District staffs four stations, 24 hours per day, seven days per week. Station One is located in Bodo Industrial Park, Station Two is located in central Durango, Station

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Three is located in north Durango on County Road 251, and Station Fifteen is located north of Durango and 4 miles south of the Durango Mountain Resort. Each of the staffed stations has a company that includes from two to seven career members: to include a Captain, Engineer, Firefighters and/or Paramedics. The District operates 13 stations staffed by volunteers; five of which are resident volunteer fire stations.

Government-wide and Fund Financial Statements – The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all activities of the District. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported in a single column.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation – The District, prepares its government-wide financial statements using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Accordingly, the requirements of Statement of Governmental Accounting Standards No. 34, Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments: Omnibus – an amendment of GASB Statements No. 21 and No. 34 and No. 38, Certain Financial Statement Note Disclosures have been implemented and incorporated in the District’s financial statement presentation.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current year. Taxes and intergovernmental revenues associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

In the fund financial statements, the District reports the following major governmental funds:

General Fund – The District’s primary operating fund. It is currently used to account for the general financial activities of the District.

Capital Projects Fund – The District was established to designate and track funds for purchasing major capital items. The primary funding areas include apparatus purchase, station and facility development or construction and other large capital purchases such as firefighting and communications equipment. The primary source of funding for the Capital Projects Fund is the transfer of funds from the General Fund as designated by the Board of Directors of the Fire District. Payments from the City of Durango for capital

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

contributions, impact fees collected which are to be used for capital purchases, and revenue from the sale of capital assets are included in this fund.

Net Position/Fund Balance - In the government-wide and fund financial statements, net position and fund balance are restricted when constraints placed on the use of resources are externally imposed. The District has not established a formal policy for its use of restricted and unrestricted fund balance. However, when an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the District considers restricted fund balances to have been spent first.

Fund Equity - Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable fund balance*- The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact
- *Restricted fund balance* - The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- *Committed fund balance*- The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by resolution adopted by the Board of Directors. The constraint may be removed or changed only by resolution adopted by the Board of Directors.
- *Assigned fund balance* - The portion of fund balance that is constrained by the government's intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.
- *Unassigned fund balance*- The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's policy to use the most restrictive classification first.

Operating Revenues and Expenses – The Authority's operating revenues and expenses consist of revenues earned and expenses incurred in providing fire protection and emergency medical services. Major sources of operating revenues are property taxes, specific ownership taxes, fees from the District's contract with the City of Durango, and ambulance fees. Property taxes attach as an enforceable lien on property as of December 31 and are levied on January 1 of the following year. Taxes are payable either in two installments due on the last day of February and June 15, or in full on April 30. La Plata County and San Juan County, through their Treasurer's Offices, bill and collect property taxes for the District.

Capital Assets – Contributed Equipment – On December 31, 2013, Animas Fire Protection District, Durango Fire and Rescue Authority, and Hermosa Cliff Fire Protection District transferred all assets to the District. These assets have been valued at historical cost less accumulated depreciation at the date of transfer.

Notes to the Financial Statements
Year Ended December 31, 2018

Capitalization Policy – Costs to acquire additional capital assets, which replace existing assets or otherwise prolong their useful lives, are capitalized for equipment, buildings and other related costs and furniture and equipment. The District utilizes a capitalization threshold of \$5,000.

Depreciation Policy – Depreciation of equipment, building improvements, and furniture and equipment is computed using the straight-line method over the estimated useful lives of the assets as follows:

Heavy vehicles	20 years
Medium vehicles	10 years
Light vehicles	7 years
Equipment	5-7 years
Building improvements	20 years

Accrued Compensated Absences – Accrued compensated absences includes accumulated vacation pay and vested sick leave.

Restricted Net Position – Restricted net position is comprised of emergency reserves required by state TABOR requirements.

Committed Net Position – Committed net position is comprised of impact fee payments received from developers and homebuilders that are restricted for capital purchases, capital contributions from the City of Durango which are restricted by contract for building a new downtown fire station, and funds the Board of Directors has committed for capital projects. Funds are committed either through contracts the Board enters on behalf of the District or by formal motions of the Board of Directors.

Deposits and Investments – The District's cash and cash equivalents are considered to be cash on hand, demand deposits, investments in COLOTRUST Plus+ (an external investment pool) and certificates of deposit.

Investments for the Authority are reported at fair value.

Budgets and Budgetary Accounting – The District follows the following procedures as required by Colorado State Statutes in establishing budgetary data:

The Chief directs the preparation of the proposed budget for the year commencing the following January 1 and submits the proposed budget to the District's Board of Directors in a timely manner. The operating budget includes proposed expenditures and the proposed means for paying for such expenditures.

On or before October 15 of each year the District submits a draft budget to the Board of Directors, setting forth anticipated expenses and revenues necessary to fund the District for the following calendar year. The District's proposed budget specifies the amount of funding, along with the method of calculation of fees, sought from the City of Durango to fund the District's operation.

A public hearing on the proposed budget must be held by the District prior to December 15th before final adoption of the budget is required.

Appropriations for the budget are adopted on a total fund basis (General Fund). The Board of Directors may make additional appropriations during the budget year for expenditures; however, appropriations

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

may not be in excess of available revenues and beginning fund balance. The Board of Directors made three additional appropriations in 2018.

The budget is adopted on the modified accrual basis of accounting which is a non-US GAAP basis.

Appropriations lapse at the end of the year.

New Accounting Pronouncements

The GASB has issued Statement No. 82, "Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73"; No. 83, "Certain Asset Retirement Obligations"; No. 84, "Fiduciary Activities"; and No. 85, "Omnibus 2017". These new Statements do not have a material effect on the District as of 2018.

Note 2 – Deposits and Investment

Deposits – The Colorado Public Deposit Protection Act, ("PDPA") requires that all units of local government deposit cash in eligible public depositories. State regulators determine eligibility. Amounts deposited in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The market value of the collateral must be equal to 102% of the aggregate uninsured deposits.

Federal Deposit Insurance Corporation coverage for government accounts is \$250,000 per official custodian. At December 31, 2018, the District's cash deposits had a book balance of \$1,055,917 and a corresponding bank balance of \$1,118,475. The difference between the book and bank balances is due to outstanding checks and deposits not yet processed by the banks. Of the bank balance, \$250,000 was covered by federal depository insurance. The remainder of the bank balance, \$868,475, was collateralized with securities held by the pledging financial institution and covered by eligible collateral as determined by PDPA.

Investments – At December 31, 2018 the District had investments of \$5,332,853 in the Mark Carroll Pension Fund held by the Members Benefit Investment Fund of the Fire and Police Pension Association of Colorado, an external investment pool. The Colorado Division of Securities administers and enforces the requirements creating and operating FPPA. At December 31, 2018 the District had investments in a Colotrust Plus+ pool of \$8,476,007 held by Colotrust of Colorado an external investment pool. The Colorado Division of Securities administers and enforces the requirements creating and operating Colotrust. The reported value of these pools is the same as the fair value of the pools shares. Credit risk and interest risk information is not available for the FPPA Members Benefit Investment Fund external investment pool. The Colotrust Plus+ is rated AAAM by Standard and Poor with an average maturity of 35 days.

The District's investments reported on the financial statements are summarized as follows:

Investment	Less than 1 yr	1 - 5 years	Total	% Portfolio
Certificates of Deposit	\$ 1,003,247.00	\$ -	\$ 1,003,247.00	100%

Interest Rate Risk – In order to minimize the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, the District's investment policy requires the investment

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

portfolio be structured so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The policy also emphasizes investing in shorter-term securities, money market mutual funds, or similar investment pools.

Note 3 – Due From Governmental Agencies

Due from governmental agencies consists of the following:

	2018
National Wildland Fires	30,880
City of Durango - 4th Qtr 2018 SOT Calculation	127,491
Totals	\$ 158,371

Note 4 – Capital Assets

Capital assets are summarized as follows:

	January 1, 2018	Additions	Retirements	December 31, 2018
Vehicles	\$ 9,817,959	\$ 348,550	\$ (27,924)	\$ 10,138,585
Equipment	3,198,363	107,940	-	3,306,303
Buildings and leasehold improvements	5,056,503	-	-	5,056,503
Land	1,226,106	-	-	1,226,106
Construction in progress	43,312	382,846	-	426,158
	19,342,243	839,336	(27,924)	20,153,655
Accumulated depreciation				
Vehicles	(7,459,165)	(492,172)	27,924	(7,923,413)
Equipment	(2,922,581)	(86,359)	-	(3,008,940)
Buildings and leasehold improvements	(2,694,346)	(142,385)	-	(2,836,731)
	(13,076,092)	(720,916)	27,924	(13,769,084)
Total capital assets	\$ 6,266,151	\$ 118,420	\$ -	\$ 6,384,571

The District utilizes a capitalization threshold of \$5,000. The District gained \$10,330 on sale of assets in 2018.

Note 5 – Pensions

The District currently maintains four (4) separate pension and retirement plans. The plans cover paid participating firefighters hired prior to associating with FPPA ("Old Hires" prior to January 1, 1993), new hires, paid administrative personnel and all volunteer firefighters. On January 1, 1993, the District's local volunteer and "old hire" Pension Fund affiliated with the Fire and Police Pension Associations' (FPPA) Fire and Police Members' Benefit Fund under the Colorado Revised Statutes, 31-30-005(l)(k), as amended, at which time all plan assets were transferred to FPPA for administrative purposes. Under the FPPA affiliation agreement, the District is responsible for the collection and transmission of all contributions to the local Pension Fund. The FPPA is responsible for the physical safekeeping and investing of such contributions as well as for making the appropriate and legally authorized payments of pension benefits and other expenses of the plan.

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

	Net Pension Liability/(Asset)	Deferred Outflows of Resources	Deferred Inflows of Resources
Volunteer Plan	\$ 727,751	\$ 434,679	\$ 284,248
FPPA Plan	(931,206)	1,162,642	415,114
PERA Plan	2,496,304	371,221	597,961

In the Statement of Net Position, all net pension liabilities have been aggregated and separately reported from the net pension asset.

As of December 31, 2018, the deferred inflows and outflows of resources resulting from all pension plans are comprised as follows:

Deferred outflows of resources:	
Difference between actual and projected investment earnings	\$ 198,956
Difference between actual and expected experience	835,545
Changes in assumptions	232,332
Contributions received after measurement date	<u>701,709</u>
Total deferred outflows of resources	<u>\$ 1,968,542</u>

Deferred inflows of resources:	
Difference between actual and expected experience	\$ 10,319
Difference between actual and expected earnings	1,085,646
Changes in proportionate share	<u>201,359</u>
Total deferred inflows of resources	<u>\$ 1,297,323</u>

Deferred outflows of resources of \$701,709, related to contributions subsequent to the measurement date, will reduce the net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense (income) as follows:

2019	\$ 194,354
2020	38,924
2021	(273,131)
2022	(349,752)
2023	88,445
Thereafter	<u>270,671</u>
Total	<u>\$ (30,490)</u>

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Volunteer Plan

The District's active volunteer firefighters participate in a non-contributing pension plan administered by a Board of Trustees, which includes District Board members and volunteer firefighters.

The benefit provisions and plan requirements were established by Colorado Revised Statutes and the Board of Trustees has adopted the following schedule of monthly benefits which was in effect at December 31, 2018:

Age and service retirement after age 50 with 20 years of credit service

(Effective January 1, 2017).	\$800
Surviving spouse death benefit:	\$400
Lump-sum death benefit	\$1,500

Total covered payroll for this plan for 2018 was \$-0-. In 2018, the District contributions were \$162,215 towards meeting the unfunded liability. In addition, the State contribution was \$38,552.

An actuarial valuation is performed every two years to determine the pension benefit obligation. The latest available actuarial valuation was performed as of January 1, 2017. The measurement date was December 31, 2017. The following assumptions were used in computing the pension benefit obligation for this plan:

- Rate of return on investments and discount rate: 7.5%
- Actuarial Method: Entry Age Normal
- Amortization Method: Level Dollar, Open
- Remaining amortization period: 20 years
- Mortality: RP-2014 Mortality Tables for Blue Collar Employees.
- Projected earnings increases for all ages due to inflation: 3.00%

Plan membership as of January 1, 2017 was as follows:

Active members	65
Retirees and beneficiaries	75
Inactive, non-retired members	<u>8</u>
Total	148

The pension plan expense for 2018 was \$239,770. The net pension liability is impacted by a change in the discount rate as follows:

	1% Decrease (6.50%)	Current Rate (7.50%)	1% Increase (8.50%)
Net pension liability	\$ 1,391,725	\$ 727,751	\$ 168,766

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Changes in Net Pension Liability for the measurement period ended December 31, 2017:

Total Pension Liability:

Service cost	\$ 112,218
Interest	460,674
Benefit payments	(496,563)
Net change in total pension liability	76,329
Total pension liability -beginning	<u>6,331,020</u>
Total pension liability - ending (a)	<u>\$ 6,407,349</u>

Total Fiduciary Net Pension:

Contributions-employer	\$ 162,215
Net investment income	738,307
Benefit payments	(496,563)
Administrative expense	(28,998)
State of Colorado supplemental discretionary payment	<u>38,552</u>
Net change in plan fiduciary net position	413,513
Plan fiduciary net position – beginning	<u>5,266,085</u>
Plan fiduciary net position – ending (b)	<u>5,679,598</u>
Net pension liability – ending (a)-(b)	<u>\$ 727,751</u>
Plan fiduciary net position as a percentage of total pension liability	88.64%

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of rates of return for each major asset class included in the pension plan's target asset allocation as of the valuation date are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Public Equity	37%	8.33%
Long Short	9%	7.15%
Private Capital	24%	9.70%
Fixed Income	15%	3.00%
Absolute Return	9%	6.46%
Managed Futures	4%	6.85%
Cash	2%	2.60%
Total	<u>100%</u>	

"Old Hire" Employee Plan

Plan Description: The District no longer contributes to the City of Durango Old Hire Firemen Plan ("Old Hire Plan") a cost sharing, multiple-employer, defined benefit plan. The City of Durango, Colorado ("City")

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

makes contributions to those certain paid firefighters and policemen hired by the City prior to April 8, 1978 and provides retirement benefits to plan members and their beneficiaries. Cost-of-living adjustments are provided at the discretion of the City Council of the City. The Old Hire Plan is administered by the Fire and Police Pension Association of Colorado ("FPPA") Title 31 of the Colorado Revised Statutes, as amended, assigns the authority to establish and amend benefit provisions of the plan to the City Council with input of the Pension Board. FPPA issues a publicly available annual financial report that includes the assets of the plans and separate biennial actuarial reports for each of the plans. The reports may be obtained by writing to FPPA, 5290 DTC Parkway, Suite 100, Greenwood Village, Colorado, 80111, or by calling FPPA at 1-800-770-3772.

Funding Policy: The District has no employees that are members in the Old Hire Plan. The plan received a favorable determination for a Deferred Retirement Option Plan (DROP) amendment from the Internal Revenue Service in December of 2001. The amendment allows active members to elect to have a monthly benefit, along with their current employee contributions to the plan (8%), deposited into a separate account while they continue to be employed. However, they must terminate from the District no later than five years after the election. The District has no contribution requirement due to this amendment.

Pension Assets, Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions: The City of Durango records the pension liabilities for this pension on their financial statements.

Paid Fire Personnel Plan

The District contributes to the Statewide Defined Benefit Plan, cost-sharing multiple-employer defined benefit pension plan administered by the Colorado Fire and Police Pension Association (FPPA). The Statewide Defined Benefit Plan provides retirement benefits for members and beneficiaries. Colorado statutes assign the authority to establish benefit provisions to the state legislature. FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for the Plan, which is available, by directly contacting the FPPA.

The financial statements of the Statewide Defined Benefit Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Plan investments are presented at fair value except for short-term investments, which are recorded at cost, which approximates fair value.

Disability and survivor benefits with respect to death and disability are funded by the State and are disbursed by FPPA according to State statute. Participants' contributions are fully refundable with simple interest of 5% upon request or termination of employment. Employer contributions remain with the plan to help provide benefits to remaining participants.

Covered employees are required by State statute to contribute 9.5% of their salary (excluding paid overtime and comp time) to the plan. The District is required to contribute an additional or matching 8% of covered salary. For the year ended December 31, 2018, covered employees contributed \$430,762 on a base salary of \$4,385,113. The District contributed an additional \$350,809 to the plan on covered employees' behalf.

The following is based on an actuarial study completed as of January 1, 2017. The measurement date is December 31, 2017. The following assumptions were used in computing the pension benefit obligation for this plan:

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

- Rate of return on investments and discount rate: 7.5%
- Actuarial Method: Entry Age Normal
- Amortization Method: Level % of payroll, open
- Amortization period: 30 years
- Mortality: RP-2014 Mortality Tables for Blue Collar Employees
- Projected salary increases: 4%-14%
- Inflation: 2.5%

The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SWDB plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The employer share of net pension asset as of the measurement period ended December 31, 2017 was \$931,206. The employer proportion was 0.65% based on Employer Contributions, a decrease from the prior year, when the proportion was 0.72%. The pension income for the period was \$375,275.

The net pension liability (asset) is impacted by a change in the discount rate as follows:

	1% Decrease (6.50%)	Current Rate (7.50%)	1% Increase (8.50%)
Net pension liability (asset)	\$ 1,013,806	\$ (931,206)	\$ (2,546,290)

The long-term expected rate of return on pension plan investments was determined using a building-block method, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Global Equity	37.0%	8.33%
Equity Long/Short	9.0%	7.15%
Illiquid Alternatives	24.0%	9.70%
Fixed Income	15.0%	3.00%
Absolute Return	9.0%	6.46%
Managed Futures	4.0%	6.85%
Cash	2.0%	2.26%
Total	100.0%	

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Administrative Personnel Plan

The District provides and contributes to the Statewide Defined Benefit Plan, cost-sharing multiple-employer defined benefit pension plan administered by the Public Employee Retirement Association (PERA) for administrative and non-firefighting personnel. The Statewide Defined Benefit Plan provides retirement benefits for members and beneficiaries. Colorado statutes assign the authority to establish benefit provisions to the state legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the Plan, which is available by directly contacting PERA.

The financial statements of the Statewide Defined Benefit Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Plan investments are presented at fair value except for short-term investments, which are recorded at cost and approximate fair value.

Covered employees are required by State statute to contribute 8% of their salary (excluding paid overtime and comp time) to the plan. The District contributes an additional or matching 12.68% of covered salary. For the year ended December 31, 2018, covered employees contributed \$119,044 on a base salary of \$1,488,049. The District contributed an additional \$188,685 to the plan on covered employee's behalf.

The following is based on an actuarial study completed as of January 1, 2017. The measurement date is December 31, 2017. The following assumptions were used in computing the pension benefit obligation for this plan:

- Rate of return on investments and discount rate: 7.25%
- Actuarial Method: Entry Age
- Price inflation: 2.5%
- Real wage growth: 1.1%
- Wage inflation: 3.5%
- Salary increases: 3.5%-10.45%

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SWDB plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The employer share of net pension liability as of the measurement period ended December 31, 2017 was \$2,496,304. The employer proportion was 0.22% based on Employer Contributions, an increase from the prior year, when the proportion was 0.20%. The pension expense for the period ended 2018 was \$572,890.

The net pension liability for the plan is impacted by a change in the discount rate as follows:

	1% Decrease (6.25%)	Current Rate (7.25%)	1% Increase (8.25%)
Net pension liability	\$ 3,975,803	\$ 2,496,304	\$ 1,262,929

DURANGO FIRE PROTECTION DISTRICT

Note 6 – Other Post-Employment Benefits

Summary of Significant Accounting Policies OPEB

Durango Fire Protection District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees’ Retirement Association of Colorado (“PERA”). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Eligible employees of Durango Fire Protection District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member’s years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid. Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit.

Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and Durango Fire Protection District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from Durango Fire Protection District were \$15,178 for the year ended December 31, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2018, Durango Fire Protection District reported a liability of \$226,403 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2017.

Durango Fire Protection District's proportion of the net OPEB liability was based on the District's contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF. At December 31, 2017, the District's proportion was 0.017 percent.

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

For the year ended December 31, 2018, Durango Fire Protection District recognized OPEB expense of \$17,741. At December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 1,071	\$ -
Net difference between projected and actual earnings on plan investments	-	3,788
Contributions subsequent to the measurement date	<u>15,178</u>	<u>-</u>
Total	<u>\$ 16,249</u>	<u>\$ 3,788</u>

\$15,178 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

2019	\$ (737)
2020	(737)
2021	(737)
2022	(736)
2023	210
Thereafter	<u>18</u>
Total	<u>\$ 2,719)</u>

Actuarial assumptions. The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in aggregate
Long-term investment rate of return, net of OPEB	
plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 percent

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

PERACare Medicare plans	5.00 percent
Medicare Part A premiums	3.00 percent for 2017, gradually rising to 4.25 percent in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point. Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A. Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
2024+	5.00%	4.25%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire were revised to more closely reflect actual experience.
- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, were revised to more closely reflect actual experience.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA’s actuary, as needed.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	<u>1.00%</u>	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the Durango Fire Protection District proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB Liability	\$220,173	\$226,403	\$233,905

The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. Sensitivity of the Durango Fire Protection District proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$254,548	\$226,403	\$202,380

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Note 7 – Prior Period Adjustments

The District has implemented new accounting standards that are applied retroactively.

- Net Position as of December 31, 2017, has been restated for the implementation of GASBS 75 (see also Note 9).

The beginning net position balance has been restated as follows to reflect these costs in the prior year:

Net Position as previously reported at December 31, 2017:	\$ 13,315,168
Retroactive application of GASB 75	<u>(211,379)</u>
Net position as restated, January 1, 2018	<u>\$ 13,103,789</u>

Note 8 – Risk Management

Property, Casualty and Worker Compensation Insurance - The District is exposed to various risks of loss related to: torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The Colorado Special Districts Property and Liability Pool is a public entity risk pool currently operating as a common risk management and insurance program for special districts in Colorado. The District, as a member of the pool, pays annual premiums to the pool for workers compensation insurance coverage. The by-laws and intergovernmental agreement of the pool states that the pool will provide coverage through pooling of self-insured losses and purchase of stop-loss insurance coverage.

The pool has a legal obligation for claims against its members to the extent that funds are available in its annually established loss fund and amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. The pool has indicated that the amount of any excess losses would be billed to members in proportion to their contributions in the year such excess occurs, although it is not legally required to do so.

Ultimate liability to the District resulting from claims not covered by the pool is not presently determinable. Management and the District's attorney are of the opinion that the final outcome of such claims, if any, will not have a material adverse effect on the District's financial statements.

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

There were no significant reductions in insurance coverage from the prior year, and there have been no settlements that exceed the District's insurance coverage during the past year.

Employee Medical Insurance – The District has a self-insurance program for employee medical claims. The purpose of the program is to pay medical claims of District employees and their covered dependents up to certain limits and to minimize the total cost of annual medical insurance to the District. The District provides employee and dependent coverage. Claims are processed by Group Administrators Ltd. Individual excess risk coverage commences after an individual has incurred \$40,000 of claims in one year. The excess risk coverage for both individual and aggregate claims coverage was provided by third party reinsurers. Settled claims did not exceed coverage for 2018.

The claims liabilities of \$71,411 at December 31, 2018 were based upon the requirements of GASB Statement No. 10, as amended by Statement No. 30, which require that a liability for claims be reported if information prior to issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The table below presents the changes in the liability for claims and judgments for the year ended December 31, 2018.

	<u>2018</u>
Claims liability at beginning of year	\$ 92,955
Claims incurred during the year including reinsurance costs	1,874,793
Payment on claims during the year including reinsurance costs	<u>(1,896,337)</u>
Claims liability end of the year	<u>\$ 71,411</u>

Note 9 – EMS Accounts Receivable

Revenues for emergency medical services are reported net of allowances and uncollectible amounts. The uncollectible amounts for the year ended December 31, 2018 were \$2,188,732 on total charges of \$3,785,438. At December 31, 2018 the allowance for uncollectibles was \$194,311 on total gross receivables of \$979,121.

Note 10 – Net Position

Restricted net position – State statutes (TABOR) requires the District restrict 3% of fiscal year spending as an emergency reserve. This reserve can only be spent on a declared emergency which excludes economic conditions, revenue shortfalls, or salary or fringe benefit increases.

Committed net position – The development agreements that allow the District to collect impact fees from several subdivisions require that these funds be restricted for capital expenditures. In addition, the contract for fire and emergency services with the City of Durango requires that the annual capital contribution from the City be used to build a new downtown fire station. The balance of committed net position as of December 31, 2018 is \$7,097,915 which includes \$200,000 committed to improvements on Station 5, \$1,360,260 in capital contributions from the City which are committed to building a new downtown station (Station 2), and \$5,537,655 which to Board committed to capital projects.

DURANGO FIRE PROTECTION DISTRICT
Notes to the Financial Statements
Year Ended December 31, 2018

Balance December 31, 2001 – On December 31, 2001 the contracting parties transferred capital assets, a capitalized lease, accrued vacation and accrued sick leave to the Durango Fire & Rescue Authority. The table below (based on December 31, 2001) summarizes those transfers as adjusted:

	Assets <u>Transferred</u>	2001 <u>Net loss</u>	Accrued <u>Vacation</u>	Accrued <u>Sick Leave</u>	Lease <u>Transferred</u>	<u>Total</u>
City of Durango	\$ 469,322	\$ (15,603)	\$ (97,973)	\$ (60,396)	\$ -	\$ 295,350
Animas Fire Protection District	4,165,369	(1,362)	(31,895)	(14,177)	-	4,117,935
Hermosa Cliff Fire Protection District	1,215,903	(9,362)	(9,778)	(7,730)	(18,365)	1,170,668
Mercy Medical Center	<u>108,276</u>	<u>-</u>	<u>(3,727)</u>	<u>-</u>	<u>-</u>	<u>104,549</u>
Totals	<u>\$ 5,958,870</u>	<u>\$ (26,327)</u>	<u>\$ (143,373)</u>	<u>\$ (82,303)</u>	<u>\$ (18,365)</u>	<u>\$ 5,688,502</u>

Note 11 – Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick benefits. It is the District's policy to pay all unused vacation when employees separate from service with the District. Also, it is the District's policy to pay up to 240 hours of unused sick leave when employees separate from service with the district provided they qualify to retire.

	Balance <u>December 31, 2017</u>	<u>Increases</u>	<u>Decreases</u>	Balance <u>December 31, 2018</u>	Due in <u>one year</u>
Accrued vacation	477,508	328,825	231,855	574,478	287,239
Accrued sick leave	<u>85,736</u>	<u>113,824</u>	<u>120,067</u>	<u>79,493</u>	<u>39,747</u>
	<u>563,244</u>	<u>442,649</u>	<u>351,922</u>	<u>653,971</u>	<u>326,986</u>

Note 12 – TABOR Amendment

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.

STATISTICAL SECTION

Statistical Section Comments

The purpose of the statistical portion of the comprehensive annual financial report is to give the reader information to judge the District's economic condition – that is to show not only current economic resources and claims to those resources but to help the reader to understand potential future resources and claims to those future resources. This section has five objectives: 1) provide financial trend data to show how the District's financial position has changed over time. 2) provide information on revenue capacity to show the District's ability to generate revenues. 3) provide information on debt capacity to show the District's debt burden and capacity to issue additional debt. 4) provide demographic and economic information to show the social and economic environment in which the District is operating. and 5) provide operating information to help understand the District's operation and resources used. The financial information presented in this section is prepared on an accrual basis.

Financial Trends: Net position decreased by \$1,515,651 in 2017 ending the year at \$13,103,789 and then saw an increase of \$2,122,140 in 2018 ending the year at \$15,225,929. The fund balance increased by \$374,174 in 2017 ending the year at \$9,576,761 with \$3,589,365 unassigned and increased by \$1,754,140 in 2018 ending the year at \$11,330,901 with \$3,789,016 unassigned.

Revenue Capacity: The District received 33% of its revenue from property taxes in 2017. Total taxable assessed valuations for the District were \$629,414,660 in 2016, \$542,666,480 in 2017, and \$557,000,900 in 2018. The City of Durango contributed 33% of revenues and the City receives most of their revenue from sales taxes. Future revenue capacity from the City of Durango can be judged by reviewing their annual financial reports.

Debt Capacity: The District has no long-term debt.

Demographic and Economic Information: La Plata County has experienced a 11% increase in population from 2008 to 2017 when the US Census calculated the population at 55,619. The number of housing units has increased by 7% during the same time frame. Total personal income saw a 3% decline in 2009 but has increased for the eight years since reaching \$2,9932,815 in 2017 which is a 33% increase since 2008. Unemployment has been very low for most of the past ten years, however it did increase in 2009 and 2010 reaching 7.1%. It was at 2.30% at the end of 2017 which is below the national average.

Operating Information: The District currently has 80 full-time employees which is six more than DFRA had in 2012 and 2013 and five more than DFPD operated with in 2017. Four of those additional employees are line personnel. Capital assets are even with the level DFRA had since 2010, and the fleet size is consistent with what was operated by DFRA since 2010. EMS calls have increased by 67% from 2009 to 2018 while Fire calls have fluctuated up and down and were above the ten year average of 284 per year in 2018.

Sources: Except where noted, the information in this section comes from the District's comprehensive annual reports. Additional information comes from internal operating reports, the Region 9 Economic District of Southwest Colorado, Colorado Department of Labor–Bureau of Labor Statistics, Colorado Division of Local Government-Demographic Section, Colorado Secretary of State, and the US Department of Commerce-Bureau of Economic Analysis.
