## Independent Auditor's Report

The Board of Directors  
Oak Creek Fire Protection District  
Routt County, Colorado

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and major fund of the Oak Creek Fire Protection District (the District), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and major fund of the Oak Creek Fire Protection District as of December 31, 2018, and the respective changes in financial position for the year then ended in accordance with U.S. generally accepted accounting principles.

## Report on Summarized Comparative Financial Information

We have previously audited the District's December 31, 2017 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated July 23, 2018. In our opinion, the summarized comparative financial information presented herein as of and for the year ended December 31, 2017 is consistent, in all material respects, with the audited financial statements from which it has been derived.

## Other Matters

### *Required Supplementary Information*

U.S. generally accepted accounting principles require that the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual on page 24, and the defined benefit pension plan schedules on pages 25-28 as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted Management's Discussion and Analysis that U.S. generally accepted accounting principles require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in**  
**General Fund Balance to the Statement of Activities**  
**For the Year Ended December 31, 2018**

Change in general fund balance	\$	10,046
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>		
<p>The general fund reports capital outlays as expenditures; however, they are capitalized and depreciated in the statement of activities.</p>		(56,780)
<p>In the general fund, expenditures for the defined benefit pension plans are measured by the amount of the financial resources used, whereas in the statement of activities, they are measured as the liability is accrued according to actuarial estimates. This is the amount the net pension asset and liability and the related deferred inflows and outflows changed in the current year.</p>		47,543
Change in net position of governmental activities	\$	809

See accompanying notes to financial statements.

**OAK CREEK FIRE PROTECTION DISTRICT**

**Notes to Financial Statements**

**December 31, 2018**

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 1: Summary of Significant Accounting Policies**

The Oak Creek Fire Protection District (the District) was established in 1982 in Routt County, Colorado as a local government entity under Colorado Revised Statutes (CRS) to provide fire protection and ambulance services to the Town of Oak Creek, Stagecoach and surrounding rural areas excluding Phippsburg and covering approximately 262 square miles.

The District's financial statements are prepared in accordance with U.S. generally accepted accounting principles (US GAAP). The Governmental Accounting Standards Board (GASB) is the standard-setting body for the establishment of US GAAP in governmental entities. The following summary of the more significant accounting policies of the District is presented to assist the reader in interpreting these financial statements and should be viewed as an integral part of this report.

*Reporting Entity*

The reporting entity consists of (a) the primary government, i.e., the District, and (b) organizations for which the District is financially accountable. The District does not have any component units for which it is financially accountable.

*Measurement Focus and Basis of Accounting*

The government-wide financial statements use a flow of economic resources measurement focus to determine net income and financial position. The accounting principles used are similar to those applicable to businesses in the private sector and are maintained on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Governmental fund financial statements use a current financial resources measurement focus and are maintained on the modified accrual basis of accounting. Revenues are recognized when they become susceptible to accrual; that is, when they become both measurable and available to finance expenditures of the current period. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues collected within 60 days after year end to be available and thus recognizes them as revenues in the current year.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

*Financial Statement Presentation*

Government-wide Financial Statements

The statement of net position and the statement of activities report information about the nonfiduciary activities of the District. The District's primary activities are categorized as governmental activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are clearly identified with a specific program. Program revenues include (a) charges for services and (b) grants and contributions that are restricted for the operating or capital requirements of a specific program. All taxes and other revenues not meeting the criteria for classification as program revenues are reported as general revenues.

Fund Financial Statements

The fund financial statements report information about the District's funds.

The District reports the following major governmental fund:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

OAK CREEK FIRE PROTECTION DISTRICT

Notes to Financial Statements

December 31, 2018

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 1: Summary of Significant Accounting Policies (continued)**

*Fund Balance Presentation*

Fund balances of the governmental fund are classified as follows:

- Non-spendable – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.
- Restricted – includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors or the laws or regulations of other governments.
- Committed – includes amounts that can be spent only for specific purposes pursuant to constraints imposed by formal action of the District. Such formal action may be in form of an ordinance or resolution and may only be modified or rescinded by a subsequent formal action.
- Assigned – includes amounts that are intended by the District to be used for specific purposes, but are neither restricted nor committed. Assignments may be made only by the Board of Directors.
- Unassigned – represents the residual positive balance within the General Fund which has not been restricted, committed or assigned.

*Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position*

Cash and Investments

The District's cash includes cash on hand, demand deposits, and certificates of deposit. The District's investment in the Colorado Local Government Liquid Asset Trust (COLOTRUST) PLUS+ fund is measured at net asset value, equal to \$1.00 per share.

Accounts Receivable

The District's accounts receivable consists primarily of charges for ambulance services. The District estimates an allowance for uncollectible accounts based on review of trends in collection percentages and insurance coverage of the transported persons.

As of December 31, 2018 and 2017, the District's net accounts receivable was as follows:

	<u>2018</u>	<u>2017</u>
Accounts receivable:		
Ambulance services	\$ 50,898	\$ 52,217
Allowance for uncollectible accounts	<u>(29,000)</u>	<u>(29,000)</u>
	<u>\$ 21,898</u>	<u>\$ 23,217</u>

Capital Assets

Capital assets include land, buildings, vehicles and equipment. Capital assets are defined by the District as assets with an initial individual cost of \$1,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased by the District or fair value if contributed to the District. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Buildings	27.5
Vehicles	5-10
Equipment	5-7

**OAK CREEK FIRE PROTECTION DISTRICT**

**Notes to Financial Statements**

**December 31, 2018**

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 1: Summary of Significant Accounting Policies (continued)**

*Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)*

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until that time. The District's deferred outflows of resources relate to the recording of the net pension asset/liability.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The District's deferred inflows of resources consist of unavailable revenues from property taxes and the recording of the net pension asset/liability.

*Property Taxes*

Property taxes are levied on December 15 of each year and attach as an enforceable lien on property on January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. The Routt County Treasurer's office collects property taxes and remits collections to the District on a monthly basis. In accordance with US GAAP, the assessed but uncollected property taxes have been recorded as receivable and as deferred inflows of resources as property taxes are assessed in one year as a lien on the property, but not collected by the District until the subsequent year.

*Pensions*

For purposes of measuring the net pension asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Fire & Police Statewide Defined Benefit Plan (SWDB) and the Volunteer Firefighters' Pension Fund and additions to/deductions from each plan's fiduciary net position have been determined on the same basis as they are reported by the Fire & Police Pension Association of Colorado (FPPA). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Use of Estimates*

The preparation of financial statements in conformity with US GAAP requires the District's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

*Comparative Financial Statements*

The financial statements include certain prior-year summarized comparative information in total. Such information does not include sufficient detail to constitute a presentation in conformity with US GAAP. Accordingly, such information should be read in conjunction with the District's audited financial statements for the year ended December 31, 2017, from which the summarized information was derived.

**OAK CREEK FIRE PROTECTION DISTRICT**  
**Notes to Financial Statements**  
**December 31, 2018**  
(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 1: Summary of Significant Accounting Policies (continued)**

*New Accounting Pronouncement*

Effective January 1, 2018, the District adopted the provisions of GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefit Other Than Pension". The effect of adoption of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (OPEB) and to improve information about financial support for OPEB that is provided by other entities.

FPPA administers the Statewide Death & Disability Plan which qualifies as a cost sharing multiple-employer defined benefit OPEB plan under this Standard. As all contributions to the OPEB plan are classified as member contributions, the District's projected long-term contribution effort to the OPEB plan and total projected long-term contribution effort of all employers and nonemployer contributing entities are both \$0. Therefore, the District's proportionate share calculation is 0%.

**Note 2: Stewardship, Compliance and Accountability**

*Budgetary Information*

An annual budget is adopted on a basis consistent with US GAAP for the General Fund.

The District conforms to the following procedures, in compliance with CRS, Title 29, Article 1, in establishing the budgetary data reflected in the financial statements:

- Prior to October 15, management submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted by the Board of Directors to obtain taxpayer comments.
- Prior to December 31, the budget is adopted by formal resolution.
- Expenditures may not legally exceed appropriations at the fund level. Revisions that alter the total expenditures must be approved by the Board of Directors.
- All appropriations lapse at the end of each fiscal year.

The District did not adopt any supplemental appropriations for the year ended December 31, 2018.

*Compliance*

Expenditures did not exceed appropriations during the year ended December 31, 2018.

*TABOR Amendment*

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains tax spending, revenue and debt limitations that apply to the State of Colorado and all local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of any expiring tax, or tax policy change directly causing a net tax revenue gain to any local government.

Future spending and revenue limits are determined based on the prior year's fiscal year spending adjusted for allowable increases based upon inflations and local growth. Fiscal year spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the fiscal year spending limit must be refunded unless the voters approve retention of such revenue.

**OAK CREEK FIRE PROTECTION DISTRICT**  
**Notes to Financial Statements**  
**December 31, 2018**  
(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 2: Stewardship, Compliance and Accountability (continued)**

*TABOR Amendment (continued)*

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future fiscal years.

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of fiscal year spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District has reserved \$17,487 of the December 31, 2018 fund balance in the General Fund for this purpose.

The District's voters passed a ballot question in 2002 that permanently lifted TABOR restrictions on the amount of revenue that the District can collect and retain.

The District's management believes it is in compliance with the financial provisions of TABOR. However, TABOR is complex and many of its provisions may require judicial interpretation.

**Note 3: Detailed Notes on the Funds**

*Deposits*

The carrying amount of the District's deposits as of December 31, 2018 and 2017 was \$73,254 and \$156,730, respectively, and bank balances were \$81,552 and \$160,530, respectively. All of the bank balances as of December 31, 2018 and 2017 were covered by federal deposit insurance.

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories; eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The collateral pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must equal or exceed 102% of the aggregate uninsured deposits.

*Investments*

As of December 31, 2018 and 2017, the District had \$205,270 and \$102,402, respectively, invested in the COLOTRUST PLUS+ fund. COLOTRUST PLUS+ is a short-term money market fund organized in conformity with Part 7 of Article 75 of Title 24, CRS. The portfolio offers Colorado governmental entities a convenient and efficient means to pool their funds to take advantage of short-term investments and maximize net interest earnings. COLOTRUST PLUS+'s investment objective is to obtain as high a level of current income as is consistent with the preservation of capital and liquidity. The investment adviser for COLOTRUST PLUS+ is Public Trust Advisors LLC, a Colorado-based investment adviser, registered with the SEC. The portfolio manager is responsible for making all of the investment decisions for the portfolio. Wells Fargo Bank, N.A. is custodian of the portfolio's securities and cash. The COLOTRUST PLUS+ portfolio invests in U.S. Treasury securities, federal instrumentality securities, agency securities, repurchase agreements, tri-party repurchase agreements, collateralized bank deposits, the highest rated commercial paper, and highly-rated corporate bonds. The weighted average maturity to reset is kept under 60 days, which helps to enhance liquidity and limits market price exposure. The COLOTRUST PLUS+ fund holds a 'AAAm' rating by Standard and Poor's.

The District's investments are subject to interest rate, credit risk, and concentration of credit risk. As a means of limiting its exposure to fair value losses arising from rising interest rates, the District currently invests only in investment pools which may be redeemed at any time.

*Governmental Fund Balances*

The District has restricted fund balance as of December 31, 2018 for the following:

- Emergency reserve required by TABOR

The District has no committed or assigned fund balances as of December 31, 2018.

When expenditures are incurred and both restricted and unrestricted resources are available, it is the District's policy to use restricted resources first, then unrestricted resources in the order of committed, assigned, and then unassigned, as they are needed.

**Note 4: Pension Plans**

*Fire and Police Statewide Defined Benefit Plan*

Plan Description

The Plan is a cost-sharing multiple-employer defined benefit pension plan covering substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978 (New Hires), provided that they are not already covered by a statutorily exempt plan. As of August 1, 2003, the Plan may include clerical and other personnel from fire districts whose services are auxiliary to fire protection. The Plan became effective January 1, 1980.

Employers once had the option to elect to withdraw from the Plan, but a change in state statutes permitted no further withdrawals after January 1, 1988.

CRS Title 31, Article 31 grants the authority to establish and amend the benefit terms to the FPPA Board of Directors. The FPPA issues a publicly available financial report that can be obtained at [www.fppaco.org](http://www.fppaco.org).

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Fire and Police Statewide Defined Benefit Plan (continued)*

Benefits Provided

A member is eligible for a normal retirement pension once the member has completed 25 years of credited service and has attained the age of 55.

The annual normal retirement benefit is 2% of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members currently covered under Social Security will receive half the benefit when compared to the Plan. Benefits paid to retired members are evaluated and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0% to the higher of 3% or the Consumer Price Index (CPI).

In addition, upon retirement a member may receive additional benefits credited to the member's "Separate Retirement Account" (SRA) each year after January 1, 1988. These are attributable to contributions in excess of the actuarially determined pension cost and the allocation of the net Fire & Police Members' Benefit Investment Fund earnings and losses thereon. Members do not vest in amounts credited to their SRA until retirement, and the Plan may use such stabilization reserve amounts to reduce pension cost in the event such cost exceeds contributions. It was previously mentioned that reentry members have a higher contribution rate. As a result their SRA has two components; the standard SRA and the reentry SRA. The component of a member's SRA attributable to the higher contribution rate is considered the reentry SRA. The reentry SRA cannot be used to subsidize the costs for the non-reentry members. Effective July 1, 2014, the standard Separate Retirement Account contribution rate for members of the Fire & Police Statewide Defined Benefit Plan was set at 0%. The reentry Separate Retirement Account contribution rate was set at 3.6%.

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5% as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2% of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter.

A member may elect to participate in the deferred retirement option plan (DROP) after reaching eligibility for normal retirement, early retirement, or vested retirement and age 55. A member can continue to work while participating in the DROP, but must terminate employment within 5 years of entry into DROP. The member's percentage of retirement benefit is determined at the time of entry into the DROP. The monthly payments that begin at entry into the DROP are accumulated in a DROP account until the member terminates service, at which time the DROP accumulated benefits can be paid as periodic installments, a lump sum, or if desired, a member may elect to convert the DROP to a lifetime monthly benefit with survivor benefits. While participating in the DROP, the member continues to make pension contributions that are credited to the DROP. Effective January 1, 2003, the member shall self-direct the investments of their DROP funds. The DROP balance invested with the asset custodian at December 31, 2017 was \$117,642,052. This amount was not included in the Plan Net Position.

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Fire and Police Statewide Defined Benefit Plan (continued)*

Contributions

The Plan sets contribution rates at a level that enables all benefits to be fully funded at the retirement date of all members. Contribution rates for this Plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership.

Members of this Plan and their employers are contributing at the rate of 9.5% and 8%, respectively, of base salary for a total contribution rate of 17.5% in 2017. In 2014, the members elected to increase the member contribution rate to the Plan beginning in 2015. Member contribution rates will increase 0.5% annually through 2022 to a total of 12% of base salary. Employer contributions will remain at 8% resulting in a combined contribution rate of 20% in 2022.

Contributions from members and employers of plans reentering the system are established by resolution and approved by the FPPA Board of Directors. The reentry group has a combined contribution rate of 21.5% of base salary in 2017. Per the 2014 member election, the reentry group will also have their required member contribution rate increase 0.5% annually beginning in 2015 through 2022 for a total combined member and employer contribution rate of 24% in 2022.

The contribution rate for members and employers of affiliated social security employers is 4.75% and 4%, respectively, of base salary for a total contribution rate of 8.75% in 2017. Per the 2014 member election, the affiliated social security group will also have their required member contribution rate increase 0.25% annually beginning in 2015 through 2022 to a total of 6% of base salary. Employer contributions will remain at 4% resulting in a combined contribution rate of 10% in 2022.

Contributions to the Plan from the District were \$17,305 and \$17,151, respectively, for the years ended December 31, 2018 and 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

As of December 31, 2018 and 2017, the District reported a liability (asset) of (\$47,617) and \$13,289, respectively, for its proportionate share of the collective net pension liability (asset) of the Plan. The net pension liability (asset) was measured as of December 31, 2017 and 2016, respectively, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability (asset) was based on the District's contributions to the Plan for the years ended December 31, 2017 and 2016 relative to the total contributions of participating employers to the Plan. As of December 31, 2017 and 2016, the District's proportion was 0.033098% and 0.036778%, respectively.

**OAK CREEK FIRE PROTECTION DISTRICT**

**Notes to Financial Statements**

**December 31, 2018**

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Fire and Police Statewide Defined Benefit Plan (continued)*

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

For the years ended December 31, 2018 and 2017, the District recognized pension expense (revenue) of (\$18,599) and \$20,400, respectively. As of December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 34,338	\$ 528
Changes of assumptions or other inputs	7,174	-
Net difference between projected and actual investment earnings	-	16,167
Changes in proportion and differences between contributions recognized and proportionate share of contributions	5,142	-
Contributions subsequent to the measurement date	<u>17,305</u>	<u>-</u>
 Total	 <u>\$ 63,959</u>	 <u>\$ 16,695</u>

\$17,305 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31,	
2018	\$ 5,642
2019	5,497
2020	(1,375)
2021	(3,923)
2022	5,650
Therafter	<u>18,468</u>
	<u>\$ 29,959</u>

Actuarial Assumptions

The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.5%, compounded annually net of operating expenses, and including inflation
Projected salary increases	4.0% - 14.0%
Cost of Living Adjustment (COLA)	0.0%
Inflation	2.5%

OAK CREEK FIRE PROTECTION DISTRICT

Notes to Financial Statements

December 31, 2018

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Fire and Police Statewide Defined Benefit Plan (continued)*

Actuarial Assumptions (continued)

Effective January 1, 2016, the post-retirement mortality tables for non-disabled retirees is a blend of the Annuitant and Employee RP-2014 generational mortality tables with blue collar adjustment projected with Scale BB. The occupationally disabled post-retirement mortality assumption uses the same table as used for healthy annuitants, except there is a three year set-forward, meaning a disabled member age 70 will be valued as if they were a 73 year old healthy retiree. The totally disabled post-retirement mortality assumption uses the RP-2014 generational mortality tables for disabled annuitants, except an additional provision to apply a minimum of 3% mortality probability to males and 2% mortality probability for females is included to reflect substantial impairment for this population. The pre-retirement off-duty mortality tables are adjusted to 55% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5%). Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of December 31, 2017, are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	37.0%	8.33%
Equity Long/Short	9.0%	7.15%
Illiquid Alternatives	24.0%	9.70%
Fixed Income	15.0%	3.00%
Absolute Return	9.0%	6.46%
Managed Futures	4.0%	6.85%
Cash	2.0%	2.26%
Total	<u>100.0%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the FPPA Board of Director's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**OAK CREEK FIRE PROTECTION DISTRICT**

**December 31, 2018**

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Fire and Police Statewide Defined Benefit Plan (continued)*

Sensitivity of the District's Proportionate Share of the Collective Net Pension Liability/Asset to Changes in the Discount Rate

The following represents the District's proportionate share of the collective net pension liability/(asset) calculated using the discount rate of 7.5%, as well as what the District's proportionate share of the net pension liability/(asset) would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage point higher (8.5%) than the current rate:

Discount Rate:	Sensitivity of the NPL/(NPA)		
	6.50%	7.50%	8.50%
Proportionate share of the NPL/(NPA)	\$ 51,840	\$ (47,617)	\$ (130,203)

Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued FPPA financial report.

*Volunteer Firefighters Pension Fund*

Plan Description

FPPA administers an agent multiple-employer Public Retirement System (PERS). The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The pension plans have elected to affiliate with FPPA for plan administration and investment only. FPPA issues a publicly available comprehensive annual financial report that can be obtained at [www.fppaco.org](http://www.fppaco.org).

The District contributes, on behalf of its volunteers, to an agent multiple-employer defined benefit pension plan included in the PERS. Title 31, Article 30 of CRS, as amended, establishes basic benefit provisions under the plan. The Plan covers 20 members at the measurement date of December 31, 2017.

OAK CREEK FIRE PROTECTION DISTRICT

Notes to Financial Statements

December 31, 2018

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Volunteer Firefighters Pension Fund (continued)*

Benefits Provided

The following were the benefit provisions used to determine the total pension liability as of December 31, 2017 (measurement date of the plan):

1. Normal Retirement Benefit at Age 50 with 20 years of Service (monthly):	
a. Regular	\$400.00
b. Extended Service Amount Per Year of Service	\$0.00
2. Vested Retirement Benefit (monthly):	
a. With 10 to 20 Years of Service Amount Per Year of Service per Minimum Vesting Years	\$20.00
b. Minimum Vesting Years	10
3. Disability Retirement Benefit (monthly):	
a. Short Term Disability for line of duty injury Amount payable for not more than 1 year	\$0.00
b. Long Term Disability for line of duty injury Lifetime Benefit	\$0.00
4. Survivor Benefits (monthly):	
a. Following Death before Retirement Eligible; Due to death in line of duty as volunteer firefighter	\$0.00
b. Following Death after Normal Retirement	\$0.00
c. Following Death after Normal Retirement with Extended Service Amount Per Year of Service	\$0.00
d. Following Death after Vested Retirement with 10 to 20 Years of Service Amount Per Year of Service per Minimum Vesting Years	\$0.00
e. Following Death after Disability Retirement	\$0.00
f. Optional Survivor Benefit Following Death before or after Retirement Eligible; Due to death on or off duty as a volunteer firefighter (Purchase of Life Insurance Required)	\$0.00
5. Funeral Benefits (Required Benefit):	
a. Funeral Benefit Lump Sum, one time only	\$100.00

Contributions

Actuarially determined contribution rates are calculated as of January 1 of odd numbered years. The contribution rates have a one-year lag, so the actuarial valuation as of January 1, 2017, determines the contribution amounts for 2018 and 2019.

Contribution to the Plan from the District was \$31,500 and \$31,465 for the years ended December 31, 2018 and 2017, respectively. Plan members do not make contributions.

Net Pension Liability, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

As of December 31, 2018 and 2017, the District reported a net pension liability of \$344,753 and \$383,329, respectively. The net pension liability was measured as of December 31, 2017 and 2016, respectively, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

For the years ended December 31, 2018 and 2017, the District recognized pension expense of \$19,861 and \$230,137, respectively. As of December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ -
Changes of assumptions or other inputs	-	-
Net difference between projected and actual investment earnings	14,272	20,078
Contribution subsequent to the measurement date	31,500	-
 Total	 \$ 45,772	 \$ 20,078

\$31,500 reported as deferred outflows of resources related to pensions resulting from the District's contribution subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31,	
2019	\$ 1,694
2020	856
2021	(3,338)
2022	(5,018)
	\$ (5,806)

**OAK CREEK FIRE PROTECTION DISTRICT**

**Notes to Financial Statements**

**December 31, 2018**

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Volunteer Firefighters Pension Fund (continued)*

Actuarial Assumptions

The following methods and assumptions were used to determine contribution rates to the Plan as of December 31, 2017:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open
Remaining Amortization Period	20 years
Asset Valuation Method	5-Year smoothed fair value
Inflation	3.00%
Salary Increases	N/A
Investment Rate of Return	7.50%
Retirement Age	50% per year of eligibility until 100% at age 65
Mortality	Pre-retirement: RP-2000 Combined Mortality Table with Blue Collar Adjustment, 40% multiplier for off-duty mortality Post-retirement: RP-2000 Combined Mortality Table with Blue Collar Adjustment Disabled: RP-2000 Disabled Mortality Table All tables projected with Scale AA

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic nominal rates of return for each major asset class included in the Plan's target asset allocation as of December 31, 2017, are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Nominal Rate of Return
Cash	2.0%	2.26%
Fixed Income	15.0%	3.00%
Managed Futures	4.0%	6.85%
Absolute Return	9.0%	6.46%
Long Short	9.0%	7.15%
Global Public Equity	37.0%	8.33%
Private Capital	24.0%	9.70%
Total	<u>100.0%</u>	

Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

OAK CREEK FIRE PROTECTION DISTRICT

Notes to Financial Statements

December 31, 2018

(with summarized financial information as of December 31, 2017 and for the year then ended)

**Note 4: Pension Plans (continued)**

*Volunteer Firefighters Pension Fund (continued)*

Discount Rate (continued)

For the purpose the Plan’s actuarial valuation, the long-term expected rate of return on pension plan investments is 7.5%; the municipal bond rate is 3.31% (based on the weekly rate closest to but not later than the measurement date of the “state and local bonds” rate from Federal Reserve statistical release (H.15)); and the resulting single discount rate is 7.5%. December 31, 2117 is the end of the projection period for which projected benefit payments are fully funded.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following represents the net pension liability of the Plan calculated using the discount rate of 7.5%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5%) or 1-percentage point higher (8.5%) than the current rate:

Discount Rate:	Sensitivity of the NPL		
	6.50%	7.50%	8.50%
Net pension liability	\$ 421,199	\$ 344,753	\$ 280,372

**Note 5: Other Information**

*Developer Ground Lease*

The District leases the land under its new Stagecoach fire station from the Stagecoach Property Owners Association. The lease calls for an annual payment of \$1 through the term of the lease ending on March 28, 2103.

*Building Lease Agreement*

The District leases garage and office facilities from the Town of Oak Creek (the Town) for \$1 annual payment. The lease has no expiration date and terms include allowing the Town use of the District’s tanker truck for certain Town purposes.

*Risk Management*

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The District maintains commercial insurance for these risks of loss, including workers compensation. Settled claims have not exceeded coverage in the past three fiscal years.

*Subsequent Events*

The District has evaluated subsequent events through June 24, 2019, the date these financial statements were available to be issued.
