MANAGEMENT'S DISCUSSION AND ANALYSIS

This report is for the North Metro Fire Rescue District for the year ending December 31, 2018. The Management Discussion and Analysis ("M D & A") is designed to provide an overview of the financial activities of the District during 2018 and the integration of those activities within the long term financial programs and planning of the District. The M D & A should be read in conjunction with the District's financial statements.

BACKGROUND INFORMATION

The Fire District was created in 1946 by a number of concerned citizens about fire protection for their homes and businesses. The District is comprised of the following seven funds:

- General Fund
- Old Hire Firefighter Pension Fund (for fire personnel hired before February 1977)
- Ambulance Membership Fund
- Absence Reserve Fund
- Debt Service Fund (which is used to accumulate property taxes levied to repay General Obligation Bond issuances, originally issued in 2006 and 2009, refinanced in 2015)
- Debt Service Fund – Certificates of Participation (which is used to account for the payment of the Certificates of Participation Series 2010 which were refinanced in 2015)
- Capital Improvements Fund (which is used to expend funds designated for capital projects)

In May 1989, the District Board asked the taxpayers to support a \$2.8 million Bond question to build a new fire station, remodel existing stations, and replace fire apparatus. In 1999 the bond issue was refunded to take advantage of lower interest rates; and, the debt was retired in 2004.

In 1998, the District Board of Directors submitted a ballot question to the taxpayers requesting to remove the Tabor limits that were imposed by Colorado Constitutional Amendment on the District in 1994. This ballot question was approved by the taxpayers in the election.

In May 2006, the District Board of Directors submitted a ballot question to the taxpayers to support a \$26 million Bond question to purchase apparatus and equipment, construction of new fire stations, administrative, maintenance and training facilities. Bonds totaling \$25,250,000 were issued on June 27, 2006 and the remaining \$750,000 of Bonds were issued on July 2, 2009. All of the Bonds will be repaid with a Debt Service mill levy of 1.4. These Bonds were refinanced in 2015 to take advantage of a lower interest rate offered for the refinancing.

Additionally in May 2006, the District Board of Directors submitted a ballot question to the taxpayers to increase the Districts' General Mill levy by 1.85 mills. The ballot question was approved by the taxpayers in the election.

In November 2014, the District Board of Directors submitted a ballot question to the taxpayers to increase the Districts' General Mill levy by 3.5 mills. The ballot question was approved by the taxpayers in the election.

Financial Highlights

- The assets of North Metro Fire Protection District exceeded its liabilities at the close of the most recent fiscal year (net position) \$27,139,184.
- Of this amount \$17,606,742 may be used to meet the government's ongoing obligations to the citizens and creditors.
- The government's total net position increased by \$9,434,808.
- As of the close of the current fiscal year, the North Metro Fire Protection District's governmental funds reported combined ending fund balances of \$18,253,849, an increase of \$3,515,422 from current year activities.
- At the end of the current fiscal year, committed fund balance for the general fund is \$9,225,753 or 30% of total general fund expenditures budgeted for 2019.
- The District made principal payments of \$2,345,000 on the Certificates of Participation and General Obligation Bond debt.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's financial statements are comprised of two components: 1) government-wide financial statements and fund financial statements, and 2) notes to the financial statements as discussed below.

Government-Wide and Fund Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator on whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the net position has changed during the past year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Therefore, the revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the District that will be principally supported by taxes and intergovernmental revenues. The functions of the District so funded are fire prevention, fire protection and emergency medical services. The government-wide financial statements are combined with the fund financial statements and can be found in this report.

Fund Financial Statements - A fund is a group of accounts used to maintain control over resources that have been set aside for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and to demonstrate compliance with finance-related legal requirements. The funds of the District are a governmental fund and fiduciary fund.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as, the balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for government funds with similar information presented for governmental activities in the government-wide financial statements. The readers will have a better understanding of the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in this report.

Government-Wide Financial Analysis

The net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$27,139,184 at the close of the year. The largest portion of the District's net position reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding.

General Fund

The general fund was established and is continually funded to provide for the daily activities, salaries, expenses, and operating costs of the District. This fund provides for functional areas of the organization – administration, firefighting, fire prevention, training, vehicle maintenance, and facility maintenance. The general fund also provides for such other items as insurance, utilities, and other costs the District incurs. The primary funding source for the general fund is taxation of real property. Other sources of income for the general fund include interest income on reserved funds and fees for permits, plan reviews, and medic transport fees. The primary projects or program efforts for establishing needed funding during 2018 were:

1. Salaries and benefits for all existing full time personnel of the District.
2. Normal operational costs of the District.
3. Rebuilding our General Fund reserves.
4. Completing Capital Projects without adding any additional debt.

General Fund Budgetary Highlights

It should be noted that the District's budget format is designed to establish and monitor divisional functions of the Fire District's operations to more closely align expenses with the areas of responsibility. These divisions are set up as cost centers for accountability in each of the following areas:

- Administration
- Emergency Services
- Fire Prevention
- Fire Training
- Transportation and Fleet Maintenance
- Information Technology

CAPITAL ASSETS AND DEBT ADMINISTRATION:

Capital Improvements Fund

The Capital Improvements Fund is used to expend funds designated for capital projects for the District. Capital Funds not expended in the budgeted fiscal year are rolled into the next succeeding year's Capital budget and must be re-budgeted and re-approved by the Board of Directors for the next fiscal year.

The major capital assets purchased from the Capital Improvements funds during the year were as follows:

- Remodeling of Station 63 which was completed in 2018
- Bunker gear replacement
- Purchase of two new Pierce Velocity fire engines
- Purchase of a new wildland Type 6 vehicle
- Purchase of a new tech rescue truck
- Staff vehicles purchase
- Replacement of mobile data computers for medic units and fire engines

Capital assets are classified as follows (net of depreciation) as of December 31, 2016, 2017 and 2018:

	2016	2017	2018
Land/Buildings	\$23,380,972	\$22,116,178	\$23,855,817

Total assets	<u>\$29,417,259</u>	<u>\$30,013,319</u>	<u>\$30,592,442</u>

CAPITAL ASSETS AND DEBT ADMINISTRATION (continued)

Long-Term Debt

Certificates of Participation Series 2015

On November 20, 2015, the District issued \$6,790,000 in Certificates of Participation, Series 2015. Interest is payable semi-annually on February 1 and August 1 each year, commencing on February 1, 2016 through August 1, 2028. The net proceeds of \$6,712,764 (net of costs of issuance of \$77,236) were restricted for repayment of the Certificates of Participation, Series 2010. As of December 31, 2018, the Fire District had an outstanding balance for the Certificates of Participation Series 2015 of \$5,375,000.

General Obligation Bonds Series 2015/ Debt Service Fund

On October 28, 2015, the District issued \$20,010,000 in General Obligation Bonds, Series 2015. The interest is payable semi-annually on June 1 and December 1 each year, commencing June 1, 2016 through December 1, 2025. The net proceeds of \$19,991,962 (net of costs of issuance of \$118, 038) were restricted to repay the general obligation bonds, Series 2006 and 2009. The 2009 bonds were repaid in 2015 and the 2006 bonds were repaid in 2016. As of December 31, 2018, the Fire District had an outstanding balance in its' General Obligation Bonds Series 2015 of \$15,685,000.

FIDUCIARY FUND ACTIVITIES:

Pension Fund

The Pension Fund was established and is continually funded to provide for the provision of retirement pension benefit for Old Hire (hired pre-February, 1977) firefighters of the District. The fund provides for the payment of benefits and the expenses of providing of those benefits. The fund is closed and contains only members receiving benefits. The primary funding source for the pension is an annual contribution from the General Fund, as designated by the Fire District Board of Directors, which is necessary to meet actuarial soundness of the fund as required by the Colorado Revised Statutes. Additional funding is derived from the interest and earnings from previously invested assets of the fund.

1. The Pension Fund investments did not accumulate substantial amounts of interest and earnings in recent years due to the economic conditions of the United States in general.
2. The Pension Fund maintained a normal course of investment activity to meet investment/earnings objectives as defined by the Board of Directors of the District.
3. Actuarial valuations are completed every other year with the most recent valuation as of December 31, 2017.

Community Foundation Fund

The North Metro Fire Rescue District Community Foundation is a 501(c) 3 Non-Profit Corporation. It was established to administer community projects including 9-11 Memorial Program, Endangered Child Decontamination Trailer Program, Child Safety Seat Program, the Community Automatic External Defibrillator Program and a community project which will help address emergency financial needs of full-time employees of the Broomfield Police Department and the North Metro Fire Rescue District who are killed or seriously injured in the line of duty and the emergency financial need of their immediate family. It has been included with the other funds of North Metro

Fire Rescue District because it is considered a “Blended Component Unit” in accordance with GASB #14.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES:

In comparison to the 2018 budget year, the 2019 budget year reflects a 6.9% increase in approved general fund expenditures. This increase is primarily due increased personnel wages and benefits. This increase will be funded by the increased property tax revenues.

- The District’s budget for **2018** reflects general property tax revenue of \$23,723,534 (based on an assessed valuation for the District of \$1,791,332,649 and a mill levy of 13.226 mills) with a budget of \$30,019,028 in 2018.
- The District’s budget for **2019** reflects general property tax revenue of \$23,987,132 (based on an assessed valuation for the District of \$1,808,512,157 and a mill levy of 13.226 mills) with a budget of \$30,752,509 in 2019.

Summary

The North Metro Fire Rescue District successfully placed into operation or completed all project or program efforts funded with the 2018 annual budget.

INDEPENDENT AUDITORS' REPORT

**Board of Directors
North Metro Fire Rescue District
Broomfield, Colorado**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the North Metro Fire Rescue District (the District) as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the North Metro Fire Rescue District, as of December 31, 2018, and the respective changes in financial position thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, General Fund budgetary comparison information, and pension plan historical information on pages i through vii and 34 through 37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The other supplementary information on pages 38 and 39 is presented for purposes of additional analysis and is not a required part of the financial statements. The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The other supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies

The accounting policies of North Metro Fire Rescue District (formerly the West Adams County Fire Protection District) conform to accounting principles generally accepted (GAAP) in the United States of America as applicable to governmental units.

The following is a summary of such significant policies:

A. Principles Determining Scope of Reporting Entity

The financial statements of the District consist only of the funds and account groups of the District.

B. Government-Wide and Fund Financial Statements

The Government-Wide financial statements (i.e. the statement of activities) report information on all of the nonfiduciary activities of the government. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues.

The Government-Wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary.

See independent auditors' report.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

The following funds were used by the District during 2018:

GOVERNMENTAL FUNDS

General Fund - This fund is used to account for general operations and for financial resources of the District, which are not accounted for in other funds. Primary sources of revenue are property taxes, ambulance fee revenue, and interest on deposits. The major expenditures by the District are for fire protection salaries, related supplies and services.

Debt Service Fund – Certificates of Participation – This fund is used to account for the payment of Certificates of Participation principal and interest. The primary source of revenue is the proceeds from the Certificates of Participation Series 2015.

Ambulance Membership Program Fund – This fund is used to account for the Ambulance Membership program and related revenues from the members and direct expenses of providing ambulance services to the members.

Debt Service Fund – This fund is used to account for the accumulation of resources for and the payment of general obligation bond principal, interest, and related costs. The primary sources of revenues are property taxes, levied specifically to retire general obligation bonds and interest on deposits.

Capital Improvements Fund – This fund is used to account for capital improvement projects of the District. The primary source of funds is transfers from the General Fund.

Absence Reserve Fund – This fund is used to accumulate funds for severance payouts, including accumulated vacation and sick leave. The primary source of funds is transfers from the General Fund.

FIDUCIARY FUNDS

Pension Trust Fund - The Pension Trust funds are used to account for assets held by the District in a trustee capacity or as an agent for former employees of the District to fund their retirement benefits. This fund is accounted for under the measurement focus discussed later.

See independent auditor's report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

Private Purpose Trust Fund - The Private Purpose Trust Fund is used to account for assets held by the District. As an expendable trust, the District may expend principal. This fund is accounted for in the same manner as other governmental funds.

Community Foundation Fund - The Community Foundation Fund is used to account for assets held by the District to administer community projects including the 9-11 memorial program. This fund is accounted for in the same manner as other governmental funds.

C. Measurement Focus and Basis of Accounting

Measurement Focus

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when the payment is due. The major source of revenue susceptible to accrual is property tax. All revenue items are considered to be measurable and available only when cash is received by the District.

The modified accrual basis of accounting is used for all governmental fund types. The following are modifications of the accrual basis method:

- 1. Expenditures other than accrued interest on general long-term debt are recognized at the same time the liabilities are incurred. Interest on long-term debt is recorded only when due.**
- 2. Revenue is recorded when received in cash except for revenue that is not received but is measurable and available and therefore susceptible to accrual.**

The accrual basis of accounting is used for reporting purposes of the Pension Trust Fund. Revenues are taken into account when they are earned, regardless of when they are collected; expenditures are reflected as soon as the liabilities are incurred, regardless of when they are paid.

See independent auditors' report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies (Continued)

D. Unearned Revenue

The District reports unearned revenues on its statement of net position. Unearned revenues arise when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Unearned revenues also arise when resources are received by the government before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

E. Property Taxes

Property taxes are levied on November 15, and attach as an enforceable lien on property the following January 1. They are payable in full by April 30, or in two equal installments due February 28 and June 15. The counties bill and collect property taxes for the District. The property tax receipts collected by the counties are remitted to the District in the subsequent month. Property taxes are reported as a receivable and as deferred revenue when levied and as revenue when collected in the following year.

F. Budgets and Budgetary Accounting

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. All annual appropriations are at total fund level and lapse at fiscal year-end.

Prior to October, the Chief submits to the Board of Directors, a proposed operating budget for the year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to December 31, the budget is legally enacted through passage of a resolution. Formal budgetary integration is employed as a management control tool during the year for the District's funds.

See independent auditors' report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies (Continued)

G. Cash and Investments

Cash includes amounts in demand deposits and short-term investments in certificates of deposits. Investments are reported at market value in the Pension Fund and at the lower of aggregate cost or market for all other funds.

H. Capital Assets

Capital assets include land, buildings, building improvements, furniture and equipment, firefighting equipment, fire engines and vehicles and all other assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. When capital assets are purchased, they are capitalized and depreciated in the government-wide financial statements. The District capitalizes all assets with a cost of \$1,000 or greater and a useful life of at least two years. Capital assets are recorded as expenditures of the current period in the government fund financial statements.

I. Encumbrances

Encumbrance accounting is not used.

J. Accrued Benefits

Accrued absences payable represents amounts earned for sick leave and vacation time but not paid or taken as of December 31, 2018.

K. Capitalized Interest

Interest incurred on the construction of fixed assets is not capitalized.

L. Inventory

Inventories are stated at the lower of cost or market using the FIFO cost method.

See independent auditors' report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies (Continued)

M. Fund Equity

The District has implemented GASB Statement No. 54, “*Fund Balance Reporting and Governmental Fund Type Definitions.*” This Statement provides clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balances transparent. The following classifications describe the relative strength of the spending constraints:

- Non-spendable fund balance—amounts that are not in non-spendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance—amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., Board of Directors). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.
- Assigned fund balance—amounts the District intends to use for a specific purpose. Intent can be expressed by the Board of directors or by an official or body to which the Board delegates the authority.
- Unassigned fund balance—amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The District’s Board establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by District’s Board through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

See independent auditors' report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Summary of Significant Accounting Policies (Continued)

M. Fund Equity (Continued)

The District considers funds as expended from restricted funds before unrestricted funds are reduced, when an expenditure can come from either category. Within unrestricted funds, the District reduces committed amounts first, followed by assigned, and unassigned last, when an expenditure can come from any of those categories.

In the general fund, the District strives to maintain a committed fund balance to be used for unanticipated emergencies of approximately twenty seven percent (27%) of the actual GAAP basis expenditures and other financing sources and uses.

Committed fund balances consist of \$9,225,753 in the General Fund for subsequent year expenditures and \$8,080,614 in the Capital Improvements Fund for future capital expenditures. Assigned fund balances consist of \$308,826 in the General Fund for future needs of the District and \$638,656 from the debt service funds for future debt service payments.

N. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Reporting Entity

In accordance with GASB No. 14, the following entities are included within the reporting entity (primary governmental unit) because of the significance of their financial relationships with the District:

See independent auditors' report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

2. Reporting Entity (Continued)

Blended Component Units

Adams County Fire Department Mutual Aid System

Blended with the Fiduciary Funds. The Adams County Fire Department Mutual Aid System is a volunteer unit for hazardous material response started in 1981 as a nonprofit entity under the laws of Colorado. In 1991, the non-profit status was dissolved, however, operations continue. The North Metro Fire Rescue District has been named trustee of the Organization. The unit meets the criteria for inclusion and has been included in the District's basic financial statements as an expendable trust. Fund balance prior to inclusion of \$160,615 has not been audited. Accordingly, no opinion is expressed on this amount.

3. Cash Deposits and Investments

The following is a reconciliation between the cash and investments recorded in the financial statements and the amounts reported in this footnote:

3. Cash Deposits and Investments (Continued)

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral determined by the PDPA. The institution is allowed to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits would not be returned to it. The District does have a deposit policy for custodial credit risk. As of year-end the District’s bank balance was either insured or collateralized with securities held by the pledging financial institution through PDPA.

A. Cash Deposits

At December 31, 2018, the District had cash balances with maturities less than one year stated at cost as follows:

Insured (Category 1)	\$ 966,862
Deposits/short-term investments	
Collateralized in single institutional pool (s)	<u>16,500,805</u>
 Total Cash Deposits	 17,467,667
 Cash on hand	 <u>1,350</u>
 Total Cash	 \$ <u>17,469,017</u>

The bank balance of the deposits listed above is classified in three categories of credit risk as follows: 1) Insured or collateralized with securities held by the entity or by its agent in the entity’s name; 2) Collateralized with securities held by the pledging financial institution’s trust department or agent in the entity’s name; 3) Uncollateralized with securities held by pledging financial institution, or by its trust department or agent but not in the entity’s name.

See independent auditors' report.

3. Cash Deposits and Investments (Continued)

B. Investments

The District's investments are categorized as either (1) insured or registered, or for which the securities are held by the District or its agent in the District's name, (2) uninsured and unregistered for which the securities are held by the counterpart's trust department or agent in the District's name or (3) uninsured and unregistered for which the securities are held by the counterpart or by its trust department or agent but not in the District's name. As of December 31, 2018, all investments are considered category 1.

Colorado statutes specify in which instruments the units of local government may invest, which include:

Repurchase Agreements,

Obligations of the United States or obligations unconditionally guaranteed by the United States, Federally insured mortgages and student loans. Participation with other local governments in pooled investment funds (trusts), these trusts are supervised by participating governments, and must comply with the same restrictions on cash deposits and investments.

Interest Rate Risk – The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value loss resulting from increasing interest rates. The Colorado revised statute 24-75-601 limits investment maturities to five years or less without governing board approval.

3. Cash Deposits and Investments (Continued)

B. Investments

Credit Risk – State law limits investments for fire districts to U.S. treasury issues, other federally backed notes and credits, and other agency offerings (not based on derivatives) without limitation. Other investment instruments including bank obligations, general obligation bonds, and commercial paper are limited to at least one of the highest rating categories of at least one nationally recognized rating agency. State law further limits investments in money market funds that are organized according to Federal Investment Company Act of 1940, as specified in rule 2a-7, as amended, as long as such rule does not increase remaining maturities beyond a maximum of three years. Investments in these funds require that the institution have assets in excess of \$1 billion or the highest credit rating from one or more nationally recognized rating agency.

4. Capital Assets

Capital assets are recorded at cost. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets, which are as follows:

Building/Improvements	10-25
Vehicles	7-25

5. Lease Purchase Agreement

On January 24, 2003, North Metro Fire Rescue Capital Finance Corporation was created. On January 1, 2003 the District entered into a Lease Purchase Agreement with the Corporation. The District conveys title to certain fire trucks and equipment of the District to the Corporation. The District then leases back the fire trucks and equipment from the corporation. The lease expenditure incurred by the General Fund and the lease revenue for the Corporation was \$616,928 for 2018. As the Corporation is reflected as a blended unit, all fixed assets owned by both the District and the Corporation are reflected in the General Fixed Asset account group. The Corporation then issued \$9,540,000 of Certificates of Participation (see Note 6) using the above noted real and personal property as collateral for the debt issued. This debt was refunded on August 1, 2010 and again on November 20, 2015 (see Note 6).

On September 1, 2010 the District entered into a Lease Purchase Agreement with UMB Bank. The District conveys title to two Fire Stations to UMB Bank. The District then leases back the Fire Stations from UMB Bank. The transactions related to the Certificates of Participation were recorded in the Capital Finance Corporation for 2011. The District made the first payment to UMB Bank on February 1, 2011. The 2003 Certificates of Participation were refunded in the amount of \$7,785,000 on August 1, 2010 using the above noted real property as collateral for the debt issued (see Note 6).

6. Long-Term Debt

The District has the authority to issue revenue obligations from the net revenue of District facilities, to enter into obligations, which do not extend beyond the current fiscal year and to incur certain other obligations. As of December 31, 2018, the District had no such outstanding financial obligations.

General Obligation Bonds Series 2015

On October 28, 2015, the District issued \$20,010,000 in General Obligation Bonds, Series 2015. The interest is payable at 2.15% semi-annually on June 1 and December 1 each year, commencing June 1, 2016 through December 1, 2025. The net proceeds of \$19,991,962 (net of costs of issuance of \$118,038) were restricted to repay the general obligation bonds, Series 2006 and 2009.

Certificates of Participation Series 2015

On November 20, 2015, the District issued \$6,790,000 in Certificates of Participation, Series 2015. Interest is payable at 2.61% semi-annually on February 1 and August 1 each year, commencing on February 1, 2016 through August 1, 2028. The net proceeds of \$6,712,764 (net of costs of issuance of \$77,236) were restricted for repayment of the Certificates of Participation, Series 2010.

Bond "Rebate Amount"

In relation to the issuance of the General Obligation Bonds, Section 148(f) of the Internal Revenue Code requires the calculation and payment of a Rebate Amount to the United States of America. This rebate amount is calculated as the excess of the amount earned on the investment of Gross Proceeds in Non-purpose Investments over the amount that would have been earned on such investments had the amount so invested been invested at a rate equal to the Bond Yield, together with any income attributable to such excess. Therefore, the rebate amount for the District will be the difference between the coupon rate paid on the General Obligation Bonds and interest rate earned on the invested proceeds from the Bonds. The rebate amount is due within 60 days after each Installment Computation Date (last day of the fifth Bond Year and each succeeding fifth bond year).

7. Restricted and Reserved Fund Equity

Through a resolution of the District's Board of Directors, fund equity has been reserved at December 31, 2018 in accordance with Article X, Section 20 of the Colorado Constitution. The total restricted and reserved fund equity was \$18,253,849 including an emergency TABOR reserve of \$777,075 and an estimate for possible excess TABOR revenues collected.

8. Pension Plans

There are two active or existing pension plans for the District's firefighters (one for full-time salaried employees). The investments for one plan are held by an outside trustee and the plan is administered by a separate trustee. The investments of the other plan are held by the District and administered by the District's Pension Board. In addition, there is a "Money Purchase Pension Plan" for general and administrative personnel, which is administered by a separate trustee. On August 16, 2005, the District's Money Purchase and "new hire" Pension Fund affiliated with the Fire and Police Pension Associations' (FPPA) Fire and Police Members' Benefit Fund under the Colorado Revised Statutes, 31-31-1101 as amended, at which time all plan assets were transferred to FPPA.

Under the FPPA affiliation agreement, the District is responsible for the collection and transmission of all contributions to the local Pension Fund. The FPPA is responsible for the physical safekeeping and investing of such contributions as well as for making the appropriate and legally authorized payments of pension benefits and other expenses of the plan. The District Pension Board is no longer responsible for administering the plan assets of the volunteer pension fund.

As of December 31, 2018, the assets and liabilities from pension plans are as follows:

	<u>Net Pension Liability/(Asset)</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>

Members attaining the age of 50 years and who have 10 years or more of credited service may retire. Upon retirement a member is eligible for a monthly pension based on his monthly salary at the date of his retirement. The minimum number of years of service to receive benefits is ten, with the participant receiving 25% of his monthly salary at retirement. The monthly percentage is 2.5% for each additional year over ten, up to a maximum of 75% at 30 or more years of service. The plan is closed to new participants.

Total covered payroll for this plan for 2018 was \$0. In 2018, the District contributions were \$500,000 towards meeting the unfunded liability.

An actuarial valuation is performed every two years to determine the pension benefit obligation. The latest available actuarial valuation was performed as of December 31, 2017. This is also the measurement date with a roll-forward to December 31, 2018. The following assumptions were used in computing the pension benefit obligation for this plan:

- (1) Rate of return on investments and discount rate 6.5%
- (2) Actuarial Method - Entry Age Normal.
- (3) Amortization Method - Level amount closed.
 Remaining period: 10 years.
- (4) Mortality: RP-2014 for Blue Collar Employees.

B. Statewide Defined Benefit Plan

All paid firefighters hired after 1978 and all full time salaried employees participate in the Statewide Defined Benefit Plan.

The District contributes to the Statewide Defined Benefit Plan, cost-sharing multiple-employer defined benefit pension plan administered by the Colorado Fire and Police Pension Association (FPPA). The Statewide Defined Benefit Plan provides retirement benefits for members and beneficiaries. Colorado statutes assign the authority to establish benefit provisions to the state legislature. FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for the System, which is available, by directly contacting the FPPA.

The financial statements of the Statewide Defined Benefit Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Plan investments are presented at fair value except for short-term investments, which are recorded at cost, which approximates fair value.

Disability and survivor benefits with respect to death and disability are funded by the State and are disbursed by FPPA according to State statute. Participants' contributions are fully refundable with simple interest of 5% upon request or termination of employment. Employer contributions remain with the plan to help provide benefits to remaining participants.

The members who were active on the effective date of entry were offered the right to select one of three options (1) participation in the Statewide Defined Benefit Plan (2) participation in the Statewide Hybrid Plan with the right to select participation in both the Defined Benefit Component and the Money Purchase Component; or (3) participation in the Statewide Hybrid Plan with the right to select participation in only the Money Purchase Component.

B. Statewide Defined Benefit Plan (Continued)

Members who were active on the effective date and chose the Statewide Benefit Plan are required by State statute to contribute 12.0% of their salary to the plan and the District matches 10.0%. Members who were active on the effective date and chose the Statewide Hybrid Plan and future members are required by State statute to contribute 10.0% of their salary to the plan and the District matches 8.0%. For the year ended December 31, 2018, covered employees contributed \$1,220,210 on a base salary of \$12,433,372. The District contributed an additional \$994,670 to the plan on covered employees' behalf.

The following is based on an actuarial study completed as of January 1, 2018. The measurement date is December 31, 2017. The following assumptions were used in computing the pension benefit obligation for this plan:

- (1) Rate of return on investments and discount rate 7.5%
- (2) Actuarial Method - Entry Age Normal.
- (3) Amortization Method - Level % of payroll, Open.
 Remaining period: 30 years.
- (4) Mortality: RP-2014 Mortality Tables for Blue Collar Employees.
- (5) Projected earnings increases for all ages due to

9. Deferred Compensation Plan

The District offers a deferred compensation plan, administered by two different companies effective August 2010, which was created in accordance with Internal Revenue Code Section 457. The plan, available to all District employees, permits them to defer a portion of their salary until future years. The District will match a non-probationary employee's contribution toward that individual employee's account. The Plan allows the District up to a maximum of 2% of the employees' base pay. For the year ended December 31, 2018 the District contributed \$141,768 on a base salary of \$7,088,400.

All property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) held in the Deferred Compensation Plan Trusts for exclusive benefit of the participants and their beneficiaries. The District has no ownership interest in the plan nor is the District liable for losses under the deferred compensation plan.

10. Accrued Absences

The personnel policies of the District provide for the accrual of sick leave and unused vacation time. As of December 31, 2018, the total liability for accrued absences is \$3,665,113.

11. Risk Management

The District is exposed to various risks of loss related to torts; damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

12. Adams County Communications Center, Inc.

The District is a participant in an intergovernmental agreement with Adams County Communications Center, Inc., (ADCOM), for the provision of emergency communication services ("911") throughout Adams County. Communication service fees paid by the District to ADCOM during 2018 were \$324,189.

The Center's financial statements at December 31, 2018, and for the year then ended, are issued under separate cover and are available from the Center.

13. City and County of Broomfield Communications Center

The District is a participant in an intergovernmental agreement with the City and County of Broomfield, for the provision of Fire Services Emergency Communication Services throughout the City and County of Broomfield. Fees paid by the District to Broomfield during 2018 were \$552,579.

14. Waterline Agreements

The District has constructed a waterline to the District's Training Center in order to receive water services from the City and County of Broomfield at a total cost of \$1,385,821.

The development of the project included, with approval of all parties, constructing the waterline on properties of unrelated third parties. The District has entered into three separate reimbursement agreements with these parties. These agreements call for the contracted parties to reimburse the District for construction costs associated with the development/construction of the waterline on their properties as development of their properties occur. The District has also entered into a reimbursement agreement with a local Church who has agreed to reimburse the District \$50,000 of the approximate \$102,000 waterline construction costs. These funds were received in April 2010.

In June 2011, the District and the City and County of Broomfield entered into a reimbursement agreement which will cover the costs incurred by the District for the portions of the Waterline on Broomfield Property. The agreement will allow for the County to reimburse the District the tap fees collected for taps on the waterline constructed by the District.

The District received \$249,604 from the City and County of Broomfield during 2018 as reimbursement for tap fees collected on the waterline.

15. Tax, Spending and Debt Limitations

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The District's financial activity provides the basis for calculation of limitations adjusted for allowable increases tied to inflation and local growth. Fiscal year spending is generally defined as expenditures plus reserve increases with certain exceptions. In effect, it has been generally interpreted that fiscal year spending approximates nonexempt revenue or receipts.

See independent auditors' report.

**NORTH METRO FIRE RESCUE DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

15. Tax, Spending and Debt Limitations (Continued)

Spending excludes spending from certain revenue and financial sources such as federal funds, gifts, property sales, fund transfers, damage awards, and fund reserves. The Amendment requires, with certain exceptions, voter approval prior to imposing new taxes, increasing tax rates, increasing a mill levy above that for the prior year, extending an expiring tax, or implementing a tax policy change directly causing a net tax revenue gain to any local government. The District levied 14.710 mills for property taxes to be collected in 2018. In November 2014, the voters approved a mill levy increase of 3.5 mills.

Except for bond refinancing at lower interest rates or adding employees to existing pension plans, the Amendment specifically prohibits the creation of multiple-fiscal year debt or other financial obligations without voter approval or irrevocably pledging present cash reserves for all future payments.

The Amendment requires that Emergency Reserves be established. These reserves must be at least 3 percent of Fiscal Year Spending (excluding bonded debt service). Emergency reserves as of December 31, 2018 totaling \$777,075 have been included as a restriction of fund balance in the following funds: General Fund. The District is not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary, or benefit increases.

On May 2, 2000, District voters approved a ballot issue removing the related revenue and spending limitations of the TABOR Amendment without raising the existing mill levy of the District effective January 1, 2000 and continuing thereafter, as may be provided by law, for the purposes of capital construction and general operation purposes.

The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the amendment. However, the District has made certain interpretations in the amendment's language in order to determine its compliance.

16. Due to/from Other Funds

As of December 31, 2018, the Ambulance Fund owes the General Fund \$12,559 for member ambulance usage. The General Fund owes the Capital Improvements Fund \$670,438 for transfers owed to the Capital Improvements Fund. In addition, the General Fund owes the Debt Service Fund \$111 for property taxes received by the General Fund.

For the year ended December 31, 2018, the District issued a resolution to appropriate additional funds from existing reserves of the Ambulance Membership Fund totaling \$15,200, to account for an increase in costs.

18. Subsequent Events

In accordance with Governmental Accounting Standards Board Statement 62, management has evaluated, through the date the financial statements are issued or are available to be issued, events or transactions that may require recognition or disclosure in the financial statements. The District's financial statements were available to be issued on the date of the Independent Auditors' Report, and this is the date through which subsequent events were evaluated.
