INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the business activities and each major fund of the Willows Water District, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business activities and each major fund of the Willows Water District as of and for the year ended, as of December 31, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Willows Water District' basic financial statements. The individual fund financial statement listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statement is fairly stated in all material respects in relation to the financial statements as a whole.

WILLOWS WATER DISTRICT

MANAGEMENT DISCUSSION AND ANALYSIS

This section of the Willows Water District's (the District) annual financial report presents our analysis of the District's financial performance during the fiscal year ended December 31, 2018. Please read it in conjunction with the financial statements.

1. Financial Highlights

The District's net position decreased by \$108,222 due primarily to an increase in operating expenses related to: 1) additional service lines replaced under the District's annual service line replacement project; and 2) the Willow Creek water line lowering project.

2. Overview of the Financial Statements

The annual report consists of three parts:

- Management's Discussion and Analysis
- Financial Statements
- Supplementary Information

3. Required Financial Statements

The financial statement of net position provides information about the District using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities.

Statement of Net Position

The statement of net position provides information about the nature and amounts of investments in resources (assets) and obligations to District creditors (liabilities). It also provides the basis for computing the rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District.

Statement of Revenues, Expenses and Changes in Net Position

This statement measures the results of the District's operations over the past year and may be used to determine profitability, credit worthiness, and whether the District has successfully recovered all its costs through its user fees, taxes and other charges.

WILLOWS WATER DISTRICT

Management's Discussion and Analysis (*Continued*)

Statement of Cash Flows

The final required financial statement is the statement of cash flows. The primary purpose of this statement is to provide information about the District's cash receipts and payments during the reporting period. This statement reports cash receipts, cash payments, and the net changes in cash resulting from operations, non-capital financing, capital related financing, and investing activities. It also provides answers to such questions as where did the cash come from, how was cash used, and what was the change in cash balance during the reporting period.

4. Financial Analysis Of The District

One of the most important questions asked about the District's finances is "Is the District as a whole better off or worse off as a result of this year's activities?". The statement of net position and statement of revenues, expenses, and changes in net position report information about the District's activities in a way that can help answer that question. These two statements report the net position of the District and the related change in these assets. The District's net position (the difference between assets and liabilities) is one way to measure financial health or financial position. Over time, increases in the District's net position, is one indicator that the District's financial health is improving. However one will need to consider other non-financial factors such as changes in economic conditions, population growth, or changed governmental legislation.

5. Net Position

As part of our analysis, we provide a summary of the District's statement of net position (on the next page):

WILLOWS WATER DISTRICT

Management's Discussion and Analysis (*Continued*)

Condensed Statement of Net Position

			2018 - 2017 Change	
	2018	2017	\$	%
Current & Other Assets	\$ 10,990,690	\$ 10,828,946	\$ 161,744	1.49%

The accompanying notes are an integral part of the financial statements.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Willows Water District (the “District”) is a Colorado governmental unit operating in accordance with Colorado statute. The District was established to provide water services to customers located within its boundaries.

The accounting policies of the District conform to generally accepted accounting principles as applicable to governments. Following is a summary of the more significant policies.

Reporting Entity

In accordance with governmental accounting standards, the District has considered the possibility of inclusion of additional entities in its basic financial statements.

The definition of the reporting entity is based primarily on financial accountability. The financial reporting entity consists of the District and organizations for which the District is financially accountable. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the District. In addition, any legally separate organizations for which the District is financially accountable are considered part of the reporting entity. Financial accountability exists if the District appoints a voting majority of the organization’s governing board and is able to impose its will on the organization, or if the organization provides benefits to, or imposes financial burdens on the District.

Based on the application of these criteria, the District does not include additional organizations in its reporting entity.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The District uses one fund to report on its financial position and activities. Fund accounting is designed to segregate transactions related to certain government functions and activities. The District’s fund is classified as an enterprise fund type. Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
(Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and the unrestricted resources as they are needed.

The District reports all activity in one enterprise fund which is a proprietary fund type. This fund is considered a major fund.

Assets, Liabilities and Fund Balance/Net Position

Cash and Cash Equivalents – Cash and cash equivalents include amounts in deposit accounts and short-term investments with an original maturity of three months or less.

Receivables – Receivables consist of amounts owed to the District by its utility customers. It is the District's policy to file liens on any past due user fees, therefore amounts are considered to be collectible and no allowance for bad debt has been recorded.

Prepaid Expenses – Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in the statement of net position.

Capital Assets – Capital assets, which include property and equipment, are reported in the applicable business-type activities columns in the statement of net position. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Fund Balance/Net Position (Continued)

Property and equipment of the District is depreciated using the straight - line method over the following estimated useful lives:

Water System	40 years
Buildings	30 years
Machinery and Equipment	3 years

Net Position – The business-type fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted. Net investment in capital assets is intended to reflect the portion of net position which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost. Restricted net position are liquid assets, which have third party limitations on their use. Unrestricted net position represents assets that do not have any third-party limitations on their use.

Deferred Outflows/Inflows of Resources – In addition to assets, the statement of financial position and balance sheets will sometimes report a separate section for deferred outflows or resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position and balance sheets will sometimes report a separate section for deferred inflows or resources. This separate financial statement element, deferred inflow of resources, represents an acquisition of net position and fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Property Taxes – Property taxes are levied in the current year and collected in the subsequent year have been accrued as a receivable at year-end and deferred until collected. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15.

The County in which the District is located collects taxes for the district and remits them by the 10th every month following the month of collection.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Fund Balance/Net Position (Continued)

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District purchases commercial insurance for these risks of loss. Settled claims have not exceeded insurance coverage in the last three years.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- In October, the District staff submits to the District Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to December 15, the budget is legally enacted through passage of a resolution.
- Any revisions that alter the total expenditures of any fund must be approved by the District Board of Directors.
- Budgets are legally adopted for the enterprise fund of the District. The Budgetary comparison presented for the District is presented on a non-GAAP budgetary basis. Capital outlay and debt payments are budgeted as expenditures. Depreciation expense is not budgeted.
- Budgeted amounts in the financial statements are as originally adopted or as amended by the District Board of Directors. All appropriations lapse at year end. Colorado governments may not exceed budgeted appropriations at the fund level.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 3: DEPOSITS AND INVESTMENTS

Deposits

A summary of deposits and investments as of December 31, 2018 follows:

Petty Cash	\$	2,000
Cash Deposits		1,797,667
Investments		<u>7,773,434</u>
Total	\$	<u>9,573,101</u>

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At December 31, 2018, State regulatory commissioners have indicated that all financial institutions holding deposits for the District are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held.

The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

The District participates in the Insured Cash Sweep Account or Certificate of Deposit Account Registry Service (CDARS). Under CDARS, any deposits in excess of the \$250,000 are distributed to other FDIC eligible banks; therefore, at December 31, 2018 the District had deposits with financial institutions with a carrying amount of \$1,797,667. The bank balances with the financial institutions were \$1,921,931. All of the District's cash deposits and certificates of deposit were fully insured by FDIC.

The District has no policy regarding custodial credit risk for deposits. However, the District does follow the policies required by the State of Colorado regarding custodial credit risk.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District does follow the policies required by the State of Colorado regarding types of investments and maturity dates.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 3: DEPOSITS AND INVESTMENTS (Continued)

Credit Risk

Colorado statutes specify in which instruments units of local government may invest, which include:

- Obligations of the United States and certain U.S. Government Agency securities
- General obligation and revenue bonds of U.S. local government entities
- Local government investment pools
- Certain money market funds
- Guaranteed investment contracts

Investments

As of December 31, 2018, the District had the following investments and maturities:

<u>Type of Investment</u>	<u>Fair Value</u>	<u>Maturities (in Years)</u>	
		<u>0 – 1 Years</u>	<u>1 – 5 Years</u>
U.S. Government Obligations	\$ 5,859,277	\$ 4,860,683	\$ 998,594
Domestic Corporate Securities	66,078	66,078	-
ColoTrust	<u>1,848,079</u>	<u>1,848,079</u>	<u>-</u>
Total	<u>\$ 7,773,434</u>	<u>\$ 6,774,840</u>	<u>\$ 998,594</u>

The above investments are authorized for all funds and fund types used by Colorado local governments. As of December 31, 2018, the District's U.S. Government Obligations are rated AA+ by Standard and Poor's and Aaa by Moody's Investors Services and its Domestic Corporate Securities are rated A- by Standard and Poor's and Baa by Moody's Investors Services

The District had invested \$1,848,079 in the Colorado Government Liquid Asset Trust (ColoTrust) which has a credit rating of AAAm by Standard and Poor's. ColoTrust is an investment vehicle established for local government entities in Colorado to pool surplus funds and is regulated by the State Securities Commissioner. It operates similarly to a money market fund and each share is equal in value to \$1.00. Investments consist of U.S. Treasury and U.S. Agency securities, and repurchase agreements collateralized by U.S. Treasury and U.S. Agency securities. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Substantially all securities owned are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the entities.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 3: DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

ColoTrust is not a 2a7-like external investment pool. The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. The government-investor does not "look through" the pool to report a pro rata share of the pool's investments, receivables, and payables.

Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant observable inputs.

At December 31, 2018, the District held investments in U.S. Agency Securities and Domestic Corporate Securities in the amount of \$5,925,355 with maturity dates of less than one and three years. Given the low risk of these type of investments, the District has not established a policy limiting the amount of investments in this type of security and deems it unnecessary at this time. These investments are valued with Level 1 inputs.

NOTE 4: CAPITAL ASSETS

Capital Assets activity for the year ended December 31, 2018, is summarized below.

	Balance <u>12/31/17</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>12/31/18</u>

NOTE 5: BENEFITS PLAN

The District maintains an Internal Revenue Code Section 401(a) money purchase pension plan for all full-time employees. The balance of these funds was \$542,960 and \$544,969 at December 31, 2018 and 2017, respectively. This is a single-employer, defined contribution plan.

The District contributes amounts equaling 9% of each participating employee's salary annually.

Covered payroll for the years ended December 31, 2018 and 2017 is \$480,275 and \$462,840, respectively. Total payroll for the years ended December 31, and 2018 and 2017 is \$506,536 and \$463,806, respectively. Employer contributions vest as follows:

Years Of Service	Percentage Vested
1	0%
2	0%
3	50%
4	75%
5	100%

Accounts may be withdrawn only upon retirement, death, disability or termination of employment. Nonvested employer contributions are applied toward future employer contributions. The Board of Directors may amend the plan provisions.

The District made the required contributions of \$43,225 and \$41,655 for the years ended December 31, 2018 and 2017, respectively.

WILLOWS WATER DISTRICT

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2018

NOTE 6: COMMITMENTS AND CONTINGENCIES

Denver Water Agreement - Read and Bill Distributors Contract (C233)

In 1981, the District entered into an agreement with the Board of Water Commissioners of the City of Denver to supply water to the Highlands 460 Subdivision. On August 8, 1995, this agreement was superseded by Water Service Agreement (RB233), which has essentially the same terms and conditions as the prior contract, but conforms to the new standardized forms now being used by Denver Water with all read-and-bill distributors. The assets related to these agreements totaled \$5,177,262 at December 31, 2018.

Denver Water Agreement – Master Meter Contract (MM240)

The District entered into a Water Service Agreement under which the Board will supply all of the potable water within the District's contract service area. As part of this agreement, the District must pay tap fees to the Board. The District has capitalized these tap fees. These fees are reported as system development charges.

Tabor Amendment

In November 1992, Colorado voters passed the Tabor Amendment to the State Constitution, which limits state and local government tax powers and imposes spending limitations. Fiscal year 1993 provides the basis for limits in future years to which may be applied allowable increases for inflation and student enrollment. Revenue received in excess of the limitations may be required to be refunded. On November 5, 2002, voters approved a ballot referendum to exempt the District from limitations imposed by TABOR.

The District has established an emergency reserve, representing 3% of qualifying expenditures, as required by the Amendment. At December 31, 2018, the emergency reserve of \$450,919 was recorded in the General Fund.

NOTE 7: PRIOR PERIOD ADJUSTMENT

During the year, it was determined that the District owned shares of domestic corporate securities that were not previously reported. To correct this error, the beginning net position of the Proprietary Fund of \$49,886,866, as originally reported, has been increased by \$105,557 to \$49,992,423 to reflect the fair market value of the securities as of December 31, 2017.
