INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Meeker Regional Library District

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Meeker Regional Library District, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Meeker Regional Library District, as of December 31, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 13 to the financial statements, the District adopted the provision of GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans* and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, which has resulted in a restatement of net position as of January 1, 2018. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, schedule of the District's contributions – PERA pension plan, schedule of District's proportionate share of the net OPEB liability, and schedule of District contributions – PERA pension and OPEB plan on pages 3-6 and 41-46 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT DISCUSSION AND ANALYSIS

The discussion and analysis of the Meeker Regional Library District's (the "District") financial performance provides readers with an overall review of the financial activities of the District for the year ended December 31, 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

- The District's assets and deferred outflows exceeded liabilities and deferred inflows by \$12,377,242 at December 31, 2018.
- Total District's cash and investments increased by \$1,072,712 or 12 percent from 2017.
- The December 31, 2018 General Fund balance is \$1,071,885 more than the previous year. The total fund balance is 3,041 percent of 2018 General Fund operating expenditures.

USING THIS ANNUAL REPORT

This Annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand the District as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at our specific financial conditions.

The Statement of Net Position and Statement of Activities provides information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those assets. The Statement of Activities shows a net (expense) revenue and changes to net position related to each department of the District. Fund financial statements tell how services were financed in the short-term as well as what dollars remain for future spending.

OVERVIEW OF THE DISTRICTS FINANCIAL STATEMENTS

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances. The Statement of Net Position and Statement of Activities include all assets and liabilities using the accrual basis of accounting similar to the accounting method used by the private sector. The basis for this accounting takes into account all of the year's revenues and expenses regardless of when the cash was received or paid.

These two statements report the District's net position and the changes in those positions. This change in position is important because it tells the reader whether, for the District as a whole, the financial position of the District has improved or diminished. However, in evaluating the overall position of the District, non-financial information such as changes in the District's tax base and the condition of District capital assets will also need to be evaluated.

In the Statement of Net Position and Statement of Activities, all of the District's activities are reported as Governmental Activities.

Fund Financial Statements

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19 through 39 of this report.

Budgetary Comparisons. The District adopts an annual appropriated budget for the General Fund. A budgetary comparison schedule has been provided for the General Fund on pages 41 and 42 of this report.

REPORTING THE DISTRICT AS A WHOLE

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position.

The following table provides a summary of the District's net position for 2017 and 2018.

	Governmental Activities	
	2017	2018
Assets		
Current and other assets	\$ 10,094,048	\$ 11,167,869
Capital assets	2,746,830	2,685,740
Total assets	<u>12,840,878</u>	<u>13,853,609</u>
Deferred Outflows	<u>78,475</u>	<u>45,599</u>
Liabilities		
Current and other liabilities	7,160	7,987
Noncurrent liabilities	287,681	274,941
Total Liabilities	<u>294,841</u>	<u>282,928</u>
Deferred Inflows	<u>1,190,385</u>	<u>1,239,038</u>
Net Position		
Net investment in capital assets	2,746,830	2,685,740
Restricted	43,584	43,926
Unrestricted	8,643,713	9,647,576
Total net position	<u>\$ 11,434,127</u>	<u>\$ 12,377,242</u>

A significant portion of the District's position represents unrestricted net position of \$9,647,576 which may be used to meet the ongoing obligations to patrons and creditors.

Another significant portion of the District's net position reflects its investment in capital assets. These assets include land, buildings, and equipment. These capital assets are used to provide services to patrons; consequently, they are not available for future spending.

An additional \$43,926 of the District's net position represents resources that are subject to external restrictions on how they may be used. Included in this category is the TABOR emergency reserve of \$43,926.

The following table indicates the changes in net position.

	Governmental Activities	
	2017	2018
Revenues:		
Program revenues:		
Charge for services	\$ 5,452	\$ 3,457
Operating grants and contributions	7,990	-
General revenues:		
General property taxes	1,287,793	1,218,669
Specific ownership tax	46,206	46,959
Other income	105,357	195,129
Total revenues	1,452,798	1,464,214
Expenses:		
General administration	288,795	317,769
Treasurers Fees	64,819	61,385
Depreciation	122,199	122,199
Total expenses	475,813	501,353
Change in accounting principles	-	(19,746)
Increase in net position	\$ 976,985	\$ 943,115

Governmental Activities. Governmental activities increased the District's net position by \$943,115 in 2018. Key elements of this increase are as follows:

Several revenue sources fund the District. Property tax is the biggest contributor, accounting for 83 percent of gross revenue. This comes from a 2.032 Mill Levy for the General Fund. Total Property taxes were \$1,218,669, down 5 percent from the prior year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUND

Information about the District's governmental fund begins on page 13. This fund is accounted for using the modified accrual basis of accounting.

As of December 31, 2018, the total fund balance of the District's governmental fund was \$9,969,220. Approximately 99 percent of this consists of unassigned fund balance, which is available as working capital and for current spending in accordance with the purposes of the District. The remainder of fund balance is reserved to indicate that it is not available for new spending because it is restricted for the following purposes: a state-Constitution mandated emergency reserve of \$43,926. The District had Governmental revenues of \$1,464,214 and expenditures of \$392,329.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to Colorado statutes.

2018 General Fund Budget

	<u>Original Budget</u>	<u>Amend- ments</u>	<u>Final Budget</u>	<u>Actual</u>
Beginning Fund Balance	\$ 8,897,335	\$ -	\$ 8,897,335	\$ 8,897,335
Revenue and other financing sources	1,231,853	-	1,231,853	1,464,214
Expenditures and other financing uses	(1,189,553)	-	(1,189,553)	(392,329)
Ending Fund Balance	<u>\$ 8,939,635</u>	<u>\$ -</u>	<u>\$ 8,939,635</u>	<u>\$ 9,969,220</u>

A detailed budget comparison schedule is provided on pages 41 and 42 of the audit.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets for its governmental type activities as of December 31, 2018 totaled \$2,685,740 (net of accumulated depreciation). This investment includes all land, buildings, and equipment. The total decrease in investment in capital assets for the current year was \$61,090.

Major capital purchases for the year include expenditures of \$8,070 for 8 laptop computers and \$46,224 for books and publications.

The District uses the straight-line depreciation method under GASB 34 for its capital assets, except for land which is not depreciated.

Long-term Debt. As of December 31, 2018, the District had no long-term debt.

ECONOMIC FACTORS AND OTHER MATTERS

Other Matters. The following factors are expected to have a significant effect on the District's financial position and results of operations and were taken into account in developing the 2019 budget:

- A slight increase in anticipated general property tax collection for 2019 of less than 1 percent.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided or for additional financial information should be addressed to the Meeker Regional Library District, 490 Main Street, Meeker, Colorado 81641.

MEEKER REGIONAL LIBRARY DISTRICT

**RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2018**

NET CHANGE IN FUND BALANCE - GOVERNMENTAL FUND	\$ 1,071,885
<i>Amounts reported for governmental activities in the statement of net activities are different because:</i>	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$125,576) was more than capital outlay (\$64,487) in the current period.	(61,089)
Governmental funds report District pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	(47,156)
Governmental funds recognize District OPEB contributions as expenditures at the time of payment whereas the Statement of Activities factor in items related to OPEB on a full accrual perspective.	<u>(779)</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u>\$ 962,861</u>

The accompanying "Notes to Financial Statements" are an integral part of this statement.

PAGE INTENTIONALLY LEFT BLANK

NOTES TO FINANCIAL STATEMENTS

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS December 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Meeker Library District (the District) conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies consistently used in the preparation of the financial statements.

A. Reporting Entity

An elected five member Board of Directors governs the District. No additional separate government units, agencies, or nonprofit corporations are included in the financial statements of the District as component units. Component units are legally separate entities for which the District is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the District's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on the District.

The District's major operation is managing and maintaining the Library.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately for business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applications who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Governmental Funds

General Fund

The General Fund is the District's general operating fund and is used to account for all financial transactions except those required to be accounted for in another fund. The major revenue sources are local property taxes and charges for services. Expenditures include all costs associated with the daily operations of the District.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

C. Measurement focus, basis of accounting, and financial statement presentation, continued

When both restricted and unrestricted revenues are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

1. Prior to the first Board meeting in October, the Director submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain the taxpayers' comments.
3. Prior to December 15, the budget is legally enacted through passage of a resolution.
4. Formal budgetary integration is employed as a management control device during the year.
5. Budgets are adopted for the General Fund. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
6. Appropriations lapse at the end of each calendar year.
7. The District's directors may authorize supplemental appropriations during the year. There was no supplemental appropriation made during the year ended December 31, 2018.
8. Actual expenditures did not exceed budget amounts in the General Fund for the year ended December 31, 2018.

E. Use of Estimates

The preparation of the governmental funds financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F. Capital Assets and Infrastructure

Capital assets, which include property, plant and equipment, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$500 and an estimated life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated market value at the date of donation. The District does not have infrastructure.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Building and Building Improvements	20-39
Books and Equipment	7-10

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

- A. There are certain differences between the governmental fund balance sheet and the government-wide statement net position. A reconciliation of the differences can be found on page 14 of the financial statements.
- B. There are certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities. A reconciliation of the differences can be found on page 16 of the financial statements.

NOTE 3 - CASH AND INVESTMENTS

The District’s bank accounts and certificates of deposit at year-end were entirely covered by federal depository insurance or by collateral held by the Authority’s custodial banks under provisions of the Colorado Public Deposit Protection Act.

The Colorado Public Deposit Protection Act requires financial institutions to pledge collateral having a market value of at least 102% of the aggregate public deposits not insured by federal depository insurance. Eligible collateral included municipal bonds, U.S. government securities, mortgage, and deeds of trust.

State statutes authorize the Authority to invest in obligations of the U.S. Treasury and U.S. agencies, obligation of the State of Colorado or of any county, school, authority, and certain town and cities therein, notes or bonds secured by insured mortgages or trust deeds, obligations of national mortgage associations, and certain repurchase agreements.

The District’s investment policy is not more restrictive than State statutes. The District’s investments are concentrated in local government investment pools, U.S. government and agency securities, and bank CDs.

Colorado Revised Statutes limit investment maturities to five years or less from the date of purchase. This limit on investment maturities is a means of limiting exposure to fair value arising from increasing interest rates.

Investments for the District are reported at market value. Investments held are as follows:

	<u>Fair Value</u>	<u>Cost</u>
December 31, 2018		
COLOTRUST	<u>\$ 9,243,124</u>	<u>\$ 9,243,124</u>
Total	<u>\$ 9,243,124</u>	<u>\$ 9,243,124</u>

The District has invested \$9,243,124 in the Colorado Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local government entities in Colorado to pool surplus funds. COLOTRUST operated similarly to a money market fund and each share is equal in value to \$1.00. Investments of COLOTRUST consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank provides safekeeping and depository services to COLOTRUST in connection with the direct investment and withdrawal function of COLOTRUST. Substantially all securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by COLOTRUST. At December 31, 2018 the District’s investment in the COLOTRUST was rated AAAM by Standard & Poor’s.

Colotrust		<u>9,243,124</u>
Total Cash, Cash Equivalents and Investments		<u>\$9,977,207</u>

NOTE 4 - PROPERTY TAX

Property taxes for 2018, collectible in 2019, were levied by the County Commissioners on December 15, 2018. Property taxes attached as an enforceable lien on January 1, 2019, are due in total April 30, 2019, or in equal installments February 28, 2019, and June 15, 2019, at the option of the taxpayer. The County Treasurer remits taxes collected to the District by the 10th day of the month following collection.

Property taxes for 2018, collectible in 2019, are shown as property taxes receivable and unearned revenue on the balance sheet in the amount of the assessed taxes less estimated uncollectible amounts.

	<u>Assessed Valuation</u>	<u>Mill Levy</u>	<u>Estimated Percent Collectible</u>	<u>Taxes Receivable</u>	<u>Unearned Revenue</u>
General Fund	\$585,955,630	2.032	100.00%	\$1,190,662	\$1,190,662

Revenue Recognized in 2018

Local property taxes levied for 2017 and collected in 2018 are recognized as revenue in these financial statements as shown below:

	<u>Assessed Valuation</u>	<u>Mill Levy</u>	<u>Amount of Taxes</u>		<u>Percent Collected</u>
			<u>Levied</u>	<u>Collected</u>	
General Fund	\$585,410,040	2.032	\$ 1,189,553	\$ 1,189,254	99.97%

NOTE 6 - DEFINED BENEFIT PENSION PLAN

Summary of Significant Accounting Policies

Pensions. The Meeker Regional Library District participates in the Local Government Division Trust Fund (LGDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net pensions liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the LGDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years.* Governmental accounting standards require the net pension liability and related amounts of the LGDTF for financial reporting purposes be measured using the plan provision in effect as of the LGDTF's measurement date of December 31, 2017. As such, the following disclosures do not include the changes to plan provision required by SB 18-200 with the exception of the section titled *Changes between the measurement date of the net pension liability and December 31, 2018.*

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

General Information about the Pension Plan

Plan description. Eligible employees of the Meeker Regional Library District are provided with pensions through the Local Government Division Trust Fund (LGDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided as of December 31, 2017. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2017, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the LGDTF.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

General Information about the Pension Plan, continued

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of December 31, 2018. Eligible employees and Meeker Regional Library District are required to contribute to the LGDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	Rate
Employer Contribution Rate ¹	10.00%
Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f) ¹	(1.02)%
Amount Apportioned to the LGDTF ¹	8.98%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	2.20%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	1.50%
Total Employer Contribution Rate to the LGDTF¹	12.68%

¹Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the LGDTF in the period in which the compensation becomes payable to the member and the Meeker Regional Library District is statutorily committed to pay the contributions to the LGDTF. Employer contributions recognized by the LGDTF from Meeker Regional Library District were \$199,880 for the year ended December 31, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2018, the Meeker Regional Library District reported a liability of \$252,066 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total pension liability to December 31, 2017. The Meeker Regional Library District proportion of the net pension liability was based on Meeker Regional Library District contributions to the LGDTF for the calendar year 2017 relative to the total contributions of participating employers to the LGDTF.

At December 31, 2017, the Meeker Regional Library District proportion was 0.02265 percent, which was an increase of 0.00135 from its proportion measured as of December 31, 2016.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, continued

For the year ended December 31, 2018, the Meeker Regional Library District recognized pension expense of \$47,156. At December 31, 2018, the Meeker Regional Library District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	15,778	-
Changes of assumptions or other inputs	2,664	-
Net difference between projected and actual earnings on pension plan investments	-	49,024
Changes in proportion and differences between contributions recognized and proportionate share of contributions	8,548	(1,035)
Contributions subsequent to the measurement date	15,872	N/A
Total	42,862	47,989

\$15,872 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	
2019	20,051
2020	(5,043)
2021	(17,829)
2022	(18,178)
2023	-
Thereafter	-

December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, continued

Actuarial assumptions. The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 - 10.45 percent
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07; and DPS Benefit Structure (automatic)	2.00 percent
PERA Benefit Structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriated margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 Health Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuation were based on the results of the 2016 experience analysis for the period January 1, 2012 through December 31, 2015, as well as the October 28, 2016, actuarial assumption workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentation to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumptions for the LGDTF, including long-term historical data, estimates inherent in current market data, and long-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, continued

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity - Large Cap	21.20%	4.30%
U.S. Equity - Small Cap	7.42%	4.80%
Non U.S. Equity - Developed	18.55%	5.20%
Non U.S. Equity - Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non US Fixed Income - Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above in addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consist of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service cost for future plan members.
- Employee contributions were assumed to be made at rates equal to the fixed statutory rates specified in law, including current and future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions, continued

- The AIR balance was excluded from the initial fiduciary net position, as, per statute. AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriated. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payment and contributions were assumed to be made at the end of the month.

Based on the above actuarial cost method and assumptions, the LGDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the Meeker Regional Library District proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net pension liability	401,689	252,066	127,598

Pension plan fiduciary net position. Detailed information about the LGDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Changes between the measurement date of the net pension liability and December 31, 2018.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next 30 years.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 6 - DEFINED BENEFIT PENSION PLAN, Continued

Changes between the measurement date of the net pension liability and December 31, 2018, continued

A brief description of some of the major changes to plan provisions required by SB 18-200 are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

- Increases employee contribution rates by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, modifying the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the state, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.
- Expands eligibility to participate in the PERA DC Plan to new members hired on or after January 1, 2019, in the Local Government Division. Beginning January 1, 2021, and every year thereafter, employer contribution rate for the LGDTF will be adjusted to include a defined contribution supplement based on the employer contribution amount paid to defined contribution plan participant accounts that would have otherwise gone to the defined benefit trusts to pay down the unfunded liability plus any defined benefit investment earnings thereon.

At December 31, 2018, the Meeker Regional Library District reported a liability of \$252,066 for its proportionate share of the net pension liability which was measured using the plan provisions in effect as of the pension plan's year-end based on a discount rate of 7.25%. For comparative purposes, the following schedule presents an estimate of what the Meeker Regional Library District proportionate share of the net pension liability and associated discount rate would have been had the provisions of SB 18-200, applicable to the LGDTF, become law on December 31, 2017. This pro forma information was prepared using the fiduciary net position of the LGDTF as of December 31, 2017. Future net pension liabilities reported could be materially different based on changes in investment markets, actuarial assumptions, plan experience and other factors.

Estimated Discount Rate Calculated Using Plan Provisions Required by SB 18-200 (pro forma)	Proportionate Share of the Estimated Net Pension Liability Calculated Using Plan Provisions Required by SB 18-200 (pro forma)
7.25%	\$178,393

NOTE 7 – DEFINED CONTRIBUTION PENSION PLANS

Voluntary Investment Program

Plan Description – Employees of the Meeker Regional Library District that are also members of the LGDTF may voluntarily contribute to the Voluntary Investment Program, and Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended. Assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Program. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. In addition, the District has agreed to match employee contributions up to 1% of covered salary as determined by the Internal Revenue Service. Employees are immediately vested in their own contributions, employer contribution and investment earnings. For the year ended December 31, 2018, the program members contributed \$10,650 and the District recognized pension expense of \$1,252 for the Volunteer Investment Program.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS December 31, 2018

NOTE 8 – DEFINED BENEFIT OTHER POSTEMPLOYMENT (OPEB) PLAN

Summary of Significant Accounting Policies

OPEB. Meeker Regional Library District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Plan description. Eligible employees of the Meeker Regional Library District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS December 31, 2018

NOTE 8 – DEFINED BENEFIT OTHER POST EMPLOYMENT (OPEB) PLAN, Continued

General Information about the OPEB Plan, continued

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Meeker Regional Library District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from Meeker Regional Library District were \$1,277 for the year ended December 31, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2018, the Meeker Regional Library District reported a liability of \$22,875 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2017. The Meeker Regional Library District proportion of the net OPEB liability was based on Meeker Regional Library District contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF.

At December 31, 2017, the Meeker Regional Library District proportion was 0.00176 percent, which was an increase of 0.00012 from its proportion measured as of December 31, 2016.

NOTE 8 – DEFINED BENEFIT OTHER POST EMPLOYMENT (OPEB) PLAN, Continued

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB, continued

For the year ended December 31, 2018, the Meeker Regional Library District recognized OPEB expense of \$779. At December 31, 2018, the Meeker Regional Library District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	108	-
Changes of assumptions or other inputs	-	-
Net difference between projected and actual earnings on OPEB plan investments	-	383
Changes in proportion and differences between contributions recognized and proportionate share of contributions	1,352	4
Contributions subsequent to the measurement date	1,277	N/A
Total	2,737	387

\$1,277 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended December 31:	
2019	191
2020	190
2021	190
2022	190
2023	286
Thereafter	26

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB, continued

Actuarial assumptions. The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in aggregate
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	5.00 percent
Medicare Part A premiums	3.00 percent for 2017, gradually rising to 4.25 percent in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
2024+	5.00%	4.25%

NOTES TO FINANCIAL STATEMENTS December 31, 2018

NOTE 8 – DEFINED BENEFIT OTHER POST EMPLOYMENT (OPEB) PLAN, Continued

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB, continued

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the "No Part A Subsidy" when they retire were revised to more closely reflect actual experience.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 8 – DEFINED BENEFIT OTHER POST EMPLOYMENT (OPEB) PLAN, Continued

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB, continued

- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the "No Part A Subsidy" but have not reached age 65, were revised to more closely reflect actual experience.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as needed.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 8 – DEFINED BENEFIT OTHER POST EMPLOYMENT (OPEB) PLAN, Continued

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB, continued

Sensitivity of the Meeker Regional Library District proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB Liability	45,641	46,932	48,487

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2017, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of Meeker Regional Library District proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	25,718	22,875	20,448

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

NOTE 9 - CONTINGENCIES

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations, which apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, voter approval for any increase in mill levy or tax rates, new taxes, or creation of multi-year debt. Revenue in excess of the fiscal year spending limit must be refunded in the next fiscal year unless voters approve retention of such revenue. The amendment also requires that reserves be established for declared emergencies, with 3% of fiscal year spending required.

In 1997, the registered voters of the Meeker Regional Library District voted to allow the District to collect, retain and expand all revenues and other funds collected in 1997 and each subsequent years thereafter, for general operations expenses without limiting in any year the amount of the other revenues that may be collected and expended by the District in excess of the limits of Article X, Section 20 of the Colorado Constitution.

The District has no authorized but unissued debt subject to the amendment's limitations. Based on fiscal year spending for 2018, \$43,926 of the year-end fund balance in the General Fund has been reserved for emergencies.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits, will require judicial interpretation.

NOTE 10 - RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. Commercial insurance coverage is purchased for claims arising from such matters. There have been no significant reductions in insurance coverage in the current year and settlement amounts, if any, have not exceeded insurance coverage in any of the three preceding years.

NOTE 11 – FUND BALANCE

Beginning with the fiscal year 2010, the District implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on governments' fund balances more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, or higher levels of government), through constitutional provision or by enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority.

MEEKER REGIONAL LIBRARY DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2018

NOTE 11 – FUND BALANCE, Continued

- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

Restricted funds are considered to be spent first, followed by assigned and unassigned, for an expenditure for which any could be used.

NOTE 12 – REPORTING FOR PENSION

Beginning in 2015, financial reporting information pertaining to the District's participation in Public Employees' Retirement Association of Colorado (PERA) is prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition of Contributions Made Subsequent to the Measurement Date*.

NOTE 13 – CHANGE IN ACCOUNTING PRINCIPLE

For the year ended December 31, 2018, the District implemented GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans* and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. This resulted in an adjustment to beginning position on the Statement of Activities in Fund Net Position of \$19,746 to add the beginning net OPEB liability.

NOTE 14 – SUBSEQUENT EVENTS

The District has evaluated subsequent events through July 30, 2019, the date at which the financial statements were available to be issued, and determined that no events have occurred that require disclosure.
