Independent Auditors' Report

Board of Directors
Stargate Charter School
Thornton, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Stargate Charter School, component unit of Adams County School District No. 12, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Stargate Charter School, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Stargate Charter School as of June 30, 2018, and the respective changes in financial position and cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 8 to the financial statements, in the year ended June 30, 2018, the Stargate Charter School adopted new accounting guidance as required by Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Stargate Charter School's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis (MD&A)

Required Supplementary Information (RSI)

June 30, 2018

The management of Stargate Charter School (the school) offers this Management Discussion and Analysis (MD&A) of the school's financial performance to provide an overall review of financial activities for the fiscal year ended June 30, 2018. The intent of this narrative overview and analysis is to review the school's financial performance as a whole. Readers should review the MD&A in conjunction with the accompanying Financial Statements, including the Notes to Financial Statements, to gain an expanded understanding of the school's financial performance.

Financial Highlights

The period from July 1, 2017 through June 30, 2018 is the twenty-third year of operation for Stargate Charter School. As of June 30, 2018 the net position of the school is <\$13,545,808.00>.

School operations are primarily supported by funding provided for in the Colorado State School Finance Act. Per pupil revenue for the year July 1, 2017 through June 30, 2018 was \$9,506,227. Stargate experienced an increase in overall per pupil revenues of \$236.54 per student compared with the 2016-2017 fiscal year.

Overview of Financial Statements

This review is intended to serve as an introduction to Stargate Charter School's basic financial statements. The basic statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government –Wide Financial Statements

Government-wide financial statements are prepared to provide interested parties with a broad overview of the school's financial reporting in similar format to a private-sector business. The statement of net position presents information related to assets and liabilities and remaining net position. With historical data, increases and decreases in net position may serve as a useful indicator of whether the financial position of the school is improving or deteriorating.

The statement of activities, or income statement, presents information showing how the school's net position changed during the year. Changes to net value are reported at the primary occurrence, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement that will only result in cash flows in future periods (for example, salaries and benefits earned but unpaid as of fiscal year end).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities, or objectives as designated by Colorado state statute. Stargate Charter School monitors these funds to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements, except that the focus of the governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources.

Stargate School adopts an annual budget for the general fund. A budgetary comparison has been provided to demonstrate compliance with the budget as part of the required supplementary information included in the audited financial statements.

The Stargate Foundation is considered a component unit of Stargate Charter School (the school) and is reported as a proprietary fund. Information is presented in the statement of net position, statement of revenues, expenses and changes in net position and the statement of cash flows.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Government-wide Financial Analysis

For the year ending June 30, 2018, the governmental activities negative net assets of Stargate Charter School totaled \$13,545,808. The school recognized \$350,000 to comply with Article X, Section 20 of the Colorado Constitution, known as the TABOR Amendment. An additional \$200,000 in restricted reserves for Special Education liabilities are held in a segregated account at Wells Fargo Bank.

As of June 30, 2018, the Foundation had \$2,037,242 restricted for debt service. The Foundation also had a net position of \$995,390.

Fund Financial Analysis

General Fund

Revenues-Total Income from operations for the period of July 1, 2017 through June 30, 2018 was \$11,095,825. The majority of income was received in the form of Per Pupil Revenue allocated to Stargate Charter School from the State of Colorado through the charter authorizer Adams 12 Five Star School District. This funding source increased by 3% (\$236.54) per student between the 2016/2017 and 2017/2018 school years. Stargate receives Mill Levy Override funds from Adams 12 in the amount of \$125.96 per resident pupil as a component of local revenue. The District also allocates state and federal IDEA and ECEA funds to the school for special education per the charter contract. Investment income of \$24,658 was recognized for the year. Tuition for all day kindergarten and before and after child care were received in support of the general operation of the school. Food service revenue offsets the cost of the school's hot lunch program.

Expenditures-Total expenditures for the period of July 1, 2017 through June 30, 2018 were \$11,656,703. Salaries were \$5,517,615; benefits were \$1,826,053; purchased services were \$884,468; supplies were \$551,164; rent to the Foundation was \$2,877,403. Expenditures increased \$1,982,305 from the previous year. Of this increase \$1,352,430 can be attributed to an increase to the building rental costs.

Net Income-For the period of July 1, 2017 through June 30, 2018 Stargate Charter School recorded a net loss of \$560,878, in the General Fund. This loss will decrease the general fund contingency which will be maintained in a manner consistent with the Board Reserve Strategy. The balance can be available for future year's expenditure.

Agency Fund

Student fees, technology fees, field trip fees, outdoor education payments and fundraising proceeds are processed through the school's agency fund. As of June 30, 2018 the agency fund had a cumulative balance of \$251,934 available to student groups. Of this total \$247,585 were fund raising dollars.

Stargate Foundation

Revenues-Total income for the period of July 1, 2017 through June 30, 2018 was \$2,900,408. This income is derived from rent payments from the school's General Fund in accordance with the lease agreement in the amount of \$2,877,403. The Foundation received interest income in the amount \$23,005 on the deposits held by the trustee.

Expenses-Total expenses for the period of July 1, 2017 through June 30, 2018 were \$3,089,613. The interest expense for the year was \$2,247,820. The depreciation expense was \$795,051. Non capitalized equipment cost was \$46,742

Net Income-For the year ended June 30, 2018 Stargate recorded a change in net position of <\$189,205> as expenses exceeded revenues by that amount

Analysis of Budget –General Fund

The original budget for Stargate School was adopted in May of 2017. There were no notable additions to the budget. The Board of Directors authorized a resolution to reduce fund balance in the 2017-2018 fiscal year by \$588,000. The actual reduction was \$560,878.

There were no significant variations between the final budget amounts approved by the Stargate Charter School Board of Directors and the actual result for the period of July 1, 2017 through June 30, 2018. Eagle’s Landing performed above expectation.

Capital Assets and Debt Administration-General Fund

Capital Assets-As of June 30, 2018, Stargate Charter School has \$1,127,123 in capital assets, net of depreciation and \$5,172,033 that are not yet being depreciated. The majority of the depreciable assets are represented by the completed turf fields valued at ~ \$1,200,000. The \$5,172,033 in additional assets is the Performing Arts/Adroit addition which will be placed into service in the 2018-2019 school year.

Long-term debt-As of June 30, 2018 the school had no long-term debt.

Capital Assets and Debt Administration-Foundation

Capital Assets-Stargate Foundation’s capital assets as of June 30, 2018 amount to \$36,835,079, net of accumulated depreciation. These assets represent the building and improvements to the facility. In addition, the Foundation has non depreciable assets of \$3,503,069 in land acquisition costs.

In April 2015 the Colorado Educational and Cultural Facilities Authority issued Revenue Bond Series 2015 A, B, and C on behalf of Stargate Foundation. The purpose of the Series 2015 B and C (taxable) bonds was to refund the outstanding Series 2006 in the amount of \$8,405,000. Additionally, the Series 2015A bonds were issued for the construction of a new secondary school facility (6-12), a new elementary facility (K-5) and construction of a stand- alone field house. Stargate Foundation purchased 43 acres at 14530 Washington St, Thornton, CO for the development of the project. Construction was completed August, 2016.

Long-term Debt -As of June 30, 2018 Stargate Foundation had outstanding debt of \$41,380,000.

Additional information on capital assets and long-term debt is provided in Notes 3 and 4 to the financial statements.

Net Pension Liability

In compliance with GASB 68 and 75, as of June 30, 2018 Stargate School shows a net pension and postemployment benefits (OPEB) liability of \$39,072,204 on its statement of net position. This amount represents Stargate’s proportionate share of the outstanding unfunded pension liability and OPEB liability of the Colorado Public Employees Retirement Association. The negative net position of the school at year end can be attributed to this liability.

Additional information on this calculation and defined benefit pension and OPEB plan reporting is provided in Notes 5 and 6 to the financial statements.

The school adopted GASB 75 for the year ended June 30, 2018, resulting in a restatement of beginning net position.

Economic Factors and Next Year's Budget

The primary factor driving the budget for the school is the future of the Colorado state budget and related impacts on Public School Finance. Stargate Charter School's funded enrollment for 2017-2018 was 1267 students in grades K-11 with a significant waiting list at the lower grades. Budgetary forecasting for the next five years takes a strategic approach to maintaining educational standards while applying a conservative fiscal approach to budgeting. Stargate Charter School regularly monitors legislative trends, discussions, and legislation that may impact funding and adjust the budget model accordingly. Stargate Charter School is confident in its ability to forecast and adjust to potential impacts to the school's primary funding source.

In the 2018-2019 school year Stargate School will continue a multi-year expansion into grades 9-12. Ninth grade was added in the 2015-2016 school year with one additional grade added each of the subsequent school years. Enrollment for the 2018-2019 school years is projected at 1343 in grades K-12. Enrollment at full expansion is projected at 592 students K-5, 390 students 6-8 and 560 students 9-12 by school year 2020-2021.

Requests for Information

The financial report is designed to provide a general overview of Stargate Charter School's finances for all those with an interest in the School. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

Note 1: Summary of Significant Accounting Policies

Nature of Operations

Stargate Charter School (the School) was organized pursuant to the Colorado Charter Schools Act to form and operate a charter school within Adams County School District No. 12 (the District). The School began operations in the fiscal year beginning July 1, 1994. The School is a non-profit organization as defined by Section 501(c)(3) of the Internal Revenue Code.

The accounting policies of the School conform to generally accepted accounting principles as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the School's more significant policies.

Reporting Entity

The financial reporting entity consists of the School, organizations for which the School is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the School. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the School. Legally separate organizations for which the School is financially accountable are considered part of the reporting entity. Financial accountability exists if the School appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization has the potential to provide benefits to, or impose financial burdens on, the School.

Based upon the application of this criteria, the School includes the Stargate Foundation (the Foundation), a Colorado non-profit organization, within its reporting entity. The Foundation has a separate governing board but was organized for the sole purpose of financing and constructing the School's facilities. The Foundation is blended into the School's financial statements as an enterprise fund and does not issue separate financial statements.

The School is a component unit of the District. The School's charter is authorized by the District and the majority of the School's funding is provided by the District.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all nonfiduciary activities of the School. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Stargate Charter School
(A Component Unit of Adams County School District No. 12)
Notes to Financial Statements
June 30, 2018

Note 1: Summary of Significant Accounting Policies (Continued)

Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to students or others who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Unrestricted revenues not properly included among program revenues are reported instead as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Separate financial statements are provided for the governmental funds, the proprietary fund, and the fiduciary fund, even though the latter is excluded from the School's government-wide financial statements. Major individual governmental and proprietary funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as is the proprietary fund in the fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Available means collected within the current year or soon enough thereafter to pay liabilities of the current year, not to exceed 60 days. Intergovernmental revenues, grants, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered to be measurable and available only when cash is received by the School. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

The fiduciary fund utilizes the accrual basis of accounting.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes to Financial Statements
June 30, 2018

Note 1: Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

(Continued)

When both restricted and unrestricted resources are available for a specific use, it is the School's policy to use restricted resources first, and the unrestricted resources as they are needed.

The School reports the following major governmental and proprietary funds:

General Fund - This fund is the general operating fund of the School. It is used to account for all financial activities except those accounted for in another fund.

Building Fund - This fund is used to account for District bond proceeds contributed to the School and restricted for capital improvements.

Foundation - This fund is used to account for the financial activities of the Foundation, which are primarily related to capital assets and the related debt service.

Additionally, the School reports the following fund type:

The *Agency Fund* is used to account for student fees collected for various activities. The School holds all resources in a purely custodial capacity.

Assets, Liabilities and Net Position/Fund Balance

Cash Equivalents - For purposes of the statement of cash flows, cash equivalents include investments with original maturities of three months or less.

Receivables - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Prepaid Expenses - Certain payments to vendors reflect costs applicable to future years and are reported as prepaid expenses.

Capital Assets - Capital assets, which include property and equipment, are reported in the government-wide financial statements and the proprietary fund in the fund financial statements. Capital assets are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value on the date of donation.

Depreciation of exhaustible capital assets is charged as an expense against operations, and accumulated depreciation is reported in the statement of net position in the government-wide financial statements and the proprietary fund in the fund financial statements. Capital assets are depreciated using the straight-line method over the following estimated useful lives.

 (A Component Unit of Adams County School District No. 12)
 Notes to Financial Statements
 June 30, 2018

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balance (Continued)

Land Improvements	7 years
Buildings	10 - 50 years
Building Improvements	10 - 20 years
Equipment	3 - 10 years

Accrued Salaries and Benefits - Salaries and benefits of certain contractually employed personnel are paid over a twelve-month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, are reported as a liability of the General Fund.

Compensated Absences - School employees are entitled to certain compensated absences based on their length of employment and classification. Except for vacation leave, compensated absences do not vest or accumulate and are recorded as expenditures when used. Upon separation or retirement, employees are paid for up to 40 days of accrued vacation leave at their current rate of pay. A long-term liability has been reported in the government-wide financial statements for the accrued vacation leave.

Long-Term Debt - In the government-wide financial statements and the proprietary fund in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Debt premiums, discounts, and accounting losses resulting from debt refundings are deferred and amortized over the life of the debt using the straight-line method. In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as current expenses or expenditures.

Pensions - The School participates in the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to and deductions from the SDTF's fiduciary net position have been determined using the economic resources measurement focus and the accrual basis of accounting, the same basis of accounting used by the SDTF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Employer contributions are recognized when the compensation is payable to the employees.

Stargate Charter School
 (A Component Unit of Adams County School District No. 12)
 Notes to Financial Statements
 June 30, 2018

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balance (Continued)

Postemployment Benefits Other Than Pensions (OPEB) - The School participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position, and additions to and deductions from the HCTF's fiduciary net position have been determined using the economic resources measurement focus and the accrual basis of accounting, the same basis of accounting used by the HCTF. For this purpose, the HCTF recognizes benefit payments when due and payable in accordance with the benefit terms. Employer contributions are recognized when the compensation is payable to the employees.

Net Position/Fund Balance - In the government-wide and fund financial statements, net position and fund balance are restricted when constraints placed on the use of resources are externally imposed. The Board of Directors is authorized to establish a fund balance commitment through passage of a resolution, and may assign fund balances to a specific purpose through an informal action.

The School has not established a formal policy for its use of restricted and unrestricted fund balances. However, if both restricted and unrestricted fund balances are available for a specific purpose, the School uses restricted fund balance first, followed by committed, assigned, and unassigned balances.

Risk Management

The School is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; injuries to employees; and natural disasters. The School carries commercial insurance for these risks of loss.

Note 2: Deposits and Investments

At June 30, 2018, the School and the Foundation had the following cash and investments:

Deposits	\$ 1,436,906
Investments	<u>3,806,641</u>
Total	<u>\$ 5,243,547</u>

Cash and investments are reported in the financial statements as follows:

Cash and Investments	\$ 2,767,205
Restricted Cash and Investments	2,223,452
Agency Cash Fund	<u>252,890</u>
Total	<u>\$ 5,243,547</u>

Stargate Charter School
(A Component Unit of Adams County School District No. 12)
Notes to Financial Statements
June 30, 2018

Note 2: Deposits and Investments (Continued)

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires all local government entities to deposit cash in eligible public depositories. Eligibility is determined by State regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. At June 30, 2018, the School had bank deposits of \$1,207,742 collateralized with securities held by the financial institution's agent but not in the School's name.

Investments

The School is required to comply with State statutes which specify investment instruments meeting defined rating, maturity and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

Fair Value Measurements - At June 30, 2018, the School's investment in the local government investment pool and the Foundation's investment in a money market fund were measured at the net asset value per share.

Interest Rate Risk - State statutes generally limit the maturity of investment securities to five years from the date of purchase, unless the governing board authorizes the investment for a period in excess of five years.

Credit Risk - State statutes limit investments in money market funds to those that maintain a constant share price, with a maximum remaining maturity in accordance with the Securities and Exchange Commission's Rule 2a-7, and either have assets of one billion dollars or the highest rating issued by one or more nationally recognized statistical rating organizations. At June 30, 2018, the Foundation's investment of \$2,223,452 in the Fidelity Government Portfolio Money Market Fund was rated AAAM by Standard and Poor's.

Concentration of Credit Risk - State statutes do not limit the amount the School may invest in a single issuer of investment securities, except for corporate securities.

Stargate Charter School
(A Component Unit of Adams County School District No. 12)
Notes to Financial Statements
June 30, 2018

Note 2: Deposits and Investments (Continued)

Investments (Continued)

Local Government Investment Pool - At June 30, 2018, the School had \$1,583,189 invested in the Colorado Local Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds for investment purposes. The Colorado Division of Securities administers and enforces the requirements of creating and operating Colotrust. Colotrust operates in conformity with the Securities and Exchange Commission's Rule 2a-7, with each share valued at \$1. Colotrust is rated AAAM by Standard and Poor's. Investments of Colotrust are limited to those allowed by State statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

Restricted Cash and Investments

At June 30, 2018, the Foundation had cash and investments of \$2,223,452 restricted for future debt service.

Note 3: Capital Assets

Capital asset activity for the year ended June 30, 2018, is summarized below.

	Balance 6/30/17	Additions	Deletions	Balance 6/30/18
Governmental Activities				
<i>Capital Assets, Not Being Depreciated</i>

2015 Building Loan	\$ 41,960,000	\$ -	\$ (580,000)	\$ 41,380,000	\$ 665,000

Compensated Absences

Compensated absences of the governmental activities are expected to be liquidated with revenues of the General Fund.

Stargate Charter School
 (A Component Unit of Adams County School District No. 12)
 Notes to Financial Statements
 June 30, 2018

Note 4: Long-Term Debt (Continued)

Building Loan

In April, 2015, the Colorado Educational and Cultural Facilities Authority (CECFA) issued \$42,010,000 Charter School Improvement Revenue Bonds, Series 2015A. Bond proceeds were loaned to the Foundation to acquire land and construct a new school campus consisting of elementary and secondary school buildings. The School is obligated under a lease agreement to make monthly lease payments to the Foundation for using the facilities. The Foundation is required to make equal loan payments to the trustee, for payment of the bonds. Interest accrues on the bonds at 5.4% per annum, and is payable semi-annually on June 1 and December 1. Principal payments are due annually on December 1, with a balloon payment due on December 1, 2020.

Future debt service requirements are as follows:

<u>Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ 665,000	\$ 2,216,565	\$ 2,881,565
2020	700,000	2,179,710	2,879,710
2021	40,015,000	1,080,405	41,095,405
Total	\$ <u>41,380,000</u>	\$ <u>5,476,680</u>	\$ <u>46,856,680</u>

Note 5: Defined Benefit Pension Plan

General Information

Plan Description - The School contributes to the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). All employees of the School participate in the SDTF. Title 24, Article 51 of the Colorado Revised Statutes (CRS) assigns the authority to establish and amend plan provisions to the State Legislature. PERA issues a publicly available financial report that includes information on the SDTF. That report may be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided - The SDTF provides retirement, disability, and survivor benefits to plan participants or their beneficiaries. Retirement benefits are determined by the amount of service credit earned or purchased, highest average salary, the benefit structure in place, the benefit option selected at retirement, and age at retirement. The retirement benefit is the greater of the a) highest average salary over three years multiplied by 2.5% and then multiplied by years of service credit, or b) the value of the participant's contribution account plus an equal match on the retirement date, annualized into a monthly amount based on life expectancy and other actuarial factors. In no case can the benefit amount exceed the highest average salary or the amount allowed by applicable federal regulations.

Stargate Charter School
(A Component Unit of Adams County School District No. 12)
Notes to Financial Statements
June 30, 2018

Note 5: Defined Benefit Pension Plan (Continued)

General Information (Continued)

Retirees may elect to withdraw their contributions upon termination of employment, and may be eligible to receive a matching amount if five years of service credit is earned and certain other criteria is met. Retirees who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs) as established by State statutes. Retirees who began employment before January 1, 2007, receive an annual increase of 2%, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2% or the average consumer price index for the prior calendar year. Retirees that began employment after January 1, 2007, receive an annual increase of the lesser of 2% or the average consumer price index for the prior calendar year, with certain limitations.

Disability benefits are available for plan participants once they reach five years of earned service credit and meet the definition of a disability. The disability benefit amount is based on the retirement benefit formula described previously, considering a minimum of twenty years of service credit.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure in place, and the qualified survivor receiving the benefits.

Contributions - The School and eligible employees are required to contribute to the SDTF at rates established by Title 24, Article 51, Part 4 of the CRS. These contribution requirements are established and may be amended by the State Legislature. The contribution rate for employees is 8% of covered salaries. The School's contribution rate for calendar years 2018 and 2017 was 20.15% and 19.65% of covered salaries, respectively. However, a portion of the School's contribution (1.02% of covered salaries) is allocated to the Health Care Trust Fund (See Note 6). The School's contributions to the SDTF for the year ended June 30, 2018, were \$1,083,475, equal to the required contributions.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the School reported a net pension liability of \$38,199,880, representing its proportionate share of the net pension liability of the SDTF. The net pension liability was measured at December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll forward the total pension liability to December 31, 2017.

The School's proportion of the net pension liability was based on the School's contributions to the SDTF for the calendar year ended December 31, 2017, relative to the contributions of all participating employers. At December 31, 2017, the School's proportion was 0.1181325853%, which was an increase of 0.0343629553% from its proportion measured at December 31, 2016.

 Notes to Financial Statements
 June 30, 2018

Note 5: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

During the 2018 legislative session, the State Legislature passed Senate Bill (SB) 18-200 with the goal of eliminating the unfunded pension liability of the SDTF within the next 30 years. The significant provisions of the legislation include increased age and service requirements to receive full retirement benefits, highest average salary calculated over five years rather than three years, changes to includable employee salaries, increased contributions from employees and employers, and an annual direct distribution from the State of Colorado. The School's estimated net pension liability at June 30, 2018, had the provisions of SB 18-200 been effective was \$17,258,374.

For the year ended June 30, 2018, the School recognized pension expense of \$11,928,548. At June 30, 2018, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 702,333	\$ -
Changes of assumptions and other inputs	9,753,847	61,897
Net difference between projected and actual earnings on plan investments	-	1,500,146
Changes in proportion	7,979,937	-
Contributions subsequent to the measurement date	656,348	-
Total	\$ 19,092,465	\$ 1,562,043

School contributions subsequent to the measurement date of \$656,348 will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

<u>Year Ended June 30,</u>			
2019		\$	9,611,480
2020			6,565,466
2021			1,261,488
2022			(564,360)
Total		\$	16,874,074

 Notes to Financial Statements
 June 30, 2018

Note 5: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions - The actuarial valuation as of December 31, 2016, determined the total pension liability using the following actuarial assumptions and other inputs.

Price inflation	2.4%
Real wage growth	1.1%
Wage inflation	3.5%
Salary increases, including wage inflation	3.5% - 9.7%
Long-term investment rate of return, net of plan investment expenses, including price inflation	7.25%
Discount rate ⁽¹⁾	5.26%
Post-employment benefit increases:	
Hired prior to 1/1/2007	2.0%
Hired after 12/31/2006	ad hoc

⁽¹⁾ The discount rate reflected in the roll-forward calculation of the total pension liability to the measurement date was 4.78%.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table. The mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates. Healthy, post-retirement mortality assumptions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, with certain adjustments. For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

On November 18, 2016, PERA's governing board adopted revised economic and demographic assumptions based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, which were effective on December 31, 2016. The significant changes affecting the plan included decreasing the investment rate of return assumption from 7.5% per year, compounded annually, net of investment expenses, to 7.25%, and updating mortality assumptions based on RP-2014 mortality tables.

The long-term expected rate of return on plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

Stargate Charter School
(A Component Unit of Adams County School District No. 12)
Notes to Financial Statements
June 30, 2018

Note 5: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The most recent analysis of the long-term expected rate of return was adopted by PERA's governing board on November 18, 2016, and included the target allocation and best estimates of geometric real rates of return for each major asset class, as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>30 Year Expected Geometric Real Rate of Return</u>
U.S. Equity - Large Cap	21.20%	4.30%
U.S. Equity - Small Cap	7.42%	4.80%
Non U.S. Equity - Developed	18.55%	5.20%
Non U.S. Equity - Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income - Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	<u>100.00%</u>	

Discount Rate - The discount rate used to measure the total pension liability was 4.78%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and the employer contributions will be made at the rates specified in State statutes, which currently require annual increases, to a total of 20.15% of covered salaries for the year ended December 31, 2018. When the actuarially determined funding ratio reaches 103%, the employer contribution rate will decrease 0.5% each year, to a minimum of 10.15%.

Based on the assumptions described previously, the SDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate, defined as the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index, was used in the determination of the discount rate. The long-term expected rate of return of 7.25% on plan investments was applied to all periods through 2041, and the municipal bond index rate was applied to periods after 2041 to develop the discount rate. On the measurement date of December 31, 2017, the municipal bond index rate was 3.43%, resulting in a discount rate of 4.78%. The discount rate at the prior measurement date was 5.26%.

Note 5: Defined Benefit Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the School's proportionate share of the net pension liability calculated using the discount rate of 4.78%, as well as the School's proportionate share of the net pension liability if it were calculated using a discount rate that is one percentage point lower (3.78%) or one percentage point higher (5.78%) than the current rate, as follows:

	1% Decrease (3.78%)	Current Discount Rate (4.78%)	1% Increase (5.78%)
Proportionate share of the net pension liability	\$ 48,252,945	\$ 38,199,880	\$ 30,007,779

Pension Plan Fiduciary Net Position - Detailed information about the SDTF's fiduciary net position is available in PERA's separately issued financial report, which may be obtained at www.copera.org/investments/pera-financial-reports.

Note 6: Postemployment Healthcare Benefits

General Information

Plan Description – All employees of the School are eligible to receive postemployment benefits other than pensions (OPEB) through the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Public Employees' Retirement Association of Colorado (PERA). Title 24, Article 51, Part 12 of the Colorado Revised Statutes (CRS) assigns the authority to establish and amend plan provisions to the State Legislature. PERA issues a publicly available financial report that includes information on the HCTF. That report may be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided - The HCTF provides a healthcare premium subsidy to eligible benefit recipients and retirees who choose to enroll. Eligibility to enroll is voluntary and includes benefit recipients, their eligible dependents and surviving spouses, among others. Eligible benefit recipients may enroll in the HCTF upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period. The health care premium subsidy is based on the benefit structure under which the member retires and the member's years of service credit.

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare, and \$115 per month for benefit recipients who are over 65 years of age or who are under 65 years of age and entitled to Medicare. An additional subsidy is provided if the benefit recipient has not participated in Social Security and is not otherwise eligible for Medicare Part A. The maximum subsidy is based on 20 or more years of service. The subsidy is reduced for each year of service less than 20 years. The benefit recipient pays the remaining portion of the premium not covered by the subsidy.

 (A Component Unit of Adams County School District No. 12)
 Notes to Financial Statements
 June 30, 2018

Note 6: Postemployment Healthcare Benefits (Continued)

General Information (Continued)

Contributions - As established by Title 24, Article 51, Section 208 of the CRS, 1.02% of the School's contributions to the School Division Trust Fund (SDTF) (See Note 5) is apportioned to the HCTF. No employee contributions are required. These contribution requirements are established and may be amended by the State Legislature. The School's apportionment to the HCTF for the year ended June 30, 2018, was \$55,508, equal to the required amount.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the School reported a net OPEB liability of \$872,324, representing its proportionate share of the net OPEB liability of the HCTF. The net OPEB liability was measured at December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll forward the total OPEB liability to December 31, 2017.

The School's proportion of the net OPEB liability was based on the School's contributions to the HCTF for the calendar year ended December 31, 2017, relative to the contributions of all participating employers. At December 31, 2017, the School's proportion was 0.0671225103%, which was an increase of 0.0195068453% from its proportion measured at December 31, 2016.

For the year ended June 30, 2018, the School recognized OPEB expense of \$109,639. At June 30, 2018, the School reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,126	\$ -
Net difference between projected and actual earnings on plan investments	-	14,594
Changes in proportion	211,384	-
Contributions subsequent to the measurement date	35,141	-
Total	<u>\$ 250,651</u>	<u>\$ 14,594</u>

 Notes to Financial Statements
 June 30, 2018

Note 6: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

School contributions subsequent to the measurement date of \$35,141 will be recognized as a reduction of the net OPEB liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

<u>Year Ended June 30,</u>		
2019	\$	38,691
2020		38,691
2021		38,691
2022		38,691
2023		42,340
2024		<u>3,812</u>
Total	\$	<u>200,916</u>

Actuarial Assumptions - The actuarial valuation as of December 31, 2016, determined the total OPEB liability using the following actuarial assumptions and other inputs, applied to all periods included in the measurement.

Price inflation	2.4%
Real wage growth	1.1%
Wage inflation	3.5%
Salary increases, including wage inflation	3.5%
Long-term investment rate of return, net of plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates:	
Service-based premium subsidy	0.0%
Medicare plans	5.0%
Medicare Part A premiums:	
3% for 2017, gradually rising to 4.25% in 2023	

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table. The mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates. Healthy, post-retirement mortality assumptions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, with certain adjustments. For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

Health care cost trend rates are based on published annual health care inflation surveys in conjunction with actual plan experience, building block models and heuristics developed by actuaries and administrators, and other projected trends.

Stargate Charter School
(A Component Unit of Adams County School District No. 12)
Notes to Financial Statements
June 30, 2018

Note 6: Postemployment Healthcare Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The actuarial assumptions used in the December 31, 2016, valuation were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, and were adopted by PERA's governing board on November 18, 2016. In addition, certain actuarial assumptions pertaining to per capita health care costs and the related trends are analyzed by PERA's actuary as needed.

The long-term expected rate of return on the HCTF investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

The most recent analysis of the long-term expected rate of return was adopted by PERA's governing board on November 18, 2016, and included the target allocation and best estimates of geometric real rates of return for each major asset class, as presented previously in Note 5.

Discount Rate - The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at the current contribution rate. Based on this assumption, the HCTF's fiduciary net position was projected to be available to make all projected future OPEB payments to current active and inactive employees. Therefore, the long-term expected rate of return on HCTF investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate - The following presents the School's proportionate share of the net OPEB liability calculated using the discount rate of 7.25%, as well as the School's proportionate share of the net OPEB liability if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate, as follows:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$ 980,767	\$ 872,324	\$ 779,766

	1% Decrease	Current Healthcare Cost Trend Rates	1% Increase
Proportionate share of the net OPEB liability	\$ <u>848,323</u>	\$ <u>872,324</u>	\$ <u>901,232</u>

OPEB Plan Fiduciary Net Position - Detailed information about the HCTF's fiduciary net position is available in PERA's separately issued financial report, which may be obtained at www.copera.org/investments/pera-financial-reports.

Note 7: Commitments and Contingencies

Claims and Judgments

The School participates in a number of federal and state programs that are fully or partially funded by revenues received from other governmental entities. Expenditures financed by these revenues are subject to audit by the appropriate government. If expenditures are disallowed due to noncompliance with program regulations, the School may be required to reimburse the other government. At June 30, 2018, significant amounts of related expenditures have not been audited but management believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the School.

Contingencies

The School has pending complaints and threatened litigation. The outcome of these actions cannot be determined at this time. However, management believes the outcome will not have a significant effect on the School's financial position.

Special Education

As part of its charter contract with the District, the School has agreed to maintain a special education reserve to pay for extraordinary costs required to provide a free appropriate public education to special education students. Any withdrawals from the reserve must be approved by the District, and the reserve must be restored within two years. At June 30, 2018, this reserve was reported as restricted fund balance in the General Fund, in the amount of \$200,000.

Stargate Charter School
 (A Component Unit of Adams County School District No. 12)
 Notes to Financial Statements
 June 30, 2018

Note 7: Commitments and Contingencies (Continued)

Tabor Amendment

In November 1992, Colorado voters passed the Tabor Amendment to the State Constitution which limits state and local government taxing powers and imposes spending limitations. The Amendment is subject to interpretation, but the School believes it is in substantial compliance with the requirements of the Amendment. As required by the Amendment, the School has established a reserve for emergencies, representing 3% of qualifying expenditures. At June 30, 2018, the emergency reserve was reported as restricted fund balance in the General Fund, in the amount of \$350,000.

Note 8: Change in Accounting Principle

For the year ended June 30, 2018, the School adopted the standards of Governmental Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. As a result, net position of the governmental activities at June 30, 2017, was restated to reflect the cumulative effect of adopting the standards.

Certain balances of deferred outflows of resources and deferred inflows of resources related to OPEB at June 30, 2017, were not available and have not been reported in the financial statements.

	Governmental Activities

Notes to Required Supplementary Information
June 30, 2018

Note 1: Schedule of Proportionate Share of the Net Pension Liability and Contributions

The Public Employees' Retirement Association of Colorado (PERA) School Division Trust Fund's net pension liability and associated amounts are measured annually at December 31, based on an actuarial valuation as of the previous December 31. The School's contributions and related ratios represent cash contributions and any related accruals that coincide with the School's fiscal year ending on June 30.

Changes in Assumptions and Other Inputs

For the year ended June 30, 2018, the total pension liability was determined by an actuarial valuation as of December 31, 2016. The following revised economic and demographic assumptions were effective as of December 31, 2016.

- Investment rate of return assumption decreased from 7.5% per year, compounded annually, net of investment expenses, to 7.25%.
- Price inflation assumption decreased from 2.8% per year to 2.4%.
- Real rate of investment return assumption increased from 4.7% per year, net of investment expenses, to 4.85%.
- Wage inflation assumption decreased from 3.9% per year to 3.5%.
- Healthy and disabled mortality assumptions are based on the RP-2014 Mortality Tables, updated from the RP-2000 Mortality Tables.

Note 2: Stewardship, Compliance and Accountability

Budgetary Information

A budget is adopted for the School on a basis consistent with generally accepted accounting principles. The School adheres to the following procedures to establish the budgetary information reflected in the financial statements.

- By June 1, management submits to the Board of Directors a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- Prior to June 30, the budget is adopted by the Board of Directors.
- Expenditures may not legally exceed appropriations at the fund level. Revisions that alter the total expenditures of any fund must be approved by the Board of Directors.
- All budgets lapse at fiscal year end.

Legal Compliance

For the year ended June 30, 2018, the Board of Directors did not adopt a budget for the Building Fund. This may be a violation of State statutes.
