INDEPENDENT AUDITOR'S REPORT

Board of Education  
Kim School District RE-88  
Kim, Colorado 81049

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Kim School District RE-88, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Kim School District RE-88, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension and post employment benefits trend data on pages i through v and 44 through 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Kim School District RE-88's basic financial statements. The combining and individual fund statements, other schedules, and state required schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements, other schedules, and state required schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements, other schedules, and state required schedules, are fairly stated, in all material respect, in relation to the basic financial statements as a whole.

Trinidad, Colorado  
November 20, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

This is the Management Discussion and Analysis (MD&A) for the Kim School District RE-88. It offers the reader management's perspective of the financial activities of the school district for the year ended June 30, 2018. The focus of this discussion is the primary government (general) fund.

The MD&A is an element of reporting put forth by the Government Accounting Standards Board (GASB), in accordance with GASB Statement No. 34, *Basic Financial Statement and Management Discussion and Analysis for State and Local Governments*.

### **Financial Highlights**

- In government-wide activities the District's net position totaled \$ 9,697,238 at the end of the 2018 fiscal year.
- Governmental Funds revenue was \$1,387,904; expenditures totaled \$1,269,265, with an ending fund balance of \$1,689,504.

### **Overview of the Financial Statements**

The Management's Discussion & Analysis is presented as an introduction into the Kim School District's basic financial information. This information is comprised in the following three components:

- 1) Government-wide financial statements
- 2) Fund Financial Statements
- 3) Supplemental Information

The District was required to implement GASB 75 resulting in a net other post-employment benefit (OPEB) liability of \$76,403. Under GASB 75 the District's proportionate share of the OPEB liability of the Colorado state retirement system Health Care Trust Fund administered by the Public Employees Retirement Association, is recorded as a liability of the District. At implementation beginning equity is restated and deferred inflows, outflows and the net OPEB liability are reported. Beginning net position of governmental activities decreased as a result of this change.

Upon implementation of GASB 75, the beginning net position of governmental activities decreased \$76,410 to \$10,549,086 from \$10,625,496 at the end of the previous fiscal year. Fiscal year 2017 financial information has not been restated because some of the comparable information is not available

### ***Government-Wide Financial Statements***

Government-wide statements provide an overall view of the District's financial status specific to those activities directly related to the education of our students. The government-wide statements report assets and liabilities. The difference between the assets and liabilities is reported as net assets. The statements of net assets are one way to measure the financial position of the District. Over time, changes in net assets may serve as a useful indicator of whether the financial position is improving or deteriorating.

The district-wide statements are divided into two categories: Governmental activities and Business-type Activities.

*Governmental activities:* Such services as instruction, transportation, maintenance and operations, and administration are represented in this area. For Kim School District this information will be found in the general fund, preschool fund, and capital reserve fund.

## **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been "set apart" for specific activities. The fund financial statements provide detailed information about the District's funds. These statements focus on those specific funds, not the District as a whole. Kim School District RE-88, like other governmental agencies, uses fund accounting to demonstrate and ensure compliance.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

*Governmental Funds:* Most of the District's basic services are reported in governmental funds. This information is reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted into cash. Governmental fund accounting may help the reader determine whether there are more or less financial resources that can be spent in the near future. The differences between governmental activities and governmental funds are reconciled in the financial statements.

*Fiduciary Funds:* The District is the agent, or *fiduciary*, for assets that belong to others. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purpose.

*Supplemental Information:* In addition to the financial statements and accompanying notes the District's financial audit also contains more detailed financial information and other supplemental information concerning the District's non-major governmental funds.

*Financial Analysis of the Governmental Funds:* The focus of the District's governmental funds is to provide information on balances of available (spendable) resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful tool in measuring the District's net resources available for spending at the end of the fiscal year. The combined general fund is the major governmental fund of the Kim School District. The combined general fund under GASB 34 reporting requirements involves the general fund (\$1,480,225) and the preschool fund (\$1,262). As of June 30, 2018, the combined general fund shows an ending fund balance of \$1,481,487.

*Capital Assets and Debt Administration:* The District's investment in capital assets for its governmental and business-type activities as of June 30, 2018 amounts to \$12,958,067. This is a total capital asset of \$15,257,317 less accumulated depreciation of \$2,299,250.

The District's total net position on June 30, 2018 was \$9,697,238. Of the District's \$14,757,679 in assets, \$15,257,317 reflects investment in capital assets (e.g. land, buildings, infrastructure, machinery, and equipment). The District uses capital assets to provide services to students; consequently, these assets are not available for future spending. The district currently has negative unrestricted net position of -\$15,257,317. The district was awarded a BEST grant in the amount of \$7,923,336. The grant was matched with a local 20 year bond initiative in the amount of \$2,717,118. This maximizes the bonding capacity of the district. The bond long term debt on June 30, 2018 was \$2,333,987 current debt \$1,011,105.

<b>Total</b>	<b>2,241,786</b>	<b>-2,102,517</b>	<b>2,053,718</b>	<b>-1,946,929</b>

- The cost of all governmental activities this year was \$2,241,786.
- Some of the cost was financed by the users of the district’s programs: \$23,266.
- The federal and state governments subsidized certain programs with grants and contributions of \$116,003.
- Most of the District’s costs, however, were financed by District and State taxpayers with \$541,428 in state equalization from the school finance act, \$462,624 in taxes and \$6,241 in investment earnings and other miscellaneous revenue.
- The food service program had revenue of \$71,294 (including a transfer of \$40,000 from the General Fund) and expenses of \$65,858.

### Financial Analysis of the District’s Funds

#### General Fund Budgetary Highlights

The District’s budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund.

- Total revenues in the General Fund were \$86,297 lower than the preceding year.
- The district must maintain a 3% emergency reserve as part of TABOR Amendment (Taxpayer Bill of Rights). On June 30, 2018 the District’s TABOR reserve amounted to \$33,900.

### Capital Assets and Debt Administration

#### Capital Assets

KIM SCHOOL DISTRICT RE-88 – MANAGEMENT DISCUSSION AND ANALYSIS

The District’s net investment in capital assets for its governmental activities as of June 30, 2018 amounts to \$12,958,067.

Table 4: Capital Assets (Net of Depreciation)

	Governmental 2017-2018	Governmental 2016-2017
Land and Sites	10,030	10,030
Buildings and Improvements	12,604,349	12,975,343
Equipment and Vehicles	343,688	433,888
<b>Total Capital Assets</b>	<b>12,958,067</b>	<b>13,419,261</b>

**Economic Factors**

As a result of the stewardship of the Board of Education the District enjoys an above average fund balance. The District has experienced declining enrollment, however, due to the 50 student floor in funding the revenue from state general funds has remained relatively consistent and has not declined due to enrollment decreasing. Occasionally, the District enrollment is above the 50 student mark and receives additional funding. The Board of Education and the Administration has governed the district with great care and focus; maintaining the integrity of the district for the long term.

General obligation bonds were issued December 9, 2013 for the purpose of constructing and remodeling District facilities. The Series 2013 matching money bonds of \$2,717,119 were used to match \$7,923,336 in State of Colorado BEST Program Series 2013 Project funds. These bonds were issued at an interest rate of 4.187817%.

Table 5:

**CHANGES in LONG TERM DEBT**

KIM SCHOOL DISTRICT RE-88  
RECONCILIATION OF GOVERNMENTAL FUNDS BALANCE SHEET  
TO STATEMENT OF NET POSITION  
June 30, 2018

---

Amounts reported for governmental activities in the statement of net position are different because:

<u>Total Fund Balance – Governmental Funds</u>	1,689,504
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$15,257,317 and the accumulated depreciation is \$2,299,250.	12,958,067
Property tax revenue is recognized when earned (claim to resources established) rather than when “available.” All of the deferred property tax revenue is not available.	14,600
Compensated absences are not reported as a liability in the funds.	(1,453)
Long term liabilities are not due and payable in the current period and therefore are not reported in the funds.	(2,333,987)
Accrued interest on long term debt is not reported in the funds.	(8,150)
The Districts portion of the net pension obligation for PERA is reported on the statement of net position is not reported as a liability in the funds.	(3,345,761)
The Districts portion of the net OPEB obligation is reported on the statement of net position is not reported as a liability in the funds.	(76,403)
Deferred flows for contributions made toward the net pension obligation from December 31, 2017 until June 30, 2018 is not reported in the funds.	49,339
Deferred flows for contributions made toward the net OPEB obligation from December 31, 2017 until June 30, 2018 is not reported in the funds.	2,631
Deferred employer and plan level pension flows are not reported in the funds.	750,833
Deferred employer and plan level OPEB flows are not reported in the funds.	<u>(1,982)</u>
<u>TOTAL NET POSITION – GOVERNMENTAL ACTIVITIES</u>	<u>9,697,238</u>

The accompanying notes are an integral part of these financial statements.

KIM SCHOOL DISTRICT RE-88  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN  
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
For The Year Ended June 30, 2018

---

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances – Total Governmental Funds 118,639

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more the \$5,000 are capitalized and the cost is allocated over their estimated used lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlays more than \$5,000	6,234	
Depreciation Expense	(467,428)	(461,194)

Property tax revenues received prior to the year for which the are being levied or are not “available” at year end are reported as deferred revenue in the governmental funds. They are, however, recorded as revenue in the statement of activities. Deferred property tax revenues increased this year. (4,200)

In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid). During the year, compensated absences changed by this amount. (364)

The governmental funds report debt proceeds as another financing source, while repayment of debt principal is reported as an expenditure. Interest expense is recognized as it accrues in the statement of activities regardless of when it is due. The net effect of these differences follows:

Principal Payment		101,110
Accrued Interest		350

The statement of activities reports net pension obligation which is not reported in the fund financial statements:

Change in net pension obligation		(214,831)
Change in net OPEB obligation		1,094

Deferred flows from net pension obligations		(392,014)
Deferred flows from net OPEB obligations		<u>(438)</u>

CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES (851,848)

NOTES TO BASIC FINANCIAL STATEMENTS

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Kim School District RE-88 (District) conform with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

The District operates under an elected Board of Education with five members.

The District is the lowest level of government, which is considered to be financially accountable over all activities related to public school education in Kim School District RE-88. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities. The Board of Education members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

A.    Reporting Entity

Governmental Accounting Standards board (GASB) Statement No. 14 (as amended by Statements No. 34, No. 39 and No. 61), "*The Financial Reporting Entity*" (GASB No. 14) describes the financial reporting entity as it relates to governmental accounting. According to this Statement, the financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations whose exclusion from the reporting entity's financial statements would cause those statements to be misleading or incomplete. Any organizations that can be described by these last two items are included with the primary government in the financial statements as component units.

This District is not included in any other governmental "reporting entity" as defined in GASB No. 14 and does not include any other component unit as part of its "reporting entity". As required by accounting principles generally accepted in the USA, these basis financial statements present the District (the primary government) and its component units.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements

The Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the District's governmental and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, operating statements present increases and decreases in net current assets and unreserved fund balance as a measure of available spendable resources. This means that only current liabilities are generally included on their balance sheets.

Amounts reported as program revenues included 1) charges to customers or applicants for goods, services or privileges provided 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

All governmental fund types use the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period, or soon enough thereafter, to pay liabilities of the current period. Revenues are considered to be available to collect within 60 days after year-end.

Property and automotive ownership taxes are reported as receivables and deferred revenue when levied and as revenues when due for collection in the following year and determined to be available.

Grants and entitlement revenues are recognized when compliance with matching requirements is met. A receivable is established when the related expenditures exceed revenue receipts.

Expenditures are recorded when the related fund liability is incurred with the exception of general obligation and capital lease debt service which is recognized when due and certain accrued sick and personal pay which are accounted for as expenditures when expected to be liquidated with expendable available financial resources.

The proprietary fund types are accounted for on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred. The measurement focus in these funds is on the flow of economic resources and emphasizes the determination of net income. All assets and all liabilities associated with their activity are included on their statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C.    Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's ongoing operations. The principal operating revenues of the District's proprietary funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

D.    Fund Accounting

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred flows, fund equity, revenues and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The major funds presented in the accompanying basic financial statements are as follows:

- Major Governmental Funds
  1. General Fund – the general operating fund of the District; used to account for all resources that are not required legally or by sound financial management to be accounted for in another fund.
  2. Bond Fund – used to account for the activities associated with the payment of debt obligations.

Additionally, the District reports the following fund type:

The Pupil Activity Agency Fund – this fund is used to account for the activities of student clubs and organizations held in a fiduciary capacity by the District.

E.    Cash and Investments

Cash represents amounts on deposit with financial institutions or held by the District. The District is allowed to invest in the following types of investments: short-term certificates of deposit, repurchase agreements, money market deposit accounts, mutual funds, government pools, and U.S. Treasury Obligations. The District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E.      Cash and Investments (Continued)

Investments are recorded at fair value in accordance with GASB Statement No. 72 *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

F.      Receivables

Property taxes levied in 2017 but uncollected in 2018 are identified as property taxes receivable. Amounts of property taxes that are not available at June 30, 2018 are recorded as deferred inflows, and are presented net of an allowance for uncollectible taxes. Program grants are recorded as receivables and revenues at the time reimbursable project costs are incurred.

G.      Inventories

Materials and supplies inventories are stated at cost. Inventories recorded in the Food Services Fund consist of purchased and donated commodities. Purchased inventories are stated at cost. Donated inventories, received at no cost under a program supported by the Federal Government, are recorded at their estimated fair value at the date of receipt.

The cost of all inventories is recorded as an asset when the individual inventory items are purchased, and as an expenditure or expense when consumed.

H.      Capital Assets

Capital assets, which include property, vehicles and equipment, are utilized for general District operations and are capitalized at actual or estimated cost. Donations of such assets are recorded at estimated fair value at the time of donation. Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Maintenance, repairs, and minor renovations are recorded as expenditures when incurred. Major additions and improvements are capitalized. When assets used in the operation of the governmental fund types are sold, the proceeds of the sale are recorded as revenues in the appropriate fund. The District does not capitalize interest on the construction of capital assets in governmental funds. However, the District does capitalize interest on the construction of capital assets in business-type activities.

The monetary threshold for capitalization of assets is \$5,000. The District's capital assets are depreciated using the straight-line method over the estimated useful lives of the fixed assets (5-40 years). Depreciation of all capital assets is charged as an expense against their operations. Depreciation is recorded in the year of acquisition and any remaining depreciation is recorded in the year of disposition.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I.      Long Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net position. The District records long-term debt of governmental funds at the face value. General Obligation Bonds are serviced from property taxes and other revenues of the Debt Service Fund. Capital leases are serviced from property taxes and other revenues of the General Fund. The long-term accumulated unpaid accrued sick leave is serviced from property taxes and other revenues by the respective fund type from future appropriations.

J.      Constitutional Amendment

In November 1992, Colorado voters approved Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations, which apply to the State of Colorado and local governments. It requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of an expiring tax, or tax policy change directly causing a net tax revenue gain to any entity.

On November 4, 1997 the registered voters approved a ballot resolution authorizing Kim School District RE-88 to collect, retain and expend all revenues from any source provided that no property tax mill levy be increased or any new tax be imposed.

Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple-fiscal year debt or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in all future years. TABOR requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be three percent or more of fiscal year spending (excluding bonded debt service). As of June 30, 2018, the District reserved \$33,900 for this purpose.

Spending and revenue limits are determined based on the prior fiscal year's spending adjusted for inflation in the prior calendar year plus annual increases in funded student enrollment. Fiscal year spending is generally defined as expenditures and reserve increases with certain exceptions.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K.      Property Taxes

Under Colorado law, all property taxes are due and payable in the year following the year levied. The 2017 property tax calendar for Las Animas County was as follows:

Levy Date	December 15, 2017
Lien Date	January 1, 2018
Tax Bills Mailed	January 1, 2018
First Installment Due	February 28, 2018
Second Installment Due	June 15, 2018
If Paid in Full, Due	April 30, 2018
Tax Sale – 2016 Delinquent Property Taxes	October 25, 2017

L.      Accumulated Sick Leave

Compensated absences are made up of accumulated sick leave reported as non-current liabilities in the government-wide financial statements. As of June 30, 2018, the District has recorded an estimated liability of \$1,453 relating to accrued sick leave payable.

A summary of changes in compensated absences is as follows:

	<u>Balance</u> <u>July 1, 2017</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u> <u>June 30, 2018</u>
Accumulated Sick Leave	<u>1,089</u>	<u>364</u>	<u>—</u>	<u>1,453</u>

M.      Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 1    SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N.    GASB Statement No. 54

The Government Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

1. Nonspendable such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned).
2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District Board of Directors (the District's highest level of decision-making authority).
4. Assigned fund balance classification is intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed.
5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund Balance Classification Policies and Procedures

Committed Fund Balance Policy:

The District's Committed Fund Balance is fund balance reporting required by the School Board, either because of a School Board Policy in the School Board Policy Manual, or because of motions that passed at School Board meetings.

Assigned Fund Balance Policy:

The District's Assigned Fund Balance is fund balance reporting occurring by School Board Administration authority, under the direction of the Chief Business Officer.

Order of Fund Balance Spending Policy

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First, non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then unrestricted fund balances are determined following the order of committed, assigned, and unassigned.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 1    SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N.        GASB Statement No. 54 (Continued)

Fund Balance Classification by Fund:

	General Fund	Bond Fund	Food Service Fund	Total Governmental Funds
<u>Nonspendable:</u>				
Inventories	-	-	3,344	3,344
<u>Restricted:</u>				
Emergencies	33,900	-	-	33,900
Preschool	1,262	-	-	1,262
Capital Outlay	-	-	-	-
Debt Service	-	191,673	-	191,673
Food Service	-	-	13,000	13,000
<u>Unassigned:</u>	<u>1,446,325</u>	<u>-</u>	<u>-</u>	<u>1,446,325</u>

O.        Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position and the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position and the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 2      RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental funds balance sheet includes a reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total government funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities.

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for governmental fund statements to the economic resources measurement and full accrual basis used for government-wide statements. However, certain items having no effect on measurement and basis were eliminated from the government fund statements during the consolidation of governmental activities.

<u>Items Eliminated</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>	<u>Transfer In</u>	<u>Transfer Out</u>
General Fund	-	-	-	40,000
Bond Fund	-	-	-	-
Building Fund	-	-	-	-
Food Service Fund	-	-	40,000	-

NOTE 3      BUDGETARY INFORMATION

Revenues and expenditures are controlled by budgetary accounting systems in accordance with various legal requirements. The budgeted revenues and expenditures represent the original adopted budget as subsequently adjusted by the Board of Education in accordance with Colorado School Laws. Budgets are generally prepared on the same basis as that used for accounting purposes.

The District has set procedures to be followed in establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the Business Manager submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public notices are released to obtain taxpayer comments.
3. Prior to June 30, the budget is legally enacted through passage of a resolution.
4. The Business Manager is authorized to transfer budgeted amounts between categories within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education.
5. Formal budgetary integration should be employed as a management control device during the year for the General Fund, Capital Projects Fund, Bond Fund and Special Revenue Fund.
6. Budgets for the General Fund, Capital Projects Fund, Bond Fund and Special Revenue Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets have been adopted for Trust and Agency Funds although measurement of operations is not required in the financial statements.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 3      BUDGETARY INFORMATION (continued)

All appropriations lapse at the end of each fiscal year. Authorization to transfer budgeted amounts between programs and/or departments within any fund and the reallocation of budget line items within any program and/or department rests with the Superintendent of Schools and may be delegated to an appropriate level of management. Revisions and/or supplemental appropriations that alter the total expenditures of any fund must be approved by the Board of Education.

Budgetary amounts reported in the accompanying basic financial statements are as originally adopted and amended by the Superintendent and/or the Board of Education throughout the year.

NOTE 4      CASH AND INVESTMENTS

Deposits

The Colorado Public Deposit Protection Act (PDPA), requires that all units of local government deposit cash in eligible public depositories, eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

At June 30, 2018, the District's bank balance and corresponding carrying balance were as follows:

	<u>Carrying Balance</u>	<u>Bank Balance</u>
Insured (FDIC)	1,296,410	1,296,410
Uninsured, Collateralized under the Public Deposit Protection Act of the State of Colorado	310,484	313,865
Cash with County Treasurer	16,891	-
Cash with Fiscal Agent	180,136	-
Cash on Hand	<u>250</u>	<u>-</u>
<u>Total Cash and Deposits</u>	<u>1,804,171</u>	<u>1,610,275</u>

As presented above, deposits with a bank balance of \$313,865 and a carrying balance of \$310,484 as of June 30, 2018 are uninsured, are exposed to custodial risk, and are collateralized with securities held by the pledging financial institution.

NOTE 6      PENSION PLAN

Defined Benefit Pension Plan

Summary of Significant Accounting Policies

Pensions. Kim School District RE-88 participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. Governmental accounting standards require the net pension liability and related amounts of the SCHDTF for financial reporting purposes be measured using the plan provisions in effect as of the SCHDTF's measurement date of December 31, 2017. As such, the following disclosures do not include the changes to plan provisions required by SB 18-200 with the exception of the section titled *Changes between the measurement date of the net pension liability and June 30, 2018*.

General Information about the Pension Plan

Plan description. Eligible employees of the Kim School District RE-88 are provided with pensions through the School Division Trust Fund (SCHDTF) - a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investment/pera-financial-reports](http://www.copera.org/investment/pera-financial-reports).

Benefits provided as of December 31, 2017. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 6      PENSION PLAN (Continued)

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2017, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 6**      PENSION PLAN (Continued)

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contribution provisions as of June 30, 2018.* Eligible employees and Kim School District RE-88 are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. 24-51-401, et seq. Eligible employees are required to contribute 8 percent of their PERA- includable salary. The employer contribution requirements are summarized in the table below.

	For the Year Ended December 31, 2017	For the Year Ended December 31, 2018
Employer Contribution Rate	10.15 %	10.15 %
Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. 24-51-208 (1) (f)	(1.02)%	(1.02)%
Amount Apportioned to the SCHDTF	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. 24-51-411	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. 24-51-411	5.000%	5.50%
Total Employer Contribution Rate to the SCHDTF	18.63%	19.13%

Rates are expressed as a percentage of salary as defined in C.R.S. §24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the Kim School District RE-88 is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from Kim School District RE-88 were \$95,082 for the year ended June 30, 2018.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2018, the Kim School District RE-88 reported a liability of \$3,345,761 for its proportionate share of the net pension liability. The net pension liability for the SCHDTF was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll forward the total pension liability to December 31, 2017. The Kim School District RE-88 proportion of the net pension liability was based on Kim School District RE-88 contributions to the SCHDTF for the calendar year 2017 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2017, the Kim School District RE-88 proportion was 0.0103 percent, which was a decrease of 0.0002 percent from its proportion measured as of December 31, 2016.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 6      PENSION PLAN (Continued)

For the year ended June 30, 2018, the Kim School District RE-88 recognized pension expense of \$606,845. At June 30, 2018, the Kim School District RE-88 reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	61,514	-
Changes of assumptions or other inputs	854,298	(5,421)
Net difference between projected and actual earnings on pension plan investments	66,328	(197,719)
Changes in proportion and differences between contributions recognized and proportionate share of contributions	19,877	(48,044)
Contributions subsequent to the measurement date	49,339	N/A
Total	1,051,356	(251,184)

\$49,339 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,	
2019	512,960
2020	290,606
2021	(3,303)
2022	(49,430)
2023	-
Thereafter	-

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 6      PENSION PLAN (Continued)

*Actuarial assumptions.* The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 – 9.70 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

A discount rate of 4.78 percent was used in the roll-forward calculation of the total pension liability to the measurement date of December 31, 2017.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 6**      **PENSION PLAN (Continued)**

The long-term expected return on pension plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best -estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the current long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected Geometric Real Rate of Return</b>
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income - Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
<b>Total</b>	<b>100.00%</b>	

\*In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Discount rate.* The discount rate used to measure the total pension liability was 5.26 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 6      PENSION PLAN (Continued)

- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute. AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Bond Buyer, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.43 percent, resulting in a discount rate of 4.78 percent.

As of the prior measurement date, the long-term expected rate of return on plan investments of 7.25 percent and the municipal bond index rate of 3.86 percent were used in the discount rate determination resulting in a discount rate of 5.26 percent, 0.48 percent higher compared to the current measurement date.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 6**      **PENSION PLAN (Continued)**

*Sensitivity of the Kim School District RE-88 proportionate share of the net pension liability to changes in the discount rate.* The following presents the proportionate share of the net pension liability calculated using the discount rate of 4.78 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.78 percent) or 1-percentage-point higher (6.78 percent) than the current rate:

	1% Decrease (3.78%)	Current Discount Rate (4.78%)	1% Increase (5.78%)
Proportionate share of the net pension liability	4,226,265	3,345,761	2,628,250

*Pension plan fiduciary net position.* Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**Changes between the measurement date of the net pension liability and June 30, 2018.**

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: Concerning Modifications to the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next 30 years.

A brief description of some of the major changes to plan provisions required by SB 18-200 are listed below. A full copy of the bill can be found online at [www.leg.colorado.gov](http://www.leg.colorado.gov).

- Increases employer contribution rates by 0.25 percent on July 1, 2019.
- Increases employee contribution rates by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).
- Directs the state to allocate \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution will be allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the other divisions eligible for the direct distribution.
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, modifying the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the state, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 6**      **PENSION PLAN (Continued)**

At June 30 2018, the Kim School District RE-88 reported a liability of \$3,345,761 for its proportionate share of the net pension liability which was measured using the plan provisions in effect as of the pension plan's year-end based on a discount rate of 4.78%. For comparative purposes, the following schedule presents an estimate of what the Kim School District RE-88's proportionate share of the net pension liability and associated discount rate would have been had the provisions of SB 18-200, applicable to the SCHDTF, become law on December 31, 2017. This pro forma information was prepared using the fiduciary net position of the SCHDTF as of December 31, 2017. Future net pension liabilities reported could be materially different based on changes in investment markets, actuarial assumptions, plan experience and other factors.

Estimated Discount Rate Calculated Using Plan Provisions Required by SB 18-200 (pro forma)	Proportionate Share of the Estimated Net Pension Liability Calculated Using Plan Provisions Required by SB 18-200 (pro forma)
7.25%	1,511,586

Recognizing that the changes in contribution and benefit provisions also affect the determination of the discount rate used to calculate proportionate share of the net pension liability, approximately \$1,561,822 of the estimated reduction is attributable to the use of a 7.25 percent discount rate.

**Defined Contribution Pension Plan**

**Voluntary Investment Program**

*Plan Description* – Employees of the Kim School District RE-88 that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA, Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report which includes additional information on the Voluntary Investment Program. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Funding Policy* – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions and investment earnings. For the year ended June 30, 2018, program members contributed \$462.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

NOTE 7      OTHER POST EMPLOYMENT BENEFITS

**Defined Benefit And Other Post Employment Benefit (OPEB) Plan**

Summary of Significant Accounting Policies

*OPEB.* Kim School District RE-88 participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

*Plan description.* Eligible employees of the Kim School District RE-88 are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits provided.* The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 7      OTHER POST EMPLOYMENT BENEFITS (Continued)

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

*PERA Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

*DPS Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

*Contributions.* Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 7**      **OTHER POST EMPLOYMENT BENEFITS (Continued)**

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Kim School District RE-88 is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from Kim School District RE-88 were \$5,135 for the year ended June 30, 2018.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2018, the Kim School District RE-88 reported a liability of \$76,403 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2017. The Kim School District RE-88 proportion of the net OPEB liability was based on Kim School District RE-88 contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF.

At December 31, 2017, the Kim School District RE-88 proportion was 0.0059 percent, which was a decrease of 0.0001 percent from its proportion measured as of December 31, 2016.

For the year ended June 30, 2018, the Kim School District RE-88 recognized OPEB income of \$656. At June 30, 2018, the Kim School District RE-88 reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	361	-
Changes of assumptions or other inputs	-	-
Net difference between projected and actual earnings on OPEB plan investments	-	(1,278)
Changes in proportion and differences between contributions recognized and proportionate share of contributions	-	(1,065)
Contributions subsequent to the measurement date	2,631	N/A
Total	2,992	(2,343)

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 7      OTHER POST EMPLOYMENT BENEFITS (Continued)

\$2,631 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30,	
2019	(458)
2020	(458)
2021	(458)
2022	(458)
2023	(138)
Thereafter	(12)

*Actuarial assumptions.* The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in aggregate
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	5.00 percent
Medicare Part A premiums	3.00 percent for 2017, gradually rising to 4.25 percent in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

The calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 7      OTHER POST EMPLOYMENT BENEFITS (Continued)

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
2024+	5.00%	4.25%

The Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 7      OTHER POST EMPLOYMENT BENEFITS (Continued)

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar II Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire were revised to more closely reflect actual experience.
- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, were revised to more closely reflect actual experience.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 7      OTHER POST EMPLOYMENT BENEFITS (Continued)

- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERAcare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as needed.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

**NOTE 7**      **OTHER POST EMPLOYMENT BENEFITS (Continued)**

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income - Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

\*In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the Kim School District RE-88 proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB Liability	74,301	76,403	78,935

*Discount rate.* The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2017, measurement date.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 7      OTHER POST EMPLOYMENT BENEFITS (Continued)

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

*Sensitivity of the Kim School District RE-88 proportionate share of the net OPEB liability to changes in the discount rate.* The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	85,901	76,403	68,296

*OPEB plan fiduciary net position.* Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

---

NOTE 8      RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The District maintains commercial insurance for all risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE 9      COLORADO SCHOOL DISTRICT SELF INSURANCE POOL

The District belongs to the Colorado School District's Self-Insurance Pool. The Pool was established by the Colorado Association of School Boards (CASB) to provide insurance coverage to participants in the areas of General Liability, Errors and Omissions, Automobile Liability, Auto Physical Damage, Auto Personal Injury Protection, Real and Personal Property, Crime, Workers' Compensation and other coverage. The Board of Directors is composed of eight persons; seven of whom are appointed by the Board of Directors of CASB and the Executive Director of CASB. The Pool is managed by an independent manager chosen by the Board of Directors. Each member's initial contribution and subsequent contributions are determined by the Pool based on factors including, but not limited to, the Aggregate Pool claims, the cost of Administrative and other operating expenses, the number of participants, the adequacy of both Operating and Reserve Funds and other factors touching on the status of the Pool or an individual participant, and as approved by the Colorado Insurance Commissioner.

As the District did not exercise oversight responsibility nor have sufficient control over Pool activities, the Pool is not a component unit of the District and only the District's share of contributions to the Pool is recorded as Expenditures in the General Fund.

The District's share in the Pool is not determinable from current information, but is estimated to be less than 1%. The District's share, if calculated, would not be material to the Pool's financial information at June 30, 2018.

KIM SCHOOL DISTRICT RE-88  
NOTES TO BASIC FINANCIAL STATEMENTS  
June 30, 2018

NOTE 9      COLORADO SCHOOL DISTRICT SELF INSURANCE POOL (Continued)

An audited summary of the Colorado School District's Pool financial information at June 30, 2017 and for the six months then ended (latest information available) follows:

Total Assets	<u>42,273,940</u>
Total Liabilities	<u>11,655,251</u>
Total Equity	<u>30,618,689</u>
Revenue	7,429,394
Underwriting Expenses	<u>4,126,717</u>
Underwriting Gain (Loss)	3,302,677
Net Investment Income	276,653
Other Income	-
Net Income (Loss) Before Dividend	<u>3,579,330</u>
Dividend	-
Net Income	<u>3,579,330</u>
Transfer of Capital Contributions	-
Change in Non Admitted Assets	<u>235,606</u>
Capital Contributions from Members	-
Unassigned Surplus	<u><u>30,618,689</u></u>

NOTE 10      FOOD INVENTORIES

Food Service Fund inventories at June 30, 2018, consisted of purchased, non-food and donated commodities amounting to \$3,344. Purchased inventories are stated at cost. Donated inventories, received at no cost under a program supported by the United States Government, are recorded at their estimated fair market value at the date of receipt.

NOTE 11      ACCRUED SALARIES AND BENEFITS

Salaries and retirement benefits of certain contractually employed personnel are paid over a twelve month period from September to August, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, at June 30, 2018 are estimated to be \$55,756. Accordingly, the accrued compensation is reflected as a liability in the accompanying financial statements of the various funds.

NOTE 12      LITIGATION

None.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 13      SUMMARY DISCLOSURE OF SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Claims and Judgments - The District participates in a number of federal, state and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. As of June 30, 2018, significant amounts of grant expenditures have not been audited by the grantor but the District believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on any of the individual government funds or the overall financial position of the District.

NOTE 14      JOINT VENTURES

Not reflected in the accompanying financial statements is the District's participation in the Southeastern Board of Cooperative Educational Services (BOCES). The BOCES is an organization that provides member districts educational services at a shared lower cost per District.

The District has one member on the Board. The Board has final authority for all budgeting and financing of the joint venture. The District's share of the joint venture is not determinable at June 30, 2018. The joint venture summary audited financial information as of June 30, 2017 is as follows:

Assets and Deferred Outflows	<u>3,380,566</u>
Liabilities and Deferred Inflows	<u>6,557,276</u>
Net Position	<u>(3,176,710)</u>
Revenues	2,449,802
Expenditures	<u>3,215,297</u>
Change In Net Position	<u>(765,495)</u>

The BOCES is not included as a component unit of the District as the financial responsibility is minimal, there is no financial interdependency, the District does not have the ability to significantly influence the operations of the BOCES and the District is not accountable for fiscal matters of the BOCES. The BOCES is audited annually and files a report with the Colorado State Auditor's Office.

NOTE 15      INTERFUND BALANCES AND TRANSFERS

<u>INTERFUND BALANCES</u>	<u>Due To</u>	<u>Due From</u>
Major Funds	-	-
<u>Nonmajor Funds</u>	<u>-</u>	<u>-</u>
	<u>-</u>	<u>-</u>
<u>TRANSFERS</u>	<u>Trans In</u>	<u>Trans Out</u>
General Fund	-	40,000
Food Service Fund	<u>40,000</u>	<u>-</u>
	<u>40,000</u>	<u>40,000</u>

Transfers were made from the General Fund to the Food Service Fund for the purpose of assisting operations. Due To and Due From are to be repaid within three months of year end.

KIM SCHOOL DISTRICT RE-88  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 June 30, 2018

NOTE 16     LONG-TERM DEBT – GENERAL OBLIGATION BONDS

	<u>Balance</u> <u>7/1/2017</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance</u> <u>6/30/2018</u>	<u>Current</u> <u>Portion</u>
G.O. Matching Money Bonds 2013	2,435,097	-	101,110	2,333,987	105,345

Series 2013 General Obligation Matching Money Bonds

These general obligation bonds were issued December 9, 2013 for the purpose of constructing District facilities. The Series 2013 matching money bonds of \$2,717,118 were used to match \$7,923,336 in State of Colorado – BEST Program Series 2013 Project funds. These bonds were issued at an interest rate of 4.187817%.

Below is a schedule of debt service to maturity:

<u>Year Ended</u> <u>6-30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	105,345	95,537	200,882
2020	109,756	91,033	200,789
2021	114,353	86,341	200,694
2022	119,142	81,451	200,593
2023	124,131	76,358	200,489
2024-2028	703,124	297,592	1,000,716
2029-2033	863,211	134,154	997,365
2034	<u>194,925</u>	<u>4,082</u>	<u>199,007</u>
	<u>2,333,987</u>	<u>866,548</u>	<u>3,200,535</u>

NOTE 17     RESTATEMENT OF BEGINNING NET POSITION

The net position of the governmental activities has been restated to reflect the implementation of GASB Statement 75. That statement requires that the District report their portion of any post employment benefit (OPEB) liability, and related deferred flows. The beginning net position of \$10,625,496 has been changed by the net OPEB liability at June 30, 2017 of \$(77,497) and related deferred flows of \$1,087, resulting in a restated beginning net position of \$10,549,086.
