INDEPENDENT AUDITORS' REPORT

October 25, 2018

The Board of Education
Ouray County School District No. R-2
Ridgway, Colorado

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ouray County School District No. R-2 (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Ouray County School District No. R-2
Page Two

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Ouray County School District No. R-2, as of June 30, 2018, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the pension schedules, and the OPEB schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Ouray County School District No. R-2's basic financial statements. The combining statement and schedule for the nonmajor governmental funds, the budgetary comparison schedules, and the Auditors Integrity Report of the Colorado Department of Education (the Report) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Chadwick, Steinkirchner, Davis & Co., P.C.

Management's Discussion and Analysis

Ridgway School District R-2

June 30, 2018

As management of the Ridgway School District R2 we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2018.

Financial Highlights

The liabilities and deferred inflows of resources of the District were more than its assets and deferred outflows of resources at the close of the most recent fiscal year by \$(3,167,079) (net position). Of this amount, \$7,515,395 is invested in capital assets (net of related debt), \$144,284 is restricted for emergencies, \$1,777,579 is restricted for debt service, leaving an unrestricted negative net position balance of (\$12,604,337).

At the end of the current fiscal year, fund balance for the general fund was \$1,615,744. This is attributable to a conservative approach in budgeting for the school district so the fund balance is covering at least three months of operating expenditures.

During the fiscal year, the fund balance in the District's general fund increased by \$43,089.

The District's long-term obligations decreased by a net amount of \$655,424 as the result of current year payments on the debt.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The government-wide financial statements only have governmental activities that are principally supported by taxes and intergovernmental revenues. The governmental activities of the District include instructional services, pupil services, instructional staff services, general administration services, school administration services, maintenance and capital asset services, and transportation services. The government-wide financial statements include only the District itself, as the District has no component units. The government-wide financial statements can be found on pages 9 and 10 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, the Bond Redemption Debt Service Fund, the Capital Projects Fund, and nonmajor governmental funds. The General, Bond Redemption, and Capital Projects funds are considered to be major funds.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 11-15 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District uses an agency fund to account for resources held for student activities and groups.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17-45 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources were more than assets and deferred outflows of resources by \$(3,167,079) at the close of the most recent fiscal year.

The District's net position in its net investment in capital assets (e.g., land and improvements, buildings, and equipment); less any related debt used to acquire those assets that is still outstanding, is \$7,515,395. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's net investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Property taxes are levied specifically to fund debt service on general obligation bonds.

Ridgway School District R2 Net Position

	<u>Governmental Activities</u>	
	2017	2018
Current and other assets	\$3,843,283	\$3,993,894
Capital assets	<u>11,875,058</u>	<u>11,582,002</u>
Total assets	<u>15,718,341</u>	<u>15,575,896</u>
Deferred Outflows	6,988,126	5,347,132
Long-term liabilities outstanding	4,993,283	4,346,019
Other liabilities	517,976	541,457
Net Pension and OPEB Liabilities	<u>16,927,884</u>	<u>17,998,434</u>
Total liabilities	<u>22,439,143</u>	<u>22,885,910</u>
Deferred Inflows	428,923	1,204,197
Net position:		
Net investment in capital asset	7,186,005	7,515,395
Restricted	1,827,035	1,921,863
Unrestricted	<u>(9,174,639)</u>	<u>(12,604,337)</u>
Total net position	<u>\$(161,599)</u>	<u>\$(3,167,079)</u>

The District was required to implement GASB 75 which addresses OPEB liabilities and expenses for the prior year. This, along with the pension activity, resulted in continued large noncurrent liabilities and a negative net position.

The largest portion of the District's assets (seventy-four percent) reflects its investment in capital assets, less accumulated depreciation. Twenty-five percent of the District's assets are cash and investments. Ninety-six percent of the District's current liabilities represent accrued salaries and fringe benefits. This liability occurs when teachers and certain other District employees work nine months of the year, but are paid over a full twelve months. Therefore, for each month these employees work, they earn more than they are paid. Colorado statutes do not require the liability to be funded or budgeted for until the year in which it is paid.

The liability will be paid in the months of July and August 2018 with state funds received in fiscal year 2019. There was a decrease in long-term bonds outstanding of \$640,337 due to payment of debt obligations and amortization of bond premiums.

Ridgway School District R2 Changes in Net Position

	<u>Governmental Activities</u>	
	2017	2018
Revenues:		
Charges for services	\$ 260,547	\$276,240
Operating grants	126,167	150,831
Capital grant	85,548	155,325
Property taxes levied for general purposes	1,884,902	1,908,884
Property taxes levied for debt services	856,355	831,745
State equalization	2,051,574	2,166,910
Specific ownership taxes	251,768	269,999
Investment earnings	27,195	26,106
Miscellaneous revenue	<u>20</u>	<u>2</u>
Total revenues	<u>5,544,076</u>	<u>5,786,042</u>
Expenses:		
Instructional services	4,312,043	4,603,900
Support services:		
Pupils	300,575	338,090
Instructional Staff	157,871	183,567
General administration	765,500	894,900
School administration	743,269	751,612
Operations/maintenance	764,418	751,172
Pupil transportation	428,333	380,050
Food services	290,551	343,178
Interest on long-term debt	<u>154,582</u>	<u>138,696</u>
Total expenses	<u>7,917,142</u>	<u>8,385,165</u>
Change in net position	(2,373,066)	(2,599,123)
Net position - beginning	2,211,467	(161,599)
Change in accounting principle	<u>-</u>	<u>(406,357)</u>
Net position – beginning, restated	<u>2,211,467</u>	<u>(567,956)</u>
Net position-ending	<u>\$ (161,599)</u>	<u>\$(3,167,079)</u>

Key elements of the change in net position are as follows:

State equalization aid increased by **\$115,336 (five percent)** during the fiscal year. Property taxes levied for general purposes and for debt service decreased slightly. Some of the increase is the product of the Colorado Public School Finance Act, which provides for the majority of the funding of local school districts based on a funded pupil count formula and a standardized maximum statewide property tax mill levy.

General fund expenditures actually spent were \$92,222 under budget. While all staff received a longevity step increase in their salary, the District took steps to reduce expenditures in other areas. This was primarily in reaction to potential reductions in state funding.

The continued implementation of GASB 68 and the new implementation of GASB 75 (OPEB) had a major impact on the net position and expenses of the District.

Governmental funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$3,462,178. *Unassigned fund balance* is \$1,451,396. Restricted fund balance of \$144,284 must be set aside for emergencies (Tabor).

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the total fund balance was \$1,615,744.

The fund balance of the District's General Fund increased by \$43,089 during the current fiscal year.

General Fund Budgetary Highlights

There were no amendments to the General Fund budget that was revised prior to January 31, 2018, nor were any significant variances from budget to actual noteworthy.

Capital assets. The District's investment in capital assets for its governmental activities as of June 30, 2018 amount to \$11,582,002 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, and vehicles and equipment. The total decrease in the District's investment in capital assets for the current fiscal year was due various minor additions to building improvements and equipment and the purchase of a bus offset by depreciation.

Long-term debt. At the end of the current fiscal year, the District had total outstanding bonded debt of \$4,070,000, which are general obligation bonds that are backed by the full faith and credit of the District. The general obligation bonds maintain a rating of "AAA" from Standard & Poor's. State statutes limit the amount of general obligation debt a governmental entity may issue to 20 percent of its total assessed valuation. The current debt limitation for the District is \$18,878,552 which is significantly in excess of the District's outstanding general obligation debt.

Economic Factors and Next Year's Budgets

The District's enrollment increased for 2017-2018. Trends in enrollment directly impact the school district's budget for funding. Rising inflation costs and State budget cuts will directly affect the State of Colorado's funding formula for school districts in the future.

Ever-rising costs of health insurance for our staff benefit program means the District has to be very resourceful in purchasing goods and services.

In November 2000, voters in Colorado approved Amendment 23 to the Colorado constitution providing that K-12 funding would increase at pupil growth plus inflation plus one percent for 10 years and thereafter, growth plus inflation. The amendment created a State Education Fund, which was intended to accumulate revenues to support this level of funding. This provision was intended to stabilize and remove funding from the political process.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Ridgway School District R2 Business Manager, 1115 W Clinton, Ridgway, Colorado 81432.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES

Year ended June 30, 2018

Amounts reported for governmental activities in the statement of activities
are different because:

Net change in fund balances - total governmental funds		\$ 125,821
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period. (\$438,790 - 145,734)		(293,056)
In the governmental funds, expenditures for the defined benefit pension and OPEB plans are measured by the amount of financial resources used, whereas in the statement of activities they are measured as the liability is accrued according to actuarial estimates. This is the amount the net pension and OPEB obligations, with accompanying deferred outflows/inflows, changed in the current year.		(3,047,484)
Governmental funds report repayment of debt principal as an expenditure. Also, governmental funds report the effect of debt premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. The net effect of these differences in the treatment of long-term debt is as follows:		
Debt principal payments	635,087	
Change in accrued compensated absences	(8,160)	
Change in accrued interest payable	1,308	
Amortization of deferred loss on debt refunding	(32,976)	
Accretion on bond premium	20,337	<u>615,596</u>
Change in net position of governmental activities		<u>\$ (2,599,123)</u>

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Ridgway School District No. R-2 (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body establishing governmental accounting and financial reporting principles.

The following is a summary of the District's significant accounting policies:

1. The Reporting Entity

The District is governed by a five member Board of Education and is organized and operates in accordance with Colorado statutes. Board of Education members are elected by the citizens of Ouray County, residing within the District's boundaries. The Board is not appointed by any other governing body. The Board selects the superintendent of schools and senior level administrators. The Board is solely responsible for the District's budget adoption process. The District independently issues debt for short and long-term financing. The District meets the criteria of a primary government: its Board is the publicly elected governing body; it is a legally separate entity; and it is fiscally independent. The District is not included in any other governmental reporting entity, and has no component units.

2. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

3. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *Capital Projects Fund* accounts for ongoing capital needs, such as site acquisition, building additions, and equipment purchases.

Additionally, the District reports the following fund types:

The *Grant Fund* accounts for revenue and expenditures of funds as proscribed by various federal, state and local grantors as awarded to the District.

The *Food Service Fund* accounts for the activities of the nutrition services operations.

The *Student Body Activities Agency Fund* is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations or budgetary accounting. However, the Colorado State Auditor's Office has determined that an annual budget and appropriation be adopted by the Board of Education.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund activity is not eliminated in the fund financial statements.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Amounts reported as *program revenues* include 1) charges to students and customers for tuition, fees, rental or services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all property taxes.

4. Assets, Liabilities and Net Assets or Equity

Cash and Investments

State statutes authorize the government and the District to invest in obligations of the U.S. Treasury, obligations unconditionally guaranteed by U.S. agencies, certain international agency securities, certain types of bonds of U.S. local government entities, bankers acceptances of certain banks, commercial paper, written repurchase agreements collateralized by certain authorized securities, certain money market funds and guaranteed investment contracts.

Investments for the District are reported at fair value.

Receivables and Payables

Interfund receivables and payables result from overdraws of the cash and investment pool. These outstanding balances between funds are reported as “due to/from other funds.”

Inventories

Inventories of expendable supplies and materials are valued at cost using the first-in, first-out basis. Inventory items are charged to expenditures when they are consumed. United States Department of Agriculture commodity inventories are valued using Federal guidelines.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Property, plant, and equipment of the District is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and building improvements	15 - 40
Vehicles	10
Equipment	4 - 25

Future Compensated Absences

When a staff member accumulates leave days beyond the annual numbers set by the Board, they are deemed to be vested in the leave program. The number of days required to be vested was 35 days for the 2017/2018 school year. Staff members may accumulate up to 60 leave days. Once a staff member accumulates 60 days, the staff member will receive payment annually for the number of days over 60.

Upon resignation or retirement a vested employee will be paid 100% of the substitute wage or the lowest rate for each classification paid per day for each day accumulated, not to exceed 60 days. This payment will be made by July 1 of the year the vested employee resigns or retires.

Long-term obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

5. Stewardship, compliance and accountability

Budgetary Information

Annual budgets are adopted for all funds on a basis consistent with GAAP, with the exception that the accrual for salaries and benefits in the Grants fund is not budgeted. In June, the Board of Education adopts the budget for the following fiscal year. In accordance with Colorado statutes, the Board makes final changes, if any, when it “readopts” the budget by January 31. The Board may amend or adopt supplemental budgets during the budget year. There was one supplemental appropriation during the current year.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Budgeted level of expenditures

Expenditures may not legally exceed appropriations at the fund level. Administrative control is maintained through the use of detailed line-item budgets. Budgets must be amended at the fund level by the Board of Education. At year-end, all appropriations lapse in accordance with Colorado statutes. The District did not have any funds that exceeded their appropriations.

6. Pensions

The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. Governmental accounting standards require the net pension liability and related amounts of the SCHDTF for financial reporting purposes be measured using the plan provisions in effect as of the SCHDTF's measurement date of December 31, 2017. As such, the following disclosures do not include the changes to plan provisions required by SB 18-200 with the exception of the section titled *Changes between the measurement date of the net pension liability and June 30, 2018*.

7. Adoption of GASB 75

For the year ended June 30, 2018, the District adopted the provisions of Statement of Governmental Accounting Standards (GASB Statement) No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which replaces the requirements of Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

8. Defined Benefit Other Post Employment Benefit Plan (OPEB)

The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to the OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE B – CASH AND INVESTMENTS

Cash and investments consist of the following:

Demand accounts	\$ 2,284,746
Certificate of deposit	36,191
ColoTrust	<u>1,756,501</u>
Total cash and investments	<u>\$ 4,077,438</u>

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories; eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The District's bank balance for deposits was \$2,111,468 of which \$500,000 was FDIC insured and the remainder of \$1,711,468 was covered by PDPA as described above.

The District is invested in the Colorado Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local government entities in Colorado pursuant to Part 7 of article 75 of the Colorado Revised Statutes. COLOTRUST operates similarly to a money market fund and each share is equal in value to \$1.00. The fair value of the position in the pool is the same as the value of the pool shares. The designated custodial bank provides safe keeping and depository services in connection with the direct investments and withdrawal functions, substantially all securities owned by the pool are held by the Federal Reserve Bank in the account maintained by the custodial bank. The pool carried a rating of AAAM from Standard & Poor's.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE C – PROPERTY TAXES

Property Tax Calendar

The District's property taxes certified by the Board of Education by December 15 and levied on assessed valuation by the Ouray County Commissioners by December 22, are due and payable in the subsequent calendar year. Assessed values are established by the county assessor. Property taxes attach as an enforceable lien on property as of January 1 of the year in which payable. The taxes are payable under two methods: 1) in full on or before April 30; 2) one-half on or before February 28 and the remaining on-half on or before June 15. The Ouray County Treasurer collects all property taxes. District taxes are received by the 10th of the month following the month of collection, except for the months of March, May and June, when two payments are received.

General Obligation Bonds

General Obligation Refunding Bonds, Series 2012

On March 22, 2012 the District issued General Obligation Refunding Bonds, Series 2012 in the principal amount of \$5,470,000. The Bonds were issued to refund a portion of the District's outstanding General Obligation Bonds, Series 2004. Bond payments require interest to be paid semi-annually on June 1 and December 1 with an annual principal payment due December 1. Interest rates vary from 2.00% to 2.50%.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE E – LONG-TERM LIABILITIES – CONTINUED

General Obligation Bonds, Series 2008

In January 2009, the District issued general obligation bonds in the amount of \$2,200,000 in order to finance the costs of constructing, equipping, and improving: (i) a regulation gymnasium and locker rooms, (ii) a performing arts studio/music classroom, and (iii) a climbing wall and weight training facility to District buildings. Bond payments require interest to be paid semi-annually on June I and December I with an annual principal payment due December 1. Interest rates vary from 3.00% to 5.50%.

Debt service requirements for general obligation bonds are as follows:

<u>General Obligation Refunding Bonds, Series 2012</u>			
<u>Maturity</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ 525,000	\$ 72,326	\$ 597,326

2019	\$ 110,000	\$ 36,568	\$ 146,568
2020	115,000	30,943	145,943
2021	120,000	25,069	145,069
2022	125,000	18,788	143,788
2022-2024	285,000	16,003	301,003
Total	<u>\$ 755,000</u>	<u>\$ 127,371</u>	<u>\$ 882,371</u>

In March 2014 the District entered into a lease agreement for the purchase of a 2015 Blue Bird Bus. The agreement called for 7 annual payments of \$17,373. Total cost of the bus was \$108,410 plus interest of \$13,203. Debt service requirements to maturity for this lease-purchase agreement are as follows:

<u>2015 Blue Bird Bus #25</u>			
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2019	\$ 15,629	\$ 1,744	\$ 17,373
2020	16,190	1,183	17,373
2021	16,772	601	17,373
Total	<u>\$ 48,591</u>	<u>\$ 3,528</u>	<u>\$ 52,119</u>

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE E – LONG-TERM LIABILITIES – CONTINUED

Voluntary Exit Program

In the 1997-98 fiscal year, revised in fiscal year 2010, the District established a voluntary exit program to provide an opportunity to certain employees who may desire to exit from the service of the District, but who may or may not have reached the normal retirement age. During fiscal year 2018 no employees opted for the program.

Accrued Compensated Absences

At June 30, 2018 the District reported a liability for discretionary leave days for employees in the amount of \$117,272

NOTE F – FUND BALANCES

GASB Statement No. 54 clearly defines fund balance categories by providing fund balance classifications which can be more consistently applied and by clarifying the existing governmental fund type definitions. The following classifications describe these categories:

- *Non-spendable fund balance* - The portion of fund balance that cannot be spent because it is either not in spendable form (such as inventory) or is legally or contractually required to be maintained intact.
- *Restricted fund balance* - The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.
- *Committed fund balance* - The portion of fund balance constrained for specific purposes according to limitations imposed by the District's highest level of decision making authority, the School Board, prior to the end of the current fiscal year. The constraint may be removed or changed only through formal action of the School Board.
- *Assigned fund balance* - The portion of fund balance set aside for planned or intended purposes. The intended use may be expressed by the School Board or other individuals authorized to assign funds to be used for a specific purpose. Assigned fund balances in special revenue funds will also include any remaining fund balance that is not restricted or committed. This classification is necessary to indicate that those funds are, at a minimum intended to be used for the purpose of that particular fund.
- *Unassigned fund balance* - The residual portion of fund balance that does not meet any of the above criteria. The District will only report a positive unassigned fund balance in the General Fund.

If both restricted and unrestricted amounts of fund balance are available for use when an expenditure is incurred, it is District policy to use restricted amounts first. Unrestricted fund balance will be used in the following order: committed, assigned, and unassigned. The Food Service fund ended the year with a deficit fund balance of \$16,104. Also, per District policy, the Board shall protect the future fiscal health of the District by maintaining a reserve fund balance in the General Fund of no less than 25% of expenditures.

NOTES TO FINANCIAL STATEMENTS

NOTE G – DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

Plan description. Eligible employees of the District are provided with pensions through the School Division Trust Fund (SCHDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided as of December 31, 2017. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

As of December 31, 2017, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA’s Annual Increase Reserve (AIR) for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of June 30, 2018: Eligible employees and the District are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	For the Year Ended December 31, 2017	For the Year Ended December 31, 2018
Employer contribution rate ¹	10.15%	10.15%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f) ¹	(1.02)%	(1.02)%
Amount apportioned to the SCHDTF ¹	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	5.00%	5.50%
Total employer contribution rate to the SCHDTF¹	18.63%	19.13%

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

¹Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$493,988 for the year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the District reported a liability of \$17,596,600 for its proportionate share of the net pension liability. The net pension liability for the SCHDTF was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total pension liability to December 31, 2017.

The District proportion of the net pension liability was based on the District contributions to the SCHDTF for the calendar year 2017 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2017, the District proportion was .054417 percent, which was a decrease of .002438 from its proportion measured as of December 31, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$3,539,767. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$323,527	\$–
Changes of assumptions or other inputs	4,493,066	28,512
Net difference between projected and actual earnings on pension plan investments	–	691,035
Changes in proportion and differences between contributions recognized and proportionate share of contributions	95,178	462,788
Contributions subsequent to the measurement date	257,587	N/A
Total	\$5,169,358	\$1,182,335

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

\$257,587 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30, 2018:	
2019	\$ 2,562,245
2020	1,468,053
2021	(40,893)
2022	(259,969)
2023	–
Thereafter	–

Actuarial assumptions. The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 – 9.70 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07; and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

A discount rate of 4.78 percent was used in the roll-forward calculation of the total pension liability to the measurement date of December 31, 2017.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure the total pension liability was 4.78 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan’s fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan’s fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF’s fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Bond Buyer, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.43 percent, resulting in a discount rate of 4.78 percent.

As of the prior measurement date, the long-term expected rate of return on plan investments of 7.25 percent and the municipal bond index rate of 3.86 percent were used in the discount rate determination resulting in a discount rate of 5.26 percent, 0.48 percent higher compared to the current measurement date.

Sensitivity of the District proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 4.78 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.78 percent) or 1-percentage-point higher (5.78 percent) than the current rate:

	1% Decrease (3.78%)	Current Discount Rate (4.78%)	1% Increase (5.78%)
Proportionate share of the net pension liability	\$22,227,499	\$17,596,600	\$13,822,947

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Pension plan fiduciary net position. Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Changes between the measurement date of the net pension liability and June 30, 2018

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next 30 years.

A brief description of some of the major changes to plan provisions required by SB 18-200 are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

- Increases employer contribution rates by 0.25 percent on July 1, 2019.
- Increases employee contribution rates by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).
- Directs the state to allocate \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution will be allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the other divisions eligible for the direct distribution.
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, modifying the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the state, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.

At June 30, 2018, the District reported a liability of \$17,596,600 for its proportionate share of the net pension liability which was measured using the plan provisions in effect as of the pension plan's year-end based on a discount rate of 4.78%. For comparative purposes, the following schedule presents an estimate of what the District proportionate share of the net pension liability and associated discount rate would have been had the provisions of SB 18-200, applicable to the SCHDTF, become law on December 31, 2017. This pro forma information was prepared using the fiduciary net position of the SCHDTF as of December 31, 2017. Future net pension liabilities reported could be materially different based on changes in investment markets, actuarial assumptions, plan experience and other factors.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Estimated Discount Rate Calculated Using Plan Provisions Required by SB 18-200 (pro forma)	Proportionate Share of the Estimated Net Pension Liability Calculated Using Plan Provisions Required by SB 18-200 (pro forma)
7.25%	\$ 7,949,991

Recognizing that the changes in contribution and benefit provisions also affect the determination of the discount rate used to calculate proportionate share of the net pension liability, approximately \$8,214,203 of the estimated reduction is attributable to the use of a 7.25 percent discount rate.

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN

General Information about the OPEB Plan

Plan description. Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$26,677 for the year ended June 30, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the District reported a liability of \$401,834 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2017. The District proportion of the net OPEB liability was based on District contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF.

At December 31, 2017, the District proportion was .03092 percent, which was a decrease of .001397 from its proportion measured as of December 31, 2016.

For the year ended June 30, 2018, the District recognized OPEB expense of \$28,382. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$1,900	\$–
Net difference between projected and actual earnings on OPEB plan investments	–	6,722
Changes in proportion and differences between contributions recognized and proportionate share of contributions	–	15,140
Contributions subsequent to the measurement date	13,734	N/A
Total	\$15,634	\$21,862

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

\$13,734 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30, 2018:	
2019	\$(4,281)
2020	(4,281)
2021	(4,281)
2022	(4,281)
2023	(2,600)
Thereafter	(238)

Actuarial assumptions. The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in aggregate
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	5.00 percent
Medicare Part A premiums	3.00 percent for 2017, gradually rising to 4.25 percent in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

Ouray County School District No. R-2
 NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
2024+	5.00%	4.25%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire were revised to more closely reflect actual experience.
- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, were revised to more closely reflect actual experience.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

- The rates of PERAcare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as needed.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the District proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB Liability	\$390,778	\$401,834	\$415,151

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE H – DEFINED BENEFIT OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – CONTINUED

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2017, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF’s fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the District proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$451,788	\$401,834	\$359,197

OPEB plan fiduciary net position. Detailed information about the HCTF’s fiduciary net position is available in PERA’s comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE I – DEFINED CONTRIBUTION PENSION PLAN

Plan Description. Employees of Ouray County School District No. R-2 that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy. The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. In addition, the District has agreed to match employee contributions up to a certain percent. Employees are immediately vested in their own contributions and investment earnings. For the year ended June 30, 2018, program members contributed \$13,009 and the District recognized pension expense of \$5,605 for the Voluntary Investment Program.

NOTE J – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the District's participation as a member of the Colorado School District Self Insurance Pool, which operates as a risk-sharing public entity risk pool comprised of various school districts and other related public educational entities within the State of Colorado. The Pool provides the District with general, property and vehicle liability insurance. In the event of the impairment or insolvency of the Pool, the District may be assessed such amounts as may be necessary to ensure the solvency of the Pool.

NOTE K – TAX, SPENDING AND DEBT LIMITATIONS

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations including revenue raising, spending abilities and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the Amendment. However, the District has made certain interpretations of the Amendment's language in order to determine its compliance. In a general election held on November 2, 1999, voters approved a ballot issue which allows the District to exceed the revenue limitations for the year ended June 30, 1999 and into the future.

NOTE L – COMMITMENTS AND CONTINGENCIES

Grants - The District receives significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the District's independent auditors and other governmental auditors. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. Based on prior experience, the District administration believes such disallowance, if any, would be immaterial.

Ouray County School District No. R-2

NOTES TO FINANCIAL STATEMENTS

June 30, 2018

NOTE L – COMMITMENTS AND CONTINGENCIES – CONTINUED

Litigation - The District is not party to any litigation. Management believes that any potential claims against the District, not covered by insurance, would not materially affect the financial statements of the District.

NOTE M – INTERFUND TRANSFERS AND DUE FROM/TO

The General Fund transferred \$158,957 to the Capital Projects Fund to provide funding of budgeted projects, \$84,206 to the Food Service Fund to subsidize operations, and \$174 to the Grant Fund for grant monies belonging to the Grant Fund. The Food Service Fund owes the General Fund \$3,367 for the Food Service Fund's negative cash balance at June 30, 2018.

NOTE N – JOINT VENTURE

The District is a member of the Uncompahgre Board of Cooperative Services (BOCS), a joint venture of several local school districts. The BOCS is governed by a board formed of one board member from each member district. The participants oversee budgeting and finance. The following was extracted from the BOCS fund financial statements of June 30, 2018, and for the year then ended.

Total assets	\$ 352,778
Total liabilities	146,741
Total fund equity	206,037
Total revenues	1,071,690
Total expenditures	1,080,920
Excess of revenues over (under) expenditures	(9,230)

The District had no debt with the joint venture at June 30, 2018.

NOTE O – CHANGE IN ACCOUNTING PRINCIPLE

Effective July 1, 2017, the District retroactively changed its method of accounting for OPEB contributions and related obligations to conform to GASBS No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Under the new accounting method, the District accrues a net OPEB liability related to its participation in a multiple employer cost sharing OPEB plan. The effect of the change decreased beginning net position for 2018 by \$406,357, from (\$161,599) to (\$567,956).

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

Note 1: Factors that Significantly Affect Trends in the Amounts Reported

For the measurement period ended December 31, 2016, the discount rate changed from 7.5% to 5.26%. This change significantly affected the total plan net pension liability and the employer share of the net pension liability. There were no other changes in benefit terms, size or composition of the population covered by the benefit terms, or assumptions used that significantly affect trends in the amounts reported.

Ouray County School District No. R-2
