### **Management’s Discussion and Analysis**

As management of Animas High School (AHS or the “school”), we offer readers of Animas High School’s financial statements this narrative overview and analysis of the financial activities of the school for the fiscal year ended June 30, 2018.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Animas High School’s basic financial statements. Animas High School’s basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. The school is a 501c(3) non-profit corporation engaged in a single governmental program.

**Government-wide Financial Statements** - The government-wide financial statements are designed to provide readers with a broad overview of Animas High School’s finances, in a manner similar to a private-sector business. The Statement of Net Position presents information on all Animas High School’s assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the school is improving or deteriorating. The Statement of Activities presents information showing how Animas High School’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods.

In the Statement of Net Position and the Statement of Activities, we divide the School into two kinds of activities:

- Governmental activities – Most of the School’s day-to-day activities are reported here.
- Business-type activities – The building corporation, which has been charged with the acquiring, leasing, constructing, improving, equipping and financing various facilities, land, equipment and other improvements on behalf of the School, activities are reported here.

**Fund Financial Statements** - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The school, like other non-profits, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The School's two kinds of funds, governmental and proprietary, uses different accounting approaches.

- Governmental funds – Most of the School's basic day-to-day activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are nonspendable, restricted, committed, assigned, or unassigned. These classifications of fund balance show the nature and extent of constraints placed on the School's fund balances by law, creditors and the School's annually adopted budget. Unassigned fund balance is available for spending for any purpose. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.
- Proprietary funds – These funds are reported in the same way that the business-type activities are reported in the Statement of Net Position and the Statement of Net Activities in the government-wide statements but provided more detail and additional information, such as cash flows.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**Notes to the Financial Statements** - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 15 through 46 of this report.

**Supplementary Information** - Supplementary information is contained on pages 47 - 49 and provides additional insight into how Animas High School's actual operations compared to the budgeted operations.

**Government-wide Financial Analysis** - Animas High School's primary source of revenue is the state equalization revenue from the Colorado Department of Education. These revenues are based on a per pupil allocation as determined by the Colorado State Legislature. The state per pupil revenue allocation is as follows:

2013/2014	\$5,834.75	PPR
2014/2015	\$6,803.51	PPR
2015/2016	\$7,131.89	PPR
2016/2017	\$7,256.57	PPR
2017/2018	\$7,509.45	PPR

Other sources of revenues include donations, student fees and smaller program specific State and Federal grants.

The following table shows AHS' condensed Statement of Net Position – Governmental Activities and Statement of Activities – Governmental Activities for the years ended June 30, 2018 and 2017:

<b>Animas High School- Statement of Net Position - June 30,</b>	<u>2018</u>	<u>2017</u>

NET POSITION - End of Year	<u>\$ (7,927,169)</u>	<u>\$ (5,612,310)</u>

As noted previously, Animas High School uses governmental fund accounting to ensure and demonstrate the compliance with finance-related legal requirements. The focus of the school's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing Animas High School's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

**Tabor Reserve** - The Taxpayers Bill of Rights law requires governmental entities to reserve 3% of its state revenues. Accordingly, a reserve of fund balance in the amount of \$65,000 has been established in these financials.

**Request for Information**

This financial report is designed to provide a general overview of the schools financial position. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Sean Woytek, Head of School or Jeff King, Board President of Animas High School, PO Box 3496, Durango, Colorado, 81302.

---

**INDEPENDENT AUDITORS' REPORT**

Board of Directors  
Animas High School  
Durango, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of Animas High School, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Animas High School's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities and each major fund of Animas High School, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flow thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As described in Note 1 to the financial statements, in the fiscal year ended June 30, 2018, Animas High School adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*. Our opinion is not modified with respect to this matter.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1**      **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Animas High School (AHS or the School), a Colorado non-profit corporation, was created in 2006 for the sole purpose of developing and operating a public, free charter school located in Durango, Colorado.

AHS' financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the School are discussed below.

**Financial Reporting Entity**

The financial reporting entity consists of the School and organizations for which the School is financially accountable. Financial accountability exists if the School appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization provides benefits to, or imposes financial burdens on the School.

The Animas High School Building Corporation (AHSBC or the Corporation) is considered to be financially accountable to the School. The purpose of the Corporation is to hold title to property and facilitate the acquiring, leasing, constructing, improving, equipping and financing various facilities, land, equipment and other improvements in connection with property to be leased to the School. The Corporation is considered to be part of the School for financial reporting purposes because its resources are entirely for the direct benefit of the School and is blended into the School's financial statements as a proprietary fund. Separate financial statements are not available.

AHS is managed under the direction of the Board of Directors. All Directors have been elected, appointed, or designated.

The School's mission and core values are to prepare students for post-secondary success by creating critical thinkers and engaged, service-oriented citizens able to meet the challenges of the 21st century. This is accomplished through:

- A rigorous academic program that inspires a love of learning and teaches habits of success.
- Engaging students through project-based learning and community partnerships that make education uniquely relevant to students.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1**      **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Financial Reporting Entity (Continued)**

- A commitment to a collaborative environment within the school.
- A culture of excellence that challenges yet supports each student.
- The utilization of applied technology.
- A small school environment where strong faculty-student relationships develop.

In preparing students for post-secondary success, Animas High School fosters the fundamental attributes of compassion, respect, integrity and resilience. Students are held to high standards of personal responsibility, as demonstrated by their attitudes, behaviors and scholarship. Ultimately, students will become effective citizens, contributing competently and energetically to the world around them.

**Basis of Presentation**

**Government-wide and Fund Financial Statements:**

The Statement of Net Position (Deficit) and Statements of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds (of which AHS has none). The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of the given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include charges to students or others who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Unrestricted intergovernmental revenues not included among program revenue are reported instead as general revenues.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1**      **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Government-wide and Fund Financial Statements (Continued):

The School reports the following major governmental fund:

*General Fund* – This fund is the general operating fund of the School. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Additionally, the School reports the following major proprietary fund:

*The Building Corporation Fund* – This fund is used to account for the activities of the Building Corporation.

**Measurement Focus and Basis of Accounting**

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus:

In the government-wide financial statements, governmental activities are presented using the economic resources measurement focus as defined in item b. below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

a. Current Financial Resources - Only current financial assets and liabilities are generally included on the balance sheet. Operating statements present sources and uses of available spendable financial resources during a given period. The fund uses a fund balance as the measure of available spendable financial resources at the end of the period.

b. Economic Resources - The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Measurement Focus and Basis of Accounting (Continued)**

**Basis of Accounting:**

In the government-wide financial statements, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and agency funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Expenditures (including capital outlays) are recorded when the related fund liability is incurred.

**Assets, Liabilities and Fund Balance / Net Position (Deficit)**

**Cash:**

For the purpose of both the government-wide and fund financial statements, cash includes the checking and savings accounts for AHS and AHSBC.

**Receivables:**

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received.

In the fund financial statements, grants receivables in governmental funds include revenue accruals such as grants and other similar intergovernmental revenues since they are usually both measurable and available.

**Prepaid Expenses:**

Payments made to vendors for services that will benefit periods beyond the current year are recorded as prepaid expenses. Expenditures are reported in the year in which the services are consumed.

**Capital Assets:**

In the government-wide financial statements, fixed assets are accounted for as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. AHS' policy is to capitalize all capital assets with a unit value of \$1,000 or greater. Repairs and maintenance expenses are charged as expenditures when incurred.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Assets, Liabilities and Fund Balance / Net Position (Deficit) (Continued)**

Capital Assets:

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position (Deficit). Depreciation is provided over the assets estimated useful lives using the straight-line method of depreciation. Capital assets are depreciated over their estimated useful lives of three to thirty-nine years.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

Unearned Revenues:

Unearned revenues include amounts received but not available to recognize as revenue as the related expenses have not been incurred.

Pensions:

AHS participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. Governmental accounting standards require the net pension liability and related amounts of the SCHDTF for financial reporting purposes be measured using the plan provisions in effect as of the SCHDTF's measurement date of December 31, 2017. As such, the following disclosures do not include the changes to plan provisions required by SB 18-200 with the exception of the section titled Changes between the measurement date of the net pension liability and June 30, 2018.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Assets, Liabilities and Fund Balance / Net Position (Deficit) (Continued)**

Other Post Employment Benefit (OPEB) Plan:

AHS participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balance / Net Position (Deficit) Classifications:

Government-wide Statements:

Net position (deficit) is classified in the following categories:

*Investment in capital assets, net of related debt* – This classification includes capital assets net of accumulated depreciation and related debt.

*Restricted for TABOR* – This classification includes the TABOR Reserve Fund which requires AHS to maintain a reserve for emergencies equal to 3% of the eligible annual revenues as required by law.

*Restricted* – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

*Unrestricted* – This classification includes net assets that have not been restricted for other purposes.

AHS may fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is AHS' policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Assets, Liabilities and Fund Balance / Net Position (Deficit) (Continued)**

Fund Balance / Net Position (Deficit) Classifications (Continued):

Fund Statements:

Fund balances are classified in the following categories:

*Nonspendable* – This classification includes all assets which are not expected to convert to cash.

*Restricted for TABOR* – This classification includes the TABOR Reserve Fund which requires AHS to maintain a reserve for emergencies equal to 3% of the eligible annual revenues as required by law.

*Restricted* – This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

*Assigned* – This classification includes amounts that are constrained by the School's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Directors or through the Board of Directors delegating this responsibility to management through the budgetary process. This classification also includes the remaining positive fund balance for any governmental funds except for the General Fund.

*Unassigned* – This classification includes the residual fund balance for the General Fund.

AHS would typically use Restricted fund balances first, followed by Committed resources (if any), and then Assigned resources (if any), as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

**Use of Estimates**

The preparation of the basic financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Assets, Liabilities and Fund Balance / Net Position (Deficit) (Continued)**

**Adoption of New Accounting Standards**

The school implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits other than Pensions*, effective for fiscal years beginning after June 15, 2017. This Statement establishes standards of accounting and financial reporting for postemployment benefits other than pensions provided to the employees of state and local governmental employers through postemployment benefit plans that are administered through trusts or equivalent arrangements. As a result, net position at June 30, 2017, was restated to reflect the cumulative effect of adopting the standards.

**NOTE 2      STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**Budget and Budgetary Accounting**

The budget is adopted for the General Fund on a basis consistent with generally accepted accounting principles.

The School management submits to the Board of Directors a proposed budget for the fiscal year commencing the following July 1. The budget is adopted by the Board of Directors prior to June 30. Expenditures may not legally exceed appropriations at the fund level. Revisions must be approved by the Board of Directors. The budget includes proposed expenditures and the means of financing them. All appropriations lapse at fiscal year end.

**NOTE 3      DETAIL NOTES ON TRANSACTIONS/ACCOUNTS**

**Cash**

As of June 30, 2018, the School had the following cash:

Checking and savings	\$ 235,152
----------------------	------------

**Deposits**

The Colorado Public Deposit Protection Act (PDPA) requires local government entities to deposit cash in eligible public depositories. Eligibility is determined by State regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 3**      **DETAIL NOTES ON TRANSACTIONS/ACCOUNTS (Continued)**

**Capital Assets**

Capital assets activity for the year ended June 30, 2018 is as follows:

<u>Governmental Activities:</u>	<u>Balance</u>			<u>Balance</u>
	<u>June 30, 2017</u>	<u>Additions</u>	<u>Deletions</u>	<u>June 30, 2018</u>
Capital Assets:				
FFE	\$ 149,077	\$ -	\$ -	\$ 149,077
Total Capital Assets	<u>149,077</u>	<u>-</u>	<u>-</u>	<u>149,077</u>
Accumulated Depreciation:				
FFE	<u>132,170</u>	<u>5,649</u>	<u>-</u>	<u>137,819</u>
Total Accumulated Depreciation	<u>132,170</u>	<u>5,649</u>	<u>-</u>	<u>137,819</u>
Net Capital Assets	<u>\$ 16,907</u>			<u>\$ 11,258</u>
 <u>Business-type Activities:</u>				
Capital Assets:				
Building	\$ 2,966,142	\$ -	\$ -	\$ 2,966,142
Land Improvements	<u>44,072</u>	<u>-</u>	<u>-</u>	<u>44,072</u>
Total Capital Assets	<u>3,010,214</u>	<u>-</u>	<u>-</u>	<u>3,010,214</u>
Accumulated Depreciation:				
Building	304,219	76,055	-	380,274
Land Improvements	<u>2,204</u>	<u>2,938</u>	<u>-</u>	<u>5,142</u>
Total Accumulated Depreciation	<u>306,423</u>	<u>78,993</u>	<u>-</u>	<u>385,416</u>
Net Capital Assets	<u>\$ 2,703,791</u>			<u>\$ 2,624,798</u>

Depreciation expense in the Statement of Activities - Governmental Activities for the Instructional and Supporting Services programs was \$2,446 and \$3,203, respectively.

Depreciation expense in the Statement of Activities - Business-type Activities was \$78,993.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 3**      **DETAIL NOTES ON TRANSACTIONS/ACCOUNTS (Continued)**

**Unearned Revenues**

Unearned revenues represent funds the School received from funding agencies and private contributors with specific spending requirements as well as student fees collected for the next school year. As of June 30, 2018, AHS had the following unearned revenues:

2018 – 2019 Student fees	\$	15,750
2018 – 2019 Grant funds		8,000
2018 – 2019 Student clubs		7,612
2018 - 2019 Student lunch balances		<u>760</u>
Total		<u><u>\$ 32,122</u></u>

**Long-term Debt**

The Building Corporation entered into a note payable for the construction of the Animas High School building in 2013; the debt initially matured in July 2017. The Building Corporation renewed the note payable and received an extension on the maturity of the debt through November 2018. The note payable carries an interest rate of 5.50% and has monthly payments of \$20,028. The monthly payments are made by the School via the lease agreement entered into by and between the School and Corporation (See Note 8).

The following is the change in the long-term debt:

June 30, 2016	\$	2,793,685
Less: Principal payments		<u>86,725</u>
June 30, 2017		<u><u>\$ 2,706,960</u></u>

The following is the maturity of the long-term debt:

June 30, 2019	\$	<u>2,706,960</u>
Total		<u><u>\$ 2,706,960</u></u>

The Building Corporation renewed the note payable subsequent to June 30, 2018 (See Note 9).

**Restricted Fund Balance**

Restricted fund balance consists of contributions received from funding agencies or individuals which have been earmarked for specific uses. As of June 30, 2018, the School had the following restricted funds:

Development - Grant Writing	\$	3,025
-----------------------------	----	-------

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN**

**General Information about the Pension Plan**

*Plan Description* – Eligible employees of AHS are provided with pensions through the School Division Trust Fund (SCHDTF) – a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits Provided as of December 31, 2017* – PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. Section 24-51-602, 604, 1713 and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee’s member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annualized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annualized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

**ANIMAS HIGH SCHOOL**  
***NOTES TO BASIC FINANCIAL STATEMENTS***  
***YEAR ENDED JUNE 30, 2018***

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2017, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs), referred to as annual increases in the C.R.S. Benefits recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Works (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, and the qualified survivor(s) who will receive the benefits.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

*Contributions* – Eligible employees and AHS are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. Section 24-51-401, *et seq.* Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	For the Year Ended December 31, 2017	For the Year Ended December 31, 2018
Employer Contribution Rate	10.15%	10.15%
Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. Section 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount Apportioned to the SCHDTF	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. Section 24-51-411	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. Section 24-51-411	5.00%	5.50%
Total Employer Contribution Rate to the SCHDTF	18.63%	19.13%

Rates are expressed as a percentage of salary as defined in C.R.S. Section 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and AHS is statutorily committed to pay the contribution to the SCHDTF. Employer contributions recognized by the SCHDTF from AHS were \$280,164 for the year ended June 30, 2018.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2018, AHS reported a liability of \$10,461,414 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll forward the total pension liability to December 31, 2017. AHS proportion of the net pension liability was based on AHS' contributions to the SCHDTF for the calendar year 2017 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2017, AHS' proportion was .0323517744 percent, which was an increase of .004581883 percent from its proportion measured as of December 31, 2016.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4      DEFINED BENEFIT PENSION PLAN (Continued)**

For the year ended June 30, 2018, AHS recognized pension expense of \$2,323,850. At June 30, 2018, AHS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,863,531	\$ 427,781
Changes in assumptions or other inputs	-	-
Net difference between projected and actual earnings on pension plan investments	-	-
Changes in proportion and difference between contributions recognized and proportionate share of contributions	109,185	216,126
Contributions subsequent to the measurement date	134,078	-
Total	\$ 3,106,794	\$ 643,907

\$134,078 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,	
2019	\$ 107,295
2020	10,467
Total	\$ 117,762

*Actuarial assumptions* – The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 - 9.70 percent
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07 and DPS Benefit Structure (automatic)	2.00 percent
PERA Benefit Structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

**ANIMAS HIGH SCHOOL**  
***NOTES TO BASIC FINANCIAL STATEMENTS***  
***YEAR ENDED JUNE 30, 2018***

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

A discount rate of 4.78 percent was used in the roll-forward calculation of the total pension liability to the measurement date of December 31, 2017.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

As of the most recent adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity - Large Cap	21.20%	4.30%
U.S. Equity - Small Cap	7.42%	4.80%
Non U.S. Equity - Developed	18.55%	5.20%
Non U.S. Equity - Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income - Developed	1.84%	0.60%
Emerging Market Bonds	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Discount rate* – The discount rate used to measure the total pension liability was 4.78 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.43 percent, resulting in a discount rate of 4.78 percent.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

As of the prior measurement date, the long-term expected rate of return on plan investments of 7.25 percent and the municipal bond index rate of 3.86 percent were used in the discount rate determination resulting in a discount rate of 5.26 percent, 0.48 percent higher compared to the current measurement date.

*Sensitivity of the AHS proportionate share of the net pension liability to changes in the discount rate* – The following presents the proportionate share of the net pension liability calculated using the discount rate of 4.78 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.78 percent) or 1-percentage-point higher (5.78 percent) than the current rate:

	1% Decrease (3.78%)	Current Discount Rate (4.78%)	1% Increase (5.78%)
Proportionate share of the net pension liability	\$ 13,214,545	\$ 10,461,414	\$ 8,217,927

*Pension plan fiduciary net position* – Detailed information about the SCHDTF’s fiduciary net position is available in PERA’s comprehensive annual financial report which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**Changes between the measurement date of the net pension liability and June 30, 2018**

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: *Concerning Modifications To the Public Employees’ Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next 30 years. A brief description of some of the major changes to plan provisions required by SB 18-200 are listed below. A full copy of the bill can be found online at [www.leg.colorado.gov](http://www.leg.colorado.gov).

- Increases employer contribution rates by 0.25 percent on July 1, 2019.
- Increases employee contribution rates by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 4**      **DEFINED BENEFIT PENSION PLAN (Continued)**

- Directs the state to allocate \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution will be allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the other divisions eligible for the direct distribution.
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, modifying the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the state, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.

At June 30, 2018, AHS reported a liability of \$10,461,414 for its proportionate share of the net pension liability which was measured using the plan provisions in effect as of the pension plan's year-end based on a discount rate of 4.78%. For comparative purposes, the following schedule presents an estimate of what the AHS proportionate share of the net pension liability and associated discount rate would have been had the provisions of SB 18-200, applicable to the SCHDTF, become law on December 31, 2017. This pro forma information was prepared using the fiduciary net position of the SCHDTF as of December 31, 2017. Future net pension liabilities reported could be materially different based on changes in investment markets, actuarial assumptions, plan experience and other factors.

Estimated Discount Rate Calculated Using Plan Provisions Required by SB 18-200 (pro forma)	Proportionate Share of the Estimated Net Pension Liability Calculated Using Plan Provisions Required by SB 18-200 (pro forma)
7.25%	\$ 4,726,376

Recognizing that the changes in contribution and benefit provisions also affect the determination of the discount rate used to calculate proportionate share of the net pension liability, approximately \$5,735,038 of the estimated reduction is attributable to the use of a 7.25 percent discount rate.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN**

**General Information about the Pension Plan**

*Plan description* - Eligible employees of AHS are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits provided* - The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB)**  
**PLAN (Continued)**

*PERA Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

*DPS Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and AHS is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from AHS were \$15,341 for the year ended June 30, 2018.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2018, AHS reported a liability of \$238,926 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2017. AHS' proportion of the net OPEB liability was based on AHS contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF.

At December 31, 2017, AHS' proportion was .0183845930 percent, which was an increase of .0002558979 percent from its proportion measured as of December 31, 2016.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

For the year ended June 30, 2018, AHS recognized OPEB expense of \$19,241. At June 30, 2018, AHS reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 2,773	\$ -
Changes of assumptions or other inputs	-	-
Net difference between projected and actual earnings on OPEB plan investments	-	41
Changes in proportion and differences between contributions recognized and proportionate share of contributions	1,130	3,997
Contributions subsequent to the measurement date	7,342	-
<b>Total</b>	<b>\$ 11,245</b>	<b>\$ 4,038</b>

\$7,342 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30,:	
2019	\$ 2,261
2020	1,708
2021	1,156
2022	603
2023	50
<b>Total</b>	<b>\$ 5,778</b>

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

*Actuarial assumptions* - The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in agenda
Long-term investment rate of return, net of OPEB	
plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	5.00 percent
Medicare Part A premiums	3.00 percent for 2017, gradually rising to 4.25 percent in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
2024+	5.00%	4.25%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

**ANIMAS HIGH SCHOOL**  
***NOTES TO BASIC FINANCIAL STATEMENTS***  
***YEAR ENDED JUNE 30, 2018***

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

**ANIMAS HIGH SCHOOL**  
***NOTES TO BASIC FINANCIAL STATEMENTS***  
***YEAR ENDED JUNE 30, 2018***

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire were revised to more closely reflect actual experience.
- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, were revised to more closely reflect actual experience.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as needed.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity - Large Cap	21.20%	4.30%
U.S. Equity - Small Cap	7.42%	4.80%
Non U.S. Equity - Developed	18.55%	5.20%
Non U.S. Equity - Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income - Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

*Sensitivity of the AHS' proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates* - The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB Liability	\$ 232,352	\$ 238,926	\$ 246,844

*Discount rate* - The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2017, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.

**ANIMAS HIGH SCHOOL**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 5**      **DEFINED BENEFIT OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN (Continued)**

- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

*Sensitivity of AHS' proportionate share of the net OPEB liability to changes in the discount rate* - The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$ 268,628	\$ 238,926	\$ 213,575

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 6**      **CONCENTRATION OF CREDIT RISK**

AHS' financial instruments that are exposed to concentrations of credit risk consist of cash, grants receivable and accounts receivable. AHS places its cash with high credit quality institutions. AHS routinely assesses the financial strength of its donors and, as a consequence, believes that its accounts receivable credit risk exposure is limited.

**Lease Commitments**

**School Lease Agreement**

The School entered into a lease agreement with the Building Corporation to lease the school for a monthly payment equal to the Building Corporation's monthly loan payment of \$20,028. The lease is scheduled to terminate on the earlier of:

- a. the exercise of the School of the option to acquire the school site or
- b. seven years from the occupancy date of July 1, 2013

The following are the future lease obligations should the School exercise the seven-year lease termination option:

For the year ending:		
June 30, 2019	\$	240,339
June 30, 2020	\$	240,339

Occupancy expense for the year ended June 30, 2018 was \$240,371.

**Office Equipment Leases**

The School entered into two leases for office equipment. One lease is a month to month lease which can be terminated with a 30 day notice. The second lease requires a monthly lease payment of \$310 and is scheduled to terminate in March 2020; the following are the future lease obligations:

For the year ending:		
June 30, 2019	\$	3,724
June 30, 2020	\$	2,793

In addition, the School entered into month to month leases for the rental of mobile storage units; all leases can be terminated with a 30 day notice.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**YEAR ENDED JUNE 30, 2018**

**NOTE 8**      **COMMITMENTS AND CONTINGENCIES (Continued)**

**Taxpayer's Bill of Rights (TABOR)**

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights (TABOR). TABOR contains revenue, spending, tax and debt limitations that apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that for the prior year, extension of an expiring tax, or tax policy change directly causing a net tax revenue gain to any local government.

**Current Vulnerability Due to Certain Concentrations and Uncertainties**

The School is dependent on various government agencies for funding and is responsible for meeting the requirements of such agencies. If the School were to lose students or the related government funding, there could be a substantial effect on its ability to continue operations.

**NOTE 9**      **EVALUATION OF SUBSEQUENT EVENTS**

The Building Corporation renewed the note payable subsequent to June 30, 2018 and prior to the issuance of June 30, 2018 audited financial statements. The note payable was extended through October 2020. The collateral on the loan was amended to include all modular classroom units and the final payment due in October 2020 was updated to reflect principal payment reductions applied since the original loan date. All other terms and conditions, including the interest rate of 5.50% and monthly payments of \$20,028, remained the same as disclosed in the original loan documents and all subsequent loan modifications.

The School has evaluated all other subsequent events through November 9, 2018, the date which the financial statements were available to be issued.
