REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

April 1, 2019

District Attorney
Office of the District Attorney, Ninth Judicial District

We have audited the accompanying financial statements of the governmental activities and each major fund of the Office of the District Attorney, Ninth Judicial District as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Office of the District Attorney, Ninth Judicial District, as of December 31, 2018, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund and the Major Special Revenue Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension schedules, and OPEB schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Chadwick, Steinkirchner, Davis & Co., P.C.

Office of the District Attorney, Ninth Judicial District

Management's Discussion and Analysis

December 31, 2018

As management of the District Attorney's Office (the "Office"), we offer readers of the Office's financial statements this narrative overview and analysis of the financial activities of the Office for the fiscal year ended December 31, 2018.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Office's basic financial statements. The Office's basic financial statements are composed of three components: 1) government-wide financial statements, 2) fund financial statements; and 3) notes to the financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Office's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all the Office's assets, deferred outflow of resources, liabilities, and deferred inflow of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Office is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

In some instances the financial statements may reflect negative balances and other changes related to implementation of pension reporting standards required by GASB Statement No. 68 two years ago and the implementation of GASB Statement No. 75 related to OPEB this year.

The governmental activity of the Office is primarily financing the prosecution of criminal and traffic cases in the Ninth Judicial District (Garfield, Pitkin, and Rio Blanco counties) and the assurance of the rights of crime victims. There are no business-type activities within the Office.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Office, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Office currently has two funds, the General Fund and the Special Revenue Fund, which are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. A reconciliation of the fund balance as reported in the governmental funds to the net position reported in the government-wide financial statements and a reconciliation of the net change in the fund balance to the change in net position has been provided to facilitate the comparison between governmental funds and governmental activities.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Condensed Financial Information

The following table shows the Office's condensed financial information for 2018 and 2017.

Assets and Deferred Outflows of Resources

	<u>2018</u>	<u>2017</u>
Current assets	\$ 756,596	\$ 775,701
Noncurrent, capital assets	52,438	66,661
Total assets	809,034	842,362
Deferred outflows of resources	<u>1,445,863</u>	<u>1,969,728</u>
Total assets and deferred outflows	<u>2,254,897</u>	<u>2,812,090</u>

Liabilities and Deferred Inflows of Resources

Current liabilities	186,025	166,339
Long-term liabilities	<u>6,590,341</u>	<u>5,853,869</u>
Total liabilities	6,776,366	6,020,208
Deferred inflows of resources	<u>245,053</u>	18,018
Total liabilities and deferred inflows	<u>7,021,419</u>	<u>6,038,226</u>

Net Position

Net investment in capital assets	52,438	66,661
Restricted for seizure/grant	2,556	2,556
Unrestricted	<u>(4,821,516)</u>	<u>(3,295,353)</u>
Total Net Position	<u>\$(4,766,522)</u>	<u>\$(3,226,136)</u>

	<u>2018</u>	<u>2017</u>
Program Revenues		
Charges for services	\$ 3,291,357	\$ 3,115,318
Operating grants and contributions	585,399	945,628
Capital grants and contributions	0	38,835
General Revenues		
Interest income	<u>54</u>	<u>68</u>
Total Revenues	3,876,810	4,099,849
Expenses		
Public Safety	<u>5,277,733</u>	<u>5,149,642</u>
Increase (decrease) in net position	(1,400,923)	(1,049,793)
Net position January 1, restated	<u>(3,365,599)</u>	<u>(2,176,343)</u>
Net position December 31	<u><u>\$(4,766,522)</u></u>	<u><u>\$(3,226,136)</u></u>

Government-wide Financial Analysis

During 2018, the Office's primary activity was the prosecution of criminal and traffic cases in the Ninth Judicial District and the assurance of the rights of crime victims. Those activities were funded by contributions from the State of Colorado, contributions from the counties comprising the Ninth Judicial District, various grants, and miscellaneous revenue.

It should be noted that miscellaneous revenue in the general fund includes reimbursements for certain costs of prosecution from the Mandated Costs Fund that is administered by the Colorado District Attorney's Council. Reimbursements from the Mandated Costs Fund generally come at the end of the State's fiscal year and are not budgeted. Thus, actual miscellaneous revenue and actual purchased services in the general fund may be greater than the budgeted amount.

It should also be noted that seizure revenue and seizure expenditures in the general fund are not budgeted.

Financial Analysis of the Office's Funds

As discussed above, the Office uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Office's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the Office's financial requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Office's governmental funds reported a combined ending fund balance of \$700,626.

The Office adopts a budget for the general fund and special revenue fund on an annual basis. A budgetary comparison has been provided.

Capital Assets

The Office's net capital assets decreased by \$14,223 as the result of the current year additions greater than current year depreciation. Additional information as well as a detailed classification of the Office's net capital assets can be found in Note C of the Notes to the Financial Statements, included in this report.

Request for Information

This financial report is designed to provide a general overview of the Office's finances for all those with an interest in the Office's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to The Office of the District Attorney, Ninth Judicial District, 109 Eighth Street, Suite 308, Glenwood Springs, CO 81601 or you may call (970) 945-8635.

BALANCE SHEET - GOVERNMENTAL FUNDS

December 31, 2018

	General	Special Revenue	Total
ASSETS			
Cash	\$ 428,170	\$ 27,345	\$ 455,515
Restricted cash	2,556	-	2,556
Employee receivables	3,073	-	3,073
Due from other governments	263,901	31,551	295,452
Total assets	<u>\$ 697,700</u>	<u>\$ 58,896</u>	<u>\$ 756,596</u>
LIABILITIES AND FUND BALANCES			
Liabilities			
Accounts payable	\$ 55,352	\$ 618	\$ 55,970
Total liabilities	55,352	618	55,970
Fund equity			
Restricted for seizure activities	2,556	-	2,556
Assigned for program expenses	-	58,278	58,278
Unassigned	639,792	-	639,792
Total fund balance	<u>642,348</u>	<u>58,278</u>	<u>700,626</u>
Total liabilities and fund balance	<u>\$ 697,700</u>	<u>\$ 58,896</u>	<u>\$ 756,596</u>

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balance - governmental funds	\$ 700,626
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	52,438
The amount by which deferred outflows are more than deferred inflows, all of which are not recorded in the funds (\$1,445,863-245,053)	1,200,810
Long-term liabilities, are not due and payable in the current period and therefore are not reported in the funds.	
Net pension liability	(6,439,254)
Net OPEB liability	(151,087)
Compensated absences	(130,055)
Total net position - governmental activities	<u>\$ (4,766,522)</u>

The accompanying notes are an integral part of this statement.

Office of the District Attorney, Ninth Judicial District

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year ended December 31, 2018

Amounts reported for governmental activities in the statement of activities are different
because:

Net change in fund balances - total governmental funds	\$ 489
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period (\$14,223-\$0).	(14,223)
In the governmental funds, expenditures related to pension and OPEB obligations are measured by the amount of financial resources used (essentially, the amounts actually paid to the pension plan), whereas in the statement of activities, they are measured on full accrual basis. This is the amount by which pension and OPEB expense in the statement of activities was more than those expenditures in the governmental funds.	(1,347,909)
In the governmental funds, expenditures for compensated absences are measured by the amount of financial resources used (essentially, the amounts actually paid to employees), whereas in the statement of activities, they are measured as the benefits are earned by employees during the year. This is the amount the liability for compensated absences increased during the year	<u>(39,280)</u>
Change in net position of governmental activities	<u>\$ (1,400,923)</u>

The accompanying notes are an integral part of this statement.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Organization

The Office of the District Attorney, Ninth Judicial District, Glenwood Springs, Colorado, operates under Colorado Revised Statutes providing judicial and public safety services for Garfield, Pitkin, and Rio Blanco counties.

The accounting policies of the Office of the District Attorney, Ninth Judicial District, Glenwood Springs, Colorado (the District Attorney), conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies consistently applied in the preparation of the financial statements.

2. Reporting Entity

The District Attorney's financial statements include the accounts of all of the District Attorney's operations.

The District Attorney has no component units as defined by the Governmental Accounting Standards Board (GASB) Statements.

3. Government-wide and Fund Financial Statements

The District Attorney's basic financial statements include both government-wide (reporting the District Attorney as a whole) and fund financial statements (reporting the District Attorney's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. Currently, the District Attorney has only governmental activities.

Government-wide Financial Statements

In the government-wide Statement of Net Position, the governmental activities columns are reported on a full accrual, economic resource basis, which recognizes all long-term assets, receivables, and deferred outflows of resources, as well as long-term debt, obligations, and deferred inflows of resources.

The government-wide focus is on the sustainability of the District Attorney as an entity and the change in the District Attorney's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the District Attorney are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures/expenses.

The fund focus is on current available resources.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

4. Fund Accounting

The District Attorney uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. At this time the District Attorney only uses governmental funds.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The District Attorney reports the following major governmental funds:

General Fund – The General Fund is used to account for all financial resources of the District Attorney except those required to be accounted for in another fund. The general fund balance is available to the District Attorney for any purpose provided it is expended or transferred according to the general laws of Colorado and the bylaws of the District Attorney.

Special Revenue Fund – This fund is used to account for funds received from various State and federal grants and related contributions for administration, and county contributions for these grant programs.

5. Measurement Focus and Basis of Accounting

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements.

Long-Term Economic Focus and Accrual Basis

Governmental activities in the government-wide financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

Current Financial Focus and Modified Accrual Basis

The governmental fund financial statements use the current financial focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on long-term debt, if any, is recognized when due.

Amounts reported as program revenues include 1) charges to customers for fees or services provided, and 2) operating grants and contributions.

When both restricted and unrestricted resources are available for use, it is the District Attorney's policy to use restricted resources first, then unrestricted resources as they are needed.

6. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as contributions awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available.

7. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

8. Interfund Transactions

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund activity, if any, is not eliminated in the fund financial statements and the transfers are for subsidizing grant activity.

9. Stewardship, Compliance, and Accountability

The District Attorney's Office does not appropriate funds. Budgets are submitted to the grantor agencies, with the grant application, for approval. The budget for the General Fund is submitted to the County Commissioners of the three counties for approval. A separate budget was prepared for the major special revenue fund though it is not legally required to do so.

10. Capital Assets

Capital assets, if any, are reported in the applicable governmental activities columns in the Government-wide Financial Statements. The District Attorney defines capital assets as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets consist of equipment that is being depreciated over their estimated useful lives of 3 to 7 years.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

11. Compensated Absences

It is the policy of the District Attorney's Office to permit employees to accumulate unused sick and vacation benefits. Under the policy employees can accumulate up to 320 hours of vacation. Only unused vacation benefits are paid upon termination.

12. Pensions

The District participates in the State Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. Governmental accounting standards require the net pension liability and related amounts of the SDTF for financial reporting purposes be measured using the plan provisions in effect as of the SDTF's measurement date of December 31, 2017. As such, the following disclosures do not include the changes to plan provisions required by SB 18-200 with the exception of the section titled *Changes between the measurement date of the net pension liability and December 31, 2018*.

13. Adoption of GASB 75

For the year ended December 31, 2018, the District adopted the provisions of Statement of Governmental Accounting Standards (GASB Statement) No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which replaces the requirements of Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.

14. Defined Benefit Other Post Employment Benefit Plan (OPEB)

The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to the OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE B – CASH AND INVESTMENTS

Cash and investments consist of the following:

Demand accounts	\$ 458,071
Less restricted cash for seizure activities	<u>(2,556)</u>
Unrestricted cash	<u>\$ 455,515</u>

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories; eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least 102% of the aggregate uninsured deposits. The bank deposits at December 31, 2018 total \$503,964 of which \$252,556 was insured and the remaining \$251,408 was covered under PDPA as noted above.

NOTE C – CAPITAL ASSETS

	<u>Balance January 1, 2018</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance December 31, 2018</u>
Governmental activities				
Capital assets being depreciated				
Equipment	\$ 479,113	\$ –	\$ –	\$ 479,113
Less accumulated depreciation	<u>(412,452)</u>	<u>(14,223)</u>	<u>–</u>	<u>(426,675)</u>
Net capital assets being depreciated	<u>66,661</u>	<u>(14,223)</u>	<u>–</u>	<u>52,438</u>
Total capital assets	<u>\$ 66,661</u>	<u>\$ (14,223)</u>	<u>\$ –</u>	<u>\$ 52,438</u>

Depreciation expense is all allocated to the “public safety” function in the Statement of Activities for governmental activities.

NOTE D – LONG-TERM OBLIGATIONS

The following is a summary of the changes in long-term obligations for the year ended December 31, 2017.

	<u>Balance January 1, 2018</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance December 31, 2018</u>
Compensated absences	<u>\$ 90,775</u>	<u>\$ 39,280</u>	<u>\$ –</u>	<u>\$ 130,055</u>

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE E – COMMITMENTS AND CONTINGENCIES

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may be disallowed by the grantor and cannot be determined at this time although the District Attorney expects such amounts, if any, to be immaterial.

TABOR

In November of 1992 Colorado voters approved Amendment 1 to the state constitution, which is commonly known as the Taxpayer's Bill of Rights or the TABOR Amendment. The amendment applies to all units of local government and limits taxes, spending, revenue, and multi-year debt (except bond refundings to lower interest rates and adding employees to pension plans). The amendment does not apply to units that are defined as "Enterprises". The District Attorney does not qualify as an "Enterprise." The District Attorney does not believe that the provisions of TABOR apply to it, since it does not levy nor assess any taxes.

NOTE F – RISK MANAGEMENT

The District Attorney's Office is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors, and omissions; and natural disasters for which the District Attorney's Office carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three years.

NOTE G – DEFINED BENEFIT PENSION PLAN

General Information about the Pension Plan

Plan description. Eligible employees of the District are provided with pensions through the State Division Trust Fund (SDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided as of December 31, 2017. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2017, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. State Troopers whose disability is caused by an on-the-job injury are immediately eligible to apply for disability benefits and do not have to meet the five years of service credit requirement. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of December 31, 2018: Eligible employees and the District are required to contribute to the SDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* Eligible employees with the exception of State Troopers are required to contribute 8 percent of their PERA-includable salary. Eligible employees who are State Troopers are required to contribute 10 percent of their PERA-includable salary. The employer contribution requirements for all employees except State Troopers are summarized in the table below:

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

	<i>As of December 31, 2018</i>
Employer contribution rate ¹	10.15%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f) ¹	(1.02)%
Amount apportioned to the SDTF ¹	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	5.00%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	5.00%
Total employer contribution rate to the SDTF¹	19.13%

¹ Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

The employer contribution requirements for State Troopers are summarized in the table below:

	<i>As of December 31, 2018</i>
Employer contribution rate ¹	12.85%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f) ¹	(1.02)%
Amount apportioned to the SDTF ¹	11.83%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	5.00%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	5.00%
Total employer contribution rate to the SDTF¹	21.83%

¹ Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SDTF. Employer contributions recognized by the SDTF from the District were \$179,417 for the year ended December 31, 2018.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2018, the District reported a liability of \$6,439,254 for its proportionate share of the net pension liability. The net pension liability for the SDTF was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total pension liability to December 31, 2017. The District’s proportion of the net pension liability was based on the District’s contributions to the SDTF for the calendar year 2017 relative to the total contributions of participating employers to the SDTF.

At December 31, 2017, the District’s proportion was 0.03217 percent, which was an increase of 0.0003 from its proportion measured as of December 31, 2016.

For the year ended December 31, 2018, the District recognized pension expense of \$1,525,016. At December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$100,403	\$–
Changes of assumptions or other inputs	1,118,100	–
Net difference between projected and actual earnings on pension plan investments	–	242,525
Changes in proportion and differences between contributions recognized and proportionate share of contributions	36,100	–
Contributions subsequent to the measurement date	179,417	N/A
Total	\$1,434,020	\$242,525

\$179,417 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended December 31, 2019.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31, 2018	
2019	994,224
2020	200,109
2021	(90,091)
2022	(92,164)
2023	–
Thereafter	–

Actuarial assumptions. The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 – 9.17 percent
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07; and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

A discount rate of 4.72 percent was used in the roll-forward calculation of the total pension liability to the measurement date of December 31, 2017.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the SDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate. The discount rate used to measure the total pension liability was 4.72 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is not projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted), AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

Based on the above assumptions and methods, the projection test indicates the SDTF’s fiduciary net position was projected to be depleted in 2038 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2038 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Bond Buyer, was applied to periods on and after 2038 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.43 percent, resulting in a discount rate of 4.72 percent.

As of the prior measurement date, the long-term expected rate of return on plan investments of 7.25 percent and the municipal bond index rate of 3.86 percent were used in the discount rate determination resulting in a discount rate of 5.26 percent, 0.54 percent higher compared to the current measurement date.

Sensitivity of the District proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 4.72 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.72 percent) or 1-percentage-point higher (5.72 percent) than the current rate:

	1% Decrease (3.72%)	Current Discount Rate (4.72%)	1% Increase (5.72%)
Proportionate share of the net pension liability	\$8,010,894	\$6,439,254	\$5,149,033

Pension plan fiduciary net position. Detailed information about the SDTF’s fiduciary net position is available in PERA’s comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Changes between the measurement date of the net pension liability and December 31, 2018.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through SB 18-200: *Concerning Modifications To the Public Employees’ Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the unfunded actuarial accrued liability of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next 30 years.

A brief description of some of the major changes to plan provisions required by SB 18-200 are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

- Increases employer contribution rates by 0.25 percent on July 1, 2019.
- Increases employee contribution rates by a total of 2 percent (to be phased in over a period of 3 years starting on July 1, 2019).

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE G – DEFINED BENEFIT PENSION PLAN – CONTINUED

- Directs the state to allocate \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution will be allocated to the SDTF based on the proportionate amount of annual payroll of the SDTF to the other divisions eligible for the direct distribution.
- Modifies the retirement benefits, including temporarily suspending and reducing the annual increase for all current and future retirees, modifying the highest average salary for employees with less than five years of service credit on December 31, 2019 and raises the retirement age for new employees.
- Member contributions, employer contributions, the direct distribution from the state, and the annual increases will be adjusted based on certain statutory parameters beginning July 1, 2020, and then each year thereafter, to help keep PERA on path to full funding in 30 years.
- Expands eligibility to participate in the PERA DC Plan to new members hired on or after January 1, 2019, who are classified college and university employees in the State Division. Beginning January 1, 2021, and every year thereafter, employer contribution rates for the SDTF will be adjusted to include a defined contribution supplement based on the employer contribution amount paid to defined contribution plan participant accounts that would have otherwise gone to the defined benefit trusts to pay down the unfunded liability plus any defined benefit investment earnings thereon.

At December 31, 2018, the District reported a liability of \$6,439,254 for its proportionate share of the net pension liability which was measured using the plan provisions in effect as of the pension plan’s year-end based on a discount rate of 4.72%. For comparative purposes, the following schedule presents an estimate of what the District’s proportionate share of the net pension liability and associated discount rate would have been had the provisions of SB 18-200, applicable to the SDTF, become law on December 31, 2017. This pro forma information was prepared using the fiduciary net position of the SDTF as of December 31, 2017. Future net pension liabilities reported could be materially different based on changes in investment markets, actuarial assumptions, plan experience and other factors.

Estimated Discount Rate Calculated Using Plan Provisions Required by SB 18-200 (pro forma)	Proportionate Share of the Estimated Net Pension Liability Calculated Using Plan Provisions Required by SB 18-200 (pro forma)
7.25%	\$3,053,450

Recognizing that the changes in contribution and benefit provisions also affect the determination of the discount rate used to calculate proportionate share of the net pension liability, approximately \$2,873,475 of the estimated reduction is attributable to the use of a 7.25 percent discount rate.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND

General Information about the OPEB Plan

Plan description. Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated.

All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

DPS Benefit Structure

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

Contributions. Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$9,757 for the year ended December 31, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2018, the District reported a liability of \$151,087 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2016. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2017. The District proportion of the net OPEB liability was based on District contributions to the HCTF for the calendar year 2017 relative to the total contributions of participating employers to the HCTF.

At December 31, 2017, the District proportion was 0.01163 percent, which was an increase of 0.00013 from its proportion measured as of December 31, 2016.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

For the year ended December 31, 2018, the District recognized OPEB expense of \$12,066. At December 31, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$715	\$-
Net difference between projected and actual earnings on OPEB plan investments	-	2,528
Changes in proportion and differences between contributions recognized and proportionate share of contributions	1,371	-
Contributions subsequent to the measurement date	9,757	N/A
Total	\$11,843	\$2,528

\$9,757 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended December 31, 2018:	
2019	\$(223)
2020	(223)
2021	(223)
2022	(222)
2023	410
Thereafter	39

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

Actuarial assumptions. The total OPEB liability in the December 31, 2016 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent in aggregate
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25 percent
Discount rate	7.25 percent
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	5.00 percent
Medicare Part A premiums	3.00 percent for 2017, gradually rising to 4.25 percent in 2023
DPS benefit structure:	
Service-based premium subsidy	0.00 percent
PERACare Medicare plans	N/A
Medicare Part A premiums	N/A

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services.

Effective December 31, 2016, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2017	5.00%	3.00%
2018	5.00%	3.25%
2019	5.00%	3.50%
2020	5.00%	3.75%
2021	5.00%	4.00%
2022	5.00%	4.00%
2023	5.00%	4.25%
2024+	5.00%	4.25%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- The assumed rates of PERACare participation were revised to reflect more closely actual experience.
- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2017 plan year.
- The percentages of PERACare enrollees who will attain age 65 and older ages and are assumed to not qualify for premium-free Medicare Part A coverage were revised to more closely reflect actual experience.
- The percentage of disabled PERACare enrollees who are assumed to not qualify for premium-free Medicare Part A coverage were revised to reflect more closely actual experience.
- Assumed election rates for the PERACare coverage options that would be available to future PERACare enrollees who will qualify for the “No Part A Subsidy” when they retire were revised to more closely reflect actual experience.
- Assumed election rates for the PERACare coverage options that will be available to those current PERACare enrollees, who qualify for the “No Part A Subsidy” but have not reached age 65, were revised to more closely reflect actual experience.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.
- The rates of PERACare coverage election for spouses of eligible inactive members and future retirees were revised to more closely reflect actual experience.
- The assumed age differences between future retirees and their participating spouses were revised to reflect more closely actual experience.

The actuarial assumptions used in the December 31, 2016, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA’s actuary, as needed.

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the District proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
PERACare Medicare trend rate	4.00%	5.00%	6.00%
Initial Medicare Part A trend rate	2.00%	3.00%	4.00%
Ultimate Medicare Part A trend rate	3.25%	4.25%	5.25%
Net OPEB Liability	\$146,930	\$151,087	\$156,093

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2017, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date. For future plan members, employer contributions were reduced by the estimated amount of total service costs for future plan members.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Transfers of a portion of purchase service agreements intended to cover the costs associated with OPEB benefits were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE H – OTHER POST-EMPLOYMENT BENEFITS – HEALTH CARE TRUST FUND – CONTINUED

Sensitivity of the District proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$169,869	\$151,087	\$135,055

OPEB plan fiduciary net position. Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

**NOTE I – COLORADO COUNTY OFFICIALS AND EMPLOYEES RETIREMENT ASSOCIATION
(CCOERA)**

All employees of the Office of the District Attorney not covered by PERA are required to join CCOERA (the Plan), a statewide local government multi-employer defined contribution plan. The Plan was organized under Title 24, Article 54, Section 101 of the Colorado Revised Statutes, as amended. CCOERA issues a publicly available annual financial report that includes financial statements and required supplementary information. This report may be obtained by contacting CCOERA at 1-800-352-0313.

The financial statements of the Plan are prepared using the accrual basis of accounting. Plan members contributions are recognized in the period in which the contributions are due. Plan investments in insurance contracts are reported at contract value. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Employer contributions to the Plan equal 4% of compensation. Employee contributions must match employer contributions and are funded on a current basis. Employees may make additional voluntary contributions, not to exceed 10% of compensation.

Participants vest in employer contributions and in the earnings, losses, and changes in the fair value of Plan assets at a rate of 20% per year. Participants are immediately vested 100% in their own contributions and earnings. Employer contributions for the years ended December 31, 2018, 2017, and 2016, were \$50,415, \$44,806, and \$45,593.

Office of the District Attorney, Ninth Judicial District

NOTES TO FINANCIAL STATEMENTS

December 31, 2018

NOTE J – FUND BALANCES

In the fund financial statements the following classifications describe the relative strength of the spending constraints.

- *Non-spendable fund balance* - The portion of fund balance that cannot be spent because it is either not in spendable form (such as inventory) or is legally or contractually required to be maintained intact.
- *Restricted fund balance* - The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.
- *Committed fund balance* - The portion of fund balance constrained for specific purposes according to limitations imposed by the District Attorney’s Office highest level of decision making authority, the DA, prior to the end of the current fiscal year. The constraint may be removed or changed only through formal action of the DA.
- *Assigned fund balance* - The portion of fund balance set aside for planned or intended purposes. The intended use may be expressed by the DA or other individuals authorized to assign funds to be used for a specific purpose. Assigned fund balances in special revenue funds will also include any remaining fund balance that is not restricted or committed. This classification is necessary to indicate that those funds are, at a minimum intended to be used for the purpose of that particular fund.
- *Unassigned fund balance* - The residual portion of fund balance that does not meet any of the above criteria. The District Attorney’s Office will only report a positive unassigned fund balance in the General Fund.

Unrestricted fund balance will be used in the following order: committed, assigned, and unassigned.

For the special revenue fund, the CVC and VALE activities are restricted fund balances and the Diversion activity is an assigned fund balance. The changes in each individual activity and in total are as follows:

	<u>CVC Admin</u>	<u>VALE Admin</u>	<u>Diversion</u>	<u>Total</u>
Beginning fund balance	\$ 15,200	\$ 15,410	\$ 31,171	\$ 61,781
Change increase/(decrease)	<u>(6,997)</u>	<u>(813)</u>	<u>4,307</u>	<u>(3,503)</u>
Ending fund balance	<u>\$ 8,203</u>	<u>\$ 14,597</u>	<u>\$ 35,478</u>	<u>\$ 58,278</u>

NOTE K – CHANGE IN ACCOUNTING PRINCIPLE

Effective January 1, 2018, the District retroactively changed its method of accounting for OPEB contributions and related obligations to conform to GASBS No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Under the new accounting method, the District accrues a net OPEB liability related to its participation in a multiple employer cost sharing OPEB plan. The effect of the change decreased beginning net position for 2018 by \$139,463, from (\$3,226,136) to (\$3,365,599).
