Independent Auditors' Report

We have audited the accompanying financial statements of the governmental activities and each major fund of the Galleria Metropolitan District, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Galleria Metropolitan District as of December 31, 2019, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

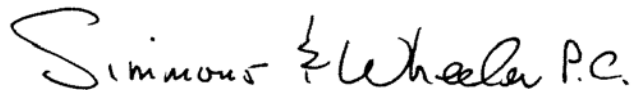

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Galleria Metropolitan District's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Handwritten signature in cursive script that reads "Simmons & Wheeler P.C.".

**GALLERIA METROPOLITAN DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED DECEMBER 31, 2019**

Net Change in Fund Balances - Governmental Funds	\$	(6,800)
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>		
<p>The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Bond Principal Payment		382,503
<p>Revenues in the funds that provide current financial resources that are not reported in the statement of activities.</p>		
Reduction in the Basis of Tap Participation Credits		(37,760)
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.</p>		
Accrued Interest on Bonds - Change in Liability		1,030
Change in Net Position of Governmental Activities	\$	338,973

See accompanying Notes to Basic Financial Statements.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 1 DEFINITION OF REPORTING ENTITY

Galleria Metropolitan District (the District), a quasi-municipal corporation and political subdivision of the state of Colorado, was organized by order and decree of the District Court for Arapahoe County on April 11, 1986, and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District's service area is located in the Cities of Aurora and Greenwood Village in Arapahoe County, Colorado. The District was organized to provide street improvements, storm drainage, park and recreation facilities, water and sewer facilities, transportation facilities and television relay facilities. Water service is provided to the property under a total water service contract with the Denver Water Board.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by property taxes and intergovernmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the assets, deferred outflow of resources, liabilities, and deferred inflow of resources of the District is reported as net position.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for the governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. The District has determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District amended its debt service fund annual budget for the year ended December 31, 2019.

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated to the Debt Service Fund.

Investments are carried at fair value or amortized cost.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The property tax revenues are recorded as revenue in the year they are available or collected.

Capital Assets

Capital assets, which include property and infrastructure improvements (e.g. roads, bridges, sidewalks and similar items), are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress, and are not included in the calculation of net investment in capital assets component of the District's net position.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Depreciation expense has not been recorded as the assets are recorded as nondepreciable assets.

Deferred Inflows of Resources

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, *deferred property tax revenue*, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Equity

Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity (Continued)

Fund Balance (Continued)

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority, the board of directors. The constraint may be removed or changed only through formal action of the board of directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government’s intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the board of directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District’s practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2019, are classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and Investments	\$ 221,067
Cash and Investments - Restricted	401,093
Total Cash and Investments	\$ 622,160

Cash and investments as of December 31, 2019, consist of the following:

Deposits with Financial Institutions	\$ 6,188
Investments	615,972
Total Cash and Investments	\$ 622,160

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Deposits with Financial Institutions (Continued)

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2019, the District's cash deposits had a bank balance of \$9,948 and a carrying balance of \$6,188.

Investments

The District has adopted a formal investment policy to invest funds in accordance with state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- * Certain money market funds
- . Guaranteed investment contracts
- * Local government investment pools

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Fair Value Measurement and Application

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments not measured at fair value and not categorized include governmental money market funds (PFM Funds Governmental Select series), money market funds (generally held by Bank Trust Departments in their role as paying agent or trustee), CSAFE (which are recorded at amortized cost), and COLOTRUST (which are recorded at net asset value).

As of December 31, 2019, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amount</u>
Colorado Local Government Liquid Asset Trust (COLOTRUST)	Weighted Average Under 60 Days	\$ 1,005,160
Colorado Surplus Asset Fund Trust (CSAFE)	Weighted Average Under 60 Days	11,545
Government Money Market Fund	Weighted Average Under 30 Days	130
Total Investments		<u>\$ 1,016,835</u>

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAM by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST at net asset value using fair value. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

CSAFE

The District invested in the Colorado Surplus Asset Fund Trust (CSAFE) (the Trust), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust is similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds, and highest rated commercial paper. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. CSAFE is rated AAAM by Standard & Poor's. CSAFE records its investments at amortized cost and the District records its investments in CSAFE at net asset value using amortized cost. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

Government Money Market Fund

The debt service money that is included in the trust accounts at Wells Fargo Bank is invested in the Government Money Market Fund. This portfolio is a money market fund which invests in U.S. Treasury obligations, which are fully guaranteed as to principal and interest by the United States, with maturities of 13 months or less and repurchase agreements collateralized by U.S. Treasury obligations. The Government Money Market Fund is rated AAAM by Standard & Poor's. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

NOTE 4 CAPITAL ASSETS

An analysis of the changes in capital assets for the year ended December 31, 2019 follows:

	Balance - December 31, 2018	Additions	Transfers and Retirements	Balance - December 31, 2019
Capital Assets, Not Being Depreciated:				
Water Tap Participation				
Charge Credits	\$ 100,890	\$ -	\$ 37,760	\$ 63,130

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 4 CAPITAL ASSETS (CONTINUED)

Water Tap Participation Charge Credits

During 1986, the District obtained 325 ¾" single-family residential equivalent demand water tap participation charge credits (charge credits) which are available for use within the District's Contract Service area. The charge credits were purchased at \$590 per credit.

The District will use up to ten of the charge credits for common area irrigation purposes. At December 31, 2019, the District had two charge credits remaining, for common area irrigation purposes, for a total of \$1,180.

On June 14, 1999, the District entered into an agreement with Trammell Crow Denver Development, Inc. (Trammell Crow) where Trammell Crow shall be entitled to use up to 59% of the remaining 315 charge credits (185 credits) for the development of its property. In 2007, Trammell Crow's 130 credits, totaling \$76,700, reverted back to the District to be sold to other developers. At December 31, 2019, the District had 59 charge credits available for a total cost of \$34,810. The District is selling the credits for 90% of the fee charged by Denver Water Board for water tap participation credits at the time of purchase, which currently is approximately \$1,012 per credit.

On August 9, 1999, the District entered into an agreement with EQR/Legacy Partners Hampden Town Center LLC (Legacy) where Legacy shall be entitled to use up to 41% of the remaining 315 charge credits (130 credits) for the development of its property, without payment of any additional charge credit for a period of ten years commencing August 9, 1999. At December 31, 2019, Legacy had 46 charge credits remaining for a total of \$27,140.

NOTE 5 LONG-TERM OBLIGATIONS

The following is an analysis of changes in the District's long-term obligations for the year ended December 31, 2019:

	Balance - December 31, 2018	Additions	Deletions	Balance - December 31, 2019	Due Within One Year
General Obligation Limited Tax					
Refunding Bonds - Series 2010	\$ 3,661,552	\$ -	\$ 382,503	\$ 3,279,049	\$ 291,628
Total Long-Term Obligations	<u>\$ 3,661,552</u>	<u>\$ -</u>	<u>\$ 382,503</u>	<u>\$ 3,279,049</u>	<u>\$ 291,628</u>

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

General Obligation Bonds

\$4,455,000 Reissued General Obligation Limited Tax Refunding Bonds, Series 2010, were originally dated February 24, 2010, in the original amount of \$5,795,000, with interest at an initial rate of 4.45%. On June 26, 2012, the Series 2010 bonds were amended and restated in the amount of \$5,425,000, with interest at an initial rate of 3.23%. On March 7, 2016, the Series 2010 bonds were amended and restated in the amount of \$4,455,000, with a fixed interest rate of 3.23% through the maturity date of December 1, 2029. The 2016 reissuance of the Series 2010 bonds reduced the Debt Service Reserve Requirement to \$400,000 and eliminated the minimum liquidity requirement. The bonds may be prepaid without prepayment premium prior to maturity on any date.

The Bonds are secured by and payable solely from and to the extent of the Pledged Revenue, consisting of monies derived by the District from the Required Mill Levy and all specific ownership taxes. To the extent specific ownership tax revenues are not necessary in any fiscal year to pay the principal of, premium, if any, and interest on the bonds or to replenish any deficiency in the Debt Service Reserve account, such revenues may be expended by the District for any lawful purpose after December 15 of the fiscal year, plus any other legally available moneys credited to the Bond Account. Required Mill Levy means an ad valorem mill levy imposed upon all taxable property of the District each year in an amount sufficient to pay the principal, premium if any, and interest on the Bonds, operating expenses of the District, and any Parity Bonds as the same become due and payable, and to make up any deficiencies in the Debt Service Reserve Account, but not in excess of 50 mills.

The Bonds are secured by funds in the Reserve Account in the required amount of \$400,000.

The District's long-term obligations will mature as follows:

<u>Year Ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2020	\$ 291,628	\$ 105,913	\$ 397,541
2021	301,047	96,494	397,541
2022	310,771	86,770	397,541
2023	320,809	76,732	397,541
2024	331,171	66,370	397,541
2025-2029	1,723,623	164,318	1,887,941
Total	<u>\$ 3,279,049</u>	<u>\$ 596,597</u>	<u>\$ 3,875,646</u>

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

Authorized Debt

On May 5, 1998, the District's voters authorized the issuance of indebtedness in an amount not to exceed \$16,875,000 for the purpose of providing certain public improvements at an interest rate not to exceed 12%. On May 2, 2000, the District's voters rescinded the authorized but unissued indebtedness of \$1,328,150 for storm drainage improvements and authorized an increase in the issuance of indebtedness related to street improvements not to exceed \$11,060,000, at an interest rate not to exceed 12% and \$16,875,000 for refunding the District's debt or other obligations and \$500,000 for operations and maintenance.

At December 31, 2019, the District had authorized but unissued indebtedness in the following amounts allocated for the following purposes:

Streets	\$ 17,275,350
Water	765,500
Sewer	936,200
Recreation	2,223,600
Transportation	511,200
Operations	500,000
Refunding	<u>10,890,000</u>
Total	<u><u>\$ 33,101,850</u></u>

Pursuant to the Amended Service Plan, the District is permitted to issue bond indebtedness of up to \$80,000,000.

In the future, the District may issue a portion or all of the remaining authorized but unissued general obligation debt for purposes of providing public improvements to support development as it occurs within the District's service area.

NOTE 6 NET POSITION

The District has net position consisting of three components – net investment in capital asset, restricted, and unrestricted.

As of December 31, 2019, the District had net investment in capital assets of \$63,130.

The restricted component of net position includes assets that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The District had restricted net position as of December 31, 2019, as follows:

Restricted Net Position:	
Emergencies	\$ 100
Debt Service	<u>392,923</u>
Total Restricted Net Position	<u><u>\$ 393,023</u></u>

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 6 NET POSITION (CONTINUED)

The District has a deficit in unrestricted net position. This deficit amount is a result of the District being responsible for the repayment of bonds issued for public improvements which were conveyed to other governmental entities and which costs were removed from the District's financial records.

NOTE 7 RELATED PARTIES

During 2019, two of the Board members were associated with entities that have developed or are developing property within the District.

NOTE 8 RISK MANAGEMENT

Except as provided in the Colorado Governmental Immunity Act, §24-10-101, et seq., C.R.S., the District may be exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, workers compensation, and public officials' liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 9 TAX, SPENDING, AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue, and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

**GALLERIA METROPOLITAN DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2019**

NOTE 9 TAX, SPENDING, AND DEBT LIMITATIONS (CONTINUED)

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

On May 2, 2000, the District voters passed an election question to increase property taxes \$500,000 annually, without limitation of rate, to pay the District's operations, maintenance, and other expenses. Additionally, the District's electors authorized the District to collect, retain and spend all revenue, other than ad valorem taxes, without regard to any limitations under TABOR.

NOTE 10 CONTINGENT LIABILITIES

In 2011, the District's Board evaluated the status of the Facilities Acquisition Agreement with Trammell Crow (Developer) to determine the likelihood of the District's ability to pay the Agreement. In 2002, the Board intended to reimburse the Developer per the Agreement and recorded the accrued liability. Since that time, the Board members have changed and the intent of the Board has also changed. The current Board does not intend to reimburse the Developer for these additional costs.

The District currently has debt outstanding that requires the District to obtain prior written consent before incurring any additional debt. As of December 31, 2019, the District has not obtained written consent to reimburse the Developer for any additional costs.

Facilities Acquisition Agreement

On June 28, 1999, the District entered into a Facilities Acquisition Agreement (the Agreement) with Trammell Crow. The District has paid Trammell Crow \$3,800,000 under the terms of the Agreement. On January 1, 2002, the Agreement was amended to allow for an additional \$1,100,000 of estimated costs to be reimbursed to Trammell Crow. The terms of the Agreement extend through and include November 1, 2022, unless terminated earlier by mutual agreement of the parties.

The making of any reimbursement under the Agreement shall be at all times subject to annual appropriation by the District and shall not constitute a debt or indebtedness of the District within the meaning of any constitutional or statutory provision, nor shall it constitute a multiple fiscal year financial obligation. Interest shall accrue on the additional amounts advanced at the rate of prime plus one and three quarters percent per annum as published by Wells Fargo Bank from the date the cost is incurred by Trammell Crow. The interest rate at December 31, 2019, was 6.50%. As of December 31, 2019, Trammell Crow had incurred \$982,193 for public improvements with an unreimbursed outstanding principal balance of \$682,193 and an accrued interest amount of \$822,595.
