REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
Kiowa Fire Protection District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the governmental fund of the Kiowa Fire Protection District (the "District"), as of and for the year ended December 31, 2019, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audit in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants ("US GAAS").

We conducted our audit in accordance with US GAAS. Those standards require that we plan and perform our audit to obtain reasonable assurance about whether these financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions on the Financial Statements

In our opinion, the financial statements previously referred to, present fairly, in all material respects, the respective financial position of the governmental activities and the governmental fund of the Kiowa Fire Protection District, as of December 31, 2019, and the respective changes in financial position thereof, and the budgetary comparison for the general fund for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Omission of the Management's Discussion and Analysis

The Board of Directors has omitted the management's discussion and analysis, information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Government Accounting Standards Board, which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this omitted information.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedule of changes in net pension liability and related ratios on page 28 and 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to this required supplementary information in accordance with US GAAS, which consist of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on this information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Kiowa Fire Protection District (the "District") conform to the accounting principles generally accepted in the United States of America ("US GAAP") as applicable to governmental entities. The following is a summary of the more significant policies consistently applied in the preparation of the financial statements of the District.

1. Reporting Entity

The District was established under State of Colorado statutes as a quasi-municipal corporation and is governed by a five-member Board of Directors pursuant to the provisions of the Colorado Special District Act. The District's service area is located in Elbert County, Colorado and the District provides firefighting and emergency medical services ("EMS") to the residents and visitors of the District. As required by US GAAP, these financial statements present the activities of the District, which is legally separate and financially independent of other state and local government entities. The District has no component units as defined by Governmental Accounting Standards Board ("GASB"), Statement No. 14, *The Reporting Entity* and GASB No. 39, *Determining Whether Certain Organizations are Component Units*.

2. Measurement Focus and Financial Accounting Framework

Government-wide Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of net activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported as general revenues.

Governmental Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - *continued*

2. *Measurement Focus and Financial Accounting Framework - continued*

Property taxes, specific ownership taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue in the current fiscal period.

For 2019, the District has one Governmental Fund, the *General Fund*, which accounts for all of the financial resources of the District.

3. *Cash and Cash Equivalents*

The District considers cash and cash equivalents to include cash on hand, demand deposits and money market accounts.

4. *Fair Value of Financial Instruments*

The District's financial instruments include cash and cash equivalents, accounts receivable and accounts payable. The District estimates that the fair value of these financial instruments as of December 31, 2019, do not differ materially from the aggregate carrying values used in the accompanying financial statements. The carrying amount of these financial instruments approximates the fair value due to the short maturity of these financial instruments.

5. *Use of Estimates*

The preparation of financial statements in conformity with US GAAP involves the use of management's estimates that affect the reported amounts of assets and liabilities as of the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. These estimates are based upon management's best judgment, after considering past events and assumptions about future events. Actual results could differ from those estimates. District management has estimated the useful lives of the District's capital assets as reflected in the Statement of Net Position.

6. *Property Taxes Receivable*

Property taxes are levied on December 15 of each year, and attach as an enforceable lien on subject property as of January 1 of the following year. The property taxes are payable in full on April 30 or if paid in two installments, due on February 28 and June 15. Property taxes are considered to be delinquent as of August 1. Elbert County bills and collects the property taxes on behalf of the District and remits the collections, less the applicable Treasurer's fees, to the District on a monthly basis. As the property taxes result in an enforceable lien on the subject property, in the event the property taxes are not paid, the subject property may be sold at public auction to collect the delinquent property taxes. Accordingly, no provision is deemed necessary for uncollected property taxes. As of December 31, the District has recorded the subsequent year levied property taxes and the related deferred inflow of resources.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - *continued*

7. *Restricted Net Position*

The restriction of net position represents amounts that may not be appropriated or are legally segregated for a specific purpose.

8. *Capital Assets*

The District's capital assets are recorded at cost if purchased or constructed. Donated capital assets are valued at the estimated fair value at the time of the donation. The District's capital assets consist of land, buildings, trucks and other equipment. The District has a capitalization policy of \$5,000. The District's Board of Directors has the option to capitalize certain items less than \$5,000 in certain circumstances. Depreciation is provided in amounts sufficient to relate the cost of depreciable capital assets to operations over the estimated useful lives of the assets. Depreciation is provided under the straight-line method, with estimated service lives of three years to forty years.

The cost of normal maintenance and repairs that do not add to the value of, or materially extend the life of, the related capital asset, are charged to expense as incurred.

NOTE B – BUDGET INFORMATION

The District's annual budget is prepared on a Non-GAAP basis for the District's General Fund. An annual appropriated budget is adopted for the General Fund. All annual appropriations lapse at the end of the District's fiscal year.

The District conforms to the following procedures, in accordance with the State of Colorado Revised Statutes, in the establishment of the budgetary information reflected in the accompanying financial statements:

Prior to October 15, the District's Treasurer submits a proposed operating budget for the subsequent fiscal year to the District's Board of Directors. The Board of Directors may change the proposed budget prior to the publication of the notice of budget. Within ten days of the submission, a notice of the proposed budget is published. The operating budget includes proposed expenditures and the means of financing the expenditures.

Public hearings are held at the regular District Board of Directors' meetings to obtain taxpayer input on the proposed operating budget.

On or before December 15, the operating budget is legally adopted through passage of a budget resolution. Upon adoption, the District's Treasurer is authorized to transfer the budgeted amounts within the function and objects of the Fund(s). The District's Board of Directors must approve revisions that change the total expenditures of the Fund(s). Appropriations are controlled and the budget can be only amended in accordance with the State of Colorado Revised Statutes that allows the District to amend the budget and adopt a supplemental appropriation, if funds for a specific purpose, other than ad valorem taxes, become available.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE B – BUDGET INFORMATION – *continued*

State of Colorado Statutes requires a balanced budget. For 2019, the District's budgeted expenditures exceeded budgeted revenues by \$318,448. The excess of expenditures over revenue was anticipated to be funded by the use of prior year surpluses and other funding sources to the extent necessary and applicable.

NOTE C – CASH AND INVESTMENTS

The Colorado Public Deposit Protection Act ("PDPA") requires that all units of local government deposit cash in eligible public depositories. State Regulators determine the eligibility. Amounts on deposit in excess of the Federal Deposit Insurance Corporation ("FDIC") insurance levels must be collateralized. The eligible collateral is determined by the PDPA. The PDPA allows institutions to create a single collateral pool for all public funds. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits. The market value of the collateral must be equal to 102% of the aggregate uninsured public deposits.

As of December 31, 2019, all of the District's deposits were either insured by the FDIC or held in eligible depositories.

In addition, State of Colorado Statute specifies investments that meet defined rating and risk criteria in which local governments may hold. The allowed investments include participation in state regulated investment pools. The District participates in the Colorado Local Government Liquid Asset Trust ("COLOTRUST"). As of December 31, 2019, the District had \$205,850 on deposit with COLOTRUST Plus+. The carrying value and market value of the COLOTRUST Plus+ are equal. The COLOTRUST Plus+ is rated AAAm by Standard and Poors.

COLOTRUST determines the net asset value ("NAV") of the shares of each portfolio as of the close of business of each day. The NAV per share of each portfolio is computed by dividing the total value of the securities and other assets of the portfolios, less any liabilities, by the total outstanding shares of the portfolios. Liabilities, which include all expenses and fees of COLOTRUST, are accrued daily. The NAV is calculated at fair value using various inputs to determine value in accordance with GASB guidance. It is the goal of the Trust to maintain a NAV of \$1.00 per share, however changes in interest rates may affect the fair value of the securities held by COLOTRUST and there can be no assurance that the NAV will not vary from \$1.00 per share.

NOTE D – EMERGENCY MEDICAL SERVICES ("EMS")

The District grants credit to residents, visitors and third party medical payers for EMS and EMS support response services provided by the District. Due to the uncertainty related to the various third-party payer adjustments and the timing of the actual collection of the EMS and EMS support response fees, the District recognizes revenue associated with the EMS and EMS support responses services on the cash basis, thereby recognizing the revenue when the payment for EMS and EMS support services is received.

As of December 31, 2019, the balance billed by and outstanding to the District, before third-party payer adjustments was \$38,758. The actual revenue to be recognized will be determine at the time final payment is received by the District.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE E – CAPITAL ASSETS

The changes in the District's capital assets for the year ended December 31, 2019, are as follows:

	Balance December 31, 2018	Additions	Disposals	Balance December 31, 2019
Capital assets				
Not subject to depreciation				
Land	\$ 55,125	\$ -	\$ -	\$ 55,125

Total	(1,090,355)	(142,792)	-	(1,233,147)
Net capital assets	\$ 1,052,493	\$ 368,598	\$ (216,875)	\$ 1,204,116

In 2019, the construction in process was transferred to buildings as the District's station expansion was completed.

NOTE F - LEASE-PURCHASE AGREEMENTS

2017 Lease-Purchase Agreement #1

In June 2017, the District entered into a lease-purchase collateralized by equipment as defined in the Series 2017 Lease Purchase Agreement ("2017 Lease Purchase #1"). Under the terms of the 2017 Lease Purchase #1, the lease payments shall constitute a current expenditure/expense of the District payable in the current year and in any other year so as to not be construed as a multiple fiscal year obligation.

Provided the District has complied with the terms and conditions of the 2017 Lease Purchase #1, the District shall have the option, upon any payment date as specified in the 2017 Lease Purchase #1, to prepay not less than the amount due on all of the equipment which is subject to the 2017 Lease Purchase #1.

The 2017 Lease Purchase #1 requires annual rental payments of \$29,510 including interest at a rate of 3.1% commencing on May 1, 2018 with a final payment due May 1, 2027.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE F - LEASE-PURCHASE AGREEMENTS - *continued*

2017 Lease-Purchase Agreement #1- continued

The changes in the 2017 Lease Purchase #1 for the year ended December 31, 2019 are as follows:

Balance December 31, 2018	Borrowings	Payments	Balance December 31, 2019	Balance due within One Year
\$ 227,645	\$ -	\$ 22,226	\$ 205,419	\$ 22,937

As of December 31, 2019, the future minimum payments under the 2017 Lease Purchase #1 are as follows:

Year ended December 31,	Principal	Interest	Total
2020	\$ 22,937	\$ 6,573	\$ 29,510
2021	23,671	5,839	29,510
2022	24,429	5,081	29,510
2023	25,210	4,300	29,510
2024	26,017	3,493	29,510
2025 to 2027	83,155	5,376	88,531
Total	\$ 205,419	\$ 30,662	\$ 236,081

As of December 31, 2019, the optional prepayments are as follows:

May 1,	Optional Prepayment Price
2020	\$ 182,482
2021	158,810
2022	134,382
2023	109,171
2024	83,154
2025	56,304
2026	28,595

Under the 2017 Lease-Purchase #1, the District is required to submit the District's audited financial statements upon the first to occur of; two weeks after the final audited financial statements become available for issuance; or 270 days after the District's year end.

2017 Lease-Purchase Agreement #2

In December 2017, the District entered into a lease-purchase for equipment as defined in the 2017 Lease Purchase Agreement ("2017 Lease Purchase #2"). As permitted under the terms and conditions of the 2017 Lease Purchase #2, the District exercised its option and paid the 2017 Lease Purchase #2 in full during 2019.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE G – FUND BALANCE/NET POSITION

Fund Balance

The District utilizes the fund balance presentation as required under GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Fund balances are categorized as nonspendable, restricted, committed, assigned or unassigned.

Nonspendable – represents amounts that cannot be spent because they are either in nonspendable form or legally required to remain intact,

Restricted – represents amounts with external constraints placed on the use of these resources or imposed by enabling legislation,

Committed – represents amounts that can only be used for specific purposes imposed by a formal action of the District's highest level of decision-making authority, the District's Board of Directors. Committed resources cannot be used for any other purpose unless the District's Board of Directors removes or changes the specific use by the same type of action used to commit those amounts, either by resolution or by ordinance,

Assigned – represents amounts that the District intends to use for specific purposes as expressed by the District's Board of Directors or an official delegated the authority to assign amounts,

Unassigned – represents the residual classification for the general fund or deficit balances in other funds, as applicable.

Amounts are considered to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available. Unrestricted amounts are considered to have been spent when an expenditure is incurred for purposes for which amounts in any of these unrestricted fund balances classifications could be used.

Fund balances

Nonspendable		
Prepaid expenses	\$	10,307
Restricted		
TABOR reserve		15,600
Assigned		
2020 budget		290,951
Unassigned		<u>76,656</u>
Total fund balance	\$	<u>393,514</u>

Included in the preparation of the 2020 budget, the District's Board of Directors included as a budgetary resource, the use of a portion of the 2019 fund balance to eliminate an excess of budgeted expenditures over budgeted revenue. As required under GASB No. 54, the use of a portion of the fund balance, in an amount no greater than is necessary to eliminate the excess of budgeted expenditures over budgeted revenue, should be classified as assigned. The assignment expires at the end of 2020.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE G – FUND BALANCE/NET POSITION – *continued*

Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows or resources related to those assets.

Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expenditure is incurred for purposes for which both restricted and unrestricted net position is available, the District will use the most restrictive net position first.

NOTE H – PENSION PLANS

Volunteer Firefighters' Pension Plan

Description of the Plan and Benefits Provided

The District, on behalf of its volunteer firefighters, maintains the District's Volunteer Firefighters' Pension Plan, a defined benefit plan (the "Plan") which is affiliated with the Colorado Fire and Police Pension Association ("FPPA").

Volunteer firefighters who maintain an average training participation in the department of 36 hours per year are eligible to participate in the plan for that year. Volunteers' rights to benefits fully vest after 20 years of service. Volunteers, who retire at, or after the age of fifty with ten years of credited service, are entitled to a reduced benefit. In addition, the Plan provides death and disability benefits funded by insurance policies.

Effective March 2017, the District elected to close the Volunteer Firefighters' Pension Plan to new members.

Previously, the District made contributions based upon District established benefits and funding requirements based upon an actuarial study. Plan members did not make contributions. The State of Colorado also made an annual contribution to the Plan in an amount established by statute.

Kiowa Fire Protection District

NOTES TO FINANCIAL STATEMENTS

NOTE H – PENSION PLANS - *continued*

Volunteer Firefighters' Pension Plan - continued

Description of the Plan and Benefits Provided - continued

The Plan provides retirement benefits for Plan participants and beneficiaries according to the Plan provisions as enacted and governed by the Plan Board of Trustees as follows:

Normal Retirement Benefit at Age 50 with 20 years of service (monthly)	\$	400
Disability Retirement Benefit (monthly)		
Short-term disability for line of duty injury, not to exceed 1 year		225
Long-term disability for line of duty injury, lifetime benefit		450
Survivor Benefits (monthly)		
Death in the line of duty, before retirement eligible		225
Death after normal retirement		200
Death after disability retirement		225
Funeral Benefit, lump sum, one-time only		500

The above benefit provisions were also used to determine the total pension liability (asset).

Plan Participants Covered by the Plan as of January 1, 2019

Retirees and beneficiaries	13
Inactive, Non-retired	6
Active	14
Total participants	30

Net Pension Asset and Change in the Net Pension Asset

As defined within GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, ("GASB 68") the Net Pension Liability/(Asset) ("NPL"/"NPA") is the difference between the Total Pension Liability ("TPL") and the Plan's Net Position. This is analogous to the Plan's accrued liability less than the market value of the Plan's assets. The TPL/NPA is based upon an actuarial valuation performed as of January 1, 2019 with a TPL/TPA measurement date of December 31, 2018. As permitted under GASB 68, the measurement date is within one year of the District's fiscal year-end of December 31, 2019, and may be used to fulfill the December 31, 2019 reporting requirements.

The change in the Plan's NPA consists of the following:

Service costs	\$	5,075
Interest on the TPL		34,450
Benefit changes		158,794
Change in assumptions		28,607
Difference between expected and actual experience of the Total Pension Liability		(2,437)
Net Plan investment income		(664)
Plan administrative expenses		7,099
Change in the Net Pension Asset		(230,924)
Net Pension Asset – Beginning of the Year		(397,157)
Net Pension Asset – End of the Year	\$	(166,233)

Kiowa Fire Protection District

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE H – PENSION PLANS - *continued*

Volunteer Firefighters' Pension Plan - continued

Net Pension Asset and Change in the Net Pension Asset - continued

As of December 31, 2018, the measurement date, the NPA consisted of the following:

Total Pension Liability	\$	659,217
Plan Net Position Available for Benefits		<u>875,450</u>
Net Pension Asset	\$	<u>(166,233)</u>
Percentage of Plan Net Position to Total Pension Liability		<u>125.22%</u>

The Plan's NPA is calculated using a Single Discount Rate of 7.00%. The Plan's NPA calculated using a Single Discount Rate that is 1% lower or 1% higher is as follows:

1% Discount 6.00%	7.00%	1% Increase 8.00%
\$ <u>(88,422)</u>	\$ <u>(166,233)</u>	\$ <u>(230,329)</u>

Basis for Determining the District and Actuarial Calculated Contributions

The actuarially determined contributions are calculated as of January 1 of odd numbered years. The contribution rates have a one-year lag, as such, the actuarial valuation as of January 1, 2017, determined the contribution amounts for 2018 and 2019. The methods and assumptions used to determine the contribution rates are as follows:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open
Remaining Amortization Period	20 years
Asset Valuation Method	5-year smoothed market
Inflation	2.50%
Investment Rate of Return	7.50%
Retirement Age	50% per year of eligibility until 100% at age 65
Mortality	Pre-retirement: PR-2000 Combined Mortality Table with Blue Collar Adjustment, Post-retirement :RP-2014 Combined Mortality Table with Blue Collar Adjustment, Disability: RP-2014 Disabled Mortality Table

For the year ended December 31, 2018, the actuarial and District contributions were as follows:

Actuarially Determined Contribution	Actual Contribution	Contribution Deficiency (Excess)
\$ <u>-</u>	\$ <u>-</u>	\$ <u>-</u>

The actuarial valuation calculated on January 1, 2019 for the contribution amounts, as applicable, for 2020 and 2021 will have the following assumption changes:

- Reduce investment return from 7.5% to 7.0%
- Update base mortality tables and projection scales
- Increase withdrawal rates by 10%

NOTE H – PENSION PLANS - *continued*

Volunteer Firefighters' Pension Plan - continued

Deferred Outflows and Inflows of Resources - Pension Plan

The deferred inflows and outflows of resources, as applicable, related to the Plan are amounts used under GASB 68 in developing the annual pension expense. The deferred inflows and outflows of resources arise from differences between expected and actual experiences and changes, as applicable, of assumptions. The portions of these amounts which are not included in the current pension expense (income) are reflected as deferred inflows and outflows of resources and consist of:

Deferred outflow of Resources to be recognized in future pension expense resulting from differences between projected and actual Plan investment income	\$ 65,348
Assumption changes	<u>26,847</u>
Total deferred outflows of resources - pension	\$ <u>92,195</u>
Deferred inflows of Resources to be recognized in future pension expense resulting from the difference between expected and actual experience associated with the TPA	\$ (6,144)
Deferred inflow of Resources to be recognized in future pension expense resulting from differences between projected and actual Plan investment income	<u>(33,836)</u>
Total deferred outflows of resources - pension	<u>(39,980)</u>
Net deferred outflows and inflows of resources - pension	\$ <u>52,215</u>

The deferred outflows and inflows of resources, net, by year to be recognized in the future pension expense (income) as of December 31, 2019 are as follows:

Year ended December 31,

2020	\$ 19,263
2021	10,953
2022	7,421
2023	<u>14,578</u>
Total	\$ <u>52,215</u>

Statewide Fire and Police Defined Benefit Pension Plan

Description of the Plan and Benefits Provided

The District's full-time employees participate in the Fire and Police Pension Association of Colorado's Statewide Defined Benefit Plan (SWDB). The SWDB plan covers all full-time firefighter and police officer employees of the participating fire and police departments in Colorado hired after April 8, 1978. The SWDB plan is a multi-employer plan administered by the FFPA. Members of the SWDB plan may receive a monthly lifetime benefit upon meeting the eligibility requirements for normal, early, vested or deferred retirement.

A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE H – PENSION PLANS - *continued*

Statewide Fire and Police Defined Benefit Pension Plan - continued

Description of the Plan and Benefits Provided - continued

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members currently covered under Social Security will receive half the benefit when compared to the SWDB plan. Benefits paid to retired members are evaluated and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0% to the higher of 3% or the Consumer Price Index.

A member is eligible for an early retirement at age 50 or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5% as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the SWDB plan and remain eligible for a retirement pension at age 55 equal to 2% of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5% for each year of service thereafter.

Contributions

Members of the SWDB plan and employers are contributing at the rate of 10.5% and 8%, respectively, of base salary for a total contribution rate of 18.5% in 2019. In 2014, the members of the SWDB plan voted to increase the member contribution to the SWDB plan beginning in 2015. Member contribution rates will increase by 0.5% annually through 2022 to a total of 12% of base salary. Employer contributions will remain at 8% resulting in a combined contribution rate of 20% in 2022.

The District's contribution to the Statewide Defined Benefit Plan for the year ending December 31, 2019, was \$17,780.

Pension Liabilities/Assets, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The SWDB plan is also subject to the provisions of GASB 68 which provide guidance for the potential recognition of the District's proportionate share of the SWDB plans net pension liability/(asset) and any related deferred outflows or deferred inflows. The District has evaluated the impact of GASB 68 and has determined the District's proportionate share of the SWDB plans net pension liability /(asset) and any related deferred outflows or deferred inflows is immaterial. As such, as permitted under US GAAP, the District's proportionate share of the SWDB plans net pension liability/(asset) and any related deferred outflows or deferred inflows are not reflected.

Kiowa Fire Protection District
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE H – PENSION PLANS - *continued*

Fire and Police Pension Association

The Fire and Police Pension Association administers an agent multiple-employer Public Employee Retirement System (“PERS”). The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The affiliated pension plans have elected to use FPPA for plan administration investment services only. FPPA issues a publically available comprehensive annual financial report. That report may be obtained through the FPPA website at www.fppaco.org.

NOTE I - ENERGY AND MINERAL IMPACT GRANT

In April 2017, the District was awarded to receive a grant in the amount of \$200,000 for the remodel and expansion of the District's existing primary fire station. The remodel and expansion of the existing fire station was anticipated to be started in 2017. However, the project was delayed and the start date was spring 2018. The District applied and was granted an extension of the grant. In 2019, the remodel and expansion of the existing fire station was completed and the District received \$120,327 under the grant.

NOTE J – TAX, SPENDING AND DEBT LIMITATIONS

Taxpayer's Bill of Rights

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (“TABOR”), contains tax, spending and debt limitations which apply to the State of Colorado and all local governments.

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of fiscal year spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the calculation of the fiscal year spending limits will require judicial interpretation.

In 1996, the voters of the District voted to allow the District to retain revenues in excess of the limits established by TABOR.

Gallagher Amendment

In 2018, the electors of the District authorized the District to adjust the District's mill levy up or down, in response to legislative changes to the residential property tax assessment percentage. The District levied 8.689 mills for property taxes to be collected in 2020.

NOTE K – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage to, or destruction of assets; errors or omissions; injuries to volunteers; or acts of God for which the District carries commercial insurance. The District's claims have not exceeded its coverage during the preceding three years.

Kiowa Fire Protection District

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE L – IMPACT FEES

In 2016, the State of Colorado passed House Bill 16-1088, *Fire Protection District Impact Fee on New Development*. The legislation authorizes Fire Districts to impose an impact fee on the construction of new buildings, structures, facilities, or improvements, including oil and gas wells, on previously improved or unimproved real property for reasonable related cost of fire protection services from the Fire Districts. Additionally, the County where the Fire District resides must be involved with the assessment and collection of the agreed impact fees. In March 2017, the District entered into an Intergovernmental Agreement with Elbert County for the Assessment, Collection and Remittance of Emergency Services Impact Fees establishing an impact fee schedule and authorizing the County to impose and collect the impact fee less a 3% treasurer fee to defray collection cost.

NOTE M – MANAGEMENT’S EVALUATION OF SUBSEQUENT EVENTS

The preparation of the District’s financial statements and accompanying notes in conformity with generally accepted accounting principles requires management of the District to evaluate transactions and events subsequent to the balance sheet date involving the District. Management has evaluated the subsequent transactions and events of the District through June 10, 2020, which is the date the financial statements and accompanying footnotes were available for issuance.

- In December 2019, an outbreak of a novel strain of coronavirus (“COVID-19”) originated in Wuhan, China and has since spread to a number of other countries, including the United States. In March 2020, the World Health Organization characterized COVID-19 as a pandemic.

COVID-19 could adversely affect the economies and financial markets of the United States, including Colorado, resulting in an economic downturn that could affect property taxes and other sources of revenue to the District. We are continuing to monitor and assess the effects of the COVID-19 pandemic on the District, however, the ultimate impact of the COVID-19 outbreak or a similar health epidemic is highly uncertain and subject to change.

In response the District declared a Public Health Epidemic Emergency related to COVID-19. The declaration’s intent was to provide the necessary organization, powers and authority to enable the timely and effective use of all available District resources to prepare for, respond to, and recover from the COVID-19 pandemic. The Emergency Declaration has subsequently lapsed.
