Independent Auditors' Report

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Wiggins Rural Fire Protection District, Colorado, as of and for the year ended December 31, 2019, and the related notes to the financial statements which collectively comprise the basic financial statements of the District, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Wiggins Rural Fire Protection District, Colorado, as of December 31, 2019, and the respective changes in financial position, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

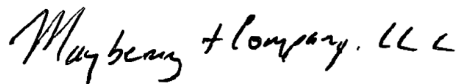

We have previously audited the Wiggins Rural Fire Protection District's 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated July 18, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters***Required Supplementary Information – Management's Discussion and Analysis and Pension Schedules (Unaudited)***

Accounting principles generally accepted in the United States of America require that a management's discussion and analysis and various pension schedules pages 24-27 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The District has elected to omit the management discussion and analysis which is a violation of generally accepted accounting principles.

Required Supplementary Information – Budgetary Comparison Schedules and Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Accounting principles generally accepted in the United States of America require that the budgetary comparison schedules on pages 28 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In addition, the combining and budgetary comparison schedules on pages 29-34 and listed as other supplementary information are presented for purposes of additional analysis and are not a required part of the financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS December 31, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Wiggins Rural Fire Protection District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following summary of significant accounting policies is presented to assist the reader in evaluating the District's financial statements.

REPORTING ENTITY

Wiggins Rural Fire Protection District is a political subdivision of the State of Colorado governed by a five member board of directors. As required by generally accepted accounting principles, these financial statements present the Wiggins Rural Fire Protection District (the primary government) and its component units. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable, or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the District's financial statements to be misleading or incomplete. Based upon the foregoing criteria, there are no component units included in the accompanying financial statements.

NATURE OF OPERATIONS

The District provides fire protection services for citizens in and around the community of Wiggins, Colorado.

BASIC FINANCIAL STATEMENTS

Basic financial statements are presented at both the government-wide and fund financial level. Both levels of statements categorize primary activities as either governmental or business-type. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Government-wide financial statements report information about the reporting government as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the year. These aggregated statements consist of the Statement of Net Position and the Statement of Activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or business-type activities are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or business-type activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or business-type activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or business type activity. Taxes and other items not included among program revenues are reported instead as general revenues.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIC FINANCIAL STATEMENTS (Continued)

Fund financial statements report information at the individual fund level. Each fund is considered to be a separate accounting entity. Funds are classified as governmental, proprietary, and fiduciary. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are consolidated into a single column in the financial section of the basic financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due.

The District reports the following major governmental funds:

General Fund

This fund accounts for the financial resources of the District which are not accounted for in any other fund. Principal sources of revenue are property taxes, intergovernmental revenue and interest. Primary expenditures are for fire protection and general administration. Beginning with these financial statements, this fund also accounts for the collection and remittance of the District's pension property tax and discretionary contribution to the District's agent multiple-employer pension plan.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION
(Continued)

Capital Equipment Fund

The Capital Equipment Fund was established to account for resources used for the acquisition and construction of capital facilities and equipment.

The District also reports the following nonmajor governmental funds, which consist of funds previously held by the Wiggins Fire Department and contributed to the District during 2010:

Community Assistance Fund

The Community Assistance Fund was established to account for resources used to sponsor different groups within the community.

Recruitment and Retention Fund

The Recruitment and Retention Fund was established to account for resources used for recruit and retain volunteer firefighters in the District.

Firemen's Assistance Fund

The Firemen's Assistance Fund (formerly the Disaster Fund) was established to account for resources used for firemen, board members, or employees of the District should they experience medical or financial hardship. This fund is fully funded by donations.

BUDGETS

The District adopts an annual budget for all funds which are all prepared on the modified accrual basis of accounting. The District may authorize supplemental appropriations during the budget year. All budgetary appropriations lapse at year-end.

Colorado statutes provide the following timetable which is followed in the adoption of budgets:

- (1) Submission of the proposed budget to the local governing body by October 15 of each year.
- (2) Certification of mill levies to the Board of County Commissioners by December 15.
- (3) Final adoption of budget and appropriations by December 31 of each year.
- (4) Property taxes are due by April 30 of each year if paid in full, or in two installments due February 28 and June 15 of each year.
- (5) Liens are placed on property for which taxes are delinquent in November of each year.

ENCUMBRANCES

The District does not utilize encumbrance accounting.

WIGGINS RURAL FIRE PROTECTION DISTRICT

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION/FUND BALANCE

Cash and Investments

The District's includes cash in bank, certificates of deposit and liquid investments as part of its cash and cash equivalents.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received.

Governmental funds report deferred inflows of resources, as further described below in connection with receivables for revenues that are not considered to be available to liquidate liabilities for the current period. At the end of the current year, these receivables consisted of property taxes levied in 2019 and due in 2020.

Capital Assets

Capital assets, which include land, machinery and equipment (furniture, vehicles, computers, etc.), are reported in the Governmental Activities column of the Government-Wide Financial Statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated or annexed capital assets are recorded at estimated market value at the date of donation or annexation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation on exhaustible assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position. Depreciation on the remaining capital assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	40 years
Machinery and Equipment	10-20 years
Vehicles	10-15 years

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION/FUND BALANCE (Continued)

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element represents an use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. The government has pension related items, which arises only under the full accrual basis of accounting that qualifies for reporting in this category. Accordingly, the items, contributions subsequent to measurement date and difference between projected and actual investment returns and plan experience, are reported in the governmental activities statement of net position. The pension differences and changes are amortized based on the requirements of GASB Statement 68. These amounts are deferred and recognized as an outflow of resources in the period that the amounts become due.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has two types of items, property taxes, which arises both under the full accrual and modified accrual basis of accounting, and pension related items that only are reported under full accrual, that qualify for reporting in this category. The property tax item, unavailable revenue, is reported in both the governmental activities statement of net position and in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Since property tax revenues are collected in arrears during the succeeding year, a receivable and corresponding deferred inflow is recorded at December 31. As the tax is collected in the succeeding year, the deferred inflow is recognized as revenue and the receivable is reduced. The pension differences and changes are amortized based on the requirements of GASB Statement 68.

Long-Term Obligation

Long-term debt is reported at face value, net of applicable discounts and deferred loss on refunding. Costs related to the issuance of debt are expensed when incurred. Long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statements of net position.

Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditure/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION/FUND BALANCE
(Continued)

Net Position/Fund Balance

In the government-wide financial statements, net position is either shown as net investment in capital assets, with these assets essentially being nonexpendable; restricted when constraints placed on the net position are externally imposed; or unrestricted.

For the governmental fund presentation, fund balances that are classified as “nonspendable” include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. The District currently does not have this category of fund balance.

Fund balance reported as “restricted” when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. The District’s restricted fund balance represents the funds set aside to satisfy the TABOR emergency reserve requirement discussed in Note 6.

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government’s highest level of decision-making authority, the Board of Directors, are reported as “committed” fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts. The District currently has no committed funds.

Amounts that are constrained by the government’s intent to be used for specific purposes, but are neither restricted nor committed, are reported as “assigned” fund balance. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes. The District currently has assigned fund balances for specific uses.

For the classification of fund and net position balances, the District considers an expenditure to be made from the most restrictive classification first, when more than one classification is available.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ASSETS, LIABILITIES, DEFERRED INFLOWS OF RESOURCES AND NET POSITION/FUND BALANCE
(Continued)

Net Position/Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates that affect amounts reported in the financial statements during the reporting period. Actual results could differ from such estimates.

NOTE 2: CASH DEPOSITS

The District's cash investment balances are as follows:

	<u>Bank Balance</u>	<u>Carrying Balance</u>
FDIC Insured	\$ 2,623,073	\$ 2,623,073
PDPA Collateralized*	<u>296,089</u>	<u>248,692</u>
Total Cash Deposits	<u>\$ 2,919,162</u>	<u>\$ 2,871,765</u>

*Not in District's Name

DEPOSITS

Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of bank failure, the government's deposits may not be returned to it. The District's deposit policy is in accordance with CRS 11-10.5-101, The Colorado Public Deposit Protection Act (PDPA), which governs the investment of public funds. PDPA requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels (\$250,000) must be collateralized by eligible collateral as determined by the PDPA. The financial institution is allowed to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019**

NOTE 2: CASH DEPOSITS

DEPOSITS (Continued)

Custodial Credit Risk – Deposits (Continued)

The institution’s internal records identify collateral by depositor and as such, these deposits are considered uninsured but collateralized. The State Regulatory Commissions for banks and financial services are required by statute to monitor the naming of eligible depositories and December 31, 2019, all of the District’s deposits as shown below were either insured by federal depository insurance or collateralized under PDPA and are therefore not deemed to be exposed to custodial credit risk.

The District's deposits are categorized as follows:

Cash	\$ 2,857,264
Restricted Cash - Pension	2,509
Restricted Cash - Donations	<u>11,992</u>
Cash and Investments	<u>\$ 2,871,765</u>

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 4: VOLUNTEER FIREMEN'S PENSION FUND - FPPA ADMINISTERED

Wiggins Rural Fire Protection District Volunteer Pension Fund

Plan Description. The Volunteer Pension Fund is a defined benefit, agent multiple-employer plan affiliated with the Colorado Fire and Police Pension Association (FPPA). Assets of the Plan are commingled for investment purposes in the Fire and Police Member's Benefit Fund, an agent multiple- employer defined benefit pension Plan administered by FPPA.

Description of Benefits. The Plan provides retirement benefits for Members and beneficiaries according to Plan provisions as enacted and governed by the Firefighters Pension Board. Colorado Revised Statutes (CRS), as amended, establishes basic benefit provisions under the Plan. In 2019, the regular benefit was \$300 per month. A participant becomes fully vested after 20 years of active service and reaching age 50. Disability and death benefits are only available if the disability occurred in the line of duty. The plan also provides for a lump-sum burial benefit upon the death of an active or retired firefighter. FPPA issues independent annual reports that may be obtained by calling FPPA at (303) 770-3772 in the Denver metro area and 1-800-332-FPPA (3772) from outside the metro area.

Contributions. The District funds the Plan per provisions in the Plan document and Colorado statutes. The District shall contribute amounts required to fund the benefits provided by the Plan on a sound actuarial basis. The District contributes to the Volunteer Pension Fund at a rate determined in the following manner: at least every three (3) years, the Volunteer Pension Fund shall have an actuarial study prepared to determine the funds required. The required funds will be paid annually from general revenues of the District into the Volunteer Pension Fund. The Volunteer Pension Fund receives contributions from the District in an amount equal to 7.00% of the District's property tax mill.

As established by the legislature, the State of Colorado contributes up to ninety percent of the District's contribution. The contributions are not actuarially determined.

The Plan is administered by a Retirement Board composed of seven members; the District's five elected board members plus two members elected by the volunteers.

The financial statements of the Volunteer Pension Fund are prepared using the accrual basis of accounting. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. The investments are presented at fair value except for short-term investments that are recorded at cost, which approximates fair value.

Administrative costs of the Plan are paid from the pension fund (CRS 31-30.5-204(3)). There are no investments in, loans to, or leases with parties related to the Plan.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred inflows of Resources Related to Pensions. At December 31, 2019, the District reported a net pension asset of \$509,335. The net pension asset was measured as of December 31, 2018, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 4: VOLUNTEER FIREMEN'S PENSION FUND - FPPA ADMINISTERED (Continued)

Wiggins Rural Fire Protection District Volunteer Pension Fund (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred inflows of Resources Related to Pensions

For the year ended December 31, 2019, the District recognized pension income of \$70,316. At December 31, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows	Deferred Inflows
Difference between expected and actual experience	\$ 14,568	\$ (5,989)
Changes of assumptions or other inputs	\$ 46,377	\$ -
Net difference between projected and actual earnings on pension plan investments	\$ 109,781	\$ (44,199)
Contributions subsequent to the measurement date	\$ 120,000	\$ -
Total	\$ 290,726	\$ (50,188)

\$120,000 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended December 31:	Fiscal year Total
2019	\$ 36,715
2020	25,266
2021	20,296
2022	34,886
2023	3,375
Total	\$ 120,538

Actuarial Assumptions. The January 1, 2017 actuarial valuation was used to determine the Actuarially Determined Contribution for the fiscal year ending December 31, 2019. The valuation used the following actuarial assumption and other inputs:

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019**

NOTE 4: VOLUNTEER FIREMEN'S PENSION FUND - FPPA ADMINISTERED (Continued)

Wiggins Rural Fire Protection District Volunteer Pension Fund (Continued)

The assumptions shown above pertain to the actuarial valuation as of January 1, 2017 and the associated Actuarially Determined Contribution for the year ending December 31, 2018. Following an experience study in 2018, the Board adopted a new assumption set for first use in the January 1, 2019 valuations.

The primary changes, which can be observed in the January 1, 2019 valuation, as compared to the assumptions shown are as follows:

Long-term investment Rate of Return	7.00%
Mortality	Pre-retirement: 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projected scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality.
	Post-retirement: 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projected scales, and then projected prospectively using the ultimate rates of the scale for all years.
	Disabled: 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projected scales, and then projected prospectively using the ultimate rates of the scale for all years.

Long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 4: VOLUNTEER FIREMEN'S PENSION FUND - FPPA ADMINISTERED (Continued)

Wiggins Rural Fire Protection District Volunteer Pension Fund (Continued)

Discount Rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the long-term expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 3.71% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Sensitivity of the District's net pension asset (liability) to changes in the discount rate. The following presents the District's net pension liability calculated using the discount rate of 7.00%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
Proportionate share of the net pension asset (liability)	\$ 381,763	\$ 509,335	\$ 614,157

**NOTES TO FINANCIAL STATEMENTS
December 31, 2019**

NOTE 5: LONG-TERM OBLIGATIONS

Capital Leases Payable

2013 SCBA Equipment Lease

In December 2013, the District entered into a capital lease agreement for the purchase of SCBA equipment, with said equipment delivered in 2014. This lease agreement qualifies as a capital lease for accounting purposes and therefore, was recorded at the present value of the future minimum lease payments, or \$133,819. The equipment has not been capitalized as the individual units do not meet the capital asset threshold. This lease is subject to annual appropriation. Principal and interest payments are due in six annual payments of \$25,053 beginning in April 2015. The lease bears a 6.9% interest rate. The future minimum lease obligations and the net present value of the minimum lease payments as of December 31, 2019 are as follows:

<u>Year</u>	<u>Payment</u>
2020	\$ 25,053
Less: Interest at 6.9%	<u>(1,170)</u>
Present Value of Future Minimum Lease Payments	<u>\$ 23,883</u>

Changes in Long-Term Debt

The following is a summary of changes in debt obligations of the District for December 31, 2019:

<u>Balance</u> <u>12/31/2018</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u> <u>12/31/2019</u>	<u>Current</u> <u>Portion</u>
<u>\$ 46,650</u>	<u>\$ -</u>	<u>\$ 22,767</u>	<u>\$ 23,883</u>	<u>\$ 23,883</u>

NOTE 6: FUND BALANCE RESERVATIONS/APPROPRIATIONS

Emergency Reserve

On November 3, 1992, the voters of Colorado approved Amendment 1, commonly known as the TABOR Amendment, which adds a new Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue and debt limitations, which apply to the State of Colorado, all local governments, and special districts.

The District's financial activity for the year ended December 31, 2019 will provide the basis for calculation of future limitations adjusted for allowable increases tied to inflation and local growth. Subsequent to December 31, 2019, revenue in excess of the District's "spending limit" must be refunded unless voters approve the retention of such excess revenue. TABOR generally requires voter approval for any new tax, tax increases, and new debt.

WIGGINS RURAL FIRE PROTECTION DISTRICT

NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 6: FUND BALANCE RESERVATIONS/APPROPRIATIONS (Continued)

Emergency Reserve (Continued)

In November, 2014, the District’s electorate approved a resolution allowing the District “to collect, retain and spend all revenues from any source, including revenues from grants and fund-raising activities, in excess of the spending, revenue and other limitations imposed by Article X, Section 20, of the Colorado Constitution, with such excess revenues to be used for fire protection and emergency services pursuant to the purposes and objectives of the Wiggins Rural Fire Protection District”.

TABOR is extremely complex and subject to interpretation. Ultimate implementation may depend upon litigation and legislative guidance.

The District has made the following fund balance reservation as a result of Article X, Section 20 (TABOR) of the Colorado Constitution:

Emergency Reserve

The Article requires an emergency reserve be set aside for 2019 in the amount of 3% or more of its fiscal year spending. At December 31, 2019, the District has reserved \$35,000 in the General Fund for emergencies.

The District believes it is in compliance with the provisions of the TABOR Amendment.

NOTE 7: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to firemen; and natural disasters. The District purchases commercial insurance and Colorado Compensation Insurance for all risks of loss. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

NOTE 8: INTERFUND ACTIVITY

The District has recorded the following interfund balances as of December 31, 2019.

	Due From <u>Other Funds</u>	Due To <u>Other Funds</u>
General Fund	\$ -	\$ 28,183
Capital Fund	31,043	-
Recruitment and Retention Fund	-	2,860
	<u>\$ 31,043</u>	<u>\$ 31,043</u>

These amounts represent pending expense reimbursements that have not been physically transferred between bank accounts.
