INDEPENDENT AUDITORS' REPORT

To the Board of Directors
The Riverside Irrigation District

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, and the major fund of The Riverside Irrigation District, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit and each major fund of The Riverside Irrigation District, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

The Schedule of Conservation of Natural Resources Expenditures by Department was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Conservation of Natural Resources Expenditures by Department is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

THE RIVERSIDE IRRIGATION DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUE,
EXPENDITURES, AND CHANGES IN FUND BALANCE OF THE GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2019

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Net change in fund balance of governmental fund	\$ 5,173,251
<p>Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays exceeded depreciation expense in the period.</p>	
Depreciation expense	\$ (95,728)
Capital outlays	15,811
	(79,917)
<p>Prepaid expenses (assets) consumed in governmental activities do not use current financial resources and are not reported as expenditures in the governmental funds. This amount represents the increase in prepaid insurance during the year.</p>	
	(1,943)
<p>Retained patronage amounts are not available to pay current-period expenditures. This amount represents the increase in retained patronage during the year.</p>	
	(2,362)
<p>In the statement of activities, certain operating revenues such as interest are measured by the amounts earned during the year. In the governmental fund, however, revenue for these items are measured by the amount of financial resources provided. This amount represents the net effect of interest receivable and unrealized market adjustments.</p>	
	122,493
Change in net position of governmental activities	\$ 5,211,522

The accompanying notes and independent auditors' report should be read with this financial statement.

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Riverside Irrigation District (the District) have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following summary of significant accounting policies is presented to assist the reader in evaluating the District's financial statements.

A. Reporting Entity

The District is a political subdivision of the State of Colorado governed by a five-member board of directors. As required by generally accepted accounting principles, these financial statements present the District (the primary government) and its component units. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable, or other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the District's financial statements to be misleading or incomplete. Based upon the forgoing criteria, the Riverside Reservoir and Land Company has been included as a component unit in the accompanying financial statements.

Discretely Presented Component Unit

The District owns a controlling interest of The Riverside Reservoir and Land Company (the Company), a Colorado non-profit corporation. The Company owns and maintains the Riverside Reservoir facilities, which are an integral part of the District's ditch operations.

The entities are homogeneous in operation of the total water supply and irrigation system and have several common board directors as well as arrangements for sharing office space, personnel, and expenses.

The Riverside Reservoir and Land Company is organized as a not-for-profit corporation in which the Riverside Irrigation District is the sole corporate member, as identified in the Company's articles of incorporation, and the Company is included in the financial reporting entity pursuant to the provisions in paragraphs .120-.136 of Section 2100.

The component unit issues separately audited financial statements. Copies of the component unit report can be obtained from Riverside Reservoir and Land Company, 215 East Kiowa Avenue, Fort Morgan, Colorado 80701.

B. Nature of Operations

The District is a Political subdivision of the State of Colorado governed by an elected board of Directors. The basic operations of the District are financed primarily by assessments of water acres and leases of water units.

C. Basic Financial Statements

Basic financial statements are presented at both the government-wide and fund financial level. Both levels of statements categorize primary activities as either governmental or business-type. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basic Financial Statements (Continued)

Government-wide financial statements report information about the reporting government as a whole. For the most part, the effect of interfund activity has been removed from these statements. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the year. These aggregated statements consist of the Statement of Net Position and the Statement of Activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or business-type activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or business-type activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or business-type activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or business type activity. Assessments and other items not included among program revenues are reported instead as general revenues.

Fund financial statements report information at the individual fund level. Each fund is considered to be a separate accounting entity. Funds are classified as governmental, proprietary, and fiduciary. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are consolidated into a single column in the financial section of the basic financial statements.

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in fund balance (i.e. revenues and other financing sources and expenditures and other financing uses).

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. Available means soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end except for federal and state grants for which a ninety-day period is used.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include grants, entitlements and donations. On an accrual basis, revenues from assessments are recognized in the fiscal year for which the assessments are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS

December 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: assessments, fees, lease revenue, reimbursements, and interest income collected within sixty days after year-end.

The District reports the following major governmental funds:

General Fund

This fund accounts for the financial resources of the District, which are not accounted for in any other fund. Principal sources of revenue are member/acreage assessments. Primary expenditures are for general administration and conservation of natural resources.

E. Budgets

The District adopts annual budgets for all funds, prepared on the modified accrual basis of accounting. The District may authorize supplemental appropriations during the budget year. All budgetary appropriations lapse at year-end. There is no mill levy assessed by the District. All assessments are on a per acre basis.

Colorado statutes provide the following timetable, which is followed in the adoption of budgets:

- 1) Submission of the proposed budget to the local governing body by October 15th of each year.
- 2) Certification of acreage assessments to the Board of County Commissioners by December 15th.
- 3) Final adoption of budget and appropriations by December 31st of each year.
- 4) Acreage assessments are due by April 30th of each year if paid in full, or in two installments due February 28th and June 15th of each year.
- 5) Liens are placed on property for which taxes are delinquent in November of each year.

F. Cash in bank

Cash in bank consists of demand and time deposits with financial institutions and are carried at cost. All cash deposits and highly liquid investments (including restricted cash) with an original maturity of three months or less from date of acquisition are considered to be cash equivalents.

G. Investments

Investments are reported at fair value, which approximates cost. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items (Note 8),

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditures) until then. The District does not have any transactions that qualify as a deferred outflow.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category: Deferred acreage assessment revenue which is based on current year land values but will not be recognized as revenue until the following year.

J, Capital Assets

Capital assets, which include land and machinery and equipment (furniture, vehicles, computers, etc,) are reported in Governmental Activities column of the Government-Wide Financial Statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed, Donated or annexed capital assets are recorded at estimated market value at the date of donation or annexation,

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation on exhaustible assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statements of Net Position. Depreciation on the remaining capital assets is provided on the straight-line basis over the following estimated useful lives:

Equipment	5-20 years
Buildings	25-50 years
Pipeline	50 years
Reservoirs	50 years

K. Retained Patronage

Retained patronage includes the District's portion of undistributed earnings in an electrical cooperative in Colorado. The amount is recorded at cost.

L. Encumbrances

The District does not utilize encumbrance accounting.

M. Long-Term Obligations

In the government-wide financial statement, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. In the fund financial statements, governmental fund types recognize the face of debt issued as other financing sources.

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Net Position

Net position comprises the various net earnings from operating income, non-operating revenues and expenses, and capital contributions. Net position is classified in the following three components:

Invested in capital assets, net of related debt – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, note or other borrowing that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted - This component of net position consists of constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. When an expense is incurred for purposes for which there are both restricted and unrestricted net position available, it is the District's policy to apply those expenses to restricted net position to the extent such are available and then to unrestricted net position.

Unrestricted net position - This component of net position consists of net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

O. Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates that affect amounts reported in the financial statements during the reporting period. Actual results could differ from such estimates.

P. Fund Balance

As of December 31, 2018, fund equity balances of the governmental funds are classified as follows:

Non-spendable – amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent for specific purposes because of constitutional provision, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can only be use for the specific purposes determined by a formal action of the Board of Directors.

Assigned – amounts intended to be used for specific purposes that are neither restricted nor committed.

Unassigned – all other spendable amounts.

NOTE 2. CASH AND INVESTMENTS

A. Cash and Certificates of Deposit

Custodial Credit Risk. Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits might not be recovered. However, the Colorado Public Deposit Protection Act (PDPA) requires that deposits of all units of local governments be held at eligible public depositories, whose eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. The PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 2. CASH AND INVESTMENTS (CONTINUED)

At December 31, 2019, the carrying amount of the District's deposits of the Governmental activities totaled \$1,551,768 of which \$832,074 falls under the provisions of the Colorado Public Deposit Protection Act. The remaining funds totaling \$719,694 are on deposit with several financial institutions and are all insured by the Federal Deposit Insurance Corporation (FDIC).

Cash held by Riverside Reservoir and Land Company includes amounts in checking, savings, and certificates of deposit. Cash deposits of the non-governmental activities totaled \$1,294,185 at year-end, on deposit with several financial institutions Federal Deposit Insurance Corporation (FDIC) coverage is \$250,000 per institution, and as of December 31, 2019, there were deposits that exceeded the coverage limit by \$665,024. The Company has not experienced, nor does it anticipate, any losses due to this excess.

Interest Rate Risk. Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. All deposits are reported at cost plus accrued interest. The Colorado revised statute 24-75-601 limits investments for local governments to U.S. Treasury issues, other federally backed notes and credits, and other agency offerings. Other investment instruments, including bank obligations, general obligation bonds, and commercial paper are limited to the top two ratings issued by nationally recognized statistical rating organizations. The District has no investment policy that would further limit its investment choices. As of December 31, 2019, the District's investments where applicable were rated either Aaa or AAA.

Maturities: The Investment bonds carried by the District on December 31, 2019 will have maturities as follows:

Maturities within one year	\$ 854,011
Maturities within two years	835,479
Maturities within three years	1,675,162
Maturities within four years	1,205,734
Maturities within five years	1,233,189
Maturities within six years	1,262,738
Maturities within seven years	1,501,920
Maturities within eight years	1,217,188

NOTE 3. CAPITAL ASSETS

Capital asset activity of the primary government for the year ended December 31, 2019, was as follows:

	Balance December 31, 2018	Additions	Deletions and Adjustments	Balance December 31, 2019
Governmental Activities

Depreciation expense was charged to functions/programs of the component unit as follows:

Conservation of Natural Resources \$ 77,190

NOTE 4. LEASES/DEFERRED REVENUE

Water Association of the Rockies, Inc.

The District has entered into a 25-year lease with the Water Association of the Rockies, Inc. dated August 27, 1998. The Association has agreed to pay an annual lease payment of \$13,459 due August 27 of each year preceding the year of delivery. Final payment will be due on August 27, 2023. The Association shall reimburse the District for the annual assessment of the Colorado Big Thompson units as levied by the Northern Colorado Water Conservancy District. The estimated annual assessment is \$86 per unit.

City of Fort Morgan

The District's contract with the City of Fort Morgan to lease 2,837 units of Colorado Big Thompson water administered by the Northern Colorado Water Conservancy District, with the City of Fort Morgan and the Morgan County Quality Water District ("Quality Water") beginning November 1, 2009 expired on October 31, 2019.

The District entered into a new contract to lease the 2,837 units of Colorado Big Thompson water to the city of Fort Morgan on November 1, 2019. The lease set the rental rate at \$500 per unit per year. The City of Fort Morgan agreed to make three payments per year of \$472,833.34. The first payment was not received until February 2020 which covered the November 2019 and the February 2020 payments. Therefore, the District has accrued water lease revenue of \$226,619 for the 61 days from November 1, 2019 to December 31, 2019.

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

Lease Summary

The future net minimum lease receipts for this lease is as follows:

Year Ending December 31,	Amount
2020	\$1,431,959
2021	1,431,959
2022	1,431,959
2023	1,431,959
2024	1,418,500
Total	<u>\$7,146,336</u>

NOTE 5. WATER INVESTMENTS

These are water industry related investments of the General Fund and Component Unit and are recorded at cost or estimated cost. Details are as follows:

THE RIVERSIDE IRRIGATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
December 31, 2019

NOTE 7. RESTRICTED FUND BALANCE

Emergency Reserve

The Boards of Directors of the District and Company have restricted \$30,000 and \$20,000, respectively, of the ending Fund Balance for emergencies at December 31, 2019 as required by Section 20 to Article X of the Colorado Constitution, also known as the Taxpayer's Bill of Rights (TABOR). The restricted amounts are equal to three percent of nonexempt revenues.

NOTE 8: INSURANCE AND RISK MANAGEMENT

Riverside Irrigation District carries insurance coverage for all foreseeable risks of loss. These include, but are not necessarily limited to worker's compensation, property and liability, and bond coverage.

The District carries worker's compensation coverage through Pinnacol Assurance. Premiums are based on prior claims, as adjusted through various worker classifications. Risk of loss is transferred to Pinnacol Assurance.

The District carries liability and bond coverage through commercial insurance carriers. Risk of loss transfers to those carriers.

The District's property coverage consists of commercial carrier coverage. The District's equipment is covered under a commercial carrier with risk of loss transferred to the carrier.

Prepaid insurance on District policies at December 31, 2019 was \$5,204. Prepaid insurance on Company policies at December 31, 2019 was \$4,703.

The District has not materially changed its coverage from previous years. Based on the lack of previous loss occurrences, the District has not recorded a liability for unpaid claims at December 31, 2018. Settled claims have not exceeded this coverage in any of the past three years.

NOTE 9: RELATED PARTY TRANSACTIONS

During the year, the Riverside Reservoir and Land Company leased certain water rights to Riverside Irrigation District for \$3,500.

NOTE 10: SUBSEQUENT EVENTS

The District has evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

No events were noted that would require adjustment to or disclosure in the financial statements.
