INDEPENDENT AUDITOR'S REPORT

Board of Directors
South-East Englewood Water District

We have audited the accompanying financial statements of the business type activities of South-East Englewood Water District as of and for the year ended December 31, 2019 and 2018, which collectively comprise the District's basic financial statements as listed in the table of contents and the notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the South-East Englewood Water District as of December 31, 2019 and 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise South-East Englewood Water District's financial statements as a whole. The other supplemental information on page 17 is presented for purposes of additional analysis and is not a required part of the financial statements. The other supplemental information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Management's Discussion and Analysis

South-East Englewood Water District Arapahoe County, CO

The South-East Englewood Water District's management discussion and analysis is intended to provide you, the reader and user of our financial statements, with (a) an understanding of the financial issues of the District: (b) an overview of the District's financial activities: (c) an explanation of the changes in the District's financial position: (d) an explanatory analysis of the variations of the annual, approved budget: and (e) an assessment of any future financial or operating issues of the District.

Because this discussion and analysis is intended to focus on the 2019 activities, resulting changes, and currently known facts and conditions, it should be read in conjunction with, and with reference to, the accompanying audited financial statements and related notes to the financial statements beginning on page 6.

Overview of the Financial Statements of the District

The audited financial statements of the District are: Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, Statement of Cash Flows, Notes to Financial Statements

These statements are on pages 6 through 16. These and the Other Supplementary Information, *Budgetary Comparison Schedule* on page 17 provide information about the District's financial position as of each December 31, its results of operations and the resulting cash flows for each year ended December 31, and information comparing actual revenues and expenditures with budgeted revenues and expenditures for the year. Except for the budgetary comparison schedule, these are presented with current year and prior year comparison.

The **Statement of Net Position** provides information about what is owned (assets) by the District, what is owed (liabilities) by the District, and what is the District's equity in its assets (Net Position). Over time, the comparison of changes in Net Position may provide a useful method of evaluating whether the financial position of the District is improving, deteriorating, or maintaining a status quo.

The **Statement of Revenues, Expenses, and Changes in Net Position** provides information about the components – Operating Revenues, Operating Expenses, Non-Operating Revenues and Expenses, and Capital Contributions – of the District's annual operating activities and how those activities affected Net Position.

The **Statement of Cash Flows** provides an analysis about the sources and uses of District cash during the year and how the operating, financing, and investment activities affected the District's cash balances.

The **Notes to Financial Statements** provide additional, required disclosures about the District, its accounting policies and practices, its financial position and operating activities, and other required information. The information included in these notes is essential to a full understanding of the information contained in the financial statements.

The **Budgetary Comparison Schedule** provides information comparing the budgeted revenue and expenditure activities with the actual revenue and expenditure activities. When applicable, there will be a comparison of the originally approved budget with the final amended budget.

This foregoing information is a summary of the financial information contained in the District's financial statements. For more about the information contained in this condensed, comparative financial information, we recommend a close review of the accompanying audited financial statements beginning on page 6.

Analysis of Financial Position and Operating Results:

The total Net Position increased from \$8,846,566 in 2018 to \$9,030,310 in 2019, a difference of \$32,521. Operating revenues increased by \$300, due to higher tap fee applications in the current year. The District's operating expenses increased by \$1,447 in 2019, to \$77,991. As a result, the operating loss for the year was \$73,791. Net non-operating revenues were \$257,535 due to higher investment income. Net income for the year was \$183,744.

Cash and cash equivalents for 2019 increased by \$170,046 relating primarily to the expenses from operations. Net capital assets remained constant from 2018 to 2019. See Note 4 of the Notes to Financial Statements on page 14. The District Liabilities changed which is primarily attributable to normal operating activities.

For more information about these changes in Net Position, the operating activities, and cash flows please review the accompanying audited financial statements beginning on page 6.

Budgetary Discussion:

Actual revenues were \$130,494 higher than the 2019 budget, primarily due to higher than anticipated investment income. Actual expenditures were \$36,350 less than budgeted expenditures due to not needing to utilize the contingency. The budget was not amended in 2019.

Capital Asset Discussion:

During 2019 the District incurred no capital expenditures. The District depreciates its infrastructure assets. See Note 1 of Notes to Financial Statements-*Summary of Significant Accounting Policies-Capital Assets* on page 10 and Note 4 of Notes to Financial Statements-Capital Assets on page 14. The District has capital asset activities in process relating to contracts for water rights.

Long Term Debt:

The District has no long-term debt.

Economic Factors and Next Year's Budget

Expenditures are expected to remain relatively the same, as administrative and legal efforts and management service costs are not expected to increase in 2020. There will be no costs for construction in 2020, as the District has completed its capital acquisition program.

Requests for Information. This financial report is designed to provide a general overview of South-East Englewood Water District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to the District at 390 Union Boulevard, Suite 400, Denver, Colorado 80228.

South-East Englewood Water District
Notes to Financial Statements
December 31, 2019 and 2018

Note 1 Summary of Significant Accounting Policies

The accounting policies of the District conform to generally accepted accounting principles as applicable to governmental units accounted for as a proprietary enterprise fund. The enterprise fund is used since the District's powers are related to those operated in a manner similar to a private utility system where net income and capital maintenance are appropriate determinations of accountability. The more significant accounting policies of the District are described as follows:

Financial Reporting Entity

South-East Englewood Water District (The District), a quasi-municipal corporation, is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Arapahoe County, Colorado. The District was established to provide water services to residents in the area of the District. It provides these services under Total Service Contract No. 1 with the City and County of Denver (Denver Water Board). The District has no employees and all operations and administrative functions are contracted (see Note 3).

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The District is not financially accountable for any other entity, nor is the District a component unit of any other governmental entity.

Basis of Presentation

The District's records are maintained on the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when the liability is incurred. Depreciation is computed and recorded as an operating expense. Expenditures for capital assets are shown as increases in assets and payment of debt is recorded as a reduction in liabilities. System development charges are recorded as non-operating revenue.

The District distinguishes between operating revenues and expenses and non-operating items in the Statements of Revenues, Expenses and Changes in Net Position. Operating revenues and expenses generally result from providing water services to its customers. Operating revenues consist of charges to customers for services provided. Operating expenses include the cost of service, administrative expenses, and depreciation of assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expense or capital contributions.

**South-East Englewood Water District
Notes to Financial Statements (Continued)
December 31, 2019 and 2018**

Note 1 Summary of Significant Accounting Policies (Continued)

Budgets and Budgetary Accounting

Budgets are adopted on a cash basis except for accrual of current vendor invoices and utility billings. The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- Budgets are required by state law for all funds. The budget includes proposed expenditures and the means of financing them.
- Prior to December 31, the budget is adopted by formal resolution.
- Budgets are required to be filed with the State of Colorado within thirty days after the beginning of the fiscal year.
- Expenditures may not legally exceed appropriations at the fund level.
- The District Board must approve revisions that alter the total expenditures of any fund.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted by the District Board or revised by the District Board.

In accordance with the State Budget Law, the District's Board of Directors holds public hearings each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget and appropriations resolutions upon completion of notification and publication requirements. The total appropriation is at the total fund expenditures level and lapses at year end.

Assets and Liabilities

Investments – investments are recorded at fair value, which approximates cost.

Receivables – all receivables are reported at their book value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital assets – which include groundwater rights, water lines and contracts in process, are reported by the District. Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Depreciation expense has been computed on the water lines using the straight-line method over the estimated economic useful life of 40 years.

Net Position

Equity is classified as Net Position and displayed in three components:

- a. Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

**South-East Englewood Water District
Notes to Financial Statements (Continued)
December 31, 2019 and 2018**

Note 1 Summary of Significant Accounting Policies (Continued)

Net Position (Continued)

b. Restricted Net Position – consists of Net Position with constraints placed on the use either by (1) external groups, such as creditors, grantors, laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The District has reflected no restricted Net Position in the statements of Net Position as of December 31, 2019. However, the District considers system development charges to be land development charges as defined in Colorado Revised Statutes, Title 29, Article 1, Part 8. Such land development charges are to be used for capital expenditures.

c. Unrestricted Net Position – all other Net Position that do not meet the definition of “restricted” or “net investment in capital assets” The District utilizes restricted Net Position before using unrestricted Net Position.

Cash Equivalents

For purposes of the financial statements, the District defines cash equivalents as cash demand deposits, investment pools and other highly liquid investments with a maturity of three months or less when purchased.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

System Development Charges

During 1983, the District implemented a policy of collecting tap fees (now referred to as system development charges) to help defray future capital outlay requirements. These system development charges are recorded as non-operating revenue. During 2018 the Board passed a resolution eliminating system development charges. A separate fee is imposed to cover administrative costs and is recorded as operating revenue.

Note 2 Cash and Investments

Cash Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is specified under the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

The Colorado Divisions of Banking and Financial Services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2019 and 2018 the District’s cash deposits had a carrying balance of \$1,036 and \$1,247 and a bank balance of \$7,281 and \$2,627 respectively.

**South-East Englewood Water District
Notes to Financial Statements (Continued)
December 31, 2019 and 2018**

Note 2 Cash and Investments (Continued)

Investments

In accordance with GASB 72 *Certain External Investment Pools and Pool Participants*, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Colorado statutes specify in which investment instruments the units of local government may invest:

- Obligations of the United States and certain United States government agency securities.
- Certain international agency securities.
- General obligation and revenue bonds of United States local government entities.
- Bankers' acceptances of certain banks.
- Commercial paper.
- Local government investment pools.
- Written repurchase agreements collateralized by certain authorized securities.
- Certain money market funds.
- Guaranteed investment contracts.

The District's investment policy follows state statutes regarding investments. At December 31, 2019, the District had the following investments which were valued using level one inputs:

| <u>Investment Type</u> | <u>Weighted Average Maturity (Years)</u> | <u>Fair Value</u> |
|--|--|---------------------|
| Local government investment pool (COLOTRUST) | Less than one year | \$ 340,245 |
| Schwabb Advance Cash Reserve Money Market | Less than one year | 10,696 |
| Certificates of Deposit | 1 | 1 |
| Federal Home Loan Bank Bonds | 2.25 | 2,984,188 |
| Federal Home Loan Mortgage Corporation Notes | 2.08 | 5,639,911 |
| Total Fair Value | | <u>\$ 8,975,041</u> |

At December 31, 2018 the District had the following investments:

| <u>Investment Type</u> | <u>Weighted Average Maturity (Years)</u> | <u>Fair Value</u> |
|--|--|---------------------|
| Local government investment pool (COLOTRUST) | Less than one year | \$ 172,725 |
| Schwabb Advance Cash Reserve Money Market | Less than one year | 7,959 |
| Certificates of Deposit | 1 | 1 |
| Federal Home Loan Bank Bonds | 1.74 | 1,573,652 |
| Federal Home Loan Mortgage Corporation Notes | 2.33 | 7,033,751 |
| Total Fair Value | | <u>\$ 8,788,088</u> |

COLOTRUST

As of December 31, 2019 and 2018 the District had invested \$340,245 and \$172,725 respectively in Colorado Local Government Liquid Asset Trust (COLOTRUST), which is an investment vehicle established for government entities in Colorado to pool surplus funds. As an investment pool, COLOTRUST (the Trust) operates under the Colorado Revised Statutes (24-75-701) and is overseen by the Colorado Securities Commissioner. The Trust invests in securities that are specified by the Colorado Revised Statutes (24-75-601). Authorized

December 31, 2019 and 2018**

Note 2 Cash and Investments (Continued)

securities include US Treasuries, US Agencies, commercial paper, repurchase agreements and bank deposits (collateralized through PDPA) The Trust operates similar to a 2a7-like money market fund with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. COLOTRUST is rated AAA by the Standard & Poor's Corporation. Designated custodial banks provide safekeeping and depository services to the Trusts in connection with the direct investment and withdrawal functions of the Trust. Substantially all securities owned by the Trust are held by the Federal Reserve Bank in the account maintained for the custodial bank. The investment pool is not subject to fair value reporting under GASB No. 72.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2019, and 2018, none of the District's bank deposits were exposed to custodial credit risk.

The local government investment pool, Colorado Local Government Liquid Asset Trust (Colotrtrust), is rated AAAM by Standard & Poor's. The Schwab Advance Cash Reserve Money Market Fund is unrated. At December 31, 2019 and 2018, the District's holdings of U.S. agency obligations were rated AAA by Standard & Poor's and Aaa by Moody's Investors Services.

Interest Rate Risk

Colorado revised statutes generally limit investment maturities to five years or less unless formally approved by the Board of Directors. Revenue bonds of U.S. local governments, corporate and bank securities and guaranteed investment contracts not purchased with bond proceeds are limited to maturities of three years or less.

Concentrations of Credit Risk

The District does not have a policy that addresses limitations on the amount that can be invested in any one issuer. As of December 31, 2019, and 2018, respectively, more than 5% of the District's cash and investments were invested in the Federal Home Loan Bank (33%) and (18%) and Federal Home Loan Mortgage Association (63%) and (80%).

| | 2019 | Pct | 2018 | Pct |
|--|---------------------|------------|---------------------|------------|

Note 3 Operations

The residents of the district are provided water service under a “total service” contract originally dated September 1964 between the Denver Water Board (Denver) and the District. A new contract was entered into in May 1997 (Water Contract). Under the Water Contract, Denver supplies potable water for distribution within the District, and has full responsibility for operating, maintaining, repairing and replacing the District’s water distribution system. In addition, Denver Water reads each customer’s meter, and bills each customer directly for the amount of potable water used. The District has retained title to the distribution lines under 14 inch size and the appurtenances thereto. All other lines, reservoirs and pumps were purchased by Denver.

On January 12, 2008, by order of the Arapahoe County District Court, the District’s territorial boundaries were enlarged to include all of the territory located within the Brookridge Heights Water District, which area consists of approximately 107.57 acres, more or less. On March 14, 2008, Denver terminated its water service agreement with the Brookridge Heights Water District and amended the District’s Water Contract to include within the District’s contract service area all of the territory located within the Brookridge Heights Water District.

Note 4 Capital Assets

The cost of water rights includes acquisition costs, legal and engineering costs related to the development and augmentation of those rights. Since the rights have a perpetual life, they are not amortized. All other costs, including costs incurred for the protection of those rights, are expensed. A summary of changes to capital assets for 2019 and 2018 is as follows:

| | Balance at 12/31/2018 | Additions | Deletions | Balance at 12/31/2019 |
|--------------------------------|--------------------------|-------------|-------------|--------------------------|
| Nondepreciable | | | | |

Note 5 Intergovernmental Agreements

Metropolitan Denver Water Authority

The District was a member of the Metropolitan Denver Water Authority (MDWA) and as such paid dues annually. The District terminated its membership in MDWA effective December 31, 1996. The District continues to have rights in the water study described in the following paragraph.

The MDWA offered in 1990 a project for participation in the costs of researching and identifying water supply alternatives. The Water Acquisition/Development Phase 1 Participation

Agreement provides for total costs to not exceed \$100,000. The District is involved to the extent of a 5% participation, which allows it to purchase up to 1,500 acre feet of water in subsequent phases of the total project, if developed.

Technical Advisory Committee Agreement

Effective July 31, 2003, the District became a participant of the Technical Advisory Committee (TAC). The committee was formed to promote cooperative strategies to respond to drought and research water rates and fees in the Denver area. The TAC consists of a designated representative from each of eight participating governments. The participant's share of the costs is based on the participant's percentage share of the total number of accounts.

A year end reconciliation of actual costs to budgeted costs will be calculated and amounts will be refunded or billed to participants or credited to the participant's payment due for the subsequent year. The percentage share for each participant will be adjusted as of December 31 of each year based on the total number of participants. New participants may be added upon approval of the existing participants. The agreement will automatically renew for each participant from calendar year to year. For the years ended December 31, 2019 and 2018, respectively, the District paid \$0 and \$0 under this agreement.

Note 6 Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The District is a participant in the Colorado Special District Association Property and Liability Pool. The Pool was formed by an agreement by member special districts of the Special District Association as a separate and independent governmental and legal entity pursuant to the provisions of Article XIV, Section 18(2) of the Colorado Constitution and Sections 29-1-201 et. seq., 8-44-101(1)(c) and (3), 8-44-204, 24-10-115.5, and 29-13-102, C.R.S, as amended. Membership is restricted to Colorado special districts which are members of the Special District Association.

The purpose of the Pool is to provide defined property, liability, workers' compensation and associated coverages, and claims and risk management services related thereto, for member special districts through a self-insurance pool. The Pool has contracted with other third parties to operate, administer and manage the Pool. In the event aggregated losses incurred by the Pool exceed amounts recoverable from the reinsurance contracts and capital and surplus accumulated by the Pool, additional contributions may be required from the Pool members. Settled claims have not exceeded commercial coverage in any of the last three years.

Note 7 Tax, Spending, and Debt Limitation

Article X, Section 20 of the Colorado Constitution, The Taxpayer's Bill of Rights (TABOR), contains several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. TABOR is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of TABOR.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions.

Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue. On May 7, 1996, a majority of the District's electors authorized the District to retain and spend all revenue from all sources in 1996 and subsequent years.

Note 8 Reclassifications

Certain items have been reclassified from the previous year to conform with the presentation of the current years financial statements.
