April 22, 2020

To the Board of Directors of Ute Water Conservancy District and Our Customers:

The comprehensive annual financial report (CAFR) of Ute Water Conservancy District (District) for the year ended December 31, 2019, is submitted herewith. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with District management. This financial report has been prepared in conformance with the principles and standards for financial reporting as promulgated by the Government Accounting Standards Board (GASB). It has also been prepared following guidelines recommended by the Government Finance Officers Association (GFOA). We believe that the data presented is accurate in all material respects; that the report is presented in a manner designed to fairly set forth the financial position and the results of the financial operations of the District; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Chadwick, Steinkirchner, Davis & Co., P.C., has audited the District's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of Ute Water Conservancy District as of and for the years ended December 31, 2019 and 2018 are free of material misstatement. The independent audit involves examining, on a tests basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Chadwick, Steinkirchner, Davis & Co. concluded based upon their audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements as of and for the years ended December 31, 2019 and 2018, are fairly presented in accordance with generally accepted accounting principles (GAAP) accepted in the United States and applied to local government units. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of independent auditors.

## **The Reporting Entity**

Ute Water Conservancy District was organized in 1956 to provide domestic water service to the rural areas of the Grand Valley in Mesa County, Colorado, under the "Water Conservancy Act" of Colorado. A 14-member Board of Directors appointed by the Mesa County District Court for

over-lapping four-year terms governs the District. The District operates using the Board-Manager form. The Board of Director responsibilities include, but are not limited to, setting District rules and regulations, adoption of resolutions including the annual budget, adoption of water rates and fees, and hiring of the General Manager. The District is legally separate from other local or state governmental units. All operations of the District are accounted for as an enterprise fund.

## **Economic Condition and Outlook**

The Grand Valley is a major service center for western Colorado and eastern Utah and is home to medical facilities, educational facilities, commercial services, and retail outlets that serve a large regional population in addition to the residents of the valley. In addition, the area includes agricultural and manufacturing industries that provide services locally, nationally, and globally. The valley's numerous orchards and vineyards and its proximity to the Grand Mesa, the Colorado National Monument, several National Parks, and other scenic attractions have resulted in defining the valley as a significant tourist destination. The area's mild climate and near proximity to a variety of year-round outdoor activities have contributed to the valley's economy significantly diversifying over the last several decades.

Prior to 2008, natural gas drilling as well as uranium, coal, and other natural resource mining were productive industries for the area. Drops in the prices for natural gas and oil and other minerals mined in the area combined with protracted sub-prime mortgage lending problems, both nationally and internationally, resulted in a slowdown in the area's economy. This prolonged down-turn in the local economy significantly impacted the levels of local housing construction, growth, and employment. However, the diversification of the economy and the desirability of the area have continued to support nominal levels of population growth since 2008. Schedule 15 on page 53 displays demographic statistics related to population, unemployment rates, and labor force changes. Current development indicators such as subdivision development, building permit activity, and the number of water taps sold reflect the increased levels of growth the valley has realized throughout the last few years. See Schedule 3 on page 40 and Schedule 7 on page 45 for a ten-year history of customers, tap sales, and county building permits.

Ute Water Conservancy District currently obtains its raw water supply primarily from the Plateau Creek drainage on the northern slope of the Grand Mesa in western Colorado. Plateau Creek is a tributary of the Colorado River. A prolonged drought in the Colorado River basin drainage has resulted in the lowering of water levels to critical levels in both Lake Mead and Lake Powell. In order to preserve and protect the District's and the local region's water resources, the District is engaged with stakeholders in Colorado and throughout the Colorado River basin in the development and implementation of drought contingency plans for the Western Slope, the State of Colorado, and larger regional areas.

The Colorado River drainage is home to four endangered species of fish; the Colorado pikeminnow, the razorback sucker, the humpback chub and the bonytail chub. One of the areas considered to be a critical habitat for these fish by the United States Fish and Wildlife Service is the Colorado River from Palisade, in the eastern end of the Grand Valley, to the confluence of the Colorado River with the Gunnison River at Grand Junction. This area is known as the "15 Mile Reach" of the Colorado River and lies within the service area of the District. These four fish have and will continue to affect all water users along the river. The District's management has been actively involved with federal, state, and other local agencies and officials, in efforts to protect general water flows and habitat for these endangered fish and thus protect the District's

current and future water sources. The District's involvement in this effort will continue into the foreseeable future.

A study was completed by the District in 2011 to determine if the firm yield of the water rights held by the District can sufficiently meet projected future demand. The District concluded through this study the need to improve its water supply backup capabilities by upgrading its pumping facilities on the Colorado River and modifying the treatment plant to better treat the Colorado River water source as well as continuing to develop additional water supplies. In addition to continuing long-term efforts to expand reservoirs to increase the amount of water the District will have available for its customers in the future, the District purchased water rights located in the Plateau Creek drainage basin in December 2018. While the District is currently and will continue to improve upon the efficient use of its water and water rights, additional water rights and storage options, either through construction or additional purchases, will continue to be evaluated and considered.

## **Major Initiatives**

The Board of Directors adopted a District developed strategic plan in 2014 that outlined priorities to support the focus of the District. The District identified priorities to deliver high quality water, conserve and protect water supplies, plan for future water supplies, cultivate organizational and operational excellence, and strengthen and maintain positive relationships.

In December 2019, the District Board of Directors unanimously voted to reduce the property tax mill levy assessed to 0.000 mills. This decision was based on the need to decrease the mill levy to remain in compliance with statutory growth limits resulting from increasing assessed property values, the District's anticipated annual savings after the final payment towards the Series 2009 Bonds is made in 2020, and the goal to reduce the District's reliance on tax revenues.

As of 2019, the District significantly increased its time and effort in monitoring, and when necessary, responding to legislative activities directly affecting the District in addition to those with potential impacts to the Western Slope, the State of Colorado, and the Colorado River Basin. The renewed level of the District's participation in legislative activities, including the addition of lobbyist services, is expected to continue for the foreseeable future.

In 2013, the District completed an upgrade of the treatment plant's flocculation and sedimentation basins with the addition of settling plates to increase treatment capacity of this portion of the treatment plant. In addition to increasing treatment capacity, the upgrade allows for increased effectiveness in maintaining a high level of water quality when treating water sources such as the Colorado River. In 2017, the District completed construction upgrades to a second pump station near the Colorado River necessary to continue the conveyance of water from the pump station on the Colorado River to the District's treatment facilities. Completion of the pump station upgrade allows for the District's secondary source of water to be delivered in amounts that exceed the District's current maximum daily demand. Plans for the engineering and design of pre-sedimentation basin facilities, on District property purchased in 2015, that would increase the pre-treatment water quality of the Colorado River water were delayed until 2020. The District will continue its efforts to upgrade and expand necessary facilities that ensure its ability to provide water to its customers that complies with current and anticipated water quality regulations and is adequate to supply future growth.

The District has spent an average of \$4.4 million annually in the last 10 years in upgrading and installing new waterlines and treatment facilities within the District. It is anticipated that similar

or larger amounts will be spent annually into the foreseeable future to maintain and expand the District's supply, treatment, and distribution facilities. In addition to ongoing infrastructure maintenance, the major focus of the District's efforts continues to be on increasing waterline sizes in those areas that are experiencing growth, replacing older deteriorating waterlines, and expanding distribution waterlines into developing areas.

The Board of Directors of the District adopted the current water rates in November of 2015 which were effective January 1, 2016. Annual water sales revenues increased approximately 3.5% from 2016 to 2017 and 1.5% from 2017 to 2018 while decreasing 1.7% from 2018 to 2019. The amount of increases and decreases have been primarily due to changes in consumption amounts resulting from weather and precipitation levels and to a lesser extent, growth in the number of units served. The District reviews water and tap rates and property tax rates annually to evaluate the need for possible changes. See pages 42 and 43 for the water and tap rate schedules in effect over the last ten years.

The District's Series 2009 Water Revenue Refunding Bonds and Series 2012 Water Revenue Refunding Bonds carry a Standard & Poor's rating of AA. See pages 26 and 27 for additional details of the District's debt.

## **Future Projects**

The District maintains and annually evaluates an on-going five-year long-term capital plan and a five-year revenue and expenditure forecast. The estimated cost of capital improvements from 2020 through 2025 total \$64 million. Significant elements of this plan include:

- Water supply reservoir expansion and new development
- Major distribution line replacements, upgrades, and extensions
- Pre-sedimentation basin construction
- Distribution water tank rehabilitation
- Ongoing replacement of vehicles and equipment

## **Financial Information**

*Internal Controls* – Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in accordance with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of the control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. Included in the internal control structure is the use of budgetary controls. The objective of budgetary controls is to ensure compliance with the annually appropriated budget approved by the District's Board of Directors. While the adoption of the annual budget by the Board of Directors appropriates funds at the fund level, the District prepares the budget by line item for each department to improve budgetary controls. The finance committee of the Board of Directors is deeply involved in the budget preparation process, in periodic budget to actual reviews, and in reviews of water and tap rates.

*Cash and Investment Administration* – The principal objective of the District’s investment policy is safety while attaining an appropriate rate of return. As of December 31, 2019, approximately 67% of the District’s investments were held in U.S. government and agency securities and 33% held in State of Colorado local government investment pools. The District earned an average return of approximately 2.21% on cash and investments in 2019 compared to approximately 2.05% in 2018. See pages 20 through 23 for additional details of the District’s cash and investments.

## **Other Information**

*Independent Audit* – State statutes require an annual audit by independent certified public accountants. The firm of Chadwick, Steinkirchner, Davis & Co., P.C., was selected to perform this audit for 2019. The auditor’s report on the basic financial statements is included in the financial section of this report.

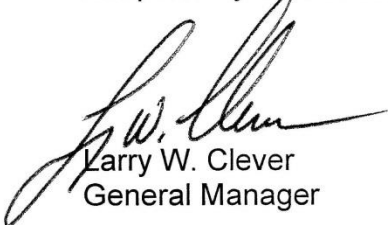

*Awards* – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Ute Water Conservancy District for its comprehensive annual financial report for the fiscal year ended December 31, 2018. This was the twenty-first consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted U.S. accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

*Acknowledgment* – The preparation of this report could not have been accomplished without the efficient and dedicated assistance of the entire staff of the Finance Department. We would also like to express appreciation to the staff in other departments who provided great assistance in the preparation of this report. Due credit also should be given to the Board of Directors for their interest and support in planning and conducting operations of the District in a responsible and progressive manner.

We would also like to commend our external auditors, Chadwick, Steinkirchner, Davis and Co., P.C., for their comprehensive and efficient examination of the District’s accounts and records for the year ended December 31, 2019.

Respectfully submitted,

Larry W. Clever

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

April 22, 2020

President and Board of Directors  
Ute Water Conservancy District  
Grand Junction, CO

We have audited the accompanying financial statements of Ute Water Conservancy District as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express our opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

President and Board of Directors  
Ute Water Conservancy District  
Page Two

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Ute Water Conservancy District as of December 31, 2019 and 2018, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Ute Water Conservancy District's basic financial statements. The schedule of revenues and expenses – budget to actual and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The budgetary comparison schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedule is fairly stated in all material respects, in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

*Chadwick, Steinhilber, Davis & Co., P.C.*

**Management's Discussion and Analysis (unaudited)  
As of and for the Years Ended December 31, 2019 and 2018**

---

The purpose of the management's discussion and analysis is designed to provide an analysis of the District's financial condition and operating results and to also inform the reader on District financial issues and activities. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements that follow this MD&A.

**HIGHLIGHTS – Business-type Activities**

- In 2019, net position increased by \$8.9 million (or 4.2%) when compared to 2018.
- Total revenues increased by \$0.3 million (or 1.3%) to \$24.5 million for 2019.
- Net capital assets increased by \$1.4 million (or 0.7%) to \$193.58 million in 2019.
- Capital contributions increased \$0.24 million (or 15.1%) from 2018 to 2019.
- Current liabilities increased by \$0.4 million in 2019 (or 7.7%) compared to 2018.
- Non-current liabilities decreased by \$2.98 million (or 16.7%) to \$14.86 million in 2019.

**USING THIS ANNUAL REPORT**

The financial statements included in this annual report are those of a special-purpose government engaged only in a business-type activity. The following statements and schedules are included:

- **Statements of net position** – reports the District's current financial resources (short-term spendable resources with capital assets and long-term obligations). (See page 10)
- **Statements of revenues, expenses and changes in net position** – reports the District's operating and non-operating revenues by major source along with operating and non-operating expenses and capital contributions. (See page 11)
- **Statements of cash flows** – reports the District's cash flows from operating, investing, capital and non-capital activities. (See pages 12 - 13)
- **Schedules of revenues and expenditures – budget and actual – (non-GAAP budgetary basis)** – reports the District's revenues and expenditures on the same basis as the budget. (See pages 32 – 33)

**CHANGES IN NET POSITION**

The following schedule summarizes the revenues, expenses and capital contributions resulting in the overall change in total net position.

<b>Years ended December 31,</b>	<b>2019</b>	<b>2018</b>	<b>2017</b>
Revenues	\$ 24,462,130	\$ 24,151,616	\$ 22,969,637
Expenses	(17,389,935)	(16,978,968)	(16,044,148)
Excess before capital contributions	7,072,195	7,172,648	6,925,489
Capital contributions	1,824,076	1,585,242	1,590,620
Change in net position	8,896,271	8,757,890	8,516,109
Net position, beginning of year	213,279,387	204,521,497	196,005,388
Net position, end of year	<u>\$ 222,175,658</u>	<u>\$ 213,279,387</u>	<u>\$ 204,521,497</u>

**Management's Discussion and Analysis (unaudited)**  
**As of and for the Years Ended December 31, 2019 and 2018**

The following table shows the condensed statement of net position for the past three years.

**STATEMENT OF NET POSITION**

Years ended December 31,	2019	2018	2017
Current assets	\$ 47,552,333	\$ 41,666,062	\$ 35,297,049
Capital assets	193,575,900	192,164,552	191,355,455
Non-current assets	1,856,811	3,475,495	3,499,736
Total assets	<u>242,985,044</u>	<u>237,306,109</u>	<u>230,152,240</u>
Deferred outflow of resources	6,233	25,439	57,511
Total assets and deferred outflow of resources	<u>242,991,277</u>	<u>237,331,548</u>	<u>230,209,751</u>
Current liabilities	5,954,983	5,529,056	4,254,260
Non-current liabilities	14,860,636	17,837,983	20,755,361
Total liabilities	<u>20,815,619</u>	<u>23,367,039</u>	<u>25,009,621</u>
Deferred inflow of resources	-	685,122	678,633
Total liabilities and deferred inflow of resources	<u>20,815,619</u>	<u>24,052,161</u>	<u>25,688,254</u>
Net position			
Net investment in capital assets	175,870,824	171,603,912	168,034,757
Restricted	3,252,909	3,252,909	3,202,909
Unrestricted	43,051,925	38,422,566	33,283,831
Total net position	<u>\$ 222,175,658</u>	<u>\$ 213,279,387</u>	<u>\$ 204,521,497</u>

The increases in total assets since 2017 were primarily due to revenues exceeding expenditures and consisted of total assets increasing \$7.15 million (or 3.1%) from 2017 to 2018 and increasing \$5.68 million (or 2.4%) from 2018 to 2019. The increase in 2018 includes approximately \$1.0 million the District received for the Grand Valley Fund (see page 22).

Deferred outflow of resources related to deferred amounts on refunding of the District's Series 2009 Bonds decreased \$32,072 from 2017 to 2018 and \$19,206 from 2018 to 2019.

Total liabilities from 2017 to 2018 decreased \$1.6 million (or 6.6%). This included a reduction in bonds payable of \$2.8 million and was partially offset by the liability recognized for funds received for the Grand Valley Fund of \$1.0 million. From 2018 to 2019, total liabilities decreased \$2.6 million (or 11%). The reduction of bonds payable during 2019 of \$2.88 million was partially offset by an increase in accounts payable of \$0.2 million due primarily to ongoing capital projects.

Deferred inflow of resources related to deferred property tax revenues remained level from 2017 to 2018. As of December 2019, the District reduced the assessed property tax mill levy to 0.000 mills thereby reducing deferred property tax revenues to \$0, resulting in the decrease of deferred inflows of \$685,000.

From 2017 to 2018, net investment in capital assets increased by \$3.57 million (or 2.1%) to \$171.6 million. From 2018 to 2019 this item increased by \$4.27 million or 2.5% to \$175.87 million. Unrestricted net position increased by \$5.14 million (or 15.4%) to \$38.42 million from 2017 to 2018. From 2018 to 2019 unrestricted net position increased by 12% or \$4.63 million to \$43.05 million. Only the unrestricted net position is readily available to finance continuing and future operations of the water system. During 2018 and 2019, the District continued to expend significant amounts for treatment and distribution system upgrades, system development, and the purchase and development of additional water storage and water rights.

The net position of the District increased to \$213.28 million during 2018, an increase of \$8.76 million over 2017. This increase was made up of \$4.39 million in non-operating revenues over expenses, \$2.78 million in operating income, and \$1.59 million in capital contributions.

**Management's Discussion and Analysis (unaudited)**  
**As of and for the Years Ended December 31, 2019 and 2018**

In 2019, the District's net position increased to \$222.18 million, an increase of \$8.9 million over 2018. This increase was made up of \$5.03 million in non-operating revenues over expenses, \$2.05 million in operating income, and \$1.82 million in capital contributions.

**REVIEW OF REVENUES**

Years ended December 31,	2019	2018	2017
Operating revenues			
Waters sales	\$ 17,907,968	\$ 18,220,430	\$ 17,962,733
Fee for tap connections	475,582	420,706	351,012
Other	388,837	360,414	331,734
Total	18,772,387	19,001,550	18,645,479
Non-operating revenues			
Property taxes	790,406	781,098	778,810
Tap fee in excess of connection costs	3,313,118	3,392,819	2,929,538
Investment income	1,238,903	763,085	297,853
Miscellaneous income	316,316	234,511	241,958
Gain (loss) on disposition of capital assets	31,000	(21,447)	75,999
Total	5,689,743	5,150,066	4,324,158
Total revenues	\$ 24,462,130	\$ 24,151,616	\$ 22,969,637

In 2018, operating revenues were up \$356,000 (or 1.9%) from 2017. Water sales account for \$258,000 of the increase in operating revenues and primarily resulted from a 1% increase in water consumption amounts from 2017. In addition, operating revenues increased \$98,000 due to continued growth in water tap fees collected for new connection costs and development fees. Non-operating revenues increased \$826,000 (or 19.1%) from 2017. Increases of non-operating revenue consisted primarily of tap fee income in excess of connection costs, which increased \$463,000 from 2017, as local development in 2018 continued to strengthen and investment income increasing \$465,000 from 2017 due to higher invested balances and interest rates. These increases are offset by the decrease of miscellaneous income resulting from continuing reduced royalty revenues related to production levels and gain (loss) on the disposition of capital assets decreasing \$97,000 from 2017 amounts.

In 2019, operating revenues decreased \$229,000 (or 1.2%) from 2018. Increases related to water tap fees collected for connection costs and development fees, totaling \$83,000, partially offset a \$312,000 decrease of water sales from 2018 amounts due to a decrease in billed consumption amounts of approximately 3%. Non-operating revenues increased \$539,000 (or 10.5%) from 2018. The increase of non-operating revenue primarily resulted from an increase of \$476,000 in investment income from 2018 amounts due to higher invested balances and the unrealized gain from the current fair value of investments at December 31<sup>st</sup> totaling \$260,000. An increase of \$82,000 in miscellaneous income was primarily due to the receipt of funds related to previous years activities to reimburse the District for the removal of contaminated soils (State of Colorado) and a distribution extension agreement refund (Xcel Energy). An increase in property taxes collected of \$9,000 and a \$52,000 increase in the gain of the disposition of assets, due to the sale of vehicles and equipment, partially offset the \$80,000 decrease of tap fee income in excess of connection costs from 2018 as local development slightly decreased.

**Management's Discussion and Analysis (unaudited)**  
**As of and for the Years Ended December 31, 2019 and 2018**

**REVIEW OF EXPENSES**

<b>Years ended December 31,</b>	<b>2019</b>	<b>2018</b>	<b>2017</b>
Operating expenses			
Water supply and treatment	\$ 2,546,751	\$ 2,414,307	\$ 2,267,047
Transmission and distribution	3,538,496	3,516,103	3,150,517
Engineering and construction	893,443	947,110	846,916
Administration	1,729,983	1,598,979	1,490,940
Finance and accounting	1,555,541	1,495,722	1,401,134
Depreciation	6,461,748	6,250,868	6,048,983
Total	<u>16,725,962</u>	<u>16,223,089</u>	<u>15,205,537</u>
Non-operating expenses			
Interest expense	650,201	742,263	825,116
County treasurer's fees	13,772	13,616	13,495
Total	<u>663,973</u>	<u>755,879</u>	<u>838,611</u>
Total expenses	<u>\$ 17,389,935</u>	<u>\$ 16,978,968</u>	<u>\$ 16,044,148</u>

In 2018, the District's operating expenses increased \$1,018,000 (or 6.7%) when compared to 2017. The increases from 2017 included increased personnel compensation and health insurance costs of \$437,000, a \$379,000 increase in operating expenses primarily due to increases in treatment chemicals cost and amounts and system repairs, and \$202,000 from increases in depreciation resulting from recent capital asset additions. Non-operating expenses decreased approximately \$83,000 due to decreased interest expense.

In 2019, the District's operating expenses increased \$503,000 (or 3.1%) when compared to 2018. A portion of this increase resulted from personnel expense increases of \$150,000 that consisted of increases in personnel wage and health benefit cost which was offset \$95,000 due to shared funding credits received from the District's insurance provider related to the previous year. Additional operating expense increases included an increase of \$238,000 due primarily to increases in legal fees, meter repairs, the addition of fire mitigation activities, and ranch maintenance and a \$211,000 increase in depreciation resulting from capital asset additions. Non-operating expenses decreased approximately \$92,000 due to decreased interest expense.

**CAPITAL CONTRIBUTIONS**

<b>Years ended December 31,</b>	<b>2019</b>	<b>2018</b>	<b>2017</b>
Developer donated assets and system upgrades	<u>\$ 1,824,076</u>	<u>\$ 1,585,242</u>	<u>\$ 1,590,620</u>

Capital contributions result from the donation of line extensions, subdivision lines, and other system assets from developers. Changes in amounts from year to year are dependent on the amount of residential and commercial development within the District.

**Management's Discussion and Analysis (unaudited)  
As of and for the Years Ended December 31, 2019 and 2018**

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

(in thousands)

**Capital assets, net of depreciation**

<b>Balances for years ended December 31,</b>	<b>2019</b>	<b>2018</b>	<b>2017</b>
Source of supply	\$ 89,879	\$ 91,461	\$ 91,724
Transmission and distribution	77,193	74,472	73,853
Water treatment	16,311	16,818	15,908
General plant and equipment	7,123	7,350	7,500
Construction in progress	3,070	2,064	2,370
	<u>\$ 193,576</u>	<u>\$ 192,165</u>	<u>\$ 191,355</u>

Capital assets had net increases (additions, retirements, and depreciation) of approximately \$1,411,000 in 2019 and \$810,000 in 2018.

The major capital asset additions were as follows:

(in thousands)

	<b>2019</b>	<b>2018</b>
Transmission & distribution system upgrades	\$ 6,511	\$ 3,671
Treatment & supply upgrades and improvements	546	1,565
Meter & service installations	476	421
Vehicle & equipment purchases	280	316
Reservoir permitting, design and expansion	96	44
Land & water rights	2	1,064
Total capital asset additions	<u>\$ 7,911</u>	<u>\$ 7,081</u>

Additional information regarding capital assets is available in the footnotes to the financial statements (see page 25).

**DEBT OUTSTANDING**

In 2018, the District reduced the balance of bonds payable by \$2,665,000. The District did not incur any additional bonds or notes payable in 2018. In 2019, the District reduced the balance of bonds payable by \$2,780,000. The District did not incur any additional bonds or notes payable in 2019. Further debt information is available in the notes to the financial statements (see pages 26 to 27).

**ECONOMIC AND OTHER FACTORS**

The economy of the region surrounding the District has grown and diversified over the last several decades. Prior to 2017, the effects of the national economy significantly impacted the regions natural gas and construction industries which in turn resulted in substantially reduced levels of growth of the local area's economy. This slowdown in the local economy appears to have reversed as low residential real estate inventory and reduced foreclosure filings support the renewed levels of residential and commercial construction activity. The regions economic diversification and the desirability of the area as a place to live has resulted in an increase in medical, industrial, recreational, and service related businesses.

**Management's Discussion and Analysis (unaudited)**  
**As of and for the Years Ended December 31, 2019 and 2018**

---

The number of water tap connections (tap sales), county building permits (see page 45), and subdivision development reflect the major slowdown in growth experienced since 2009 as well as the signs of increased development over the last few years. The District continues to plan for future growth with the continued emphasis on upgrading the District's treatment and distribution systems. The determination of future water needs and the purchase and development of additional water rights and water sources continue as a priority for the District.

In November 1992, the voters of Colorado approved Amendment 1, commonly known as the Taxpayer's Bill of Rights (TABOR), which added a new section 20 to Article X of the Colorado Constitution. (See Note I to the financial statements on page 29). Under TABOR, the District is subject to statutory revenue growth limits and cannot receive over 10% of its revenues from taxes and remain an enterprise under state law. While the enterprise status under state law allows the District to remain exempt from many of the provisions of TABOR, over the period from 2005 to 2008 the District reduced its reliance on property tax revenues by reducing its mill levy from 2.0 mills to 0.5 mills, and finally to 0.0 mills as of December 2019.

**FINANCIAL CONTACT**

The District's financial statements are designed to present financial statement users (water users, taxpayers, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. If you have any questions concerning this report or need additional financial information, please contact the Finance Department, Ute Water Conservancy District, P.O. Box 460, Grand Junction, Colorado 81502.

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Ute Water Conservancy District (District) is a political subdivision of the State of Colorado with all the powers of a public or quasi-municipal corporation. The District was created April 4, 1956, by decree of the District Court in and for Mesa County as provided by Colorado Revised Statutes, Title 37, Article 45; the “Water Conservancy Act”. The District is organized to provide domestic water service to most rural areas of the Grand Valley in Mesa County in central western Colorado. Water service is also provided within the City of Fruita. A Board of Directors consisting of fourteen members governs the District. The members of the Board of Directors are appointed for staggered four-year terms of office by the Mesa County District Court.

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) accepted in the United States and as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District applies all applicable GASB pronouncements. A summary of significant accounting policies follows.

This summary of significant accounting policies of Ute Water Conservancy District is presented to assist in the understanding of the District’s financial statements. The financial statements and notes are representations of the District’s appointed officials and management, which are responsible for their integrity and objectivity. These accounting policies have been consistently applied in the presentation of the financial statements.

#### Reporting Entity

The reporting entity of the District includes those activities and functions over which the District is considered to be financially accountable. The District’s financial statements include the accounts and operations of all the District’s functions. The District’s functions include the construction and maintenance of domestic water supply and delivery lines and the operation of a domestic water system. The District is the primary government and does not include any component units using the criteria set forth in GAAP.

#### Basic Financial Statements

The District is a special-purpose government engaged only in a business-type activity. For this type of government, only enterprise fund financial statements are presented.

#### Basis of Presentation - Fund Accounting

The accounts of the District are organized and operated on a fund basis. The operations of a fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflow of resources, liabilities, deferred inflow of resources, net position, revenues and expenses. The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to those applicable to businesses in the private sector.

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

GAAP sets forth minimum criteria for the determination of major funds to be presented in the financial statements. Since the operations of the District are accounted for on a fund basis in a single enterprise fund, it is the only fund presented.

Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third-party requirements that the cost of providing services, including capital costs, be recovered with fees or charges or, (c) has a pricing policy designed for the fees and charges to recover similar costs. Enterprise funds may also be used to account for operations (a) that are financed and operated in a manner similar to business enterprises and where the intent of the governing body is that costs (expenses, including depreciation) of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

#### Basis of Accounting

Basis of accounting refers to when revenues or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. Proprietary (enterprise) funds are presented on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred inflows, liabilities, and deferred outflows associated with the operation of a fund are included on the statement of net position. Net position is categorized as net investment in capital assets, restricted, and unrestricted. Fund operating statements present increases (e.g., revenues and contributions) and decreases (e.g., expenses) in net position. Proprietary (enterprise) funds are presented on an accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred. The District records unbilled water service receivables as revenue at year-end.

The District reports unearned revenue on its statement of net position. Unearned revenues arise when potential revenue is measurable but has not yet been earned. In subsequent periods, when the steps required for the revenue to be earned are met, the liability for unearned revenue is removed from the statement of net position and revenue is recognized. Unearned revenues include prepaid user charges, billing corrections, and account adjustments (e.g., leak adjustments) resulting in customer account credit balances where the credit will be applied against future account usage charges.

---

### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### Budgets and Budgetary Accounting

The Board of Directors approves the annual budget in accordance with Colorado Revised Statutes and prior to December 31, the District adopts a resolution appropriating sums of money for the ensuing fiscal year. The statutory details of the budget calendar are as follows:

December 15,	Statutory deadline for certification of mill levies to the Board of County Commissioners
December 22,	Statutory deadline for Board of County Commissioners to levy all taxes and certify the levies

The District's budget is prepared on the accrual basis of accounting modified to include the proceeds of debt issuance in revenues, to include capital expenditures and debt service principal payments in expenditures, to exclude contributed capital from revenues, and to exclude contributed capital, depreciation and amortization from expenditures.

The District's level of budgetary control (the level at which expenditures may not exceed the appropriated amount) is established at the fund level. A supplemental budget appropriation may be adopted by the Board of Directors when necessary. The District does not record commitments related to unperformed contracts for goods and services outstanding at year-end. Appropriations lapse at year-end.

For the year ended December 31, 2019, the District's original appropriation and expenditures were limited to \$22,215,483. The District did not make any supplemental appropriations for the year ended December 31, 2019. For the year ended December 31, 2018, the District's original appropriation and expenditures were limited to \$19,856,595. The District did not make any supplemental appropriations for the year ended December 31, 2018.

#### Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

#### Investments

Colorado statutes specify investments meeting defined rating and risk criteria in which local governments may invest, which include:

- Obligations of the United States and certain U.S. government agency securities
- Local government investment pools
- General obligation and revenue bonds of U.S. local government entities
- Certain international agency securities
- Guaranteed investment contracts
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Banker's acceptances of certain banks
- Certain money market funds

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

The District's investment policy limits District investments to the first three listed categories except for investments specifically approved by the District's Board of Directors. The District's investment policy does not include limits of investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Colorado statutes limit authorized investments to investments having maturities of five years or less, unless the entity's governing body specifically authorizes longer maturities.

#### Property Taxes

The Board of Directors annually adopts a resolution to set the mill levies of the District which are collected by the County Treasurer in the following year. The County Treasurer remits property taxes collected to the District by the 10<sup>th</sup> day of the month following collection. Property taxes receivable represent current year taxes collectable in the following year and are also shown as deferred inflows. Following are details of the property tax calendar:

Lien date:	January 1 (current year)
Levy date:	November 15 (prior year)
First ½ installment due:	February 28
Second ½ installment due:	June 15
If paid in full:	April 30

In December 2019, the District Board adopted a resolution to set the mill levy, for 2019 property taxes to be collected in 2020, at 0.000 mills. This resulted in property taxes receivable and deferred inflows at the end of 2019 being reduced to \$0. Unknown amounts related to delinquent property and specific ownership taxes will continue to be intermittently received in future periods until remitted in full.

#### Inventory and Prepaid Items

Inventory held by the District consists of repair and replacement parts, treatment chemicals, and equipment fuel and is stated at cost using the average unit cost basis.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

#### Capital Assets

Capital assets (property, plant, and equipment) are recorded at cost, or in the case of donations, at their acquisition value on the date donated. Cost includes the capitalization of materials and direct labor for additions made by District personnel. The District's capitalization level for capital assets is \$5,000.

Maintenance, repairs, and renewals that neither materially add to the value of the property nor appreciably prolong its life are charged to expense as incurred. Upon the disposition of property, infrastructure or equipment, the costs and related accumulated depreciation are removed from the corresponding accounts and gains or losses are included in income.

Depreciation is computed using the straight-line method over estimated useful lives, as follows:

	<u>Estimated lives</u>
Buildings and improvements	30 to 50 years
Utility plant and system	30 to 60 years
Storage reservoirs and tanks	10 to 50 years
Equipment	3 to 25 years

#### Capitalization of Interest Costs

The District follows the practice of capitalizing interest during construction of long-term projects. No interest was capitalized in construction projects in 2019 or 2018.

#### Compensated Absences

As of 2018, the District paid full time employees for accumulated vacation leave up to a maximum of 25 days upon termination. Beginning in 2019, the District pays full time employees for accumulated vacation leave up to a maximum of 30 days upon termination. Vacation leave accrues after 90 days of full-time employment. Unused sick leave at termination, which had accumulated prior to August 1, 1987, is paid to the remaining eligible employees upon termination at 17% to 20% of full pay rates as of August 1, 1987. There is no compensation upon termination for unused sick leave accrued after August 1, 1987. All compensated absences liabilities include salary related payments where applicable.

#### Deferred Outflows/Inflows of Resources

A deferred outflow of resources is defined as a consumption of net position that is applicable to a future period and will not be recognized as an expense/expenditure until such future period. The District recognizes the deferred amount on refunding of the 2009 Series bonds as a deferred outflow of resources. A deferred inflow of resources is defined as an acquisition of net position that is applicable to a future period and will not be recognized as revenue until the future period. The District recognized property tax revenues as deferred inflow of resources through 2019.

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

#### Net Position

Investment in capital assets is intended to reflect the portion of net position that is associated with non-liquid capital assets, less outstanding capital related debt. Restricted assets are assets that have third-party (constitutional/statutory or bond covenant) limitation on their use. The District would typically use restricted assets when the restriction first makes them available but reserves the right to selectively defer their use.

*Restricted – Constitutional Emergency Reserve* – Provisions of the Colorado constitution require the District to maintain a portion of its fiscal year spending in reserve which is restricted for declared emergencies only. As of year-end 2018 and 2019, the restricted amount of net position for constitutional emergency reserves is \$50,000.

*Restricted – Debt Service* – Bond covenants for the District’s Water Revenue Refunding Bonds Series 2009 & Series 2012 require maintaining debt service reserve amounts that provide a continuing reserve to be used, if necessary, only to prevent deficiencies in the payment of principal and interest. For years ending 2019 and 2018, the restricted amount of \$3,202,909 consisted of:

Reserved for debt service of Series 2009 Bonds - \$1,575,159  
Reserved for debt service of Series 2012 Bonds - \$1,627,750

#### Bond Premiums, Discounts, and Deferred Amount on Bond Refunding

Bond premiums and discounts are being amortized over the lives of the related bonds using the effective interest rate method. The deferred amount on bond refunding is being amortized over the life of the new bonds, using the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds payable. Bond discounts are presented as a reduction to the face amount of the bonds payable. The deferred amount on refunding is presented as a deferred outflow of resources.

#### Reclassifications

For comparability, 2018 amounts have been reclassified where appropriate to conform to the year 2019 financial presentation.

#### Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, deferred outflow of resources, liabilities, deferred inflow of resources, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

### NOTE B – CASH AND INVESTMENTS

The captions on the statements of net position of the District related to cash and investments are as follows:

	2019	2018
Cash and cash equivalents	\$ 13,010,422	\$ 9,160,357
Restricted cash and cash equivalents	1,625,159	-
Cash held for others	1,500,846	1,483,265
Investments	28,515,979	27,366,089
Restricted investments	1,627,750	3,202,909
	\$ 46,280,156	\$ 41,212,620

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles and GASB Statement No. 72. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The composition, including level under the GASB 72 fair value hierarchy, where applicable, of all cash and investments held by the District at December 31, 2019 and 2018 is as follows:

	2019	2018
Cash on hand	\$ 1,700	\$ 1,700
Cash in bank account(s)	1,432,074	1,631,720
Investment pools:		
COLOTRUST Plus+	6,925,749	3,968,915
CSAFE CORE	6,276,058	3,558,022
CSAFE Cash	1,500,846	1,483,265
U.S. Treasury Notes (Level 1)	6,743,804	6,760,746
Federal Agency securities:		
Federal Farm Credit Bank (Level 1)	11,598,010	4,503,330
Federal Home Loan Bank (Level 1)	6,511,785	10,463,525
Federal Home Loan Mortgage Corporation (Level 1)	3,507,750	6,954,370
Federal National Mortgage Association (Level 1)	1,515,105	1,508,235
Investment in District Bond Trust (Footnote 1)	267,275	378,792
	\$ 46,280,156	\$ 41,212,620

#### Footnote 1

In 1988, the District redeemed, at a discount, its Water Revenue Bonds, Series 1981, held by the U.S. Farmers Home Administration. These bonds were advance refunded in 1983 with proceeds from the issuance of the District's Water Revenue Refunding Bonds, Series 1983. U.S. Government securities were purchased and deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Water Revenue Bonds, Series 1981. Upon redemption of the Water Revenue Bonds, Series 1981, the District received the right to all future payments from the trust. Payments from the trust are due on January 1, and July 1 of each year through July 1, 2021. Payments of interest and principal per year range from \$105,375 to \$176,800. The District's investment in the District Bond Trust is stated at amortized cost because the fair value for this investment is not readily available. At December 31, 2019 and 2018, the balance from the trust is as follows:

	2019	2018
Principal due from trust	\$ 328,000	\$ 480,000
Less unamortized discount based on an imputed interest rate of 11.8%	(60,725)	(101,208)
	\$ 267,275	\$ 378,792

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE B – CASH AND INVESTMENTS – continued

#### Deposits

District policy requires that the District only have deposits with eligible public depositories as defined in Colorado statutes including the Public Deposit Protection Act (PDPA) of 1989. Under the Act, the depository is required to pledge eligible collateral having a market value at all times equal to at least 102% of the aggregate public deposits held by the depository not insured by the Federal Deposit Insurance Corporation. The District's cash deposits at December 31, 2019 and 2018 had bank balances and carrying balances as follows:

	<u>2019</u>	<u>2018</u>
Bank Balance	\$ 1,673,690	\$ 1,553,775
Carrying Balance	1,432,074	1,631,720

#### Investments

The District's investments include external investment pool portfolio options provided by Colorado Surplus Asset Fund Trust (CSAFE) and Colorado Government Liquid Asset Trust (COLOTRUST). CSAFE and COLOTRUST are local government investment pool trust funds registered with the Colorado Securities Commissioner pursuant to the Local Government Investment Pool Trust Fund Administration and Enforcement Act. CSAFE and COLOTRUST qualify as 2a7-like external investment pools and are exempt from the fair value hierarchy disclosure requirements of GASB 72.

As of December 31, 2019, the District has \$14,702,653 in the CSAFE and COLOTRUST government investment pools established for local governments in Colorado to pool surplus funds. The underlying investments of these pools consist of U.S. Treasury and Agency securities, the highest rated commercial paper, and repurchase agreements collateralized by U.S. Treasury and agency securities.

Investments in the CSAFE Cash investment pool portfolio option are valued at \$1 net asset value (NAV) per share and the underlying investments held in the portfolio are valued at amortized cost which approximates fair value. There are no limitations on withdrawals in the CSAFE Cash option. The CSAFE Cash portfolio is rated AAAM by Standard & Poor's.

Investments in the CSAFE CORE investment pool portfolio option are valued at \$2 net asset value (NAV) per share and the underlying investments held in the portfolio are valued at fair value. Participants are limited to three (3) redemptions per month in the CSAFE Core option. The CSAFE CORE portfolio is rated AAAf/S1 by Fitch.

Investments in the COLOTRUST Plus+ investment pool portfolio option are valued at \$1 net asset value (NAV) per share and the underlying investments held in the portfolio are valued at fair value. There are no limitations on withdrawals in the COLOTRUST Plus+ option. The COLOTRUST Plus+ portfolio is rated AAAM by Standard & Poor's.

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

### NOTE B – CASH AND INVESTMENTS - continued

In 2014, the District was appointed administrator and custodian of the Grand Valley Fund. The Grand Valley Fund, and any earnings, are to be used for water supply, water quality and/or water infrastructure projects benefiting the Grand Valley. There are six Grand Valley entities, including the District, that determine the use of these funds. As of December 31, 2019, the \$1,500,846 balance in the CSAFE Cash investment pool portfolio are funds and associated earnings being held for the Grand Valley Fund and is offset by a District liability in the same amount.

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE B – CASH AND INVESTMENTS – continued

#### Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to a depositor or investor. To limit credit risk, the District's investment policy limits District investments to obligations of the United States and certain U.S. government agency securities, specified local government investment pools, and general obligation and revenue bonds of United States local government entities.

#### Custodial credit risk

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the District will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. The District's deposits are either covered by depository insurance or are collateralized under the Colorado Public Deposit Protection Act and are therefore not deemed to be exposed to custodial credit risk. The District's investments are not deemed to be exposed to custodial credit risk because the investments are held by the District or by the District's custody agent in the District's name.

#### Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District does not place a limit on the amount that may be invested in any one issuer. Investments amounting to 5% or more in any single issuer of the District's investments total include investment pools, U.S. Treasury securities, and securities of the Federal Farm Credit Bank, the Federal Home Loan Bank, and the Federal Home Loan Mortgage Corporation. These investments are 33%, 15%, 26%, 15%, and 8%, respectively, of the District's total investments at December 31, 2019.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure by coordinating investment maturities with anticipated cash flow requirements, establishing a pattern of rolling maturity dates, and employing a buy-and-hold strategy.

Investment Type	Investment Maturities as of December 31, 2019					Cash, Cash Equivalents, & Investments
	Less than 1 Year	1 - 2 Years	2 - 3 Years	3 - 4 Years	4 - 5 Years

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE C – LOANS RECEIVABLE

The purpose of the loans was to provide various property owners, formerly on a well system, with the ability to compensate the District for the costs of infrastructure capital improvements related to new and upgraded water services in a service area of the District. The District installed the required infrastructure capital improvements. Certain property owners in the affected service area elected to pay infrastructure charges in full rather than elect the District's loan option. The District views the loan principal repayments as contributions to be used to offset costs for the new and upgraded water services and associated distribution system component improvements that are owned and maintained by the District. The loans receivable originated in 2009 and are due in installments through 2039. The loans bear interest at 6% and are collateralized by liens on the affected properties.

*Loan Receivable activity for the year ended December 31, 2019, was as follows:*

	Beginning balance	Principal Received	Ending balance	Amounts due within one year
Loans receivable	<u>\$ 280,104</u>	<u>\$ 44,134</u>	<u>\$ 235,970</u>	<u>\$ 6,909</u>

*Loan Receivable activity for the year ended December 31, 2018, was as follows:*

	Beginning balance	Principal Received	Ending balance	Amounts due within one year
Loans receivable	<u>\$ 304,331</u>	<u>\$ 24,227</u>	<u>\$ 280,104</u>	<u>\$ 7,518</u>

2031	1,595,000	27,912	1,622,912
	<u>\$ 17,490,000</u>	<u>\$ 3,900,106</u>	<u>\$ 21,390,106</u>

The District is in material compliance with all sections of the Water Revenue Refunding Bonds, Series 2009 and Series 2012. The ratio of net revenue available for debt service to the total average future annual debt requirements of the Series 2009 and Series 2012 bond issues was 3.82 in 2018 (3.82 times coverage). In 2019, the ratio of net revenue available for debt service to the total average future annual debt requirements of the Series 2009 and Series 2012 bond issues was 3.81 (3.81 times coverage).

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE F – DEFINED CONTRIBUTION PLAN

Through District resolutions, the District provides retirement benefits for all full-time employees through a defined contribution plan administered by the Colorado County Officials and Employees Retirement Association (CCOERA). In a defined contribution plan, benefits depend solely on amounts contributed on the plan plus investment earnings.

Under the defined contribution retirement plan, the District is required to match the employee's contribution of 8% to the plan. Employees are eligible to participate in the plan following 90 days of employment. The plan provides retirement benefits based upon the employee's vested account. A participant becomes 100% vested upon completion of five years of covered service. Amounts forfeited by employees who leave employment before they become fully vested are divided up among the remaining participants in the plan. Under the plan, employees direct the investment of both the employee and employer contributions among several investment options available through an outside plan administrator.

For the years ended December 31, 2019 and 2018, total payroll, covered payroll, and the employee and employer contributions to the plan were as follows:

	<u>2019</u>	<u>2018</u>
Total payroll	\$ 5,272,703	\$ 5,076,995
Covered payroll	5,147,540	4,973,436
District contribution	411,804	397,875
Percent of covered payroll	8.0%	8.0%
Employee contribution	411,804	397,875
Percent of covered payroll	8.0%	8.0%

### NOTE G – DEFERRED COMPENSATION PLAN

District employees may defer a portion of their compensation under District sponsored Deferred Compensation Plan options created in accordance with Internal Revenue Code Section 457. Participants can elect to contribute to a 457(b) plan that defers the tax liability of contributed amounts from their compensation until it is distributed to them or they can elect to make contributions to a Roth designated 457(b) plan in which the participant elects to include contributed amounts in gross taxable income. Distributions from either plan option may be made only at termination, retirement, or death.

The laws governing deferred compensation plan assets require plan assets to be held by a Trust for the exclusive benefit of Plan participants and their beneficiaries. Since the assets held under these plans are not the District's property and are not subject to District control, they have been excluded from these financial statements.

# UTE WATER CONSERVANCY DISTRICT

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### NOTE H – RISK MANAGEMENT

The District purchases general liability, property, and various other types of insurance through commercial carriers to provide coverage for all significant losses, claims, and judgments. There have been no significant reductions in insurance coverage, nor have settlement amounts materially exceeded coverage for the current or prior three years.

### NOTE I – TAX, SPENDING, AND DEBT LIMITATIONS

In November 1992, the voters of Colorado approved Amendment 1, commonly known as the Taxpayer’s Bill of Rights (TABOR), which added a new Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue and debt limitations and certain election requirements that apply to the State of Colorado and all local governments. TABOR is complex and subject to interpretation. The District’s management believes the District is in compliance with the provisions of TABOR as it is understood from judicial interpretations, legal opinions, and commonly accepted practices.

### NOTE J – RECONCILIATION OF REVENUES AND EXPENSES - BUDGETARY BASIS TO GAAP BASIS

	<u>2019</u>	<u>2018</u>
Excess (deficiency) of revenues over (under) expenditures (Budgetary Basis)	<u>\$ 4,629,360</u>	<u>\$ 5,188,733</u>
Adjustments:

## NOTES TO FINANCIAL STATEMENTS

As of and for the Years Ended December 31, 2019 and 2018

---

### **NOTE K – COMMITMENTS AND CONTINGENCIES**

The District is an objector in various water matters pending before various courts. The District is opposing applications for water rights made by third parties in order to protect the District's water rights.

The District is involved in several claims as the result of the normal conduct of District business. District management believes that these will not have a material effect on the financial statements of the District.

Schedule 18

**OPERATING AND CAPITAL INDICATORS**

	2019	2018	2017
Size of watershed (square miles drained)	504	504	504
Terminal reservoirs storage capacity (acre-feet)	8,736	8,736	8,736
Miles of raw water delivery pipeline	21.2	21.2	21.2
Treatment plant capacity (MGD)	34.0	34.0	34.0
Treated water storage (MG)	27.5	27.5	27.5
Miles of transmission & distribution pipeline (by pipe diameter):			
4 inches and smaller	287.09	288.97	288.98
6 inches	111.76	111.29	110.85
8 inches	346.74	340.59	334.99
10 inches to 18 inches	125.81	126.21	124.88
Larger than 18 inches	48.37	48.37	48.38
Total miles of distribution pipeline	<u>919.77</u>	<u>915.43</u>	<u>908.08</u>
Number of fire hydrants in distribution system	4,488	4,392	4,291

Notes: MGD = Million gallons of water per day

MG = Million gallons of water

Acre-foot = 325,829 gallons

Additional operating indicators can be found in schedules 3 and 4.
