INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Basalt Regional Library District
Basalt, Colorado

We have audited the accompanying financial statements of the governmental activities and each major fund of Basalt Regional Library District as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Basalt Regional Library District, as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information for the General Fund on pages 3 through 9 and page 28 through 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Budgetary Comparison Schedules for budget to actual for the Debt Service and Capital Reserve Funds are not a required part of the basic financial statements.

The Budgetary Comparison Schedules for budget to actual for the Debt Service and Capital Reserve Funds are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Budgetary Comparison Schedules for budget to actual for the Debt Service and Capital Reserve Funds are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management’s Discussion and Analysis

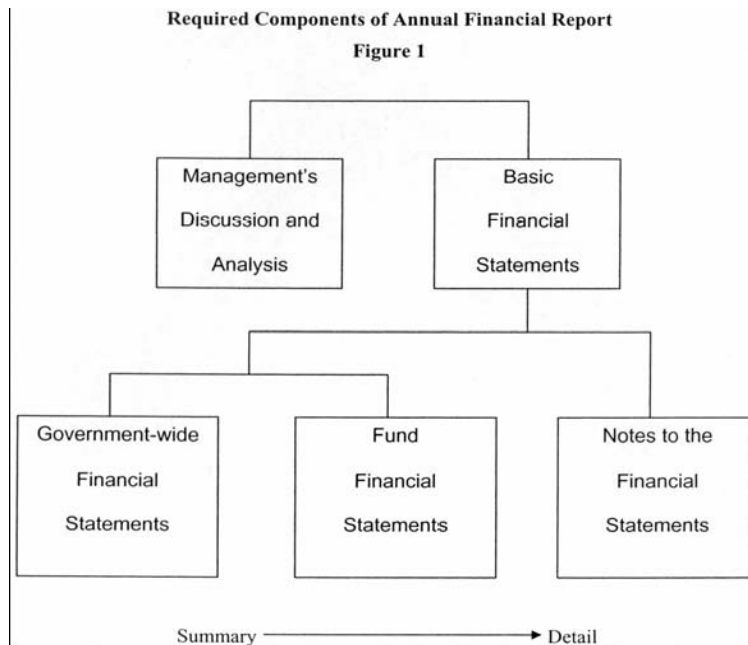

As management of the Basalt Regional Library District (the “District”), we offer this narrative overview and analysis of the financial activities of the Basalt Regional Library District for the year ended December 31, 2019. We encourage the readers to consider this Management’s Discussion and Analysis (MD&A) in conjunction with the District’s financial statements, which follow this MD&A.

Financial Highlights

- The District’s total assets exceeded its liabilities on December 31, 2019 by \$7,797,509 (Exhibit 1). This represented an increase of \$676,466 from net position at December 31, 2018 (see Exhibit 2). This perspective on net position includes spendable resources as well as the investment in buildings, collections and other capital assets of \$5,266,290 and emergency reserve of \$47,615.
- The District’s total liabilities decreased by \$737,708 from the prior year as shown in Figure 2.
- As of December 31, 2019, the District’s governmental funds reported combined ending fund balances of \$2,584,061, increase of \$213,727 in comparison to the prior year (see Exhibits 3 and 4). The portion of the total fund balance for the General Fund that is unassigned and available for spending at the District’s discretion is \$1,456,793.
- Within the District’s general operating fund, total actual revenues were \$60,814 more than the 2019 final budget, while total actual expenditures were \$38,998 less than the 2019 final budget (see Exhibit 5).

Overview of the Financial Statements

The District’s basic financial statements consist of three components; 1) *government-wide financial statements*, 2) *fund financial statements* and 3) *notes to the financial statements*. Figure 1 illustrates the components of a typical annual financial report.

Basic Financial Statements

Government-wide Financial Statements:

The *government-wide financial statements* (Exhibits 1 and 2) provide both short and long-term information about the District's financial status. These financial statements present a broad overview of the District's finances, similar in format to financial statements of a private-sector business. The statement of activities (Exhibit 2) reports changes in the District's net position. This statement includes all of the District's revenues and expenses, regardless of when the cash is received or paid, as defined under the full accrual accounting method.

Fund Financial Statements:

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with finance-related legal requirements. The *fund financial statements* focus on the activities of the District's individual governmental funds and are divided into two parts: 1) the "modified accrual basis statements" (Exhibits 3 and 4) and the "budgetary basis statements" (Exhibits 5 thru 7).

Exhibits 3 and 4 focus on assets that can readily be converted into cash in the short term and liabilities that will be settled in the short term. Governmental funds in the "modified accrual basis statements" are reported using modified accrual accounting, which recognizes expenditures when the liability is incurred and revenue when measurable and available. The modified accrual accounting method provides a short-term spending focus, which helps the reader assess the amount of financial resources immediately available to finance the District's programs. The differences in accounting for financial information in the *government-wide statements* (Exhibits 1 and 2) and the fund statements are illustrated by the reconciliations on Exhibits 2 through 4.

The annual budgets shown in the "budgetary basis statements" (Exhibits 5 thru 7) are prepared as described in Note 1. These budgets are presented using the modified accrual basis of accounting.

The "budgetary basis statements" for the General Fund, Debt Service Fund and Capital Reserve Fund demonstrate how the District complied with the year's approved budget. The "budgetary basis statements" are presented using the same classifications as those used in the legal budget document.

Notes to the Basic Financial Statements:

Notes to the financial statements provide additional information that is essential to fully understanding the financial statement data.

Financial Analysis

The Statement of Net Position and the Statement of Activities (Exhibits 1 and 2) present the District's financial information as a whole. Figures 2 and 3 provide summaries of these statements for 2019 and 2018.

Net Position:

The District's assets exceeded its liabilities by \$7,797,509 as of December 31, 2019, an increase in the District's net position of \$676,466 during 2019 (see Figures 2 and 3). Of the net position, \$5,266,290 is invested in capital assets, which includes land, buildings, library materials, furniture and equipment, less related debt. The District uses capital assets to provide services to patrons; consequently, these assets are not available for future spending. The remaining portions of the District's net position is classified as either restricted or unrestricted. The restricted asset is for emergency reserve of \$47,615. The remaining assets are unrestricted assets of \$2,483,604 which can be used for future operations.

The District receives 95 percent of its funding from property tax revenues. Salaries and benefits represent 45 percent of the District's total expenditures. Under the method of accounting used for the government-wide financial statements, library books and other collections are capitalized as assets and depreciated over their estimated useful lives. Consequently, most of the year's expenditures for books and collections are not included in the "library materials" expense shown in Figure 3.

Fund Financial Analysis

“Modified Accrual Basis Statement” Analysis (Exhibits 3 and 4):

The General Fund is the chief operating fund of the District. At the end of the calendar year 2019, the fund balance of the General Fund is \$1,504,408. Of this amount, \$47,615 is reserved for emergency under Tabor. The remaining unassigned fund balance of \$1,456,793 is available for future spending.

On December 31, 2019, the District reported a combined fund balance for its governmental funds of \$2,584,061 (see Exhibit 3). Of this amount, \$604,600 is the Debt Service Fund balance committed for paying the General Obligation Bond debt as it comes due. The Capital Reserve Fund balance of \$475,053 is committed for capital expenditures.

The General Fund balance increased in 2019 mainly due to increased specific ownership taxes and interest income. (See Exhibit 4).

The charts in Figures 4 and 5 represent only the General Fund’s revenues and expenditures.

Capital Asset Discussion

The District’s investment in capital assets as of December 31, 2019, totals \$10,806,290, net of accumulated depreciation (see Figure 6). These assets include buildings, land, furniture, equipment, books, and audio visual equipment. Additional information on the District’s capital assets can be found in Note 4 of the financial statements.

Major capital asset transactions during the calendar year include the following:

| | | |
|--------------------------------|----|--------|
| Books and audio visual devices | \$ | 79,572 |
| Furniture and equipment | \$ | 12,785 |

| Books and audio visual devices | 1,436,370 | 1,428,182 |
| Total capital assets | \$ 10,806,290 | \$ 11,071,328 |

Debt Discussion

As of December 31, 2019, the District’s total debt is \$5,655,826. Of this amount, \$32,067 represents the liability for the employees’ compensated absences and \$5,560,775 is the Basalt Regional Library District’s general obligation debt, including accrued interest payable. The remainder is the District’s accounts payable. Additional information regarding the District’s long-term debt can be found in Note 5 of the financial statements.

Economic Factors and Next Year’s Budget

The Library District enjoyed several years of favorable economic conditions which resulted in the growth of fund reserves. While the library has grown by providing core services and innovation for its patrons, it is reliant on property taxes for its funding and hence is impacted by real estate development and property values. The pace of local development and real estate sales has slowed as the national economy has suffered a severe economic recession and only recently begun to show signs of recovery. In 2016, the voters authorized the increase of \$350,000 an additional property taxes per year. This increase is for a seven year period and will end after 2023. Financial planning continues for adjustments to operations for 2019 and beyond that may be necessary as the economic uncertainty continues.

Requests for Information

This report is designed to provide an overview of the District’s finances. Questions concerning any of the information found in this report or requests for additional information should be directed to the Basalt Regional Library District, 14 Midland Avenue, Basalt, CO 81621.

**Basalt Regional Library District
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balance to the Statement of Activities of Governmental Funds
For the year ended December 31, 2019**

| | | |
|--|----|---------|
| Net change in fund balance for governmental funds | \$ | 213,727 |
|--|----|---------|

The change in net assets reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlay as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

| | | |
|----------------------|---------------|-----------|
| Depreciation expense | \$ (357,395) | |
| Capital outlay | <u>92,357</u> | |
| | | (265,038) |

Repayment of principal on long-term debt is an expenditure in the governmental funds

| | | |
|----------------------|--|---------|
| Principal repayments | | 725,000 |
|----------------------|--|---------|

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources and revenues are not recognized until they become both measurable and available. In the Statement of Activities however, which is presented on the accrual basis revenues are recognized when earned and expenses and liabilities are reported regardless of when financial resources are available. In addition, interest and amortization on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. This adjustment combines the net changes of these balances.

1 Summary of Significant Accounting Policies

A. The Financial Reporting Entity

The Basalt Regional Library District (the “District”), Basalt, Colorado was incorporated as a special district under Colorado Revised Statutes to provide library services to Basalt and the surrounding areas of Eagle and Pitkin Counties. The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The financial statements of the District consist only of the funds and account groups of the District, a stand-alone government. Based on criteria set forth by GASB, there are no component units for which the District is financially accountable. The more significant of the District's accounting principles are described below.

B. Basis of Presentation, Basis of Accounting

Government-wide Statements: The statement of net position and the statement of activities display information about all of the activities of the District. These statements include the financial activities of the overall government, except for fiduciary activities. These statements distinguish between the governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. The District has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Financial Statements: The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds. The District does not have proprietary or fiduciary fund types.

B. Basis of Presentation, Basis of Accounting-(continued)

The District reports the following major governmental funds:

General Fund - This is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs, if any. Main sources of revenues are property and specific ownership taxes.

Capital Reserve Fund - The Capital Reserve Fund is used to account for the accumulation of resources from transfers for approved capital expenditures.

C. Measurement Focus, Basis of Accounting

Government-wide Financial Statements

The government-wide fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchanges, include property and specific ownership taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the period for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, specific ownership taxes, grants, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

C. Measurement Focus, Basis of Accounting-(continued)

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not recognize as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognize as an inflow of resources (revenue) until that time. Property taxes revenue that are related to a future period have been recorded as deferred inflows. Grants and entitlements received before eligibility requirements are met (e.g., cash advances) are recorded as deferred inflows. These amounts are deferred and will be recognized as an inflow of resources in the period that the amounts become available.

D. Assets, Liabilities, and Equity

Cash and cash equivalents- The District considers all cash on hand, demand deposits and short-term highly liquid investments with an original maturity of three months or less to be cash equivalents.

Property taxes- Property taxes are levied on December 22 and attach as a lien on property the following January 1. They are payable in full by April 30 or in two equal installments due February 28 and June 15. Property taxes levied in the current year and collected in the following year are reported as a deferred inflow of resources at December 31, net of an estimated uncollectible portion.

Allowance for doubtful accounts- The District considers all accounts receivable to be collectible and, accordingly, provides no allowance for doubtful accounts.

Capital assets- Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

D. Assets, Liabilities, and Equity-(continued)

Capital Assets

Depreciation is calculated using the straight-line method over the estimated useful lives. Capital assets acquired by capital lease are depreciated over the estimated useful lives and are included in depreciation expense. The estimated useful lives are as follows:

| | |
|----------------------------|-------------|
| Furniture and Fixtures | 7 -10 years |
| Equipment | 5-7 years |
| Buildings and Improvements | 40 years |

Compensated absences- The liability for compensated absences reported in the government-wide statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated at 100%, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Fund balances- The District classifies governmental fund balances as follows:

- *Non-spendable-* includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual requirements.
- *Restricted-*includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- *Committed-*includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority which is the Board of Directors.
- *Assigned-*includes spendable fund balance amounts that are intended to be used for specific purposes that are neither consider restricted or committed. Fund balance may be assigned by the Board of Directors or its management designee.
- *Unassigned-*includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Board of Directors has provided otherwise in its commitment or assignment actions.

D. Assets, Liabilities, and Equity-(continued)

Comparative data/reclassifications- Comparative amounts in total have been presented for the governmental fund financial statements. Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

E. Budget and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Budgets are required by state law for all governmental funds.
2. During September the proposed budget is submitted to the Board of Trustees for the fiscal year commencing the following January 1.
3. Prior to December 31, the budget is adopted and appropriations are authorized by resolution at the fund level for all funds. The legal level of budgeting control is at the individual fund level for all funds
4. Budgets are adopted on a basis consistent with the accounting basis of all funds, except that book donations and advance refunding are not budgeted.
5. Expenditures may not legally exceed appropriations at the fund level. The Board of Trustees may increase or decrease the budget and appropriations during the year within restrictions imposed by the District and laws of the State of Colorado. Budget amounts included in the financial statements are based on the final, legally amended budget.
6. Appropriations lapse at the end of the year, and the Board of Trustees may adopt supplemental appropriations during the year. For 2019, no supplemental appropriations were adopted.

2 Deposits with Financial Institutions and Investments

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must at least be equal to the aggregate uninsured deposits.

2 Deposits with Financial Institutions and Investments-(continued)

Custodial Credit: Risks -Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2019, none of the District's bank balances of \$98,088 were exposed to custodial credit.

Investments

At December 31, 2019 the District had the following investments:

| | <u>Maturities</u> | <u>Fair Value</u> |
|----------------|-------------------|-------------------|
| ColoTrust Plus | N/A | \$ 2,553,916 |

Interest rate risk - The District's investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments may not exceed a maturity date from purchase in excess of five years. The District has not experienced fair value losses.

Credit risk- Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest including obligations of the United States and certain U.S. government agency securities; certain international agency securities; general obligation and revenue bonds of U.S. local government entities; bankers' acceptances of certain banks; commercial paper; local government investment pools; written repurchase agreements collateralized by certain authorized securities; certain money market funds; and guaranteed investment contracts. The District's general investment policy is to apply the prudent-person rule: Prudence and protection of District funds are the primary criteria. All investments and bid requests for investments are predicated on liquidity, yield, safety and interest of the local economy. As of December 31, 2019, the District's investment in ColoTrust Plus, was rated AAAM by Standard and Poor's.

Concentration of credit risk- Investments must be in accordance with Colorado statutes and will be diversified. All of the District's investments are in ColoTrust.

4 Short-term Debt

The District had no short-term debt during the year ended December 31, 2019.

5 Long-term Debt

General Obligation Bonds - Series 2006 and 2012

On November 7, 2006, the District's electorate approved the issuance of \$11,000,000 in general obligation bonds, and an increase in the mill levy, for payment of the principal and interest on the bonds. The general obligation bonds are direct obligations and pledge the full faith and credit of the District.

In December of 2006, the District issued \$9,000,000 of General Obligation Bonds, Series 2006 for the acquisition and construction of a new library building. Additionally, the District issued \$485,000 in interest certificates. The interest rate for Series 2006 debt ranges from 3.625% to 4%.

The following are the schedules of required debt payments as of December 31, 2019 for the Series 2012 bonds:

6 Tax, Spending and Debt Limitations

Colorado voters passed an amendment to the State Constitution, Article X, Section 20 ("TABOR"), which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment is complex and subject to judicial interpretation. The entity believes it is in compliance with the requirements of the amendment. In 1995 voters approved a de-brucing ballot question allowing the district to retain the revenue it received through properly-assessed, voter-approved property taxes.

Basalt Regional Library District
Notes to the Financial Statements
December 31, 2019

6 Tax, Spending and Debt Limitations-(continued)

One of the requirements of TABOR is for emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefits increases. These reserves are required to be 3% or more of fiscal year spending (excluding bonded debt service). The District has reserved a portion of its December 31, 2019, year-end fund balance in the General Fund for emergencies as required under TABOR in the amount of \$47,615, which is the approximate required reserve at December 31, 2019.

On November 2, 2004, the District's electorate approved the following ballot question:

"Shall Basalt Regional Library District taxes be increased up to \$394,000 annually (for collection in calendar year 2005) and by such additional amounts raised annually thereafter by an ad valorem property tax mill levy imposed for District operations and maintenance at a rate of 1.14 mills (making the District's total mill levy for operations and maintenance 2.06 mills) to pay the costs of District operations and maintenance; and shall the revenue from such taxes constitute permanent voter-approved revenue changes within the meaning of Article X, Section 20 of the Colorado Constitution and an exception to the limitations set forth in Section 29-1-301 of the Colorado Revised Statutes?"

On November 7, 2006, the District's electorate approved the following ballot questions:

"Shall Basalt Library District taxes be increased up to \$175,000, annually (for collection in calendar year 2008) and by such additional amounts raised annually thereafter by an ad valorem property tax mill levy imposed at a rate of up to .55 mills for the costs associated with the operation of the new regional library facility including but not limited to replacement and upkeep of library furnishings and equipment, utilities, books and other library materials and support of library programs and services for the patrons, which increase shall be in addition to the mill levy currently imposed by the District; and shall the revenue from such taxes constitute permanent voter-approved revenue changes within the meaning of Article X, Section 20 of the Colorado Constitution and an exception to the limitations set forth in Section 29-1-3-01 of the Colorado Revised Statues.

"Shall Basalt Regional Library District debt be increased up to \$11,000,000 with a maximum repayment cost of up to \$17,943,600 and shall District taxes be increased up to \$931,000 annually for the purpose of: Purchasing Land within the town of Basalt and the constructing and equipping a new regional library facility.

6 Tax, Spending and Debt Limitations-(continued)

Such Debt to consist of the issuance and payment of general obligation bonds, which shall bear interest at a maximum net effective interest rate not to exceed 5.50% per annum and be issued dated and sold at such time or times, at such prices (at, above or below par) and in such manner and containing such terms, not inconsistent here within, as the board of trustees may determine; shall ad valorem property taxes be levied in any year, without limitation as to rate or amount, to pay the principal of, premium if any, and interest on such bonds as the same become due, which property tax levy shall not extend beyond the year in which the bonds are paid in full; and shall any earnings on the investment of the revenues from such taxes and on any proceeds of such bonds (regardless of amount) constitute a voter-approved revenue change within the meaning of Article X, Section 20 of the Colorado Constitution?"

On November 2016, the District electorate approved the following ballot question:

“SHALL BASALT REGIONAL LIBRARY DISTRICT TAXES BE INCREASED \$350,000 ANNUALLY FOR A LIMITED SEVEN-YEAR PERIOD (WITH SUCH VOTER AUTHORIZATION TO EXPIRE AFTER TAX COLLECTION YEAR 2023), THROUGH A TAX LEVY IMPOSED AT A RATE SUFFICIENT TO PRODUCE THE AMOUNT STATED ABOVE, WHICH TAXES SHALL BE USED FOR THE PURPOSE OF SUSTAINING AND MAINTAINING DISTRICT OPERATIONS AND SERVICES, AND BUILDING RESERVES FOR SCHEDULED CAPITAL MAINTENANCE?”

7 Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintained membership with the following pool and obtained commercial coverage for the above risks.

Colorado Special Districts Property and Liability Pool

The District participates in the Colorado Special Districts Property and Liability Pool. The Pool was formed by an intergovernmental agreement to provide public officials, property, general, and automobile liability coverage for claims up to \$1,000,000, except if the claim falls within the governmental immunity statute, then the coverage is \$150,000 per person and a \$600,000 aggregate claim. The Pool is reinsured for 80% of the first \$250,000 of all claims and 100% for claims in excess of \$250,000. The District may be required to make additional contributions in the event aggregate losses incurred by the Pool exceed amounts recoverable from reinsurance contracts. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula. Any settled claims are not expected to exceed coverage.

8 Retirement Plan

Effective June of 2005, the employees of the District were eligible to enter into a defined contribution plan through TIAA CREFF, a retirement fund administrator. The district will match up to 5% of the employee's contributions under the plan.

9 Commitments and Contingencies

If the District does not meet certain safe harbor expenditure rules set forth by the IRS they may be subject to a rebate payment to the IRS equal to the difference between the actual and the allowable yield on the investment of the tax exempt bond issue proceeds.

10 Internal Balances and transfers

Internal balances between fund types for the year ended December 31, 2019, were as follows:

| | Balances In | Balances Out |
|----------------------|------------------|------------------|
| Internal balances | | |
| General Fund | \$ 48,980 | \$ - |
| Debt Service Fund | - | 3,617 |
| Capital Reserve Fund | - | 45,363 |
| | <u>\$ 48,980</u> | <u>\$ 48,980</u> |

Budgeted transfer was made of \$40,000 from the General Fund to the Capital Reserve Fund for future capital outlays.
