INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Chaffee County, Colorado as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Chaffee County, Colorado, as of December 31, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-13 and 47-49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Chaffee County, Colorado's basic financial statements. The combining and individual nonmajor fund financial statements and miscellaneous schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and miscellaneous schedules and the schedule of expenditures of federal awards are the responsibility of management and are derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the combining and individual nonmajor fund financial statements and miscellaneous schedules and the schedule of

expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, I have also issued my report dated May 12, 2020, on my consideration of Chaffee County, Colorado's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Chaffee County, Colorado's internal control over financial reporting and compliance

Scott Wright

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Chaffee County, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of Chaffee County for the fiscal year ended December 31, 2019.

Financial Highlights

- The assets and deferred outflows of the County exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$39,631,542 (net position). Of this amount, \$9,888,908 is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors in accordance with the County's fund designation and fiscal policies.
- The County's total net position increased by \$2,322,1560.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$19,852,847, an increase of \$1,947,334 in comparison with the prior year. Approximately thirty-five percent (35%) of this total amount, or \$6,867,416, is available for use within the County's policies (unassigned fund balance).
- At the end of the current fiscal year, the unassigned fund balance for the general fund represented forty-three percent (43%) of total general fund expenditures and other financing uses.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private sector business.

The *statement of net position* presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include

general government, community and economic development, public safety, health and welfare, public works, parks and recreation, and airport operations. The business-type activities of the County include solid waste landfill operations, emergency services and sewer debt recovery operations.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also the Chaffee County Facilities Corporation (Facilities Corporation) which was created with the sole purpose of facilitating County financings. The Facilities Corporation is included in the County's financial statements because the County has financial accountability for the Facilities Corporation and they, in turn, are fiscally dependent upon the County. The Facilities Corporation activities are reported as a debt service fund.

The government-wide financial statements can be found on pages 15-17 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflow and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, road and bridge fund, health and human services fund, and capital expenditures fund, all of which are considered to be major funds. Data from the other nine nonmajor governmental funds (airport fund, conservation trust fund, retirement fund, contingent reserve fund, asset replacement fund, lodging visitors bureau fund, animal shelter fund, marijuana excise tax fund, and Chaffee County Facilities Corporation fund) are combined into a single, aggregate presentation.

Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report. The basic governmental fund financial statements can be found on pages 18-21 of this report.

Proprietary funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same function presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its solid waste landfill operations, emergency services, and sewer debt recovery operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses an internal service fund to account for the cost of insurance and estimated damaged property claims allocated to County departments. Because this cost allocation predominately effects governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 22-25 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Chaffee County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 26 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-45 of this report.

Required Supplemental Information. In addition to the basic financial statements and accompanying notes, this report also presents certain other required supplemental information. The County adopts an annual appropriated budget for its general fund and major special revenue funds. Budgetary comparison statements have been provided for the general fund, road and bridge fund, and health and human services fund to demonstrate compliance with these budgets and can be found on pages 47-49 of this report.

Other Supplemental Information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented under other supplemental information immediately following the required supplemental information on pages 52-58. Individual fund statements and schedules and other miscellaneous schedules can also be found in this section on pages 59-88 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Chaffee County, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$39,632,078 as of December 31, 2019.

A large portion of the County's net position (43%) reflects its investment in capital assets (land, construction in progress, buildings and improvements, vehicles, and machinery and equipment), net of any related debt used to acquire those assets that is still outstanding. The County uses these assets to provide services to citizens, consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (32%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position* (\$9,888,908) may be used to meet the County's ongoing obligations to citizens and creditors.

Fund Balances

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources at the end of the year.

The County's governmental funds reported combined ending fund balances of \$19,852,848 an increase of \$1,947,334 from the prior year. Of this total, \$12,594,936 is restricted due to

external limitations on its use, such as by debt covenants and legal restrictions. A total of \$135,773 is considered unspendable because it has been used for prepaid items (inventories). A total of \$254,722 has been committed or assigned meaning there are limitations resulting from its intended use, such as construction of capital assets, and for other purposes. The remaining \$6,867,416 is unassigned and can be used for any lawful purpose.

The general fund is the main operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$6,867,416. The fund balance of the general fund increased by \$258,575 or 3.8%, in 2019. As a measure of the general fund's liquidity, it can be useful to compare unassigned fund balances to total fund expenditures. Unassigned fund balance represents 49.1% of total fund expenditures or the equivalent of almost 6 months of operations. The County's fund balance provides the resources necessary to be financially adaptable to unforeseen circumstances.

Capital Asset and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of December 31, 2019, totals \$22,993,373 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings and improvements, vehicles, and machinery and equipment (see table below). The total increase in the County's net capital assets for the current fiscal year was 1.3% (a 3.5% decrease for governmental activities and a 34.2% increase for business-type activities).

Major capital assets purchased or constructed during the current fiscal year includes vehicles for the Coroner (\$51,508), Sheriff (\$143,619), DHS (\$81,810), Road and Bridge (\$68,566), Weed Control (\$35,495), and Extension (\$16,000). Equipment purchased included a video surveillance system for the Jail (\$146,909), a John Deere utility tractor for the Airport (\$86,438), a Western Star dump truck (\$165,189) and a water truck for Road & Bridge (\$31,200), a Crambo 6000 shredder (\$825,000) and a litter vacuum (\$26,792) in the Waste Disposal fund, and a Chevrolet 4500 ambulance (\$210,877) for Emergency Services.

County's Capital Assets (net of depreciation)

Additional information on the County's capital assets can be found in Notes 4 on pages 38-39 of this report.

Long-term debt. At the end of the current fiscal year, the County had total long-term debt outstanding in the amount of \$6,459,556. Of this amount, \$6,045,000 are Certificates of Participation which evidence assignments of proportionate interests in the right to receive payments pursuant to annually renewable lease agreements. The remainder of the County’s debt, \$414,556, represents bonds secured solely by specified revenue sources (i.e. revenue bonds).

County’s Outstanding Debt

 Total	 <u>\$ 6,045,000</u>	 <u>\$ 6,395,000</u>	 <u>\$ 425,525</u>	 <u>\$ 436,015</u>	 <u>\$ 6,459,556</u>	 <u>\$ 6,820,525</u>

The County’s total outstanding debt decreased by a net \$360,969 during the current fiscal year. The County issued no new debt during the fiscal year. All scheduled debt service payments on long-term debt obligations were made during the current fiscal year.

Additional information on the County’s long-term debt can be found in Note 4 on pages 40-41 of this report.

Requests for Information

This financial report is designed to provide a general overview of the County’s finances for all those with an interest in the County’s fiscal management. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chaffee County Finance Department, 132 Crestone, Salida, CO 81201.

*Amounts reported for governmental activities in the
Statement of Net Position are different because:*

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds:

- Capital assets 36,699,056
- Accumulated depreciation (17,690,848)
- 19,008,208

Some liabilities, including bonds, notes and leases payable, and compensated absences are not due and payable in the current period and therefore are not reported in the governmental funds:

- Certificates of Participation payable (5,952,898)
- Unamortized bond premium (209,328)
- Compensated absences payable (776,116)
- (6,938,342)

Accrued interest payable is recognized for governmental activities but is not due and payable in the current period and therefore is not reported as a liability in the governmental funds. (19,527)

The internal service fund is used by management to charge the cost of insurance to individual funds. The assets and liabilities of the internal service fund is included in governmental activities in the Statement of Net Position. 530,905

Net Position of Governmental Activities \$ 32,434,091

Net Change in Fund Balances - Total Governmental Funds \$ 1,947,334

***Amounts reported for governmental activities in the
Statement of Activities are different because:***

Governmental funds report capital outlays as expenditures. However, for governmental activities, those capital outlays other than the noncapitalizable items, are reported in the Statement of Activities and the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

- Capital Outlay	1,246,598
- Depreciation	<u>(1,349,949)</u>
	<u>(103,351)</u>

Repayment of bond and lease principal are reported as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position:

- Certificates of Participation retirements	<u>350,000</u>
---	----------------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

- Change in compensated absences payable	(63,872)
- Change in accrued interest payable on outstanding bonds	1,166
- Amortization of deferred gain on refunding and bond premium	18,235
	<u>(44,471)</u>

The internal service fund is used by management to charge the cost of insurance to individual funds. The net income of the internal service fund is included in governmental activities.

59,173

Change in Net Position of Governmental Activities \$ 2,208,685

CHAFFEE COUNTY, COLORADO

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2019

The financial statements of Chaffee County, Colorado (County) have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) as applied to governmental entities. The Governmental Accounting Standards Board (“GASB”) is the accepted standard-setting board for establishing governmental accounting and financial reporting principles. The following notes are an integral part of the County’s basic financial statements.

Note 1. Summary of Significant Accounting Policies

A. Financial Reporting Entity

As required by generally accepted accounting principles, these financial statements present Chaffee County, Colorado (the primary government) and its component units, entities for which the County is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the County’s operations and data from these units are combined with data of the County. The County’s blended component units have a December 31 year-end.

Primary Government. Chaffee County was formed in 1879. The governing body of the County is a three-member Board of County Commissioners. The Board appoints two individuals as co-administrators to administer its policies and authority. Five other elected officials have certain statutory authority specific to their offices. These offices are the Clerk and Recorder, Treasurer, Sheriff, Coroner, and Assessor. The County’s services include general administration, community and economic development, public safety and courts, roads and bridges, parks and recreation, and health and welfare services. In addition, the County operates three enterprise activities: a solid waste landfill, emergency services, and a sewer debt recovery operation.

Blended Component Units.

Chaffee County Facilities Corporation

The Chaffee County Facilities Corporation (Corporation) was created as a nonprofit corporation in 2001 in order to assist in the financing of various County facilities. The Corporation’s activities are reported as a debt service fund. The Corporation is included in the County’s financial statements because the Corporation is fiscally dependent upon the County. This component unit does not issue separate financial statements.

Chaffee County Sewer Enterprise (Johnson Village J.V.) Fund

The Chaffee County Sewer Enterprise Fund was created to finance and construct a wastewater distribution system in an area of the County known as “Johnson Village”.

Other Related Entity. The Public Trustee is a State statutorily-mandated position, appointed by the Board of County Commissioners, but whose financial transactions are independent of the County. However, all expenditures and associated revenues relating to the operations of the County Office of the Public Trustee are included in the General Fund.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements. The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the County (the primary government) and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on fees and charges for support. Internal service fund activity has been eliminated to avoid “doubling up” revenues and expenses.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or business segment are offset by program revenues and helps identify the extent to which each is self-financing or draws from the general revenues of the County. Direct expenses are those that are clearly identifiable with a specific function or business segment. Program revenues include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and, 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or business segment. Taxes and other items not appropriate to include among program revenues are reported instead as general revenues.

Fund Financial Statements. Fund financial statements report detailed information about the County with the focus on major funds rather than on reporting funds by type. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Measurement Focus and Basis of Accounting. The government-wide financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements. Revenues are recognized when earned and expenses are recognized when the liability is incurred regardless of the timing of related cash flows. Depreciation is computed and recorded as an operating expense. Expenditures for property, plant and equipment are shown as increases in assets and redemption of bonds and notes are recorded as a reduction in liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recorded when susceptible to accrual, i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (60 days). The major sources of revenue which are susceptible to accrual are property taxes, tourism and sales taxes, state share taxes, and certain intergovernmental revenues. Expenditures generally are recorded when the liability is incurred, as under full accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Financial Statement Presentation – Fund Accounting. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts which are segregated for the purpose of accounting for specific activities. The County uses funds to report results of operations and financial position, and demonstrate compliance with legal, contractual and regulatory requirements.

The County's major governmental funds are:

- *General Fund* – This is the County's primary operating fund. It is used to account for all activities of the County not required to be accounted for in another fund.
- *Road and Bridge Fund* – This fund is used to account for the cost of maintenance and construction of County roads and bridges. Colorado counties are required to maintain a road and bridge fund and to allocate a portion of the county's road and bridge property tax levy back to municipalities located within their county.
- *Health and Human Services Fund* – This fund is used to account for social service programs administered by the County under state and federal regulations. Programs include Medicaid, food assistance, foster care programs, and temporary assistance to needy families. Colorado counties are required by law to maintain a health and human services fund.
- *Capital Expenditures Fund* – This fund accounts for the acquisition or construction of major capital facilities for various departments and funds of the County

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all the County's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The County's proprietary funds are:

- *Waste Disposal Fund* – This fund is used to account for the activities involved in operating the County's solid waste landfill.

- *Emergency Services Fund* – This fund is used to account for the operations of the County’s ambulance and related emergency services.
- *J.V. Sewer Fund* – This fund (a blended component unit of the County) is used to account for the collection of monies and subsequent payment of debt service related to a wastewater distributions system constructed in an area of the County known as “Johnson Village”.

The County’s only internal service fund is the Insurance Fund. This fund charges other County funds for their allocated cost of insurance premiums and estimated damaged property claims not covered by insurance.

The County’s fiduciary fund is an Agency Fund used to account for monies held on behalf of other governments, agencies and County departments and for property taxes collected on behalf of the other governments or agencies.

D. Budgets

Budgets are adopted by the County on a basis consistent with generally accepted accounting principles for all funds, with the exception of proprietary funds which are budgeted on the modified accrual basis of accounting. The County follows statutory guidelines regarding preparation of the annual budget and follows these procedures in establishing the budgetary data as reflected in these financial statements:

- The County budget officer is responsible for preparing a tentative budget, which is submitted to the Board of County Commissioners prior to October 15th. The budget includes proposed expenditures and the means of financing them. The budget is prepared by fund and department and includes information on the prior year, current estimates and requested appropriations and estimated revenues for the upcoming year. Public hearings are held by the Board to obtain taxpayer comments. The budget is legally adopted by the Board prior to December 31.
- Once adopted, changes may be made to budgets by adoption of supplemental amendments by resolution of the Board. During the year ended December 31, 2018, one such amendment was adopted by the Board.
- Expenditures may not legally exceed budgeted appropriations at the fund level. Budgetary comparisons in the accompanying combined financial statements and in the individual fund statements are presented at a lower-than-required level of control to facilitate detailed financial analysis.

E. Assets, Liabilities, and Deferred Inflows of Resources

Cash and Investments. Cash and investment management is administered by the County Treasurer in accordance with Colorado Revised Statutes. The County concentrates the cash

resources of its various funds in order to facilitate the management of cash. The balance in this concentration account is available to meet the County's current operating requirements. Cash resources in excess of current requirements is invested in various interest-bearing deposits and securities.

Colorado State statutes authorize the County to invest its excess funds in direct U.S. Government securities, agencies, bonds and other obligations of states and political subdivisions, corporate bonds, money market mutual funds, and local government investment pools. Investments are stated at fair value on the balance sheet except for money-market investments that have a remaining maturity at time of purchase of one year or less. Investment income is recognized when earned.

Inventories. Inventory of the County consists of aviation fuel for airport operations and consumable supplies associated with road and bridge operations. Road and bridge inventory is valued at average cost using the first-in/first-out (FIFO) method. Road and bridge inventory purchases are recorded as expenditures when purchased rather than when consumed and inventory is adjusted at year-end based on actual physical counts. An offsetting reserve of fund balance is reported in the Road and Bridge Fund which indicates that the amount of inventory reported is not available for expenditure as a component of net position.

Aviation fuel inventory is valued at cost using the FIFO method. Aviation fuel purchases are recorded as expenditures when consumed rather than when purchased.

Restricted Assets. Restricted assets in the amount of \$329,700 are reported in the Chaffee County Facilities Corporation in required debt service reserve accounts for the Series 2012, Series 2018A and Series 2018B Certificates of Participation. These accounts are all held in the trust department of UMB Bank.

When both restricted and unrestricted resources are available for use, it is the County's policy to use unrestricted resources first, then restricted, as they are needed.

Capital Assets. Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. It is the County's policy to capitalize expenditures with a cost greater than \$5,000 and an estimated useful life of more than one year. All purchased capital assets are stated at cost or estimated historical cost if actual historical records are not available. Donated capital assets are recorded at their estimated fair market value at the date of contribution. Major outlays for capital improvement projects are capitalized as projects are completed.

The costs of normal maintenance and repair that do not add to the value of the asset or extend the estimated useful life are not capitalized but charged to operations as incurred.

Depreciation of property, plant and equipment is computed using the straight-line method over the following estimated useful lives:

Buildings and Improvements	15-50 years
Improvements Other Than Buildings	10-50 years
Infrastructure	40-50 years
Vehicles	3-20 years
Machinery and Equipment	5-20 years

Deferred Outflows / Inflows of Resources. In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County currently only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the life of the refunding debt.

In addition to liabilities, the government-wide statement of net position and governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has two types of items that qualify for reporting in this category: deferred gain on refunding of debt and unavailable revenue. In the government-wide statement of net position *deferred gain on refunding of debt* is the result of the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the life of the refunding debt. The other type of item, *unavailable revenue*, is reported in the government-wide statement of net position and governmental funds balance sheet. The County reports *unavailable revenues* from one source: property tax. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Long-term Obligations. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of any applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other

financing uses. Issuance costs, whether or not withheld from the actual debt proceeds are reported as debt service expenditures.

F. Property Taxes

Property taxes are levied on or before December 15 of each year by the Board of County Commissioners. The levy is based on the assessed valuation of property located within the County as determined by the County Assessor generally as of January 1 of each year. The County Treasurer collects the property taxes during the ensuing calendar year for both the County and other taxing entities within the County.

Property taxes are payable in full by April 30, or if in two equal installments, by February 28 and June 15. Delinquent taxpayers are notified in August and generally sales of tax liens on delinquent properties are held in November or December. Property taxes, net of estimated uncollectible taxes, are recorded as receivable in the year levied and offset to deferred revenue since they typically do not meet the availability criterion.

G. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and certain sick pay benefits. The liability for compensated absences is recorded as a current liability in the government-wide financial statements. In the fund financial statements governmental funds report a compensated liability payable only if they have matured, for example, as a result of employee resignations and retirements, while the proprietary funds report the liability as it is incurred. Within the governmental funds, the General Fund typically is used to liquidate any liabilities for compensated absences.

H. Fund Equity

The following fund balance classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance – amounts that are not in a spendable form (such as inventory or prepaid/deferred charges) or are required to be maintained intact;
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance – amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.
- Assigned fund balance – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or an official or body to which the governing body delegates the authority;

- Unassigned fund balance – amounts that are available for any purpose; positive amounts are reported only in the general fund.

The County establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. Assigned fund balance is established by the Board of County Commissioners through adoption or amendment of the budget as intended for a specific purpose (such as the purchase of fixed assets, construction, debt service, or other purposes).

When fund balance resources are available for a specific purpose in more than one classification, it is the County’s policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. The County considers all unassigned fund balances to be “reserves” for future operations or capital replacement as defined within Article X, Section 20 of the Constitution of the State of Colorado (see Note 8).

I. Statements of Cash Flows

For purposes of the statement of cash flows, the County considers all highly liquid investments with a maturity when purchased of three months or less and all local government investment pools to be cash equivalents.

J. Debt Costs

Unamortized premiums of \$209,328 (net of accumulated amortization of \$116,796) are reflected in noncurrent liabilities. Premiums are amortized over the remaining life of the related debt issue using the effective interest method.

Note 2. Cash and Investments

Cash and investments as of December 31, 2019 are classified in the accompanying financial statements as follows:

Cash and Investments	\$ 21,726,386
Restricted Assets – Cash and Investments	329,700
Cash and Investments – Agency Fund	<u>1,018,279</u>
Total	<u>\$ 23,074,365</u>

Cash and investments as of December 31, 2019 consist of the following:

Cash on Hand	\$ 6,479
Deposits With Financial Institutions	2,207,457
Local Government Investment Pools	15,411,474
Held by Bond Trustee	329,700
Investments	<u>5,119,255</u>
Total	<u>\$ 23,074,365</u>

Investments Authorized by State Statute

The table below identifies the investment types that are authorized by Colorado state statutes.

U.S. Treasury Obligations
Federal Agency and Federal Instrumentality Securities
Repurchase Agreements
Commercial Paper
General Obligation Debt
Revenue Obligation Debt
Local Government Investment Pools
Time Certificates of Deposit

Fair Value of Investments

The County measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

At December 31, 2019, the County had the following recurring fair value measurements:

<u>Investments Measured at Fair Value</u>	<u>Total</u>	<u>Fair Value Measurements Using</u>		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
U.S. Government Treasury Securities	\$1,833,939	\$1,833,939	\$ -	\$ -
U.S. Government Agency Securities	2,925,899	2,925,899	-	-
Negotiable Certificates of Deposit	<u>359,417</u>	<u>-</u>	<u>359,417</u>	<u>-</u>
Total	<u>\$5,119,255</u>	<u>\$4,759,838</u>	<u>\$ 359,417</u>	<u>\$ -</u>

<u>Investments Measured at Net Asset Value</u>	<u>Total</u>
Colotrust	\$12,507,961
CSAFE	<u>2,903,513</u>
Total	<u>\$15,411,474</u>

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities classified in Level 2 are valued using the following approaches:

- U.S. Government treasury securities, U.S. Government agency securities, and commercial paper: quoted prices for identical securities in markets that are not active;
- Corporate and municipal bonds: quoted prices for similar securities in active markets;
- Repurchase agreements, negotiable certificates of deposit, and collateralized debt obligations: matrix pricing based on the securities' relationship to benchmark quoted prices.

The CSAFE Local Government Investment Pool has elected to measure all of its investments at amortized cost. There are no limitations or restrictions on participant withdrawals.

At December 31, 2019, unrealized gains were \$33,782 which reflects changes in the fair market value of investments.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair market value to changes in market interest rates. The County manages its exposure to interest rate risk is by purchasing a combination of shorter and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the County's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the County's investments by maturity:

<u>Investment Type</u>	<u>Carrying Amounts</u>	<u>Weighted Average Maturity To Maturity (in Years)</u>
U.S. Government Treasury Notes	\$ 1,833,939	1.299
Federal Home Loan Bank	1,421,094	1.816
Federal Farm Credit Bank	596,669	0.636
Federal Home Loan Mortgage Corp.	908,136	1.143
Local Government Investment Pools	15,411,474	NA
Negotiable Certificates of Deposit	359,417	0.97

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. U.S. Government securities explicitly or implicitly guaranteed by the U.S. Government are not considered to have credit risk exposure, including U.S. Treasury securities, securities of the Government National Mortgage Association, Federal Farm Credit Bank, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, and Federal National Mortgage Association.

Presented below is the credit rating for other investments of the County as of December 31, 2019.

<u>Ratings</u> <u>Standard & Poor's</u>	<u>Local Government</u> <u>Investment Pools</u>
AAAm	<u>\$15,411,474</u>

Concentration of Credit Risk

The County did not have any investments in any one issuer (other than U.S. Government Treasury obligation and local government investment pools) that represented 5% or more of total County investments.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the County would not be able to recover its deposits or would not be able to recover collateral securities that are in the possession of an outside party.

The Colorado Public Deposit Protection Act (PDPA) requires that cash be deposited in eligible public depositories and that deposits in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds with the County being a named participant in the single institution collateral pool. The minimum pledging requirement is 102% of the uninsured deposits. The Colorado State Banking Board verifies the market value at least monthly. Bank assets (usually securities) are required by PDPA to be delivered to a third-party institution for safekeeping and pledged to the Colorado Division of Banking. Based on the above, the Colorado State Auditor has concluded that there is no custodial risk for public deposits collateralized under PDPA.

Local Government Investment Pools

As of December 31, 2019, the County held investments in the Colorado Local Government Liquid Asset Trust (COLOTRUST) and Colorado Surplus Asset Trust (CSAFE), collectively referred to as the Trusts, respectively. Local government investment pools are trusts established for local government entities in Colorado to pool surplus funds.

The State Securities Commissioner administers and enforces all State statutes governing the Trusts. The Trusts operate similarly to a money market fund and each share is equal in value to \$1.00. A designated custodial bank serves as custodian pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trusts' investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the trusts.

The Trusts may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies.

Note 3. Capital Assets

Capital asset activity for the year ended December 31, 2019 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Governmental Activities:				
Capital Assets, Not Being Depreciated:				
Land	\$ 1,886,886	\$ -	\$ -	\$ 1,886,886

Depreciation expense was charged to functions/programs of the County as follows:

Governmental Activities:	
General Government	\$ 343,826
Community / Economic Development	17,886
Public Safety	159,596
Public Works	253,609
Health and Welfare	64,620
Parks and Recreation	175,224
Airport Operations	<u>335,188</u>
Total Depreciation Expense – Governmental Activities	<u>\$ 1,349,949</u>
Business-type Activities:	
Solid Waste Landfill	\$ 194,732
Emergency Services	361,738
Sewer Enterprise	<u>17,765</u>
Total Depreciation Expense – Business-type Activities	<u>\$ 574,235</u>

Note 4. Long-term Debt

Revenue Bonds. The County has issued bonds through the United States Department of Agriculture – Rural Development in order to finance the construction of a sewage collection line to be used by customers of a local sanitation district, Buena Vista Sanitation, in an area of the County known as Johnson Village. In order to repay the debt, the Sewer Enterprise entered into an intergovernmental agreement with the Buena Vista Sanitation District whereby the Sewer Enterprise would develop a monthly surcharge, subject to annual revisions, to be imposed on the property owners in Johnson Village who are connected to the sewage collection line. Revenue bonds outstanding at December 31, 2019, are as follows:

<u>Purpose</u>	<u>Interest Rate</u>	<u>Amount</u>
Sewage Collection Line	4.50%	<u>\$ 414,556</u>

Annual debt service requirements to maturity for revenue bonds outstanding at December 31, 2018, are as follows:

<u>Year Ending December 31</u>	<u>Business-type Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2020	\$ 11,466	\$ 18,528
2021	11,987	18,007
2022	12,533	17,461
2023	13,103	16,891
2024	16,295	13,699
2025-2029	78,435	71,535
2030-2034	97,981	51,989
2035-2039	122,398	27,572
2040-2042	<u>50,358</u>	<u>9,630</u>
Total	<u>\$ 414,556</u>	<u>\$ 245,312</u>

Certificates of Participation. In 2001, the Chaffee County Facilities Corporation issued Certificates of Participation in order to finance the cost of constructing County jail facilities. The Certificates evidence assignments of proportionate interest in rights to receive payments pursuant to an annually terminable Lease Purchase and Sublease Agreement, and entered into between the Facilities Corporation as lessor, and the County as lessee. On March 18, 2012, the County issued \$3,270,000 of Series 2012 Refunding Certificates of Participation with interest rates ranging from 2.0%-4.0% in order to refund the outstanding 2001 Certificates of Participation in the aggregate principal amount of \$3,290,000. The refunding resulted in an economic gain of \$230,613 with a cash flow savings of \$372,855.

In 2009, the County issued Certificates of Participation in order to finance the County’s share of the acquisition and renovation of a Community Services Complex. On May 30, 2018 the County issued \$1,395,000 of Series 2018A taxable Refunding Certificates of Participation with interest rates ranging from 3.417%-4.05% in order to refund the outstanding 2009 Certificates of Participation in the aggregate principal amount of

\$1,490,000. The refunding resulted in an economic gain of \$32,567 with a cash flow savings of \$265,786.

On May 30, 2018 the County issued \$3,920,000 of Series 2018B Certificates of Participation in order to finance the acquisition, construction, installation and equipping of various public improvements.

Certificates of Participation outstanding at December 31, 2019, are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
General Government – Refunding (Jail Facility)	2.000% - 4.000%	\$ 730,000
General Government – Refunding (Community Services Complex)	3.417% - 4.050%	1,395,000
General Government – Public Improvements	3.000% - 4.000%	<u>3,920,000</u>
		<u>\$ 6,045,000</u>

Annual debt service requirements to maturity for Certificates of Participation outstanding at December 31, 2019 are as follows:

<u>Year Ending December 31</u>	<u>Governmental Activities</u>	
	<u>Principal</u>	<u>Interest</u>
2020	\$ 360,000	\$ 234,319
2021	370,000	219,919
2022	255,000	205,119
2023	265,000	196,405
2024	270,000	186,953
2025-2029	1,560,000	772,577
2030-2034	1,925,000	445,000
2035-2037	<u>1,040,000</u>	<u>59,900</u>
Total	<u>\$ 6,045,000</u>	<u>\$ 2,320,192</u>

Changes in Long-term Liabilities. Long-term liability activity for the year ended December 31, 2019, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental Activities:					
Certificates of Participation	\$ 6,395,000	\$ -	\$ 350,000	\$ 6,045,000	\$ 360,000
Bond Premium	225,422	-	16,094	209,328	16,554
Compensated Absences	<u>712,244</u>	<u>63,872</u>	<u>-</u>	<u>776,116</u>	<u>776,116</u>
Total Governmental Activity					
Long-term Liabilities	<u>\$ 7,332,666</u>	<u>\$ 63,872</u>	<u>\$ 366,094</u>	<u>\$ 7,030,444</u>	<u>\$ 1,152,670</u>
Business-type Activities:					
Revenue Bond	<u>\$ 425,525</u>	<u>\$ -</u>	<u>\$ 10,969</u>	<u>\$ 414,556</u>	<u>\$ 11,466</u>
Total Business-type Activity					
Long-term Liabilities	<u>\$ 425,525</u>	<u>\$ -</u>	<u>\$ 10,969</u>	<u>\$ 414,556</u>	<u>\$ 11,466</u>

Note 5. Interfund Receivables, Payables and Transfers

Interfund activities represent transactions between different funds within the County.

<u>Fund</u>	Transfers <u>In</u>	Transfers <u>Out</u>
General Fund	\$ 641,700	\$ 1,979,680
Road and Bridge Fund	970,450	16,000
Health and Human Services Fund	-	80,000
Airport Fund	140,000	-
Conservation Trust Fund	-	65,000
Retirement Fund	-	450,000
Contingency Reserve Fund	40,000	-
Asset Replacement Fund	309,270	-
Lodging Visitors Bureau Fund	-	2,700
Chaffee County Facilities Corporation	594,300	-
Capital Expenditures Fund	150,346	-
Waste Disposal Fund	-	34,000
Emergency Services Fund	<u>-</u>	<u>218,686</u>
Total	<u>\$ 2,846,066</u>	<u>\$ 2,846,066</u>

Note 6. Employee Retirement Plan

The County participates in the Colorado County Officials and Employee Retirement Association (CCOERA), a multi-employer defined contribution retirement plan, of which there were 217 County participants as of December 31, 2019. A defined contribution pension plan has terms that specify how contributions to an individual’s account are to be determined rather than the amount of pension benefits the individual is to receive. In a defined contribution plan, the pension benefits a participant will receive depend only on the amount contributed to the participant’s account, earnings on investments of those contributions, and forfeitures of other participant’s benefits that may be allocated to the participant’s account. The seven-member Governing Board of the Association makes all necessary rules and is responsible for the administration of the funds in the Retirement Plan.

Employees are eligible to participate in CCOERA after 6 months of employment and most work at least 20 hours per week. Eligible employees and the County each contribute an amount equal to 6% of the employee’s base salary each month. Employees may contribute up to an additional 10% of base salary on an after-tax basis. The County does not match these additional contributions. During the year there were no differences between contribution requirements and contributions actually made by plan participants or the County.

Employees are fully vested after five years of service. In addition, if an employee reaches normal retirement age, dies, or becomes totally and permanently disabled his account becomes fully vested regardless of length of service. Forfeitures by employees who leave employment before being fully vested are applied to reduce matching employer

contributions. Forfeitures totaling \$42,681 were used in 2019 to reduce matching employer contributions. Contributions made by employees and the County for the three years ended December 31, 2019, are as follows:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Employee Contributions	\$ 572,570	\$ 567,172	\$ 420,440
County Contributions	\$ 572,570	\$ 567,172	\$ 420,440

Both the County and the covered employees each made the required 6% contributions to the plans. There are no liabilities for benefits beyond the County’s matching payments. No changes in the various plan’s provisions occurred in 2019.

Note 7. 457 Deferred Compensation Plan

The County offers its full-time employees an optional supplemental deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is administered by CCOERA and allows eligible participants the opportunity to accumulate additional retirement savings with certain tax advantages. Deposits into the 457 plan are not subject to state or federal income taxes at the time of deposit, and earnings on these deposits are deferred until withdrawn. As of December 31, 2019, there were 37 participants in the 457 plan.

Note 8. Commitments and Contingencies

Litigation. According to the County Attorney for Chaffee County, neither she nor any other legal counsel have represented or given substantive attention to any material loss contingencies of the County coming within the scope of the County’s legal representation letter to her dated April 27, 2020.

Tax, Spending and Debt Limitations. Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer’s Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments. County officials believe they are in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The emergency reserve balance at December 31, 2019 totaled \$755,968.

Prior to 2008, voters within the County approved the County's request to retain its excess revenue for fiscal year spending. As such the fiscal year spending limitations and refunding of excess revenue to its citizens as defined by this amendment no longer apply. However, the County remains subject to other provisions of this amendment.

Note 9. Risk Management

County Worker's Compensation Pool. The County is exposed to various risks of loss related to injuries of employees while on the job. The County is a member of the County Workers Compensation Pool (CWCP), a public entity risk pool currently operating as a common risk management and insurance program for member counties. The intergovernmental agreement of formation of CWCP provides that the Pool will be financially self-sustaining through member contributions and additional assessments, if necessary, and that the Pool will purchase insurance through commercial companies for members' claims in excess of specified self-insured retention, which is determined each policy year.

Colorado Counties Casualty and Property Pool. The County is exposed to various risks of loss related to torts or property and casualty losses. Therefore the County joined together with other Colorado counties to form the Colorado Counties Casualty and Property Pool (CAPP). CAPP is a public entity risk pool that provides property, general and automobile liability and public officials coverage to its members. The intergovernmental agreement of formation of CAPP provides that the Pool will be financially self-sustaining through member contributions and additional assessments, if necessary, and that the Pool will purchase insurance through commercial companies for members' claims in excess of specified self-insured retention, which is determined each policy year.

Note 10. Landfill Closure and Post-Closure Care Cost

State and federal laws and regulations require the County to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The County is required to maintain, in written documented form, current cost estimates to close its landfill site and to conduct post-closure care of this site. Financial assurance is required to be established in amounts sufficient to ensure payment of such costs. Chaffee County uses the "Local Government Financial Test" as its financial mechanism to financially assure full payment of all closure, post-closure, and if applicable, corrective action estimated costs. Although the closure and post-closure costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

The landfill closure and post-closure care liability at December 31, 2019 is \$200,567. This liability consists of closure and post-closure cost of \$89,691 and \$110,876, respectively, and

represents the cumulative amount reported to date based on the use of approximately nine and eleven hundredths of one percent (9.11%) of the estimated capacity of the landfill.

The County will recognize the remaining estimated costs of closure and post-closure care of approximately \$2,001,930 as the remaining estimated capacity of the landfill is used. Closure costs are based on an estimate of the closure cost in 2019 dollars as adjusted for inflation. Post-closure costs are calculated based on the present value in 2019 dollars of the future annual cost to perform post-closure care over a ninety-nine year period. Actual costs may be higher or lower due to unknown factors such as changes in technology or regulations. It is estimated that the County landfill has a remaining useful life of ninety-two (92) years.

OTHER SUPPLEMENTAL INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Airport Fund – To account for the operations and development of the Harriet Alexander Field Airport. Revenues are principally derived from rental of airport facilities, tie-down fees, sales of fuel, and federal grants.

Conservation Trust Fund – To account for State of Colorado lottery proceeds that are restricted to capital parks and recreation expenditures.

Retirement Fund – To account for County contributions to the County employee retirement plan. Financing is provided by an annual property tax levy.

Contingent Reserve Fund – To account for emergency funds set aside in compliance with Article X, Section 20 of the Colorado Constitution (known as the TABOR amendment).

Asset Replacement Fund – To account for the accumulation of reserves through capital grants and contributions by departments and funds of the County for the replacement of vehicles and equipment.

Lodging Visitors Bureau Fund – To account for funds raised through a 1.9% lodging tax used for marketing and tourism promotion purposes.

Animal Shelter Fund – To account for revenues received from a one-half mill property tax levy and remitted to the Ark-Valley Humane Society.

Marijuana Excise Tax Fund – To account for the collection of the County excise tax on the cultivation of retail marijuana.

Forest Health Fund – To account for funds generated through a .25% sales tax used to reduce the risk of catastrophic wildfires that threaten County communities, water supplies and economy.

Rural Conservation Fund – to account for funds generated through a .25% sales tax used to conserve and support County working ranches, farms and rural landscapes, protect water quality, water quantity and wildlife habitat.

Recreation Impact Fund – To account for funds generated through a .25% sales tax to help manage the impacts of growth and increased recreation by protecting County trails caompsites and scenic rivers.

Unallocated 2018 1A Fund – To account for funds generated through a .25% sales tax to be allocated among the Forest Health Fund, the Rural Conservation Fund, and the Recreation Impact Fund at the discretion of the Board of County Commissioners following the recommendation of the citizens advisory committee based on current needs and opportunity.

Debt Service Fund

Debt service funds are used for the accumulation of resources and payment of bond principal and interest from government resources.

Chaffee County Facilities Corporation – To account for the accumulation of resources and the payment of principal and interest on the County's Certificates of Participation.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the Board of County Commissioners is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered through user charges; or where the Board of County Commissioners has decided that periodic determination of net income is appropriate for accountability purposes.

Waste Disposal Fund – To account for the activities involved in operating the County’s solid waste landfill.

Emergency Services Fund – To account for the operations of the County’s emergency services, dispatch center, and the emergency management department.

J.V. Sewer Fund - To account for the collection of monies and subsequent payment of debt service related to a wastewater distribution system constructed in an area of the County known as “Johnson Village”.

CHAFFEE COUNTY, COLORADO

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED DECEMBER 31, 2019

Note 1. General

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Chaffee County under programs of the federal government for the year ended December 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Chaffee County, it is not intended to and does not present the financial position, changes in net position, or cash flows of Chaffee County.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, whereas certain types of expenditures are not allowable or are limited as to reimbursement.

Note 3 – Indirect Facilities and Administration Costs

The County does not use the 10% de minimis cost rate allowed in §200.414, Indirect (F&A) Costs, of the Uniform Guidance. Instead, the County prepares an annual cost allocation plan to allocate indirect costs.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Chaffee County, Colorado, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Chaffee County, Colorado's basic financial statements, and have issued my report thereon dated May 11, 2020.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered Chaffee County, Colorado's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Chaffee County, Colorado's internal control. Accordingly, I do not express an opinion on the effectiveness of Chaffee County, Colorado's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I

consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Chaffee County, Colorado's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

I have audited Chaffee County, Colorado's compliance with the types of compliance requirements described in the *OMB compliance Supplement* that could have a direct and material effect on each Chaffee County, Colorado major federal programs for the year ended December 31, 2019. Chaffee County, Colorado's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of Chaffee County, Colorado's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Chaffee County, Colorado's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination of Chaffee County, Colorado's compliance.

Opinion on Each Major Federal Program

In my opinion, Chaffee County, Colorado, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of Chaffee County, Colorado, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered Chaffee County, Colorado's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Chaffee County, Colorado's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose
