INDEPENDENT AUDITORS' REPORT

Board of Directors
Lowell Metropolitan District
Colorado Springs, Colorado

We have audited the accompanying financial statements of the governmental activities, and each major fund of the Lowell Metropolitan District (District), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITORS' REPORT-CONTINUED

July 30, 2021

Page 2

Opinion

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Lowell Metropolitan District, as of December 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter Regarding Going Concern

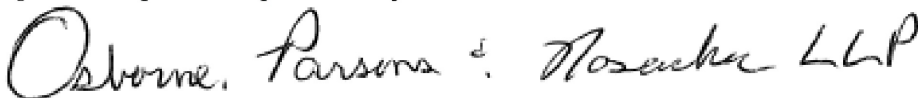

The accompanying financial statements have been prepared assuming that the Lowell Metropolitan District will continue as a going concern. As discussed in Note 5 and Note 6 to the financial statements, the District was unable to make its full 2020 principal and interest payments on its limited tax general obligation bonds series 2004. The unpaid interest will be capitalized to the principal balance of the loan. The assessed property valuations have been lower than originally estimated when the bonds were issued due to economic conditions. This has resulted in the use of the debt reserve funds as well as a line of credit established by the developer. All available sources of liquidity have been used by the District, and only the future revenues will be available for future bond maintenance payments.

Based on current estimates, the District will be unable to meet future obligations when due, which will result in accrued interest that is accumulating faster than the District can pay it. Further, management is limited in its ability to develop a plan due to the fact that the District has no assets available to liquidate, and the service plan does not allow for additional debt to be issued. The absence of available sources of liquidity and increasing amounts of accrued interest, raise substantial doubt about the District's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is unmodified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles, generally accepted in the United States of America, require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**LOWELL METROPOLITAN DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2020**

Going Concern - The Lowell Metropolitan District (District) has no employees, and as such, they are heavily reliant on paid third party service providers to provide guidance to the Board of Directors. Management, as it is used in the Management Discussion and Analysis, refers to the Board of Directors.

Management assessed the current debt obligations and the District's ability to continue as a going concern, and their response is below.

The District has a service plan mill levy limitation of 40 mills, subject to a current Gallagher adjustment to 54.11 mills, of which 5 mills can be used for operating and maintenance expenses. The District is imposing its maximum Mill Levy, and pledging all "Pledged Revenues," less the allowable administrative expenses, identified under the indenture to the payment of the Series 2004 Bonds ("Bond"), and therefore it is fulfilling such relevant covenants under the Bond indenture. Any full annual debt service not being made is not due to the District failing to perform a Bond covenant, but rather, is due to the impact of the lagging assessed valuation within the District when 49.11 mills of debt service is imposed. Bond holders cannot force the District to impose a mill levy beyond the already imposed maximum permitted Mill Levy.

Management evaluated the possibility of refunding the Bonds through discounted bond pricing. The District had its bond underwriter, DA Davidson, look at the options for refinance in April 2014. Due to the natural ending of the TIF revenue and the lagging assessed valuation growth within the District, the conclusion from DA Davidson was that there is currently no viable option for the District to refinance the Bonds at this time. The Bonds mature in 2033, and if the District does not have sufficient revenue to pay the principal and accrued interest, per section 2.4 of the indenture, the interest keeps accruing until the principal is paid. The District would continue to impose the debt service mill levy accordingly.

Dissolution of the District would occur only if the District has fulfilled the purpose it was created for, and its debt is current and being paid or has been discharged. The District could then seek dissolution with a plan for continued bonded debt service mill levy being imposed while the District stays in existence to such an extent as necessary to adequately provide for the payment of such outstanding debt. Conditions needed to be able to dissolve do not exist for the District at this time.

The District, by annually certifying its maximum mill levy and pledging all Pledged Revenue to the payment of the Bonds, is performing such covenants under the indenture. The District is imposing the maximum allowed mill levy and using 49.11 mills for debt along with the specific ownership tax revenue. The District will continue to perform its required indenture covenants, just like it has been doing since the Bonds were issued. The District will continue its existence, continue to impose its annual required mill levy, and continue to provide the trustee with the pledged revenues.

Once the annual valuations grow, the opportunities for debt refinance should materialize.

The District - The Lowell Metropolitan District is a quasi-municipal corporation and political subdivision of the State, organized pursuant to Title 32, Article 1, Sections 101 et seq. Colorado Revised Statutes, as amended. The District was formed in November 2000.

**LOWELL METROPOLITAN DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2020**

The District - Continued

The District is located in the City of Colorado Springs and El Paso County, Colorado. The District is approximately four blocks from the center of the City's downtown and is part of the City's South Central

Downtown area, a downtown urban platted area that is the subject of the City's South Central Downtown Urban Renewal Plan approved by the City Council of the City on April 26, 1988, as amended. The Lowell Neighborhood possesses historic Victorian architectural sites which have been restored, including its 110-year-old architectural anchor, the Lowell School, which has been completely renovated and converted to an office building. The District currently contains approximately 58 acres.

The District was organized primarily to finance the design, acquisition, installation and construction of water improvements, street improvements, public park and recreation/landscaping improvements and sanitary sewer improvements for the Development.

The Developer and the Development - Lowell Development Partners LLC (Developer), formed in 1998, was selected by the City to develop the Lowell Neighborhood development project, an urban redevelopment project in downtown Colorado Springs, Colorado (Development or Lowell Neighborhood). The boundaries of the Development and the District are virtually coterminous.

Prior to the District's formation, the Urban Renewal Authority of the City of Colorado Springs, Colorado (Renewal Authority) and the Developer, entered into an Agreement for Disposition and Redevelopment dated as of December 16, 1999, pursuant to which the Renewal Authority agreed to make payments from incremental property taxes, remitted to the Renewal Authority by the Treasurer of El Paso County to the Developer, for reimbursement of Developer's costs incurred in connection with the redevelopment of the Lowell Neighborhood.

In accordance with its Service Plan, the District was formed to provide public improvements to be dedicated to the City of Colorado Springs on behalf of Colorado Springs Utilities or to be retained by the District for the use and benefit of the District's property owners, inhabitants and taxpayers. The service plan of the District limits the debt and general mill levy of the District.

In 2000, the qualified electors approved debt authorization of \$11,000,000 to be used for construction of infrastructure. At this time, the service plan limits this authorization to an issuance of \$9,300,000.

In December 2004, the bonds were sold to a third party for \$9,300,000. As of December 31, 2020, the bonds had an outstanding principal balance of \$7,940,000.

OVERVIEW OF FINANCIAL STATEMENTS

The contents of this memorandum are intended to serve as an introduction to the District's basic financial statements.

Government-wide Financial Statements - The government-wide statement of net position and statement of activities are designed to provide readers with a broad overview of the District's finances using the economic resources measurement focus and accrual basis of accounting.

**LOWELL METROPOLITAN DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2020**

OVERVIEW OF FINANCIAL STATEMENTS - Continued

Revenues are recorded when earned and expenses are paid and recorded when a liability is incurred, regardless of the timing of the related cash flow.

The accounts of the District are organized on the basis of funds. Each fund is considered an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other assets, together with all related liabilities, obligations, reserves and equities that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The District uses a general fund to monitor its financial resources. The District adopts an annual appropriated budget for the fund. A budgetary comparison statement has been provided.

Comparative Statement of Net Position with Related Comments

Assets	2020	2019	Increase (Decrease)
Cash	\$ 77,848	\$ 6,728	\$ 71,120

NOTES TO FINANCIAL STATEMENTS

LOWELL METROPOLITAN DISTRICT NOTES TO FINANCIAL STATEMENTS

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Lowell Metropolitan District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles.

The District's annual financial reports include the accounts and funds of all District operations presented in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

Going Concern Issues Arising from the Inability to Pay Material Obligations as They Become Due

Outside of the projected revenues for the District of approximately \$313,000, the District has no other available sources of liquidity and the District's debt service requirements and normal operating expenses significantly exceed that of projected revenue.

These conditions raise substantial doubt about the District's ability to continue as a going concern.

Despite these challenges, management intends to continue operations with the anticipation that as the economy improves, the ability to refinance the bonds will present itself.

History of the District and Reporting Entity

History - The District is a quasi-municipal corporation and political subdivision of the State of Colorado organized pursuant to Title 32 Article 1, Sections 101 et seq Colorado Revised Statutes as amended (District Act). On November 7, 2000, the qualified electors voted in favor of the District's formation, elected its initial Board of Directors, and approved the debt and limited tax questions. On May 29, 2002, the El Paso County District Court issued a Court Order and Decree ordering and approving the organization of the District. On July 1, 2002, the District's Board of Directors held its first organizational meeting.

The District is located in the City of Colorado Springs (City) and El Paso County (County) Colorado.

The District was organized primarily to finance the design, acquisition, installation and construction of water improvements, street improvements, public park and recreation/landscaping improvements and sanitary sewer improvements (Facilities) for the Lowell Neighborhood Development Project (Project).

The Project is located approximately four blocks from the center of the City's downtown area and is part of the City's South Central Downtown Urban Renewal Plan.

Reporting Entity - The District is a special district, governed, under the terms of the District Act, as defined in the Colorado State Statutes, by an elected five-member Board, with four vacancies.

For financial reporting purposes, the District is a single unit entity, with a single purpose, and includes all funds for which it is financially accountable. The District has no component units for which it is responsible for reporting or controlling. The District does not exercise any power over any other entity.

**LOWELL METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS**

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Government-wide and Fund Financial Statements

Government-wide Financial Statements - The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the government. The statement of activities demonstrates the degree to which program revenues are sufficient to cover the direct expenses of the District.

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expense is recorded when a liability is incurred regardless of the timing of the related cash flow.

Governmental Fund Financial Statements - The accounts of the District report in a single general fund. Within the general fund are self-balancing set of accounts recording cash and/or other assets together with all related liabilities, obligations, reserves, and equities, segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Governmental fund financial statements use the current financial measurement focus and the modified accrual basis of accounting. Revenue recognition is contingent on the measurable and available resources reported as current assets or available for use within one year. Taxpayer assessed income and gross receipts are “measurable” when in the hands of intermediary collecting governments and are recognized as revenue at that time. Anticipated refunds of such taxes are liabilities and reductions of revenue when they are measurable, and their validity seems certain.

Expenditures, under the modified accrual basis of accounting, recognize liabilities when incurred, regardless of when they are paid. Exceptions to this general rule include principal and interest on general long-term debt which is recognized when due.

The more significant of the District’s accounting policies are as follows:

Basis of Accounting - Basis of accounting refers to when revenue and expenditure/expense are recognized and reported in the financial statements and relates to the timing of the measurements made, regardless of the measurement focus applied.

Budgets and Budgetary Accounting - The budget process begins in the fall of each year. The District’s outsourced accounting firm submits a compiled budget for the fiscal year commencing the following January 1, to the Board of Directors. The budget reports the various funds reported within the general fund. The budget includes expenditures, any actual or estimated deficits, and the means of financing them. The District solicits comments from the public relating to the proposed budget. The District obtains any taxpayer comments. Prior to December 31, the Board legally enacts the budget.

The District has authorized the outsourced accounting firm to transfer budgeted amounts between line items of the District budget; however, the Board of Directors must approve any revisions that alter the total expenditures of the District.

**LOWELL METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS**

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Colorado Revised Statutes require that all governmental funds have legally adopted budgets and appropriations. Total expenditures for each fund may not exceed the amount appropriated. All appropriations lapse at the end of each fiscal year. Appropriations may increase during the fiscal year provided unanticipated revenue offsets them.

Capital Assets - Capital assets are at historical cost. Improvements complete have been transferred to the City of Colorado Springs and any future improvements will also be turned over to the City of Colorado Springs, and other non-related third parties upon completion of the project. After turnover, maintenance and operation of the assets becomes the responsibility of the third parties. Accordingly, the District will relinquish control and ownership of all capital assets and recognize no depreciation.

Employee Benefits - The District contracts a third party to perform the management functions of the District and currently has no employees.

Fund Balance Classifications - The governmental funds present fund balances on classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective government funds can be spent. The classifications available are as follows:

Non-Spendable - includes amounts that are (a) not in spendable form or (b) legally or contractually required to be remaining intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash such as inventories, prepaid items and long-term notes receivable.

Restricted - includes amounts that are restricted for specific purposes stipulated by external resource providers constitutionally or through enabling legislation.

Committed - includes amounts restricted for the specific purposes determined by the passage of a resolution of the District’s Board of Directors. Modifications or changes to commitments require the District’s Board of Directors approving a new resolution.

Assigned - includes amounts intended to be used by the District for specific purposes that are neither restricted nor committed. Intent is expressed by the District’s Board of Directors to which the assigned amounts are to be used for specific purposes. Assigned amounts include appropriations of existing fund balance to eliminate a projected budgetary deficit in the subsequent year’s balance.

Unassigned - this is the residual classification for the general fund.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications, fund balance is reduced in the order of restricted, committed, assigned and unassigned.

**LOWELL METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS**

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Net Position Classifications - The government-wide financial statements classify net position in the following categories:

Invested in Capital Assets, Net of Related Debt - this classification consists of capital assets net of accumulated depreciation and reduced by outstanding related debt that is attributed to the acquisition, construction, or improvement of capital assets.

Restricted Net Position - this classification consists of restrictions created by external creditors, grantors, contributors, laws or regulations of other governments, enabling legislation and constitutional provisions.

Unrestricted Net Position - this classification represents the remainder of net position that do not meet the definition of “invested in capital assets, net of related debt”, or “restricted net position”.

Fair Value of Financial Instruments - The District’s financial instruments include cash and cash equivalents, tax receivable, interest payable and bonds payable. Due to the current economic conditions affecting the District, the bonds value on the balance sheet reflects amortized historical value, which may not approximate the fair value. The District estimates that the fair value of all other financial instruments at December 31, 2020, does not differ materially from the aggregate carrying value of its financial instruments recorded in the accompanying balance sheet.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the period. Actual results could differ from those estimates.

NOTE 1 – RESTRICTED CASH AND CASH EQUIVALENTS

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. State regulators determine which public depositories are eligible on an annual basis. Eligible public depositories collateralize all deposited funds in excess of federal insurance according to the PDPA. PDPA allows the depository to create a single collateral pool for all public funds in excess of the FDIC. An independent depository must hold collateral funds and they must be equal to 102% of the aggregate uninsured deposits. The District has not adopted a formal deposit and investment policies; however, the District follows State Statues regarding deposits and investments.

The government categorizes deposits to give an indication of risk assumed by the government at the end of the year. The various categories are as follows: a) Uncollateralized; b) Collateralized with securities held by the pledging institution; c) Collateralized with securities held by the pledging institution’s trust department or agent but not in the depositor-government’s name.

NOTES TO FINANCIAL STATEMENTS**

NOTE 1 – RESTRICTED CASH AND CASH EQUIVALENTS - Continued

Custodial Credit Risk Deposits - Custodial credit risk is the risk that in the event of bank failure, the Districts’ deposits may be lost, despite the PDPA collateralized funds. As of December 31, 2020, the District’s cash holdings did not exceed the FDIC insurance. Funds held by the treasurer are collateralized under the PDPA.

As of December 31, 2020, the District’s deposits are as follows:

	Carrying Amount		Bank Balance
Cash			
Insured (FDIC Insured)	\$ 75,397	\$	75,397
Cash Held by the Treasurer (PDPA)	2,451		2,451
	\$ 77,848	\$	77,848

NOTE 2 – CAPITAL ASSETS

As of December 31, 2007, the District had expended all construction-designated funds and had transferred the completed capital assets to the City.

NOTE 3 – TAX, SPENDING AND DEBT LIMITATIONS

In November 1992, the voters of Colorado approved the Taxpayer’s Bill of Rights (TABOR), which added Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all 9 local governments.

Some provisions of TABOR require further judicial interpretation. The District makes no representation as to the overall impact of TABOR on the future activities of the District, including its ability to generate sufficient revenues for its general operations, to undertake additional programs, or to engage in any subsequent financing activities.

TABOR also requires local governments to establish emergency reserve funds. The reserve funds are emergency funds equal to at least 3% of fiscal year spending, as defined in the statutes. TABOR allows local governments to impose emergency taxes (other than property taxes) if certain conditions are met. TABOR emergency reserves cannot compensate for economic conditions, revenue shortfalls, or local government salary or benefit increases. As of December 31, 2020, the District has reserved approximately \$27,000 towards the TABOR emergency reserve requirements.

The District has assessed its compliance with TABOR and believes it is in material compliance.

NOTE 4 – RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District provides for these risks through the purchase of commercial insurance.

**LOWELL METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE 5 – LONG-TERM DEBT

Long-term debt consists of limited tax general obligations bonds. The District was responsible for principal payments of \$300,000, \$280,000, \$260,000, \$240,000 and \$225,000 during the fiscal years ending December 31, 2020, 2019, 2018, 2017 and 2016, respectively, which were not paid and are included in the bond principle due in one year on the Statement of Net Position. A summary of changes in long-term debt is as follows:

Beginning Balance	Additions	Payments	Ending Balance
\$ 7,940,000	\$ -	\$ -	\$ 7,940,000

NOTE 6 – LIMITED TAX GENERAL OBLIGATION BONDS

On June 1, 2005, the District issued limited tax, general obligation bonds to provide funds for the acquisition and construction of improvement facilities located within the District and to finance other costs associated with issuing the bonds and organizing the District.

The Series 2004 Bonds (\$9,300,000 original issue) carry an interest rate of 7.25% principal and interest, payable semi-annually on June and December 1, commencing on June 1, 2005, and maturing on December 1, 2033. In 2011, the District issued the First Supplemental Trust Indenture. The bondholders of a majority of the aggregate principal amount of the bonds consented to and approved the First Supplemental Trust Indenture. The purpose of the First Supplemental Trust Indenture was to revise the mandatory sinking fund redemption schedule to reflect such redemption of the Series 2004 Bonds.

The bonds are subject to redemption prior-to maturity at the option of the District and are subject to mandatory sinking fund redemption. The mandatory sinking fund redemption dates are the same as the principal debt service requirement dates.

Set forth in the following table are the debt service requirements for the Series 2004 bonds through maturity after issuance of the First Supplemental Trust Indenture, based on outstanding balances as of December 31, 2020.

Year	Principal	Interest	Total
Past Due	\$ 1,400,000	\$ 2,361,547	\$ 3,761,547
2021	320,000	575,650	895,650
2022	340,000	552,450	892,450
2023	365,000	527,800	892,800
2024	395,000	501,338	896,338
2025	425,000	472,700	897,700
2026-2030	2,620,000	1,856,000	4,476,000
2031-2033	2,075,000	612,263	2,687,263
	\$ 7,940,000	\$ 7,459,748	\$ 15,399,748

**LOWELL METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE 7 – RECONCILIATION OF BUDGET TO ACTUAL

The District prepares its budget on a basis of accounting other than generally accepted accounting principles (GAAP). A reconciliation of the budgetary basis to GAAP is provided on the schedule of revenue, expenditure, and changes in fund balance (non-GAAP basis) and actual - general fund.

NOTE 8 – CONTINGENCIES

The District constructed infrastructure assets, and as assets were completed, transferred the completed assets to the City and other non-related third parties. However, the 2004 Series bonds are exclusively the responsibility of the District, and do not constitute a debt or indebtedness by the City, the recipient of the assets constructed with the bond funds.

The District was liable for any construction defects for a period of one year after initial acceptance by the City for any water and sewer related assets, and for two years for street and drainage related assets. As of December 31, 2020, the District is not liable for any construction defects.

The District is also subject to compliance requirements as defined in the indentures of the 2004 Limited Tax General Obligation Bonds. As of December 31, 2020, management was not aware of any contingent liabilities arising from compliance issues with the general obligation bonds.

NOTE 9 – RELATED PARTIES AND POTENTIAL CONFLICT OF INTEREST

The District selected Lowell Development Partners LLC (Developer) to develop the Project. The members of the Board are either officers or employees of the Developer or have had other business or professional relationships with the Developer.

The Developer has funded the required bond reserve of \$1,252,000. As of December 31, 2020, the bond reserve was fully drawn. The Developer has no further obligations as it relates to the general obligation bonds.

The indenture assigns rights and options to the Developer. Among the rights assigned, is the right to issue subordinate debt for repayment of the costs for the funding of the reserve requirement and for other expenses incurred by the Developer not reimbursed. Further, the Developer obtained purchase option rights to land within the development. As of December 31, 2020, the Developer has not exercised these rights.

The Developer has made cash advances to the District. These advances are currently non-interest bearing and represent annually appropriated reimbursement obligations. The District does not impute interest due to the right of the Developer to request reimbursement of the accumulated interest relating to the reserve in the future. The payment of the debt is contingent on the Developer exercising his right to reimbursement, available surplus funds, and the extinguishment of the bonds per the indenture agreement. Given the current remote possibility of this happening, the District has made no estimates as to any potential liability relating to these rights.

**LOWELL METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS**

NOTE 9 – RELATED PARTIES AND POTENTIAL CONFLICT OF INTEREST - Continued

Developer advance activity (line of credit) for the year ended December 31, 2020, is as follows:

Beginning Balance	Additions	Payments	Ending Balance
\$ 1,269,783	\$ -	\$ -	\$ 1,269,783

NOTE 10 – CONTINGENCY AND UNCERTAIN EVENTS

Coronavirus (COVID-19) Pandemic

In December 2019, an outbreak of a novel strain of coronavirus (COVID-19) originated in Wuhan, China and has since spread to a number of other countries, including the U.S. On March 11, 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, several states in the U.S., have declared a state of emergency.

We cannot anticipate all of the ways in which health pandemics such as COVID-19 could adversely impact the District. Although we are continuing to monitor and assess the effects of the COVID-19 pandemic on the District, the ultimate impact of the COVID-19 outbreak or a similar health pandemic is highly uncertain and subject to change.

NOTE 11 – SUBSEQUENT EVENTS

Management has evaluated events through July 30, 2021, the date on which the financial statements were available to be issued.

**LOWELL METROPOLITAN DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**

BUDGETARY INFORMATION

Lowell Metropolitan District (District) adheres to the following procedures in establishing the budgetary data reflected in the budgetary comparison schedule.

The budget process begins in the fall of each year. The District's outsourced accounting firm submits a compiled budget, for the fiscal year commencing the following January 1 to the Board of Directors. The budget reports the various funds reported within the general fund. The budget includes expenditures, any actual or estimated deficits, and the means of financing them. The District solicits comments from the public relating to the proposed budget. The District obtains any taxpayer comments. Prior to December 31, the Board legally enacts the budget. The General Fund uses the cash basis of accounting in preparing the budget.

The District has authorized the outsourced accounting firm to transfer budgeted amounts between line items of the District budget; however, the Board of Directors must approve any revisions that alter the total expenditures of the District.

Colorado Revised Statutes require that all governmental funds have legally adopted budgets and appropriations. Total expenditures for each fund may not exceed the amount appropriated. All appropriations lapse at the end of each fiscal year. Appropriations may increase during the fiscal year provided unanticipated revenue offsets them.
