Independent Auditor's Report

To the Board of Directors
Evergreen Fire Protection District

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of Evergreen Fire Protection District (the "District") as of and for the year ended December 31, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of Evergreen Fire Protection District, as of December 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Evergreen Fire Protection District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Evergreen Fire Protection District's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report

An Association of
Independent Accounting Firms

An independently owned member
RSM US Alliance

that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Evergreen Fire Protection District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Evergreen Fire Protection District's ability to continue as a going concern for a reasonable period of time.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule for the General Fund and pension schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that

collectively comprise Evergreen Fire Protection District's financial statements as a whole. The other supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements.

The other supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Evergreen Fire Protection District Management's Discussion and Analysis December 31, 2020

This section presents management's analysis of Evergreen Fire Protection District (the District) financial condition and activities as of and for the year ended December 31, 2020. Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the District's basic financial statements.

This information should be read in conjunction with the audited financial statements that follow this section. The District, as the primary governmental entity, includes, within the financial statements, the financial position and activities of the District's Pension Plan as a component unit. The discussion and analysis is designed to provide an analysis of the District's financial condition and operating results and to inform the reader on the District's financial issues and activities.

The information in this MD&A is presented under the following headings:

- I. Overview of the Basic Financial Statements
- II. Financial Analysis
- III. Capital Assets and Lease Administration
- IV. Budgetary Highlights
- V. Economic Factors and Next Year's Budget and Rates
- VI. Requests for Information

I. Overview of the Basic Financial Statements

The District's basic financial statements are comprised of four components: (A.) Government-wide Financial Statements (B.) Fund Financial Statements (C.) Notes to Basic Financial Statements and (D.) Required supplementary information and other supplementary information in addition to the basic financial statements.

A. Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the primary government (the District). These statements include the financial activities of overall District government, except for fiduciary activities. Governmental activities generally are financed through taxes.

B. Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other special purpose governments, uses fund accounting to ensure and demonstrate compliance with financial-related legal requirements. The basic financial statements of the District are presented as a special purpose government engaged only in governmental type activities providing fire protection services to District residents.

**Evergreen Fire Protection District
Management's Discussion and Analysis
December 31, 2020**

General Fund

The District's General Fund statements include:

The *Balance Sheets* present information on all of the District's assets and liabilities, with the difference between the two reported as fund balance. Over time, increases or decreases in assets and liabilities may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statements of Revenues, Expenditures and Changes in Fund Balance* present information which reflects how the District's fund balance changed during the past year. All changes in assets and liabilities are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statements for some items that will only result in cash flows in future fiscal periods.

C. Notes to Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to basic financial statements can be found on pages 8 to 25 of this report.

D. Required Supplementary Information and Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budgetary comparisons presented for legal compliance.

II. Financial Analysis

A. Financial Highlights

- Net Position increased by \$1,018,380 (6%) when compared to 2019
- District revenues (fund basis) increased by \$750,831 (9%) from 2019 to 2020
- District expenses (fund basis) increased by \$2,210,028 (28%) from 2019 to 2020

B. Financial Position

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. In the case of the District, the total net position, was \$18,675,065 and \$17,656,685 for the years ended December 31, 2020 and 2019, respectively.

The largest portion of the District's net position reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net Position—End of Year	<u><u>\$ 18,675,065</u></u>

**Evergreen Fire Protection District
Management's Discussion and Analysis
December 31, 2020**

District Revenue and Expense Analysis:

Revenues

District revenues as of December 31, 2020 increased by \$750,831 over the year ended December 31, 2019. The increase was primarily a result of increased property taxes and charges for services.

Expenditures/Expenses

District expenditures/expenses as of December 31, 2020 increased by \$2,210,028 over the year ended December 31, 2019. This is due to primarily an increase of employee compensation and capital outlay.

General Fund:

The General Fund was established and continually funded to provide for the general and administrative expenses and operating costs of the District. This Fund provides for the functional areas of the organization: Administration, Firefighting, Fire Prevention, Training, Communications, Apparatus and Facilities Maintenance and Replacement. The primary funding source for the General Fund is taxation of real and personal property. Other sources of income for the General Fund include interest income on reserve funds and fees from plan reviews and inspections, grants and payments for reimbursable out-of-district responses. The primary projects or program efforts for establishing funding during 2020 were:

- Support and improve upon the training programs which enable us to provide quality emergency services to the community.
- Maintain competitive salaries and benefits for all existing full-time and temporary personnel of the District.
- Normally incurred operational expenses of the District and Department.
- Maintain established fire prevention, educational and safety programs as well as the development of new programs.
- Maintain a replacement program to continually upgrade aging equipment and apparatus.
- Continue with the building maintenance and upgrade program for the fire station.

**Evergreen Fire Protection District
Management's Discussion and Analysis
December 31, 2020**

III. Capital Assets and Leases Payable

A. Capital Assets

The District's investment in capital assets at December 31, 2020 amounts to \$13,613,047 (net of accumulated depreciation). This investment in capital assets includes land, buildings, apparatus, equipment and furnishings. An analysis of changes in capital assets is as follows:

Capital Assets December 31, 2020 and 2019				
	2020	2019	Variance	Percentage Change
Land	\$ 2,566,109	\$ 2,058,719	\$ 507,390	24.65%
Construction in progress	357,728	41,400	316,328	764.08%
Buildings	10,220,002	10,154,726	65,276	0.64%
Machinery and equipment	3,153,616	2,753,137	400,479	14.55%
Vehicles	7,287,283	6,751,499	535,784	7.94%
Total capital assets	23,584,738	21,759,481	1,825,257	
Less: accumulated depreciation	(9,971,691)	(9,306,865)	(664,826)	
Capital assets, net of accumulated depreciation	\$ 13,613,047	\$ 12,452,616	\$ 1,160,431	

The District's significant investments in capital during 2020 are as follows:

- Land
- HVAC system
- New vehicles
- Radio equipment

Additional information on the District's capital assets can be found in Note 5 of this report.

IV. General Fund Budgetary Highlights

The District's annual budgets are prepared according to Colorado law and they are based on accounting for certain transactions on a basis of cash receipts and disbursements. It should be noted that the 2020 budget was monitored to more closely align expenses with the areas of responsibility.

The difference between the final budgeted expenditures of \$11,128,772 and the actual expenditures of \$9,408,205 resulted in a favorable variance of \$1,720,567.

Additional information on the District's detailed budget can be found in page 26 of this report.

**Evergreen Fire Protection District
Management's Discussion and Analysis
December 31, 2020**

V. Economic Factors and Next Year's Budget

- Property taxes are budgeted in the amount of \$7,136,630 for the General Fund based on an assessed valuation of the district of \$576,743,879 with a mill levy of 12.374.
- Capital expenditures are budgeted at \$1,376,800 for strategic capital, apparatus replacement and station improvements.

VI. Requests for Information

This report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Evergreen Fire Protection District, 1802 Bergen Parkway, Evergreen, CO, 80439.

Evergreen Fire Protection District

Notes to Financial Statements

December 31, 2020

1. Definition of Reporting Entity

The Evergreen Fire Protection District (District) is an independent local governmental unit incorporated under the laws of the State of Colorado, organized under a charter, and governed by an elected five-member Board of Directors (Board) to provide volunteer fire protection and emergency medical services within the boundaries of the District in Jefferson and Clear Creek counties of Colorado. The District provides these services through a contract with the Evergreen Volunteer Fire Department (Department). The Department was formed in 1948 as a nonprofit corporation in the State of Colorado (State).

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements that provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District, which is the primary government, is not considered a component unit of any other government and does not engage in any business-type activities.

2. Summary of Significant Accounting Policies

The financial statements of the Evergreen Fire Protection District (District) have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting.

The most significant of the District's accounting policies are described below.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the District. Governmental activities are generally supported by taxes, charges for services and intergovernmental revenues. There are no business-type activities in the District for the year ended December 31, 2020.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

2. Summary of Significant Accounting Policies (continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type.

The District has the following major governmental funds:

General Fund – The General Fund is used to account for all financial resources of the District except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Colorado and the bylaws of the District.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation and payment of governmental long-term debt principal, interest and related costs.

The District has the following fiduciary fund:

Custodial Fund – The Custodial Fund is used to account for the fiduciary assets held by the District pursuant to the Jefferson County Mountain Area Radio System (JCMARS) Intergovernmental Agreement (IGA). The Fiduciary Fund Balance may only be expended for purposes defined under the IGA. The purpose of the agreement is to provide for the cooperative improvement, maintenance, and operation of Jefferson County Mountain Area Radio System and other necessary and related equipment to operate a radio system for the Members.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are accounted for using the current financial resources measurement focus, whereby only current assets and liabilities generally are included in the balance sheet, and the statement of revenues, expenditures and changes in fund balance present increases and decreases in those net current assets. These funds use the modified accrual basis of accounting whereby revenues are recognized as soon as they are both measurable and

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

2. Summary of Significant Accounting Policies (continued)

available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recognized when a liability is incurred, as under accrual accounting.

Property taxes, intergovernmental grants, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Because governmental fund statements are presented using a measurement focus and basis of accounting different from that used in the government-wide statements, a reconciliation is presented that briefly explains the adjustments necessary to reconcile the ending net position and the change in net position.

In accordance with GASB, the corresponding assets (receivables) in non-exchange transactions are recognized in the period in which the underlying exchange occurs, when an enforceable legal claim has arisen, when all eligibility requirements have been met, or when resources are received, depending on the revenue source. Property taxes attach an enforceable lien on property as of January 1. Taxes are levied in December, payable in the following year in full by April 30, or in two equal installments due on the last day of February and June 15.

Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with an original maturity of three months or less.

Capital Assets

Capital assets used in governmental activities of the District are recorded at cost. Depreciation is computed on a straight-line basis over the following estimated useful lives:

Buildings	10 - 75 years
Machinery and equipment	3 - 10 years
Vehicles	7 - 30 years

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset have not been capitalized. The District's threshold for capitalization is \$5,000, where the asset's estimated useful life is greater than one year.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

2. Summary of Significant Accounting Policies (continued)

Compensated Absences

Employees of the District are allowed to accumulate unpaid vacation and sick time. Upon termination of employment with the District, an employee will be compensated for accrued vacation time, up to the employee's maximum, at their current rate of pay. Accrued sick time is not paid to the employee upon termination. Accumulated unpaid vacation pay is accrued when earned in the Government-wide financial statements. A liability is reported in the Governmental Fund financial statements when payment is due.

Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds. The resulting receivables and payables are classified on the Balance Sheet as Due from Other Funds and Due to Other Funds because they are short-term in nature.

Net Position and Fund Balance

In the government-wide financial statements, net position is classified in the following categories:

- *Net Investment in Capital Assets* – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce this category.
- *Restricted Net Position* – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – This category represents the net position of the District, which are not restricted for any project or other purpose. A deficit will require future funding.

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable fund balance* - The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

2. Summary of Significant Accounting Policies (continued)

- *Restricted fund balance* - The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- *Committed fund balance* - The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.
- *Assigned fund balance* - The portion of fund balance that is constrained by the government's intent to be used for specific purposes but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.
- *Unassigned fund balance* – amounts that are available for any purpose; positive amounts are reported only in the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its commitment or assignment actions.

The District establishes fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget.

Revenue Recognition/Property Taxes

Property taxes attach an enforceable lien on property as of January 1. Taxes are levied in December, payable in the following year in full by April 30, or in two equal installments due on the last day of February and June 15. The county treasurer bills and collects property taxes for all taxing entities within the county. Property tax receipts collected by the county treasurer each month are remitted to the District by the tenth day of the subsequent month. Property tax revenues are recognized in the government-wide financial statements in the year that the property taxes are used to fund the operations of the District.

In the fund financial statements, property taxes are recognized in the year for which levied provided they become available and measurable. Property tax revenues are considered available when they become due or past due and are received by the District within 60 days of the end of the fiscal year.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

2. Summary of Significant Accounting Policies (continued)

Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

3. Stewardship, Compliance and Accountability

Budgetary Information

Budgetary Policy – The District Board appoints the Budget Officer. The Budget Officer prepares the budget in accordance with Budget Law, observing legal requirements for content, and format. Prior to October 15, the District Budget Officer submits a proposed operating budget for the fiscal year commencing the following January 1 to the Board of Directors. At this time a copy of the budget is made available for inspection by the public and notice of the proposed budget is published. Public hearings are held at the regular Board of Directors meetings to obtain taxpayer input.

No later than December 15th of the prior year for the ensuing fiscal year, the Board of Directors must formally adopt the budget, which is legally enacted through passage of a Resolution to Adopt its budget and a Resolution to Appropriate. In 2020, the budgets for the General Fund were adopted, on a basis consistent with GAAP. After adopting its budget, but not earlier than December 1st and no later than December 15th the Board of Directors must certify its property tax levy to the Board of County Commissioners.

Appropriations are controlled and the budget is only amended in conformity with Colorado Revised Statutes, which defines three bases for budget amendments; 1) budgetary transfers; 2) adopt a supplemental appropriation, (if there is receipt of unanticipated revenue, other than ad valorem taxes and it is available to meet a contingency); and 3) a downward revision of the appropriation. The District's 2020 expenditures in the Fiduciary Fund exceeded budgeted appropriations, which may be a violation of State statutes.

Budgetary Data – Budget amounts presented in the General Fund “Statement of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual” reflect the original budget and the amended budget (which has been adjusted for legally authorized revision to the annual budget during the year). All annual appropriations lapse at fiscal year-end.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

4. Deposits and Investments

Cash and cash equivalents as of December 31, 2020, are classified in the accompanying financial statements as follows:

Statement of Net Position:

Cash and cash equivalents	\$ 8,672,777
Cash with county treasurer	<u>48,885</u>
Total cash and cash equivalents	<u>\$ 8,721,662</u>

Cash and cash equivalents as of December 31, 2020, consist of the following:

Deposits with financial institutions	\$ 1,693,761
Investments	<u>7,027,901</u>
Total cash and cash equivalents	<u>\$ 8,721,662</u>

Custodial Credit Risks – Deposits

Colorado state statutes govern the entity's deposits of cash. For deposits in excess of federally insured limits, Colorado Revised Statutes (CRS) require the depository institution to maintain collateral on deposit with an official custodian (as authorized by the State Banking Board). The Colorado Public Deposit Protection Act (PDPA) requires state regulators to certify eligible depositories for public deposit. PDPA requires the eligible depositories with public deposits in excess of the amounts insured by the Federal Deposit Insurance Corporation (FDIC) to create a single institutional collateral pool of obligations of the State of Colorado or local Colorado governments and obligations secured by first lien mortgages on real property located in the State. The pool is to be maintained by another institution or held in trust for all uninsured public deposits as a group. The market value of the assets in the pool must be at least 102% of the uninsured deposits. As of December 31, 2020, the District had cash deposits with a bank balance of \$1,780,415 and a carrying balance of \$1,693,761.

Investments

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest, which include:

- obligations of the United States and certain U.S. government agency securities,
- certain international agency securities,
- general obligation and revenue bonds of U.S. local government entities,
- bankers' acceptances of certain banks,
- commercial paper,
- written repurchase agreements collateralized by certain authorized securities,
- certain money market funds,
- guaranteed investment contracts, and
- local government investment pools.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

4. Deposits and Investments (continued)

As of December 31, 2020, the District had the following investments:

COLOTRUST	\$ 1,882,182
CSAFE	\$ 5,145,719

Custodial Credit Risk - Investments

For investments, custodial credit risk is the risk that in the event of a failure of a counter party, the District would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a specific policy for custodial credit risk.

Interest Rate Risk

Colorado Revised Statutes limit investment maturities to five years or less from the date of purchase. This limit on investments is the means of limiting exposure to fair value losses arising from increasing interest rates.

COLOTRUST – During 2020, the District had invested in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. COLOTRUST records its investments at fair value, and the District records its investments in COLOTRUST using the net asset value method. The Trust offers shares in two portfolios, COLOTRUST Prime and COLOTRUST Plus+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST Plus+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust’s portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust’s investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian’s internal records segregate investments owned by the Trust. The COLOTRUST investment pool is rated AAAM by Standard & Poors. COLOTRUST investments are recorded at the net asset value by the District.

CSAFE – The District invested in the Colorado Surplus Asset Fund Trust (CSAFE) (the Trust), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust is similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds, and highest rated commercial paper. A designated custodial bank serves as custodian for CSAFE’s portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE’s

Evergreen Fire Protection District
Notes to Financial Statements (continued)

4. Deposits and Investments (continued)

investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. CSAFE is rated AAAM by Standard & Poor's. CSAFE records its investments at amortized cost and the District records its investments in CSAFE at net asset value as determined by amortized cost method. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

5. Capital Assets

The following table presents capital assets activity of the District for the year ended December 31, 2020:

	Balance December 31, 2019	Transfers/ Additions	Transfers/ Retirements	Balance December 31, 2020
Capital assets, not being depreciated:				
Land	\$ 2,058,719	\$ 507,390	\$ -	\$ 2,566,109

Capital assets, net	<u>\$12,452,615</u>	<u>\$ 1,201,832</u>	<u>\$ (41,400)</u>	<u>\$13,613,047</u>

Evergreen Fire Protection District
Notes to Financial Statements (continued)
December 31, 2020

6. Long-Term Debt

The following is a summary of long-term debt transactions for the governmental activities of the District for the year ended December 31, 2020:

	Balance December 31, 2019	Additions	Payments	Balance December 31, 2020	Due Within One Year
2012 Refunding Bonds	\$ 2,380,000	\$ -	\$ (575,000)	\$ 1,805,000	\$ 585,000
2012 Bond Premium	78,014	-	(19,504)	58,510	-
Total bonded debt	<u>\$ 2,458,014</u>	<u>\$ -</u>	<u>\$ (594,504)</u>	<u>\$ 1,863,510</u>	<u>\$ 585,000</u>
Compensated absences	40,121	156,424	(141,983)	54,562	-
Total	<u>\$ 2,498,135</u>	<u>\$ 156,424</u>	<u>\$ (736,487)</u>	<u>\$ 1,918,072</u>	<u>\$ 585,000</u>

Accrued compensated absences are being paid from resources generated by the General Fund.

Interest paid related to long-term debt during the year totaled \$59,500.

2012 Refunding Bonds – The District issued 2012 Refunding Bonds, dated December 26, 2012, with principal and interest payments due semiannually on June 1 and December 1, through 2023. Interest accrues at rates ranging from 2.00% to 3.70%. Current Interest Bonds, maturing on or after December 1, 2014, are subject to early redemption at the option of the District, in whole or in part in integral multiples of \$5,000, with no redemption premium. Current Interest Bonds maturing on December 1, 2020 are subject to mandatory sinking fund redemption, beginning on December 1, 2019 without any redemption premium.

Advance Refunding – The net proceeds of \$6,069,620 from the issuance of the 2012 Refund Bonds were used to advance refund the 2003 Series Bonds with a total principal amount of \$5,855,000. The net proceeds were used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide for future debt service payments on the refunded bonds. As a result, the refundable bonds are considered to be defeased, and the related liability for the bonds has been removed from the District's liabilities.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

6. Long-Term Debt (continued)

Annual debt service requirements for the bonds at December 31, 2020 are as follows:

	Principal	Interest	Total
2021	\$ 585,000	\$45,125	\$ 630,125
2022	605,000	30,500	635,500
2023	<u>615,000</u>	<u>15,375</u>	<u>630,375</u>
Total	<u>\$1,805,000</u>	<u>\$91,000</u>	<u>\$1,896,000</u>

7. Pensions

The District currently maintains two separate pension plans. One plan is maintained for the volunteer firefighters and another plan for paid personnel.

FPPA - Statewide Defined Benefit Plan

Plan Description: The District contributes to the Fire and Police Pension Association (FPPA) to provide retirement benefits for paid employees and beneficiaries. Colorado statutes assign the authority to establish benefit provisions to the state legislature. FPPA issues a publicly available financial report that includes financial statements and required supplementary information for the plan, which is available by directly contacting the entity.

A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. The annual normal retirement benefit is two percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The Plan sets contribution rates at a level that enables all benefits to be fully funded at the retirement date of all members. Contribution rates for the defined benefit plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership.

The financial statements of the plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The plan investments are presented at fair value except for short-term investments, which are recorded at cost, which approximates fair value.

At December 31, 2020, the District reported a asset of \$26,534 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2019, and the total pension asset used to calculate the net pension asset was determined by an actuarial

Evergreen Fire Protection District
Notes to Financial Statements (continued)
December 31, 2020

7. Pensions (continued)

valuation as of January 1, 2020. The District's proportion of the net pension asset was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At December 31, 2019, the District's proportion was approximately 0.05 percent.

For the year ended December 31, 2020, the District recognized pension expense of \$28,286. At December 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	\$ 89,796	\$ 518
Difference between actual and expected experience	-	41,712
Changes in assumptions	50,383	-
Changes in proportion	-	69,951
Current-year contributions	43,083	-
Total	\$ 183,262	\$ 112,183

Deferred outflows of resources of \$43,083, related to contributions subsequent to the measurement date, will reduce the net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense (income) as follows:

December 31,	
2021	\$ 1,889
2022	(1,723)
2023	11,847
2024	(5,754)
2025	24,486
Thereafter	(2,749)

Actuarial assumptions: The total pension liability and actuarially determined contributions as of the measurement date was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Evergreen Fire Protection District
Notes to Financial Statements (continued)
December 31, 2020

7. Pensions (continued)

	Actuarial Assumptions
Actuarial Valuation Date	January 1, 2020
Actuarial Method	Entry Age Normal
Amortization Method	Level % of Payroll, Open
Amortization Period	30 years
Long-Term Investment Rate of Return	7.5%
Projected Salary Increases	4% - 14%
Cost of Living Adjustments	0%
Includes Inflation at	2.5%

Sensitivity: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the District's proportionate share of the net pension asset (liability) would be if it were calculated using a discount rate this is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	Projected Net Pension (Asset) Liability
1% Decrease to 6% Single Discount Rate	\$ 160,882
1% Increase to 8%	(26,534)
	(181,971)

The long-term expected rate of return on pension plan investments was determined using a building-block method, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Global Equity	37.0%	8.03%
Equity Long/Short	9.0%	6.45%
Private Markets	24.0%	10.00%
Fixed Income	15.0%	2.90%
Absolute Return	9.0%	5.08%
Managed Futures	4.0%	5.35%
Cash	2.0%	2.52%
Total	100.0%	

Evergreen Fire Protection District
Notes to Financial Statements (continued)
December 31, 2020

7. Pensions (continued)

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board’s funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SWDB plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Volunteer Firefighter’s Pension

Plan Description: The District, on behalf of its volunteer firefighters, contributes to a defined benefit pension plan, which is administered by FPPA. The plan is an agent multiple-employer plan that provides retirement benefits for members and beneficiaries according to the plan provisions. Colorado Revised Statutes (CRS), as amended, establishes basic benefit provisions under the plan.

The financial statements of this Plan are prepared using the accrual basis of accounting. Contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The Plan investments are presented at fair value except for short-term investments, which are recorded at cost, which approximates fair value.

At December 31, 2020, the District reported a net pension liability of \$1,481,396 for this Plan. The net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2020.

For the year ended December 31, 2020, the District recognized pension expense of \$236,817. At December 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual investment earnings	\$ 235,429	\$ 407,028
Changes in assumptions	134,311	-
Difference between expected and actual experience	-	7,025
Current-year contributions	270,833	-
Total	\$ 640,573	\$ 414,053

Evergreen Fire Protection District
Notes to Financial Statements (continued)
December 31, 2020

7. Pensions (continued)

Deferred outflows of resources of \$270,833 related to contributions subsequent to the measurement date will be recognized as a decrease to net pension liability in the subsequent year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense (income) as follows:

Year ending December 31,	
2021	\$ 33,380
2022	(9,484)
2023	2,057
2024	(70,266)

Actuarial assumptions: The total pension liability and actuarially determined contributions as of the measurement date was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Actuarially Determined Contributions
Actuarial Valuation Date	January 1, 2020
Actuarial Method	Entry Age Normal
Amortization Method	Level Dollar, Open
Amortization Period	20 years
Long-Term Investment Rate of Return	7.5%
Asset Valuation Method	5-Year smoothed fair value
Retirement Age	50% per year of eligibility until 100% at age 65
Includes Inflation at	2.5%

Sensitivity: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate this is 1-percentage-point lower (6.0 percent) or 1-percentage-point higher (8.0 percent) than the current rate:

	Projected Net Pension Liability
1% Decrease to 6.0% Single Discount Rate	\$ 2,274,431
1% Increase to 8.0%	1,481,396
	823,946

Notes to Financial Statements (continued)

December 31, 2020

7. Pensions (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of rates of return for each major asset class included in the pension plan's target asset allocation as of the valuation date are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.0%	2.52%
Fixed Income	15.0%	5.20%
Managed Futures	4.0%	5.00%
Absolute Return	8.0%	5.50%
Equity Long/Short	8.0%	6.00%
Global Equity	38.0%	7.00%
Private Markets	25.0%	9.20%
Total	100.0%	

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that the District contributions will continue to follow the current funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Had there been a point where assets were projected to be depleted, a municipal bond rate of 2.75% would have been used in the development of the blended GASB discount rate after that point. The 2.75% rate is based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from the Federal Reserve statistical release (H.15).

8. Defined Contribution Plan

Plan Description – The District provides pension benefits for its employees through a defined contribution plan. Employees are eligible to participate following completion of 1,000 hours of service. The District's contributions for each employee are vested 20% after 2 years of service, plus 20% for each year of service thereafter. Employees are fully vested after 6 years of service. Plan assets are held at ICMA-RC.

Evergreen Fire Protection District

Notes to Financial Statements (continued)

December 31, 2020

8. Defined Contribution Plan (continued)

Funding Policy – The plan requires that the District contribute an amount equal to 7.5% of the employee’s gross annual salary. District contributions and earnings forfeited by employees who leave the District prior to fully vesting are allocated to the remaining participants or are used to reduce the District’s contribution requirement for the subsequent year.

The District contributions to the Plan for the year ending December 31, 2020 were \$121,197 equal to the required contribution. Total forfeitures totaled \$7,885 at December 31, 2020.

9. Risk Management

The District is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God. The District carries commercial insurance coverage for all risks of loss. Claims have not exceeded commercial coverage since inception.

10. Joint Ventures

During 2018, the District entered into the Jefferson County Mountain Area Radio System (JCMARS). Currently JCMARS has seven members. Each member District is entitled to one vote on the JCMARS board. Members pay contributions for both a repair and maintenance fee and a capital replacement fee. The repair and maintenance fee is based on that member’s assessed valuation. The capital replacement fee is \$35,000 per year. JCMARS is reported only within these financial statements.

11. TABOR Compliance

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer’s Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations, which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year’s Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenues.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

Notes to Financial Statements (continued)
December 31, 2020

11. TABOR Compliance

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits and qualifications as an Enterprise will require judicial interpretation.
