Board of Directors and Management
Hermosa Sanitation District

Opinions

We have audited the accompanying financial statements of the business-type activities of Hermosa Sanitation District as of and for the year ended December 31, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Hermosa Sanitation District, as of December 31, 2020 and the respective changes in the financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hermosa Sanitation District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hermosa Sanitation District's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hermosa Sanitation District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hermosa Sanitation District's ability to continue as a going concern for a reasonable period of time.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise Hermosa Sanitation District's financial statements as a whole. The supplementary information section is presented for purposes of additional analysis and is not a required part of the financial statements.

The other supplementary information, as listed in the table of contents, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Sincerely,

Haynie & Company

Littleton, Colorado

Hermosa Sanitation District Management Discussion and Analysis

As management of the Hermosa Sanitation District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended December 31, 2020.

This discussion and analysis is intended to be an easily readable analysis of the Hermosa Sanitation District's financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the financial statements that follow.

Report Layout

Besides this Management's Discussion and Analysis (MD&A), the report consists of financial statements, the notes to the financial statements, and other supplementary information. Hermosa Sanitation District is a proprietary fund entity whose primary function is to collect and treat wastewater. Operating revenues and expenses relate to the core function of operating the district and its facilities; non-operating revenues and expenses reflect investment earnings and losses, as well as tap fees collected during the year. The financial statements of Hermosa Sanitation District consist of three primary statements: the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows.

The Statement of Net Position reflects the cumulative financial condition of the District at December 31, 2020. Net position reflects the sum total of earnings and contributions to the District over its lifetime, net of any losses incurred. The Statement of Revenues, Expenses and Changes in Net Position shows the change in financial condition from operations and other activities during the calendar year ended December 31, 2020.

The Statement of Cash Flows reports cash activities of the District for the year resulting from operating activities, capital and related financing activities, and investing activities.

This MD&A is intended to explain the significant changes in financial position and differences in operations between the current and prior year. Significant changes from the prior year are explained following the charts.

Financial Statements

Net Position

Following is a condensed comparative summary of the District's Statement of Net Position at December 31:

NET POSITION

	<u>2020</u>	<u>2019</u>	<u>Change</u>
Current assets	\$ 4,157,857	\$ 3,839,248	\$ 318,609
Non-current assets	69,489	113,219	(43,730)
Capital assets, net	1,065,940	1,166,678	(100,738)
Other assets, net	383	583	(200)
Total Assets	<u>5,293,669</u>	<u>5,119,728</u>	<u>173,941</u>
Current liabilities	<u>18,584</u>	<u>29,888</u>	<u>(11,304)</u>
Net position: Invested in capital assets	1,065,940	1,166,678	(100,738)
Net position: Unrestricted	<u>4,209,145</u>	<u>3,923,162</u>	<u>285,983</u>
Total net position	<u>\$ 5,275,085</u>	<u>\$ 5,089,840</u>	<u>\$ 185,245</u>

During the year ended December 31, 2020, there was an increase in current assets mainly due to an increase in cash and investments. Non-current assets decreased as the result of payments received on notes receivable. Capital assets decrease of \$100,738 was the result of the depreciation expense for the year of \$100,738.

Statement of Revenues, Expenses, and Changes in Net Position

Following is a condensed comparative summary of the District's statement of Revenues, Expenses, and Changes in Net position at December 31:

CHANGE IN NET POSITION

	<u>2020</u>	<u>2019</u>	<u>Change</u>
Operating revenues	\$ 585,136	\$ 575,711	\$ 9,425
Operating expenses	<u>594,360</u>	<u>489,509</u>	<u>104,851</u>
Operating income (loss)	(9,224)	86,202	(95,426)
Non-operating revenues	<u>194,469</u>	<u>174,550</u>	<u>19,919</u>
Income before capital contributions	185,245	260,752	(75,507)
Capital contributions	<u>-</u>	<u>-</u>	<u>-</u>
Change in net position	185,245	260,752	(75,507)
Net position - beginning	5,089,840	4,829,088	260,752
Net position - end	<u>\$ 5,275,085</u>	<u>\$ 5,089,840</u>	<u>\$ 185,245</u>

Operating revenue increased in 2020 due to an increase in the number of taps sold. Operating expenses increased in 2020 mainly due to the District performing sludge removal maintenance and increased wages.

Budgetary Highlights

The budgetary comparison schedule for the District is included in other supplementary information.

Requests for Information

The District's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. If you have questions about the report or need additional financial information, please contact the District's Office Manager, Trudy O'Brien, P.O. Box 2217, Durango, CO 81302.

Hermosa Sanitation District

Notes to Financial Statements

December 31, 2020

1. Definition of Reporting Entity

The Hermosa Sanitation District (the District) operates under the statutes governing special districts of the State of Colorado. The District was formed in 1982 for the purpose of providing sanitation services for the Hermosa area, north of Durango, Colorado. The District has its own governing board which is elected by residents within the District boundaries.

Since the major part of its income is derived from user charges, the District is classified and accounted for as an "Enterprise Fund". Because of the self-supporting nature of the District, its accounting is on the accrual basis much like a private, profit-making business. However, unlike a private business, the District is not subject to federal and state income taxes.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

2. Summary of Significant Accounting Policies

The accounting policies of the District conform to generally accepted accounting principles as applicable to governmental units accounted for as a proprietary enterprise fund. The enterprise fund is used since the District's powers are exercised in a manner similar to a private utility system where net income and capital maintenance are appropriate determinations of accountability.

Basis of Accounting

The District's records are maintained on the accrual basis of accounting. Revenue is recognized when earned, and expenses are recognized when the liability is incurred. Depreciation is computed and recorded as an operating expense. Expenditures for capital assets are shown as increases in assets. Tap fees and contributed lines received are recorded as capital contributions when received. Penalties and interest, and miscellaneous revenues are recorded when received in cash because they are generally not measurable until actually received.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

Capital Assets

Capital assets are defined by the District as assets with an initial individual cost of more than \$3,000. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Depreciation of all exhaustible capital assets used by proprietary funds is charged as an expense against their operations. Capital assets are reported net of accumulated depreciation on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Utility plant	20 - 40 years
Machinery and equipment	5 - 10 years

Deposits and Investments

Colorado law authorizes the District to invest in obligations of the United States, the State of Colorado, Colorado counties and school districts, repurchase agreements, financial institutions, and local government investment pools. House bill 1056 expanded the list of investments that are legal for local governments.

Deposits are stated at cost which approximates fair value. Investments are stated at fair value. Any differences between the market value and cost of investments are reflected in investment income.

Accounts Receivable

Service fees expected to be collected within one year are shown as current assets. Fees which may not be collected within one year and are subject to liens are shown as non-current assets.

Allowance for Uncollectibles

An allowance for uncollectible accounts receivable amounts is setup as determined necessary by the District. For the year ended December 31, 2020, this allowance has a balance of \$3,205.

Budget and Budgetary Accounting

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The total appropriation can only be modified upon completion of notification and publication requirements. The appropriation is at the total fund expenditures level and lapses at year end. Contributions of sewer lines are not reflected as a budgetary revenue or expenditure as they do not generate or require the use of funds available. For the year ended December 31, 2020, there were no supplemental appropriations.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

Operations

The District distinguishes between operating revenues and expenses and nonoperating items in the Statements of Revenue, Expenses and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's purpose of providing sewer services to its customers. Operating revenues consist of charges to customers for services provided. Operating expenses include the cost of service, administrative expenses and depreciation of assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Tap Fees

Tap fees are recorded as contributions and combined with contributed lines on the Statements of Revenue, Expenses and Changes in Net Position.

Contributed Capital

Contributed capital represent contributions for plant and equipment acquired by the District primarily through donations by customers, developers and sub-dividers. These contributions are in the form of sewer lines installed and paid for by others and deeded over to the District.

Cash and Cash Equivalents

The District considers cash deposits and highly liquid investments with an intended maturity of three months or less to be cash equivalents.

Investments

The District's policy is to account for investments at fair market value in accordance with GASB. Gains or losses on the sale of investments are recognized when the investment is sold.

Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. The net asset amount is also adjusted by any bond issuance deferral amounts. Net position is reported as restricted when there are limitations imposed by creditors, grantors or laws or regulations of other governments. All other net positions are reported as unrestricted. As of December 31, 2020, the District does not have any restricted net position.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

2. Summary of Significant Accounting Policies (continued)

Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Cash, Cash Equivalents and Investments

A Summary of deposits and investments, as of December 31, 2020, follows:

	2020
Cash and cash equivalents	\$ 1,543,898
Investments	<u>2,580,430</u>
Total	<u>\$ 4,124,328</u>

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At December 31, 2020, State regulatory commissioners have indicated that all financial institutions holding deposits for the District are eligible public depositories.

Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The District has no policy regarding custodial credit risk for deposits.

At December 31, 2020, the District's cash deposits had a bank balance of \$1,546,551 and a carrying balance of \$1,543,898. All of these balances were covered by federal depository insurance.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

3. Cash, Cash Equivalents and Investments (continued)

Investments

Colorado statutes specify investment instruments meeting defined rating and risk criteria that local governments may invest in, which include:

- obligations of the United States and certain U.S. government agency securities,
- certain international agency securities,
- general obligation and revenue bonds of U.S. local government entities,
- bankers' acceptances of certain banks,
- commercial paper,
- written repurchase agreements collateralized by certain authorized securities,
- certain money market funds,
- guaranteed investment contracts, and
- local government investment pools.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investments in mutual funds are with the fund, not the securities that make up the fund, therefore interest rate risk is not determinable.

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The District does not have any investments that are exposed to foreign currency risk.

The District does not have a separate investment policy that addresses these types of risk; however the District's deposits and investments are made in accordance with Colorado State statute.

Local Government Investment Pools — As of December 31, 2020, the District had \$2,580,430 invested in the Colorado Local Government Liquid Asset Trust (Colotrust), an investment vehicle established for local government entities in Colorado to pool surplus funds and is registered with the State Securities Commissioner. Colotrust is rated AAAM by Standard and Poor's. Colotrust operates similarly to a money market fund and each share is equal in value to \$1.00. Colotrust offers shares in two portfolios, Colotrust Prime and Colotrust Plus+. The District funds are only invested in Colotrust Plus+. The portfolio may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank serves as custodian for Colotrust's portfolios pursuant to a custodian agreement.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

3. Cash, Cash Equivalents and Investments (continued)

Substantially all securities owned by Colotrust are held by the Federal Reserve Bank in the account maintained for the custodial banks. The custodian acts as safekeeping agent for Colotrust investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by Colotrust. Colotrust records its investments at fair value and the District records its investments in Colotrust using the net asset value method. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice paid.

Fair Value Measurement and Application – The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. All of the District's investments are measured at fair value using Level 1 inputs.

4. Other Assets

Organization costs of the District have been capitalized and are being amortized over a forty year period. Such costs include legal fees, election costs and reimbursements resulting from the formation of the District in 1982.

The unamortized balance of these costs at December 31, 2020 is \$383. Amortization expense for the year was \$200.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

5. Capital Assets

An analysis of the changes in net capital asset for the year ended December 31, 2020 follows:

	Balance December 31, 2019	Additions/ Transfers	Retirements/ Transfers	Balance December 31, 2020
Land	47,444	-	-	47,444
Collection and distribution system	2,846,581	-	-	2,846,581
Equipment	237,766	-	-	237,766
Vehicles	187,039	-	-	187,039
Total capital assets	<u>3,318,830</u>	<u>-</u>	<u>-</u>	<u>3,318,830</u>
Less accumulated depreciation	<u>(2,152,152)</u>	<u>(100,738)</u>	<u>-</u>	<u>(2,252,890)</u>
Total capital assets, net	<u>\$ 1,166,678</u>	<u>\$ (100,738)</u>	<u>\$ -</u>	<u>\$ 1,065,940</u>

Depreciation expense was \$100,738 for the year ended December 31, 2020.

6. Notes Receivable

In 1997, The Ranch, Whispering Pines, Pine Acres, and La Plata Estates subdivisions were annexed into the Hermosa Sanitation District. The costs to build the extensions were financed by the District and are to be paid off by those who use the extensions (The Ranch, Whispering Pines, Pine Acres, and La Plata Estates subdivisions' residents along with any other residents who benefit from these extended service lines). The note receivable of \$37,177 from construction costs is a 20 year loan with 5% interest. On April 10th, 2008, the Board lowered the interest rate to 3%. The note receivable of \$32,312 from tap fees is a 20 year loan with no interest.

7. Net Position

The District has net position consisting of two components — net investment in capital assets and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation. The District had no outstanding debt as of December 31, 2020. As of December 31, 2020, the District had net investment in capital assets of \$1,065,940.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

7. Net Position (continued)

Unrestricted net position consists of net position that does not meet the definition of invested in capital assets or restricted. When an expenditure is incurred for purposes for which both restricted and unrestricted net position are available, restricted resources are considered expended. At December 31, 2020, the District had unrestricted net position of \$4,209,145.

8. Retirement Plans

The District has a 457b retirement plan for full-time employees. It is a defined contribution plan and is administered by Wachovia Securities. The District contributes 8% of the employee's annual salary to the plan. For the year ending December 31, 2020, the District contributed \$7,307.

9. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the Colorado Special Districts Property and Liability Pool (the "Pool"), which is an organization created by inter-governmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate.

It provides coverage for property claims up to the values declared, and liability claims for up to \$1,000,000. It is reinsured for up to 80% of the first \$250,000 of each casualty claim and for 100% of the excess. Public official liability claims are reinsured for the full limit of \$1,000,000.

The District pays annual premiums to the Pool for auto, public officials' liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed its amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on the basis proportionate to other members.

Hermosa Sanitation District
Notes to Financial Statements (continued)
December 31, 2020

10. TABOR

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR. The District's management believes they are exempt from the provisions of the bill.

11. Risks and Uncertainties

On March 11, 2020, the World Health Organization declared the outbreak of coronavirus (COVID-19) a pandemic. In response, many state and local governments instituted restrictions that substantially limited the operations of non-essential businesses and the activities of individuals. While some of these restrictions have been eased, there is still significant uncertainty around the extent and duration of those still in place and the possibility for restrictions to be increased again in the future. The extent to which the pandemic will impact the District's financial results in the coming periods depends on future developments, including where there are additional outbreaks of COVID-19 and the actions taken to contain or address the virus. However, the District believes it will be able to continue operations under current governmental guidelines while mitigating the impact as much as possible to minimize losses.
