## **INDEPENDENT AUDITOR'S REPORT**

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Industrial Park Water & Sanitation District, Commerce City, Colorado, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of Industrial Park Water & Sanitation, Commerce City, Colorado, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Budget to Actual Comparison is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Budget is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, the Budget to Actual Comparison is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## **PARK WATER AND SANITATION DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended December 31, 2020**

As management of Industrial Park Water and Sanitation District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended December 31, 2020. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the District's financial statements, which follow this narrative.

### **Financial Highlights**

- The assets of Industrial Park Water and Sanitation District exceeded its liabilities at December 31, 2020 by \$1,911,920 (*net position*).
- The District's total net position increased by \$176,435 from 2019 due to increased cash and fixed asset investment.
- At the close of the calendar year, the District's business-type activities cash balance of \$1,568,961 is available for spending at the District's discretion (*unrestricted cash*).

For the year ended December 31, 2020, the District had a negative operating budget variance totaling \$76,703 largely due to reduced revenue from Covid-19 shutdowns.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to Industrial Park Water and Sanitation's basic financial statements. The District's basic financial statements consist of two components: 1.) government-wide financial statements of the business-type activities of the District, and 2.) notes to the financial statements. In addition to the basic financial statements, the report contains other supplemental information that will enhance the reader's understanding of the financial condition of Industrial Park Water & Sanitation District.

### **Basic Financial Statements**

The three basic financial statements are the **Government-Wide Financial Statements** consisting of business-type activities. They provide both short and long-term information about the District's financial status. The second section of the basic financial statements is the **Notes**. The notes to the financial statements explain in detail some of the date about the District's business-type activities. Budgetary information required by the General Statutes can be found in the **Supplementary Information** part of the statements.

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
For the Year Ended December 31, 2020**

**Government-Wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the District's finances, similar in format to a financial statement of a private-sector business. The government-wide financial statements provide short and long-term information about the District's financial status as a whole. The three government-wide statements report the District's net assets and how they have changed. Net assets are the difference between the District's total assets and total liabilities. Measuring net assets is one way to gauge the District's financial condition.

The government-wide statements consist only of business-type activities. The business-type activities are those the District charges customers to provide. This consists only of water and sewer treatment services.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide financial statements. The notes begin on page 7 of this report.

**Other Information**

In addition to the basic financial statements and accompanying notes, this report contains certain required supplementary information concerning Industrial Park Water & Sanitation District's budget. The required supplementary information can be found on page 12 of this report.

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**December 31, 2020**

1. ORGANIZATION

Industrial Park Water and Sanitation District was organized as a quasi-governmental entity under the laws of the State of Colorado on August 8, 1969. The District was created to provide for the effective distribution and collection of water and sewage within the boundaries of the District.

The District has a contract with, and is wholly dependent upon, Metropolitan Denver Sewage Disposal District No. 1 for disposal of sewage collected by the District.

The District's operating activities are governed by the Colorado Division of Local Governments administrative rules and regulations as they relate to special districts. The basic operations of the District are financed by charges to individuals and businesses located within the boundaries of the District who utilize the District's services.

B.) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the district relating to the funds and account groups included within these financial statements conform to generally accepted accounting principles applicable to state and local governments.

The following significant accounting policies were applied in the preparation of the accompanying financial statements.

Reporting Entity

According to GASB Statement 14, a primary government is defined as an entity that has a separately elected governing body, is legally separate, and is fiscally independent. The District meets all of these requirements.

Industrial Park Water & Sanitation District (primary government) is a municipal corporation governed by an elected seven-member board. As required by generally accepted accounting principles, these financial statements present the District in its entirety. The District has no component units.

GASB Statement 14 defines a component unit as legally separate organizations for which the elected officials of the primary government (the District) are financially responsible.

Basis of Presentation

The District utilizes a single "proprietary – enterprise fund" to account for all of its operating activities. Proprietary fund accounting is used to account for activities that are financed and operated in a manner similar to private business enterprises. It assumes that the cost of providing services to the general public be recovered primarily through user charges.

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**December 31, 2019**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The District’s books of account and records are maintained on the accrual basis of accounting in conformity with generally accepted accounting principles. The accrual basis of accounting recognizes revenue when earned and expenses when the liability is incurred.

Available funds are expended annually based upon budgetary estimates that are open for public inspection. Budgetary estimates are prorated based upon an annual fiscal year from January 1<sup>st</sup> through of each year. The amounts are posted for public comment and inspection, and are submitted to the Division of Local Governments.

It is the District’s policy to prepare the annual budget on a basis that does not include accounts receivable, accounts payable, or depreciation. Entries to record accounts receivable, accounts payable, and depreciation are booked to the District’s accounting records to convert the “budget basis of accounting” to generally accepted accounting principles. After these adjustments are made, budget basis versus GAAP basis are the same.

Fixed Assets

The District records property, plant, and equipment at cost. The District capitalizes all fixed asset additions in accordance with the standards established by the State of Colorado, Division of Local Governments.

District assets are depreciated on the straight-line basis over their estimated useful lives. Estimated lives are forty years for the sewer collection system, ten years for pump, lift, and other equipment, and five years for certain office equipment. The following is a schedule of 2019 fixed asset activity:

	2019 Balance	2020 Additions	2020 Balance
Land	\$ 22,495		\$ 22,495
Sewer Collection System	129,318		129,318
Sewer Pumping Equipment	95,831		95,831
Equipment & Furniture	619,130	\$ 89,832	708,962
Vehicles	94,900		94,900
	<u>\$ 961,674</u>	<u>\$ 89,832</u>	<u>\$1,051,506</u>

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**December 31, 2020**

**B.) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Insured Deposits

Some of the District's cash and deposits as of December 31, 2020 are fully insured. The FDIC insures each checking account up to \$250,000 per account. At the balance sheet date, the checking account has a balance of \$226,946. The District also has cash of \$1,342,015 invested in three separate Certificates of Deposit accounts held at BOK Financial Bank in an Insured Cash Sweep account which is also FDIC insured up to \$250,000 per account. The remaining \$200,000 is invested in a money market account. All deposits are covered by The Public Deposit Protection Act (PDPA).

TABOR Amendment

Colorado voters passed an amendment of the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The Amendment is complex and subject to judicial interpretation. The District believes it is in compliance with the requirements of the Amendment. However, the District has made certain interpretations of the Amendment's language to determine its compliance.

Encumbrances

Encumbrances represent commitments to unperformed contracts for goods or services. The commitments are not treated as expenditures until a liability is incurred, but are merely used to facilitate effective budget control and cash planning and management. The District does not employ encumbrance accounting, whereby a portion of the applicable appropriation is reserved for open purchase orders.

Related Party Transactions

In 2018, the District entered into a month-to-month lease with the Manager of the District who owns the building. The monthly lease amount is \$1,420. There are no amounts due to or from this related party at December 31, 2020.

**C.) COMMITMENTS AND CONTINGENCIES**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the year ended December 31, 1988, the District agreed to be included to be in a "Colorado Special District Liability Insurance Pool." The fund was organized by Colorado special districts in order to provide insurance coverage that may not otherwise be attainable by its members.

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**December 31, 2020**

C.) COMMITMENTS AND CONTINGENCIES (continued)

The fund provides self- insurance for 20% of all claims made, and had acquired “re-insurance” to cover the remaining 80% coverage. Additionally, the insurance pool has a stopgap claim limit of \$500,000.

In accordance with the terms for inclusion, the District was required to make contributions to the fund in amounts that exceeded the cost of the then annual insurance premium. The contribution requirements were levied on all fund members in order to provide working capital to the fund. The District’s financial commitment to the insurance pool is limited to its pro-rata ownership percentage based upon the ratio of the District’s excess contribution to all participating member’s excess contributions estimated at less than two percent. During 2019, the District contributed \$28,698 to the fund for insurance coverage. There were no significant reductions in insurance coverage from the prior year. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

The insurance pool has no outstanding debt at December 31, 2020.

There is no assurance that the District will not be charged additional fees relating to fund working capital deficiencies in the future, although they are not expected.

The District has entered into a contract with Metro Denver Sewage Disposal District No. 1 (the special connector agreement). The agreement defines the services and charges applied to the District by Metro Denver Sewage Disposal District No. 1 (the special connector agreement). The agreement defines the services and charges applied to the District by Metro Denver Sewage Disposal.

In accordance with the terms of the agreement, each year the District is charged an “estimated annual fee” based upon anticipated flow and treatment levels originating from the District. An annual adjustment of each year’s fee is determined and must be completed by March 31 of the following year.

In this manner, the District may have a contingent liability for additional sewage treatment fees that may be billed to the District as a part of future billings. Annual deficiencies or rebates are billed quarterly to the District as a regular part of the current year billings.

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**December 31, 2020**

Lease Agreements

The District leases a copier. This operating lease has a three year term. The future minimum lease payments on current lease obligations are as follows:

2021	4,047
2022	4,047
2023	2,024

**D. BUDGETS**

As described in Note B, the District prepares annual operating budgets and submits them to the Division of Local Governments in accordance with "Local Government Budget Law." Each operating budget covers the fiscal period beginning January 1<sup>st</sup> and ending December 31<sup>st</sup> of each year. Amounts expended in excess of amounts budgets are a possible violation of the local government budget law.

Each budget is open for public debate prior to adoption.

Colorado local government budget law generally requires that the District adopt revised budgets in accordance with accepted procedures, notices, and debate, and submit them to the Division of Local Governments is amounts expense are in excess of amounts budgeted.

During 2020, the District's revenue was short of budgeted amounts by \$90,160. Operating expenditures were less of the budgeted amounts by \$13,397 resulting in a negative operating budget variance of \$76,763.

**INDUSTRIAL PARK WATER AND SANITATION DISTRICT**  
**COMPARISON OF REVENUES AND EXPENSES WITH BUDGETARY INFORMATION**
