

COMPREHENSIVE ANNUAL **FINANCIAL REPORT**

FISCAL YEAR ENDED JUNE 30, 2020

Colorado Springs
School District 11
Colorado Springs, CO

Colorado Springs School District 11 ("D11") seeks to comply with applicable laws prohibiting discrimination in relation to disability, race, creed, color, sex, sexual orientation (as defined by state law), national origin, religion, ancestry, age, and protected activity in its programs and activities. D11 also provides equal access to the Boy Scouts and other designated youth groups.

Any harassment/ discrimination of students and/or staff, based on the aforementioned protected areas, is prohibited and must be brought to the immediate attention of the school principal, the D11 administrator/supervisor, or the D11 nondiscrimination compliance/grievance coordinator. The following person has been designated to handle inquiries regarding D11's non-discrimination policies: The District 11 NONDISCRIMINATION COMPLIANCE COORDINATOR, Alvin N. Brown, Jr., JD, designated to coordinate compliance with: 1) Equal Pay Act of 1963, 2) Civil Rights Act of 1964, as Amended, 3) Age Discrimination in Employment Act of 1967, 4) Title IX – Education Amendments Act of 1972, 5) Section 504 of Rehabilitation Act of 1973, 6) Pregnancy Discrimination Act of 1978, 7) Americans with Disabilities Act of 1990, and 8) Colorado Anti-Discrimination Act. 9) School District 11 Board of Education Policy AC. Nondiscrimination/Equal Opportunity, 711 East San Rafael Street, Colorado Springs, CO 80903, e-mail: alvin.brown2@d11.org, Phone: (719) 520-2271, Fax: (719) 520-2442. Se habla Español.

Dr. Michael J. Thomas, Superintendent of Schools
Glenn E. Gustafson, Deputy Superintendent, CFO

October 21, 2020

To the Citizens and Members of the Board of Education of Colorado Springs School District 11:

It is our pleasure to submit to you the Colorado Springs School District 11 (the District) Comprehensive Annual Financial Report for the fiscal year ended June 30, 2020. State law requires that school districts publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute assurance that the financial statements will be free from material misstatement.

Colorado Springs School District 11's financial statements have been audited by *BKD LLP*, a firm of licensed certified public accountants. The independent audit firm concluded that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for fiscal year 2019-20 are fairly presented in accordance with GAAP. The independent auditor's report is presented as the first component of the financial section of this report. The independent audit of the District's financial statements would normally include the federally mandated "Single Audit," designed to meet the special needs of federal grantor agencies. However, a delay in the release of various stimulus grants has resulted in the omission of the Single Audit. The district will release the Single Audit in a separate report at a later date once the Single Audit has been completed. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis involving the administration of federal awards.

Generally accepted accounting principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

Colorado Springs School District 11 was established in 1872. The District's boundaries have changed numerous times since its formation. Today, the District is the largest and oldest school district in the Pikes Peak Region and the tenth largest in the State. The District encompasses approximately 70.5 square miles and includes a substantial portion of the City of Colorado Springs and portions of unincorporated El Paso County. According to the 2010 census (latest information available), the District's population was 227,196. A new census will be conducted in 2020.

The District provides a full range of school programs and services authorized by Colorado state statute. This includes pre-kindergarten through twelfth grade education in elementary, middle and senior high schools, special education for disabled students, gifted and talented programs, vocational and adult education, alternative education and other educational programs. The District provides services for approximately 25,000 students and employs about 3,600 teachers, education support professionals and administrators.

The District is governed by a seven-member Board of Education (the Board) whose members are elected by the registered electors of the District for staggered four-year terms of office. Biennial school district elections are held in November of odd-numbered years. The Board is a policy-making body whose primary functions are to establish policies for the District, provide for the general operation and personnel of the District, and oversee the property, facilities and financial affairs of the District. Members of the Board serve without compensation. The Board holds regular meetings generally scheduled for the second and fourth Wednesday of each month, with special meetings held as needed. The Board elects its officers following each biennial election.

The District includes as discretely presented component units six (6) charter schools; GLOBE, Roosevelt Charter Academy, Community Preparation School, CIVA, Eastlake High School and Academy for Advanced and Creative Learning. Charter schools are public schools approved by the Board and authorized by the State of Colorado to provide alternatives for parents, pupils and teachers. These schools have separate governing boards and are funded by the State of Colorado and local property tax funds, with revenues passing through the District. Though fiscally independent, the District provides many supports and services for these charter schools. In addition to the six charters approved by the District, there are approximately 15 other charter schools approved by the state that operate within D11 boundaries. Those charters are authorized by the Colorado Charter School Institute (CSI).

The annual budget serves as the foundation for the District's financial planning and control. It essentially allocates the resources to fulfill our mission, vision and strategic plan. A proposed budget is developed based on budget requests of the individual departments of the District. The Administration presents the proposed budget to the Board of Education for review. Public hearings are held on the proposed budget, and a final budget is adopted no later than June 30, the close of the District's fiscal year. The appropriated budget is prepared by fund, function and department. Department heads may make transfers of appropriations within a department. Transfers of appropriations between departments, however, require the special approval of the District's Board of Education, in accordance with Board Policy.

ECONOMIC CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local Economy

The City of Colorado Springs is a Home Rule Municipality; it is the county seat and most populous city in El Paso County. With a population of 416,427 as of the 2010 Census, and closing in on 500,000 in 2020, it is the second most populous city in the state, behind Denver. The city covers 194.7 square miles making it Colorado's largest city by area. The economy is driven primarily by the military, the high-tech industry and tourism.

Major industries located within the City's boundaries or in close proximity include aerospace, defense, homeland security, cybersecurity, life sciences, sports and related organizations. The City and County also have a significant military presence with Peterson Air Force Base, the Air Force Academy, Fort Carson, Cheyenne Mountain Complex, and Schriever Air Force Base. The local economy was showing strong economic indicators: the local unemployment rate declined, and there was growth in the number of home sales, consumer confidence, hotel occupancy, and property values rose at an accelerated rate in 2019-20. However, the Coronavirus/Covid-19 pandemic hit in early 2020 and the Spring 2020 shutdown has significantly impacted the Colorado Springs economy. While real estate values have continued to surge, unemployment has risen, sales tax revenues have fallen and there is a general level of concern surrounding the economy.

At the state level, economic indicators are pessimistic. State revenues plummeted in the Spring of 2020 causing a decrease in school funding following several positive years of increases in general School Finance Act revenues. The “negative factor” had dropped to approximately \$600 per pupil but has now risen to over \$1 billion which is a reduction from the Constitutional Amendment 23 prescribed levels. In addition, pressures on the state budget continue; Health care, transportation, pension obligations and other state agency requirements will continue to outpace state resource availability in its constitutionally constrained budget. The state does not have a proven or consistent on-going revenue source to fund the increase in K-12 funding and the next several years look grim for the state budget.

The District continues to decline in enrollment at a pace of 1% to 1.5% per year. The District commissioned a demographic study to identify future trends and challenges and is now looking at a new facilities master plan to identify instructional delivery for the future. The District is also developing an academic master plan that will eventually dovetail with the facilities master plan in order to look forward to the District’s long-term vision.

The District is particularly proud of its efforts in re-purposing schools. School facility optimization appears to be working as the district enrollment as a percentage of capacity is very close to the target of 85%. The age of some of our schools is of some concern, however, the district continues to work aggressively on maintaining these facilities and addressing structural concerns. The district’s 2017 Mill Levy Override contains a line item for capital renewal which gives us tremendous hope in terms of rebuilding the district’s capital infrastructure and improving our ability to compete with neighboring school districts.

The District’s largest asset is its capital infrastructure. The District’s schools, which comprise most of its capital assets, range between 15 and 114 years old. In order to properly maintain the District’s capital infrastructure, the District re-assesses its facilities approximately every other year with a 5-year Capital Plan. The most recent 5-year Capital Plan demonstrated a backlog of over \$700 million. The District has recently increased its investment in these facilities with a combination of Mill Levy Override and Capital Reserve Funds in order to prevent the impairment of these assets that could jeopardize the mission of the District. In addition, the District has hired an outside consultant to conduct a Facilities Master Plan (FMP) in order to best determine the optimum utilization of the District’s schools and other facilities. The FMP has been partially delayed by meeting constraints related to the 2020 pandemic but is proceeding towards a final report by the end of calendar year 2020.

Long-term Financial Planning

Looking to the future, the State’s K-12 funding remains uncertain. Without voter approval of new school finance funds, long-term estimates of state funding of K-12 education will be predicated on a renewal of economic growth within the state that is sufficient to cover inflation and student growth, while at the same time being able to meet other resource demands such as Medicaid, social programs, prisons, roads and higher education. Ultimately, the State will be hard pressed to provide its existing service requirements within its constrained resources. The length of the economic recovery from the pandemic will play an important role in quality of education for students in Colorado.

Financial Policies

Detailed descriptions of the District’s accounting policies are contained in the Notes to the Financial Statements on pages 40 to 69 of this report. These policies describe the basis of accounting, funds and accounts used, valuation policies for investments, capital assets and other significant accounting information.

The District maintains a number of budgetary controls. The objective of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of all funds are included in the annual appropriated budget. Budgetary control is established at the fund level. The District maintains an encumbrance accounting system as one method of accomplishing budgetary control. Unencumbered budgets lapse at the end of the fiscal year, with the exception of school budgets where unencumbered budget allocations are available for use in future years, and are reported as assignments of fund balance in the current year.

Major Initiatives

Looking forward to 2020, the District adopted a budget that used a variety of one-time funding mechanisms to maintain a viable program. While there is still tremendous uncertainty regarding the pandemic, the district continues to strive to provide a high quality Pk-12 program that adequately prepares our students to be post-secondary and/or workforce ready. A look back to 2020 from the future will probably show that the pandemic had far more consequences than could ever be contemplated.

AWARDS AND ACKNOWLEDGEMENTS

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to Colorado Springs School District 11 for its comprehensive annual financial report for the year ended June 30, 2019. To receive this honor, a governmental unit must publish an easily readable and efficiently organized CAFR, with content conforming to program standards. Such reports must satisfy generally accepted accounting principles and applicable legal requirements. A certificate of achievement is valid for one year. The District's June 30, 2020 CAFR will also be submitted to ASBO for review.

We express our gratitude to those who assisted in the preparation of this report, which would not have been possible without the dedicated service of District staff. We commend Superintendent Dr. Michael Thomas, district leadership and the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner.

We thank our independent auditors from the certified public accounting firm of *BKD LLP*, for their professional approach in the performance of the audit and their careful review of this document. Their assistance was invaluable in finalizing the report.

Finally, we would like to offer special thanks to the accounting and payroll staff, as well as the school business managers and administrative assistants, who play a key role in the financial reporting of the District year round.

Respectfully Submitted,

Glenn E Gustafson, CPA
Deputy Superintendent/Chief Financial Officer

Colorado Springs School District 11 Strategic Plan

Core Values

Our shared beliefs describe who we are as a community.

We believe:

- *In the inherent worth of every individual and the power of equitable practices to unleash potential.*
- *Diversity enriches the human experience and strengthens community.*
- *Healthy relationships provide mutual understanding and enhance life.*
- *Continuous learning nourishes life.*
- *Integrity is fundamental to building trust.*

Mission

Our purpose - or what we want our students to leave us with.

We dare to empower the whole student to profoundly impact our world.

Mission Impacts

How we will know we are moving toward our mission.

- *Each student will innovatively adapt to evolving challenges.*
- *Each student will actively pursue learning that continually challenges them to grow and achieve their personal best.*
- *Each student will develop personal, social, and cultural competencies and apply them intentionally in their lives.*

Vision

What our future will look like.

We are a dynamic, collaborative community of energized educators, engaged students and supportive partners with a passion for continuous learning.

Strategies

The most critical work needed to move toward our mission.

In pursuit of our mission and mission impacts:

1. *We will cultivate a collaborative culture that promotes intentional, mission-driven change.*
2. *We will align our actions to our shared understanding of and commitment to the strategic plan.*
3. *We will guarantee an ecosystem of equitable practices to meet the unique needs of all.*

Strategic Delimiters

Things that have tripped us up in the past - and we commit not to do going forward.

We will not:

- *Allow past practices to create barriers to new and innovative ideas.*
- *Avoid conflict or difficult conversations, nor engage in problem solving through the lens of blame.*
- *Engage in initiatives that are misaligned with our mission.*

District Strategic Plan Alignment Considerations

The core components of the DSP are more aspirational in nature, and the DSP targets three specific audiences: students, the district at large, and parents/community members. The target audiences are categorized as:

- Students – this pertains to all students, and none are exempted based on differentiated programming or student impact needs (e.g., special education and English Learners). This establishes the foundation for D11's focus on student equity.
- Colorado Springs District 11 – this includes all staff employed or contracted by the district. It is important to include ancillary staff like contractors in this definition because of the direct and indirect impact they have on students.
- Parents/Community – this refers to all parents, guardians, and community members within the boundaries of D11.

Within the three target audiences addressed by the strategic plan, we identify sub-categories impacted within each one. For the table, the sub-categories are specifically defined in the context of the DSP include the following:

Students

- Equity – This was defined as ensuring all students are receiving the support needed to be successful.
- Engagement – Does the program contribute to a student's abilities to progress in their learning?
- Outcomes – Does the program impact a student's learning and educational outcomes? Learning outcomes are the objectives and standards schools and teachers want students to master; and educational outcomes are the educational, societal and life effects achieved because students are educated (e.g., "Each student will develop personal, social, and cultural competencies and apply them intentionally in their lives.")

Colorado Springs District 11

- Equity – Does the program support and equip D11 staff to provide equitable learning environments for all students?
- Engagement – Does the program support D11 staff with the tools they need to provide students with better access to learning; and do they have the tools needed to support and motivate their delivery of high-quality instruction?
- Outcomes – Does the program impact the ability for D11 staff to provide a learning environment and instruction conducive to improving learning and educational outcomes; and does the program impact staff's quality of life in terms of being more successful and able to do their work?
- Foundational – Does the program impact and support the district's ability to provide better learning environments for staff and students; and does it support or improve its ability to support and operate as a school system overall?

Parents/Community

- Equity – Does the program support families, neighborhoods, and the community with appropriate access to the support needed for successful collaboration with the District's Core Values?
- Engagement – Does the program support families, neighborhoods, and the community with opportunities to successfully partner with D11 and students to encourage a "passion for continuous learning?" (DSP – Vision)

Colorado Springs School District 11

Division Organizational Chart

2019-2020

The Superintendent's Cabinet is a cross-section of the central office staff that meet with the superintendent to discuss and make recommendations about a wide array of items and issues related to the management and business of the district in addition to preparation for the school board meetings. The following are members:

Office of Superintendent	
Name	Title
1. Michael J. Thomas	Superintendent of Schools
2. LeAnn Slama	Chief of Staff
3. Devra Ashby	Director, Communications - Public Information Officer
4. Alvin Brown, Jr.	Director, Equal Opportunity Programs/Ombudservices
5. David Khaliqi	Executive Director, Assessment, Enrollment and Research
Personnel and Support Services	
6. Phoebe Bailey	Assistant Superintendent, Personnel Support Services
7. Danniella Ewen	Executive Director, Human Resources
Information Technology Services	
8. John McCarron	Assistant Superintendent/Chief Information Officer
Achievement, Learning, & Leadership	
9. David Engstrom	Deputy Superintendent-Achievement, Learning & Leadership
10. Judy Gudvangen	Executive Director, Student Support Services
11. Dan Hoff	Executive Director, Nontraditional and Alternative Education
12. Sherry Kalbach	Executive Director, K-12 Schools
13. John Keane	Executive Director, K-12 Schools
14. Cynthia Martinez	Executive Director, K-12 Schools
15. Cory Notestine	Executive Director, Student Success & Wellness
Business Services	
16. Glenn Gustafson	Deputy Superintendent, Business Services
17. Laura Hronik	Executive Director, Financial Services
18. Kris Odom	Executive Director, Procurement and Contracting
19. Terry Seaman	Executive Director, Facilities, Operations, Transportation Center
Employee Group Leadership	
20. Connie Rogers	Educational Support Professionals (ESP)
21. Jared Welch	Colorado Springs Association of School Executives (CSASE)
22. Joe Schott	Colorado Springs Education Association (CSEA)

Financial Section

Independent Auditor's Report

Board of Education
Colorado Springs School District 11
Colorado Springs, Colorado

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of Colorado Springs School District 11 (the District), as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the District's Charter Schools, discretely presented component units of the District, which represent all of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors, whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the aggregate discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 15 to the financial statements, in 2020, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that certain budgetary comparison schedules, management's discussion and analysis and pension and other postemployment benefits information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules and the introductory and statistical sections as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and Auditors Integrity Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Colorado Springs School District 11

Management's Discussion and Analysis

As of and for the fiscal year ended June 30, 2020

As management of Colorado Springs School District 11, we offer readers of the District's comprehensive annual financial report (CAFR) this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information furnished in our letter of transmittal.

FINANCIAL HIGHLIGHTS

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at the close of fiscal year 2020 by \$402,859,520. The change in net position was \$141,210,477, which decreased the negative balance from \$544,069,997 at the beginning of the year.
- At the close of the current fiscal year, the District's *governmental funds* reported combined ending fund balances of \$151,899,153 compared to \$110,145,771 at the close of the prior fiscal year.
- Total ending fund balances, for the *governmental funds* at June 30, 2020 included: \$63,897,456 for the General Fund, \$27,966,688 for the Capital Reserve Capital Projects Fund, \$37,363,256 for the Mill Levy Override Fund and \$22,671,753 for non-major governmental funds.
- At June 30, 2020, the *governmental funds* reported total unassigned fund balance of \$46,679,852 in the General Fund.
- At June 30, 2020, the *governmental funds* assigned fund balance was \$30,110,168, including \$3,747,798 for Risk Management, \$791,268 for Preschool, \$208,775 for Strategic Plan, \$142,500 for Time sheet system, \$1,000,000 for Emergency contingency, \$15,327,494 for Capital projects, \$1,852,041 for Food Services, \$2,186,757 for Pupil Activity, \$127,052 for other activity, \$3,521,425 for instructional supply carry over, and \$1,205,058 for non-instructional supply carryover.
- At June 30, 2020, the *governmental funds* restricted fund balance was \$73,557,044 including: \$267,014 for constitutional amendment, \$5,526,269 for the emergency contingency required by Article X, Section 20 of the Colorado state constitution, \$30,400,505 for debt service, and \$37,363,256 for the Mill Levy Override.
- At June 30, 2020, the *governmental fund* nonspendable fund balance was \$1,552,089; \$12,500 for Risk Management Prepaids and \$1,539,589 for Inventories.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to Colorado Springs School District 11's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. They consist of two statements:

The *statement of net position* presents information on all of the District's assets, liabilities and deferred inflows/outflows of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of changes in the financial position of the District.

The *statement of activities* presents information reporting how the District's net position changed during fiscal year 2020. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows for future fiscal periods. Earned but unused vacation leave and uncollected taxes are examples of these types of items.

The governmental activities of the District include instruction, pupil activities, instructional support, general and school administration, business and central services, and transportation. Production Printing and Risk Related activities, reported in the Internal Service Funds, are also considered governmental activities in the government-wide financial statements.

The government-wide financial statements for fiscal year 2020 include not only the District itself (known as the *primary government*), but also six charter schools for which the district is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

Fund Financial Statements

A *fund* is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All District funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintained eight individual governmental funds for fiscal year 2020. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the General Fund, the Capital Reserve Capital Projects Fund, the Mill Levy Override Fund and the Designated Purpose Grants Fund, all of which are considered *major funds*. Combined information is presented for the Food Services Fund, the Pupil Activity Fund, the Other Special Revenue Fund and the Bond Redemption Debt Service Fund, which are considered *non-major funds*.

Proprietary funds. The District maintains two proprietary funds, both of which are *Internal Service funds*. Internal service funds are accounting devices used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its Production Printing and Risk Related activities. Because both of these services predominately benefit governmental functions, they have been included within *governmental activities* in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The two Internal Service funds are combined into a single, aggregated presentation. Individual fund data for the Internal Service funds are provided in the form of *combining and individual statements* as other supplementary information in this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefits of parties outside the District. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available for the support of the District's own programs.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* (RSI) concerning the District. The District adopts an annual appropriated budget for all funds. A budgetary comparison schedule has been provided for the General Fund as well as the Mill Levy Override and Designated Purpose Grants Special Revenue Funds to demonstrate compliance with this budget.

Other Supplementary Information

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information. This section also includes budgetary comparison schedules for the funds not included in the RSI.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

In previous years, the District implemented Governmental Accounting Standards Board (GASB) Statements 68 and 75 respectively, which requires the inclusion of unfunded pension and other postemployment benefit liabilities and other related items. Because of this, the net position was significantly reduced and may not serve as a useful or practical indicator of the District's financial position. For the District's primary government, excluding its component units (charter schools), liabilities and deferred inflows exceeded assets and deferred outflows by \$402,859,520 at June 30, 2020. \$712,274,627 of this relates to GASB Statements 68 and 75. Without these liabilities and the related deferred inflows and outflows, the District's assets would exceed its liabilities by \$309,415,107.

By far the largest liability on the government-wide statements is the net pension liability of \$435,825,770. Other pension related amounts include deferred outflows of resources of \$52,497,798 and deferred inflows of resources of \$304,496,305. In addition to pensions, the District reports liabilities for other postemployment benefits of \$21,431,066 with related deferred outflows of \$2,396,032 and deferred inflows of \$5,415,316. More information on the benefit plans and the pension related items can be found in notes 10 and 11 of this report.

A portion of the District's net position reflects its \$158,287,376 investment in capital assets net of accumulated depreciation and related debt. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position represents resources that are subject to external restriction on how they may be used. At June 30, 2020 net position totaling \$74,558,461 was restricted, with \$28,952,419 restricted for debt service, \$37,363,256 for mill levy override, \$2,449,503 for claims, \$5,526,269 for the TABOR emergency contingency and \$267,014 for constitutional amendment.

For fiscal year 2020, the District's negative net position was decreased by \$141,210,477 resulting from revenues exceeding expenses.

COLORADO SPRINGS SCHOOL DISTRICT 11 **Government-wide Revenues** **Fiscal Year 2020**

COLORADO SPRINGS SCHOOL DISTRICT 11 **Government-wide Expenses** **Fiscal Year 2020**

Governmental Activities. For fiscal year 2020, governmental activities decreased the District's negative net position by \$141,210,477 from \$544,069,997 to \$402,859,520.

- The cost of all governmental activities for the current fiscal year was \$221,896,213.
- Users of some of the District's governmental programs paid \$6,765,393 for services.
- The federal and state governments subsidized certain programs with operating and capital grants and contributions totaling \$41,813,817.
- Most District governmental activities were funded by district and state taxpayers.
- For fiscal year 2020 this portion of governmental activities was funded with \$168,242,272 in property and specific ownership taxes, \$141,711,060 of unrestricted state equalization based on the statewide education aid formula, investment earnings of \$2,247,403, school land fees of \$273,168 and miscellaneous revenues of \$2,053,577.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unrestricted fund balance* may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

General Fund

The General Fund is the major operating fund of the District, providing the majority of the resources for the educational and support programs. Revenues for the General Fund totaled \$235,227,259 in fiscal year 2020 compared to \$224,959,098 in fiscal year 2019, an increase of 4.56%. The following table reflects the amount of revenue from various sources.

<u>Revenues</u>	<u>2020</u>	<u>2019</u>	<u>Amount of Change</u>	<u>Percentage of Change</u>
Property taxes	\$ 58,972,205	\$ 56,645,125	\$ 2,327,080	4.11 %
Specific ownership taxes	16,716,892	17,256,519	(539,627)	(3.13)
State of Colorado				
Equalization	141,711,060	131,845,695	9,865,365	7.48
State grants	8,300,606	7,571,915	728,691	9.62
State on behalf payment	3,739,392	4,477,024	(737,632)	N/A
Federal	462,487	1,954,873	(1,492,386)	(76.34)
Other sources				
Investment income	1,021,110	986,997	34,113	3.46
Tuition	206,675	278,745	(72,070)	(25.86)
Services provided to charter schools	891,868	852,888	38,980	4.57
Miscellaneous	3,204,964	3,089,317	115,647	3.74
Totals	\$ <u>235,227,259</u>	\$ <u>224,959,098</u>	\$ <u>10,268,161</u>	<u>4.56 %</u>

Revenues

Property Taxes. General Fund property tax revenues were based on a levy of 20.715 mills, plus an abatement levy of 0.574 mills, applied against an assessed valuation of \$3,089,557,740. The 2019 General Fund mill levy was 22.556 mills, plus an abatement levy of 0.492, applied against an assessed valuation of \$3,092,095,890. Property taxes accounted for 4.11% of the General Fund revenue for the current fiscal year.

Specific Ownership Taxes. Specific ownership tax is applied to the fair value of vehicles registered in Colorado. Specific ownership tax decreased by 3.13% in fiscal year 2020. This decrease is mostly due to slower new car sales related to the pandemic shutdown in the Spring of 2020. This is the first decrease after seven consecutive years of increases.

State Equalization. State equalization revenue increased by 7.48% in fiscal year 2020 and accounted for 39% of the District wide revenue as a result of increased school funding as part of the FY 19/20 School Finance Act.

State On Behalf Payment. Senate Bill 18-200 was passed in 2018 by Colorado General Assembly to help reduce PERA's unfunded actuarial accrued liability. A bill provision directed the State of Colorado to give a direct distribution payment to PERA to be allocated among its trust funds based on annual covered payroll. The related on behalf payment meets the definition of special funding situation which occurs when a non-employer entity is required to make a contribution to another entity's pension plan. This is shown as revenue on the District's financial statements.

Other Sources. Other sources of revenue consist of state grants, federal grants, investment income, tuition, charter school buy back revenues, and a variety of miscellaneous revenue sources.

Expenditures

Overall expenditures for the General Fund decreased 4.48% from the previous year. This decrease in expenditures is a direct result of spending limitations that were initiated following the pandemic shutdown and the news that K-12 funding would be reduced by the State. The District implemented several processes designed to slow down spending shortly after notification from the State. Those processes included a non-essential employee hiring freeze, a spending freeze and freezes on all temporary and substitute work hours.

<u>Expenditures</u>	2020	2019	Amount of Change	Percentage of Change
Instruction	\$ 145,501,277	\$ 152,714,724	\$ (7,213,447)	(4.72) %
Supporting services				
Pupil activities	15,490,147	15,246,816	243,331	1.60
Instructional support	15,730,037	16,446,963	(716,926)	(4.36)
General administration	1,937,872	1,653,802	284,070	17.18
School administration	19,873,922	20,886,393	(1,012,471)	(4.85)
Business services	2,668,705	2,594,179	74,526	2.87
Maintenance and operations	24,852,012	26,912,493	(2,060,481)	(7.66)
Transportation services	5,038,883	5,546,125	(507,242)	(9.15)
Central services	14,607,465	14,725,832	(118,367)	(0.80)
Miscellaneous support services	2,106,697	2,709,498	(602,801)	(22.25)
Totals	<u>\$ 247,807,017</u>	<u>\$ 259,436,825</u>	<u>\$ (11,629,808)</u>	<u>(4.48) %</u>

Other Major Funds

The Capital Reserve Capital Projects Fund is considered a major fund for the current fiscal year. Total revenues for the Capital Reserve Capital Projects Fund were \$2,475,965, while expenditures totaled \$26,406,520. Other financing sources included transfers of \$5,655,728 from the General Fund and \$12,051,682 from the Mill Levy Override Fund. Primary funding for the Capital Reserve Capital Projects Fund comes from revenues under the Colorado School Finance Act and the District's new 2017 Mill Levy Override (MLO). These funds are used to acquire land and improvements, new facilities, additions, repairs and renovations to existing facilities, equipment and safety upgrades. The District updates its 5-Year Capital Plan annually to reflect work that has been completed as well as urgent, emergent requirements. Rising construction costs and aging infrastructure continue to escalate the District's unfunded capital needs, which currently exceed \$700 million. The District is well into the process of building a Facilities Master Plan, which will provide the foundation for the 5-Year Capital Plan. The Master Plan will be updated biennially to ensure that the 5-Year Capital Plan remains aligned with District priorities.

The Designated Purpose Grants Fund is used to account for state, federal, corporate and foundation funds received for a specific reason or to address a particular student group or need related to student achievement. In most cases the funds supplement the efforts of the District and are not used to supplant district funding responsibilities and expenditures. Revenues were \$21,929,792 while expenditures totaled \$22,086,720, which are partially offset by a transfer from the general fund. Typically grant revenues are equal to expenditures as revenue is not considered earned until it is spent.

The Mill Levy Override Special Revenue Fund is a special revenue fund used to account for funds from the November 2000 and 2017 voter-approved mill levy overrides. This fiscal year total revenues were \$70,034,078 while expenditures totaled \$190,606. Most mill levy override funds are transferred to the fund that actually incurs the expenditure.

Proprietary Funds

The Risk Related Activities Fund provided revenue totaling \$27,827,148 to support expenditures for health, vision, dental, life, employee assistance program and long term disability. Other financing sources included investment income of \$448,807 earned on reserves and transfers from the Mill Levy Override Fund and General Fund of \$7,448 and \$3,000,000 respectively. Net position at June 30, 2020 was \$2,817,034 compared to \$5,589,884 the previous year reflecting a decrease in net position of \$2,772,850.

The Production Printing Fund operating revenues equaled \$1,449,811. Other financing sources included investment income of \$2,758 and a transfer from the Mill Levy Override Fund of \$49,522. Total expenses were \$1,449,441. Additionally there was a transfer to the general fund of \$80,000. Net position at June 30, 2020 was \$858,414 compared to \$885,764 the previous year reflecting a decrease in net position of \$27,350.

GENERAL FUND BUDGETARY HIGHLIGHTS

Total budgeted appropriations adopted by the Board of Education for fiscal year 2019-20 were \$505 million which included General Fund appropriations of \$304.1 million. The adopted budget was modified during the year to reflect changes in funding for a final General Fund budget of \$317.7 million.

The final budget reflected an increase in budgeted expenditures of \$13.6 million from the original adopted budget. This increase was the direct result of additional resources related to previous year fund balance realized, additional school finance funds related to the school finance formula and the recognition of the District's share of the State's supplemental PERA contribution. The PERA contribution was a direct off-set with the pension expenditure but the other resources were appropriated in order to make strategic investments related to the District's mission, vision and strategic plan.

In fiscal year 2020, final budgeted instruction expenditures for the General Fund totaled \$160.0 million while actual expenditures totaled \$145.5 million (\$152.7 million in 2019). Overall General Fund budgeted expenditures totaled \$317.7 million but came in under budget by \$69.9 million.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets for the primary government as of June 30, 2020 totaled \$263,704,560 (net of accumulated depreciation of \$209,126,968). This investment in capital assets includes land, buildings, improvements, and equipment. *(For more detail, see Note 5.)*

Capital Assets			Percentage	
Governmental Activities:	2020	2019	of Change	
Land & improvements	\$ 20,685,303	\$ 20,685,303	-	%
Construction in progress	14,573,655	8,069,764	80.60	
Buildings and improvements	403,271,013	385,622,465	4.58	
Equipment	34,301,557	33,508,411	2.37	
Less accumulated depreciation	(209,126,968)	(198,420,386)	5.40	
Total Governmental Activities	\$ 263,704,560	249,465,557	5.71	%

Long-term Debt. At the end of the current fiscal year, the District had total long-term debt outstanding of \$575,172,045. Accrued interest payable at June 30, 2020 totaled \$1,448,086, including \$1,384,557 due on the general obligation bonds and \$63,529 due on the 2009, 2016 and 2019 certificates of participation. *(More detail on long-term debt can be found in Note 8. More information on pension and other postemployment liabilities can be found in Notes 10 and 11 respectively.)*

Outstanding Long-Term Debt**Governmental Activities:**

	2020	2019	Percentage of Change
Accrued interest payable	\$ 1,448,086	\$ 1,307,037	10.79 %
Net pension liabilities	435,825,770	551,276,312	(20.94)
Other postemployment benefit liabilities	21,431,066	27,533,064	(22.16)
Certificates of participation payable	19,895,646	10,076,196	97.45
General obligation bonds payable	93,404,406	107,291,906	(12.94)
Qualified Zone Academy Bonds	-	4,023,111	(100.00)
Compensated absences payable	3,167,071	3,332,569	(4.97)
Total	<u>\$ 575,172,045</u>	<u>\$ 704,840,195</u>	<u>(18.40) %</u>

COMPONENT UNITS

Only summary information regarding component units appears in the District's financial statements. The District has six component units, all of which are charter schools. Their financial statement information is presented in a separate column in the Government-wide Statement of Net position and in the Statement of Activities.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

Executive Director of Financial Services
1115 N. El Paso Street
Colorado Springs, CO 80903

Basic Financial Statements

The following basic financial statements, along with the notes to the basic financial statements, present an overview of the District's financial position on June 30, 2020, and the results of operations for Governmental, Proprietary, and Fiduciary Funds for the year ended.

Reconciliation of the Governmental Funds

Balance Sheet to the Statement of Net Position

June 30, 2020

Total fund balances - governmental funds \$ 151,899,153

Amounts reported for governmental *activities* in the statement of net position are different because:

Prepaid items, related to operating leases, used in governmental activities may be expensed in the period paid and, therefore, are not reported as assets in governmental funds. 150,000

Unearned property tax revenue: Revenues that do not provide current financial resources are unearned on the governmental fund financial statements but recognized on the government wide financial statements. 5,066,450

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The cost of the assets is \$471,520,747 and the accumulated depreciation is \$208,507,012. 263,013,735

Internal service funds are used by the District's management to charge the costs of production printing and the costs of health insurance to the individual funds. The assets and liabilities of the internal service funds are included with governmental activities. 3,675,448

Bond Premiums, discounts and deferred loss on refundings are recognized as other financing sources/uses when issued and are deferred and amortized in the statement of activities. The net unamortized portion of these long-term debt related items is included in the governmental activities statement of net position. (3,695,319)

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

GO bonds payable	\$ (85,590,000)	
Accrued interest on bonds	(1,384,557)	
COP's payable	(19,860,000)	
Accrued interest on COP's	(63,529)	
Compensated absences	(1,993,219)	
Net pension liabilities	(435,825,770)	
Deferred inflows of resources, pension related amounts	(304,496,305)	
Deferred outflows of resources, pension related amounts	52,497,798	
Other postemployment benefit liabilities	(21,431,066)	
Deferred inflows of resources, other postemployment benefit related amounts	(5,415,316)	
Deferred outflows of resources, other postemployment benefit related amounts	2,396,032	
Claim liabilities	(1,803,055)	
		<u>(822,968,987)</u>

Total net position (deficit) - governmental activities \$ (402,859,520)

The accompanying notes are an integral part of the basic financial statements.

The accompanying notes are an integral part of the basic financial statements.

Colorado Springs School District 11

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the Year Ended June 30, 2020

Total net change in fund balances - governmental funds \$ 41,753,382

Amounts reported for governmental *activities* in the statement of activities are different because:

Unavailable property taxes: revenues that do not provide current financial resources are unavailable on the governmental fund financial statements but recognized on the government-wide financial statements 1,946,225

Expenditures for insurance and similar services extending over more than one accounting period may be accounted for as expenditures of the period of acquisition. (75,000)

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. Capital outlays of \$25,073,600 exceeded depreciation of \$10,766,915 in the current period. 14,306,685

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

New debt	(13,340,000)	
Retirement of COP's	3,435,000	
Retirement of GO bonds	12,785,000	
Retirement of QZAB	4,023,111	
Amortization of premiums and deferred amounts	719,434	
Interest Expense	<u>(141,049)</u>	
		7,481,496

In the statement of activities, certain operating expenses - compensated absences (vacation and sick leave), special termination benefits (early retirement), liability claims and pension expense - are measured *by the amounts earned* during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used or due (essentially, the amounts actually paid). This amount represents the net effect of compensated absences, claims payable and pension-related amounts on the statement of activities.

Compensated absences	210,925	
Claims payable	(303,435)	
Pension expense	(78,136,047)	
Other postemployment benefit expense	<u>(369,332)</u>	
		78,597,889

Internal service funds are used by the District's management to charge the costs of production printing and the costs of health insurance to the individual funds. The change in net position of these funds is reported with governmental activities. (2,800,200)

Change in net position of governmental activities **\$ 141,210,477**

Colorado Springs School District 11

Notes to the Basic Financial Statements

For the Year Ended June 30, 2020

NOTE 1: *SUMMARY OF ACCOUNTING POLICIES*

The financial statements of Colorado Springs School District 11, Colorado Springs, Colorado (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

The Financial Reporting Entity

The inclusion or exclusion of component units is based on a determination of the elected officials' financial accountability to their constituents, and whether the financial reporting entity follows the same accountability. Furthermore, the financial statements of the reporting entity should enable the reader to distinguish between the primary government (including its blended component units, which are, in substance, part of the primary government) and discretely presented component units. The criteria used for determining whether an entity should be included, either blended or discretely presented, includes but is not limited to fiscal dependency, imposition of will, legal standing, and the primary recipient of services.

The District's Board of Education authorized six charter schools for operation during fiscal year 2020, those schools are: GLOBE, Roosevelt, Community Preparation School, CIVA, Eastlake High School, and Academy for Advanced and Creative Learning (AACL). These are shown as discretely presented component units. Charter schools are deemed to be fiscally dependent upon the District, since the District provides the majority of support in the form of per-pupil operating revenue and the potential exists that their exclusion from the District's financial reporting entity would result in misleading financial reporting. The members of each of the six charter schools' governing boards are appointed separately from the District. Financial statements for the charter schools, reported under GASB standards, may be obtained by writing to the respective charter schools.

Government-wide and Fund Financial Statement Presentation

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. Exceptions are charges for inter-fund services provided and used. Elimination of these charges would distort the direct costs and program revenues reported for the various functions. Governmental activities are supported by taxes and intergovernmental revenues. The *primary government* is reported separately from certain legally separate *component units*, for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. *Program revenues* include: (1) fees and charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues, including all taxes, are reported as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as non-major funds.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. On an accrual basis, property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental Funds are used to account for the District's general government activities. Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the period or soon enough thereafter to pay liabilities of the current fiscal period. For this purpose, the District considers property tax revenues to be available if they are collected within 60 days, and all other revenue 90 days, of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from long-term debt and capital leases are reported as other financing sources.

Those revenues subject to accrual are property taxes, interest revenue and charges for services. Specific ownership taxes collected and held by the county at year end, on behalf of the District, are also recognized as revenue. Other revenues, such as transportation, vocational and special education, are not subject to accrual because, generally, they are not measurable until received in cash. Entitlements and shared revenues are recorded at the time of receipt, or earlier if the accrual criteria are met.

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal accounting entity, with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds maintained by the District is consistent with legal and managerial requirements. The District reports the following funds:

Major Governmental Funds

The ***General Fund*** is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The ***Capital Reserve Capital Projects Fund*** is used to account for resources to be used for ongoing capital needs, such as site acquisition, building additions and equipment purchases.

The ***Mill Levy Override Fund*** is a special revenue fund used to account for funds from the November 2000 and the November 2017 voter approved mill levy overrides.

The ***Designated Purpose Grants Fund*** is a special revenue fund used to maintain separate accounting for federal, state and local grant funded programs, which normally have a different fiscal period than that of the District.

Non-major Governmental Funds

The ***Food Services Fund*** is a special revenue fund used to record financial transactions related to food service operations.

The ***Bond Redemption Fund*** is a debt service fund, which accounts for the servicing of long-term debt, not financed by the Capital Reserve Capital Projects Fund or other funds.

The ***Pupil Activity Fund*** is a special revenue fund used to record financial transactions related to school sponsored pupil intrascholastic and interscholastic athletics, clubs, and other activities.

The ***Other Special Revenue Fund*** is used to record financial transactions related to non-school activities.

Proprietary Funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for services. Operating expenses for internal service funds include cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Internal Service Funds account for operations that provide services to other funds within the District. Such services include printing services, employee benefits, and insurance programs. These services are provided to other funds, or to other governments, on a cost-reimbursement basis.

Fiduciary Funds account for assets held by the government in a trustee capacity or as an agent on behalf of others. Trust funds account for assets held by the District under the terms of a formal trust agreement.

The **Private Purpose Trust Fund** was created to act as a custodian for funds, such as scholarships, held in trust for the benefit of private individuals or organizations. All resources of the fund, including any earnings on invested resources, may be used to support those private individuals and organizations. There is no requirement that any portion of these resources be preserved as capital.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

Assets, Liabilities, Deferred Inflows/Outflows of Resources and Fund Balances/Net Position

Cash and Investments

The pooled cash concept is used whereby cash balances of each of the District's funds are pooled and invested in certain investments. Investment income is allocated to all funds except the Designated Purpose Grants, Mill Levy Override, Pupil Activity and Other Special Revenue funds based on each fund's month-end balance. For the statement of cash flows, the following are considered to be cash and cash equivalents: cash on hand; cash in the bank; and highly liquid investments which have a maturity of three months or less when purchased or which are subject to withdrawal.

As of June 30, 2020, the District's investments consist of money market funds, external investment pools and a government agency security. The money market funds are reported at amortized cost. The external investment pool (COLOTRUST) is not SEC-registered and is regulated by the State of Colorado, Department of Regulatory Agencies, Division of Securities and is reported at net asset value. The government agency security is reported at amortized cost, which approximates fair value, because it had a maturity of one year or less at the time of purchase.

Restricted Investments

Restricted investments consist of \$12,678,707 in the Capital Reserve Capital Projects Fund and \$16,023,693 in the Bond Redemption Fund. Each amount is restricted by debt indentures.

Cash Held in Trust

As of June 30, 2020 the District had \$2,466,841 held in trust by the County Treasurer, which is included as a receivable on the balance sheet and statement of net position. El Paso County collects the property taxes for the school district and holds the funds in trust until sent to the District monthly.

Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. In the fund financial statements, these receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

Inventories and Prepaid Items

Inventories are stated at cost on the first-in, first-out (FIFO) basis. When individual inventory items are purchased, they are recorded as assets. When they are consumed, they are recorded as expenditures in governmental funds or as expenses in proprietary funds. Although classified as current assets, fund balance is considered nonspendable for inventory balances.

Inventories purchased by the Food Service Fund are stated at cost as determined by the first-in, first-out method. Commodity inventories are stated at USDA's assigned values, which approximate the acquisition value at the date of receipt. Expenditures for food items are recorded when used. The federal government donates surplus commodities to supplement the national school lunch programs. Commodity contributions received by the District are recorded as revenue when received. Because the commodities qualify as an inventory of supplies, they are recognized using the consumption method (initially recognize an asset and then recognize expenditures as supplies are consumed).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include land, buildings and improvements, and equipment, are reported in the government-wide financial statements. All purchased capital assets are valued at acquisition cost where historical records are available and at an estimated acquisition cost where no historical records exist. Effective July 1, 2001, the capital asset threshold for equipment was increased to maintain a balance between the accountability of assets and managing the cost of recording and tracking these assets. The capitalization level for equipment is \$5,000. Donated capital assets are valued at their estimated acquisition value on the date received. Major outlays for buildings and improvements are capitalized for all projects with a total cost greater than \$25,000.

The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend the life of an asset are not capitalized. Improvements are capitalized and are depreciated over the remaining useful lives of the related capital assets, as applicable.

Buildings, improvements and equipment are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings	100
Building improvements	30
Equipment – vehicles	10/15
Equipment – other	5/10
Equipment – technology	5

Compensated Absences

Under the District's policies, employees earn vacation leave and sick leave based on longevity of service or position. Accrued sick leave is payable only as part of the early retirement program for employees meeting the seniority rules for their respective employee organizations. Accrued vacation leave is payable upon resignation, termination, retirement or death.

In accordance with the governmental accounting standards, the District has recorded the accrued liability for vacation pay in the accompanying district wide financial statements. In the governmental funds, the liability is recorded when due. Employees are limited in the number of unused vacation hours they may carry forward at year-end.

Accrued sick leave payable to recent retirees meeting the seniority rules of the District is recorded as short-term debt in the respective governmental and proprietary funds. The District estimates the amount of accrued sick leave payable in future periods based on historical data. This liability is recorded as long-term in the proprietary funds. The long-term, unpaid liability for these compensated absences for the governmental funds is recorded in the government-wide financial statements as long-term debt.

Long-term Obligations

In the government-wide financial statements, and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the debt using a method which approximates the effective interest method. COP's and bonds payable are reported net of the applicable premium or discount. Issuance costs are recognized as an expense in the period incurred. Deferred amounts on debt refundings are reported as deferred inflows/outflows of resources and are amortized over the life of the old debt or new debt whichever is shorter.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions and Other Postemployment Benefits

The District participates in the SCHDTF, a cost-sharing multiple-employer defined benefit pension fund, and the HCTF, a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan. Both trusts are administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability (NPL), net OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, pension and OPEB expenses, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the trusts have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The employer portions of contributions made to the School Division Trust Fund (SCHDTF) and the Health Care Trust Fund (HCTF) are reported as benefit expenditures in the current period. Investments are reported at fair value.

Unearned Revenue

Unearned revenue in the statement of net position and fund financial statements consists of unearned grant proceeds and unused federal commodities at year end.

Workers Compensation Claims and IBNR

The District is self-insured for workers compensation claims and accounts for the related activity in the Risk Management Fund which is a sub-fund of the General Fund. The administrators of the fund manage the claims and maintain in-house records of claims and judgments.

The funding for the liabilities in the Risk Management Fund is determined each year on the basis of past experience and future projections. The District uses a claims reporting program called STARS to track all risk management liabilities. The District computes its risk liabilities from the STARS program based on actual claims filed and estimated incurred but not reported (IBNR) claims. The District purchases stop-loss insurance policies for payment of claims in excess of the self-insurance retention limit.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category.

The first is the deferred charge on refundings reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

The second and third are shown as pension and other post-employment benefit (OPEB) related amounts and includes items related to the District's portion of the Colorado Public Employees Retirement Association (PERA) benefit plans. This includes the difference between expected and actual experience, any changes of assumptions or other inputs, and the net difference between projected and actual investment earnings on pension and OPEB plan investments. More information on pension related items is included in Note 10. More information on OPEB related items is included in Note 11.

In addition to liabilities, the statement of financial position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has two items reported in this category.

The items included in this category are the pension and OPEB related deferred inflows of resources. These deferred inflows result from the difference between expected and actual experience, the changes of assumptions of other inputs, and the net difference between projected and actual investment earnings on pension and OPEB plan investments. More information on pension related items is included in Note 10. More information on OPEB related items is included in Note 11.

Fund Balances

In accordance with the GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, fund balances are classified in one of five categories: nonspendable, restricted, committed, assigned and unassigned. Nonspendable fund balance represents assets that will never be converted to cash. Restricted fund balances reflect resources that are subject to externally enforceable legal restrictions. Committed fund balance is the portion that is limited in use by the Board of Education. Formal Board action is required to remove or adjust this limitation.

Assigned fund balance displays the Districts intended use of these resources. Board policy DA – Fiscal Management – Fund Balance authorizes the Superintendent, the Chief Financial Officer or the Executive Director of Financial Services to assign fund balances. Unassigned fund balance for the general fund represents the net resources in excess of the prior classifications. It is the District’s policy to maintain a positive unassigned fund balance in the General Fund. When multiple categories of fund balance are available for expenditure, balances will be used from the restricted classification first, and then committed, assigned and unassigned fund balances sequentially.

Net Position

Net position represents the difference between the assets and deferred outflows of resources and liabilities and deferred inflows of resources in the proprietary and government-wide financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in financial statements when there are limitations imposed on their use through external restrictions by creditors, grantors, or laws or regulations of other governments. Net position restricted by enabling legislation consists of \$5,526,269 for constitutional amendment – TABOR, \$267,014 for multi-year obligations as required by constitutional amendment, and \$37,363,256 for mill levy override. An additional \$28,952,419 is restricted for debt service per covenants and \$2,449,503 is restricted for insurance claims.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District’s practice to consider restricted-net position to have been depleted before unrestricted - net position is applied.

Inter-fund Transactions

Inter-fund transactions are accounted for as expenditures/expenses when they constitute reimbursements from one fund to another. These transactions are recorded as expenditures/expenses in the reimbursing fund and are recorded as reductions of expenditures/expenses in the fund receiving the reimbursement. All other inter-fund transactions are reported as transfers.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2: *DEPOSITS AND INVESTMENTS*

Custodial Credit Risk – For deposits, custodial credit risk is the risk that, in the event of a bank failure, the District's deposits might not be recovered. However, there is no custodial credit risk for public deposits because they are collateralized under the Colorado Public Deposit Protection Act (PDPA). The PDPA requires that deposits of all units of local governments be held at eligible public depositories, whose eligibility is determined by state regulators.

Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. The PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

FDIC insurance coverage is \$250,000 per qualified account. Cash deposits of the District totaled \$19,041,952 at fiscal year-end including \$79,047 of fiduciary fund deposits. Federal insurance coverage totaled \$250,000. The balance of \$18,791,952 falls under the provisions of the Colorado Public Deposit Protection Act. The District also had \$10,263 in petty cash on hand. Cash deposits of the component units of the District consisted of \$15,881,776. Federal insurance coverage totaled \$2,000,000. The balance of \$13,881,776 falls under the provisions of the Colorado Public Deposit Protection Act.

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District and its component units will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's safekeeping bank must meet the following requirements under District policy: the purchase and sale of securities and repurchase agreements shall be settled on a delivery versus payment basis. Ownership of all securities shall be perfected in the name of the District.

Sufficient evidence to title shall be consistent with modern investment, banking and commercial practices. As of June 30, 2020, none of the District's investments were exposed to custodial credit risk as they were all insured or registered in the District's name held by the counterparty or the counterparty's trust department. The District's investment in the external investment pool and the money market funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Interest Rate Risk – Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. To manage exposure to this risk, the District's board approved investment policy limits investment maturities to five years or less. The Colorado revised statute 24-75-601 also limits investment maturities to five years or less.

Credit Risk – Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Credit risk in the portfolio is minimized by investing the majority of assets in US Treasury and Instrumentalities which have the support of the US government and failure to receive maturing funds is remote.

The District is also compliant with state laws that limit investments for school districts to U.S. treasury issues, other federally backed notes and credits, and other agency offerings. Other investment instruments including bank obligations, general obligation bonds, and commercial paper are limited to ones of the highest rating categories of at least one nationally recognized rating agency. State law further limits investments in money market funds to those institutions with over \$1 billion in assets or the highest credit rating from one or more nationally recognized rating agencies.

COLOTRUST assets are approximately \$9 billion, rated AAAM by Standard and Poors, and maintains a constant net asset value of \$1 per share. COLOTRUST is regulated by the State of Colorado, Department of Regulatory Agencies, Division of Securities, which establishes policies for and reviews the operation of local government investment pools in the state. Local government investment pools in Colorado must be organized under Colorado Revised Statutes, and are therefore subject to oversight by the Colorado Securities Commission, with quarterly reporting and annual audits required.

Concentration of Credit Risk – The District's investment policy seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the District to meet its anticipated cash requirements. The District's policy requires that at least 50% of the portfolio will be invested in some combination of U.S. Treasury securities, Federal Instrumentality securities, Repurchase Agreements or Eligible Local Governmental Investment Pools.

The 50% requirement in this combination of safe investments assures that the District's credit risk is spread across a variety of securities and that imprudent concentrations will not occur in slightly more aggressive securities. None of the District's investments in any one issuer, as of June 30, 2020, excluding money market funds and the external investment pool, represent five percent or more of total investments.

Fair Value Measurement and Application – GASB 72 addresses accounting and financial reporting issues related to fair value measurements. Fair value is the price that would be received by the District to sell an asset or paid by the District to transfer a liability in an orderly transaction. The District categorizes its fair value measurement within the fair value hierarchy of three levels, as established by generally accepted accounting principles. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are quoted market prices for similar assets or liabilities in markets that are not active, or other than quoted prices that are not observable. Level 3 inputs are unobservable, such as property valuation or an appraisal. ColoTrust falls under the existing exemptions to fair value measurement for pools.

As of June 30, 2020 the District had the following investments. These investments are internally pooled to maximize investment safety, liquidity, and interest yield.

<u>Investments</u>	<u>Maturities</u>	<u>Amortized cost</u>	<u>Standard & Poors Rating</u>	<u>Fair Value Measurement</u>
Money Market Funds				
Wells Fargo - money market fund (MMF)	Less than 1 year	2,925,246	AAAm	Amortized Cost
Government Agency Securities				
US Bank TABOR MYO - First American Government Obligation Fund	Less than 1 year	689,900	AAAm	Amortized Cost
External Investment Pool				
Local government investment pool-ColoTrust	Less than 1 year	158,078,484	AAAm	Net Asset Value
UMB - Local government investment pool- ColoTrust	Less than 1 year	15,789,839	AAAm	Net Asset Value
Total investments		<u>\$ 177,483,469</u>		

NOTE 3: TAXES

Property Taxes

Property taxes for a calendar year are certified in arrears to the county on December 10 and attached as a lien on property the following January 1. For example, property taxes owed in 2020 are certified to the county in December 2019 and are available for collection on the lien date, January 1, 2020. Property taxes are payable in full by April 30 or in two equal installments due February 28 and June 15. During calendar year 2020, El Paso county granted an extension that allowed tax payers to delay property tax payments until September 1. We do not expect this extension to be granted in future years. The county bills and collects property taxes for all taxing districts in the county. The property tax receipts collected by the county are generally remitted to the District in the subsequent month.

Specific Ownership Taxes

Specific ownership taxes are collected by the county for motor vehicle and other personal property registered in the District's assessment area. The tax receipts collected by the county are remitted to the District in the subsequent month. Specific ownership taxes are recorded as revenue when collected by the county.

NOTE 4: *INTER-FUND RECEIVABLES, PAYABLES, AND TRANSFERS*

Receivables and Payables

All inter-fund receivables and payables are created in conjunction with the District's pooled cash and investment portfolios. Balances are routinely cleared as a matter of practice. All balances are expected to be repaid within one year.

The following schedule reflects the District's inter-fund receivables and payables as of June 30, 2020:

	Governmental Activities	
	Interfund Receivable	Interfund Payable
Governmental Funds:		
General fund	\$ -	\$ 70,020,090
Capital reserve fund	15,491,790	-
Mill levy override fund	31,306,845	-
Designated purpose grants fund	18,163,095	-
Non-major governmental funds	4,246,800	-
Internal Service Funds	811,560	-
Total receivables/payables	<u>\$ 70,020,090</u>	<u>\$ 70,020,090</u>

At year-end the General Fund reports a substantial inter-fund payable to other funds due to pooled cash accounting as described in Note 1. The payable balance in the non-major governmental funds is associated with temporary borrowing to cover expenditures for reimbursement based grants.

Transfers

The District transfers amounts from the General Fund to other funds to meet their operational needs and legal requirements. The District uses a separate accounting fund to act as a conduit for all mill levy plan items in order to maintain a high degree of accountability by tightly restricting tax proceeds, separately accounting for tax revenues and transfers and preventing the co-mingling of revenues and expenditures in the general fund. MLO covered expenditures are segregated by account string identification within the general fund and then subsequently reimbursed by an operating transfer from the MLO Fund. At June 30, 2020 the detail for these transfers is as follows:

	Transfers Out			
	General Fund	Mill Levy Override Fund	Internal Service Funds	Total
Transfers In				
Governmental Funds:				
General fund	\$ -	\$ 45,661,198	\$ 80,000	\$ 45,741,198
Capital reserve fund	5,655,728	12,051,682	-	17,707,410
Designated purpose grants fund	156,928	-	-	156,928
Non-major governmental funds	-	579,008	-	579,008
Total governmental funds	5,812,656	58,291,888	80,000	64,184,544
Internal Service Funds	3,000,000	56,970	-	3,056,970
Total transfers in / out	<u>\$ 8,812,656</u>	<u>\$ 58,348,858</u>	<u>\$ 80,000</u>	<u>\$ 67,241,514</u>

NOTE 5: CAPITAL ASSETS

Capital asset activity and depreciation expense for the year ended June 30, 2020 were as follows:

	Primary Government			
	Beginning Balance	Additions	Retirements	Ending Balance
Governmental Activities:				
Non-depreciable assets:				
Land	\$ 20,685,303	\$ -	\$ -	\$ 20,685,303
Construction in progress	8,069,764	21,148,002	(14,644,111)	14,573,655
Total non-depreciable assets	28,755,067	21,148,002	(14,644,111)	35,258,958
Depreciable assets:				
Buildings and improvements	385,622,465	17,648,548	-	403,271,013
Equipment	33,508,411	921,161	(128,015)	34,301,557
Total depreciable assets	419,130,876	18,569,709	(128,015)	437,572,570
Total gross assets- governmental activities	447,885,943	39,717,711	(14,772,126)	472,831,528
Less accumulated depreciation for:				
Buildings and improvements	(174,208,587)	(9,226,671)	-	(183,435,258)
Equipment	(24,211,799)	(1,607,926)	128,015	(25,691,710)
Total accumulated depreciation	(198,420,386)	(10,834,597)	128,015	(209,126,968)
Net capital assets-governmental activities	\$ 249,465,557	\$ 28,883,114	\$ (14,644,111)	\$ 263,704,560

Depreciation Expense:

Governmental activities:

Instruction	\$ 8,277,705
General administration	184,430
Business services	31,292
Maintenance and operations	396,406
Transportation	1,066,547
Central services	712,829
Miscellaneous support services	97,706
	10,766,915
Internal service funds	67,682
	\$ 10,834,597

Component Units

Charter school capital asset activity for the year ended June 30, 2020 was as follows:

Component Units	Beginning Balance	Additions	Retirements	Ending Balance
Non-depreciable assets:				
Land	\$ 285,000	\$ -	\$ -	\$ 285,000
Construction in progress	253,402	1,085,552	(135,737)	1,203,217
Depreciable assets:				
Buildings and improvements	2,317,136	135,737	(43,713)	2,409,160
Equipment	1,663,257	66,309	(159,057)	1,570,509
Total depreciable assets	3,980,393	202,046	(202,770)	3,979,669
Less accumulated depreciation:				
Buildings and improvements	(588,041)	(54,212)	130,431	(511,822)
Equipment	(1,289,291)	(73,260)	-	(1,362,551)
Total accumulated depreciation	(1,877,332)	(127,472)	130,431	(1,874,373)
Net capital assets-component units	\$ 2,641,463	\$ 1,160,126	\$ (208,076)	\$ 3,593,513

NOTE 6: ACCRUED COMPENSATION/COMPENSATED ABSENCES

Salaries and related benefits of certain school-based personnel are paid over a ten or twelve-month period beginning in September, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, as of June 30, 2020 are:

Accrued Compensation

Governmental Activities:

General Fund	\$ 31,255,676
Capital Reserve Capital Projects Fund	100,119
Designated Purpose Grants Fund	1,737,407
Non-major Governmental Funds	223,465
Total Governmental Funds	<u>33,316,667</u>
Internal Service Funds	103,511
Total	<u>\$ 33,420,178</u>

The District accrues compensated absences to provide an accurate reporting of liabilities associated with vacation, sick leave, and post-retirement insurances. These benefits, earned, but unpaid, as of June 30, 2020 are:

Accrued Compensated Absences

Governmental Activities:

General Fund	\$ 1,145,643
Total Governmental Funds	<u>1,145,643</u>
Internal Service Funds	28,209
Sick leave and sick leave bank	<u>1,993,219</u>
Total Compensated Absences	<u>\$ 3,167,071</u>

The General Fund compensated absences are pending payouts of unused sick leave owed to employees separated from active service as of June 30, 2020.

The accrued portion of these absences by employee group for all funds at June 30, 2020, is as follows:

	Educational		Executive		Sick	
Compensated Absences	Teachers	Support Professionals	Professionals	Leave Bank	Total	
Insurance Benefits	\$ 219,411	\$ 94,292	\$ 2,232	\$ -	\$ 315,935	
Short-term sick leave (RSL)	511,546	185,081	449,017	-	1,145,644	
Long-term vacation	-	214,306	304,157	-	518,463	
Long-term sick leave	587,445	197,761	214,048	-	999,254	
Long-term sick bank	-	-	-	187,775	187,775	
Totals	<u>\$ 1,318,402</u>	<u>\$ 691,440</u>	<u>\$ 969,454</u>	<u>\$ 187,775</u>	<u>\$ 3,167,071</u>	

Changes in compensated absences for the year are as follows:

	Balance at June 30, 2019	Additions	Deletions	Balance at June 30, 2020	Due Within One Year
Governmental Activities	<u>\$ 3,332,569</u>	<u>\$ 1,556,983</u>	<u>\$ 1,722,481</u>	<u>\$ 3,167,071</u>	<u>\$ 1,145,643</u>

Internal service funds predominantly service the governmental funds. Accordingly, long-term liabilities for the funds are included as part of the above totals for governmental activities. For governmental activities, claims and judgments are liquidated by the Risk Related Activities Fund, and compensated absences are liquidated by the General Fund.

Early Retirement Program

Early retirement program obligations of the District are recorded as accrued liabilities at June 30, 2020. The District's total cost for early retirement obligations in fiscal year 2020 was \$1,145,643, and is shown as compensated absences due within one year. The District anticipates a savings as a result of these early retirement buyouts in excess of any incentive payments made to retirees. These savings will be reflected in lower salary and fringe benefit totals within the budget in future years.

NOTE 7: *LEASES*

Operating Leases

The District leases fiber optic cable from Colorado Springs Utilities. This agreement allows the District to use capacity on an existing fiber optic cable network for telecommunication services. An initial payment in the amount of \$847,392 was made in fiscal year 2008 which provided usage for 10 years from fiscal year 2008 through fiscal year 2017. The district has negotiated to extend the lease on an annual basis with future lease payments of \$110,592 due in July each year to cover usage for that fiscal year.

A usage agreement was entered into on July 1, 2012 with the Colorado Springs World Arena. This agreement provides usage of the World Arena facilities for graduations, hockey practice and games through June 30, 2022. An initial payment of \$315,000 was made in fiscal year 2013 as base rent through fiscal year 2017; the first five years of the agreement. An additional payment of \$375,000 was made on July 1, 2017 for base rent for years 6 through 10 of the agreement.

In the governmental funds, operating lease payments are recognized as expenditures in the year in which they are paid. In the government-wide statements, operating lease payments are recorded as prepaid expenses and are recognized as expenses equally over the life of the lease. The balance of the prepaid leases on the statement of net position as of June 30, 2020 is \$150,000.

NOTE 8: *LONG-TERM DEBT*

General Obligation Bonds Payable

The District issues general obligation bonds for the purpose of (i) financing the construction of new school buildings; (ii) paying the cost of enlarging, improving, remodeling, repairing and making additions to existing District facilities; (iii) equipping or furnishing District facilities, particularly with technological improvements; (iv) payment for the acquisition of land; and (v) payment of bond issuance costs.

General Obligation bonds payable at June 30, 2020, are as follows:

<u>Description, Interest Rates and Maturity Dates</u>	<u>Principal Balance June 30, 2020</u>
Series 2006-B General Obligation Refunding Bonds in the original amount of \$38,320,000 issued on September 14, 2006 due in varying installments through December 1, 2021, with an average coupon rate of 5.18%	15,610,000
Series 2012 General Obligation Refunding Bonds in the original amount of \$8,400,000 issued on May 3, 2012 due in varying installments through December 1, 2022, with an average coupon rate of 2.71%	7,420,000
Series 2013 General Obligation Refunding Bonds in the original amount of \$84,085,000 issued on January 30, 2013 due in varying installments through December 1, 2030, with an average coupon rate of 3.94%	62,560,000
	<u>\$ 85,590,000</u>

The bonds are secured by the District's covenant to certify a rate of levy sufficient to meet the principal and interest payments with respect to the bonds. Payment of principal and interest for general obligation bonds is made from the Bond Redemption Fund. In compliance with state legislation, the District established a Custodial Agreement with UMB Bank, Kansas City, Missouri governing the administration of the District's Bond Redemption Fund.

The Custodial Agreement provided for the establishment of a custodial account with the Custodian and requires the District to direct the County Treasurer to transfer to the Custodian all revenues from the property tax levied by the District for the payment of debt service. The Custodial Agreement restricts the transfer of funds out of the custodial account solely for the scheduled payment of principal and interest on the bonds, and upon written direction of the District, to pay Registrar and Paying Agent fees, custodian fees and arbitrage rebate compliance costs associated with the bonds. At June 30, 2020 the balance of restricted assets held by the Custodian was \$15,789,766.

Certificates of Participation

Certificates of Participation represent long-term lease purchase agreements for the acquisition of capital items. Certificates of Participation are not considered bonded debt of the District due to the structure of the lease and annual appropriation clause. The Certificates of Participation are not considered a general obligation or other indebtedness of the District within the meaning of any constitutional or statutory debt limitations.

Certificates of Participation payable at June 30, 2020, are as follows:

<u>Description, Interest Rates and Maturity Dates</u>	<u>Principal Balance June 30, 2020</u>
Refunding Certificates of Participation, Series 2009, were issued in the original amount of \$28,175,000 due in annual installments through 2020, with an average coupon rate of 4.02%	3,100,000
Certificates of Participation, Series 2016, were issued in the original amount of \$5,000,000 due in annual installments through 2026 with an average coupon rate of 1.802%	3,420,000
Certificates of Participation, 2019 Series A and B. Series A were issued in the original amount of \$7,320,000 due in annual installments through 2034 with an average coupon rate of 2.64%. Series B were issued the original amount of \$6,020,000 due in annual installments through 2029 with an average coupon rate of 2.33%	13,340,000
	<u>\$ 19,860,000</u>

The 2009 COP's will be repaid from funds in the Capital Projects Capital Reserve Fund using revenues provided by a transfer from the General Fund. Total transfers from the General Fund in the current year were \$5,655,728; total principal and interest paid was \$3,163,600. There is \$2,925,246 in restricted fund balance for this purpose at June 30, 2020. Total principal and interest to be paid on the certificates is \$35.4 million.

The 2016 COP's will be repaid from funds in the Capital Projects Capital Reserve Fund using revenues provided by a transfer from the General Fund. Total principal and interest paid was \$520,728. Total principal and interest to be paid on the certificates is \$5.5 million.

The 2019 COP's will be repaid from property taxes collected under the voter approved mill levy overrides. Total revenues from the mill levy overrides equaled \$70,034,078. Total interest paid was \$277,928. No principal was due during the fiscal year. Total principal and interest to be paid on the certificates is \$15.9 million.

Changes in Long-Term Debt

Changes in governmental activities long-term debt for the year ended June 30, 2020, are as follows:

Long-Term Debt	June 30, 2019	Additions	Deletions	June 30, 2020	Due Within One Year
Bonds Payable					
General Obligation Bonds	\$ 98,375,000	\$ -	\$ 12,785,000	\$ 85,590,000	\$ 8,200,000
GO Bond Premiums	8,916,906	-	1,102,500	7,814,406	-
Total Bonds Payable	107,291,906	-	13,887,500	93,404,406	8,200,000
Certificates of Participation	9,955,000	13,340,000	3,435,000	19,860,000	4,510,000
COP Premiums	121,196	-	85,550	35,646	-
Total COP Payable	10,076,196	13,340,000	3,520,550	19,895,646	4,510,000
QZAB Bonds	4,023,111	-	4,023,111	-	-
	<u>\$ 121,391,213</u>	<u>\$ 13,340,000</u>	<u>\$ 21,431,161</u>	<u>\$ 113,300,052</u>	<u>\$ 12,710,000</u>

Debt Service Requirements

The following schedule reflects the debt service requirements to maturity of the District's governmental activities long-term debt payable as of June 30, 2020:

2006B General Obligation Bonds			
Fiscal Year	Principal	Interest	Total
2021	7,610,000	619,763	8,229,763
2022	8,000,000	210,000	8,210,000
Total	\$ 15,610,000	\$ 829,763	\$ 16,439,763

Computation of Legal Debt Margin

Assessed valuation	\$ 3,089,557,740	
Debt limitation - 20% of assessed valuation		\$ 617,911,548
Total general obligation debt		85,590,000
Legal debt margin available		<u>\$ 532,321,548</u>

NOTE 9: CONTINGENCIES AND COMMITMENTS

Grants

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursement to grantor agencies for expenditures disallowed under terms of the grant. District management believes that disallowances, if any, will be immaterial to the basic financial statements.

Litigation

The District is involved in pending or threatened lawsuits and claims. The District estimates that the potential claims not covered by insurance or accrued for, resulting from such litigation, would not materially affect the financial statements of the District.

NOTE 10: BENEFIT PLANS

Defined Benefit Pension Plan

Eligible employees of the District are provided with pensions through the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the SCHDTF. That report may be obtained at www.copera.org/investments/pera-financial-reports, or by writing to PERA of Colorado, 1300 Logan Street, Denver, Colorado 80203 or by calling PERA's InfoLine at 1-800-759-PERA (7372).

Summary of Significant Accounting Policies for the SCHDTF

The District contributes to the School Division Trust Fund (SCHDTF) administered by PERA. The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

During the 2018 legislative session, the Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: *Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years*. The bill was signed into law by Governor Hickenlooper on June 4, 2018. A brief description of some of the major changes to plan provisions required by SB 18-200 for the SCHDTF are listed below. A full copy of the bill can be found online at www.leg.colorado.gov.

Benefits Provided

The SCHDTF provides retirement, disability, and survivor benefits for members. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefits structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

As of December 31, 2019, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments in certain years, referred to as annual increases in the C.R.S., once certain criteria are met. Pursuant to SB 18-200, the annual increase for 2019 is 0.00 percent for all benefit recipients. Thereafter, benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007, and all benefit recipients of the DPS benefit structure will receive an annual increase of 1.25 percent unless adjusted by the automatic adjustment provision (AAP) pursuant to C.R.S. § 24-51-413. Benefit recipients under the PERA benefit structure who began eligible employment on or after January 1, 2007, will receive the lesser of an annual increase of 1.25 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned annual increase by up to 0.25 percent based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions

Eligible employees and the District are required to contribute to the SCHTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, et seq and § 24-51-413. The contribution rate for members is 8.75% of their PERA-includible salary during the period of July 1, 2019 through June 30, 2020. The District's contribution requirements are summarized in the table below:

	July 1, 2019 Through June 30, 2020
Employer Contribution Rate ^{1,2}	10.40%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%
Amount apportioned to the SCHDTF	9.38%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	4.5%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	5.5%
Total Employer Contribution Rate to the SCHDTF ^{1,3}	19.38%

¹Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

²Subject to C.R.S. § 21-51-413, employee contribution rates incrementally increase a total of 1.25 percent as follows:

• 0.75 percent on July 1, 2020; 0.50 percent on July 1, 2021.

³Pursuant to C.R.S. § 24-51-413, employee and employer contribution rates will increase 0.50 percent on July 1, 2020 due to the results of the 2018 automatic adjustment provision.

As specified in C.R.S. § 24-51-413, the State is required to contribute \$225 million each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. A portion of the direct distribution allocated to the SCHDTF is considered a nonemployer contribution for financial reporting purposes.

Subsequent to the SCHDTF's December 31, 2019, measurement date, HB 20-1379 Suspend Direct Distribution to PERA Public Employees Retirement Association for 2020-21 Fiscal Year, was passed into law during the 2020 legislative session and signed by Governor Polis on June 29, 2020. This bill suspends the July 1, 2020, \$225 million direct distribution allocated to the State, School, Judicial, and DPS Divisions, as required under Senate Bill 18-200.

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the District were \$32,824,070 for the year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$435,825,770 for its proportionate share of the net pension liability that reflected a reduction for support from the State as a nonemployer contributing entity. The net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2018. Standard update procedures were used to roll forward the total pension liability to December 31, 2019. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

The District's proportionate share of the net pension liability	\$435,825,770
The State's proportionate share of the net pension liability as a nonemployer contributing entity associated with the District	\$49,056,733
Total	\$484,882,503

The District's proportion of the net pension liability was based on its contributions to the SCHDTF for the calendar year 2019 relative to the total contributions of participating employers to the SCHDTF. At December 31, 2019, the District's proportion was 2.9172161990 percent, which was a decrease of 0.19610 percent from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized net pension credit of \$(45,311,977) which was offset by revenue and expense of \$(1,748,550) for support from the State as a nonemployer contributing entity. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$23,752,790	\$ -
Net difference between expected and actual earnings on pension plan investments	-	51,627,900
Changes in proportionate share of NPL	-	55,181,966
Contributions subsequent to the measurement date	16,302,848	-
Changes of assumptions or other inputs	12,442,160	197,686,439
Total	\$52,497,798	\$304,496,305

The \$16,302,848 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date of December 31, 2019, will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Deferred inflows of resources, except for differences between expected and actual investment earnings, are being amortized over a closed period equal to the average of the expected service lives of all participants as of the beginning of the measurement period. The deferred inflows related to the difference between expected and actual investment earnings is being amortized over a closed 5-year period beginning in the current year.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	Effect of deferred inflows/outflows on pension expense
2021	\$(142,298,005)
2022	(102,930,849)
2023	(5,510,218)
2024	(17,562,283)
Total	\$(268,301,355)

Internal service funds predominantly service the governmental funds. Accordingly, pension liabilities and other pension related balances are included as part of the above totals and reported on the government-wide statements with the governmental activities. For governmental activities, pension related balances are liquidated by the General Fund.

Actuarial Assumptions

The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50 – 9.70%
Long-term investment Rate of Return, net of pension plan investment expenses, including price inflation	7.25 %
Discount Rate	7.25%
Future post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07; and DPS Benefit Structure (automatic)	1.25% compounded annually
PERA Benefit Structure hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an experience analysis for the period January 1, 2012 through December 31, 2015, as well as an actuarial assumptions workshop on October 28, 2016 and were adopted by PERA's Board on November 18, 2016.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

The SCHDTF's long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent analysis of the long-term expected rate of return, by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

* In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.

- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200 and the additional 0.50 percent resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200 and the additional 0.50 percent, resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020. Employer contributions also include the current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point, the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- The projected benefit payments reflect the lowered annual increase cap, from 1.50 percent to 1.25 percent resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate (rounded to thousands):

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net pension liability	\$656,708,833	\$435,825,770	\$398,938,709

Pension plan fiduciary net position

Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

Deferred Compensation Plans

The SDTF members of the District may voluntarily contribute to the Voluntary Investment Program (VIP), which offers defined contribution plans under Internal Revenue Code Sections 401(k), 457, and 403(b). The 401(k) and the 457 plans are administered by PERA. Plan participation is voluntary and contributions are separate from others made to PERA. Title 24, Article 51, Part 14 of the Colorado Revised Statutes (CRS), as amended, assigns the authority to establish the VIP provisions to the State Legislature. Maximum contribution limits are set by the Internal Revenue Service. No employer contributions are required; the District does not currently match voluntary member contributions.

NOTE 11: *POST-EMPLOYMENT HEALTH CARE BENEFITS*

Summary of Significant Accounting Policies for the HCTF

The District contributes to the Health Care Trust Fund (HCTF) administered by PERA. The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

Defined Benefit Other Post Employment Benefit (OPEB) Plan

Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided

The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare.

The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

Contributions

The District is required to contribute at a rate of 1.02% of covered salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the District are established under Title 24, Article 51, Part 4 of the CRS, as amended. The apportionment of the contribution to the Health Care Trust Fund is established under Title 24, Article 51, Section 208 of the Colorado Revised Statutes, as amended. The School District's contributions to HCTF for the year ended June 30, 2020 were \$1,727,365.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District reported a liability of \$21,431,066 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2018. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2019.

The District's proportion of the net OPEB liability was based on its contributions to the HCTF for the calendar year 2019 relative to the total contributions of participating employers to the HCTF. At December 31, 2019 the District's proportion was 1.9066818708 percent, which was a decrease of .11700 percent from its proportion measured as of December 31, 2018.

For the year ended June 30, 2020, the District recognized OPEB expense of \$1,353,124. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$71,119	\$3,601,207
Changes of assumptions or other inputs	177,798	-
Net difference between projected and actual earnings on OPEB plan investments	-	357,713
Changes in proportionate share of net OPEB liabilities	1,289,071	1,456,396
Contributions subsequent to the measurement date	858,044	-
Total	\$2,396,032	\$5,415,316

The \$858,044 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date of December 31, 2019, will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Deferred inflows of resources, except for differences between expected and actual investment earnings, are being amortized over a closed period equal to the average of the expected service lives of all participants as of the beginning of the measurement period. The deferred inflows related to the difference between expected and actual investment earnings is being amortized over a closed 5-year period beginning in the current year.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	Effect of deferred inflows/outflows on pension expense
2021	\$(747,596)
2022	(747,558)
2023	(643,987)
2024	(736,702)
2025	(944,049)
Thereafter	(57,435)
Total	\$(3,877,328)

Actuarial Assumptions

The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50 in aggregate
Long-term investment Rate of Return, net of OPEB plan investment expenses, including price inflation	7.25 %
Discount Rate	7.25%
Health care cost trend rates: PERA Benefit Structure	
Service-based premium subsidy	0.00%
PERACare Medicare plans	5.60% in 2019, gradually decreasing to 4.50% in 2029
Medicare Part A premiums	3.50% for 2019, gradually increasing to 4.50% in 2029

Calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each actuarial valuation and on the pattern of sharing of costs between employers of each fund to that point.

The actuarial assumptions used in the December 31, 2018, valuations were based on the results of the 2016 experience analysis for the periods January 1, 2012, through December 31, 2015, as well as, the October 28, 2016, actuarial assumptions workshop and were adopted by the PERA Board during the November 18, 2016, Board meeting. In addition, certain actuarial assumptions pertaining to per capita health care costs and their related trends are analyzed and reviewed by PERA's actuary, as discussed below.

In determining the additional liability for PERACare enrollees who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following monthly costs/premiums are assumed for 2019 for the PERA Benefit Structure:

Medicare Plan	Cost for Members Without Medicare Part A	Premiums for Members Without Medicare Part A
Medicare Advantage/Self-Insured Prescription	\$601	\$240
Kaiser Permanente Medicare Advantage HMO	605	237

The 2019 Medicare Part A premium is \$437 per month.

In determining the additional liability for PERACare enrollees in the PERA Benefit Structure who are age sixty-five or older and who are not eligible for premium-free Medicare Part A, the following chart details the initial expected value of Medicare Part A benefits, age adjusted to age 65 for the year following the valuation date:

Medicare Plan	Cost for Members Without Medicare Part A
Medicare Advantage/Self-Insured Prescription	\$562
Kaiser Permanente Medicare Advantage HMO	571

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2018, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2019	5.60%	3.50%
2020	8.60%	3.50%
2021	7.30%	3.50%
2022	6.00%	3.75%
2023	5.70%	3.75%
2024	5.50%	3.75%
2025	5.30%	4.00%
2026	5.10%	4.00%
2027	4.90%	4.25%
2028	4.70%	4.25%
2029+	4.50%	4.50%

Mortality assumptions for the determination of the total pension liability for each of the Division Trust Funds as shown below are applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions for the School and Judicial Divisions were based on the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- Females: Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The following economic and demographic assumptions were specifically developed for, and used in, the measurement of the obligations for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2019 plan year.
- The morbidity assumptions were updated to reflect the assumed standard aging factors.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016.

Several factors were considered in evaluating the long-term rate of return assumption for the HCTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the most recent adoption of the long-term expected rate of return by the PERA Board, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.20%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non U.S. Fixed Income – Developed	1.84%	0.60%
Emerging Market Debt	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

*In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates

The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates (rounded to thousands):

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
Initial PERACare Medicare trend rate	4.60%	5.60%	6.60%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.50%	3.50%	4.50%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Net OPEB Liability	\$20,921,982	\$21,431,066	\$22,019,354

Discount Rate

The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates equal to the fixed statutory rates specified in law. In addition, the updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2019, measurement date were used in the projection.

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the projection test indicates the HCTF's fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate

The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate (rounded to thousands):

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$24,232,134	\$21,431,066	\$19,035,568

OPEB plan fiduciary net position

Detailed information about the HCTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at www.copera.org/investments/pera-financial-reports.

NOTE 12: *RISK RELATED ACTIVITIES*

Employee Benefits

The District is exposed to various claims and losses. As an employer that partially self-funds its health plan expenses, the District takes on the role of the insurance company and assumes most of the financial risk of providing health coverage for its members.

BEST Health Plan

The District joined The Colorado Boards of Education Self-Funded Trust (BEST) in 2004. This partially self-funded trust was established in 2004 to offer a stable, long term, statewide medical program designed to meet the business objectives and challenges of school districts. Medical coverage for District employees is purchased through the trust. The trust is audited each year by a local independent Colorado accounting firm, Ryan, Gunsauls, and O'Donnell, P.C.

The District pays a monthly premium to BEST to provide health insurance coverage and services for its plan members.

Employees are responsible for paying a deductible amount before the plan begins to pay. The individual deductible amount for fiscal year 2020 was \$1,150 and the family amount was \$2,300. There is no lifetime maximum benefit for plan members.

Because there is the potential to incur high cost medical claims, BEST purchases stop-loss coverage to cover claims that exceed its deductible limit, which is currently \$250,000. Each year, the deductible limit is reviewed based on actuarial analysis to determine if paying an additional premium would increase or reduce the ultimate cost of risk to the District.

As a member of the BEST Health Plan, the District also purchases prescription coverage through the pool.

Since the District retains some risk of loss, through BEST Health, it uses an active claim management system and actuarial analysis conducted by Leif and Associates for estimating claims and Incurred But Not Reported (IBNR) liabilities. The District also has on deposit with BEST an additional reserve for unexpected claim fluctuations otherwise referred to as a Claim Fluctuation Reserve (CFR). All claims liabilities are carried at current cost with no discounting. IBNR and CFR reserves for medical are held at BEST and total \$4,213,884 at June 30, 2020.

The District participates in the BEST Health Plan under a contractual arrangement that requires the District be responsible for maintaining adequate IBNR and CFR. As part of this arrangement, the District has funds held by the plan of \$6,594,387 at June 30, 2020. This has been confirmed as adequate by the Trust actuary as of June 30, 2020. The District does not retain any liability for the other school district members of the BEST Health Plan.

In accordance with GASB Statement No. 10, the District's participation in the pool does not represent a transfer of risk to the pool or pooling of risk with other pool participants, therefore, it recognizes and measures its claims liabilities and related expenditures/expenses when a liability is probable and can reasonably be estimated. Payments to the pool should be reported either as deposits or as reductions of the claim liability, as appropriate.

Risk Management

The District is exposed to various claims and losses. In Risk Management, the exposures include workers' compensation claims from employee injuries; loss, destruction or damage of property; and liability, including professional (errors and omissions) and general liability.

Each year the deductibles for the insurance coverage's are reviewed based on actuarial analysis to determine if paying an additional premium would increase or reduce the ultimate cost of risk to the District. There were no significant reductions in insurance coverage for any of the major categories of risk from fiscal year 2019 to fiscal year 2020. However, there was an additional deductible added to the property insurance policy in fiscal year 2020, a \$100,000 deductible for water damage claims. Also in fiscal year 2020, the self-insured retention (SIR) on the workers' compensation excess insurance policy increased \$50,000 to \$550,000 per occurrence from \$500,000. Finally, under the international liability insurance policy an endorsement was added in fiscal year 2020 excluding coverage for sexual abuse and molestation claims from that policy. However, coverage remains under the District's Excess-of-Loss-Self-Insurance Pool reinsurance policy as long as suit for such a claim is filed within the United States instead of abroad.

Since the District retains some risk of loss, the District uses an active claim management system and actuarial analysis methods for estimating claims and Incurred But Not Reported (IBNR) liabilities. All claims liabilities are carried at current cost with no discounting.

Premiums are contributed into the Risk Related Activities Fund and the Risk Management subaccount of the General Fund by other funds in order to pay claims, insurance and administrative costs of the program. It is anticipated that inter-fund premiums will approximately equal risk expenses over a period of time.

On the government wide financial statements, liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claim reserves for liabilities are based on the estimated ultimate cost of closing claims and include an amount for claims that have been incurred but not reported (IBNRs). Trend analysis includes frequency of claims and amount of payouts, legal implications and estimated recoveries on unsettled claims, such as salvage or subrogation. In the governmental funds, the liability is recorded when due.

Balances of claim liabilities and IBNR totals as of June 30, 2020 are:

	Fiscal Year 2018	Fiscal Year 2019			Fiscal Year 2020		
	Balance June 30, 2018	Claims & Changes in Estimates	Actual Claim Payments	Balance June 30, 2019	Claims & Changes in Estimates	Actual Claim Payments	Balance June 30, 2020
Workers Comp	\$ 1,566,078	\$ 814,947	\$ (676,097)	\$ 1,704,928	\$ 550,934	\$ (796,242)	\$ 1,459,620
General Liability	-	21,997	(21,997)	-	107,407	(8,288)	99,119
Other Insurance	189,487	296,503	(190,657)	295,333	171,826	(330,170)	136,989
Errors/Omissions	53,041	60,667	(7,479)	106,229	9,295	(8,197)	107,327
Health Insurance	2,897,000	31,997,642	(30,403,205)	4,491,437	33,232,590	(33,510,143)	4,213,884
Total Liability	\$ 4,705,606	\$ 33,191,756	\$ (31,299,435)	\$ 6,597,927	\$ 34,072,052	\$ (34,653,040)	\$ 6,016,939

Excess-of-Loss Self-Insurance Pool

The District participates with two other school districts in an insurance pool for general liability, errors and omissions, and auto liability. Additionally, the District purchases cyber liability coverage through the pool broker. Each member's initial contribution and subsequent contributions are based on a number of factors approved by the Colorado Insurance Commissioner. This pool is audited each year by Clifton Larson Allen LLP, 8390 East Crescent Parkway, Suite 500, Greenwood Village, CO 80111, an independent certified public accounting firm.

The pool participants' respective shares, based (in part) upon total enrollment, are:

Colorado Springs School District 11	35.0%
Aurora Public Schools	45.0%
Littleton Public Schools	20.0%
	<u>100.0%</u>

An unaudited summary (as audited financial statements were not yet available) of the pool's financial information as of June 30, 2020 follows:

	Total	District's Share
Total Assets	\$ 700,019	\$ 245,007
Liabilities	272,299	95,305
Equity	427,720	149,702
Total Liabilities and Equity	700,019	245,007
Total Revenues	907,397	317,589
Total Expenditures	(905,587)	(316,955)
Net Income (loss)	\$ 1,810	\$ 634

There is no long-term debt associated with the pool.

The insurance described above provides the following types of coverage, self-insured retention and reinsurance attachment points:

Coverage	Amount	Self-Insured Retention	Attachment Point
General Liability	\$5,000,000	\$150,000	\$150,000
Error and Omissions	\$5,000,000	\$150,000	\$150,000
Auto Liability	\$5,000,000	\$200,000	\$200,000
Cyber Liability	\$2,000,000	\$150,000	\$150,000

In the event the District exceeds policy limits on any of the above insurances, it would first use any available contingency in the risk related activity fund. If risk related contingencies were insufficient, the District would use general fund contingency. No insurance settlements exceeded insurance coverage in any of the previous three years.

NOTE 13: NET INVESTMENT IN CAPITAL ASSETS

Net Investment in Capital Assets as of June 30, 2020 was calculated as follows:

	Governmental Activities
Capital assets, net	\$ 472,831,528
Accumulated depreciation	(209,126,968)
Bonds payable	(93,404,406)
Certificates of Participation payable	(19,895,646)
Deferred outflows of resources (deferred charges on refunding)	4,154,733
Unspent proceeds	9,753,388
Capital assets purchased on accounts payable	(5,511,065)
Retainage on capital assets	(514,188)
	<u><u>\$ 158,287,376</u></u>

NOTE 14: TAX, SPENDING, AND DEBT LIMITATIONS

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations including revenue raising, spending abilities and other specific requirements of state and local governments.

The District's financial activity provides the basis for calculation of limitations adjusted for allowable increases tied to inflation and local growth. Spending and revenue limits are determined based on the prior year's spending adjusted for inflation and local growth. Revenue in excess of the limit must be refunded unless the voters approve retention of such revenue.

The amendment requires, with certain exceptions, voter approval prior to imposing new taxes, increasing tax rates, increasing a mill levy above that for the prior year, extending an expiring tax, or implementing a tax policy change directly causing a net tax revenue gain to any local government. Excluded from the provisions of the Amendment are District enterprises that are defined as government-owned businesses (i) authorized to issue revenue bonds and (ii) receiving less than 10% annual revenue from state and local government grants.

The District levied 20.715 and 22.556 mills for property taxes to be collected in the General Fund for calendar year 2020 and 2019, respectively.

The District has calculated its spending beginning with the accrual basis of accounting for proprietary and fiduciary funds and the modified accrual basis of accounting for governmental funds, adding reserve increases and subtracting allowable spending exclusions. The District has estimated its fiscal year 2020 spending limit as \$184,208,977.

Except for bond refinances at lower interest rates or adding employees to existing pension plans, the amendment may be construed as prohibiting the creation of multiple-fiscal year debt or other financial obligations without voter approval or the irrevocable pledging of present cash reserves for all future payments.

The amendment requires emergency reserves be established. These reserves must be at least 3% of fiscal year spending. The District is prohibited from using these emergency reserves to compensate for economic conditions, revenue shortfalls or salary and benefit increases. There is a \$5,526,269 restriction of fund balance in the General Fund for the amendment.

The amendment is complex and subject to numerous interpretational ambiguities. The District believes it is in compliance with the requirements of the amendment. However, the District has made certain interpretations which the District believes are reasonable and prudent interpretations of the amendment's language in order to determine its compliance.

NOTE 15: RESTATEMENT OF NET POSITION/FUND BALANCE

During fiscal year 2020, the District implemented GASB Statement No. 84, *Fiduciary Activities* (GASB 84). The principle objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. As a result of the adoption of GASB 84, the District now reports certain pupil and other activities as special revenue funds that were previously reported as agency funds. This decision was based on the District's administrative involvement and direction of these activities. The adoption of GASB 84 resulted in a restatement of beginning net position/fund balance and reduced the District's reported fiduciary activities to a private purpose trust fund.

The District restated beginning net position/fund balance as follows:

	Governmental activities	Governmental funds
Beginning net position/fund balance, as originally reported	\$ (546,184,597)	\$ 108,031,171
Implementation of GASB Statement No. 84:		
Net pupil activity balances at June 30, 2019	1,985,661	1,985,661
Net other activity balances at June 30, 2019	128,939	128,939
Beginning net position, as restated	<u>\$ (544,069,997)</u>	<u>\$ 110,145,771</u>

Notes to the Required Supplementary Information

For the Year Ended June 30, 2020

NOTE 1: *BUDGETS*

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements. By state law, budgets are required for all funds. Annual appropriated budgets are adopted for all funds. At least thirty days prior to July 1, the Superintendent submits to the Board of Education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and means of financing them.

Public hearings are conducted by the Board of Education to obtain taxpayer comments. On or before June 30, the budget is adopted by formal resolution. Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budget amounts between functions within any fund and the reallocation of budget line items within any department in the General Fund rests with the function manager and is reviewed by the Budget Office. Revisions that alter the total expenditures of any fund must be approved by the Board of Education.

Budgeted amounts reported in the accompanying financial statements are as originally adopted and as amended by the Board of Education throughout the fiscal year 2020. All original and supplemental appropriations for all funds lapse at the end of the fiscal year. Budgeted amounts in each fund follow a governmental GAAP approach, which ignores the budgeting of beginning of year fund balances. The deficiency of revenues and other financing sources over expenditures and other financing uses reflects the budgeting of reserve and contingency accounts as expenses/expenditures without the corresponding fund equity resource carryover. In actuality, total resources equal total obligations in the District's adopted budget each year as the District complies with the balanced budget requirement. The District is not required to budget for discretely presented component units.

For fiscal year 2020, the board adopted a resolution approving initial appropriations of \$504,858,740. The appropriation was amended during the year by \$50,590,908 bringing final appropriations to \$555,449,648.

Encumbrances

Appropriations in governmental funds are encumbered upon issuance of purchase orders, contracts or other forms of legal commitments. Encumbrances are recorded as an assignment of fund balance in the General Fund as of June 30, 2020. Encumbrances do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent fiscal year. The discretely presented component units do not record outstanding encumbrances as an assignment of fund balance at year-end.

NOTE 2: *BUDGETARY BASIS OF ACCOUNTING FOR THE YEAR ENDED JUNE 30, 2020*

Colorado statutes require that boards of education of school districts adopt a budget and appropriation resolution each fiscal year. When using GAAP-basis accounting for budgeting, school districts budget for all accrued salaries and related benefits earned but unpaid at June 30. GAAP-basis accounting requires that expenditure of salaries and related benefits be recorded in the fiscal year *earned*.

Under Colorado statutes, school districts are not required to budget or appropriate for salaries and related benefits earned but not paid at June 30. The budgetary basis of accounting is used when no, or only a partial amount of, accrued salaries and benefits are budgeted. Under the budgetary basis of accounting, salaries and related benefits are recorded as expenditures in the fiscal year *earned and paid*.

Teachers and other school-year employees work over a period of nine to ten months but are paid over a twelve-month period. On November 18, 1998, the Board of Education approved a resolution allowing the reduction, or unfunding, of the salary accrual by \$3,888,000 for fiscal year 1999. On February 24, 1999, the Board approved an additional \$4,428,000 unfunding of the salary accrual for fiscal year 2000. This unfunding is recorded as an \$8,316,000 adjustment to fund balance for the difference between budgetary and GAAP basis of accounting and is reported in the budgetary comparison schedule of the General Fund.

NOTE 3: PENSION AND OTHER POST EMPLOYMENT BENEFIT PLAN CONTRIBUTIONS

The District is required to contribute to PERA as provided under senate bill 18-200. The Districts required contribution rates are as follows:

Start Date	Statutory Employer Contribution	AED	SAED*	Total Contribution % for Year
Jan 2018	10.15%	4.50%	5.50%	20.15%
July 2019	10.40%	4.50%	5.50%	20.40%
July 2020	10.90%	4.50%	5.50%	20.90%

* State statute mandates that the SAED be funded by monies otherwise available for employee wage increases. The SAED is not credited to the member account.

The member contribution percentage will incrementally increase 2 percent, from 8 percent up to 10 percent, as follows:

- .75 percent on July 1, 2019.
- .75 percent on July 1, 2020.
- .50 percent on July 1, 2021.

PERA will receive an annual direct distribution from the State in the amount of \$225 million (actual dollars). Beginning in 2018, the distribution will occur on July 1 each year until there is no unfunded actuarial accrued liabilities in the trust fund of any division that receives such distribution. PERA shall allocate the distribution to the trust funds as it would an employer contribution in a manner that is proportionate to the annual payroll of each division except there shall be no allocation to the Local Government Division. House Bill (HB) 20-1379, signed by Governor Polis on June 29, 2020, suspends the July 1, 2020, direct distribution.

Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB18-200 and the additional 0.50% for each of the five division trust funds, resulting from the 2018 AAP assessment, statutorily recognized July 1, 2019, and effective July 1, 2020. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.

The actuarially determined contribution (ADC) rates, as a percentage of pensionable payroll, used to determine the ADC amounts in the Schedule of District Contributions are calculated as of December 31, two years prior to the end of the year in which ADC amounts are reported. The following actuarial methods and assumptions (from the December 31, 2017, actuarial valuation) were used to determine contribution rates reported in that schedule for the year ending December 31, 2019:

Actuarial cost method	Entry age
Amortization method	Level percentage of payroll
Amortization period	30 years, closed, layered
Asset valuation method	4-year smoothed market
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 percent to 10.45 percent
Long-term investment rate of return, net of pension plan investment expense, including price inflation	7.25 percent
Future post-retirement benefit increases	
PERA benefit structure hired prior to 1/1/07	0% through 2019 and 1.50 percent compounded annually thereafter
PERA benefit structure hired after 12/31/06	Financed by the annual increase reserve

NOTE 4: *PENSION AND OTHER POSTEMPLOYMENT BENEFIT PLAN PROVISIONS*

On June 4, 2018 senate bill 18-200: *Concerning Modifications to the Public Employee's Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years* was signed into law. SB 18-200 makes changes to the plans administered by PERA with the goal of eliminating the UAAL of the Division Trust Funds and thereby reach a 100 percent funded ratio for each division within the next thirty years.

Benefit changes

The number of years used in the HAS calculation increased from three to five years for members, except judges, who do not have five years of service credit on December 31, 2019, and for new members hired on or after January 1, 2020. PERA-includable salary for all members are redefined to include payouts of unused sick leave.

PERA-includable salary for all members hired on or after July 1, 2019 are redefined to include contributions to IRC Section 125 and 132 plans.

Members, other than State Troopers, hired on or after January 1, 2020 full service retirement eligibility is met at:

- Any age with 35 years of service.
- Age 64 with 30 years of service.
- Age 65 with 5 years of service.

Members, other than State Troopers, hired on or after January 1, 2020 reduced service retirement eligibility is met at:

- Age 55 with 25 years of service.
- Age 60 with 5 years of service.

AI cap is set at 1.5 percent and the AI waiting period is extended from one to three years.

Other Provisions

Effective July 1, 2020, and each year thereafter, member contributions, employer contributions, the direct distribution from the State, and the AI will be adjusted based on certain statutory parameters to keep PERA on path to full funding in 30 years.

For benefit recipients of the PERA benefit structure based upon a membership date before January 1, 2007, future Post-Retirement Benefits Increases (Increase) are set at an amount equal to 2 percent (the lesser of that or the annual Consumer Price Index for Urban Wage Earners and Clerical Workers [CPI-W] increase for 2010). However, if the investment return for the prior year is negative, then the Increase is an amount equal to the annual CPI-W increase with a cap of 2 percent. The 2 percent cap may be adjusted based upon the year-end funded status, with increases mandated when the funded status reaches 103 percent and decreases mandated when the funded status subsequently falls below 90 percent. The cap will not be reduced below 2 percent. In addition, the increase is first paid on the July 1st that is at least 12 months after retirement for those members who retire on or after January 1, 2011. Members not eligible to retire as of January 1, 2011, who retire with a reduced service retirement allowance must reach age 60 or the age and service requirements for unreduced service retirement to be eligible for the Post-Retirement Benefit Increases.

Effective January 1, 2011, other than in the Judicial Division, for all active members, who are not eligible for retirement on January 1, 2011, the annual salary increase cap in determination of Highest Average Salary (HAS) was lowered from 15 percent to 8 percent for PERA benefit structure members and for DPS benefit structure members, a change from the average of salaries of the highest 36 months of earned service to the PERA benefit structure method with an annual salary cap of 8 percent.

Effective January 1, 2011, a new requirement was added that PERA benefit structure members must have five years of earned service credit in order to receive a 50 percent match on a refund.

Effective January 1, 2011, the reduction factors for a reduced service retirement benefit for members not eligible to retire as of January 1, 2011, were changed to an actuarial equivalent basis.

Effective January 1, 2011, a modified Rule of 85 for service retirement eligibility was implemented for members with less than 5 years of service credit as of January 1, 2011.

Effective January 1, 2011, a modified Rule of 88 with a minimum age of 58 for service retirement eligibility was implemented for members hired on or after January 1, 2011, but before January 1, 2017.

Effective January 1, 2011, a modified Rule of 90 with a minimum age of 60 for service retirement eligibility was implemented for members hired on or after January 1, 2017.

The following changes were made to the Plan's provisions as a result of the passage of SB 06-235:

The Annual Increase Reserve (AIR) was established January 1, 2007, and will be used to provide post-retirement benefit increases for members hired on or after that date. The AIR is financed by an allocation from the employer statutory contributions, made on behalf of members hired on or after January 1, 2007, equal to 1.00 percent of pensionable payroll and through an allocation of purchase of service dollars.

The Service Retirement Eligibility for those members hired after January 1, 2007, was changed at age 55 by increasing the age and service requirement from 80 years to 85 years.

Other Plan provisions and assumptions include the following:

The investment return assumption is 7.25 percent, which is net of investment expenses to better represent the investment consultant's assumptions and predictions and also to better align with GASB accounting and reporting requirements. An ongoing estimated administrative expense of 0.35 percent of pensionable payroll was added to the normal cost beginning with the December 31, 2012 actuarial valuation.

The post-retirement mortality tables used are the RP-2000 Combined Mortality tables projected with a Scale AA to 2020, set back one year for males and two years for females.

The assumed interest rate credited on member contribution accounts is 3 percent.

For the AIR established on January 1, 2007, the AIR balance is excluded from both assets and liabilities in the determination of the ADC rate as a percentage of pensionable payroll.

Combining and Individual Fund Financial Statements and Schedules

Major Governmental Funds

General Fund

The General Fund is used to account for all transactions of the District not required legally or by sound financial management to be accounted for in another fund. This fund accounts for the District's ordinary operations financed primarily from property taxes and state aid. It is the most significant fund in relation to the District's overall operations. Two sub-funds exist within the General Fund: The *Risk Management Fund* and the *Preschool Fund*.

Risk-Management Fund

This fund allows separate reporting specific to risk management including worker's compensation, general liability, errors and omissions, vehicle and property insurance.

Preschool Fund

Moneys allocated pursuant to section 22-54-105(4) of the Colorado Revised Statutes are deposited in this fund. In addition, any other moneys of the District may be used to pay the costs of providing preschool services directly to children enrolled in the preschool program.

Capital Reserve Capital Projects Fund

This fund is used to account for acquisition of sites, buildings, equipment and vehicles. Its purpose and limitations are specified by section 22-45-103(1)(d) of the Colorado Revised Statutes.

Mill Levy Override Fund

This fund accounts for the use of funds from the November 2000 and the November 2017 voter-approved mill levy overrides.

Governmental Designated-Purpose Grants Fund

This fund is used to record financial transactions for grants received for designated programs funded by federal, state or local sources which normally have a different fiscal period than that of the District.

Non-major Governmental Funds

Special Revenue Funds

These funds are used to account for *and report* the proceeds of special revenue sources that are restricted *or* committed to expenditure for specified purposes *other than debt service or capital projects*. A separate fund may be used for each restricted source. The following revenue funds are designed for use by school districts.

Food Service Fund

The food service fund is used to record financial transactions related to food service operations. Because the district receives USDA school breakfast/lunch money, this fund is required.

Pupil Activity Fund

The pupil activity fund is used to record financial transactions related to school sponsored pupil intrascholastic and interscholastic athletics, clubs and other activities.

Other Special Revenue Fund

The other special revenue fund is used to record financial transactions related to non-school activities. Examples of other activities include funds received for special events or scholarship awards.

Bond Redemption Debt Service Fund

The Bond Redemption Fund is a debt service fund that was created to account for a bond redemption mill levy approved by the voters on November 5, 1996. This fund accounts for the restricted general obligation property tax used to finance principal and interest payments on the 2006, 2012 and 2013 bonds.

Proprietary Funds

Proprietary Funds account for operations that are organized to be self-supporting through user charges. The District's Proprietary Funds consist of two Internal Service Funds.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the District and to other government units on a cost reimbursement basis.

Production Printing Fund

This fund accounts for all financial activities associated with the District's printing services.

Risk Related Activities Fund

This fund is used to account for the financial transactions of all health and wellness programs. This includes employee benefits such as health, vision, and dental insurance.

Statistical Section

This part of the Colorado Springs School District 11 Comprehensive Annual Financial Report presents detailed data as a context for understanding the information in the financial statements, note disclosures, and required supplementary information.

Financial Trends

The schedules on pages 132-139 contain trend information to help the reader understand how the District's financial performance and wellbeing have changed over time.

Revenue Capacity

Pages 140-143 contain information to help the reader assess the District's most significant local revenue source, the property tax.

Debt Capacity

Pages 144-149 present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

Pages 150-153 offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

Pages 154-162 contain service data to help the reader understand how the information in the Districts' financial report relates to the services the District provides and the activities it performs.

Note: Unless otherwise noted, the information in these schedules is derived from internal sources.

Notes:

In fiscal year 2015, the District restated beginning net position/fund balance due to a reclassification of a non-major enterprise fund to a non-major special revenue fund. Consistent with the guidance from the Colorado Department of Education and in accordance with GASB Statement No 54, Fund Balance Reporting and Governmental Fund Type Definitions, management of the District has reclassified the Food Services Fund from an enterprise fund to a special revenue fund.

In addition, during fiscal year 2015, the District adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions, which requires the District to record its "proportionate share" of the net pension liability and related deferred inflows and outflows of resources in the government-wide financial statement.

During fiscal year 2018, the District adopted GASB Statement No. 75, Accounting and Financial Reporting for Post-employment Benefits Other Than Pensions, which requires the District to record its "proportionate share" of the net pension liability and related deferred inflows and outflows of resources in the government-wide financial statement.

In fiscal year 2020, the District implemented GASB Statement No. 84, Fiduciary Activities. Due to this statement, the District now reports certain pupil and other activities as special revenue funds that were previously reported as agency funds. The District restated beginning net position/fund balance due to this reclassification.

Balances prior to 2015, 2018 and 2020 are shown as originally presented and have not been restated for these accounting changes.

Notes:

Overlapping rates are those of local and county governments that apply to property owners within Colorado Springs School District 11.

Not all overlapping rates apply to all District property owners. The rates for special districts apply only to the proportion of the government's property owners whose property is located within the geographic boundaries of the special district.

State Constitution, Article X, Section 20, limits the District's ability to raise its direct tax rates as disclosed in Note 13.

Source: El Paso County Treasurer's Office.

Notes:

Collections in Subsequent Years column includes interest, penalties and abatements as well as delinquent tax collections. Negative amounts indicate abatements in excess of revenues.

Because interest and penalties are included in the Percentage of Levy column, these percentages may exceed 100%.

2020 collections are from January 31 to August 31. Additional taxes will be collected from September 1 to December 31.

Computation of Direct and Overlapping Debt

June 30, 2020

	2020 Assessed Valuation	Entity's Debt Outstanding	Estimated Percentage Applicable	Estimated Share of Overlapping Debt
Direct Debt:				
Colorado Springs School District 11	\$ 3,089,557,740	\$ 85,590,000	100.00%	\$ 85,590,000
Overlapping Debt:				
Central Marksheffel Metropolitan District	41,018,200	10,340,000	29.00%	2,998,600
City of Colorado Springs	6,226,328,390	67,942,000	50.90%	34,582,478
El Paso County	8,687,130,030	124,776,745	33.44%	41,725,344
Gold Hill Mesa Metropolitan District #2	13,626,740	9,938,518	100.00%	9,938,518
Lowell Metropolitan District	5,167,590	7,940,000	100.00%	7,940,000
Marketplace at Austin Bluffs GID	5,235,540	2,000,000	99.58%	1,991,600
North Nevada Ave URA	38,343,860	45,555,000	99.90%	45,509,445
Powers and Woodmen BID	\$ 13,245,120	\$ 4,019,535	99.98%	4,018,731
Total Overlapping Debt				148,704,716
Total Direct and Overlapping Debt				\$ 234,294,716

Sources: El Paso County Assessor's Office and information obtained from individual entities and from the District.

Notes:

The following entities also overlap the District but have no general obligation debt outstanding:

Barne Cent Metro, Canyon Crk Metro #'s 1,2,3, Cent CO Conservation, Chaparral Pointe Metro, Cherokee Metro, Cheyenne Crk Metro Park&Water, Cimarron Hills Fire Protection, City Auditorium Block URA, City of Manitou Springs, Citygate URA, CO Ave Gateway SIMD, Creekwalk Marketplace BID, CS Dwtm Devel Authority, El Paso Cty Conservation and PID#2, Gold Hill Mesa Commercial URA and #'s 1,3, and URA, Greater Dwtm CS BID, Ivywild Neighb URA, Meadowbrook Crossing Metro, Norwood SIMB, Old COLO City Security & Maint., Patriot Pk Metro #1,2, Peterson Gateway Metro, Pikes Peak Library, Platte Ave SIMD, Powers Corridor Metro, Powers Metro, S Nevada Ave URA, SE CO Water Conservancy, SW Dwtm URA, SW Dwtm BID, SW Dwtm Metro #'s1,2, Sands Metro, Tuscan Foothills Villiage Metro, W Gate Metro

Some districts had authorized but unissued debt prior to the TABOR amendment. These districts report that it is unlikely bonds will be issued based upon the authorization due to limitations imposed by agreements with the city and/or the county.

The amount of each entity's outstanding debt attributable to the District is calculated by determining the percentage amount of that entity overlapping the District and multiplying the entity's outstanding debt by the percentage.
