INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
the Board of Trustees
Town of Blanca
Blanca, CO 81123

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Blanca, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of Blanca, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension trend data on pages i through xi and pages 35 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Blanca's basic financial statements. The individual fund financial statements and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund schedules and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund schedules and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Arthur, Waller & Co., Inc.

July 15, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS

PURPOSE

The Town of Blanca's Management's Discussion and Analysis (MD&A) is designed to:

- 1) Assist the reader in focusing on significant financial issues.
- 2) Provide an overview of the Town's financial activity.
- 3) Identify changes in the Town's financial position.
- 4) Identify any material deviation from the budget.
- 5) Identify individual fund issues or concerns.
- 6) Implement the reporting requirements of GASB 34 (Governmental Accounting Standards Board Statement 34) and GASB 68

The MD&A is designed to focus on the report year's activities, resulting changes and currently known facts. Please read it in conjunction with the Town's Financial Statements.

INTRODUCTION

The Town of Blanca is a Statutory Rule Municipality, founded in 1908 and incorporated in 1909. The type of government is Town Board-Mayor with the seven elected officials being responsible for all policy decisions that affect the Town's financial condition. The appointed Town Clerk is responsible for preparing the annual budget, which is adopted by the Board by December 15th. The Clerk is responsible for financial reporting to the Town Board and to the public-at-large. The Town maintains four separate funds, which are as follows:

1. General Fund: This is the chief operating fund of the Town of Blanca. It accounts for all general services provided by the Town, excluding utilities.
2. Water and Sewer Enterprise Fund: This fund accounts for the Town's utilities and is operated in a manner similar to private business.
3. Conservation Trust Fund: This fund accounts for the lottery monies sent to the Town and for expenses related to parks and recreation that are allowed under State law.
4. Cemetery Fund: This is a savings account established for cemetery improvements.

The Volunteer Firemen Pension Fund is administered by the Fire and Police Pension Association (FPPA) for the Town of Blanca. The Town contributes 1 mill of property tax levy each year to this fund and the Colorado State Matching Funds contribution is equivalent to another ½ mill. For budgetary purposes, the Town only records expenditures related to the property tax levy in the General Fund. The Town receives quarterly reports from the FPPA, monitors and keeps records of the balances of the fund; however, the actual fund at FPPA is not considered a Town fund for budgetary purposes. In order for the Town to administer the fund, and thus include the total fund in the budget, the Town would have to withdraw its association with FPPA.

Financial Information

The Town's government-wide statements have been prepared using the economic resources measurement of focus and the accrual basis of accounting. The Town's fund financial statements for governmental funds have been prepared using the modified accrual basis of accounting. The Town's

annual audit is prepared by Dixon, Waller & Co. Inc., Certified Public Accountant, with the contents of the audit meeting the requirements set forth by the Colorado State Auditor's Office. The financial system of the Town incorporates financial and administrative controls, including a Financial Control Policy, that ensure the safeguarding of assets and the reliability of financial reports. To ensure budgeting controls, the Town Board approves all major budgetary changes by passage of a Resolution amending the budget.

Using This Annual Report

This discussion and analysis are intended to serve as an introduction to the Town of Blanca's financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. This financial report is designed to provide our residents, taxpayers, customers, granting agencies, and creditors with a general overview of the Town's finances and to show the Town's accountability for the funds and assets it receives.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Blanca uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: Governmental Funds and Proprietary Funds.

Governmental Funds

Most of the Town's basic services are reported in governmental funds, which focus on cash flows. The unrestricted balances left at year-end are available for spending in future years. The funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can readily be converted to cash. The governmental funds statements provide a detailed short-term view as to cash, operations, and basic services provided.

The Town of Blanca maintains three governmental funds: General Fund, Conservation Trust Fund and Cemetery Fund. Information is presented in the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. Annual budget appropriations are adopted for each of these funds. Budgetary comparison statements are provided to demonstrate compliance with budgets.

Proprietary Funds

The Town's water, sewer and refuse services are reported in proprietary funds. They focus on overall economic position rather than year-end fund balances. Enterprise funds are the type of proprietary funds used to account for the Town's utilities. Enterprise funds are used to report the same functions presented in business-type activities in the governmental-wide financial statements, only in more detail.

Notes to the Financial Statement

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the Financial Statements can be found immediately after the basic financial statements.

Government-Wide Financial Analysis

This financial report for the year ended December 31, 2020 reflects again the implementation of GASB 34 and GASB 68. GASB 34 requires governments to report the information found in the Basic Financial Statements and to include a presentation of comparative data from the prior period. GASB 68 requires similar information related to pension funds. The Town has prepared its financial report under the guidelines contained in GASB 34, and prior year comparative data for the Basic Financial Statements are available.

FINANCIAL HIGHLIGHTS

- The Town of Blanca remains in good financial condition, as the General Fund unassigned balance at year-end is \$ 537,817 with a total fund balance of \$547,506. This balance is considered to be safe levels of reserves, as it would allow the Town to cover its governmental operating costs for more than a six-month period in the unlikely event of loss of revenues.
- The assets of the Town's Governmental Funds exceed its liabilities at the close of the fiscal year by \$ 1,302,648 (net position). Of this amount, \$ 577,270 (unrestricted net position) may be used to meet the Town's ongoing obligations to residents and creditors. \$ 9,689 is designated for TABOR reserve and \$ 44,770 is designated for specific activities, including Conservation Trust Fund. Under GASB 34, the Town is required to report net position in this manner. Capital Assets account for the bulk of the net position.
- At December 31, 2020, the Town's governmental funds reported combined ending fund balances of \$ 597,080, reflecting an increase of \$ 47,678.
- The Town of Blanca has as one long term debt.
- The water and sewer fund has a debt of \$223,687 for water system improvements including the water tank, parallel pipeline, well improvements and chlorination pipeline. This 40-year, 0% loan from the Colorado Power Authority was partially paid by principal forgiveness of \$84,700 in 2011 and \$79,800 in 2012. The unused loan amount of \$2,556.56 was also applied against the principal in 2015. The loan is repaid in two payments of \$5,325.88 each year.

STATEMENT OF NET POSITION

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The Town of Blanca's assets exceeded liabilities by \$ 2,108,182 at the close of 2020.

Statement of Net Position	2020 Governmental Activities	2020 Business-type Activities	2020 Total
Current and Other Assets	\$ 687,585	\$ 420,256	\$1,107,841
Capital Assets	<u>\$ 670,919</u>	<u>\$ 616,952</u>	<u>\$1,287,871</u>
Total Assets	\$1,358,504	\$1,037,208	\$2,395,712
Deferred Outflows	\$ 27,113	-	\$ 27,113
Total Liabilities	<u>\$ 11,227</u>	<u>\$ 231,674</u>	<u>\$ 242,901</u>
Deferred Inflows	\$ 71,742	-	\$ 71,742
Net Position:			
Invested in Capital,	\$ 670,919	\$ 393,265	\$1,064,184
Restricted for Tabor Reserve	\$ 9,689	--	\$ 9,689
Special Revenue Funds	\$ 44,770	--	\$ 44,770
Unrestricted	<u>\$ 577,270</u>	<u>\$ 412,269</u>	<u>\$ 989,589</u>
Total Net Assets	<u>\$1,302,648</u>	<u>\$ 805,534</u>	<u>\$2,108,182</u>

The much of the Town's net assets (50%) reflects its investment in capital assets (land, buildings and systems, infrastructure and equipment) less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to residents and businesses; consequently, these assets are not available for future spending. The remaining balance of net assets (less the TABOR reserve), \$1,034,359, may be used to meet the Town's ongoing obligations to residents, businesses and creditors.

STATEMENT OF ACTIVITIES

Governmental Activities

For 2020, total revenue for Governmental Activities was greater than expenses by \$47,678. Total revenue for Business-type Activities (Enterprise Fund) was greater than expenses by \$34,135 excluding depreciation.

The following condensed table of changes in net assets illustrates changes in net positions for Governmental Activities and Business-type Activities for 2020.

Changes in Net Position

	2020 Governmental Activities	2020 Business-type Activities	2020 Total Activities
Revenues			
Program Revenues:			
Charges for service	\$ 71,279	\$ 166,756	\$ 238,035
Operating Grants & Contributions	64,852		64,852
General Revenues:			
Taxes	184,909		184,909
Intergovernmental Revenue	2,437		2,437
Unrestricted investment earnings	2,455	1,785	4,240
Other	<u>37,161</u>		<u>37,161</u>
Total Revenues	<u>\$ 363,093</u>	<u>\$ 168,541</u>	<u>\$ 531,634</u>
Expenses:			
General Government	\$ 94,087		\$ 94,087
Public Safety	159,848		159,848
Public Works	101,732		101,732
Parks, Recreation			
Pension Amortization	10,672		10,672
Water, Sewer, Trash (inc depreciation)		<u>164,239</u>	<u>164,239</u>
Total Expenses	<u>\$ 366,339</u>	<u>\$ 164,239</u>	<u>\$ 530,578</u>
Change in Net Position	\$ (3,246)	\$ 4,302	\$ 1,056
Net Position, Beginning of Year	\$1,305,894	\$ 801,232	\$ 2,107,126
Net Position, End of Year	\$1,302,648	\$ 805,534	\$ 2,108,182

Note: Expenses for the Business-Type Activities include depreciation of \$29,833 for 2020.

General Fund Activities

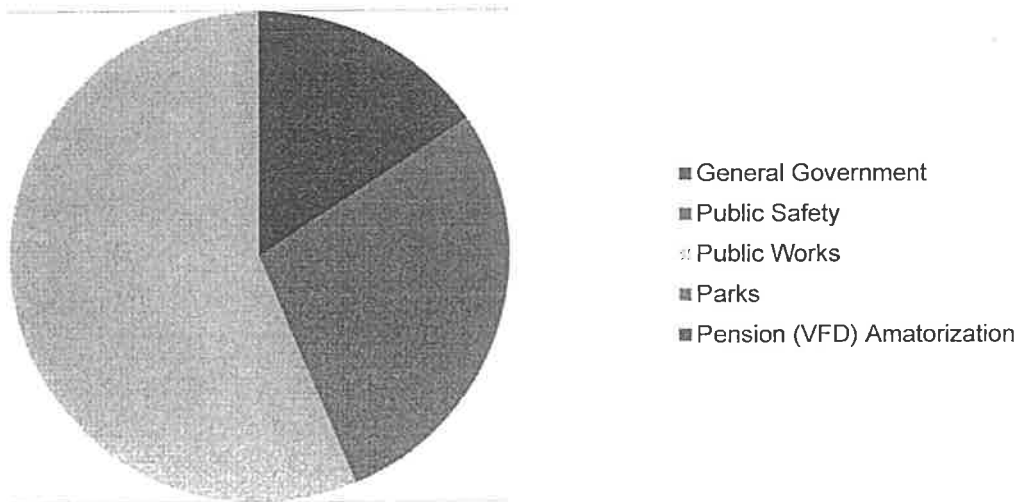

As previously noted, governmental activities are principally supported by taxes, intergovernmental revenues, grant funding and charges for services. These revenues support General Government activities, including Administration, Planning, Data Processing, Town Board, Public Safety (Police, Animal Control, and Municipal Court), and Public Works, including Streets, Parks and Recreation.

The following two charts illustrate the Governmental Activities revenues and expenses from the General Fund. Grant income and expenditures skew the percentages of normal operating income and expenditures differently each year according to the amount and type of grants received.

Government Fund Revenues

Government Funds Expenditures

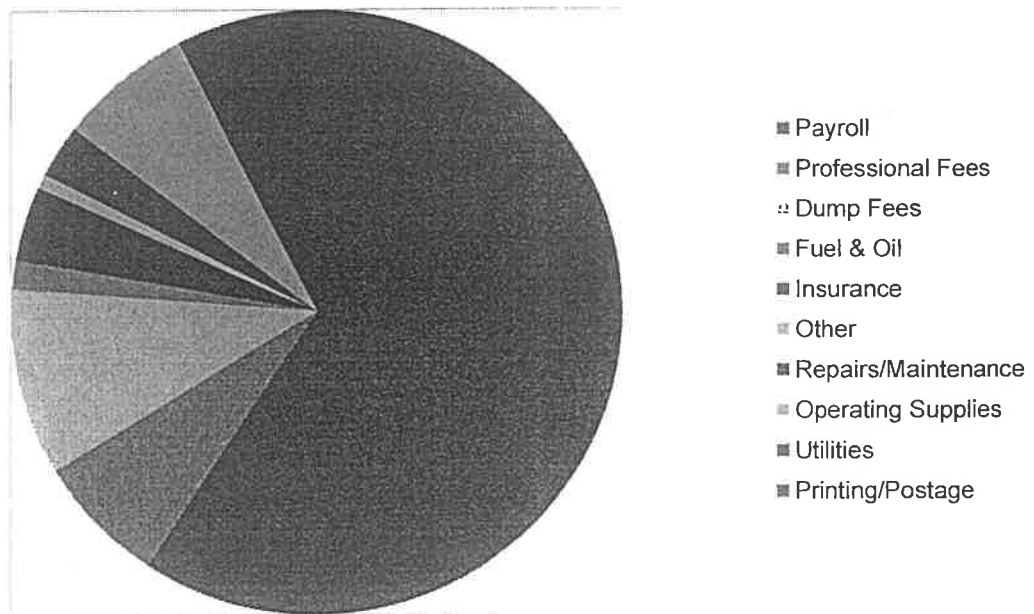

Business-type Activities

Net assets in Business-type activities increased by \$4,302 which was due mostly to increased water billings. The following two charts illustrate the Business-type Activities revenues and expenses excluding depreciation.

Water Sewer Department Income

Water Sewer Department Expenses

GOVERNMENTAL FUNDS WITH PRIOR YEAR COMPARISONS

Governmental Activities

General Fund	Prior Year Comparisons		Variance
	2019	2020	
Revenues	\$552,126	\$360,492	\$(191,634)
Expenses	\$483,400	\$315,415	\$(167,985)
Net Income	\$ 68,480	\$ 45,077	

In the General Fund, revenue and expenses were both higher in 2019 than in 2020. Income from licenses/permits and a grant received for the Town's new playground equipment were higher in 2019 than in 2020. The employees received a 3% Cost of Living raise for 2020.

Conservation Trust Fund	Prior Year Comparisons		Variance
	2019	2020	
Revenues	\$3,480	\$2,444	\$(1,036)
Expenses	\$ 0	\$ 0	\$ 0
Net Income	\$3,480	\$2,444	

2019 had higher trust fund distributions than 2020. No expenses were incurred in either 2019 or 2020.

Cemetery Fund	Prior Year Comparisons		Variance
	2019	2020	
Revenues	\$ 9	\$ 157	\$ 148
Expenses	\$ 0	\$ 0	\$ 0
Net Income	\$ 9	\$ 157	

The higher income in 2020 was due to cemetery plots being purchased. No expenses were incurred in either 2019 or 2020.

Business Type Activities

Water & Sewer Fund	Prior Year Comparisons		Variance
	2019	2020	
Revenues	\$ 148,698	\$ 168,541	\$ 19,843
Expenses	\$ 160,533	\$ 164,239	\$ 3,706
Net Income	\$ (11,835)	\$ 4,302	

Implementation of GASB 34 makes it more difficult for an average person to understand the actual expenses (cash flow) in the Water and Sewer Fund. GASB 34 treats depreciation as an actual expense. Debt Service is not treated as an expense. The chart above gives a GASB 34 view of expenses.

Depreciation expenses of \$ 333,984 for 2019 and \$29,833 for 2020 are included in the chart above. Ordinary expenses for 2020 without depreciation were \$134,406.

Change in Net Position for 2020 without depreciation was \$ 34,135. Of that amount, \$10,652 was paid on the loan agreement with the Colorado Water Resources and Power Development Authority for the construction of improvements to the water system.

BUDGETARY HIGHLIGHTS

General Fund

Expenses

During the year ended December 31, 2020, the Town General Fund expenditures were less than the final budget by \$58,620. Expenses for all departments, Administration, Public Safety and Public Works were under budget.

Income

Income was \$ 43,554 more than budgeted. The Town applied for and received \$12,257 in COVID Relief grant assistance. Revenue from property taxes, licenses and permits, highway users tax, and fines income were less than expected while income from sales taxes, grants and miscellaneous income were more than expected.

Water & Sewer Fund

Expenses

During the year ended December 31, 2020, the Town Water and Sewer Fund expenditures were more than the final budget by \$5,501. This was a combination of an increase in salaries and benefits, fuel, and operating supplies. Utilities, insurance and other expenses were under the budgeted amount.

Income

The income from charges for services during 2020 was above the budgetary projections by \$29,681. The extra income was mostly due to overage charges for use above the allotted 16,000 gallons for the base rate. Interest revenue was also higher than budgeted.

Conservation Trust Fund

Income

The income for the Trust fund comes from distribution of Colorado Lottery monies and interest earned. The Town received more than the amount budgeted for the trust fund from the lottery. In 2020, the Conservation Trust Fund money remained with ColoTrust. The interest revenue was more than the budgeted amount. The overall income was 11.09% above the budgeted amount.

Expenses

The Town budgeted \$27,000 for park improvements that were not undertaken. Regular park maintenance expenses were less than budgeted amounts. The net income for this fund was \$2,444.

Cemetery Fund

Income

Income for this fund comes from the sale of cemetery grave sites, fees for opening and closing graves, and donations. The fund received \$32 more than budgeted.

Expenses

This account is a savings account to accumulate money for improvements to the cemetery. There were no expenses for this fund which is what we budgeted.

The net income for this fund was \$157.

CAPITAL ASSETS

At December 31, 2020, the Town had invested in a range of capital assets including land, buildings and improvements, vehicles, equipment, and infrastructure. The following is the Capital Asset Activity for the year ending December 31, 2020.

Proprietary Funds Assets	
Land	\$ 3,666
Utility System	\$ 1,227,688
Less Accumulated Depreciation	\$ (614,402)
Net Capital Assets	\$ 616,952

This includes an increase in depreciation of \$29,833 for a net change in Capital assets of \$(29,833) for 2020.

Government Type Assets	
Land	\$ 30,866
Building and Improvements	\$ 275,539
Machinery and Equipment	\$ 486,801
Infrastructure	\$ 532,470
Less Accumulated Depreciation	\$ (654,757)
Net Capital Assets	\$ 670,919

This includes an increase in machinery and equipment of \$8,323 and an increase of depreciation of \$48,575 for a net change in Capital Assets of \$(40,252) for 2020.

DEBT ADMINISTRATION

Two loan payments from the Water/Sewer Fund for the Well-Tank Project were made during 2020 for a total of \$10,652. At the end of 2020, the total loan amount to be repaid was \$223,687. Twice yearly payments of \$5,326 are scheduled in 2021.

SUMMARY OF FINANCIAL CONDITION

The Town of Blanca continues to maintain a good financial position. Financial trends have been mixed with some sectors stronger and some weaker than previous. The enterprise fund (water and sewer) balance increased in 2020p because of revenue increases and lower expenses. The fund balance is high enough for most emergencies. A part of the reserve fund is being held for possible expenses related to the new state mandated groundwater rules that will increase expenditures in the coming years.

In the Water and Sewer Department, challenges include an attempt to keep rates affordable for our citizens and at the same time fund necessary upgrades, repairs, sampling, payroll expenses and state and federal regulatory requirements.

The repair, upkeep and upgrading of the streets in the Town presents a continuing financial challenge because the income of the Town's General Fund is never sufficient to cover these necessary projects, and no grants are available for non-highway road projects. In November 2006, the citizens of the Town passed a sales tax increase of 1%, bringing the total sales tax as of January 2007 to 3%. This 1% sales tax increase helps, but does not solve, the road infrastructure problems. It does free other sales tax revenues to be applied to other essential services.

Paying for essential police services is also a challenge for the Town. In the last several years, the police department has accounted for almost half of the total expenses of the General Fund. Income from traffic fines and other miscellaneous department services such as vehicle identification number (VIN) inspections helps fund the department, but only covers about 20% of the expenditures.

REQUESTS FOR INFORMATION

If you have questions about this report or need additional information, contact the Town Clerk, P.O. Box 190, Blanca, CO 81639 or call (719) 379-3461.

TOWN OF BLANCA, COLORADO
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
December 31, 2020

Amounts reported for governmental activities in the statement of the net position are different because:

<u>Total Fund Balance – Governmental Funds</u>	597,080
Capital Assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$1,325,676 and the accumulated depreciation is \$654,757.	670,919
Net pension asset, net pension liability, deferred outflows, and deferred inflows related to pensions are not current financial resources and therefore are not reported as assets or liabilities in the governmental funds.	<u>39,140</u>
<u>Total Net Position – Governmental Activities</u>	<u>1,307,139</u>

The accompanying notes are an integral part of these financial statements.

TOWN OF BLANCA, COLORADO
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN
 FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 Year Ended December 31, 2020

Amounts reported for governmental activities in the statement of activities are different because:

<u>Net Change in Fund Balances – Total Governmental Funds</u>	<u>47,678</u>
---	---------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlays	8,323
Depreciation Expense	(48,575)

Payments for pension benefits are recorded as an expenditure in the governmental funds but are recorded as expenses or benefit on an accrual basis in the entity-wide statements based on the changes in the net pension asset/liability.

Pension Income	1,766
Pension Expense	<u>(7,947)</u>

<u>Change in Net Position of Governmental Activities</u>	<u>1,245</u>

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Blanca (the Town) was incorporated in 1909. The Town operates under a Mayor-Board of Trustees form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services.

A Reporting Entity

Governmental Accounting Standards Board (GASB) Statement No. 14 (as amended by Statement No. 34, No. 39 and No.61), "*The Financial Reporting Entity*" (GASB No. 14) describes the financial reporting entity as it relates to governmental accounting. According to this Statement, the financial reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations whose exclusion from the reporting entity's financial statements would cause those statements to be misleading or incomplete.

Any organizations that can be described by these last two items are included with the primary government in the financial statements as component units.

This Town is not included in any other governmental "reporting entity" as defined in GASB No. 14 and does not include any other component unit as part of its "reporting entity". As required by accounting principles generally accepted in the USA, these basic financial statements present the Town (the primary government) and its component units.

B. Government – Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from the Town's legally separate *component units* for which the Town is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or identifiable activity are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or identifiable activity. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Government – Wide and Fund Financial Statements (Continued)

Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of general government, except those required to be accounted for in another fund.

The *Conservation Trust Fund* accounts for state revenue for the purpose of providing for the town park.

The *Cemetery Fund* accounts for the operations of the local cemetery. The fund is financed by user fees.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The Town reports the following major proprietary funds:

The *Water and Sewer Fund* accounts for the activities of the Town's water distribution, sewage disposal and treatment systems.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the Town's utility functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating revenues* and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the utility enterprise funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

D. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	10-40
Parks, Recreational and Other	5-30
Streets and Improvements	20
Vehicles	10
Equipment	10-15

E. Budgets and Budgetary Accounting

The Town has set procedures to be followed in establishing the budgetary data reflected in the financial statements:

1. Prior to October 1, the Town Clerk submits to the Board of Trustees a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to December 31, the budget is legally enacted through passage of an ordinance or resolution.
4. The Town Clerk is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Town Council.
5. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for Enterprise Funds are on a non GAAP basis.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

F. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded, is not used by the Town of Blanca.

G. Inventory

The costs of inventories are recorded as expenditures at the time of purchase in governmental fund types.

H. Compensated Absences

The Town adopted a Vacation and Sick Leave Policy. The Policy provides that any full-time employee (40 hours per week) receive 5 sick days and 5 vacation days the first year, increasing a day a year to ten years, and ten days thereafter. Employees working between 32 and 40 hours per week receive 4 days the first year, increasing to 8 days the tenth year and thereafter. Employees working between 24 and 32 hours per week receive 3 days the first year, increasing incrementally to 6 days the tenth year and thereafter. Unused vacation balance is paid upon separation, but sick pay is not vested. The Town does not have any compensated absences payable at December 31, 2020.

I. Property Taxes

Property taxes represent ad valorem taxes levied by the Town, which are payable to the County Treasurer, and are recognized as revenue by the Town in the year for which they are levied.

Property taxes are levied in December for collection in the subsequent year.

Property taxes attach as an enforceable lien on property as of January 1. Taxes may be paid without penalty in either of two ways: (a) Full payment by April 30, or (b) First half must be paid by last day of February, and second half must be paid by June 15.

J. Contraband

There were no contraband proceeds for the year ended December 31, 2020.

K. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expense during the reporting period. Actual results could differ from those estimates.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

L. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Town to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments.

M. Due To/From Funds

Outstanding balances between funds created by lending/borrowing or cash allocation in common purchasing activities are reported as due to/from funds.

N. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as charges when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

O. GASB Statement No. 54

The Government Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

1. Nonspendable such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned).

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

O. GASB Statement No. 54 (Continued)

2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Trustees (the Town's highest level of decision-making authority).
4. Assigned fund balance classification is intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed.
5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund Balance Classification Policies and Procedures

Committed Fund Balance Policy:

The Town's Committed Fund Balance is fund balance reporting required by the Board of Trustees, either because of a Board of Trustees Policy in the Board of Trustees Policy Manual, or because of motions that passed at Board of Trustees meetings.

Assigned Fund Balance Policy:

The Town's Assigned Fund Balance is fund balance reporting occurring by Board of Trustees Administration authority, under the direction of the Town manager.

Order of Fund Balance Spending Policy

The Town's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First, non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then unrestricted fund balances are determined following the order of committed, assigned, and unassigned.

TOWN OF BLANCA, COLORADO
 NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

O. GASB Statement No. 54 (Continued)

Fund Balance Classification Policies and Procedures (Continued)

Fund Balance Classification by Fund:

	General Fund	Conservation Trust Fund	Cemetery Fund	Total Governmental Funds
<u>Nonspendable:</u>	-	-	-	-
<u>Restricted:</u>				
Emergencies	9,689	-	-	9,689
Culture and Recreation	-	44,770	-	44,770
<u>Committed</u>	-	-	-	-
<u>Assigned:</u>				
Health and Welfare	-	-	4,804	4,804
<u>Unassigned</u>	<u>537,817</u>	<u>-</u>	<u>-</u>	<u>537,817</u>
<u>Total Fund Balances</u>	<u>547,506</u>	<u>44,770</u>	<u>4,804</u>	<u>597,080</u>

P. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position and the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position and the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 4 PENSION PLANS (Continued)

Fire & Police Statewide Defined Benefit Plan

Plan description. The Plan is a cost-sharing multiple-employer defined benefit pension plan covering substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978 (New Hires), provided that they are not already covered by a statutorily exempt plan. As of August 5, 2003, the Plan may include clerical and other personnel from fire districts whose services are auxiliary to fire protection. The Plan became effective January 1, 1980.

The Plan assets are included in the Fire & Police Members' Benefit Investment Fund and the Fire & Police Members' Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Separate Retirement Account assets from eligible retired members).

The Plan is administered by the Fire & Police Pension Association of Colorado (FPPA). FPPA issues a publicly available comprehensive annual financial report that can be obtained on FPPA's website at <http://www.FPPAco.org>.

Benefits provided. A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member's combined years of service and age equals at least 80, with a minimum age of 50 (Rule of 80).

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members covered under Statewide Defined Benefit Social Security Component will receive half the benefit when compared to the Statewide Defined Benefit Plan. Benefit adjustments paid to retired members are evaluated annually and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W).

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

Contributions. Through December 31, 2020, contribution rates for the SWDB plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership. Effective January 1, 2021, contribution rates for employers and members may be increased equally by the FPPA Board of Directors upon approval through an election by both the employers and members.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 4 PENSION PLANS (Continued)

In 2014, the members elected to increase the member contribution rate to the SWDB plan beginning in 2015. Member contribution rates will increase 0.5 percent annually through 2022 to a total of 12 percent of pensionable earnings. Employer contributions are 8 percent in 2019 and 2020. Employer contributions will increase 0.5 percent annually beginning in 2021 through 2030 to a total of 13 percent of pensionable earnings. In 2019, members of the SWDB plan and their employers are contributing at the rate of 10.5 percent and 8 percent, respectively, of pensionable earnings for a total contribution rate of 18.5 percent.

Contributions from members and employers of departments reentering the system are established by resolution and approved by the FPPA Board of Directors. The reentry group has a combined contribution rate of 22.5 percent and 23.0 percent of pensionable earnings in 2019 and 2020, respectively. It is a local decision as to whether the member or employer pays the additional 4 percent contribution. The member and employer contribution rates will increase through 2030 as described above for the non-reentering departments. Effective January 1, 2021, reentry departments may submit a resolution to the FPPA Board of Directors to reduce the additional 4 percent contribution, to reflect the actual cost of reentry by department, to the plan for reentry contributions. Each reentry department is responsible to remit contributions to the plan in accordance with their most recent FPPA Board of Directors approved resolution.

The contribution rate for members and employers of affiliated social security employers is 5.25 percent and 4 percent, respectively, of pensionable earnings for a total contribution rate of 9.25 percent in 2019 and 9.50 percent in 2020. Per the 2014 member election, members of the affiliate social security group had their required contribution rate increase 0.25 percent annually beginning in 2015 through 2022 to a total of 6 percent of pensionable earnings. Employer contributions are 4 percent in 2019 and 2020. Employer contributions will increase 0.25 percent annually beginning in 2021 through 2030 to a total of 6.5 percent of pensionable earnings.

Contributions to the Plan from the Department were \$2,683 for the year ended December 31, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2020, the Department reported an asset of \$2,545 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2019, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The Department's proportion of the net pension asset was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating Departments, actuarially determined. At December 31, 2019, the Department's proportion was 0.0045 percent, which was a decrease of 0.0003 percent from its proportion measured as of December 31, 2019.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 4 PENSION PLANS (Continued)

For the year ended December 31, 2020, the Department recognized pension expense of \$7,947. At December 31, 2020, the Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ -	\$ (4,001)
Changes in assumptions	8,613	(50)
Net difference between actual and projected earnings on pension plan investments	4,832	-
Changes in proportion and differences between Department contributions and proportionate share of contributions	4,561	(70)
Department contributions subsequent to the measurement date	2,683	-
Total	\$ 20,689	\$ (4,121)

\$2,683 reported as deferred outflows of resources related to pensions resulting from Department contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31,	
2021	\$ 1,569
2022	1,223
2023	2,525
2024	836
2025	2,544
Thereafter	5,188

Actuarial assumptions. The actuarial valuations for the Statewide Defined Benefit Plan were used to determine the total pension liability and actuarially determined contributions for the fiscal year ending December 31, 2019. The valuations used the following actuarial assumption and other inputs:

	Total Pension Liability	Actuarial Determined Contributions
Actuarial Valuation Date	January 1, 2020	January 1, 2019
Actuarial Method	Entry Age Normal	Entry Age Normal
Amortization Method	N/A	Level % of Payroll, Open
Amortization Period	N/A	30 Years
Long-term Investment Rate of Return*	7.0%	7.0%
Projected Salary Increases*	4.25% - 11.25%	4.25% - 11.25%
Cost of Living Adjustments (COLA)	0%	0%
*Includes Inflation at	2.5%	2.5%

TOWN OF BLANCA, COLORADO
 NOTES TO FINANCIAL STATEMENTS
 December 31, 2020

NOTE 4 **PENSION PLANS (Continued)**

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2018 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2019. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Plans target asset allocation as of December 31, 2019, are summarized in the following table.

Asset Class	Target Allocation	Long Term Expected Rate of Return
Global Equity	38%	7.00%
Equity Long/Short	8%	6.00%
Private Market	25%	9.20%
Fixed Income	15%	5.20%
Absolute Return	8%	5.50%
Managed Futures	4%	5.00%
Cash	2%	2.52%
Total	100%	

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Fire & Police Pension Association Board of Director's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS

December 31, 2020

NOTE 4 PENSION PLANS (Continued)

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan’s fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan’s projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00 percent; the municipal bond rate is 2.75 percent (based on the weekly rate closest to but not later than the measurement date of the “state & local bonds” rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00 percent.

Regarding the sensitivity of the net pension liability/(asset) to changes in the Single Discount Rate, the following presents the plan’s net pension liability/(asset), calculated using a Single Discount Rate of 7.00 percent, as well as what the plan’s net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher.

1% Decrease	Single Discount Rate Assumption	1% Increase
6.00%	7.00%	8.00%
\$15,431	\$(2,545)	\$(17,454)

Pension plan fiduciary net position. Detailed information about the pension plan’s fiduciary net position is available in the separately issued Fire & Police Pension Association of Colorado financial report.

Volunteer Firefighters

The FPPA administers an agent multiple-employer PERS. The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The pension plans have elected to affiliate with FPPA for plan administration and investment only. FPPA issues a publicly available comprehensive annual financial report that can be obtained at:

<http://www.fppaco.org/annual-reports.html>

The plan provides normal retirement benefits, disability retirement and survivor benefits. Firefighters who have attained both 50 years of age and completed 20 years of active service in any fire department in the State of Colorado are eligible for a monthly pension. The Town has four retirees in this plan as of December 31, 2019.

At December 31, 2020, the Town reported a net pension asset of \$20,733. The net pension obligation was measured as of December 31, 2019, and the total pension liability used to calculate the net pension obligation was determined by an actuarial valuation as of January 1, 2019.

At December 31, 2019 the total pension liability was \$123,584 and the plan fiduciary net position was \$144,317. For the year ended December 31, 2020, the Town recognized pension income of \$1,766.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

NOTE 4 PENSION PLANS (Continued)

At December 31, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to the Volunteer pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	7,093	(11,691)
Net difference between expected and actual earnings on pension plan investments	-	-
Change in Assumptions	-	-
The employer's contributions to the plan subsequent to the measurement date of the collective net pension liability	3,892	-
Total	10,985	(11,691)

The deferred outflows and deferred inflows related to pensions are included with total deferred outflows and total deferred inflows on the statement of net position. Deferred outflows of resources of \$3,892 related to the Volunteer pension, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability or increase in the net pension asset in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the years ending December 31,	
2020	\$(1,111)
2021	\$(1,770)
2022	\$215
2023	\$(1,932)
2024	-
Thereafter	-

Employer contributions are recognized by FPPA in the period in which the compensation becomes payable to the member and the Town is statutorily committed to pay the contributions to FPPA. Employer contributions recognized by the FPPA from the Town were \$3,892 for the year ended December 31, 2020.

Actuarially determined contribution rates are calculated as of January 1 of even numbered years. The contributions rates have a one-year lag, so the actuarial valuation as of January 1, 2017, determines the contribution amounts for 2018 and 2019.

Methods and assumptions used to determine contribution rates for the fiscal year ending December 31, 2019:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open*
Remaining Amortization Period	20 Years*
Asset Valuation Method	5-Year Smoothed Market
Inflation	2.50%
Salary Increases	N/A
Investment Rate of Return	7.50%
Retirement Age	50% per year of eligibility until 100% at age 65
Mortality	Pre-retirement: RP-2014 Combined Mortality Table with Blue Collar Adjustment, 55% multiplier for off-duty mortality; Post-retirement: RP-2014. Combined Mortality Table, with Blue Collar Adjustment; Disabled: RP-2014. Disabled Mortality Table; All tables projected with Scale BB

*Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

NOTE 4 PENSION PLANS (Continued)

Assumption Changes

The assumptions shown above pertain to the actuarial valuation as of January 1, 2017 and the associated Actuarially Determined Contribution for the year ending December 31, 2019. Following a regularly scheduled experience study in 2018, the Board adopted a new assumption set for first use in the January 1, 2019 valuations. This new assumption set is used in determining the net pension liability as of December 31, 2018 and as of December 31, 2019.

The primary changes, which can be observed in the January 1, 2019 valuation, as compared to the assumptions shown are as follows:

Investment Rate of Return	7.00%
Mortality	<p>Pre-retirement: 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality.</p> <p>Post-retirement: 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.</p> <p>Disabled: 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.</p>

Long-Term Expected Return on Plan Assets

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Nominal Rate of Return</u>
Cash	2.00%	2.52%
Fixed Income	15.00%	5.20%
Managed Futures	4.00%	5.00%
Absolute Return	8.00%	5.50%
Long/Short	8.00%	6.00%
Global Equity	38.00%	7.00%
Private Markets	25.00%	9.20%
Total	100.00%	

The figures in the above table were supplied by Fire and Police Pension Association Staff. Gabriel, Roeder, Smith & Company does not provide investment advice.

TOWN OF BLANCA, COLORADO
 NOTES TO FINANCIAL STATEMENTS
 DECEMBER 31, 2020

NOTE 4 PENSION PLANS (Continued)

Development of the single discount rate. The discount rate used to measure the total pension liability was 7.00 percent. The long term expected rate of investment return was 7.00 percent. The long term municipal bond rate was 2.75 percent. This rate is from the Federal Reserve statistical release (H.15), “based on the weekly rate closest to but not later than the measurement date.” The statistical release describes this rate as “Bond Buyer Index”, general obligation, 20 years to maturity, mixed quality.” In describing this index, the Bond Buyer notes that the bonds’ average credit quality is roughly equivalent to Moody’s Investors Service Aa2 rating and Standard & Poor’s Corp.’s AA.

Sensitivity of the Town’s proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Proportionate share of the net pension liability (asset)	(11,842)	(20,733)	(28,537)

NOTE 5 INTERGOVERNMENTAL AGREEMENT

The Town of Blanca is a member of (CIRSA) the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a separate and independent governmental and legal entity. CIRSA was formed by intergovernmental agreement by member municipalities pursuant to the provisions of 29-1-201 et. seq., C.R.S. as amended, 8-44-101(1)(c) and (3), and 8-44-110, C.R.S. as amended, and Colorado Constitution, Article XIV, Section 18(2).

The purposes of CIRSA are to provide members a self-insurance pool to provide defined coverages, and claims and risk management services related thereto.

It is the intent of the members of CIRSA to create an entity to defend and indemnify, in accordance with the Bylaws, any member of CIRSA against liability or loss, to the limit of the financial resources of CIRSA available to pay such liability or loss. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverages at reasonable costs. All income and assets of CIRSA shall be at all times dedicated to the exclusive benefit of its members. The Bylaws shall constitute the substance of the intergovernmental contract among the members.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 5 INTERGOVERNMENTAL AGREEMENT (Continued)

Summary audited financial information as of December 31, 2019 follows:

Assets	<u>87,354,845</u>
Liabilities	37,380,157
Net Position	<u>49,974,688</u>
	<u>87,354,845</u>
Revenues	29,379,298
Expenditures	(29,157,832)
Distributions to Members (Credits to Members)	<u>(791,271)</u>
Increase (Decrease) in Net Position	<u>(569,805)</u>

NOTE 6 SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The Town provides water, sewer and sanitation services for the Town Residents. Segment information on separate water and sewer activities cannot be disclosed because water and sewer revenues were cross-pledged as security for combined purpose bonds over the years and thus the financial records were combined since the fund's inception. A flat rate for water, sewer and sanitation services is used by the Town and differentiation of separate water and sewer assets, liabilities, revenues, and expenses cannot be made, thus, no segment information has been presented.

NOTE 7 CONTINGENCIES

The Town is not involved in any claims or actions which will result in costs or losses to the Town that are uninsured or of a material nature.

NOTE 8 CASH

The Town's cash at year-end consisted of deposits in financial institutions and was entirely covered by federal depository insurance or by collateral held by the financial institutions as their agent in the Town's name. Collateral is held under provisions of the Public Deposit Protection Act of 1975. This act requires pledged collateral to be clearly identified as security for public deposits and it requires that the pledging financial institution certify to the secured governmental unit that it is secured and indicate the location of the collateral. In the event of default or insolvency on the part of the pledging financial institution, the custodian will surrender the collateral to the state bank commissioner. A breakdown of cash and certificates of deposit follows:

TOWN OF BLANCA, COLORADO
 NOTES TO FINANCIAL STATEMENTS
 December 31, 2020

NOTE 8 CASH (Continued)

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Insured (FDIC)	250,000	250,000
Uninsured, Collateralized under the Public Deposit Protection Act of the State of Colorado	251,820	258,529
Cash on Hand	<u>-</u>	<u>-</u>
<u>Total Cash and Deposits</u>	<u>501,820</u>	<u>508,529</u>

As presented above, deposits with a bank balance of \$258,529 and a carrying balance of \$251,820 as of December 31, 2020 are uninsured, are exposed to custodial risk, and are collateralized with securities held by the pledging financial institution.

Reserves

Article X, Section 20 of the Constitution of the State of Colorado requires the Town to establish Emergency Reserves (see Note 9). \$9,689 of fund balance has been reserved in compliance with this requirement.

Investments

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which the local government entities may invest:

- Obligations of the United States and certain U.S. government agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 8 CASH (Continued)

Investments (Continued)

At December 31, 2020, the Town had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>	<u>Credit Risk Rating</u>
COLO Trust Plus	44 Day Average	<u>483,244</u>	AAA

Interest Rate Risk – The Town does not have a formal investment policy that limits investment maturities for managing possible fair value losses due to increasing interest rates.

Credit Risk – State Law limits the type of investments allowable. The rating by Standard & Poor for each investment are disclosed above.

Concentration of Credit Risk – The Town has no policy restricting the amount that can be invested in any issuer.

The Town categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town has no recurring fair value measurement as of December 31, 2020:

- COLOTRUST – Investments in this external investment pool are reported at \$1 net asset value per share and are not subject to fair value measurement. The investment is reported at cost.

NOTE 9 CONTINGENCIES - TAX, SPENDING AND DEBT LIMITATIONS

In November 1992, the voters of Colorado approved Amendment 1, commonly known as the Taxpayer's Bill of Rights (TABOR), which adds a new Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR.

The initial base for local government spending and revenue limits is 1992 Fiscal Year Spending. Future spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TOWN OF BLANCA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2020

NOTE 9 CONTINGENCIES - TAX, SPENDING AND DEBT LIMITATIONS (Continued)

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 1% of Fiscal Year Spending (excluding bonded debt service) in 1993, 2% in 1994 and 3% thereafter. Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. As of December 31, 2020, the Town reserved \$9,689 for this purpose.

TABOR requires, with certain exceptions, voters approval prior to imposing new taxes, increasing a tax rate, increasing a mill levy above that for the prior year, extending an expiring tax, or implementing a tax policy change directly causing a net tax revenue gain to any local government.

Except for bond refinancing at lower interest rates or adding employees to existing pension plans, TABOR specifically prohibits the creation of multiple-fiscal year debt or other financial obligations without voter approval or without irrevocably pledging present cash reserves for all future payments.

The authorized voters of the Town of Blanca, Colorado voted to authorize the Town to collect, retain and expend all revenues and other funds collected, from any source, notwithstanding the limitations of Article X, Section 20 of the Colorado constitution, provided that no local tax rate or mill levy shall be increase without further voter approval.

The Town's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits (and qualification as an Enterprise) will require judicial interpretation.

NOTE 10 RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The Town maintains commercial insurance and participates in a public entity risk pool for all risks of loss. Settled claims have not exceeded these coverages in any of the past three fiscal years.

NOTE 11 ALLOWANCE FOR ESTIMATED UNCOLLECTIBLE ACCOUNTS

The Town writes off bad debts when accounts are deemed uncollectible. Receivables are reviewed annually to determine accounts that should be written off. As of December 31, 2020, the allowance for estimated uncollectible accounts was \$9,700.

TOWN OF BLANCA, COLORADO
 NOTES TO FINANCIAL STATEMENTS
 December 31, 2020

NOTE 12 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental funds balance sheet includes a reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total government funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities.

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for governmental fund statements to the economic resources measurement and full accrual basis used for government-wide statements. The following adjustments were required for the year ending December 31, 2020.

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	-	150
Cemetery Fund	150	-

NOTE 13 INTERFUND TRANSACTIONS

Interfund payables and receivables arise in the normal course of operations. At December 31, 2020 interfund balances were:

	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
General Fund	170	150
Cemetery Fund	150	-
Water & Sewer Fund	-	170
	<u>320</u>	<u>320</u>

NOTE 14 COMPLIANCE WITH BUDGET LAWS

The actual expenditures of the following funds exceeded their budget and may be in violation of Colorado Budget Law:

Water & Sewer Fund	\$5,501
--------------------	---------
