Report on Internal Control over Financial Reporting and on Compliance and Other Matters	53

Independent Auditors' Report

The Honorable Mayor and Board
Hot Sulphur Springs, Colorado

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Hot Sulphur Springs, Colorado, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Hot Sulphur Springs, Colorado, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other-Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as found in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Hot Sulphur Springs, Colorado's basic financial statements. The budgetary comparison schedules, loan requirement disclosures, and the Local Highway Finance Report are presented for additional analysis as required by the State of Colorado and are not a required part of the basic financial statements.

The budgetary comparison schedules, loan requirement disclosures, and the Local Highway Finance Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedules, loan requirement disclosures, and the Local Highway Finance Report are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2021 on our consideration of the Town of Hot Sulphur Springs, Colorado's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Hot Sulphur Springs, Colorado's internal control over financial reporting and compliance.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended December 31, 2020

As management of the Town of Hot Sulphur Springs (Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the year ended December 31, 2020. Please read it in conjunction with the accompanying basic financial statements.

FINANCIAL HIGHLIGHTS

- Total combined governmental and business-type net position increased from \$5.87 million to \$5.94 million during 2020.
- The general fund unassigned fund balance at the end of 2020 was \$761,519, which is 144% of total General fund expenditures.
- Property tax revenues increased from \$107,151 in 2019 to \$116,073 in 2020.
- Local sales tax collections of \$186,811 increased by \$45,510 from the previous fiscal year.
- Governmental fund expenditures increased by approximately \$200,000 in 2020:
 - Public works expenditures increased by \$71,914 from the prior year mainly due to riverbank restoration projects and various street repairs and maintenance.
 - General government expenditures increased mainly due to COVID-19 expenditures of \$47,604.
 - Public safety expenditures increased mainly due to fire suppression expenditures of \$45,368.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The three components of the financial statements are: (1) Government-wide financial statements which include the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the Town as a whole. (2) Fund financial statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. (3) Notes to the financial statements.

Reporting the Town as a Whole

The Statement of Net Position and the Statement of Activities (Government-wide)

A frequently asked question regarding the Town's financial health is whether the year's activities contributed positively to the overall financial well-being. The Statement of Net Position and the Statement of Activities report information about the Town as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net position and changes in net position. Net position, the difference between assets and liabilities, is one way to measure the Town's financial health, or financial position. Over time, increases or decreases in net assets are an indicator of whether the financial health is improving or deteriorating. However, it is important to consider other non-financial factors such as changes in the condition of the Town's roads to accurately assess the overall health of the Town.

The Statement of Net Position and the Statement of Activities, present information about the following:

- Government activities – All of the Town's basic services are considered to be governmental activities, including general government, public safety, public works/streets, parks and recreation, and interest on long-term debt. Sales taxes, property taxes, franchise taxes, intergovernmental revenues and charges for services finance most of these activities.
- Proprietary activities/Business type activities – The Town charges a fee to customers to cover most of the cost of the services provided.

Reporting the Town's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the Town as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds which aid in the management of money for particular purposes or meet legal responsibilities associated with the usage of certain taxes, grants, and other money. The Town's two major kinds of funds, governmental and proprietary, use different accounting approaches as explained below.

- Governmental funds – Most of the Town's basic services are reported in governmental funds. Governmental funds focus on how resources flow in and out with the balances remaining at year-end that are available for spending. These funds are reported using an accounting method called the modified accrual accounting method, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Government fund information shows whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation included with the Basic Financial Statements and in footnote 2.
- Proprietary funds – When the Town charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the Town's financial position. The Town's combined assets exceed liabilities by \$5.94 million as of December 31, 2020 as shown in the following condensed statement of net position. Of this amount, \$614,437 is unrestricted and available to meet the Town's ongoing financial obligations.

By far the largest portion of net position is the investment in capital assets (net of related debt) of \$5,282,732 (88.89% of total net position). This amount reflects the investment in all capital assets (e.g. infrastructure, land, buildings, and equipment) less any related debt used to acquire those assets that are still outstanding. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of debt, it should be noted that the resources needed to repay this debt must be provided from other sources since capital assets themselves cannot be used to liquidate these liabilities.

The Town has chosen to account for its water and sewer operations in enterprise funds which are shown as Business Activities.

The following table summarizes the Town's governmental and business-type net assets as of December 31, 2020 and 2019:

TOWN OF HOT SULPHUR SPRINGS, COLORADO Statement of Net Position

	Governmental activities		Business-type activities		Combined Total	
	12/31/2020	12/31/2019	12/31/2020	12/31/2019	12/31/2020	12/31/2019

An additional portion of net position, \$46,014, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$614,437 (10.34% of total net position), may be used to meet the government's ongoing obligations to citizens and creditors.

Governmental Activities

The cost of all Governmental activities this year was \$478,789. As shown in the Changes in Net Position statement below. \$7,960 of this cost was paid for by those who directly benefited from the programs. \$107,858 was subsidized by grants received from other governmental organizations for both capital and operating activities. Overall governmental program revenues, including intergovernmental aid and fees for services were \$115,818. General taxes and investment earnings totaled \$347,790.

The Town's programs include: General Government, Public Safety, Public Works/Streets, and Parks & Recreation. Each program's revenues and expenses are presented below.

Net position, ending	<u>\$ 1,934,401</u>	<u>\$ 1,887,259</u>	<u>\$ 4,008,782</u>	<u>\$ 3,980,530</u>	<u>\$ 5,943,183</u>	<u>\$ 5,867,789</u>

Total resources available during the year to finance governmental operations were \$2,350,867 consisting of Net position as adjusted at January 1, 2020 of \$1,887,259, program revenues of \$115,818 and General Revenues of \$347,790. Total Governmental Activities during the year were \$478,789; thus Governmental Net Position was decreased by \$15,181 from activities plus a prior period adjustment of \$62,323 resulting in an ending net position of \$1,934,401.

The following graphs compare program expenses to program revenues and provide a breakdown of revenues by source for all governmental activities:

Expenses and Program Revenues - Governmental Activities
(in Thousands)

Revenue By Source - Governmental Activities

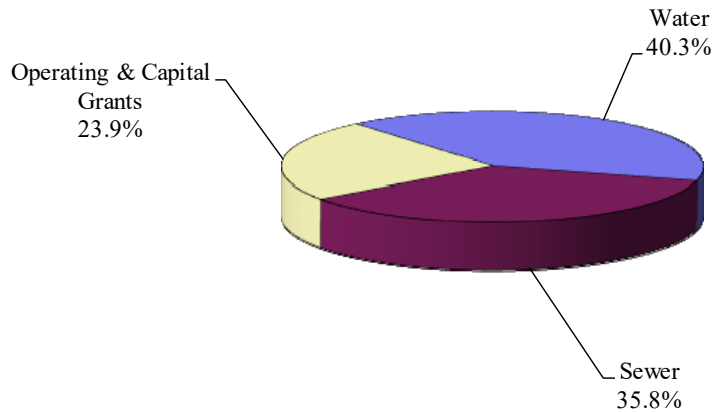

Business Type Activities

Net position of the Business Type activities at December 31, 2020, as reflected in the Statement of Net Position was \$4 million. The cost of providing all Proprietary (Business Type) activities this year was \$759,011. As shown in the statement of Changes in Net Position, the amounts paid by users of the system were \$598,793 and there was \$187,676 subsidized by capital grants and contributions. Investment earnings and other revenues in were \$794. The Net Position increased by \$28,252.

Expenses and Program Revenues - Business-type Activities

Revenue By Source - Business-type Activities

Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$827,125 a decrease of \$110,846 in comparison with the prior year. Approximately 94.44% (\$781,111) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is restricted to indicate that it is not available for new spending because it has already been committed to pay for emergency reserves \$46,014.

The Town has two major governmental funds, the General Fund, which is the primary operating fund for the Town and the Conservation Trust Fund, which accounts for the State of Colorado lottery funds used for parks and recreation services and capital improvement.

At December 31, 2020, unassigned fund balance in the General Fund was \$761,519. As a measure of the General fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Total unassigned fund balance represents 144% and total fund balance represents 148% of total General fund expenditures. The fund balance of the Town's General fund decreased by \$113,179 for the year ended December 31, 2020. General fund revenues increased by \$50,856 compared to the prior year mainly due to grant revenues of \$46,235.

At December 31, 2020, unassigned fund balance in the Conservation Trust Fund was \$19,592. The fund balance of the Town's Conservation Trust Fund increased by \$2,333 for the year ended December 31, 2020. Parks and recreation costs of \$30,000 were offset with intergovernmental revenues of \$32,333.

Proprietary funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position and changes in net position for the year-ended December 31, 2020 for the Town's two enterprise funds (Water and Sewer) are as follows:

	Water	Sewer	Total
Unrestricted net position	\$ (412,688)	\$ 249,820	\$ (162,868)
Total net position	2,454,802	1,553,980	4,008,782
Change in net position	9,559	18,693	28,252

Budgetary Highlights

General fund revenues of \$430,936 were more than budgeted revenues of \$317,005. The most significant factor contributing to this increase is related to grant revenues of \$46,235 and sales taxes. Actual expenditures were \$46,895 more than appropriations mainly due to COVID-19 costs and fire suppression costs.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The capital assets of the Town are those assets that are used in performance of Town functions including infrastructure assets. Capital Assets include equipment, buildings, land, system improvements, park facilities and roads. At the end of 2020, net capital assets of the government activities totaled \$1.1 million and the net capital assets of the business-type activities totaled \$5.24 million. The most significant capital addition was for water treatment plant improvements totaling \$592,189. Depreciation on capital assets for both government activities and business-type activities is recognized in the Government-Wide financial statements. (See note 7 to the financial statements.)

Debt

At year-end, the Town did not have governmental type debt, and \$1,074,268 in proprietary debt. During the current fiscal year, the Town's total debt decreased by \$98,367 which was the result of regularly scheduled debt service payments.

NEXT YEAR'S BUDGET AND ECONOMIC FACTORS

In considering the Town Budget for fiscal year 2021, the Town Board of Trustees and management were cautious as to the growth of revenues and expenditures due to a slow economy. Overall General Fund operating expenditures were budgeted to maintain the current level of service at a reduced cost.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact: Town Clerk, 513 Aspen Street, Hot Sulphur Springs, Colorado 80451.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies

Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, when applicable, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Reporting Entity

The government is a statutory municipality with a mayor – board form of government with seven elected board members. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government’s operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government. However, there are no blended or discretely presented component units that are applicable in defining the Town’s reporting entity.

Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government’s enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government’s funds. Separate statements for each fund category—governmental and proprietary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies, Continued

The Town reports the following major governmental fund:

The **General Fund** is the Town's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The Town reports the following major proprietary funds:

The **Water Fund** accounts for the activities related to the Town's water wells, treatment facilities and distribution operations.

The **Sewer Fund** accounts for the activities related to the Town's sewer collection and treatment operations.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies, Continued

The governmental fund financial statements are reported using the *current financial resources measurement* focus and *the modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, other taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Deposits and Investments

The Town's cash and cash equivalents are considered to be cash-on-hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition for purposes of this note and the statement of cash flows.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to" or "due from other funds. All trade accounts receivable in the enterprise funds are shown net of an allowance for uncollectible accounts. Due to the nature of the accounts receivable in governmental type activities, management does not consider an allowance for uncollectible accounts receivable necessary or material. Therefore, no allowance for uncollectible accounts receivable is presented.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies, Continued

Inventories

The costs of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed. Inventories for business type activities consist of various parts and supplies and are valued at cost using the first-in/first-out (FIFO) method. However, the total cost of inventory on hand is deemed immaterial and has not been recorded in the financial statements.

Capital Assets

Capital assets, which include; property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an individual cost of more than \$5,000 and an estimated useful life of three years or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Building and improvements	25 to 40 years
Utility systems and improvements	20 to 40 years
Furniture, equipment and vehicles	3 to 15 years
Infrastructure - Streets and sidewalks	15 to 25 years

Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has one item, which arises under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *deferred revenue – property taxes*, is reported in both the governmental funds balance sheet and the statement of net position. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies, Continued

Net position flow assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund balance flow assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Town Manager is authorized to assign amounts to a specific purpose in accordance with the Town’s budget policy. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies, Continued

Revenues and expenditures/expenses

Program revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes

Property tax revenues are recognized as revenues in the year collected or if collected within 60 days thereafter unless they are prepaid. Property taxes levied in the current year and not collected within 60 days of year-end are not deemed available to pay current liabilities and therefore the receivable is recorded as deferred revenue in the governmental funds. Property taxes for the current year are levied by the County and attach as a lien on property the following January 1. They are payable in full by April 30 or in two equal installments due February 28 and June 15. The County also levies various personal property taxes during the year.

Compensated Absences

For governmental funds, amounts of vested or accumulated vacation and sick leave that are not expected to be liquidated with expendable available financial resources are reported as liabilities in the government-wide statement of net position and as expenses in the government-wide statement of activities. No expenditures are reported for these amounts in the fund financial statements. Vested or accumulated vacation and sick leave in the proprietary fund are recorded as an expense and a liability of that fund as the benefits accrue to the employees and are thus recorded in both the government-wide financial statements and the individual fund financial statements.

Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 1. Summary of Significant Accounting Policies, Continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Note 2. Reconciliation of Government-Wide and Fund Financial Statements

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and the net position of governmental activities as reported in the government-wide statement of net position. These differences primarily result from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The details of these differences are reported in the reconciliation on page 18.

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between net changes in fund balances-total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. These differences are the result of converting from the current resources measurement focus and modified accrual basis for governmental fund statements to the economic resources measurement focus and full accrual basis used for government-wide statements. The details of these differences are reported in the reconciliation on page 20.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 3. Stewardship, Compliance, and Accountability

Stewardship, compliance, and accountability are key concepts in defining the responsibilities of the Town. The use of budgets and monitoring of equity status facilitate the Town's compliance with legal requirements.

Budgets and Budgetary Accounting

The Town Council adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- By September of each year, the Town Clerk gives public notice of the budget calendar for the next fiscal year. The Town Clerk asks that all Town departments, boards, commissions or citizens submit within thirty days from the notice, any request for funds under the budget being prepared. The Town Clerk prepares a proposed budget for the ensuing fiscal year and submits it to the Board no later than forty-five days prior to any date required by state law for the certification to the County of the tax levy.
- The budget provides a complete financial plan of all Town funds and activities for the ensuing fiscal year indicating anticipated revenues, proposed operating and capital expenditures, a provision for contingencies, and anticipated net surplus or deficit for the ensuing fiscal year.
- A public hearing on the proposed budget is held by the Board in early December.
- The Board adopts the budget by resolution on or before the final day established by law for the certification of the ensuing year's tax levy to the County. Adoption of the budget by the Board shall constitute appropriations of the amounts specified therein as expenditures from the funds indicated and shall constitute a levy of the property tax therein proposed.
- If during the fiscal year the Town Clerk determines that there are expenses in excess of those estimated in the budget, the Board by resolution may make supplemental appropriations for the year up to the amount of such excess. To meet an emergency affecting public property, health, peace or safety, the Board may make emergency appropriations. If at any time during the fiscal year it appears probable to the Town Clerk that the revenues available will be insufficient to meet the amount appropriated, the Town Clerk reports to the Board, indicating the estimated amount of deficit, any remedial action already taken, and a recommendation as to any other steps to be taken. At any time during the fiscal year the Town Clerk may transfer part of all of any unencumbered appropriation balance within a department.
- Budgetary appropriations lapse at the end of each year.

Budget amounts included in the financial statements report both the original and final amended budget. There were no revisions made to the original budget during the year.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 3. Stewardship, Compliance, and Accountability, Continued

Budgets for governmental funds are adopted on a basis consistent with accounting principles generally accepted in the United States of America, except for long-term receivables and advances and capital lease financing which are budgeted when liquidated rather than when the receivable/liability is incurred. Budgets for enterprise funds are adopted on a basis consistent with the spending measurement focus of the governmental funds.

Expenditures over Appropriations

Per C.R.S. 29-1-108(2), appropriations are made by fund or spending agency (e.g. department) within a fund at the discretion of the Town Board. The Board by Resolution has made appropriations at the fund level and thus, expenditures may not legally exceed budgeted appropriations at the fund level. The individual Schedules of Revenues, Expenditures and Changes in Fund Balances - Budget to Actual reports as listed in the table of contents are reported on pages 42 to 47. The General Fund and the Conservation Trust fund expended more than was budgeted by \$46,895 and \$30,000, respectively.

Tax, Spending and Debt Limitations

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments, excluding “enterprises.”

The Amendment requires that an emergency reserve be maintained at three percent of fiscal year spending (excluding bonded debt service). A portion of the General Fund’s fund balance is classified as restricted for emergencies as required by the Amendment. The Town is not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The Amendment is complex and subject to judicial interpretation. The Town believes it is in compliance with the requirements of the Amendment. However, the entity has made certain interpretations in the Amendment’s language in order to determine its compliance.

Debt Covenants

See supplementary information on page 48 for compliance with debt covenants.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 4. Deposits and Investments

A summary of cash and investments as shown on the statement of net position follows:

Cash on hand	\$	200
Cash in bank		149,569
Colorado Trust		<u>684,909</u>
Total cash and investments	\$	<u><u>834,678</u></u>

Deposits

Custodial Credit Risk

For deposits this is the risk that in the event of a bank failure, the government's deposit may not be returned to it. The City does not have a formal policy for custodial credit risk; however, the Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories; eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. The PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to the aggregate uninsured deposits. Collateral in the pool is considered to be equal to depository insurance pursuant to definitions listed in GASB Statement No. 40. At December 31, 2020 cash on hand was \$200 and the carrying amount of the Town's deposits was \$834,478. As of December 31, 2020 the bank balance of the Town's deposits was \$881,919 of which \$196,810 was insured by federal depository insurance and \$684,908 was collateralized by the PDPA as noted above.

Investments

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest. Authorized investments include obligations of the United States and certain U.S. government agency securities; certain international agency securities; general obligation and revenue bonds of U.S. local government entities; bankers' acceptances of certain banks; commercial paper; local government investment pools; written repurchase agreements collateralized by certain authorized securities; certain money market funds; and, guaranteed investment contracts. The Town's investment policy follows Colorado statutes. At December 31, 2020 the Town's investments included certificates of deposit and funds held in the Colorado Government Liquid Asset Trust (COLOTRUST).

The COLOTRUST is an investment vehicle established for local government entities in Colorado to pool surplus funds. COLOTRUST operates similarly to a money market fund and each share is equal in value to \$1.00. Investments of COLOTRUST consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury securities.

A designated custodial bank provides safekeeping and depository services to COLOTRUST in connection with direct investment and withdrawal functions of COLOTRUST. Substantially all securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial bank.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 4. Deposits and Investments, Continued

The custodian's internal records identify the investments owned by COLOTRUST. These pools are not required to and are not registered with the SEC.

As of December 31, 2020, the Town had \$684,909 invested in the COLOTRUST with a fair market value of \$684,909 and maturities of less than one year. The COLOTRUST's funds are rated AAA by Standard and Poor's, Fitch's and Moody's rating services.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Town's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the provisions of the Colorado Public Deposit Protection Act (PDPA) which requires that the Town's investment portfolio maturities do not exceed five years from the time of purchase.

Credit risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Town's policy for reducing its exposure to credit risk is to comply with the provisions of the Colorado Public Deposit Protection Act (PDPA) which limits investment in commercial paper and corporate bonds to the top ratings issued by at least two nationally recognized statistical rating organizations such as Standard & Poor's and Moody's Investor Services.

Note 5. Restricted Assets

The Town has set aside funds for the Operation and Maintenance Reserve Fund as required by the Colorado Water Resources and Power Development Authority Loan Agreement. The water fund reserve at year-end is \$85,655 and is equal to the \$85,655 required three months of operations and maintenance excluding depreciation, of the system as set forth in the Town's annual budget. However, after considering the \$370,923 amount due to other funds recorded in the water fund, the reserve is short \$285,268. The sewer fund reserve at year-end is \$73,841 and is more than the \$53,300 required three months of operations and maintenance excluding depreciation, of the system as set forth in the Town's annual budget.

Note 6. Segment Information – Enterprise Funds

The Town maintains two enterprise funds which provide water and sewer utility services to its citizens. Since both of the utility funds are major funds, detailed or segment information for the funds are provided in the basic financial statements.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 7. Capital Assets

The following table summarizes the changes to capital assets for governmental activities during the year.

Governmental Activities:	Balance 12/31/19	Additions	Deletions	Balance 12/31/20
Capital assets, not being depreciated:				
Land	\$ 106,636	\$ -	\$ -	\$ 106,636
Construction in progress	81,716	110,028	-	191,744
Total capital assets, not being depreciated	<u>188,352</u>	<u>110,028</u>	<u>-</u>	<u>298,380</u>

2033	-	-
	\$ 1,074,268	\$ 59,268

The Town has no unused lines of credit as of December 31, 2020

Note 9. Retirement and Pension Plans

The Town offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457B. The plan, available to all full-time permanent employees of the Town at their option, permits participants to defer a portion of their salary until future years. The Town contributes 8% of covered salaries to the plan and eligible employees can match up to the Town's contribution. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency.

None of the amounts of compensation deferred under the plan, none of the property and rights purchased with those amounts, and none of the income attributable to those amounts, property or rights are the property of the Town, subject to the claims of the Town's general creditors.

TOWN OF HOT SULPHUR SPRINGS, COLORADO
Notes to the Financial Statements
December 31, 2020

Note 10. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. Claims have not exceeded coverage in any of the last three fiscal years.

The Town is insured by Workers Compensation for potential worker related accidents.

The Town is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a separate and independent governmental and legal entity formed by an intergovernmental agreement by member municipalities pursuant to the provision of 24-10-1155, Colorado Revised Statutes (1982 Replacement Volume) and the Colorado Constitution, Article XIV, Section 18(2).

The purposes of CIRSA are to provide members defined liability and property coverage's and to assist members to prevent and reduce losses and injuries to municipal property and to persons or property which might result in claims being made against members of CIRSA, their employees or officers.

All Colorado municipalities who are members of the Colorado Municipal League and own property, are eligible to participate. The general objectives of the Agency are to provide member municipalities defined liability and property coverage through joint self-insurance and to assists members in loss prevention measures. Any member may withdraw from the Agency by giving written notice to the Board of Directors of the prospective effective date of its withdrawal.

The Town recognizes an expense for coverage for the amount paid to CIRSA annually for these coverage's. Contingent liability claims for the coverage have not been recognized to date after reviewing claim history and the remoteness of potential loss in excess of actual contributions by the Town. It is the intent of the members of CIRSA to create an entity in perpetuity which will administer and use funds contributed by the members to defend and indemnify, in accordance with the bylaws, any member of CIRSA against liability or loss, to the limit of the financial resources of CIRSA. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverage's at reasonable costs. All income and assets of CIRSA shall at all times be dedicated to the exclusive benefit of its members.

CIRSA is a separate legal entity and the Town does not approve budgets nor does it have the ability to significantly affect the operations of CIRSA. The Board of Directors of the Agency is composed of seven directors elected by the members at the annual meeting to be scheduled in December each year.

TOWN OF HOT SULPHUR SPRINGS, COLORADO

Notes to the Financial Statements

December 31, 2020

Note 11. Contingencies and Commitments

The Town is involved with various matters of litigation from year to year. The Town and the Colorado Department of Public Health and Environment are engaged in negotiations to solve various waste water and water quality control issues and regulations. It is the opinion of Town officials that this issue and any other potential cases will either be handled by the Town's insurance coverage or that they will not have a material effect on the Town's financial condition.

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Town does not anticipate any such amounts.

Note 12. Interfund Balances and Transfers

As of December 31, 2020, the Town had the following internal balances:

	Due from Other Funds	Due to Other Funds
General fund	\$ 370,923	\$ -
Water fund	-	370,923
	<u>\$ 370,923</u>	<u>\$ 370,923</u>

Interfund balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. All interfund balances are expected to be repaid within one year.

There were no Interfund transfers for the fiscal year ended December 31, 2020.

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note 13. Prior Period Adjustment

The Town incorrectly calculated depreciation on capital asset additions for 2019. A prior period adjustment of \$62,323 was made to decrease accumulated depreciation and increase net position for governmental activities in the government-wide statement of net assets.

SUPPLEMENTARY INFORMATION
BUDGETARY COMPARISON SCHEDULES
FOR THE FOLLOWING FUNDS:

Non-major Special Revenue Fund

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for a particular purpose.

- The **Conservation Trust Fund** is used to account for State of Colorado lottery funds to be used for parks and recreation services and capital improvement.

Major Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The budgets for the enterprise funds have been prepared and presented on a modified accrual basis which is an accounting basis other than GAAP for enterprise funds.

- The **Water Fund** is used to account for the Town's water wells, treatment facilities and distribution system.
- The **Sewer Fund** is used to account for the Town's sewer collection and treatment services.

TOWN OF HOT SULPHUR SPRINGS, COLORADO

SUPPLEMENTARY INFORMATION

**COLORADO WATER RESOURCES AND
POWER DEVELOPMENT AUTHORITY
LOAN COVENANTS AND REQUIREMENTS**

The Colorado Water Resources and Power Development Authority Loan Agreement set forth certain covenants and restrictions. As of December 31, 2020, the Town does not appear to be in compliance with all covenants and restrictions as set forth in Exhibit F, Additional Covenants and Requirements. See footnote 8 for details on the loan. The following are additional disclosures required by the loan agreement.

- **Rate Covenant:** The Town shall establish and collect such rates, fees, and charges for the use or the sale of the products and services of the System as, together with other moneys available therefore, are expected to produce Gross revenue for each calendar year that will be at least sufficient for such calendar year to pay the sum of estimated operation and maintenance expenses, 110% of the debt service coming due on the bond during the calendar year and other debt service requirements. Gross revenue as defined in Para (3) of Exhibit A to the Loan Agreement is all income and revenues directly or indirectly derived by the government agency for the operation and use of the system, including investment income, but excluding, property taxes and grants received for capital improvements.

Summary of 2020 Gross Revenue Requirement	Water	Sewer
Total Gross Revenue requirement	\$ 353,533	\$ 262,076
Total water fund revenues, excluding capital grants	\$ 342,163	\$ 306,923
Excess (deficiency) of gross revenues	\$ (11,370)	\$ 44,848

Rate covenant calculation

Net revenue (Exp) before depreciation and interest expense	60,130	92,151
Debt service	65,000	43,003
Percentage of net revenue to debt svc	92.51%	214.29%

- **Lien Representation:** Except for the debt service on any bonds, notes or other evidence of indebtedness of the Town issued, or contractual obligations incurred, having a lien on the Pledged Property equal or superior to the lien and charge on the Pledged Property of the Governmental Agency Bond that have been disclosed in writing to the Authority, the Pledged Property, after the payment of all costs of operating and maintaining the System, is free and clear of any pledge, lien, charge or encumbrance thereon, or with respect thereto, prior to, or of equal rank with, the obligation of the Governmental Agency Bond.
- **Operations and Maintenance Reserve Fund Covenant:** The Town has not set aside sufficient funds to meet the Reserve Fund covenant for the Water Fund. See footnote 5 for more details regarding the reserve fund amount.

SUPPLEMENTARY INFORMATION
LOCAL HIGHWAY FINANCE REPORT

Section 43-2-132 of the Colorado Revised Statutes requires municipalities receiving Highway User Tax Funds to include a schedule of highway receipts and expenditures with the audit report. The said report is presented on the following two pages.

Notes and Comments:

**Independent Auditors' Report on Internal Control
Over Financial Reporting and on Compliance and Other
Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

The Honorable Mayor and Board
Hot Sulphur Springs, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Hot Sulphur Springs, Colorado, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated November 23, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Hot Sulphur Springs, Colorado's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Hot Sulphur Springs, Colorado's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Hot Sulphur Springs, Colorado's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the separate schedule of findings and recommendations letter dated November 23, 2021 that we consider to be significant deficiencies.

2009-001	Accounting Adjustments
2009-002	Segregation of Duties

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we have reported to the management of the Town in a separate letter dated November 23, 2021.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
