Independent Auditors' Report

Honorable Mayor and Members of the Board of Trustees
Town of Jamestown, Colorado
Jamestown, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Jamestown, Colorado (the Town) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements of the Town, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town as of December 31, 2020, and the respective changes in financial position and cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

The Town has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The supplementary information and the local highway finance report listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Town of Jamestown, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies

The Town of Jamestown, Colorado (the Town) was incorporated in 1883, and is governed by a Mayor and six-member Board of Trustees elected by the residents.

The accounting policies of the Town conform to generally accepted accounting principles as applicable to government entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies.

Reporting Entity

The financial reporting entity consists of the Town, organizations for which the Town is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the Town. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the Town. Legally separate organizations for which the Town is financially accountable are considered part of the reporting entity. Financial accountability exists if the Town appoints a voting majority of the organization's governing board and is able to impose its will on the organization, or if the organization has the potential to provide benefits to, or impose financial burdens on, the Town.

Based on the application of this criteria, the Town does not include additional organizations in its reporting entity.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges for interfund services that are reasonably equivalent to the services provided. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Internally dedicated resources are reported as general revenues rather than as program revenues.

Separate financial statements are provided for governmental funds and the proprietary fund. Major individual funds are reported as separate columns in the fund financial statements.

Town of Jamestown, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current year.

Taxes, intergovernmental revenues, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered to be measurable and available only when cash is received by the Town.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for a specific use, it is the Town's practice to use restricted resources first, then unrestricted resources as they are needed.

In the fund financial statements, the Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the Town, except those accounted for in another fund.

The *Disaster Recovery Fund* accounts for the flood recovery activities of the Town, substantially financed with federal and state grants and insurance proceeds.

Town of Jamestown, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

(Continued)

The Town reports the following major proprietary fund:

The *Water Fund* accounts for the financial activities associated with the provision of water to citizens of the Town.

Assets, Liabilities and Net Position/Fund Balances

Receivables - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and the proprietary fund in the fund financial statements. Infrastructure assets used to support governmental activities, which include streets, bridges, sidewalks, drainage systems and trails, are excluded from the financial statements except for additions since January 1, 2004. Capital assets are defined by the Town as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives.

Plant and Infrastructure	40 years
Land Improvements	10 - 50 years
Buildings and Improvements	15 - 50 years
Equipment	5 - 20 years

State Advance - The Town received an advance from the State of Colorado to finance capital improvements. The advance will be repaid with grants, insurance proceeds, donations, and other revenues as they are received.

Deferred Inflows of Resources - Deferred inflows of resources include property taxes earned but levied for a subsequent year. Grants earned but not available as current financial resources are also reported as deferred inflows of resources in the governmental fund financial statements.

Compensated Absences - Employees of the Town are allowed to accumulate paid time off to a maximum of 80 hours. Upon retirement or separation from the Town, employees with six months of continuous service will be paid for 50% of their accumulated paid time off.

Town of Jamestown, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balances (Continued)

A liability for these compensated absences is reported when earned in the proprietary funds and when due in the governmental funds. Because the accumulated balances are insignificant, no liability is reported in the financial statements.

Long-Term Debt - In the government-wide financial statements and the proprietary fund in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. In the fund financial statements, governmental funds recognize the face amount of debt issued as other financing sources. Debt issuance costs, whether or not withheld from the debt proceeds, are reported as current expenses or expenditures.

Net Position/Fund Balances - In the government-wide and fund financial statements, net position and fund balances are restricted when constraints placed on the use of resources are externally imposed. The Board of Trustees is authorized to establish a fund balance commitment through passage of a resolution and may assign fund balances to a specific purpose through an informal action.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the Town's policy is to use restricted amounts first, followed by committed, assigned and unassigned amounts.

Property Taxes

Property taxes attach as an enforceable lien on January 1, are levied the following December, and collected in the subsequent calendar year. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. The County Treasurer's Office collects property taxes and remits to the Town on a monthly basis.

Subsequent Events

The Town evaluated subsequent events through September 7, 2021, the date the financial statements were available to be issued.

Note 2: Stewardship, Compliance and Accountability

Accountability

At December 31, 2020, the Disaster Recovery Fund had a negative fund balance of \$6,626,700. In September of 2013, a flood caused significant damage and impairment to the Town's roads, water plant and lines, and fire station. Repair and replacement of these assets will be significantly financed with federal and state grants received in the future. Once complete, the grant proceeds and other revenues are expected to eliminate the negative fund balance.

Town of Jamestown, Colorado

Notes to Financial Statements

December 31, 2020

Note 3: Cash and Investments

Cash Deposits

The Colorado Public Deposit Protection Act (PDPA) requires all local government entities to deposit cash in eligible public depositories. Eligibility is determined by State regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. At December 31, 2020, the Town had bank deposits of \$5,434,628 collateralized with securities held by the financial institutions' agents but not in the Town's name.

Investments

The Town is required to comply with State statutes which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

Interest Rate Risk - State statutes generally limit investments to an original maturity of five years from the date of purchase, unless the governing board authorizes the investment for a period in excess of five years.

Credit Risk - State statutes limit certain investments to those with specified ratings from nationally recognized statistical rating organizations, depending on the type of investment.

Concentration of Credit Risk - State statutes do not limit the amount the Town may invest in a single issuer of investment securities, except for corporate securities.

At December 31, 2020, the Town had no investments.

Note 4: Capital Assets (Continued)

Depreciation expense was charged to functions/programs of the Town as follows:

Governmental Activities	
General Government	\$ 535,526
Public Safety	46,112
Public Works	4,527
Parks and Recreation	<u>6,509</u>
 Total	 \$ <u>592,674</u>

Note 5: Long-Term Debt

Governmental Activities

Following is a summary of long-term debt transactions for the governmental activities for the year ended December 31, 2020.

Governmental Activities	<u>Balance 12/31/19</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance 12/31/20</u>	<u>Due Within One Year</u>
2005 Fire Truck Lease	\$ <u>9,670</u>	\$ <u>-</u>	\$ <u>(9,670)</u>	\$ <u>-</u>	\$ <u>-</u>

During 2005, the Town entered into a capital lease to finance the purchase of a fire truck. Principal and interest payments are due annually on March 1, through 2020. Interest accrues at 5.62% per annum. Capital assets of \$200,816 have been capitalized under this lease.

Note 6: Risk Management

Public Entity Risk Pool

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Town purchases commercial insurance for its workers compensation claims. For other risks of loss, the Town is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a separate and independent governmental and legal entity formed by intergovernmental agreement by member municipalities pursuant to the provisions of 24-10-115.5, Colorado Revised Statutes (1982 Replacement Volume) and the Colorado Constitution, Article XIV, Section 18(2).

The purposes of CIRSA are to provide members defined liability and property coverages and to assist members in preventing and reducing losses and injuries to municipal property and to persons or property which might result in claims being made against members of CIRSA, their employees and officers.

Town of Jamestown, Colorado

Notes to Financial Statements

December 31, 2020

Note 6: Risk Management (Continued)

Public Entity Risk Pool (Continued)

It is the intent of the members of CIRSA to create an entity in perpetuity which will administer and use funds contributed by the members to defend and indemnify, in accordance with the bylaws, any member of CIRSA against stated liability of loss, to the limit of the financial resources of CIRSA. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverages at reasonable costs. All income and assets of CIRSA shall be at all times dedicated to the exclusive benefit of its members. CIRSA is a separate legal entity and the Town does not approve budgets nor does it have the ability to significantly affect the operations of CIRSA.

Note 7: Commitments and Contingences

Claims and Judgments

The Town participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Town may be required to reimburse the grantor government. At December 31, 2020, significant amounts of grant expenditures have not been audited but management believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the financial position of the Town.

TABOR Amendment

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of the State and local governments. The Amendment is complex and subject to judicial interpretation. The Town believes it is in compliance with the requirements of the Amendment. However, the Town has made certain interpretations of the Amendment's language in order to determine compliance.

In November, 1996, the Town's citizens approved a ballot question allowing the Town to collect, retain, and expend all revenues collected and received by the Town during the year 1997, and each subsequent year for capital projects, basic municipal services, and other lawful municipal services, notwithstanding the limitations of the Amendment.

The Town has established an emergency reserve, representing 3% of qualifying expenditures, as required by the Amendment. At December 31, 2020, the emergency reserve was reported as restricted fund balance in the General Fund, in the amount of \$6,057.

Note 1: Stewardship, Compliance and Accountability

Budgetary Accounting

Budgets are adopted for all funds of the Town as required by State statutes. Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgetary comparisons for the enterprise fund are presented on a non-GAAP budgetary basis. Capital outlay and debt principal are budgeted as expenditures and depreciation is not budgeted.

The Town follows these procedures to establish the budgetary information reflected in the financial statements:

- Management submits to the Board of Trustees a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to December 31, the budget is legally enacted through passage of an ordinance.
- Management is authorized to transfer budgeted amounts between departments within any fund. However, any revisions that alter the total expenditures of any fund must be approved by the Board of Trustees.
- All appropriations lapse at year end.

**Independent Auditors' Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

Honorable Mayor and Members of the Board of Trustees
Town of Jamestown, Colorado
Jamestown, Colorado

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Town of Jamestown as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements of Town of Jamestown, and have issued our report thereon dated September 7, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Jamestown's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Jamestown's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Jamestown's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Town of Jamestown's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of Town of Jamestown's internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Jamestown's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Town of Jamestown's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Jamestown's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Hick & Company, PC

Greenwood Village, Colorado
September 7, 2021

**Independent Auditors' Report on Compliance for Each
Major Federal Program, Internal Control Over Compliance,
and the Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance**

Honorable Mayor and Members of the Board of Trustees
Town of Jamestown, Colorado
Jamestown, Colorado

Report on Compliance for Each Major Federal Program

We have audited Town of Jamestown's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Town of Jamestown's major federal programs for the year ended December 31, 2020. Town of Jamestown's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Town of Jamestown's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Town of Jamestown's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Town of Jamestown's compliance.

Opinion on Each Major Federal Program

In our opinion, Town of Jamestown complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2020.

Report on Internal Control Over Compliance

Management of Town of Jamestown is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Town of Jamestown's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Town of Jamestown's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of Town of Jamestown's internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Town of Jamestown as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the basic financial statements of Town of Jamestown. We issued our report thereon dated September 7, 2021, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Town of Jamestown's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling the information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Town of Jamestown, Colorado
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended December 31, 2020

Note 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Town of Jamestown, Colorado under programs of the federal government for the year ended December 31, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Administrative Requirements for Federal Awards (the Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Town of Jamestown, Colorado, it is not intended to and does not present the financial position, changes in financial position, or cash flows of Town of Jamestown, Colorado.

Note 2: Summary of Significant Accounting Policies

Expenditures reported on the Schedule are generally reported using the cash basis of accounting. Such expenditures are recognized following, as applicable, either the Cost Principles in Office of Management and Budget Circular A-87, Cost Principles for State, Local and Indian Tribal Governments or the cost principles contained in the Uniform Guidance. As such, certain types of expenditures are not allowable or are limited as to reimbursement.

State Compliance

The public report burden for this information collection is estimated to average 380 hours annually.
