Independent Auditors' Report

Honorable Mayor and Members of the Town Council
Town of Larkspur
Larkspur, Colorado

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Larkspur, Colorado, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Town of Larkspur, Colorado's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Larkspur, Colorado as of December 31, 2020, and the respective changes in financial position and the cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Correction of Error

As described in Note 11 to the financial statements, the governmental activities beginning net position was restated for correction of capital assets.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Larkspur, Colorado's basic financial statements. The budgetary comparison schedule for the water and sewer fund is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Hick & Company, PC

Greenwood Village, Colorado

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

The management of the Town of Larkspur (the Town) offers readers of the Town's financial statements this narrative analysis of the Town's financial activities, for the year ended December 31, 2020. Please read this Management's Discussion and Analysis (MD&A) in conjunction with the Town's 2020 audited financial statements and notes to the financial statements.

Financial Highlights

- Total assets exceeded liabilities by \$4,176,068.
- Total Net Position decreased by \$457,767.
- Governmental activities revenue decreased by \$382,836, due mainly to a decrease in CRF Sales Tax revenues with the Renaissance Festival being cancelled due to COVID. Governmental activities expenditures decreased by \$325,465, due mainly to budget cuts.
- Business-Type (Water & Sewer Fund) Operating Revenue increased by \$72,800, due mainly to an increase in bulk water revenue collected. Business-type expenses increased by \$27,688.
- The Business-Type Operating Loss increased by \$293,893, mainly due to the increase in depreciation and returned tap fees.
- Unassigned Fund Balance for the General Fund was \$1,430,089 or 214% of total General Fund expenditures.
- Total Debt decreased by \$628,491 due to the normal pay down of long-term debt.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the basic financial statements, which consist of three components:

- 1) Government-wide financial statements
- 2) Fund financial statements
- 3) Notes to financial statements

This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government financial statements include information presented in different ways designed to meet multiple objectives of different users. This overview is intended to help readers of the financial statements understand how information is presented.

Financial reporting objectives for governments are much broader than those for business organizations. The primary users of governmental financial statements include taxpayers and citizens; oversight and legislative bodies; investors and creditors in addition to management.

Government financial statements include expanded information to meet a variety of financial reporting objectives and include different types of financial statements to meet these objectives.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

The activities of government can broadly be grouped into two categories, each of which uses a different measurement focus and basis of accounting.

- **Governmental Funds.** Many of the services provided by government are not based on a fee to specific users, such as police services, recreation facilities or road maintenance. These types of activities are referred to as governmental activities. Accounting for these types of activities requires a different measurement focus and basis of accounting than fee-based services.
- **Proprietary Funds.** Some services of government are provided based on a fee to users that should cover the cost of providing the service. A common example is water and sewer services. These are referred to as business-type activities. Accounting for this category of activities is very similar to a business organization.

The MD&A serves as an introduction to the basic financial statements, which encompass four components:

- 1) Government-wide financial statements
- 2) Fund financial statements (a.) Governmental Funds (b.) Proprietary Funds
- 3) Notes to the financial statements
- 4) Supplementary information

The Town's basic financial statements are comprised of the following:

1. **Government-wide Financial Statements:** Provides a broad overview of the Town's entire finances, in a manner similar to a private sector business.
 - **Statement of Net Position** - Shows the Town's assets & liabilities, with the difference of the two reported as Net Position. Changes in Net Position, over time, may serve as an indicator of whether the financial position of the Town is improving or deteriorating.
 - **Statement of Activities** - Shows the Town's revenue & expenses, which results in changes to Net Position, for the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

In the Government-wide Financial Statements, the Town is divided into two kinds of activities:

Governmental Activities, includes most of the Town's basic services and general administration. Sales and use taxes, fees and licensing and admission taxes finance most of these activities. The governmental activities of the Town include general government, public works, recreation, and community development.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

Business-type Activities includes charges for services provided to residents, which cover most of the cost of the services it provides. The business-type of activities include water and sewer services.

2. **Fund Financial Statements:** Groups related accounts to maintain control over resources, which have been segregated, for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Town uses Governmental and Proprietary funds.

- **Governmental Funds** – Used to account for essentially the same functions reported as *Governmental Activities (above)*, in the Governmental Fund Financial Statements. However, unlike the Government-wide Financial Statements, Governmental Fund Financial Statements focus on *near-term inflows and outflows of spendable resources*, as well as, *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the Town's near-term financing requirements. These financial statements show how general government services were paid for in the short term and what remains for future spending.

In particular, *Fund Balance, whether restricted, assigned, committed or unassigned*, may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The **required** financial statements consist of a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balance. Only assets expected to be used and liabilities that come due during the year (or soon thereafter) are included. Capital assets are not included as assets. The measurement focus is on current financial resources and modified accrual accounting is used to report revenues and expenses.

The focus of *Governmental Funds* is narrower than *Government-Wide Financial Statements*. Therefore, it is useful to compare the information presented for *Governmental Funds* with similar information presented for *governmental activities* in the *Government-Wide Financial Statements*. We provide a reconciliation to facilitate a comparison between *Governmental Funds* and *governmental activities*.

The Town maintains three Governmental Funds; General Fund, Road & Bridge Fund and CTF Fund. An annual appropriated budget is prepared for each fund.

- **Proprietary Funds** –Used to account for business-type activities.
The Town maintains one type of Proprietary Fund, which is an Enterprise Fund. Proprietary Funds provide the same type of information as the Government-wide Financial Statements but include more detail. The Proprietary Fund Financial Statements provide separate information for Water & Sewer services. A budgetary comparison schedule has been provided for this fund as supplemental information, to demonstrate compliance with the budget.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

The **required** financial statements include Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows. All assets and liabilities, both financial and capital, long and short-term are provided. All revenues and expense are included regardless of when cash is received or paid.

3. **Notes to Financial Statements**: Provides additional information that is essential to fully understand the data provided in all financial statements. The notes to the financial statements can be found immediately following the basic financial statements.
4. **Supplemental Information** that must be disclosed according to the *Governmental Accounting Standards Board* is included after the Notes to Financial Statements. This includes a budgetary comparison statement for all governmental funds, to demonstrate compliance with the budget.

Other Supplemental Information is included, but not required, which is useful for a better understanding of the Town's activities. This includes a budgetary comparison statement for the water and sewer fund to demonstrate compliance with the budget and a Local Highway Finance Report, which is prepared annually, to identify receipts and expenditures of local governments.

Total Net Position	\$ 2,411,062	\$ 1,511,902	\$ 3,922,964

A review of the Statement of Net Position may serve as an indicator of trend changes in governments' financial position.

On December 31, 2020, Total Town assets exceeded liabilities and deferred inflows by approximately \$3,922,964 compared to approximately \$4,380.7 million on December 31, 2019.

The Town's total net position on December 31, 2020, included net investment in capital assets of approximately \$3,283.9 million. Of this amount, approximately 81.3% was invested in capital assets being utilized for water and wastewater activities. On December 31, 2019, the net investment in capital assets was approximately \$5,833.9 million. Of this amount, approximately 69.6% was invested in capital assets being utilized for water and wastewater activities.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

Cash and cash equivalents at December 31, 2020, totaled approximated \$1,119,985, a decrease of approximately \$718,178 over the cash and cash equivalent balances at December 31, 2019.

On December 31, 2020 and December 31, 2019, restricted net position was approximately \$168,295 and \$171,338, respectively, and, at December 31, 2020 and December 31, 2019, unrestricted net position was approximately \$1,626 million and \$3,397.9 million, respectively.

Total Primary Government	\$ 1,464,236	\$ 209,520	\$ (74,566)	(717,926)	(611,356)	(1,329,282)
General Revenues						
Property Taxes				-	124,271	124,271
Festival Taxes				43	-	43
Sales and Other Taxes				616,304	-	616,304
Intergovernmental				74,063	-	74,063
Licenses and Permits				41,586	-	41,586
Investment Income				1,527	557	2,084
Miscellaneous				13,164	-	13,164
Total General Revenues				746,687	124,828	871,515
Change in Net Position				28,761	(486,528)	(457,767)
NET POSITION, Beginning of year				2,382,301	1,998,430	4,380,731
NET POSITION, End of year				\$ 2,411,062	\$ 1,511,902	\$ 3,922,964

The Town's net position decreased in 2020 by approximately \$451,767 or 11. 6% to approximately \$3.922 million. The decrease resulted cancelling Renaissance Festival due to COVID-19 pandemic.

In 2020, total revenues decreased by 43% compared to 2019, to approximately \$.871 million. This \$369,885 decrease was primarily attributable to a decrease in Renaissance Festival sales tax and admittance tax.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

In 2020, total expenses, exclusive of interfund transfers, decreased 11% compared to 2019. This decrease was primarily attributable to the deferment of the payments of the long-term debt.

On the whole, the Water & Sewer Operating Revenue of \$202,859 was insufficient to cover the Water & Sewer Operating Expenditures of \$546,852 by \$343,993.

On a whole, the Property Tax Revenue of \$124,271 was sufficient to cover the Water & Sewer Debt Payments of \$41,531 by \$82,740.

Capital Assets

The Town's investment in capital assets, net of depreciation, at December 31, 2020, was approximately \$7.830 million, consisting of general government capital assets of approximately \$1.110 million and water and sewer fund (business-type activities) of approximately \$6.720 million.

Details of the Town's capital assets and capital asset activity for 2020 are found in Note 5 of the Notes to Financial Statements.

Long-term Obligations

As of December 31, 2020, the Town had long-term obligations totaling approximately \$4,569,484, which includes \$186,875 of principal due in 2022. This total obligation represents approximately \$4,047,961 for the Water and Sewer Fund and approximately \$521,523 for the Town Hall lease and Fire Protection District land lease. Details of the 2021 financing activities and these obligations are included in Note 5 of the Notes to Financial Statements.

In January of 2020, the Town of Larkspur obtained a 2.4m loan from the United States Department of Agriculture (USDA) and used the proceeds from the loan and unused cash from the Water Treatment Plant Capital Lease to satisfy the lease obligation in full. The new USDA loan carries a 40-year term with interest at 1.75%. Payments will be deferred until November of 2021 due to the COVID pandemic.

Budgetary Discussion

Budgetary comparison schedules are included in the accompanying, audited, financial statements. The line-item details of amendments to the adopted 2020 budgets are identified in the budgetary comparison schedules included.

Town of Larkspur, Colorado
Management's Discussion and Analysis
For the Year Ended December 31, 2020

Economic Factors and the 2021 Budget

As discussed in Note 7 of the Notes to Financial Statements, the Town has a dependency for revenues derived from the Colorado Renaissance Festival (CRF). The 2021 budget provides for revenues consistent with the prior year derived from the CRF.

Readers are encouraged to review the 2020 budgets for more detail. Copies of the Town's annual, adopted budgets are available upon request and on the town's website.

Requests for Information

This financial report of the Town of Larkspur, Colorado, is designed to provide a general overview of the Town's finances for those with an interest in the Town's financial activities and financial position. Questions concerning information provided in this report and the audit report or requests for additional information should be addressed to:

Mayor Isaac Levy at the Town Hall

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies

Nature of Operations

Town of Larkspur, Colorado (the Town), is incorporated under Colorado statutes to provide public safety, highways and streets, water service, health and social services, culture and recreation, public health improvements, planning and zoning and general administrative services. The Town is located in Douglas County and operates under Mayor-Council form of government.

An elected Mayor and Town Council are responsible for setting policy, appointing administrative personnel, and adopting an annual budget in accordance with state statutes. The Town's major operations include road maintenance, water and wastewater services, culture, and recreation.

Reporting Entity

The Government Accounting Standards Board (GASB) has specified the criteria to be used in defining a governmental entity for financial reporting purposes.

In accordance with governmental accounting standards, the Town has considered the possibility of inclusion of additional entities in its general-purpose financial statements. The definition of the reporting entity is based primarily on financial accountability. The Town is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if Town officials appoint a voting majority of the organization governing body and either it is able to impose its will on that organization or there is a potential for benefits to, or to impose specific financial burdens on, the Town. The Town may also be financially accountable for governmental organizations that are fiscally dependent upon it. The Town has determined that there are no includible entities for the year ended December 31, 2020.

The Town's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide and Fund Financial Statements

The Statement of Net Position presents the financial condition of the Town, as a whole, at year end. The Statement of Activities presents a comparison between program expenses and the program revenues for each program or function of the Town. Program expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Town, with certain limited exceptions. The comparison of program expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Town.

Town of Larkspur, Colorado

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

During the year, the Town segregates transactions related to certain town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. The focus of governmental fund financial statements is on major funds.

The accounts of the Town are organized on the basis of funds. Each fund is considered an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other assets together with all related liabilities, obligations, reserves and equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The categories of funds used by the Town are governmental and proprietary.

Governmental funds are those through which most governmental functions are typically financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Town's governmental funds:

General Fund – The General Fund is the operating fund for the Town and is used to account for all financial resources except those required to be accounted for in another fund.

Road and Bridge Fund – This special revenue fund accounts for all proceeds that are restricted to expenditures for repairs and improvements to roads and bridges.

Conservation Trust Fund – This special revenue fund accounts for all lottery proceeds received by the Town that are restricted to expenditures for parks and recreation.

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The Town's proprietary funds are classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following is the Town's proprietary fund:

Water and Sewer Fund – This enterprise fund is used to account for the revenues generated from the charges for distribution of water service and sanitary sewer service provided to the residential and commercial users of the Town.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the Town are included in the statement of net position.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Assets, Liabilities and Net Position/Fund Balance

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

The accounting policies of the Town conform to generally accepted accounting principles (GAAP) applicable to governmental units. The Town complies with GAAP and applies all relevant GASB pronouncements.

Revenues – Revenues resulting from exchange transactions, in which each party gives and receives essentially the same value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are both measurable and available to finance expenditures of the fiscal period, typically within 60 days of realization.

Deferred Inflow of Resources – In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period or periods and so will not be recognized as an inflow of resources until then. The Town has unearned property tax revenue and other revenue and a deferred gain on a sale-leaseback transaction. These items are reported as deferred inflows on the government-wide and proprietary fund statements of net position.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balance (Continued)

Cash and Cash Equivalents – For purposes of the Statement of Cash Flows, cash equivalents are defined as liquid investments with original maturity dates of one year or less.

Interfund Receivables and Payables – On fund financial statements, short-term amounts owed between funds are classified as due to/from other funds.

Capital Assets – General capital assets are those assets not specifically related to activities reported in other funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activity's column of the government-wide Statement of Net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide Statement of Net Position and in the respective funds.

All capital assets are capitalized at cost, or estimated historical cost, and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market value as of the date received. The Town maintains a capitalization policy of \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

Buildings and improvements	20-30 years
Equipment	7-20 years
Vehicles	7 years
Roads	10 years
Reservoir, plant, and lines	10-45 years
Park facilities	7-30 years

Compensated Absences – Vacation are accrued according to GAAP. Employees are allowed to accumulate vacation and sick pay. Up to 1 week (40 hours) of vacation may be earned in the first year of employment. After 1 year of employment, an employee may earn an additional week (40 hours) of vacation. Up to 30 days of vacation and sick pay may be accumulated. Sick pay will not be paid at termination. The Town's resolutions provide additional guidance.

Accrued Liabilities and Long-Term Obligations – All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. Long-term leases are recognized as a liability on the governmental fund financial statements when due.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balance (Continued)

Accrued Liabilities and Long-Term Obligations – All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. Long-term leases are recognized as a liability on the governmental fund financial statements when due.

Fund Equity/Fund Balance – In the government-wide financial statements, fund equity is classified as net position. Net position may be classified into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

- Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any debt that is attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent debt proceeds at year end, the portion of the debt attributable to the unspent proceeds is not included in this component.
- Restricted – This component of net position consists of assets that are restricted for use either externally imposed by creditors, grantors, contributors or laws or regulations of other governments or constraints imposed through constitutional provisions or enabling legislation.
- Unrestricted – The component of net position that does not meet the definition above.

In the governmental funds, fund balances should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable fund balance* – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.
- *Restricted fund balance* – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- *Committed fund balance* – The portion of fund balance that can only be used for specified purposes according to limitations imposed by the Town Council prior to the end of the current fiscal year. The constraint may be imposed, removed, or changed only by resolution of the Town Council.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balance (Continued)

- *Assigned fund balance* – The portion of fund balance that is constrained by the government's intent to be used for specific purposes but is neither restricted nor committed. The intended use may be expressed by the Town Council or other individuals authorized to assign funds to be used for a specific purpose. In governmental funds, assigned fund balance represents the amount that is not nonspendable, restricted or committed. This indicates that resources in these funds are, at a minimum, intended to be used for the purpose of that fund. The Town Council has designated the Mayor as the individual authorized to assign funds.
- *Unassigned fund balance* – The residual portion of fund balance that does not meet any of the criteria described above. The Town will only report a positive unassigned balance in the General Fund.

Net Position – Net position represents the difference between assets and liabilities. Net Investment in Capital Assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets.

Net position is reported as restricted when there are limitations imposed on its use, either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments.

The Town applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Property Taxes – Property taxes are not due and payable until after the assessment year has ended and are not included in the budget or statement of revenues, expenditures, and changes in fund balance of the assessment year. Property taxes are initially recorded as deferred inflows of resources in the year they are levied. The deferred property tax revenues are recorded as revenue in the year they are available or collected.

Property taxes are levied on or before December 15 of each year and attach as an enforceable lien on the property on January 1. Taxes are payable in full on April 30 or in two installments on February 28 and June 15. Douglas County bills and collects its own property taxes and the taxes for various other entities, including for the Town.

Operating Revenues and Expenses – Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the Town, these revenues are charges for water and sewer services. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund.

Capital Contributions – Contributions of capital in the proprietary fund financial statements arise from outside contributions of capital assets, tap fees or from grants or outside contributions of resources restricted to capital acquisition and construction.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 1: Summary of Significant Accounting Policies (Continued)

Assets, Liabilities and Net Position/Fund Balance (Continued)

Estimates and Assumptions – Management uses estimates and assumptions in preparing financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The Town carries commercial insurance for these risks of loss.

Subsequent Events

The Town has evaluated subsequent events through November 30, 2021, the date the financial statements were available to be issued.

Note 2: Cash and Cash Equivalents

Deposits

The Colorado Public Deposit Protection Act (POPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDP A. PDP A allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits. At June 30, 2020, the Town had bank deposits of \$2,132,269 collateralized with securities held by the financial institution's agent but not in the Town's name.

At December 31, 2020, the Town's cash and investment balances are allocated as follows:

Petty Cash	\$	80
Cash Deposits		597,527
Investments		<u>200,172</u>
Total	\$	<u><u>797,779</u></u>

Town of Larkspur, Colorado
Notes to Financial Statements
December 31, 2020

Note 2: Cash and Cash Equivalents (Continued)

Deposits (Continued)

The balances are comprised of the following:

Cash and Investments	\$ 760,520
Restricted Cash and Investments	<u>37,259</u>
Total	<u>\$ 797,779</u>

Investments

The Town generally limits its concentration of investments to those noted with an asterisk (**) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the Town is not subject to concentration risk disclosure requirements or to investment custodial credit risk for investments that are in the possession of another party.

Colorado Revised Statutes limit investment maturities to five years or less unless formally approved by the Town Council. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools**

COLOTRUST

The Town invested in the Colorado Local Government Liquid Asset Trust (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 2: Cash and Cash Equivalents (Continued)

COLOTRUST (Continued)

Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. The Trust is rated AAAM by Standard & Poor's.

Note 3: Capital Assets

Capital asset activity for the year ended December 31, 2020 is as follows:

	Balance 12/31/19	Additions	Deletions	Balance 12/31/20
Governmental Activities

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 4: Interfund Receivables and payables (Continued)

The interfund balances resulted from current and prior transfers that were used to subsidize activities accounted for in other funds and to finance projects accounted for in other funds in accordance with budgetary authorizations. The interfund balances are not scheduled to be collected in the subsequent year.

Note 5: Long-Term Obligations

Governmental Activities

The following is a schedule of changes in long-term obligations of the Town during 2020:

Governmental Activities	Balance 12/31/19	Additions	Deletions	Balance 12/31/20	Due Within One Year
New Town Hall Lease	\$ 410,966	\$ -	\$ (20,885)	\$ 390,081	\$ 21,893
Land Lease - FPD	119,598	-	(9,800)	109,798	9,989
Compensated Absences	21,644	-	-	21,644	21,644
Total	\$ 552,208	\$ -	\$ (30,685)	\$ 521,523	\$ 53,526

The Town accrues a liability for compensated absences on the statement of net position only since the amount payable is not anticipated to be paid with available resources. The liability for compensated absences will be paid from the General Fund.

Town Hall Capital Lease Obligation

In 2014, the Town entered into a lease agreement as lessee for financing the acquisition of a new town hall. The initial lease is for a 1-year term renewable in 1-year increments for 20 years. The interest rate on the lease is 4.67% per annum through February 1, 2019, then adjusting annually on each February 2 thereafter to an interest rate equal to the 5-year Treasury rate plus 3.32% at a floor rate of 4% and at a maximum rate of 10%. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the fair value of the leased properties based upon real estate valuations obtained. The capital assets and related accumulated depreciation of the leased property is \$515,000 and \$46,187, respectively.

Land lease - FPD

In 2014, the Town entered into a lease agreement as lessee for financing the acquisition of a new town hall. The initial lease is for a 1-year term renewable in 1-year increments for 20 years. The interest rate on the lease is 4.6% per annum through February 1, 2019, then adjusted annually on each February 2 thereafter to an interest rate equal to the 5-year U.S. Treasury rate plus 3.32% at a floor rate of 4% and at a maximum rate of 10%. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the fair value of the leased properties based upon real estate valuations obtained. The capital assets and the related accumulated depreciation of the leased property is \$515,000 and \$92,374, respectively.

The Town's future minimum lease obligations related to the Town Hall lease will mature as follows:

<u>Year Ended December 31,</u>	<u>Total</u>
2021	\$ 12,000
2022	12,000
2023	12,000
2024	12,000

Total	\$ 4,676,452	\$ -	\$ -	\$ (628,491)	\$ 4,047,961	\$ 34,752

Water System Installment Contract Payments

By contract with the Colorado Water Conservation Board (the Board), the Town received \$219,000 of construction loan proceeds to build part of the water system. At completion of the project in 1984, the Town transferred title to 50% of the system to the Board, and the Town began payments to repurchase the 50% interest over a 40-year period. This transaction has been recorded as an installment loan of \$219,000, with interest added annually to equal the total payments to be made under the installment purchase contract.

The \$219,000 Colorado Water Conservation Board installment contract, dated September 15, 1983, is payable over 40 years in equal annual payments of \$9,517, with principal and interest calculated at 3.028%, due annually on December 15.

<u>Year Ended December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 8,447	\$ 1,070	\$ 9,517
2022	8,702	815	9,517
2023	8,966	551	9,517

Drinking Water Revolving Fund Direct Loan

By contract with the Colorado Water Resources and Power Development Authority, the Town received \$2,000,000 of loan proceeds and \$847,920 in principal forgiveness to drill a new well, construct a new water storage tank, expand a pump station and replace an existing pump, iron and manganese removal system and pressure reducing valve.

The Drinking Water Revolving Fund Direct Loan contract was executed on January 17, 2014, and is payable over 30 years in equal interest-free semiannual payments of \$33,333 due May 1st and November 1st.

Town of Larkspur, Colorado

Notes to Financial Statements

2030 - 2034	347,518	-	347,518
2035 - 2039	347,518	-	347,518
2040 - 2044	314,185	-	314,185
Total	\$ <u>1,633,333</u>	\$ <u>-</u>	\$ <u>1,633,333</u>

Water Treatment Plant Capital Lease Obligation

As noted above, the Town entered into a loan agreement with the Colorado Water Resources and Power Development Authority (the "Authority") in 2014 to drill a new well, construct a new water storage tank, expand a pump station and replace an existing pump, iron and manganese removal system and pressure reducing valve. Under the terms of the agreement, the Authority has a lien on the revenues of the system. The agreement also stipulates that the Town may not sell, lease, abandon, or otherwise dispose of the system or any other system that provides revenue for payment of the loan agreement, unless the Authority shall determine that such activity will not adversely affect the Town's ability to meet its various duties and covenants as described in the loan agreement.

In May 2017, the Town, with the approval of the Authority, entered into a lease purchase agreement as lessee for financing the construction of a new water treatment plant. The initial lease is for a 1-year term renewable in 1-year increments for 20 years. The interest rate on the lease for the first five years of the lease is computed as 63% of the sum of the 5-year Constant Maturity Treasury Index (CMT) + 3.75%. As of the date of the lease closing the 5-year CMT is 1.78% and the initial rate is 3.48%. The interest rate shall be readjusted to reflect changes in the 5-year CMT on each fifth anniversary of the lease closing.

Repayment of the lease for the first 18 months is interest only. Beginning November 2019, the outstanding lease balance will convert to amortized equal annual payments of principal and interest over an 18.5-year term, subject to interest rate adjustments.

This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the fair value of the leased properties based upon real estate valuations obtained. The leased property is currently reflected as a portion of the \$6,502,181 in the Business-Type Activities Construction in Progress (See Note 6).

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 5: Long-Term Obligations (Continued)

2020 Water Revenue Bonds

On November 6, 2012, a majority of the qualified electors of the Town authorized the issuance of indebtedness in an amount not to exceed \$2,970,000, for the construction of a new water supply system.

On Jan, the Town issued \$2,367,000 in water revenue bonds from the United States Department of Agriculture (USDA) and used the proceeds from that loan and the unused cash from the Water Treatment Plant Capital Lease to satisfy the lease obligation in full. The new USDA loan carries a 40-year term with interest at 1.75% with a maturity date of November 1, 2059. Payments will begin on May 1, 2021.

Future annual debt service requirements to maturity are as follows:

<u>Year Ended December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2021	\$ 116,368	\$ 104,650	\$ 221,018
2022	120,473	100,545	221,018
2023	124,724	96,294	221,018
2024	129,125	91,893	221,018
2025	92,454	200,775	293,229
2025 - 2029	587,685	878,461	1,466,146
2030 - 2034	867,956	598,194	1,466,150
2035 - 2039	340,255	188,871	529,126
Total	\$ <u>2,379,040</u>	\$ <u>2,259,683</u>	\$ <u>4,638,723</u>

Note 6: Tax, Spending, Revenue and Debt Limitations

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue, and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. At December 31, 2020, the Town has reserved \$168,295 for emergencies.

The Town's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.

Town of Larkspur, Colorado

Notes to Financial Statements

December 31, 2020

Note 7: Commitments, Contingencies and Economic Dependency

For 2018, the Town approximately 53% of its gross tax revenues from sales taxes admissions taxes and business licenses and permits from the Colorado Renaissance Festival (CRF). These taxes and licenses are used to provide the Town with general services and may be used to support the Town's utility funds. On July 16, 2015, the Town Council approved an amendment to the agreement with the CRF extending the agreement through 2025 with three three-year renewal options.

The Town has an obligation to perform sludge removal from its waste treatment facilities. Management believes it is less efficient and, therefore, more costly to perform this activity on an annual basis; therefore, the sludge removal process is performed at extended intervals ranging from three to as many as twelve years. Because this process results from the annual sludge build-up and its removal is a mandatory service for the general population of the Town, an annual charge to income is recognized for the prorated portion of the total estimated liability at the time of removal. The liability could change due to price increases, changes in technology, or other factors. The total estimated accrued sludge removal cost at December 31, 2018, is \$49,705.

The Town has entered into an agreement for services to be performed on the Town's water treatment plants, sewage treatment plants, water distribution and wastewater collection systems including wells, chlorinators, tanks, and facilities. The Town has agreed to pay \$95,400 at a rate of \$7,950 per month for services provided to the Town starting January 1, 2019, through December 31, 2019.

On April 22, 2015, the Town entered into an agreement to purchase land owned by the American Federation of Human Rights (AFHR) for \$45,000. The Town will construct a water line on this easement. In addition, the Town entered into a five-year lease agreement with AFHR for land to use as an equipment and storage location. The lease calls for annual payments of \$6,000 on the last day of April.

During the year ended December 31, 2020, the United States of America and the State of Colorado declared an emergency associated with the COVID-19 pandemic. Along with significant declines in the financial markets, the public health emergency creates uncertain economic conditions. The Town has adapted and made changes to operations due to potential impacts on health and safety. Should these conditions persist, the Town could be negatively impacted.

Note 8: Risk Management

The Town is exposed to various risks of loss related to torts; damage to and destruction of assets; errors and omissions and natural disasters for which the Town carries commercial insurance. There have been no significant reductions in coverage from the prior year, and settlements have not exceeded coverage in the past three years.

Town of Larkspur, Colorado
Notes to Required Supplementary Information
December 31, 2020

Note 1: Budgets and Budgetary Accounting

The Town follows these procedures in establishing the budgetary data reflected in the budgetary schedules:

- a. Prior to September 1, the Town obtains budget requests from department heads.
- b. Prior to October 15, the proposed budget is submitted to Town Council by the Mayor.
- c. By December 15, the Town must certify the levy to the County Commissioners.
- d. A Public Hearing is held to obtain taxpayer comments.
- e. By December 15, the Town Council enacts a resolution appropriating the budget.
- f. Department heads are required to submit budget change requests to the Town Council after initial approval.
- g. Supplemental requests are gathered by the Town Council. The Town Council will hold formal public hearings prior to approving the increased budget and appropriations.

Note 2: Basis of Accounting

The budget is prepared using generally accepted accounting principles.
