Independent Auditor's Report

To the Executive Committee of the Board of Governors
Colorado School of Mines Foundation

We have audited the accompanying financial statements of Colorado School of Mines Foundation (the "Foundation"), which comprise the statement of financial position as of June 30, 2020 and 2019 and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Colorado School of Mines Foundation as of June 30, 2020 and 2019 and the changes in its net assets, functional expenses, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

To the Executive Committee of the Board of Governors
Colorado School of Mines Foundation

Emphasis of Matter

As described in Note 16, the financial statements include certain investments whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by fund managers and partnership general partners. The investments are valued at approximately \$99,852,000 (29 percent of net assets) at June 30, 2020 and approximately \$118,888,000 (38 percent of net assets) at June 30, 2019. Additionally, there are approximately \$39,200,000 in unfunded future commitments related to these investments at June 30, 2020. Our opinion is not modified with respect to this matter.

Note 1 - Nature of Business

Colorado School of Mines Foundation (the "Foundation") is a nonprofit corporation providing financial resource development and support to Colorado School of Mines (the "University"). The majority of the Foundation's revenue is derived from contributions and investment income.

Note 2 - Significant Accounting Policies

Classification of Net Assets

Net assets of the Foundation are classified based on the presence or absence of donor-imposed restrictions.

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions or for which the donor-imposed restrictions have expired or been fulfilled. Net assets in this category may be expended for any purpose in performing the primary objectives of the Foundation.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Earnings, gains, and losses on donor-restricted net assets are classified as net assets without donor restrictions unless specifically restricted by the donor or by applicable state law.

Cash Equivalents

The Foundation considers all investments with an original maturity of three months or less when purchased to be cash equivalents. At June 30, 2020 and 2019, cash equivalents consisted primarily of money market funds. At June 30, 2020, the approximately \$14.5 million in cash and cash equivalents includes approximately \$9.9 million of operating cash and approximately \$4.6 million for capital projects. At June 30, 2019, the approximately \$5.8 million in cash and cash equivalents includes approximately \$1.8 million of operating cash and approximately \$4.0 million for capital projects.

Restricted Cash

The Foundation received pass-through awards on behalf of a professor that have been reported as restricted cash and a refundable advance. At June 30, 2020 and 2019, \$90,000 and \$30,000, respectively, of cash is restricted for that purpose.

Investments

Investments in equity securities having a readily determinable fair value and all debt securities are carried at fair value.

The Foundation holds alternative investments, which are not readily marketable and are carried at fair value, as provided by the investment managers. The Foundation reviews and evaluates the value provided by the investment managers and agrees with the valuation methods and assumptions used in determining the fair value of the alternative investments. Those estimated fair values may differ significantly from the values that would have been used had a ready market for these securities existed.

Note 2 - Significant Accounting Policies (Continued)

Investment return includes dividend, interest, and other investment income; realized and unrealized gains and losses on investments carried at fair value; and realized gains and losses on other investments, less investment management fees. Investment return is reflected on the statement of activities as net assets without donor restrictions or net assets with donor restrictions based upon the existence and nature of any donor or legally imposed restrictions.

The Foundation maintains pooled investment accounts for its endowments. Investment income and realized and unrealized gains and losses, net of investment management fees, from securities in the pooled investment accounts are allocated on a unitization basis monthly to the individual endowments based on the relationship of the fair value of the interest of each endowment to the total fair value of the pooled investments accounts, as adjusted for additions to or deductions from those accounts.

Investments are reported on the statement of financial position as intermediate-term investments and long-term investments. Intermediate-term investments may be spent by the Foundation but are not expected to be required for use in the near future. Long-term investments are primarily made up of assets restricted by the donor or designated by the Foundation's executive committee for long-term investment and assets received from the University for investment management.

Intermediate-term investments consist of cash equivalents.

Adoption of New Accounting Pronouncement

As of July 1, 2019, the Foundation adopted FASB ASU No. 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made (Topic 958)*, which provides enhanced guidance to assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal transactions) and (2) determining whether a contribution is conditional. The Foundation adopted the new standard on a modified prospective basis. The standard did not have a significant impact on the contributions received by the Foundation and did not require a restatement of prior year amounts.

Contributions and Contributions Receivable

Unconditional promises to give cash and other assets to the Foundation are reported at fair value on the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value on the date the gift becomes unconditional or is received. The gifts are reported as contributions with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or the purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as contributions without donor restrictions in the accompanying financial statements.

Contributions receivable that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in contribution revenue. An allowance for uncollectible contributions is provided when evidence indicates amounts promised by donors may not be collectible.

Note 2 - Significant Accounting Policies (Continued)

Income Taxes

The Foundation is a not-for-profit corporation and is exempt from tax under the provisions of Internal Revenue Code Section 501(c)(3). Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Foundation and recognize a tax liability if the Foundation has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. Management has analyzed the tax positions taken by the Foundation and has concluded that, as of June 30, 2020 and 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Foundation is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Functional Allocation of Expenses

Expenses have been reported on a functional basis in the statement of activities. The financial statements report certain categories of expenses that are attributable to more than one function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. Costs have been allocated between advancement and management and general based on a percentage of full-time equivalent employee effort for direct conduct and supervision within each functional area. Although the methods of allocation used are considered appropriate, other methods could be used that would produce different amounts.

School Support Expenses

School support expenses represent expenditures for various purposes that benefit the University, in accordance with the restricted purposes designated by donors (endowed and nonendowed contributions with donor restrictions) and by the executive committee (board designated from funds without donor restrictions). During the years ended June 30, 2020 and 2019, total school support expenses were \$27,091,713 and \$27,546,655, respectively.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 7, 2020, which is the date the financial statements were available to be issued.

June 30, 2020 and 2019

Note 3 - Liquidity and Availability of Resources

The following reflects the Foundation's financial assets as of June 30, 2020 and 2019, reduced by amounts not available for general use because of contractual or donor-imposed restrictions within one year of the statement of financial position date:

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents	\$ 14,487,554	\$ 5,804,578
Restricted cash	90,000	30,000
Intermediate-term investments	-	169,884
Receivables - University receivables - Direct student loans	1,703,406	1,797,521
Contributions receivable	44,508,000	16,775,000
Contributions receivable from trusts held by others	3,488,063	3,222,936
Assets held under split-interest agreements	13,766,172	14,273,814
Assets held under gift annuity agreements	2,904,336	3,201,186
Beneficial interest in endowments held by others	11,286,526	11,149,329
Beneficial interest in long-term trust held by others	186,198	196,208
Long-term investments	<u>292,696,524</u>	<u>303,794,268</u>
Financial assets - At year end	385,116,779	360,414,724
Less those unavailable for general expenditures within one year due to:		
Contractual or donor-imposed restrictions:		
Restricted by donor with time or purpose restrictions	71,620,204	61,989,426
Subject to appropriation and satisfaction of donor restrictions	159,736,378	163,549,553
Contributions receivable greater than one year	35,814,325	11,433,325
Contributions receivable from trusts held by others and assets held under split-interest agreements and gift annuity agreements	20,158,572	20,697,936
Restricted cash	90,000	30,000
Beneficial interest held by others	11,472,724	11,345,537
Donor student loan receivable	1,703,406	1,797,521
Board designations:		
Quasi-endowment fund, primarily for long-term investing	7,351,571	7,234,906
Amounts set aside for liquidity reserve	4,937,671	4,937,671
Other	<u>13,647,340</u>	<u>16,461,237</u>
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 58,584,588</u>	<u>\$ 60,937,612</u>

The Foundation is substantially supported by restricted contributions. Because a donor's restriction requires resources to be used in a particular manner or in a future period, the Foundation must maintain sufficient resources to meet those responsibilities to its donors. Thus, financial assets may not be available for general expenditure within one year. As part of the Foundation's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due.

As of June 30, 2020, the Foundation holds \$58 million in financial assets available to meet general expenditures within one year. Expected general expenditures for the 2020-2021 fiscal year are composed of a \$7.7 million operating budget and \$24.6 million in university expenses for a total of \$32.3 million. In the event of an unanticipated liquidity need, the Foundation also could draw upon its \$5 million line of credit or its board-designated quasi-endowment fund.

The Foundation also realizes there could be unanticipated liquidity needs.

June 30, 2020 and 2019

Note 4 - Contributions Receivable

Contributions receivable are as follows:

	2020	2019
Gross promises to give before unamortized discount	\$ 47,115,008	\$ 18,042,720
Less allowance for uncollectible contributions	(1,278,000)	(615,000)
Less allowance for net present value discount	(1,329,008)	(652,720)
Net contributions receivable	\$ 44,508,000	\$ 16,775,000
Amounts due in:		
Less than one year	\$ 8,693,675	\$ 5,341,675
One to five years	38,421,333	11,869,541
More than five years	-	831,504
Total	\$ 47,115,008	\$ 18,042,720

The discount rate used for pledges receivable is 2 percent.

Approximately 83 and 48 percent of the Foundation's contributions receivable as of June 30, 2020 and 2019 consist of pledges from three and one donors, respectively.

The Foundation is the beneficiary of certain irrevocable remainder trusts administered by others. The net present value of the Foundation's beneficial interest has been included on the statement of financial position as contributions receivable from trusts held by others in the amount of \$3,488,063 and \$3,222,936 at June 30, 2020 and 2019, respectively.

Note 5 - Assets Held Under Split-interest and Gift Annuity Agreements and Long-term Investments

Assets held under split-interest and gift annuity agreements and long-term investments consist of the following:

	2020		2019	
	Split-interest and Gift Annuity Agreements	Long-term Investments	Split-interest and Gift Annuity Agreements	Long-term Investments
Cash equivalents	\$ 3,507,463	\$ 13,207,898	\$ 674,668	\$ 13,138,733
Bonds and bond mutual funds	6,494,998	13,922,268	9,280,174	22,956,347
Stocks and stock mutual funds	6,393,047	201,305,071	7,220,158	204,464,926
Investments in limited partnerships and real estate	-	64,261,287	-	63,234,262
Pledge receivable	275,000	-	300,000	-
Total	\$ 16,670,508	\$ 292,696,524	\$ 17,475,000	\$ 303,794,268

The Foundation incurred expenses of \$1,139,016 and \$1,307,057 for investment management, consulting and custodian services, and associated unrelated business income tax costs during the years ended June 30, 2020 and 2019, respectively, which are netted against interest and dividend income and net realized and unrealized gains on the statement of activities.

Note 6 - Split-interest Agreements

The Foundation is party to split-interest agreements with certain donors. These agreements include contracts entered into with certain donors from which the Foundation benefits. Under the agreement, the donor has contributed funds to be held in trust, with the Foundation as the beneficiary. The terms of certain trusts and the pooled income fund specify that payments to the beneficiaries are limited to total trust income. Other trusts require that the Foundation make fixed payments or payments based on a fixed percentage of the fair market value of the trusts' assets to designated beneficiaries for their lifetimes.

At the end of the trusts' terms, the remaining assets are available for the Foundation's use. The portion of the trust attributable to the future interest of the Foundation is recorded on the statement of activities as contributions in the period the trust is established. Assets held under these various split-interest arrangements are recorded at fair value on the Foundation's statement of financial position. The Foundation makes distributions to the designated beneficiaries in accordance with the gift instrument and revalues the liability based on actuarial assumptions on an annual basis. Obligations under the split-interest agreements represent the present value of future payments required be paid to beneficiaries under the agreements. The present value is computed based on the normal life expectancy of the beneficiaries using the IRS discount rate.

The Foundation recorded contributions totaling \$3,476 and \$310,904 at net present value under split-interest agreements during the years ended June 30, 2020 and 2019, respectively.

Information pertaining to split-interest and gift annuity agreements as of June 30, 2020 and 2019 is as follows:

	2020	2019
Assets held under split-interest agreements	\$ 13,766,172	\$ 14,273,814
Assets held under gift annuity agreements	2,904,336	3,201,186
Total	16,670,508	17,475,000
Less associated liabilities	(6,641,824)	(7,157,710)
Net present value of assets held under split-interest and gift annuity agreements	\$ 10,028,684	\$ 10,317,290

Note 7 - Gift Annuity Agreements

The Foundation has been the recipient of several gift annuities that require future payments to the donor or their named beneficiaries. The assets received from the donor are recorded at fair value. The Foundation has recorded a liability at June 30, 2020 and 2019 of \$3,396,057 and \$3,471,716, respectively, which represents the present value of the future annuity obligations. These obligations are included in the liability amount shown in the table in Note 6. During the years ended June 30, 2020 and 2019, the Foundation received gifts under charitable gift annuity contracts with a net present value of \$21,693 and \$10,291, respectively, which are included in contributions on the statement of activities.

Note 8 - Beneficial Interest in Assets Held by Third Parties

The Foundation is named as a beneficiary of endowment assets and long-term trusts. The interests are held by third parties that manage the assets and distribute the earnings, as defined in the trust.

Endowment

The Foundation is the beneficiary of 50 percent of the endowment assets held and administered by the Joe W. Cooper and Cleone B. Hansen Foundation (CHF). CHF was created to continue in perpetuity by an irrevocable trust to benefit the Colorado School of Mines and the University of Utah. Should CHF be dissolved, the Foundation will receive 50 percent of its endowment assets.

June 30, 2020 and 2019

Note 8 - Beneficial Interest in Assets Held by Third Parties (Continued)

At June 30, 2020 and 2019, the fair value of the assets held by CHF for the benefit of the Foundation was \$11,286,526 and \$11,149,329, respectively, and is reported on the statement of financial position as beneficial interest in endowments held by others. The income from the endowment assets is restricted for use in the departments of mining engineering, extractive metallurgy, and economic and/or exploration geology at the University. The Foundation received a distribution of approximately \$450,000 and \$425,000 during the years ended June 30, 2020 and 2019, respectively.

Long-term Trusts

The Foundation is the beneficiary under trusts administered by an outside party. Under the terms of the trusts, the Foundation has the irrevocable right to receive income earned on trust assets for the length of the trusts and the right to receive the assets held in trust upon termination of the trusts. Because the Foundation is a beneficiary of the trusts, the assets of the trusts are on the Foundation's books as if the trusts were perpetual trusts and recorded at the fair value of \$186,198 and \$196,208 at June 30, 2020 and 2019, respectively. The Foundation did not receive contributions during the years ended June 30, 2020 and 2019. The Foundation received distributions amounting to \$10,000 during both of the years ended June 30, 2020 and 2019.

Note 9 - Assets Held for Others

Assets held for others represent various trusts that revert to other parties in the future, as stipulated in the respective trust documents, and certain university assets held for long-term investment purposes. The fair values of these assets are as follows:

	2020	2019
University funds	\$ 31,143,605	\$ 32,910,700
Charitable trust funds	1,193,119	1,262,864
Total	<u>\$ 32,336,724</u>	<u>\$ 34,173,564</u>

Note 10 - CSMF Property Management Corp.

CSMF Property Management Corp. (CSMF PMC) is a separate, tax-exempt Colorado nonprofit corporation formed to receive, hold, and sell donations of real property. CSMF PMC's only permissible beneficiary is the Foundation.

The Foundation's interest in the net assets of CSMF PMC is accounted for in a manner similar to the equity method. The interest is reflected as an asset stated at fair value, and changes in the interest are included on the statement of activities as changes in interest in net assets of CSMF PMC. Transfers of assets between CSMF PMC and the Foundation are recognized as increases or decreases in the interest in the net assets of CSMF PMC, with corresponding decreases or increases in the assets transferred, and have no effect on change in net assets. The Foundation's interest in the net assets of CSMF PMC totaled \$65,113 and \$68,587 at June 30, 2020 and 2019, respectively.

Note 11 - Colorado School of Mines Alumni Association

The Foundation has a services agreement with the Colorado School of Mines Alumni Association (the "Alumni Association"). The Alumni Association's operational employees are employees of the Foundation, and certain budget and operational functions, including alumni development activities, are the responsibility of the Foundation. This operating structure is part of the joint operating agreement between the University, the Foundation, and the Alumni Association dated February 1, 2016. The Foundation recognized revenue from the Alumni Association under the services agreement in the amount of \$72,400 during each of the years ended June 30, 2020 and 2019.

June 30, 2020 and 2019

Note 11 - Colorado School of Mines Alumni Association (Continued)

Effective July 1, 2020, the Foundation and the Alumni Association entered into a revised joint operating agreement whereby the Foundation will be responsible for the majority of the activities and functions of the Alumni Association. The Foundation has elected to consolidate the Alumni Association beginning in the fiscal year ending June 30, 2021. Pursuant to the revised joint operating agreement, the Alumni Association contributed the majority of its net assets, totaling approximately \$2,100,000, to the Foundation during the year ended June 30, 2020.

Note 12 - Line of Credit

Under a line of credit agreement with a bank, the Foundation has available borrowings of approximately \$5,000,000. Interest is payable monthly at a rate of 1.0 percent under the bank's prime rate (an effective rate of 3.00 and 5.25 percent at June 30, 2020 and 2019, respectively). The line of credit is secured by a pledged investment. There were no amounts outstanding on the line of credit at June 30, 2020 and 2019.

Note 13 - Net Assets

The following net assets without donor restrictions have been designated by the Foundation's executive committee for the following purposes:

	2020	2019
Endowment	\$ 26,777,893	\$ 28,749,377
Mines technology	84,725	64,582
Gift annuities program	(926,036)	(717,854)
Total	<u>\$ 25,936,582</u>	<u>\$ 28,096,105</u>

Net assets with donor restrictions are available for the following purposes:

	2020	2019
Assets available for:		
Student financial aid	\$ 46,852,765	\$ 43,630,002
Academic divisions	25,086,217	24,759,543
Faculty and staff compensation	7,138,848	7,790,726
University property and equipment	5,415,180	1,067,285
Research	1,901,352	1,677,705
Library	737,616	668,603
Other purposes	24,797	25,414
Assets available in future periods:		
Contributions receivable	41,690,000	13,999,000
Life income and annuity trusts	5,370,594	5,098,337
Student loans	1,703,406	1,797,521
Assets Held by CSMF PMC	65,113	68,587
Investment in perpetuity, the income from which is available for:		
Student financial aid	95,203,950	94,759,856
Faculty and staff compensation	55,521,367	58,219,470
Academic divisions	15,098,107	14,888,960
Research	2,360,210	2,444,460
Library	1,777,770	1,858,793
Other purposes	222,535	233,031
University property and equipment	845,274	839,252
Any activity of the Foundation	419,695	222,535
Future investment in perpetuity:		
Life income and annuity trusts	7,649,618	7,626,052
Contributions receivable	2,818,000	2,776,000
Total	<u>\$ 317,902,414</u>	<u>\$ 284,451,132</u>

Note 14 - Donor-restricted and Board-designated Endowments

The Foundation's endowments include both donor-restricted endowment funds and funds designated by the executive committee to function as endowments. Net assets associated with endowment funds, including funds designated by the executive committee to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Foundation is subject to the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and, thus, classifies amounts in its donor-restricted endowment funds as net assets with donor restrictions because those net assets are time restricted until the executive committee appropriates such amounts for expenditure. Most of those net assets also are subject to purpose restrictions that must be met before reclassifying those net assets to net assets without donor restrictions. The executive committee of the Foundation has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, when reviewing its donor-restricted endowment funds, the Foundation considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of the Foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Foundation
- The investment policies of the Foundation

The above interpretation pertains only to the endowments managed under UPMIFA. Certain endowments are donor-restricted endowments that have explicit donor stipulations, allowing the Foundation to use the corpus of the fund for spending distributions. These contract endowments are managed using the unitrust approach. In using the unitrust approach, all portions of the endowment funds, except term endowments and available-to-spend portions, are considered restricted in perpetuity in accordance to the Foundation's spending policy for contract endowments. Amounts available to spend under contract endowments are classified as net assets with donor restrictions until appropriated for use.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are reported in net assets with donor restrictions. As of June 30, 2020 and 2019, there were no funds with deficiencies.

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Foundation must hold in perpetuity or for a donor-specified period and board-designated funds. Under this policy, as approved by the executive committee, the endowment assets are invested in a manner that is intended to achieve a 10-year rolling average return, which is equal to the combination of the endowment payout plus inflation and additional growth above inflation, and seeks competitive investment performance versus appropriate capital market measures, such as securities indices.

Note 14 - Donor-restricted and Board-designated Endowments (Continued)

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints. The investment committee of the Foundation is responsible for selecting the asset mix and managers for the endowments of the Foundation.

The asset allocation target policy ranges approved by the executive committee are as follows:

	Minimum	Maximum
Equity related (including hedge equities)	30%	75%
Fixed income and cash	10	30
Real assets	0	20
Private equity/opportunistic and private credit	0	20

Spending Policy and How the Investment Objectives Relate to Spending Policy

The Foundation has a policy of appropriating for distribution each year a percentage of its endowment fund's market value over a three-year moving average at December 31 preceding the fiscal year in which the distribution is planned. The distribution for the year ended June 30, 2020 was a 4.25 percent endowment fund restricted payout and an administrative fee ranging from 1.0 to 1.75 percent, depending on the cumulative gift amount of the individual endowment fund. In establishing this policy, the Foundation considered the long-term expected return on its endowment, recognizing any given year may experience favorable or unfavorable market conditions. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment to grow at the rate of inflation. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return. The executive committee approves special appropriations and distributions from the board-designated unrestricted funds to function as endowments through the annual budget process. Expenditures from the donor-restricted endowment funds are controlled by the executive committee in concert with the donors' intent.

Endowment net assets composition by type of fund is as follows as of June 30, 2020:

	Net Assets without Restrictions	Net Assets with Restrictions	Total
Board-designated endowment funds	\$ 26,777,893	\$ -	\$ 26,777,893
Donor-restricted term endowment funds	-	32,166,532	32,166,532
Board-designated endowment from donor restricted funds	-	6,746,232	6,746,232
Donor-restricted endowment funds:			
Original donor-restricted gift amount and amounts required to be maintained in perpetuity by the donor	-	163,304,696	163,304,696
Accumulated investment gains	-	6,126,047	6,126,047
Current funds available to spend - University	-	7,781,834	7,781,834
Total funds	<u>\$ 26,777,893</u>	<u>\$ 216,125,341</u>	<u>\$ 242,903,234</u>

June 30, 2020 and 2019

Note 14 - Donor-restricted and Board-designated Endowments (Continued)

Changes in endowment net assets for the fiscal year ended June 30, 2020 are as follows:

	Net Assets without Restrictions	Net Assets with Restrictions	Total
Endowment assets - Beginning of year	\$ 28,749,377	\$ 216,511,850	\$ 245,261,227
Investment return - Investment income	264,155	2,137,537	2,401,692
Additions	-	9,350,321	9,350,321
Appropriation of endowment assets for expenditure	(2,592,986)	(9,119,545)	(11,712,531)
Board-designated from net assets without restrictions	(561,627)	(3,150,550)	(3,712,177)
Transfers - Change in donor restrictions	918,974	395,728	1,314,702
Endowment assets - End of year	<u>\$ 26,777,893</u>	<u>\$ 216,125,341</u>	<u>\$ 242,903,234</u>

Endowment net assets composition by type of fund is as follows as of June 30, 2019:

	Net Assets without Restrictions	Net Assets with Restrictions	Total
Board-designated endowment funds	\$ 28,749,377	\$ -	\$ 28,749,377
Donor-restricted term endowment funds	-	29,519,404	29,519,404
Board-designated endowment from donor restricted funds	-	6,240,055	6,240,055
Donor-restricted endowment funds:			
Original donor-restricted gift amount and amounts required to be maintained in perpetuity by the donor	-	165,322,147	165,322,147
Accumulated investment gains	-	7,643,978	7,643,978
Current funds available to spend - University	-	7,786,266	7,786,266
Total funds	<u>\$ 28,749,377</u>	<u>\$ 216,511,850</u>	<u>\$ 245,261,227</u>

Changes in endowment net assets for the fiscal year ended June 30, 2019 are as follows:

	Net Assets without Restrictions	Net Assets with Restrictions	Total
Endowment assets - Beginning of year	\$ 31,111,599	\$ 220,610,935	\$ 251,722,534
Investment return:			
Investment income	194,161	1,393,806	1,587,967
Net depreciation	(116,125)	(788,138)	(904,263)
Total investment return	78,036	605,668	683,704
Additions	-	7,455,202	7,455,202
Appropriation of endowment assets for expenditure	(894,297)	(12,387,510)	(13,281,807)
Board-designated from net assets without restrictions	389,069	-	389,069
	(1,935,030)	227,555	(1,707,475)
Endowment assets - End of year	<u>\$ 28,749,377</u>	<u>\$ 216,511,850</u>	<u>\$ 245,261,227</u>

Note 15 - Pension Plan

The Foundation participates in a defined contribution pension plan covering substantially all of its employees. Employer's contributions begin after an employee completes one year of employment and are a percentage of regular salary. Pension expense was \$247,594 and \$237,347 for the years ended June 30, 2020 and 2019, respectively.

Note 16 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Foundation's assets measured at fair value on a recurring basis at June 30, 2020 and 2019 and the valuation techniques used by the Foundation to determine those fair values.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Foundation has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Foundation's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

As required by GAAP, the Foundation uses net asset value (NAV) per share or its equivalent (practical expedient), such as member units or an ownership interest in partners' capital, to estimate the fair value of an alternative investment and requires additional fair value disclosures of the Foundation's alternative investments. Certain investments that are measured at fair value using the NAV practical expedient are not classified in the fair value hierarchy. The fair value amounts presented in the following table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

The following is a description of the valuation methodologies used for assets measured at fair value:

Cash equivalent funds: Valued based on dollar value of funds

Equities and mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded

Fixed income: Valued based on yields currently available on comparable securities of the issuer or other issuers with similar credit ratings

Private equity and hedge funds: Valued based on the NAV provided by the investment manager

June 30, 2020 and 2019

Note 16 - Fair Value Measurements (Continued)

Beneficial interest in assets held by others: Although the majority of the funds are invested in Level 1 assets, the amounts are reported as Level 3 assets, as the Foundation's allocation of the underlying investment balances is unknown.

Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

There were no changes to valuation techniques during the years ended June 30, 2020 or 2019.

Financial assets carried at fair value as of June 30, 2020 and 2019 are classified in the table below in one of the four categories described above:

Assets Measured at Fair Value on a Recurring Basis at June 30, 2020					
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	NAV	Total
Long-term investments:					
Managed domestic equity funds	\$ 55,083,344	\$ -	\$ -	\$ 41,294,530	\$ 96,377,874

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended June 30, 2020 are as follows:

	Split-interest Agreements	External Endowments and Trusts	Total
Balance at July 1, 2019	\$ 300,000	\$ 11,345,537	\$ 11,645,537
Purchases, issuances, and settlements	-	(10,000)	(10,000)
Total gains (realized/unrealized)	-	137,187	137,187
New pledges and pledge payments	(25,000)	-	(25,000)
Balance at June 30, 2020	\$ 275,000	\$ 11,472,724	\$ 11,747,724

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended June 30, 2019 are as follows:

	Split-interest Agreements	External Endowments and Trusts	Total
Balance at July 1, 2018	\$ 74,920	\$ 10,966,453	\$ 11,041,373
Purchases, issuances, and settlements	-	(435,000)	(435,000)
New pledges and pledge payments	225,080	814,084	1,039,164
Balance at June 30, 2019	\$ 300,000	\$ 11,345,537	\$ 11,645,537

Note 16 - Fair Value Measurements (Continued)

Unrealized gains and losses in the reconciliations above are all attributable to investments still held at the reporting date, and are reported as changes in net present values of split-interest agreements in the statement of activities.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets. As a result, the unrealized gains and losses for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Investments in Certain Entities that Calculate NAV per Share

Fund Description	June 30, 2020 Fair Value	June 30, 2019 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Domestic equity	\$ 41,294,530	\$ 30,559,668	\$ -	Quarterly	30 to 45 days
International equity	49,180,117	52,232,634	-	Monthly	5 to 30 days
Hedge funds	35,590,886	55,653,905	-	Quarterly to annually	30 to 90 days
Private equity funds	64,261,287	63,234,262	39,161,296	N/A	N/A
Total	\$ 190,326,820	\$ 201,680,469	\$ 39,161,296		

Domestic equity funds include funds that focus on long-only domestic equities with large-, mid-, and small-capitalization focus. The underlying assets are liquid, and the funds' managers provide details of those assets. The fair values of the investments in this category have been estimated using the NAV per share of the investments.

International equity includes investments in funds that focus on long-only international equities. The underlying assets are liquid, and the funds' managers provide details of those assets. As of June 30, 2020, all of the investments in the category can be redeemed with no restrictions. The fair values of the investments in this category have been estimated using the NAV per share of the investments.

Hedge funds include investments in hedge funds that invest both long and short and both in U.S. and international common stocks. Management of the hedge funds has the ability to shift investments from value to growth strategies, from small- to large-capitalization stakes, and from a net long position to a net short position. The investments dominate exposure in the U.S. market but will also take advantage of investment opportunities in Europe, Asia, and emerging markets. As of June 30, 2020, all of the investments in this category can be redeemed at the Foundation's report date. The fair values of the investments in this category have been estimated using the NAV per share of the investments, as provided by the investment manager.

Private equity funds include funds that focus on buyout, growth equity, distressed debt, and real asset investments. These investments are not redeemable. Instead, the nature of the investments in this category is that distributions are received through the liquidation of the underlying assets in the fund. The term for each of these investments is 3 to 10 years. The fair values of the investments in this category have been estimated using the NAV per share of the investments, as provided by the investment manager.

The following methods and assumptions were used by the Foundation in estimating the fair value of financial instruments:

Contributions receivable: The carrying amount is a reasonable estimate of fair value.

Beneficial interest in endowments and long-term trusts held by others and restricted net assets held by CSMF PMC: The carrying amount is a reasonable estimate of fair value.

Assets held for others: The carrying amount approximates fair value.

Note 16 - Fair Value Measurements (Continued)

Obligations under split-interest and gift annuity agreements: Fair values of the annuity and gift trust obligations are based on an actuarial evaluation of the estimated annuity or other payments under such obligations.

Note 17 - Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Investments

As of June 30, 2020 and 2019, 34 and 39 percent, respectively, of the Foundation's investment portfolio is invested in limited partnerships and venture capital organizations, some of which are offshore entities and some of which include derivative investments. There is no ready market value for these investments. The values reported in the Foundation's financial statements are the market values reported by the entities in audited financial statements, federal Schedule K-1, or other internal valuations. These values could be volatile and could be significantly different on a subsequent valuation date.

Student Loans

The Foundation has several donor-restricted student loan funds. The University administers the loans and makes direct loans to students without collateral. Concentration risk associated with student loans is limited, as no significant balances are due from any single individual, and the Foundation has historically experienced a high collectibility rate.

Note 18 - Change to Economic Environment

On March 11, 2020, the World Health Organization declared the outbreak of a respiratory disease caused by a new coronavirus a pandemic. First identified in late 2019 and now known as COVID-19, the outbreak has impacted millions of individuals worldwide. In response, many countries have implemented measures to combat the outbreak that have impacted global business operations. These measures included international travel restrictions, and in some states, orders to stay home. Financial markets initially experienced a significant downturn, but have largely recovered as of June 30, 2020. The Foundation has not experienced any significant impact to its investments, contributions, or operations as a result of the pandemic, and no impairments were recorded as of the statement of financial position date. However, due to significant uncertainty surrounding the situation, management's judgment regarding this could change in the future. In addition, while the Foundation's changes in net assets, cash flows, and financial condition could be negatively impacted in the future, the extent of the impact cannot be reasonably estimated at this time.

The Foundation received a Paycheck Protection Program (PPP) loan in the amount of \$777,600. Under the terms of this program, the loan can be forgivable if the loan is spent on qualifying expenses and staffing level requirements are met. The Foundation has recorded the loan as a contribution since as of June 30, 2020, the Foundation has determined it has satisfied the conditions to achieve forgiveness of the entire loan.
