Report of Independent Certified Public Accountants

Members of the Board of Directors
Fruitdale Sanitation District
Jefferson County, Colorado

Opinions

We have audited the accompanying financial statements of the business-type activities of Fruitdale Sanitation District (the District) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Fruitdale Sanitation District, as of December 31, 2021, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fruitdale Sanitation District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Fruitdale Sanitation District's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fruitdale Sanitation District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fruitdale Sanitation District's ability to continue as a going concern for a reasonable period of time.

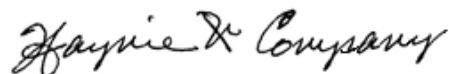

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fruitdale Sanitation District's basic financial statements. The supplementary information section is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Fruitdale Sanitation District Management's Discussion and Analysis

The discussion and analysis is designed to provide an analysis of the District's financial condition and operating results and to inform the reader on the District's financial issues and activities.

The Management's Discussion and Analysis (MD&A) should be read in conjunction with the District's financial statements.

Financial Highlights

- The financial statements show total assets of \$8,808,625 and total liabilities and deferred inflows of resources of \$660,540, as of December 31, 2021.
- In the statement of net position, the assets of the District exceeded its liabilities by \$8,148,085, which is an increase of \$771,891. \$4,997,006 or approximately 61% of this amount is unrestricted and may be used to meet the District's ongoing obligations to customers and creditors.
- The District's total assets increased by \$988,303. Most of this increase was attributable to an increase in cash and investments from 2020.
- The District's total liabilities and deferred inflows of resources increased by \$216,412 during the current fiscal year, due primarily to increased payables.

Overview of the Financial Statements

The financial statements of the District are presented as a special purpose government engaged in business type activities – providing sewer services.

The *Statements of Net Position* present information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in the net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statements of Revenues, Expenses and Changes in Net Position* present information which reflects how the District's net position changed during the past year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statements for some items that will only result in cash flows in future fiscal periods.

The *Statements of Cash Flows* report the District's cash flows from operating, noncapital financing, capital financing and investing activities.

These financial statements distinguish functions of the District that will be principally supported by user fees, developer contributions and tap fees. The functions of the District include effective and economical operation of wastewater sewer systems within the jurisdictional boundaries of the District. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements.

THE DISTRICT-WIDE FINANCIAL STATEMENTS INCLUDE ONLY THE DISTRICT ITSELF.

The District adopts an annual appropriated budget to recognize the fiscal impact of operations, non-operating revenues and contributions. A budgetary comparison statement has been provided to demonstrate compliance with this requirement.

The basic financial statements of the District can be found on pages 1-3 of this report.

District-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$8,148,085 at the close of the most recent fiscal year.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to customers; consequently, these assets are not available for future spending. The District's investment in its capital assets is reported net of related debt. It should be noted that the District has no outstanding long-term debt.

The balance of *unrestricted net position*, \$4,997,006, may be used to meet the government's ongoing obligations to customers and creditors.

At the end of the current fiscal year, the District reported positive balances in all categories of net position, for the District as a whole.

The District's net position increased by \$771,891 during the current fiscal year, compared to an increase of \$713,011 in 2020.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its business type activities as of December 31, 2021 amounts to \$3,141,079 (net of accumulated depreciation). This investment in capital assets includes sewer line systems, office furniture and fixtures, vehicles, land and buildings. The total decrease in the District's investment in capital assets for the current fiscal year was (3%), due to current-year depreciation.

Fruitdale Sanitation District Capital Assets

	2021	2020	Percentage Change
Land	\$195,234	\$195,234	0%
Land improvements	18,400	18,400	0%
Building & improvements	402,378	402,378	0%
Vehicles & equipment	240,957	240,957	0%
Sewer lines	4,648,805	4,288,161	7.76%
Total Capital Assets	\$5,505,774	\$5,145,130	

Additional information on the District's capital assets can be found in note 2 to the financial statements.

The District currently receives a substantial portion of its revenue from its sewer services.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District:

Fruitdale Sanitation District

Notes to Financial Statements

December 31, 2021 and 2020

1. Organization and Definition of Reporting Entity

Fruitdale Sanitation District (District), was created as a quasi-municipal corporation and political subdivision of the State of Colorado, is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located in Jefferson County, Colorado. The District was established to provide sewer service to property within its service area. The District is governed by an elected Board of Directors.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

2. Summary of Significant Accounting Policies

Basis of Accounting

The District's records are maintained on the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when the liability is incurred. Depreciation is computed and recorded as an operating expense. Expenditures for property and equipment are shown as increases in net position. Tap fees, inclusion fees and contributed sewer lines are recorded as nonoperating revenue when received.

Operating Revenues and Expenses

The District distinguishes between operating revenue and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's purpose of providing sewer services to its customers. Charges to customers for services provided are performed by the District. Operating expenses include cost of service, administrative expenses, and depreciation of assets. All revenues and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Cash Equivalents

For purposes of these statements, all highly liquid investments with an original maturity of ninety days or less are considered to be cash equivalents.

Fruitdale Sanitation District
Notes to Financial Statements (continued)
December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Accounts Receivable

Accounts receivable is presented in the Statement of Net Position net of estimated uncollectible amounts. As of December 31, 2021 and 2020, the District considers all amounts to be fully collectible.

Capital Assets

Capital assets are recorded at historical cost or estimated historical if purchased or constructed, except for those assets which have been contributed which are stated at estimated fair value at the date of contribution. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Depreciation expense has been computed using the straight-line method over the estimated economic useful lives:

	Life in Years
Land improvements	20
Building and improvements	20-40
Vehicles and equipment	3-10
Sewer lines, extensions and inclusions	50

Budget and Appropriation

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April 30 or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred revenue and reported as deferred inflows of resources in the year they are levied and measurable. The deferred property tax revenues are recorded as revenue in the year they are available or collected.

Fruitdale Sanitation District
Notes to Financial Statements (continued)
December 31, 2021 and 2020

2. Summary of Significant Accounting Policies (continued)

Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. Accordingly, the District has joined together with other special districts in the State to form Colorado Special Districts' Property and Liability Pool (Pool), a public entity risk pool currently operating as a common risk management and insurance program with other special districts. The District pays an annual premium for its insurance coverage that includes public officials' liability, property liability and an automobile policy. The Pool is intended to be self-sustaining through member premiums. The Pool has entered into certain reinsurance contracts.

Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

3. Cash Deposits and Investments

At December 31, the District had the following cash and investments:

	<u>2021</u>	<u>2020</u>
Cash balances - insured	\$ 271,363	\$ 264,912
Cash and investments - collateralized by securities held at bank	5,087,583	4,389,517
Total	<u>\$5,358,946</u>	<u>\$ 4,654,429</u>

Cash deposits and investments are reflected on the December 31 Statement of Net Position as follows:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$3,432,448	\$ 2,918,409
Certificates of Deposit, Government and Corporate Bonds	1,926,498	1,721,108
Total	<u>\$5,358,946</u>	<u>\$ 4,639,517</u>

At December 31, 2021, the District's cash deposits had a bank balance of \$3,432,448 and a carrying balance of \$3,432,448.

Fruitdale Sanitation District
Notes to Financial Statements (continued)
December 31, 2021 and 2020

3. Cash Deposits and Investments (continued)

Cash Deposits

Deposits are exposed to custodial credit risk if they are not covered by depository insurance, and collateralized with securities held by the pledging financial institution where the fair value of the collateral pool equals or exceeds all uninsured public deposits. The Colorado Public Deposit Protection Act (PDPA) requires deposits of all units of local government to be made in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the uninsured deposits. Accordingly, none of the District's cash deposits as of December 31, 2021 and 2020 are deemed to be exposed to custodial credit risk.

Investments

Colorado statutes specify investment instruments meeting defined rating, maturity, custodial and concentration risk criteria in which local governments may invest which include:

- Obligations of the United States and certain U.S. government agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market mutual funds
- Guaranteed investment contracts
- Local government investment pools

The investment policy adopted by the Board of Directors of the District establishes additional restrictions to the requirements specified by state statutes.

Fruitdale Sanitation District
Notes to Financial Statements (continued)
December 31, 2021 and 2020

3. Cash Deposits and Investments (continued)

At December 31, 2021, the District had the following investments:

<u>Investment</u>	<u>Rating</u>	<u>Investment Maturities</u>		<u>Total</u>
		<u>(in Years)</u>		
		<u>Less than 1</u>	<u>1 to Less than 5</u>	
Investment pools		\$944,938	\$ -	\$ 944,938
Money Market	N/A	79	-	79
Certificates of deposit	N/A	-	617,256	617,256
Bonds	AA+	-	1,309,242	1,309,242
		<u>\$945,017</u>	<u>\$1,926,498</u>	<u>\$ 2,871,515</u>

At December 31, 2020, the District had the following investments:

<u>Investment</u>	<u>Rating</u>	<u>Investment Maturities</u>		<u>Total</u>
		<u>(in Years)</u>		
		<u>Less than 1</u>	<u>1 to Less than 5</u>	
Investment pools		\$944,483	\$ -	\$ 944,483
Money Market	N/A	200,069	-	200,069
Certificates of deposit	N/A	-	609,214	609,214
Bonds	AA+	-	1,117,906	1,117,906
		<u>\$1,144,552</u>	<u>\$1,727,120</u>	<u>\$2,871,672</u>

Interest Rate Risk — Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Credit Risk — The District does not have a policy that addresses limitations on the amount that can be invested in any one issuer. More than 5% of the District's investments are concentrated in single issuers.

Local Government Investment Pools — As of December 31, 2021, the District had \$944,938 invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local government entities in Colorado to pool surplus funds and is registered with the State Securities Commissioner. COLOTRUST is rated AAAM by Standard and Poor's. COLOTRUST operates similarly to a money market fund and each share is equal in value to \$1.00. COLOTRUST offers shares in two portfolios, COLOTRUST Prime and COLOTRUST Plus+. The District funds are only invested in COLOTRUST Plus+. The portfolio may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. A designated custodial bank serves as custodian for COLOTRUST's portfolios pursuant to a custodian agreement.

Fruitdale Sanitation District

Notes to Financial Statements (continued)

December 31, 2021 and 2020

3. Cash Deposits and Investments (continued)

Substantially all securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial banks. The custodian acts as safekeeping agent for COLOTRUST investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by COLOTRUST.

Fair Value Measurement and Application — The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Investments not measured at fair value and not categorized include governmental money market funds (PFM Funds Governmental Select series) and money market funds (generally held by Bank Trust Departments in their role as paying agent or trustee).

The District's investments, except for its investments in COLOTRUST, are measured using Level 1 inputs. COLOTRUST is recorded using the net asset value.

4. Contracts

Service Contract - Metro Wastewater Reclamation District (MWRD)

The District has an agreement with MWRD for final treatment and disposal of the District's sewage. The agreement provides for annual estimated charges that are assessed through the application of a predetermined formula. Adjustments to the estimated charge will be based on meter flows, content, and actual costs. The adjustments are billed or credited to the District during the two succeeding years. The District retains responsibility for the maintenance and future construction costs of all public sanitary sewer lines and retains title to all public sanitary sewer lines in the District.

5. Tax, Spending and Debt Limitations

TABOR Amendment

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations that apply to the State of Colorado and all local governments.

Fruitdale Sanitation District
Notes to Financial Statements (continued)
December 31, 2021 and 2020

5. Tax, Spending and Debt Limitations (continued)

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR.

The District's management believes it is currently in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Some of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits and qualification as an Enterprise may require judicial interpretation.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. The District has restricted net position for an Emergency Reserve in accordance with TABOR.

In November 1994, the District adopted a resolution establishing a water activity enterprise under section 37-45.1-101 et. seg., CRS. The District adopts a budget for a General Government and an Enterprise. The General Government is budgeted to receive property tax revenues and pay administrative expenses and make grants to the Enterprise. The activities of the Enterprise, shall include, but not be limited to, collection, treatment, use, reuse, exchange, or discharge of wastewater. The Enterprise shall be eligible to receive grants from the General Government or other sources provided such grants in any fiscal year do not exceed 10% of the Enterprise's annual total revenue.

6. Risk Management: Colorado Special Districts Property and Liability Pool

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God. The District is one of approximately 960 special districts which are members of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2021. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, and boiler and machinery and workers compensation coverage to its members. The Pool provides coverage for property claims up to \$40,000,000 and liability coverage for claims up to \$1,000,000. Settled claims have not exceeded this coverage in any of the past three fiscal years.

Notes to Financial Statements (continued)
December 31, 2021 and 2020

6. Risk Management: Colorado Special Districts Property and Liability Pool (continued)

The District pays annual premiums to the Pool for liability, public officials and worker's compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

7. Capital Assets

Changes in property, plant and equipment from 2020 year end to 2021 year end are as follows:

	Balance			Balance
	December 31,	Additions	Deletions/ Transfers	December 31,
