INDEPENDENT AUDITORS' REPORT

**Board of Directors
Indian Hills Water District
Indian Hills, Colorado**

Opinions

We have audited the accompanying financial statements of the business-type activities of the Indian Hills Water District (the District) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Indian Hills Water Protection District as of December 31, 2021, and the respective changes in financial position and cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted or audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently know information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with Generally Accepted Auditing Standards, we

- **Exercise professional judgment and maintain professional skepticism throughout the audit.**
- **Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.**
- **Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The District's internal control. Accordingly, no such opinion is expressed.**
- **Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.**
- **Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.**

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 2 through 5 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The budgetary comparison and expense detail information presented on pages 18 and 19 are presented for purposes of additional analysis and legal compliance and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain addition procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United State of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**INDIAN HILLS WATER DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
DECEMBER 31, 2021**

This section provides a summary of the District's financial performance. It contains an overview and analysis of the District's financial activities for the year ended December 31, 2021. The financial statements are an integral part of this analysis and are contained within the Audit Report.

FINANCIAL HIGHLIGHTS

1. In 2021, net position totaled \$1,888,436, which represents an increase of \$280,221 (17.4%) when compared to 2020.
2. Total operating revenues were \$456,936 during 2021.
3. Total operating expenses were \$549,300 during 2021, which represents a decrease of \$212,767 (27.9%) when compared to 2020.
4. Total non-operating revenues were \$372,585 during 2021.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serves as an introduction to the District's basic financial statements. The basic financial statements are comprised of proprietary fund financial statements, notes to the financial statements, and supplemental information.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to private-sector businesses.

The statement of net position provides information regarding all of the District's assets, liabilities, and net position. Historically, changes (increases or decreases) in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The statement of net position is displayed on page six of the independent auditors' report.

The statement of revenues, expenses and changes in net position provides information regarding the changes in net position during the course of the past year. Revenues are recorded as they are earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows.

Proprietary Fund Financial Statements

A fund is a group of accounts used to maintain control of resources that have been set aside for specific activities or objectives. The District uses general fund accounting to account for all financial activities and to ensure and demonstrate compliance with finance related legal requirements.

Notes to Financial Statements

The notes provide detailed clarifying additional information necessary for a complete understanding of the data contained in the government-wide and fund financial statements.

FINANCIAL ANALYSIS

The true picture of the financial health of the District must take into account the operational policies and financial control practiced by the District.

Financial Policy Priorities

The financial goal of the District is to operate in a cost efficient manner that is similar to the practices of private enterprises. The District annually reviews its policies to assess their impact upon financial activities. Policies that affect financial activities are:

1. Administration and operations are funded from user fees.
2. A portion of Other Income will fund administration and operating costs.

Day-to-Day Operational Control of the District

For operational control, the District prepares its budget utilizing one fund. This allows the District to easily track operating and non-operating revenues and expenditures. The fund provides for the operational needs of the District in its entirety. The major source of revenue is user fees and real estate taxes. Expenditures are broken down into two areas: general and administrative, and operating expenses. This encourages a critical review of how the District allocates its monetary resources.

Expenditures are identified through long-term financial planning, which identifies items that will need major repair or replacement. Expenditures are also made to ensure that the District continues to conform to state and environmental mandates.

Currently, the primary funding source is water usage fees. The District, operating under the “pay-as-you-go” philosophy, is consciously building reserves sufficient to handle all infrastructure expenses that are anticipated and those that arise unexpectedly.

The District’s day-to-day operational control involves many levels of planning, forecasting and budgeting. Revenues and expenses are allocated to specific functions of the District. Monthly financial reports are presented to the Board of Directors. The reports contain monthly revenues and expenditures compared to the adopted budget.

A summary of the statement of net position is included below. The amounts listed for 2020 have not been audited.

	2021	2020
Current assets	\$1,258,627	\$ 967,701
Fixed assets, net of accum depr	680,430	641,757
Other Assets, Water Rights	404,830	404,830
Total assets	<u>2,343,887</u>	<u>2,014,288</u>
Current liabilities	90,175	60,846
Non-current liabilities	-	-
Deferred property taxes	365,276	345,227
Total liabilities	<u>455,451</u>	<u>406,073</u>
Net position:		
Invested in capital assets	680,430	641,757
Temporarily restricted	-	-
Unrestricted	1,208,006	966,458
Total net position	<u>\$1,888,436</u>	<u>\$1,608,215</u>

The above table shows the District to be in an overall healthy position, for a District of its size. It is also important to note that the District generally operates from year to year with a profit from other income which is saved for future capital expenses.

The table below shows the revenues, expenses, and net position for 2021 and 2020. The amounts listed for 2020 have not been audited.

	2021	2020
Total Revenue	\$ 456,936	\$ 265,592
Total Operating expenses	(549,300)	(762,067)
Operating income (loss)	(92,364)	(496,475)
Other Income	372,585	359,909
Net non-operating revenue	372,585	359,909
Change in net position	280,221	(136,566)
Beginning net position	1,608,215	1,744,781
Ending net position	\$1,888,436	\$1,608,215

BUDGETARY HIGHLIGHTS

The schedule of revenues and expenses, actual and budget is included in the supplementary information. The budget is prepared on a cash basis and thus excludes depreciation.

CAPITAL ASSETS AND DEBT ACTIVITIES

At the conclusion of 2021, the District had no outstanding debt.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Board of Directors and the management consider many factors when they set the budget for 2021. The District's 2019 Master Plan outlines our Capital Improvement Plan. With that in mind, projected property taxes, user fees, growth, and system improvement and investment are all evaluated and considered before the final budget is adopted.

CONTACTING THE DISTRICT'S MANAGER

This financial report is designed to provide our neighbors, customers, and creditors with a general overview of the District's finances and demonstrate the District's accountability for the money it receives. If you have any questions concerning this report or need additional information, please go to indianhillswater.com or contact the office manager at Indian Hills Water District, 4491 Parmalee Gulch Rd, Indian Hills, CO 80454.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Indian Hills Water District is organized under the provisions of Section 32-1-305(6) C.R.S. It is a quasi-municipal corporation and a political subdivision of the State of Colorado with all powers thereof which include the power to levy taxes against property within the District. The District grants credit to its customers, all of whom are located in Jefferson County, Colorado. The District was formed in 1952.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), which are applicable to governmental entities.

The following is a summary of significant accounting policies:

A. Principles Determining Scope of Reporting Entity

The financial statements of the District consist only of the funds and account groups of the District. The District has no oversight responsibility for any other governmental entity since no other entities are considered to be controlled by or dependent on the District. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and election of the respective governing board. Therefore in accordance with Governmental Accounting Standards Board Statement #14, the District is considered a stand-alone entity for financial reporting purposes.

B. Government-Wide and Fund Financial Statements

The Government-Wide financial statements (i.e. the statement of activities) report information on all of the non-fiduciary activities of the government. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues.

The Government-Wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

See independent auditors' report.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

Fund Accounting

The accounts of the District are organized on the basis of funds and account groups. Each fund and account group is considered an independent fiscal and accounting entity with a self-balancing set of accounts recording assets together with all related liabilities, obligations, reserves and equities which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The following fund was used by the District during 2021:

Proprietary Fund

System Improvement Fund – This fund is used to account for all activities related to providing fresh drinking water to residents of the District.

C. Measurement Focus and Basis of Accounting

Measurement Focus

The accrual basis of accounting is used for reporting purposes of the proprietary fund of the District. Under the accrual method of accounting, revenues and the related assets are reported when they are earned, regardless of when they are received and expenses and the related liabilities are reported when they are incurred, regardless of when they are paid.

Encumbrance accounting is not used.

The proprietary fund of the District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues are charges to customers for water. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

See independent auditors' report.

INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

The District prepares its budget on a basis consistent with generally accepted accounting principles and Colorado Revised Budgetary Statutes. All annual appropriations are at the total District level and lapse at fiscal year-end.

D. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

E. Capital Assets

Capital assets purchased or acquired with an original cost of \$250 or more are stated at cost or fair market value, if donated. The cost of repairs and maintenance is charged against income as incurred. Significant renewals, betterments and improvements are capitalized.

F. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

G. Allowance for Bad Debts

No allowance for bad debts has been provided for member receivables because, according to Colorado statute, the District's fees for providing services constitute a lien upon which the District may foreclose. In recent years, the District has not had significant collection problems.

See independent auditors' report.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Property Taxes

All taxable property within the District on January 1st each year is listed, appraised and valued as of January 1st, the official assessment date. At that time, property taxes are levied against the property, constituting a perpetual lien with priority over all other liens. Taxes are due and payable on January 1st following the year of assessment; however, they may be paid in either one installment due April 30th or two installments due February 28th and June 15th without penalty or interest. Unpaid amounts and accrued interest thereon become delinquent on June 16th.

The Governmental Accounting Standards Board has determined that property taxes should be accrued in the year of levy. Because these taxes are not available for use until the year subsequent to accrual, revenue is recognized in the subsequent year.

I. Budgets

Colorado state law requires the adoption of a budget and appropriations. Appropriations lapse at the end of the year. The budgets are prepared on the budgetary basis, which differs from a basis consistent with generally accepted accounting principles. Therefore, comparison of actual operations on the accrual basis to the budgets is not appropriate. However, a schedule comparing the actual activity on a budgetary basis to the budget is provided in the Supplementary Information section. The adjustments necessary to convert the actual revenues and expenditures to the budgetary basis for 2021 are as follows:

Change in net position	\$ 280,221
Add: Depreciation	37,638
Less: Capital expenditures	<u>(76,311)</u>
Revenues over expenditures	\$ <u>241,548</u>

The District's Board of Directors adopts the budget by resolution, usually in November each year. At that time, notice is published in local newspapers and the proposed budget is open to inspection by taxpayers and public hearings are held. The level of budgetary responsibility is by total appropriations.

See independent auditors' report.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

2. CASH AND DEPOSITS AND INVESTMENTS

A. Cash Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral determined by the PDPA. The institution is allowed to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. As of year-end the District’s bank balance was insured, collateralized with securities of the financial institution’s trust or collateralized with securities held by the pledging financial institution through PDPA.

At December 31, 2021, the District's cash deposits had a carrying balance of \$857,387 and corresponding bank balances as follows:

	<u>2021</u>
Insured deposits	\$ 71,790
Uninsured: Collateralized by financial institution	---
Total cash deposits	<u>71,790</u>
Cash on hand	<u>1,050</u>
Total Cash	\$ <u>72,840</u>

The bank balance of the deposits listed above are classified in three categories of credit risk as follows: a) Uncollateralized; b) Collateralized with securities held by the pledging financial institution’s trust department or agent in the entity’s name; c) Collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

See independent auditors' report.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

2. CASH AND DEPOSITS AND INVESTMENTS (Continued)

B. Investments

The District's investments are categorized as either (1) insured or registered, or for which the securities are held by the District or its agent in the District's name, (2) uninsured and unregistered for which the securities are held by the counterpart's trust department or agent in the District's name or (3) uninsured and unregistered for which the securities are held by the counterpart or by its trust department or agent but not in the District's name. As of December 31, 2021, all investments are considered category 1.

As of December 31, 2021, the District has \$784,547 invested in Colorado Local Government Liquid Asset Trust (COLOTRUST). COLOTRUST is an investment vehicle established for local government entities in Colorado to pool surplus funds for investment purposes. COLOTRUST is routinely monitored by the Colorado Division of Securities with regard to its operations and investments, which are also subject to provisions of C.R.S Title 24, Article 75, Section 6. The fair value of the investments in COLOTRUST is the same as the value of the pool shares. None of these types of investments are categorized because they are not evidenced by securities that exist in physical or book entry form. COLOTRUST is rated AAA from Standard and Poor's Corporation.

<u>Investments</u>	<u>Maturity Year</u>	<u>Fair Value</u>	<u>Credit Ratings</u>
COLOTRUST	Variable	\$ <u>784,547</u>	AAA
Total Investments		\$ <u>784,547</u>	

Colorado statutes specify in which instruments the units of local government may invest, which include:

Repurchase Agreements, obligations of the United States or obligations unconditionally guaranteed by the United States, federally insured mortgages and student loans. Participation with other local governments in pooled investment funds (trusts), these trusts are supervised by participating governments, and must comply with the same restrictions on cash deposits and investments.

See independent auditors' report.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

2. CASH AND DEPOSITS AND INVESTMENTS (Continued)

B. Investments (Continued)

Credit Risk – State law limits investments for fire districts to U.S. treasury issues, other federally backed notes and credits, and other agency offerings (not based on derivatives) without limitation. Other investment instruments including bank obligations, general obligation bonds, and commercial paper are limited to at least one of the highest rating categories of at least one nationally recognized rating agency. State law further limits investments in money market funds that are organized according to Federal Investment Company Act of 1940, as specified in rule 2a-7, as amended, as long as such rule does not increase remaining maturities beyond a maximum of three years. Investments in these funds require that the institution have assets in excess of \$1 billion or the highest credit rating from one or more nationally recognized rating agency.

Interest Rate Risk – The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value loss resulting from increasing interest rates. The Colorado revised statute 24-75-601 limits investment maturities to five years or less without governing board approval.

C. Reconciliation of Cash, Cash Equivalents, and Investments

The following is a reconciliation between the cash and investments recorded in the financial statements and the amounts reported in this footnote:

4. RESTRICTED NET POSITION

Net position is reported as restricted when there are limitations imposed on their use whether through enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments. When expenses are incurred for which restricted and unrestricted funds are available, the District considers restricted funds to be expended first.

See independent auditors' report.

**INDIAN HILLS WATER DISTRICT
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021**

5. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage from the prior year and settled claims have not exceeded commercial insurance coverage in the last several years.

6. TAX, SPENDING AND DEBT LIMITATIONS

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment is complex and subject to judicial interpretation. The District does not believe that it is directly subject to the "TABOR" limitations. However, the District has made certain interpretations of language in the amendment to make that determination.

7. GOVERNMENT REGULATION

Substantially all of the District's facilities are subject to federal, state and local provisions regulating the discharge of materials into the environment. Compliance with these provisions has not had, nor does the District expect such compliance to have, any material effect upon the capital expenditures, net income, and financial condition of the District. Management believes that its current practices and procedures for the control and disposition of such waste comply with applicable federal, state, and local requirements.

8. SUBSEQUENT EVENTS

In accordance with the provisions of Statement of Financial Accounting Standards Codification 855, Subsequent Events, management must evaluate, through the date the financial statements are issued or are available to be issued, events or transactions that may require recognition or disclosure in the financial statements, and disclose the date through which subsequent events were evaluated. The District's financial statements were available to be issued on the date of the Independent Auditors' Report, and this is the date through which subsequent events were evaluated. The District did not identify any subsequent events requiring disclosure.

See independent auditors' report.
