INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
North Fork Water Conservancy District  
Delta County, Colorado

**Opinions**

We have audited the accompanying financial statements of the governmental activities of the North Fork Water Conservancy District as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the North Fork Water Conservancy District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the North Fork Water Conservancy District, as of December 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the North Fork Water Conservancy District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the North Fork Water Conservancy District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the North Fork Water Conservancy District's internal control. Accordingly, no such opinion is expressed.

*Certified Public Accountants*

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the North Fork Water Conservancy District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 3 through 6) and budgetary comparison information (pages 19 and 20) be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## ***Management's Discussion and Analysis***

This discussion and analysis is designed to provide an analysis of the District's financial condition and operating results and to inform the reader on the District's financial issues and activities.

The Management's Discussion and Analysis (MD&A) should be read in conjunction with the District's basic financial statements.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise two components: 1) government-wide financial statements and fund financial statements, and 2) notes to the financial statements.

### **Combined Government-Wide Fund Financial Statements**

#### **Government-wide financial statements**

The government-wide financial statements are designed to provide readers with a broad overview of the entire District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, liabilities and deferred inflow of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the past year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and other revenues. The District's main function is to provide water conservation and storage to the citizens within its area.

The government-wide financial statements are combined with the fund financial statements.

#### **Fund financial statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has two funds, the governmental fund and the debt service fund.

## **Governmental funds**

*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the government fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District adopts an annual appropriated budget for its General and Debt Service funds. A budgetary comparison statement has been provided for the General and Debt Service funds to demonstrate compliance with its budgets.

The basic governmental fund financial statements are combined with the government-wide financial statements.

## **Notes to the financial statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$ 550,428 at the close of the year.

One of the largest portions of the District's net position reflects its investment in capital assets, less any related debt, that is still outstanding, used to acquire those assets. The District uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## Statement of the District's Operations

The District accounts for the water conservancy activities through its General fund. The District also has a Debt Service Fund to be used to make debt service payments.

District's Net Position at December 31:

	2020	2021
<b>Assets</b>		
Current and other assets	\$ 693,414	\$ 711,155
Capital assets, net of depreciation	580,481	534,757
Total assets	1,273,895	1,245,912
<b>Liabilities</b>		
Accounts payable	2,107	5,366
Long-term liabilities outstanding	648,236	614,118
Total liabilities	650,343	619,484
<b>Deferred inflows of resources</b>		
Deferred property tax revenues	75,000	76,000
<b>Net position</b>		
Restricted for emergencies, operations and debt payments	527,824	499,928
Unrestricted	20,728	50,500
Total net position	\$ 548,552	\$ 550,428

A portion of the District's net position \$ 499,928 represents resources that are subject to external restrictions on how they may be used. The balance of unrestricted net position \$50,500 may be used to meet the government's ongoing obligations to citizens and creditors.

The government's net position increased by \$1,876 during 2021.

## Governmental Activities

The District has no program revenues as they do not charge for their services. Their revenues, collected from property taxes, donations, grants, and investment income are all considered general revenues.

Statement of Activities - December 31, 2021

	2020	2021
<b>General Revenues:</b>		
Property taxes	\$ 77,955	\$ 76,869
Specific ownership taxes	10,596	9,995
Interest income	9,971	476
Miscellaneous	26,128	26,186
Total revenues	124,650	113,526

Review of expenses:	2020	2021
Administration	8,615	8,594
Operations	127,112	57,153
Depreciation expense	45,723	45,723
Miscellaneous	176	180
Total expenditures/expenses	<u>181,626</u>	<u>111,650</u>
Change in net position - Governmental Activities	<u>\$ (56,976)</u>	<u>\$ 1,876</u>

### Capital Assets and Debt Administration

The District's investment in capital assets at December 31, 2021 amounts to \$ 534,757 (net of accumulated depreciation). This investment in capital assets includes improvements and, irrigation plant.

Capital assets are classified as follows (net of depreciation):

	2020	2021
Improvements	\$ 35,867	\$ 32,400
Irrigation Plant	544,614	502,357
Total	<u>\$ 580,481</u>	<u>\$ 534,757</u>

### Debt

At year end, the District owed \$ 614,118 in a note payable which was a decrease of \$34,118:

	Balance 1/1/2021	Additions	Deletions	Balance 12/31/2021	Current Portion
Note payable	<u>\$ 648,236</u>	<u>\$ -</u>	<u>\$ 34,118</u>	<u>\$ 614,118</u>	<u>\$ 34,118</u>

### Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

**North Fork Water Conservancy District  
Delta County, Colorado  
Reconciliation of the Statement of Revenue, Expenditures and  
Changes in Fund Balance  
Governmental Fund to the Statement of Activities  
For the Year Ended December 31, 2021**

---

A reconciliation reflecting the differences between the general fund excess of revenues over expenditures and the changes in net position reported for governmental activities in the statement of activities is as follows

Excess of expenditures over revenues \$ 13,481

Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expenses

Depreciation	(45,723)
Total	<u>(45,723)</u>

The issuance of capital leases provides current financial resources to governmental funds, while the repayment of the principal of capital leases consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position

Principal payments - Capital lease	<u>34,118</u>
------------------------------------	---------------

Change in net position	<u>\$ 1,876</u>
------------------------	-----------------

North Fork Water Conservancy District  
Delta County, Colorado  
Notes to Financial Statements  
December 31, 2021

---

**Note 1- Summary of Significant Accounting Policies**

**A. Reporting Entity**

The North Fork Water Conservancy District (the “District”) is a body, corporate and political, created for the purpose of financing, constructing, maintaining, repairing and operating selected water conservancy projects.

The District is a governed entity administered by a seven-member Board of directors (“Board”) that acts as the authoritative and legislative body of the entity.

The accompanying statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The financial statements include all organizations, activities, and functions that comprise the District. Component units are legally separate entities for which the District (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization’s governing body and either (1) the District’s ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the District. Using these criteria, the District has no component units.

**B. Government-wide and fund financial statements**

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*. Major individual governmental funds are reported as separate columns in the fund financial statements.

**C. Measurement focus, basis of accounting and financial statement presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

North Fork Water Conservancy District  
Delta County, Colorado  
Notes to Financial Statements  
December 31, 2021

---

**Note 1- Summary of Significant Accounting Policies (Continued)**

**C. Measurement focus, basis of accounting and financial statement presentation (continued)**

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within thirty-one days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Grants and entitlements and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when the District receives cash.

**Deferred Outflows / Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section of deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not recognize as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section of deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not recognize as an inflow of resources (revenue) until that time. Property taxes revenue that are related to a future period have been recorded as deferred inflows. Grants and entitlements received before eligibility requirements are met (e.g., cash advances) are recorded as deferred inflows. These amounts are deferred and will be recognized as an inflow of resources in the period that the amounts become available.

**Fund Accounting**

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District only uses governmental funds.

**Governmental Funds**

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

North Fork Water Conservancy District  
Delta County, Colorado  
Notes to Financial Statements  
December 31, 2021

---

**Note 1- Summary of Significant Accounting Policies (Continued)**

**C. Measurement focus, basis of accounting and financial statement presentation (continued)**

**Governmental Funds (Continued)**

The District reports the following major governmental funds:

*General Fund* — The General Fund is used to account for all financial resources of the District except those required to be accounted for in another fund.

*Debt Service Fund* — The Debt Service Fund accounts for the servicing of general long-term debt and revenues are generated by property taxes that are required to be used in payment of long-term debt.

**Revenues - Exchange and Non-Exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within thirty-one days of fiscal year-end.

Under the modified accrual basis, only interest is considered to be both measurable and available at fiscal year-end

Nonexchange transactions, in which the District receives value without directly giving value in return, includes grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specified, the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must be available before it can be recognized.

**Expenses/Expenditures**

On an accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fluid liability is incurred, if measurable.

North Fork Water Conservancy District  
Delta County, Colorado  
Notes to Financial Statements  
December 31, 2021

---

**Note 1- Summary of Significant Accounting Policies (Continued)**

**D. Cash and Cash Equivalents**

For presentation in the financial statements, investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents.

**E. Restricted Assets**

Restricted assets are cash and cash equivalents whose use is limited by legal requirements. Restricted cash and cash equivalents represent reserves for operations and maintenance costs per contract with Bureau of Reclamation.

**F. Capital Assets**

General capital assets generally result from expenditures in the governmental funds. These assets are reported on the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not. The District maintains and owns an irrigation plant service that is used by multiple water districts.

**G. Compensated Absences**

The District does not have any sick or vacation time.

**H. Intergovernmental Revenues**

For governmental funds, intergovernmental revenues, such as contributions awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available.

**I. Fund Equity**

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance amounts that are not in spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance-amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions or by enabling legislation;

North Fork Water Conservancy District  
Delta County, Colorado  
Notes to Financial Statements  
December 31, 2021

---

**Note 1- Summary of Significant Accounting Policies (Continued)**

**I. Fund Equity**

- Committed fund balance-amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- Assigned fund balance-amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- Unassigned fund balance-amounts that are available for any purpose; positive amounts are reported only in the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Board of Directors has provided otherwise in its commitment or assignment actions.

**J. Net Position**

Net position presents the difference between assets and liabilities in the statement of net position. Net position invested in capital assets is reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are legal limitations imposed on their use by District legislation or external restrictions by creditors, grantors, laws or regulations of other governments.

**K. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America that requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**L. Property taxes receivable**

Property taxes are levied in November and attached a lien on property the following January 1. They are payable in full by April 30, or in two equal installments due February 28 and June 15. Property taxes levied in the current year and payable in the following year are reported as receivable at December 31, net of an estimated uncollectible portion. However, since the taxes are not available to pay current liabilities, the net receivables are recorded as a deferred inflow of resources.

---

**Note 2- Deposits and Investments**

Colorado State Statutes (Colorado Public Deposit Protection Act) require that all deposits be secured by Federal Deposits Insurance or secured by collateral with another financial institution securing 102% of the aggregate amount of public funds held which exceed the amount insured by Federal Deposit Insurance. Deposits must be made in financial institutions in the State of Colorado.

The composition of cash held by the District at December 31, 2021 is as follows:

Cash with County Treasurers'	\$ 933
Cash in Bank	166,098
Wells Fargo Advisors (Securities and cash)	65,956
Certificates of deposit	363,140
Reserve Account	<u>12,900</u>
Total Cash and Investments	<u>\$ 609,027</u>

At December 31, 2021, the bank balance of the District's deposits with financial institutions was \$ 542,186, with a carrying balance amount of \$ 542,138, of which \$ 250,000 was covered under federal depository insurance and \$292,196 was collateralized.

Investments

The District has investments in Wells Fargo Advisors which are stated at fair market value and are invested in mutual funds.

**Fair Value**

The District categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value.

**Level 1:** Quoted prices (unadjusted) in active markets for an identical asset or liability that a government can access at the measurement date.

---

**Note 2- Deposits and Investments (Continued)**

**Level 2:** Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

**Level 3:** Unobservable inputs for an asset or liability.

The District has the following fair value measurements as of December 31, 2021:

	<u>Level 2</u>	<u>Credit Ratings</u>
Columbia U.S. Treasury	\$ 31,335	**
Pimco SERFDS GNMA	<u>34,621</u>	***
	<u>\$ 65,956</u>	

**Note 3- Budgets**

The District adheres to the following procedure in establishing the budgetary data reflected in the financial statements:

- A. Budgets are required by state law for all governmental, proprietary and trust funds. During September the proposed budget is submitted to the Board of Directors for the fiscal year commencing the following January 1. The budget includes proposed expenditures and the means of financing them.
- B. Public hearings are conducted by the board to obtain taxpayer comments.
- C. Prior to December 31, the budget is adopted, and appropriations made by formal resolutions.
- D. Expenditures may not legally exceed appropriations at the fund level. Board approval is required for changes in the total budget for any fund or changes in project or department budgets. Budget amounts included in the financial statements are based on the final, legally amended budget.
- E. Budget appropriations lapse at the end of each year.
- F. The District doesn't utilize an encumbrance system; therefore, the encumbrances are not reflected in the financial statements or disclosed in the Notes to the Financial Statements.

**Note 4- Capital Assets**

The District's only capital asset is the irrigation plant which is financed with the Bureau of Reclamation. Depreciation being taken at a 40-year life with a salvage value of \$ 580,000.

	Balance <u>01/01/21</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>12/31/21</u>
Capital assets being depreciated				
Improvements	\$ 88,915	\$ -	\$ -	\$ 88,915
Irrigation plant	<u>2,320,000</u>	<u>-</u>	<u>-</u>	<u>2,320,000</u>
Total	2,408,915			2,408,915
Less accumulated depreciation	<u>(1,828,434)</u>	<u>(45,723)</u>	<u>-</u>	<u>(1,874,157)</u>
Governmental capital assets, net	<u>\$ 580,481</u>	<u>\$ (45,723)</u>	<u>\$ -</u>	<u>\$ 534,758</u>

**Note 5- Long-Term Debt**

On June 11, 1948, the North Fork Water Conservancy District contracted with the U.S. Department of Interior to build an irrigation plant in service for the multiple benefits of the water districts in the area. The original amount of the obligation was \$ 2,320,000, to be repaid in sixty-eight (68) equal annual installments of \$ 34,118 per year.

No interest is due until such time as North Fork Water Conservancy District shall become in arrears in their payments. At such time, interest will accrue at a rate of one percent (1%) per month.

	Balance <u>1/1/2021</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>12/31/2021</u>	Current <u>Portion</u>
Note payable	<u>\$ 648,236</u>	<u>\$ -</u>	<u>\$ 34,118</u>	<u>\$ 614,118</u>	<u>\$ 34,118</u>

The following is a detailed breakdown of the debt service payments.

<u>Payment schedule</u>	
2022	34,118
2023	34,118
2024	34,118
2025	34,118
2026-2030	170,589
2031-2035	170,589
2036-2039	<u>136,468</u>
Total	<u>\$ 614,118</u>

**Note 6- Compliance with Taxpayer’s Bill of Rights**

In November 1992, Colorado voters passed an amendment, (Amendment One), to the State Constitution (Article X, Section 20), which limits the revenue raising and spending abilities of state and local governments. The limits on property taxes, revenue and “fiscal year spending” include allowable annual increase tied to inflation and local growth in construction valuation. Fiscal year spending as defined by the amendment excludes spending from certain revenue and financing sources such as federal funds, gifts, property sales, fund transfers, damage awards and fund reserves (balance) the amendment requires voter approval for any increase in mill levy or tax rates, new taxes, or creation of multi-year debt. Revenue earned in excess of the “spending limit” must be refunded or approved to be retained by the entire electorate. The amendment also requires that reserves be established for declared emergencies, with 2% of fiscal year spending required in 1995 and 3% thereafter.

Based on estimated fiscal year spending for 2021 \$5,600 year end fund balances in General Fund have been reserved for emergencies. The District believes that is in compliance with this amendment.

**Note 7- Risk Management**

The District is exposed to various risks of loss related to torts; thefts; theft of, damages to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District pays an annual premium to Colorado Special District Property and Liability for its general insurance coverage.

**Note 8- Transfers**

In November 2015, the voters approved a ballot measure to authorize the District to collect, retain, and expend the full revenues derived from any and all lawful revenue sources generated in any previous or future year, without regard to any spending or other limitations. The District transferred \$50,000 from the Debt Service Fund to the General Fund for operating costs.
