Independent Auditor's Report

To the Honorable Mayor and
the Board of Trustees
Town of La Veta
La Veta, Colorado

Opinion

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of La Veta, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Town of La Veta's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of La Veta, as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of La Veta, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of La Veta's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town of La Veta's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of La Veta's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension trend data be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Town of La Veta's basic financial statements. The accompanying individual nonmajor fund financial statements and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and other schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**Town of La Veta
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2021**

As management of the Town of La Veta, we offer readers of the Town of La Veta's financial statements this narrative overview and analysis of the financial activities of the Town of La Veta for the fiscal year ended December 31, 2021. The focus of the information is on the primary government (general) fund. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the Town of La Veta's financial statements, which follow this narrative.

The Town of La Veta has adopted a new financial reporting model promulgated by the Government Accounting Standards Board (GASB). In accordance with GASB Statement No. 34, Basic Financial Statement and Management Discussion and Analysis for State and Local Governments, the Town of La Veta is not required to restate prior periods for purposes of providing comparative information. However, in future years, when prior year information is available, a comparative analysis of the government wide information will be presented.

Financial Highlights

- The assets of the Town of La Veta exceeded its liabilities at the close of the fiscal year by \$11,968,876 (net assets).
- The government's total net assets increased by \$2,888,478 primarily due to increases in the government and business type activities net assets.
- As of the close of the current fiscal year, the Town of La Veta's governmental funds reported combined ending fund balances of \$3,975,721.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$804,504.00
- for the fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Town of La Veta's basic financial statements. The Town's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the Town of La Veta.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the Town's finances, similar in format to a financial

Town of La Veta
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2021

statement of a private-sector business. The government-wide statements provide short and long-term information about the Town's financial status as a whole.

The two government-wide statements report the Town's net assets and how they have changed. Net assets are the difference between the Town's total assets and total liabilities. Measuring net assets is one way to gauge the Town's financial condition.

The government-wide statements are divided into two categories: 1) governmental activities; and 2) business type activities. The governmental activities include most of the Town's basic services such as public safety, parks and recreation, and general administration. Property taxes, county and town taxes, cigarette tax, motor fuel tax, highway user tax, franchise taxes, business, contractor and liquor licensing fees, court and traffic fines, and leases finance most of these activities. The business-type activities are those that the Town charges customers to provide. These include water and sewer services offered by the Town of La Veta. The final category is the component unit.

Fund Financial Statements

The fund financial statements provide a more detailed look at the Town's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of La Veta, like all other governmental entities in Colorado, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the Town's budget ordinance. All of the funds of the Town of La Veta can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the Town's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the Town's programs. The relationship between government activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

Town of La Veta
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2021

The Town adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the Town, the management of the Town, and the decisions of the Board about which services to provide and how to pay for them. It also authorizes the Town to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the Town complied with the budget ordinance and whether or not the Town succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges. To account for the difference between the budgetary basis of accounting and the modified accrual basis, a reconciliation showing the differences in the reported activities is shown at the end of the budgetary statement.

Proprietary Funds – The Town of La Veta has two proprietary funds. *Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town of La Veta uses enterprise funds to account for its water operations and sewer operation. These funds are the same as those functions shown in the business-type activities in the Statement of Net Assets and the Statement of Activities.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the Town of La Veta's progress in funding its obligation to provide pension benefits to its police force.

Government-Wide Financial Analysis

The government-wide financial statements for the fiscal year ended December 31, 2004 are the beginning of a new era in financial reporting for the Town of La Veta and many other units of government across the United States. Prior to this year, the Town of La Veta maintained their governmental and proprietary fund groups as two separate and very distinct types of accounting without any type of consolidated statement that accurately reflected the operations and net assets of the government as a whole. There was a total column that appeared on the

Town of La Veta
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2021

financial statements, but it was a memorandum total only. No attempt was made to adjust the statements in such a way that the total column would represent the overall financial condition of the Town of La Veta. These statements were basically the equivalent of the fund financial statements that appeared in the report with fiduciary funds and two account groups, the long-term debt and the general fixed assets, added in.

The changes in the financial statement reporting model are mandated by the Governmental Accounting Standards Board (GASB). GASB Statement 34 dictated the changes you see in the Town of La Veta's financial reports as well as those of many other units of government. While other units of government were required to implement these changes for the fiscal year ended June 20, 2002 or 2003, the Town of La Veta was required to implement Statement 34 as of December 31, 2004.

Because of the new reporting model, comparative data for all facets of this report are not available. When comparative numbers are accessible, they have been included, such as with net assets. Future years' reports will have more comparative data that will allow more opportunities for comparative analysis.

**Town of La Veta
Management's Discussion and Analysis
For the Fiscal Year Ended December 31, 2021**

Governmental Activities

The following table shows the Town's major functions. It also shows the net costs (total cost less revenues generated by activities).

**Table 3
Government Activities
(Net of Depreciation)**

Governmental Activities by Major Function	2021		2020	
	Total Cost of Service	Net Cost of Service	Total Cost of Service	Net Cost of Service
Administrative	301,991	(97,273)	310,206	(248,349)
Public Works	311,579	(311,579)	1,195,041	(235,756)
Public Safety	81,264	(81,164)	109,870	(109,126)
Community Service	94,001	(93,961)	120,588	(49,012)
Total	788,835	(583,977)	1,735,705	(642,243)

- Most of the Town's costs, however, were financed by Town and State taxpayers. This portion of governmental activities was financed with \$42,905.00 local property and specific ownership taxes, and \$4,491.00 investment earnings and other miscellaneous revenue, and donations.

Business-Type Activities

Business-type activities are made up the water and sewer funds. These programs had revenues of \$3,157,337.00 and expenses of \$575,129.00.

Financial Analysis of the Town's Funds

General Fund Budgetary Highlights

The Town's budget is prepared according to Colorado law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund.

Economic Factors Bearing on the Town's Future

The Town of La Veta, like many other small municipalities depend on tourism, in part, to provide sales tax revenues to help provide public service and public safety services. These revenues change dependent on conditions within the local area and sometimes the state. When required the Town's management, the Board of Trustees, provide direction as to necessary expenditures to provide a continuing balance in funds received and those available for expenditures, allowing for an adequate cash flow.

To make projections of revenues for the general fund is difficult when there is a certain dependency on tourism. The Board of Trustees continues to review actual revenues and make required adjustments throughout the year to stay within the financial capability of the Town.

Contacting the Town's Financial Management

This financial report is designed to provide a general overview of the Town of La Veta's finances for all those with an interest in the Town. Questions concerning any of the information provided in the report or requests for additional information should be address to:

TOWN OF LA VETA, COLORADO
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
December 31, 2021

Amounts reported for governmental activities in the statement of the net position are different because:

<u>Total Fund Balance – Governmental Funds</u>	1,586,518
Receivables are recognized at the fund level for revenue available within sixty days of year end. However, receivables in the statement of net assets include all revenues earned for the period.	28,603
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is \$4,321,405 and the accumulated depreciation is \$1,977,941.	2,343,464
The Town's portion of the net pension asset for FPPA reported on the statement of net position is not reported as a liability in the funds.	18,866
Deferred flows for contributions made toward the net pension asset from January 1, 2021 until December 31, 2021 is not reported in the funds.	3,927
Deferred pension flows are not reported in the funds.	16,595
Compensated absences are not reported as a liability in the funds	<u>(22,252)</u>
<u>Total Net Position – Governmental Activities</u>	<u>3,975,721</u>

The accompanying notes are an integral part of these financial statements.

TOWN OF LA VETA, COLORADO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN
FUND BALANCES OF GOVERNMENT FUNDS TO THE STATEMENT OF ACTIVITIES
Year Ended December 31, 2021

Amounts reported for governmental activities in the statement of activities are different because:

<u>Net Change in Fund Balances – Total Governmental Funds</u>	423,177
---	---------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital outlays more than \$5,000	22,798	
Depreciation expense	<u>(134,504)</u>	(111,706)

In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid).

During the year, compensated absences increased by this amount.	(1,916)
---	---------

Revenue is recognized at the fund level for resources available within sixty days of year end. However, revenue in the statement of activities includes all revenues earned for the period. This is the net affect of the revenue difference for the year.

(63)

The statement of activities reports net pension obligation which is not reported in the fund financial statements.

Change in net pension asset	12,514
Deferred flows from net pension activity	<u>(15,736)</u>

<u>Change in Net Position of Governmental Activities</u>	<u>306,270</u>
--	----------------

The accompanying notes are an integral part of these financial statements.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The reporting entity, for financial purposes, is defined as the primary government (the Town of La Veta) and its component units. The Town has no component units; the financial statements are comprised of the funds and account groups more fully described in subsequent information contained in the footnotes.

The accounting policies of the Town of La Veta conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

B. Government – Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from the Town's legally separate *component units* for which the Town is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or identifiable activity are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or identifiable activity. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

The *general fund* is the Town's primary operating fund. It accounts for all financial resources of general government, except those required to be accounted for in another fund.

The *museum special revenue fund* accounts for all financial activity related to the operation of the museum.

The Town reports the following major proprietary funds:

The *sewer fund* accounts for the activities of the Town's sewage disposal and treatment system.

The *water fund* accounts for the activities of Town's water distribution and treatment system.

Additionally, the government reports the following fund types.

Police Pension Trust Fund (health & safety) uses its resources for public safety expenditures.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the Town's utility functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Proprietary funds distinguish *operating revenues* and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the utility enterprise funds are charges to customers for sales and services. The enterprise funds also recognize as operating revenues the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Equipment	5-30
Building & Plant	15-40

E. Budgets and Budgetary Accounting

The Town has set procedures to be followed in establishing the budgetary data reflected in the financial statements:

1. Prior to October 1, a proposed operating budget for the fiscal year commencing the following January 1 is developed. The operating budget includes proposed expenditures and the means of financing them.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgets and Budgetary Accounting (continued)

2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to December 31, the budget is legally enacted through passage of an ordinance or resolution.
4. The budget for the General and Museum Funds are presented on a GAAP Basis, while budgets for the Enterprise Funds are presented on a Non-GAAP Basis.

F. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund, Museum Fund and Enterprise Funds. All encumbrances lapse at the end of the year.

G. Inventory

Inventory is valued at the lower of cost (first-in, first-out) or market. The costs of inventories are recorded as expenditures when they are used.

H. Accumulated Unpaid Vacation, Sick Pay, and Other Employee Benefits Amounts

Accumulated unpaid vacation, sick pay, and other employee benefits amounts should be accrued when incurred in proprietary funds (using the accrual basis of accounting). Such amounts would not be accrued in governmental funds (using the modified accrual basis of accounting). Accrued vacation and sick leave payable has been reflected in the financial statements of the Proprietary Funds and in the statement of net position for all governmental fund types.

I. Property Taxes

Property taxes represent ad valorem taxes levied by the Town, which are payable to the County Treasurer, and are recognized as revenue by the Town in the year for which they are levied.

Property taxes are levied in December for collection in the subsequent year.

Property taxes attach as an enforceable lien on property as of January 1. Taxes may be paid without penalty in either of two ways: (a) Full payment by April 30, or (b) First half must be paid by last day of February, and second half must be paid by June 15.

J. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Cash and Cash Equivalents

For purposes of the Statement of Cash Flows the Town of La Veta considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. This includes cash, cash equivalents, and restricted cash.

L. Accounts Receivable & Allowance for Uncollectibles

The Town writes off bad debts when accounts are deemed uncollectible. Receivables are reviewed annually to determine accounts that should be written off.

M. Contraband

Per Colorado Contraband Forfeiture Act (CRS 16-13-501-511), proceeds received from the seizure of contraband must be used for the specific purposes of law enforcement activities. These proceeds are exempt from the appropriation process. The Town of La Veta received no proceeds during 2021.

N. Reserves

Article X, Section 20 of the Constitution of the State of Colorado requires the Town to establish Emergency Reserves (see Note 7). \$30,000 of the fund balance has been reserved in compliance with this requirement.

O. Supplemental Disclosures of Cash Flow Information

	<u>Water Fund</u>	<u>Sewer Fund</u>
Cash Paid for Interest	22,574	792
Cash Paid for Income Taxes	-	-

P. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. GASB Statement No. 54

The Government Accounting Standards Board (GASB) has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

1. Nonspendable such as fund balances associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned).
2. Restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
3. Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town Council (the Town's highest level of decision-making authority).
4. Assigned fund balance classification is intended to be used by the government for specific purposes that do not meet the criteria to be classified as restricted or committed.
5. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications.

Fund Balance Classification Policies and Procedures

Committed Fund Balance Policy:

The Town's Committed Fund Balance is fund balance reporting required by the Town Council, either because of a Town Council Policy in the Town Council Policy Manual, or because of motions that passed at Town Council meetings.

Assigned Fund Balance Policy:

The Town's Assigned Fund Balance is fund balance reporting occurring by Town Council Administration authority, under the direction of the Chief Business Officer.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. GASB Statement No. 54 (Continued)

Order of Fund Balance Spending Policy

The Town's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries.

First, non-spendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including non-spendable amounts). Then unrestricted fund balances are determined following the order of committed, assigned, and unassigned.

Fund Balance Classification by Fund:

	<u>General Fund</u>	<u>Museum Fund</u>	<u>Total Governmental Funds</u>
<u>Nonspendable:</u>			
Inventories	-	-	-
<u>Restricted:</u>			
Recreation	69,630	-	69,630
Emergencies	30,000	-	30,000
<u>Committed:</u>			
Streets and Sidewalks	385,236	-	385,236
Parks and Trees	2,522	-	2,522
<u>Assigned:</u>			
Museum	-	294,626	294,626
<u>Unassigned</u>	<u>804,504</u>	<u>-</u>	<u>804,504</u>
<u>Total Fund Balances</u>	<u>1,291,892</u>	<u>294,626</u>	<u>1,586,518</u>

R. Deferred Outflows / Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 2 ACCOUNTS RECEIVABLE

Accounts receivable in the governmental funds are stated at gross. The accounts receivable in the enterprise funds are adjusted by an estimated allowance, and represent amounts receivable from Enterprise Fund customers. The Town's ability to file liens against property owners and the policy of discontinuing service to delinquent accounts results in probable collectability of these accounts receivable.

NOTE 3 CASH AND DEPOSITS

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories, eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must at least equal 102% of the uninsured deposits.

At December 31, 2021, the Town's cash deposits had a bank balance and a corresponding carrying balance as follows:

	<u>Bank Balance</u>	<u>Carrying Balance</u>
Insured (FDIC)	250,000	250,000
Uninsured, collateralized under the Public Deposit Protection Act (See Above)	<u>4,213,749</u>	<u>4,037,313</u>
<u>Sub-Total</u>	<u>4,463,749</u>	<u>4,287,313</u>
Cash with Fiscal Agent	-	2,676,270
Cash on Hand	-	1,237
Cash with County Treasurer	<u>-</u>	<u>12,393</u>
<u>Total Cash</u>	<u>4,463,749</u>	<u>6,977,213</u>

As presented above, deposits with a bank balance of \$4,213,749 and a carrying balance of \$4,037,313 as of December 31, 2021 are uninsured, are exposed to custodial risk, and are collateralized with securities held by the pledging financial institution.

NOTES PAYABLE

Note Payable –Colorado Water Resources and Power Authority

On April 11, 2008 the Town of La Veta entered into a loan agreement with Colorado Water Resources and Power Development Authority for the purpose of improving the Town's water system. The total amount available through the loan is \$1,134,000 at an interest rate of 1.875% and a term of 30 years. The loan is being drawn down as the project progresses. The first payment on the loan will be on November 1, 2009 based on an amortization schedule reflecting the total amount borrowed. The Town had drawn down the entire \$1,134,000 of the loan as of December 31, 2012.

Below is a summary of payments due:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	36,323	13,795	50,118
2023	37,008	13,110	50,118
2024	37,705	12,413	50,118
2025	38,415	11,703	50,118
2026	39,139	10,979	50,118
2027-2031	207,034	43,555	250,589
2032-2036	227,283	23,306	250,589
2037-2039	<u>121,846</u>	<u>3,448</u>	<u>125,294</u>
	<u>744,753</u>	<u>132,309</u>	<u>877,062</u>

As a condition of the CWR & PDA debts, the Town must certify to the Authority the following information:

1. Compliance with rate covenant – the rate covenant requires that fees charged and collected be at least sufficient each year to pay the sum of amounts required to pay operating and maintenance expenses (as defined) of \$250,087 in 2021, 110% of the debt service on the loans of \$39,217 in 2021, debt reserve payment of \$0 in 2021, subordinate lien debt service of \$0 in 2021, and other debt service payable from the above fees of \$0 in 2021. The \$289,304 total requirement of the covenant was exceeded by fees of \$407,941 for the year ended December 31, 2021.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 5 CHANGES IN LONG-TERM DEBT (Continued)

NOTES PAYABLE (Continued)

2. Compliance with operations and maintenance reserve covenant – the reserve requirement is estimated to be approximately \$47,000 at December 31, 2021 based on Exhibit F of the loan agreement. The Town had a maintained reserve account of \$65,852 at December 31, 2021.
3. Lien representation – the property pledged for this debt, except as disclosed to the Authority in writing, is free and clear of any pledge, lien, charge or encumbrance.

Colorado Water Conservation Board Loan

The Town of La Veta secured a construction loan of \$344,139 from the Colorado Water Conservation Board for the La Veta Lake north dam project. The terms of the loan call for 30 annual payments of \$19,014 at 3% beginning September, 2014.

Below is a summary of payments due:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	11,009	8,005	19,014
2023	11,338	7,676	19,014

Sewer Note Payable – Colorado Water and Resources and Power Authority

On August 28, 2020 the Town of La Veta entered into a loan agreement with the Colorado Water Resources and Power Development Authority for the purpose of improving the Town's Sewer system. The total amount available through the loan is \$1,900,000 at an interest rate of .5% and a term of 30 years. Nothing had been drawn on the loan until 2021 and the amortization schedule was amended to reflect the first payment on November 1, 2021.

Below is a summary of the payments due:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2022	59,774	9,401	69,175
2023	60,073	9,102	69,175
2024	60,374	8,801	69,175
2025	60,676	8,499	69,175

NOTE 6 PENSION PLANS

The Town has one plan covering members of the Police Department. The plan is:

- Fire and Police Pension Plan - Statewide Defined Benefit Plan (FPPA SWDB)

<u>Plan</u>	<u>Net Pension Liability</u>	<u>Net Pension Asset</u>	<u>Pension Expense</u>	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
FPPA Statewide Plan	-	18,866	3,222	39,975	19,453

NOTE 7 **DEFINED BENEFIT PENSION PLAN - FIREMEN AND POLICEMEN**

Fire & Police Statewide Defined Benefit Plan

Plan description. The Plan is a cost-sharing multiple-employer defined benefit pension plan covering substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978 (New Hires), provided that they are not already covered by a statutorily exempt plan. As of August 5, 2003, the Plan may include clerical and other personnel from fire districts whose services are auxiliary to fire protection. The Plan became effective January 1, 1980.

The Plan assets are included in the Fire & Police Members' Benefit Investment Fund and the Fire & Police Members' Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Separate Retirement Account assets from eligible retired members).

The Plan is administered by the Fire & Police Pension Association of Colorado (FPPA). FPPA issues a publicly available comprehensive annual financial report that can be obtained on FPPA's website at <http://www.FPPAco.org>.

Benefits provided. A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member's combined years of service and age equals at least 80, with a minimum age of 50 (Rule of 80).

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members covered under Statewide Defined Benefit Social Security Component will receive half the benefit when compared to the Statewide Defined Benefit Plan. Benefit adjustments paid to retired members are evaluated annually and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W).

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

Contributions. Through December 31, 2021, contribution rates for the SWDB plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership. Effective January 1, 2021, contribution rates for employers and members may be increased equally by the FPPA Board of Directors upon approval through an election by both the employers and members.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 7 **DEFINED BENEFIT PENSION PLAN - FIREMEN AND POLICEMEN (Continued)**

In 2014, the members elected to increase the member contribution rate to the SWDB plan beginning in 2015. Member contribution rates will increase 0.5 percent annually through 2022 to a total of 12 percent of pensionable earnings. Employer contributions are 8 percent in 2019 and 2020. Employer contributions will increase 0.5 percent annually beginning in 2021 through 2030 to a total of 13 percent of pensionable earnings. In 2019, members of the SWDB plan and their employers are contributing at the rate of 10.5 percent and 8 percent, respectively, of pensionable earnings for a total contribution rate of 18.5 percent.

Contributions from members and employers of departments reentering the system are established by resolution and approved by the FPPA Board of Directors. The reentry group has a combined contribution rate of 22.5 percent and 23.0 percent of pensionable earnings in 2019 and 2020, respectively. It is a local decision as to whether the member or employer pays the additional 4 percent contribution. The member and employer contribution rates will increase through 2030 as described above for the non-reentering departments. Effective January 1, 2021, reentry departments may submit a resolution to the FPPA Board of Directors to reduce the additional 4 percent contribution, to reflect the actual cost of reentry by department, to the plan for reentry contributions. Each reentry department is responsible to remit contributions to the plan in accordance with their most recent FPPA Board of Directors approved resolution.

The contribution rate for members and employers of affiliated social security employers is 5.25 percent and 4 percent, respectively, of pensionable earnings for a total contribution rate of 9.25 percent in 2019 and 9.50 percent in 2020. Per the 2014 member election, members of the affiliate social security group had their required contribution rate increase 0.25 percent annually beginning in 2015 through 2022 to a total of 6 percent of pensionable earnings. Employer contributions are 4 percent in 2019 and 2020. Employer contributions will increase 0.25 percent annually beginning in 2021 through 2030 to a total of 6.5 percent of pensionable earnings.

Contributions to the Plan from the Department were \$3,927 for the year ended December 31, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2021, the Department reported a liability/(asset) of \$(18,866) for its proportionate share of the net pension liability/(asset). The net pension liability/(asset) was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date. The Department's proportion of the net pension liability/(asset) was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating departments, actuarially determined. At December 31, 2020, the Department's proportion was .00869 percent, which was a decrease of .00192 percent from its proportion measured as of December 31, 2019.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 7 **DEFINED BENEFIT PENSION PLAN - FIREMEN AND POLICEMEN (Continued)**

For the year ended December 31, 2021, the Department recognized pension expense of \$3,222. At December 31, 2021, the Department reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$ 16,000	\$ (75)
Changes in assumptions	8,024	-
Net difference between actual and projected earnings on pension plan investments	-	(19,378)
Changes in proportion and differences between Department contributions and proportionate share of contributions	12,024	-
Department contributions subsequent to the measurement date	3,927	-
Total	\$ 39,975	\$ (19,453)

\$3,927 reported as deferred outflows of resources related to pensions resulting from the Department's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31,	
2021	\$ (7,696)
2022	1,429
2023	(10,406)
2024	1,563
2025	12,568
Thereafter	19,137

Actuarial assumptions. The actuarial valuations for the Statewide Defined Benefit Plan were used to determine the total pension liability and actuarially determined contributions for the fiscal year ending December 31, 2020. The valuations used the following actuarial assumption and other inputs:

	Total Pension Liability	Actuarial Determined Contributions
Actuarial Valuation Date	January 1, 2020	January 1, 2019
Actuarial Method	Entry Age Normal	Entry Age Normal
Amortization Method	N/A	Level % of Payroll, Open
Amortization Period	N/A	30 Years
Long-term Investment Rate of Return*	7.0%	7.0%
Projected Salary Increases*	4.25% - 11.25%	4.25% - 11.25%
Cost of Living Adjustments (COLA)	0%	0%
*Includes Inflation at	2.5%	2.5%

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 7 **DEFINED BENEFIT PENSION PLAN - FIREMEN AND POLICEMEN (Continued)**

For determining the total pension liability, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2018 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2020. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Plans target asset allocation as of December 31, 2020, are summarized in the following table.

Asset Class	Target Allocation	Long Term Expected Rate of Return
Global Equity	39%	8.23%
Equity Long/Short	8%	6.87%
Private Market	26%	10.63%
Fixed Income	10%	4.01%
Absolute Return	5%	5.25%
Managed Futures	10%	5.60%
Cash	2%	2.32%
Total	100%	

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2021

NOTE 7 **DEFINED BENEFIT PENSION PLAN - FIREMEN AND POLICEMEN (Continued)**

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Fire & Police Pension Association Board of Director's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00 percent; the municipal bond rate is 2.75 percent (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00 percent.

Regarding the sensitivity of the net pension liability/(asset) to changes in the Single Discount Rate, the following presents the plan's net pension liability/(asset), calculated using a Single Discount Rate of 7.00 percent, as well as what the plan's net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher.

	1.00% Decrease*	Current Discount Rate*	1.00% Increase*
Department's proportionate share of the net pension liability/(asset)	18,986	(18,866)	(50,212)

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued Fire & Police Pension Association of Colorado financial report.

NOTE 8 **CONTINGENCIES - TAX, SPENDING AND DEBT LIMITATIONS**

In November 1992, the voters of Colorado approved Amendment 1, commonly known as the Taxpayer's Bill of Rights (TABOR), which adds a new Section 20 to Article X of the Colorado Constitution. TABOR contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 8 CONTINGENCIES - TAX, SPENDING AND DEBT LIMITATIONS (Continued)

The initial base for local government spending and revenue limits is 1992 Fiscal Year Spending. Future spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These Reserves must be at least 1% of Fiscal Year Spending (excluding bonded debt service) in 1993, 2% in 1996 and 3% thereafter. Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

TABOR requires, with certain exceptions, voters approval prior to imposing new taxes, increasing a tax rate, increasing a mill levy above that for the prior year, extending an expiring tax, or implementing a tax policy change directly causing a net tax revenue gain to any local government.

Except for bond refinancing at lower interest rates or adding employees to existing pension plans, TABOR specifically prohibits the creation of multiple-fiscal year debt or other financial obligations without voter approval or without irrevocably pledging present cash reserves for all future payments.

The Town's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits (and qualification as an Enterprise) will require judicial interpretation.

On April 2, 1996, the authorized voters of the Town of La Veta voted to authorize the Town to collect, retain and expend all revenues and other funds collected from any source, notwithstanding the limitations of Article X, Section 20 of the Colorado constitution, provided that no local tax rate or mill levy shall be increased without further voter approval.

NOTE 9 RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees, or acts of God.

The Town maintains commercial insurance for all risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

NOTE 10 CONTINGENCIES

There are no contingent liabilities payable at December 31, 2021.

NOTE 11 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The governmental funds balance sheet includes reconciliation between *fund balances – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. Additionally, the governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total government funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 11 RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
(Continued)

These reconciliations detail items that require adjustment to convert from the current resources measurement and modified accrual basis for governmental fund statements to the economic resources measurement and full accrual basis used for government-wide statements. However, certain items having no effect on measurement and basis were eliminated from the government fund statements during the consolidation of governmental activities.

	<u>Items Eliminated</u>	
	<u>Due To</u>	<u>Due From</u>
General Fund	21,011	-
Museum Fund	-	21,011

NOTE 12 PENSION TRUST FUND

The balance remaining in the Pension Trust Fund is from prior years contributions for people who are no longer eligible or who never met the vesting requirements to receive pension benefits. The Town currently has no employees receiving benefits through this fund and will not in the future as the police retirement is now funded through FPPA. The Town can request permission to use these collective contributions for current and future requirements.

NOTE 13 CHANGE IN COMPENSATED ABSENCES

Below are the changes in compensated absences by fund for the year ended December 31, 2021.

<u>Fund</u>	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
General	20,336	1,916	-	22,252
Water	8,232	3,130	-	11,362
Sewer	<u>8,232</u>	<u>3,130</u>	-	<u>11,362</u>
	<u>36,800</u>	<u>8,176</u>	-	<u>44,976</u>

NOTE 14 INTERFUND BALANCES AND TRANSFERS

	<u>Due From</u>	<u>Due To</u>	<u>Transfer In</u>	<u>Transfer Out</u>
General Fund	-	21,011	-	-

Sewer Fund	-	-	-	-
Pension Trust Fund	-	-	-	-
	<u>21,011</u>	<u>21,011</u>	-	-

Due To and Due From balances are the result of operating expenditures being paid on behalf of other funds. These amounts are expected to be repaid within the year.

TOWN OF LA VETA, COLORADO
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 15 DEFINED CONTRIBUTION PLAN

All Town employees not eligible for FPPA participate in the Towns 401K plan which is managed by Vanguard. The Town contributes 4% for all employees who do not contribute individually to the plan and 6% for all employees who do make a contribution. There is no waiting period for employees to participate and there are no vesting terms or forfeitures associated with the plan. During 2021, employees contributed \$5,308 to the plan which was appropriately funded by the Town recognizing \$13,219 in pension expense for the year. There was no employer liability outstanding related to this plan at December 31, 2021.

NOTE 16 PRIOR PERIOD CORRECTION

The Museum Fund had recognized a grant receivable of \$32,376 in a prior year that was not available to be recorded into revenue.

The Museum Fund also recognized \$24,615 in sales tax in 2020 which was above the \$100,000 annual limit to the fund, and no payable to general fund was recorded.

The General Fund did not recognize the \$24,615 of sales tax owed to them from the museum fund in a prior year.

Adjustments to fund balances / net assets:

Museum Fund	\$ (32,376)
Museum Fund	<u>\$ (24,615)</u>
	\$ (56,991)
General Fund	<u>\$ 24,615</u>
