INDEPENDENT AUDITORS' REPORT

Board of Trustees
Town of Platteville
Platteville, Colorado

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Platteville (the Town) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Town of Platteville, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and

fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, GASB required pension and OPEB schedules, and budgetary comparison schedules as listed in the table of contents be presented to supplement the

basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The accompanying combining and individual nonmajor fund financial statements, budgetary comparison schedules, schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the local highway finance report are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary comparison schedules, the schedule of expenditures of federal awards, and the local highway finance report are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 6, 2022, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Town of Platteville, Colorado Management's Discussion and Analysis

As management of the Town of Platteville (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended December 31, 2021. We encourage readers to consider the information presented here in conjunction with the Town's financial statements.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the Town exceeded its liabilities and deferred inflows of resources at the close of 2021 by \$29,555,685 (*net position*). Of this amount, \$3,916,357 (*unrestricted net position*) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net position increased by \$2,631,889.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$2,726,411.

OVERVIEW OF THE FINANCIAL STATEMENTS

This management discussion and analysis ("MD&A") is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flow in future fiscal period (e.g., uncollected taxes and earned but unused vacation and sick leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety, public works, community development, culture, parks, and recreation, cemetery, and library. The business-type activities of the Town include sewer and water operations.

Town of Platteville, Colorado Management's Discussion and Analysis

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. During the year the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet and only revenues that are available within 60 days are recorded in the Statement of Revenues, Expenditures and Changes in Fund Balance.

The governmental funds statements provide a detailed short-term view of governmental fund operations and the basic services it provides. These statements help you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The differences between governmental activities reported in the statement of net position and the statement of activities and governmental funds are described in the accompanying reconciliations. The basic governmental fund financial statements can be in the following report as listed in the table of contents.

Proprietary funds. The Town maintains one type of proprietary fund, enterprise fund. The Town uses enterprise funds to account for its water and sewer operations.

The proprietary funds are prepared using the economic resources measurement focus and the accrual basis of accounting. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operating of the Town are included in the statement of net position. The basic proprietary funds financial statements can be in the following report as listed in the table of contents.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in the following report as listed in the table of contents.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required and other supplementary information concerning the Town's combining financial statements for non-major funds, the budget comparison statements for non-major and enterprise funds.

Financial Analysis

The largest portion of the Town's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related accumulated depreciation and debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Unrestricted net position may be

Town of Platteville, Colorado Management's Discussion and Analysis

used to meet the Town's ongoing obligations to citizens and creditors. Our analysis below focuses on the net position of the Town's governmental and business-type activities.

Condensed Statement of Net Position

	Governmental Activities		Business-type Activities		Primary Government	
	2021	2020	2021	2020	2021	2020
Current and Other Assets	\$ 10,292,599	\$ 9,439,819	\$ 3,829,626	\$ 3,468,039	\$ 14,122,225	\$ 12,907,858

This foregoing information is a summary of the financial information contained in the Town's financial statements. For more about the information contained in this condensed, comparative financial information, we recommend a close review of the accompanying audited financial statements as listed in the table of contents.

Discussion of Financial Position and Operating Activities Net position at the end of December 2021 was \$18,306,554 for the governmental activities, \$11,249,131 for the business-type activities and \$29,555,685 for the primary government. This increase is from revenues that exceeded expenses by \$2,631,889 for the primary government. The primary driver of the change was increased grants.

Town of Platteville, Colorado Management's Discussion and Analysis

The Town restricted three percent (3%) of its general revenues for emergencies in accordance with TABOR requirements. The Town had a TABOR reserve of \$165,000 at December 31, 2021.

The Town's total assets are comprised primarily cash and equivalents, receivables for utility services and tax revenues, investments and long-term capital assets. The Town's total liabilities are comprised primarily of accounts payable relating to ongoing operations, accrued vacation and pension related liabilities.

In 2021, program expense exceeded program revenues by \$826,669 for the primary government. This was offset by net general revenues of \$3,458,558, which resulted in an overall increase in net position. See the accompanying Financial Statements for details of these revenues and expenses.

Fund Discussion

Governmental Funds

The General Fund balance increased from \$3,185,306 in 2020 to \$3,300,571 in 2021. The primary reason for these changes were due increased revenues and conservative spending. The fund balance includes \$165,000 of restricted amounts \$1,362 of nonspendable, and \$407,798 assigned for expenditure in 2021. The assets and liabilities are comprised primarily of cash and receivables to be collected in 2021. As of December 31, 2021, the Town's combined fund balance for all governmental funds was \$8,194,026. This is a decrease of \$26,981.

The major funds of the Town consisted of the General fund, Library fund, and the Capital Improvement fund. The primary revenues for these funds were grants, taxes and intergovernmental revenues. In 2021 the General Fund had a net increase in total revenues as many revenue sources increased in 2021 over 2020. The Town continues to strive to find additional revenue sources in order to provide a larger diversity of revenues during economic downturns.

General Fund Budgetary Discussion

Actual revenues for 2021 were \$418,519 more than budgeted. Actual expenditures for 2021 were \$431,047 less than the final budget primarily because of conservative spending on the part of staff. See the accompanying financial statements for more detail. The general fund budget was amended in 2021.

Proprietary Fund

The Water Fund net position increased from \$7,567,618 in 2020 to \$7,615,895 in 2021. Deferred inflows of resources and deferred outflows of resources fluctuated due to changes in pension and OPEB related amounts. The assets and liabilities are comprised primarily of cash, water accounts receivable and capital assets. Actual revenues for 2021 were \$48,926 less than the budgeted amount. Actual expenditures for 2021 were \$10,056 less than the budgeted amount. See the accompanying financial statements for more detail. The budget was not amended in 2021.

The Sewer Fund net position increased from \$2,772,230 in 2020 to \$3,633,236 in 2021. The assets and liabilities are comprised primarily of cash, sewer accounts receivable and capital assets. Actual revenues for 2021 were \$486,234 more than the budgeted amount. Actual expenditures for 2021 were equal to the final budgeted amount. See the accompanying financial statements for more detail. The budget was amended in 2021.

Town of Platteville, Colorado Management's Discussion and Analysis

Capital Assets and Long-term Obligations

Capital Assets. At the end of 2021 the Town had \$21,800,277 net of depreciation, invested in a broad range of capital assets including major infrastructure such as buildings, roads, bridges, storm water drainage, parks and recreation facilities and water lines and distribution systems. More detailed information on the Town's capital assets is presented in detail in the no financial statements.

Long-term Debt. During the year the Town obtained a loan for the sewer fund from the State Revolving Fund (SRF) to be used for the construction of the wastewater treatment plant. The project was still underway as of December 31, 2021 and the final amount of the debt is unknown at this point.

ECONOMIC FACTORS AND BUDGET OVERVIEW

The annual budget assures the efficient, effective, and economic use of the Town's resources as well as establishing that highest priority objectives are accomplished. Through the budget, the Board of Trustees (the "Board") sets the direction of the Town, allocates its resources, and establishes its priorities. The following commentary discusses many of the factors affecting the budget in 2021 and the next few years.

The Town will focus on improving the Downtown Business Town and is working with Xcel Energy and CDOT to pursue improvements along Main Street. The development of a Platteville Business Association in partnership with the Town has the potential of increasing retail and commercial business opportunities in the community.

The Platteville Energy Park was developed in 2013 and has benefited Platteville by providing a larger property tax base along with several hundred more employees working in the community. As of 2021 all industrial lots in the Platteville Energy Park have been either sold or leased for development.

For many years Platteville has relied on oil & gas exploration and production to provide both revenues and job creation for the community. Approximately 90% of all industrial properties in the community either support or rely on the oil & gas industry a large percentage of the population work in the oil & gas industry. Due to unpredictable economic trends this industry is not considered a reliable source of revenue for the Town and pursuing other revenue sources is vital for long-term sustainability.

Contacting the Town

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Office, 400 Grand Avenue, Platteville, CO 80651.

Town of Platteville, Colorado
Notes to Financial Statements
December 31, 2021

Note 1 Summary of Significant Accounting Policies

Financial Reporting Entity

The Town of Platteville, Colorado (the "Town") was founded in 1876 as a statutory town. The Town's major operations include general government, public safety, public works, library, culture, parks, and recreation.

The Governmental Accounting Standards Board (GASB) is the authoritative body and the Town follows all GASB accounting pronouncements, which provides guidance for determining which governmental activities, organization and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency. The Town is not financially accountable for any other organization, nor is the Town a component unit of any other primary governmental entity.

Basis of Presentation

The Town's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the Town as a whole. These statements include the financial activities of the primary government.

The statement of net position presents the financial position of the governmental and business-type activities at the end of the year. The statement of activities presents a comparison between program expenses and the program revenue for each program or function of the primary government activities. Program expenses are those that are specifically associated with a service, program or department; and therefore, clearly identifiable to a particular function. Program revenue includes charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenue are presented as general revenue of the Town, with certain limited exceptions. The comparison of program expenses with program revenue identifies the extent to which each function is self-financing or draws from the general revenue of the Town.

Fund Accounting

During the year the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Town at this more detailed level. The focus of governmental fund financial statements is on major funds.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 1 Summary of Significant Accounting Policies (Continued)

The accounts of the Town are organized on the basis of funds each of which is considered a separate accounting entity. In the fund financial statements, the Town reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the Town. It is used to account for all financial activities except those required to be accounted for in another fund.

Library Fund – The Library Fund is a special revenue fund and accounts for the collection and disbursement of funds related to the library system.

Capital Improvement Fund – The Capital Improvement Fund is a special revenue fund and accounts for the collection and disbursement of 1% sales tax to be used to fund improvements within the Town.

Enterprise Funds are used to account for operations that are financed in a manner similar to private business enterprises where the intent of the governing body is that the costs of providing goods or services to the general public be recovered primarily through user charges. The Town reports the following major enterprise funds:

Sewer Fund – The Sewer Fund accounts for the costs related to providing sewer services to the Town.

Water Fund – The Water Fund accounts for the costs related to providing water services to the Town.

Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the Town are included in the statement of net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet and only revenues that are available within 60 days are recorded in the Statement of Revenues, Expenditures and Changes in Fund Balance.

The Statement of Revenues, Expenditures, and Changes in Fund Balance reports on the sources (revenue and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Proprietary funds, which include enterprise funds, are accounted for using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recorded when incurred. Depreciation is computed and recorded as an operating expense. Expenditures for capital outlay are recognized as increases in capital assets.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 1 Summary of Significant Accounting Policies (Continued)

Revenue

Revenue resulting from exchange transactions, in which each party gives and receives essentially the same value, is recorded on the accrual basis, when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are both measurable and available to finance expenditures of the fiscal period, which is typically within sixty days of realization.

Non-exchange transactions, in which the Town receives value without directly giving value in return, include sales taxes, grants, entitlements and donations. Revenue from sales tax is recognized in the fiscal year for which the taxes are collected by the vendor. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Program revenues consist of revenues that are associated with the governmental services such as licenses, permits and water sales.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the fund liability is incurred, if measurable. Allocations of costs, such as depreciation and amortization, are not recognized in governmental funds.

Property Taxes

Property taxes attach an enforceable lien on property as of January 1st. Taxes are levied on January 1st and are payable either in one installment on or before April 30th, or in two installments due on or before February 28th and June 15th of each year. The collections and assessments are done by Weld County and are remitted to the Town monthly. Property taxes, which are due to be paid in the next period and representing an enforceable lien at January 1st of the next year, have been recorded as a receivable and a deferred inflow of resources in the year in which they are levied. Property tax revenues are recognized when they are collected by Weld County.

Assets, Deferred Outflows of Resources, Liabilities and Deferred Inflows of Resources

Cash and cash equivalents - The Town follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based on each fund's average equity balance in total cash. The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with maturities of 90 days or less at the date of their acquisition.

Investments – investments are recorded at net asset value.

Receivables – all receivables are reported at their book value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital assets - are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capitalized assets are defined by the Town as assets that have a useful life of more than one year and exceed \$5,000:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 1 Summary of Significant Accounting Policies (Continued)

	Governmental Activities	Business-type Activities
	Estimated Lives	Estimated Lives
Land and water rights	N/A	N/A
Museum Collection	N/A	N/A
Buildings	20-50 years	N/A
Improvements other than buildings	10-50 years	N/A
Equipment	5-10 years	5-10 years
Utility systems	N/A	25-50 years
Infrastructure	35 years	N/A

Capital assets are recorded at acquisition cost except for those assets which have been contributed, which are stated at estimated acquisition cost at the date of contribution or at developer's cost. Depreciation is computed using the straight-line method over the asset's estimated economic useful life. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Public domain assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are examples of infrastructure assets. Infrastructure assets are distinguished from other capitalized assets since their useful life often extends beyond most other capital assets and are stationary in nature. General infrastructure assets are those associated with or arising from governmental activities.

Impairment of Capital Assets

GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, ("GASB No 42"), establishes accounting and financial reporting standards for impairment of capital assets. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. The Town is required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Management of the Town has determined that there are no indications of impairment of capital assets as of December 31, 2021.

Long-Term Obligations

In the government-wide financial statements and enterprise fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or enterprise fund type statement of net position. Bond issuance costs are expensed during the current period. Bond premiums and discounts are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances and discounts are reported as other financing sources. The issuance costs related to the debt is reported as an expenditure in the current period.

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 1 Summary of Significant Accounting Policies (Continued)

Compensated absences – The Town reports compensated absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. Personal leave benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services rendered and it is probable that the Town will compensate the employees for the benefits earned. Upon termination of employment from the Town, an employee will be compensated for all accrued vacation, holiday and compensatory time at their current rate of pay, there is no payment for sick leave upon termination. Amounts of vested or accumulated vacation and holiday pay that are not expected to be liquidated with expendable available financial resources are reported on the government-wide financial statements and in the proprietary fund statements.

Deferred outflows of resources- In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is a consumption of net position by the Town that is applicable to a future reporting period. The Town has four items that qualify as a deferred outflow of resources. A deferred outflow of resources related to GASB Statement No. 68, 75 and 83 has been recorded as of December 31, 2021. See note 6 and note 9 for further information on these items.

Deferred inflow of resources- In addition to liabilities, the statement of net position will sometimes report separate sections for deferred inflows of resources. A deferred inflow of resources is an acquisition of net position by the Town that is applicable to a future reporting period. The Town has three items that qualify for reporting as deferred inflows of resources. Property tax revenue is considered a deferred inflow of resources in the year the taxes are levied and measurable, and are recognized as an inflow of resources in the period they are collected. A deferred inflow related to GASB Statement No. 68 and 75 has been recorded as of December 31, 2021. See note 6 for further information on these items.

Net Position

Equity is classified as net position and displayed in three components:

Net Investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position – consists of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The Town utilizes restricted net position before utilizing unrestricted net position when an expense is incurred for both purposes.

Unrestricted net position – all other net position that do not meet the definition of “restricted” or “net investment in capital assets.” The net position is available for future operations or distributions.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 1 Summary of Significant Accounting Policies (Continued)

Fund Balance

Nonspendable - consists of amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The nonspendable fund balance was \$1,362 at December 31, 2021 relating to prepaid items.

Restricted - General Fund - Article X, Section 20 of the Constitution of the State of Colorado (TABOR) requires the Town to establish Emergency reserves (see Note 7). A reservation of \$165,000 of the General Fund balance has been made in compliance with this requirement. Additionally, the Town has \$1,588,430 restricted for maintenance, training, and capital projects within the town, and \$3,022,204 for libraries.

Committed- Committed fund balance includes those items which can be used for specific purposes pursuant to constraints imposed by formal action of the Board of Trustees. Those committed amounts cannot be used for any other purpose unless the Board of Trustees formally removes or changes the specified uses. The Town had a committed fund balance of \$282,821 as of December 31, 2021 for capital improvements and parks.

Assigned – Includes all amounts that are constrained by the Town's intent to be used for a specific purpose but are neither committed nor restricted. The assignment of these balances must occur through a formal action of the Board of Trustees. As of December 31, 2021, the assigned fund balance was \$407,798.

Unassigned- consists of the residual classification for each fund. This represents amounts that have not been assigned to other funds and that has not been restricted, committed, or assigned for specific purposes.

The Town has not adopted fund balance policies; therefore, the Town follows the guidance in accordance with GASB 54 and apply resources in the following order: restricted, committed, assigned and unassigned.

Interfund Transactions

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. At year-end outstanding balances are reported as due to / due from other funds. All interfund transfers are reported as transfers. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

Budgets and Budgetary Accounting

Budgets are adopted on a cash basis except for accrual of current vendor invoices and utility billings. Annual appropriated budgets are adopted for the fund. All annual appropriations lapse at fiscal year-end.

The Town adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 1 Summary of Significant Accounting Policies (Continued)

- Budgets are required by state law for all funds. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year-end.
- Prior to December 31, the budget is adopted by formal resolution.
- Budgets are required to be filed with the State of Colorado within thirty days after the beginning of the fiscal year.
- Expenditures may not legally exceed appropriations at the fund level.
- The Town Board must approve revisions that alter the total expenditures of any fund.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted by the Town Board or revised by the Town Board.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2 Cash and Investments

Cash Deposits

The Town maintains a cash pool that is available for use by all funds. Each fund's portion of the pool is displayed on the combined balance sheet as "Cash and Cash equivalents". As of December 31, 2021, the Town's cash deposits had a carrying balance of \$1,030,746 with a corresponding bank balance of \$1,095,935 of which \$308,361 is federally insured.

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is specified under the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The Town had \$787,574 collateralized under PDPA.

The Colorado Divisions of Banking and Financial Services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

A summary of cash and cash equivalents at December 31, 2021 is as follows:

Cash deposits	\$ 1,030,746
Cash with County Treasurer	5,784
COLOTRUST	10,920,261
Total cash and cash equivalents	\$ 11,956,791

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 2 Cash and Investments (Continued)

The above amounts are classified in the statements of net position as follows:

Unrestricted Cash and Cash Equivalents

Governmental activities	\$ 3,912,730
Business-type activities	3,175,057

Restricted Cash and Cash Equivalents

Governmental activities	4,647,436
Business-type activities	221,568
Total	<u>\$ 11,956,791</u>

Restricted cash consists of cash received for future investment in infrastructure in both the governmental funds and the proprietary funds.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town does not have a deposit policy for custodial credit risk. As of December 31, 2021, none of the Town's bank deposits were exposed to custodial credit risk.

Investments

Colorado statutes specify in which investment instruments the units of local government may invest:

- Obligations of the United States and certain United States government agency securities, and World Bank.
- Certain international agency securities.
- General obligation and revenue bonds of United States local government entities.
- Bankers' acceptances of certain banks.
- Commercial paper.
- Local government investment pools.
- Written repurchase agreements collateralized by certain authorized securities.
- Certain money market funds.
- Guaranteed investment contracts.

The Town's investment policy is to hold investments until maturity and mirrors State statute. At December 31, 2021 Town had \$10,920,261 invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAM by Standard & Poor's and is measured at net asset value (NAV). There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

Note 5 Long-Term Debt

On May 28, 2021 the Town entered into a loan agreement with the Colorado Water Resources and Power Development Authority through the State Revolving Fund program. The note has a maximum draw amount of \$6,300,000, carries an interest rate of 2.25% and is payable over 30 years. The Town has the right to draw on the loan in order to fund the construction of the wastewater treatment plant. At the conclusion of the construction project any un-used proceeds will not be drawn and the loan will be re-amortized. At December 31, 2021 the balance of the loan was \$1,311,301. The note is subject to certain covenants related to rates and reserve requirements, all of which the Town was in compliance with at December 31, 2021. The Town has pledged all gross revenue less operation and maintenance expenses (net revenue) as collateral for the loan. Due to the terms of the note future minimum payments cannot be calculated, and a schedule will be provided once it can be determined. As of December 31, 2021, the Town incurred and submitted for reimbursement \$1,288,872 of costs under the loan program which were not received as of December 31, 2021 and therefore, will be reported as additions in fiscal year 2022

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (OPEB)
Summary of Significant Accounting Policies

The Town of Platteville participates in the Local Government Division Trust Fund (LGDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the LGDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

The Colorado General Assembly passed significant pension reform through Senate Bill (SB) 18-200: Concerning Modifications To the Public Employees' Retirement Association Hybrid Defined Benefit Plan Necessary to Eliminate with a High Probability the Unfunded Liability of the Plan Within the Next Thirty Years. The bill was signed into law by Governor Hickenlooper on June 4, 2018. SB 18-200 made changes to certain benefit provisions.

General Information about the Pension Plan

Plan description. Eligible employees of the Town of Platteville are provided with pensions through the LGDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided as of December 31, 2021. PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions provisions as of December 31, 2021 Eligible employees and the Town of Platteville are required to contribute to the LGDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* and § 24-51-413. Employee contribution rates for the period are summarized in the table below:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Eligible employees are required to contribute 8.5% of their PERA includable salary during the period of January 1, 2021 through December 31, 2021,

The employer contribution requirements for all employees other than State Troopers are summarized in the table below:

	January 1, 2021 Through June 30, 2021	July 1, 2021 Through December 31, 2021
Employer contribution rate	10.50%	10.50%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51-208(1)(f)	(1.02)%	(1.02)%
Amount apportioned to the LGDTF	9.48%	9.48%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411	2.20%	2.20%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411	1.50%	1.50%
Defined Contribution Supplement as specified in C.R.S. § 24-51-415	0.02%	0.02%
Total employer contribution rate to the LGDTF	13.20%	13.20%

**Contribution Rates for the LGDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the LGDTF in the period in which the compensation becomes payable to the member and the Town of Platteville is statutorily committed to pay the contributions to the LGDTF. Employer contributions recognized by the LGDTF from Town of Platteville were \$144,193 for the year December 31, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2021 the Town of Platteville reported a liability of \$786,456 for its proportionate share of the net pension liability. The net pension liability for the LGDTF was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019. Standard update procedures were used to roll-forward the total pension liability to December 31, 2020.

The Town of Platteville proportion of the net pension liability was based on Town of Platteville contributions to the LGDTF for the calendar year 2020 relative to the total contributions of participating employers to the LGDTF.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

At December 31, 2020, the Town of Platteville proportion was .1509142170 percent, which was an increase of .0015960498 from its proportion measured as of December 31, 2019.

For the year ended December 31, 2021, the Town of Platteville recognized pension expense (income) of \$(40,735). At December 31, 2021, the Town of Platteville reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$38,024	\$0
Changes of assumptions or other inputs	190,056	0
Net difference between projected and actual earnings on pension plan investments	0	850,508
Changes in proportion and differences between contributions recognized and proportionate share of contributions	9,745	0
Contributions subsequent to the measurement date	144,193	N/A
Total	\$382,018	\$850,508

\$144,193 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31,	
2022	\$(88,380)
2023	(101,767)
2024	(288,307)
2025	(134,229)
2026	0
Thereafter	\$0

Actuarial assumptions. The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50%–10.45%
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (compounded annually)	1.25%
PERA benefit structure hired after 12/31/06 ¹	Financed by the AIR

¹ Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

The mortality assumption for disabled retirees was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019, revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020, and were effective as of December 31, 2020. The assumptions shown below were reflected in the roll forward calculation of the total pension liability from December 31, 2019, to December 31, 2020.

Actuarial cost method	Entry age
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increases, including wage inflation:	
Members other than State Troopers	3.20%-11.30%
State Troopers ¹	3.20%-12.40%
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (compounded annually)	1.25%
PERA benefit structure hired after 12/31/06 ²	Financed by the AIR

¹ C.R.S. § 24-51-101 (46), as amended, expanded the definition of "State Troopers" to include certain employees within the LGDTF, effective January 1, 2020. See Note 4 of the Notes to the Financial Statements in PERA's 2020 Annual Report for more information.

² Post-retirement benefit increases are provided by the AIR, accounted separately within each Division Trust Fund, and subject to moneys being available; therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

Salary scale assumptions were revised to align with revised economic assumptions and to more closely reflect actual experience.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. Pre-retirement mortality assumptions for Members other than State Troopers were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

- **Males:** 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- **Males:** 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

Disabled mortality assumptions for State Troopers were based upon the unadjusted PubS-2010 Disabled Retiree Table with generational projection using scale MP-2019. The mortality tables described above are generational mortality tables on a benefit-weighted basis.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020. As a result of the November 20, 2020, PERA Board meeting, the following economic assumptions were changed, effective December 31, 2020:

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives ¹	6.00%	4.70%
Total	100.00%	

¹ The Opportunity Fund's name changed to Alternatives, effective January 1, 2020.

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

Discount rate. The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increase in SB 18-200. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP position and the subsequent AIR benefit payments were estimated and included in the projections.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, LGDTF's FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

Sensitivity of the Town of Platteville proportionate share of the net pension liability to changes in the discount rate. The following presents the proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net pension liability	\$1,811,678	\$786,456	\$(69,473)

Pension plan fiduciary net position. Detailed information about the LGDTF's fiduciary net position is available in PERA's Annual Report which can be obtained at www.copera.org/investments/pera-financial-reports.

Voluntary Investment Program

Plan Description - Employees of the Town that are also members of the LGDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the Town to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available Annual Report which includes additional information on the Voluntary Investment Program. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy - The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. In addition, the Town of Platteville has agreed to match employee contributions up to 0 percent of covered salary as determined by the Internal Revenue Service. Employees are immediately vested in their own contributions, employer contributions and investment earnings. For the year ended December 31, 2021 program members contributed \$0 and Town of Platteville recognized pension expense and a liability of \$0 and \$0, respectively, for the Voluntary Investment Program.

Town of Platteville, Colorado

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)
Summary of Significant Accounting Policies

OPEB. The Town of Platteville participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the OPEB Plan

Plan description. Eligible employees of the Town of Platteville are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado

State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants Town to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided. The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

PERA Benefit Structure

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

Contributions

Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Town of Platteville is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the Town were \$11,088 for the year ended December 31, 2021.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2021 the Town of Platteville reported a liability of \$109,308 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2019. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2020. The Town of Platteville proportion of the net OPEB liability was based on Town of Platteville contributions to the HCTF for the calendar year 2020 relative to the total contributions of participating employers to the HCTF.

At December 31, 2020, the Town of Platteville proportion was .0115033064 percent, which was an increase of .0000757448 percent from its proportion measured as of December 31, 2019.

For the year ended December 31, 2021, the Town of Platteville recognized OPEB expense (income) of (9,271). At December 31, 2021, the Town of Platteville reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$290	\$24,031
Changes of assumptions or other inputs	816	6,704
Net difference between projected and actual earnings on OPEB plan investments	0	4,466
Changes in proportion and differences between contributions recognized and proportionate share of contributions	6,086	0
Contributions subsequent to the measurement date	11,088	N/A
Total	\$18,280	\$35,201

\$11,088 reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended December 31,	
2022	(6,248)
2023	(5,623)
2024	(6,565)
2025	(7,216)
2026	(2,704)
Thereafter	(172)

Actuarial assumptions. The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Actuarial cost method	Entry age
Price inflation	2.40%
Real wage growth	1.10%
Wage inflation	3.50%
Salary increases, including wage inflation	3.50% in aggregate
Long-term investment rate of return, net of OPEB plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Health care cost trend rates	
PERA benefit structure:	
Service-based premium subsidy	0.00%
PERACare Medicare plans	8.10% in 2020, gradually decreasing to 4.50% in 2029
Medicare Part A premiums	3.50% in 2020, gradually increasing to 4.50% in 2029

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2019, valuation, the following monthly costs/premiums (actual dollars) are assumed for 2020 for the PERA Benefit Structure:

Initial Costs for Members without Medicare Part A			
Medicare Plan	Monthly Cost	Monthly Premium	Monthly Cost Adjusted to Age 65
Medicare Advantage/Self-Insured Rx	\$588	\$227	\$550
Kaiser Permanente Medicare Advantage HMO	621	232	586

The 2020 Medicare Part A premium is \$458 (actual dollars) per month.

All costs are subject to the health care cost trend rates, as discussed below. Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2019, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates used to measure the total OPEB liability are summarized in the table below:

Year	PERACare Medicare Plans	Medicare Part A Premiums
2020	8.10%	3.50%
2021	6.40%	3.75%
2022	6.00%	3.75%
2023	5.70%	3.75%
2024	5.50%	4.00%
2025	5.30%	4.00%
2026	5.10%	4.00%
2027	4.90%	4.25%
2028	4.70%	4.25%
2029+	4.50%	4.50%

Mortality assumptions used in the December 31, 2019 valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Healthy mortality assumptions for active members were based on the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions were based on the RP-2014 Healthy Annuitant Mortality Table, adjusted as follows:

- **Males:** Mortality improvement projected to 2018 using the MP-2015 projection scale, a 73 percent factor applied to rates for ages less than 80, a 108 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 78 percent factor applied to rates for ages less than 80, a 109 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

The mortality assumption for disabled retirees was based on 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The actuarial assumptions used in the December 31, 2019, valuation were based on the results of the 2016 experience analysis for the period January 1, 2012, through December 31, 2015, as well as the October 28, 2016, actuarial assumptions workshop and were adopted by PERA's Board during the November 18, 2016, Board meeting.

Based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period of January 1, 2016, through December 31, 2019, revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020, and were effective as of December 31, 2020. The assumptions shown below were reflected in the roll forward calculation of the total OPEB liability from December 31, 2019, to December 31, 2020.

	Trust Fund			
	State Division	School Division	Local Government Division	Judicial Division
Actuarial cost method	Entry age	Entry age	Entry age	Entry age
Price inflation	2.30%	2.30%	2.30%	2.30%
Real wage growth	0.70%	0.70%	0.70%	0.70%
Wage inflation	3.00%	3.00%	3.00%	3.00%
Salary increases, including wage inflation:				
Members other than State Troopers	3.30%- 10.90%	3.40%- 11.00%	3.20%- 11.30%	2.80%-5.30%
State Troopers	3.20%- 12.40%	N/A	3.20%- 12.40% ¹	N/A

¹ C.R.S. § 24-51-101 (46), as amended, expanded the definition of "State Troopers" to include certain employees within the Local Government Division, effective January 1, 2020. See Note 4 of the Notes to the Financial Statements in PERA's 2020 Annual Report for more information.

The long-term rate of return, net of OPEB plan investment expenses, including price inflation and discount rate assumptions were 7.25 percent.

Rates of termination/withdrawal, retirement, and disability were revised to more closely reflect actual experience. Mortality assumptions used in the roll forward calculations for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the roll forward calculation for the HCTF, using a headcount-weighted basis.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Pre-retirement mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 94 percent of the rates prior to age 80 and 90 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 87 percent of the rates prior to age 80 and 107 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- **Males:** 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions for Members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

The mortality tables described above are generational mortality tables on a head-count weighted basis.

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2020 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by the Board's actuary, as discussed above.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020. As a result of the November 20, 2020, PERA Board meeting, the following economic assumptions were changed, effective December 31, 2020:

- Price inflation assumption decreased from 2.40 percent per year to 2.30 percent per year.
- Real rate of investment return assumption increased from 4.85 percent per year, net of investment expenses to 4.95 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.50 percent per year to 3.00 percent per year.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives ¹	6.00%	4.70%
Total	100.00%	

¹ The Opportunity Fund's name changed to Alternatives, effective January 1, 2020.

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

Sensitivity of the Town of Platteville proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates. The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

	1% Decrease in Trend Rates	Current Trend Rates	1% Increase in Trend Rates
Initial PERACare Medicare trend rate	7.10%	8.10%	9.10%
Ultimate PERACare Medicare trend	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.50%	3.50%	4.50%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Net OPEB Liability	\$106,482	\$109,308	\$112,596

Discount rate. The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2020, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the HCTF's FNP was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

Sensitivity of the Town of Platteville proportionate share of the net OPEB liability to changes in the discount rate. The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Proportionate share of the net OPEB liability	\$125,213	\$109,308	\$95,717

Detailed information about the HCTF's fiduciary net position is available in PERA's Annual Report which can be obtained at www.copera.org/investments/pera-financial-reports.

Statewide Defined Benefit Pension Plan

The Town contributes to the Statewide Defined Benefit Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the Colorado Fire and Police Pension Association (FPPA). The Statewide Defined Benefit Plan (SWDB) provides retirement benefits for members and beneficiaries. Death and disability coverage is provided for members hired prior to January 1, 1997 through the Statewide Death and Disability Plan, which is also administered by the FPPA. This is a noncontributory plan. All full-time, paid police officers of the Town are members of the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. Local revenue sources are responsible for funding of the Death and Disability benefits for firefighters hired on or after January 1, 1997.

Colorado statutes assign the Town to establish benefit provisions to the state legislature. FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for both the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. FPPA issues a publicly available comprehensive annual financial report that can be obtained on FPPA's website at <http://www.fppaco.org>.

Description of Benefits

A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member's combined years of service and age equals at least 80, with a minimum age of 50 (Rule of 80).

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members currently covered under Social Security will receive half the benefit when compared to the Statewide Defined Benefit Plan. Benefits paid to retired members are evaluated and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index.

A member is eligible for an early retirement at age 50 or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Contributions

The Plan sets contribution rates at a level that enables all benefits to be fully funded at the retirement date of all members. Contribution rates for the SWDB plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership. Members of the SWDB plan and their employers contributing at the rate of 10 percent and 8 percent, respectively, of base salary for a total contribution rate of 18 percent in 2020. In 2014, the members elected to increase the member contribution rate to the SWDB plan beginning in 2016. Member contribution rates will increase 0.5 percent annually through 2022 to a total of 12 percent of base salary. Employer contributions will increase .5 percent beginning in 2021 through 2030 until it reaches 13 percent of pensionable earnings. Contributions to the SWDB plan from the Town were \$46,162 for the year ended December 31, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2021, the Town reported a net pension asset of \$(140,802) for its proportionate share of the net pension liability (asset). The net pension liability was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2021. The Town's proportion of the net pension liability was based on the Town's share of contributions to the pension plan relative to the contributions of all participating entities. At December 31, 2020, the Town's proportion was .0648554886 percent, which was an increase of .0033639888 percent from its proportion measured as of December 31, 2019.

For the year ended December 31, 2021, the Town recognized pension income of \$7,478. At December 31, 2021, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:.

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between actual and expected experience	\$119,414	\$560
Changes in assumptions	59,885	0
Net difference between actual and projected earnings on pension plan investments	0	144,623
Net impact in change in proportionate share	16,411	18,164
Contributions subsequent to the measurement date	46,162	0
Total	\$241,872	\$163,347

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

\$46,162 in total reported as deferred outflows of resources related to pension resulting from Town's contributions subsequent to measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended	Pension Expense
2022	\$ (16,171)
2023	2,588
2024	(21,744)
2025	2,861
2026	25,509
Thereafter	39,319
Total	<u>\$ 32,362</u>

Actuarial Assumptions

The total pension liability in the January 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Total Pension Liability	Actuarial Determined Contributions
Actuarial Valuation Date	January 1, 2021	January 1, 2020
Actuarial Method	Entry Age Normal	Entry Age Normal
Amortization Method	N/A	Level % of Payroll, Open
Amortization Period	N/A	30 Years
Long-term Investment Rate of Return*	7.0%	7.0%
Projected Salary Increases*	4.25-11.25%	4.25-11.25%
Cost of Living Adjustments (COLA)	0.0%	0.0%

For determining the total pension liability and actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2020 are summarized in the following table:

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 6 Defined Benefit Pension Plan and Other Post Employment Benefits (Continued)

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
Global Equity	39.00%	8.23%
Equity Long / Short	8.00%	6.87%
Private Markets	26.00%	10.63%
Fixed Income - Rates	10.00%	4.01%
Fixed Income – Credit	5.00%	5.25%
Absolute Return	10.00%	5.60%
Cash	2.00%	2.32%
Total	100.00%	

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2018 meeting, the Board of Director reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2019. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00 percent; the municipal bond rate is 2.00 percent (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting single discount rate is 7.00 percent.

Sensitivity of the Town's Proportionate Share of the Net Pension Liability (asset) to Changes in the Discount Rate

The following presents the Town's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00 percent, as well as what the Town's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

Proportionate share of the net pension liability (asset)	<u>\$ 141,695</u>	<u>\$(140,802)</u>	<u>\$(374,744)</u>

Pension Plan Fiduciary Net Position

Detailed information about the SWDB's fiduciary net position is available in FPPA's comprehensive annual financial report, which can be obtained at <http://www.fppaco.org>.

Note 7 Tax, Spending, and Debt Limitation

Article X, Section 20 of the Colorado Constitution, The Taxpayer's Bill of Rights (TABOR), contains several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments. TABOR is complex and subject to judicial interpretation. The Town believes it is in compliance with the requirements of TABOR.

Spending and revenue limits are determined based on the prior year's fiscal year spending adjusted for allowable increases based upon inflation and local growth. Fiscal year spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the fiscal year spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish emergency reserves, which must be at least 3% of fiscal year spending, excluding bonded debt service. Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls or salary or benefit increases. This Town had an emergency reserve of \$165,000 at December 31, 2021.

Note 8 Risk Management

Risk Management Insurance Pool

The Town is self-insured for property and liability insurance. In order to mitigate risk, the Town is a member of the Colorado Intergovernmental Risk Sharing Agency ("CIRSA") and Colorado Intergovernmental Risk Sharing Agency Worker's Compensation ("CIRSA/WC"). CIRSA and CIRSA/WC have a legal obligation for claims against their members to the extent that funds are available in their annually established loss fund and amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. CIRSA and CIRSA/WC have indicated that the amount of any excess losses would be billed to members in proportion to their contributions in the years such excess occurs, although they are not legally required to do so. Additionally, the Town may receive credit on future contributions in the event of a surplus.

CIRSA has entered into various excess insurance contracts to limit large losses and minimize exposure on large risks. Excess of loss contracts in effect during 2021 limit CIRSA's per occurrence exposure to 100% of \$5,000,000 in excess of \$1,000,000 per claim for property coverage, and 100% of \$500,500,000 in excess of \$500,000 per claim for excess property coverage and provide coverage to specified upper limits. The excess of loss contract for workers' compensation coverage limits CIRSA's per occurrence exposure to \$500,000 for 2021 and provides coverage to statutory limits for the State of Colorado. The ultimate liability to the Town

Town of Platteville, Colorado
Notes to Financial Statements (Continued)
December 31, 2021

Note 8 Risk Management (Continued)

resulting from claims not covered by CIRSA and CIRSA/WC is not presently determinable. Management is of the opinion that the final outcome of such claims, if any, will not have a material adverse effect on the Town's financial statements. No settlements exceeded insurance coverage for each of the past three fiscal years.

Note 9 Certain Asset Retirement Obligations

During the year ended December 31, 2020 the Town implemented GASB Statement No. 83 *Certain Asset Retirement Obligations*. This statement requires the Town to record a liability and a deferred outflow of resources to account for the decommissioning of certain assets.

On March 30, 2019 the Colorado Department of Health and Environment (CDPHE) issued the town a new wastewater discharge permit with an updated compliance schedule for discharge limits to be effective May 1, 2023. The current sewer lagoon technology will be unable to meet these discharge limits. The Town is pursuing technology in order to be in compliance with the future compliance schedule, which will include decommissioning the sewer lagoon.

The town has estimated it will cost \$530,000 to decommission the sewer lagoon based on estimated costs provided by a third-party engineer. As a result of the CDPHE's updated discharge requirements the town has determined that the decommissioning of the sewer lagoon is subject to the provisions of GASB Statement No. 83, and has recorded a liability, and deferred outflow of resources in the amount of \$530,000 in the sewer fund. The town is amortizing this deferred outflow of resource using a straight-line approach over the estimated remaining useful life of 61 months from the date of the CDPHE notice. For the year ended December 31, 2021 the town recognized an expense related to this amortization of \$104,261.

Single Audit

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS*

Board of Trustees
Town of Platteville
Platteville, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Platteville (the Town), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated May 6, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM
GUIDANCE

Board of Trustees
Town of Platteville,
Platteville, Colorado

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Town of Platteville's (the Town) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on the Town's major federal program for the year ended December 31, 2021. The Town's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Town of Platteville complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Town's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Town's federal program.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Town's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Town's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Town's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Town's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The Adorno Group, LLC

Denver, Colorado
May 6, 2022

Town of Platteville, Colorado
Schedule of Expenditures of Federal Awards
