INDEPENDENT AUDITORS' REPORT

Board of Directors
Colorado Intergovernmental Risk Sharing Agency
Denver, Colorado

Report on the Audit of the Combined Financial Statements

Opinions

We have audited the accompanying combined statutory financial statements of Colorado Intergovernmental Risk Sharing Agency, which comprise the combined statutory statements of admitted assets, liabilities, and members' surplus as of December 31, 2021 and 2020, and the related combined statutory statements of income, unassigned surplus, and cash flow for the years then ended, and the related notes to the combined statutory financial statements.

Unmodified Opinion on Statutory Basis of Accounting Principles

In our opinion, the combined financial statements referred to in the first paragraph present fairly, in all material respects, the admitted assets, liabilities, and members' surplus of Colorado Intergovernmental Risk Sharing Agency as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended, in accordance with the financial reporting provisions prescribed or permitted by the Division of Insurance of the Department of Regulatory Agencies of the State of Colorado as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the *Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles* section of our report, the combined financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Colorado Intergovernmental Risk Sharing Agency as of December 31, 2021 and 2020, or the results of its operations or its cash flows for the years then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Combined Financial Statements* section of our report. We are required to be independent of Colorado Intergovernmental Risk Sharing Agency and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified audit opinion on the statutory basis of accounting and our adverse opinion on U.S. generally accepted accounting principles.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, the combined financial statements are prepared by Colorado Intergovernmental Risk Sharing Agency on the basis of the financial reporting provisions prescribed or permitted by the Division of Insurance of the Department of Regulatory Agencies of the State of Colorado, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the requirements of the Division of Insurance of the Department of Regulatory Agencies of the State of Colorado. The effects on the combined financial statements of the variances between the statutory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of the combined financial statements in accordance with the financial reporting provisions prescribed or permitted by the Division of Insurance of the Department of Regulatory Agencies of the State of Colorado, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Combined Financial Statements

Our objectives are to obtain reasonable assurance about whether the combined financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the combined financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the combined financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Colorado Intergovernmental Risk Sharing Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the combined financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Colorado Intergovernmental Risk Sharing Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the combined statutory basis financial statements as a whole. The reconciliation of reserves for unpaid losses and loss adjustment expenses, ten-year loss development information, supplemental investment information, summary investment schedule, and the combining schedules on pages 22 through 32 are presented for purposes of additional analysis and are not a required part of the combined statutory basis financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined statutory basis financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined statutory basis financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined statutory basis financial statements or to the combined statutory basis financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated in all material respects in relation to the combined statutory basis financial statements as a whole.

NOTES TO COMBINED STATUTORY FINANCIAL STATEMENTS**

December 31, 2021 and 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Colorado Intergovernmental Risk Sharing Agency

Colorado Intergovernmental Risk Sharing Agency (CIRSA or the Agency) was formed January 1, 1991, by the combination of the Colorado Intergovernmental Risk Sharing Agency Property and Casualty Pool (Property and Casualty Pool or CIRSA/PC) and the Colorado Intergovernmental Risk Sharing Agency for Workers' Compensation Pool (Workers' Compensation Pool or CIRSA/WC). The Property and Casualty Pool was originally formed January 1, 1982 to provide property and liability coverages and related services for its member municipalities. The Workers' Compensation Pool was originally formed January 1, 1988 to provide workers' compensation coverages and related services for its member municipalities. The combination was made pursuant to authorization by the board of directors and by a vote of the membership, and accordingly, the statutory financial statements are presented on a combined basis.

Membership in CIRSA is evidenced by execution of the Bylaws and Intergovernmental Agreement. At December 31, 2021, CIRSA membership consisted of 234 municipalities and 49 special districts. There were 280 members of the Property and Casualty Pool and 140 members of the Workers' Compensation Pool with 137 being members of both pools. At December 31, 2021, 199 member municipalities have populations of less than 10,000; 24 member municipalities have populations between 10,000 and 40,000; and 10 member municipalities have populations between 40,000 and 135,000. Based on earned premium, approximately 79% relates to property and casualty and 21% relates to workers' compensation coverage. CIRSA's general objectives are to provide member municipalities and special districts defined property and liability and/or workers' compensation coverages through joint self-insurance and excess insurance. Any member may withdraw from CIRSA by giving written notice to the board of directors of the prospective effective date of its withdrawal. Members may be admitted by a vote of the board of directors absent a membership request to deny admittance. CIRSA's rate-setting policies are established by the board of directors, in consultation with independent actuaries. The board of directors may credit members' future contributions if the board considers total net position exceeds business needs. Although it has never occurred, CIRSA member municipalities and special districts are subject to a supplemental assessment in the event of a deficiency. In addition to the coverage described above, the board of directors has authorized CIRSA to provide claims administration and loss control services to Colorado nonmember public entities. At December 31, 2021 and 2020, the Agency was not providing this service to any other nonmember public entity.

Basis of Presentation

The Property and Casualty Pool and Workers' Compensation Pool are accounted for separately for the purpose of identifying economic funds and member interests but are presented on a combined basis in the accompanying statutory financial statements. All inter-pool accounts and transactions have been eliminated.

The Agency prepares its statutory financial statements in accordance with accounting practices prescribed or permitted by the Division of Insurance of the Department of Regulatory Agencies of the State of Colorado (the Division). Prescribed statutory accounting practices are those practices that are incorporated directly or by reference to state laws, regulations, and general administrative rules applicable to all insurance enterprises domiciled in a particular state.

December 31, 2021 and 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Effective January 1, 2001, Colorado adopted the National Association of Insurance Commissioners' (NAIC) statutory accounting practices, which are codified in the NAIC's *Accounting Practices and Procedures Manual* (the Manual). Therefore, compliance with the Manual is a prescribed accounting practice.

Statutory accounting practices contained in the Manual vary in some respects from accounting principles generally accepted in the United States of America. The more significant statutory practices include: (1) contributions are taken into earnings over the periods covered by the policies, whereas the related acquisition costs are expensed when incurred; (2) bonds are carried at amortized cost instead of at fair value; (3) reinsurance transactions relating to the combined statutory statement of admitted assets, liabilities, and surplus are reported on a net basis rather than a gross basis; and (4) assets are included in the combined statutory statements of admitted assets, liabilities, and surplus at "admitted asset value," and "nonadmitted assets" are excluded through a charge against unassigned surplus. The effects on the combined financial statements of the variances between statutory accounting practices and accounting principles generally accepted in the United States of America are as follows:

	<u>2021</u>	<u>2020</u>
Statutory income, net	\$ 607,058	\$ 8,182,814
Net (decrease) increase in the fair value of investments	(1,772,595)	1,222,556
Distributions and credits to members and withdrawn members	<u>(1,138,217)</u>	<u>(957,174)</u>
GAAP change in net position	<u>\$ (2,303,754)</u>	<u>\$ 8,448,196</u>
Statutory unassigned surplus	\$ 55,536,923	\$ 55,239,664
Unrealized investment gains	194,085	1,966,680
Non admitted assets (Note 5)	<u>388,122</u>	<u>1,216,540</u>
GAAP members' net position	<u>\$ 56,119,130</u>	<u>\$ 58,422,884</u>

Use of Estimates

The preparation of statutory financial statements in accordance with accounting practices prescribed by the Division requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statutory financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates include the reserves for unpaid losses and loss adjustment expenses. Actual results could differ from those estimates.

Investments

Investments in debt securities consist of United States government and corporate obligations and are carried at amortized cost. Investments whose maturities at the time of acquisition are one year or less are classified as short-term investments.

The amortization of bond premium or discount is calculated using the effective interest method taking into consideration specified interest and principal provisions over the life of the bond.

Bonds containing call provisions are amortized to the call or maturity value or date, which produces the lowest asset value, in accordance with the Manual.

December 31, 2021 and 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

All investment income is recognized as revenue (or expense) in the combined statutory statements of income. Gains and losses on investments sold are realized in operations and are computed based on the specific-identification method.

Cash and Cash Equivalents

For purposes of the combined statutory statements of cash flow, cash and cash equivalents include cash on deposit, money market funds, and other investments with maturities of three months or less at the date of acquisition. The Agency's cash on deposit amounts are held in Colotrust and Wells Fargo accounts.

Cash deposits in non-interest bearing accounts are insured up to \$250,000 by the Federal Deposit Insurance Corporation for 2021 and 2020, respectively. At December 31, 2021 and 2020, the Agency's cash deposits in non-interest bearing accounts had balances of \$1,886,690 and \$7,433,805, respectively. Also, these amounts, in addition to cash deposits in interest bearing accounts, are collateralized by securities held by another institution or held in trust, as required by the provisions of the Public Deposit Protection Act.

Real Estate and Electronic Data Processing Equipment

Per the Agency's capitalization policy, expenditures greater than \$2,500 for items with a useful life in excess of a year, are capitalized. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. Depreciation expense is included in other underwriting expense incurred.

Real estate and electronic data processing equipment were reported as follows at December 31:

	2021			
	Cost	Accumulated Depreciation	Net	Depreciation Expense
Real estate	\$ 8,731,090	\$ 5,369,167	\$ 3,361,923	\$ 247,921
Electronic data processing equipment	456,368	285,537	170,831	60,649
Nonadmitted fixed assets	3,107,977	3,023,917	84,060	58,042
	2020			
	Cost	Accumulated Depreciation	Net	Depreciation Expense
Real estate	\$ 8,676,569	\$ 5,121,245	\$ 3,555,324	\$ 242,789
Electronic data processing equipment	533,648	416,483	117,165	32,246

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Member Contributions

Member contributions are earned on a pro rata basis over the applicable contract periods. The period over which risk protection is provided is generally consistent with the contract period, and the contract periods are consistent with the Agency's fiscal year-end. The members' coverages are continuous until canceled. Contributions greater than 90 days past due are nonadmitted in accordance with the Manual. The Agency considers anticipated investment income in determining if a premium deficiency exists.

Excess Insurance and Reinsurance

The cost of excess insurance and reinsurance coverage is charged to income ratably over the period of coverage and is reported as a reduction of member contributions earned. Losses, loss adjustment expenses, and the reserves for loss and loss adjustment expenses are reported net of reinsured amounts in accordance with the Manual.

Reserve for Unpaid Losses and Loss Adjustment Expenses

The reserve for unpaid losses and loss adjustment expenses represents the estimated liability for claims reported, plus claims incurred and not reported and the related loss adjustment expenses, including the effects of inflation and other societal and economic factors. The Agency does not discount reserves for unpaid losses and loss adjustment expenses. The reserve for unpaid losses and loss adjustment expenses is estimated by an independent third-party actuary using individual case-basis valuations and statistical analysis. Those estimates are subject to inherent variability caused by the nature of the insurance process. The potentially long period of time between the occurrence of an insured event and the final settlement of a claim and the possible effects of changes in the legal, social, and economic environments contribute to this variability. Although considerable variability is inherent in the estimates of ultimate losses and loss adjustment expenses and the resulting reserves, management believes that the reserves for unpaid losses and loss adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.

Income Taxes

The Agency provides an essential governmental function to its members as described in Section 115 of the Internal Revenue Code, and accordingly, its revenue is exempt from federal and state income taxes. The Agency has received a determination letter regarding its tax status from the Internal Revenue Service. Therefore, the accompanying combined statutory financial statements do not include a provision for income taxes.

Administration Fee

Most general and administrative expenses of CIRSA are recorded by CIRSA/PC, which charges an administration fee to CIRSA/WC for its share of these expenses. Administration fees, which were \$2,438,584 and \$2,428,816 during 2021 and 2020, respectively, are eliminated in the accompanying combined statutory financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Member Credits Payable

Each year, CIRSA's board of directors declares and allocates various credits to members. As of December 31, 2021, and 2020, member credits payable consisted of the following:

	<u>2021</u>	<u>2020</u>
Loss control credit accounts	\$ 1,376,075	\$ 1,207,526
Equity credits held for deductibles	<u>21,840</u>	<u>21,840</u>
	<u>\$ 1,397,915</u>	<u>\$ 1,229,366</u>

Loss Control Credit Accounts

The Loss Control Credit Accounts Program was designed to encourage members to establish and implement safety-related programs. During 2021 and 2020, the board of directors designated \$1,161,378 and \$960,232, respectively, to be allocated to members based on the results of an annual loss control audit performed by CIRSA. Members receive a "score" for loss control activities during the year and the total loss control credit is allocated to members based on this score. Members can apply their credit to future contributions, receive a cash payment, or receive loss control credits, which can be applied to the purchase of safety-related items. Undistributed amounts in loss control credit accounts were \$1,376,075 and \$1,207,526 at December 31, 2021 and 2020, respectively.

Surplus Credits Held for Deductibles

In prior years, the CIRSA board awarded equity credits for members of the property and casualty pool when the net position of the pool was considered to have exceeded business needs. Members may retain these distributions in the pools so that the credits can be applied against future deductible payments and the credits earn interest. Interest of \$0 and \$26 was credited in 2021 and 2020, respectively. The equity credits held for deductibles payable at December 31, 2021 and 2020 were \$21,840 and \$21,840, respectively. The equity credits to be paid to members were \$0 at December 31, 2021 and 2020.

Proceeds from the sales, calls and maturities of debt securities during 2021 and 2020 were approximately \$35,175,000 and \$16,518,000, respectively. Gross gains of \$44,087 and \$33,603, respectively, were realized on those sales and calls. Gross losses of \$1,089 and \$780, respectively, were realized on sales and calls.

At December 31, 2021 and 2020, bonds with a carrying value of \$510,234 and \$521,315, respectively, were pledged to the Division of Insurance of the State of Colorado to satisfy regulatory requirements.

The carrying amounts of other financial instruments at December 31, 2021 and 2020, which includes cash and cash equivalents, short-term investments, premiums receivable, interest and dividends due, and accrued accounts payable and accrued other expenses, and payables to affiliates, approximate their fair values because of the short maturity of these instruments.

U.S. Government Agency Obligations

Any unrealized losses in government securities are due to interest rate fluctuations. Because of the ability to hold to maturity, plus the credit quality of government securities, government obligation unrealized losses are considered temporary.

Corporate and Municipal Obligations

At December 31, 2021 and 2020, investment grade bonds held in the portfolio all had an AA- rating or higher upon purchase. All of the Agency's corporate bonds, municipal bonds, and commercial paper remain at or above these criteria as of December 31, 2021 and 2020.

All investments held by the Agency at December 31, 2021 and 2020 had an NAIC rating of 1 upon purchase which includes investments that are insured and registered or which are held by the Agency or its agent in the Agency's name.

Investment expenses	(130,300)	(89,945)
Net investment income	\$ 1,609,192	\$ 1,922,043

Rental income related to Agency-owned buildings occupied by the Agency during 2021 and 2020 was \$712,719 and \$695,978 respectively and is included in rental revenue above. The related expense is included in other underwriting expenses incurred on the combined statements of income.

NLC Mutual Insurance Company provided workers' compensation reinsurance to the Agency from 2002 through 2006 and property reinsurance from 2003 through 2006. NLC Mutual Insurance Company is also a risk pool, as is the Agency. To obtain the reinsurance, the Agency, therefore, was required to make a capital contribution to become a member of the NLC Mutual Insurance Company pool, in addition to regular premiums paid. The related capital contributions associated with NLC Mutual Insurance Company are presented as an investment at cost as of December 31, 2021, and 2020 for \$697,901 for both years, in accordance with the Manual.

Government Entities Mutual Inc. will provide liability reinsurance to the Agency in 2022. Government Entities Mutual Inc. is also a risk pool, as is the Agency. To obtain the reinsurance, the Agency was required to make a capital contribution to become a member of the Government Entities Inc. pool, in addition to regular premiums. The related capital contribution associated with Government Entities Mutual Inc. is presented as a deposit at cost of \$500,000 and \$0 as of December 31, 2021 and 2020, respectively.

Concentration of Credit Risk

State law limits investments in corporate bonds of any single issuer to five percent of the Agency's portfolio. No single issuer of corporate bonds represents more than five percent of the Agency's portfolio. However, more than 5 percent of the Agency's investments were invested as follows as of December 31:

	2021		2020	
Fannie Mae	\$ 5,194,811	7.27%	\$ 3,871,781	6.10%

NOTE 3 - EXCESS INSURANCE AND REINSURANCE (CONTINUED)

The Agency does not have a legal obligation to pay losses or loss adjustment expenses in excess of the annually established loss fund and amounts recoverable under excess specific and aggregate insurance contracts. Losses and loss adjustment expenses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members. However, the excess agreements do not relieve the Agency of its obligations, and a failure of the excess insurer to honor its obligations could result in losses to the Agency. The Agency evaluates and monitors the financial condition of its excess insurers to minimize its exposure to loss from excess insurer insolvency. Management of the Agency believes its excess insurers and reinsurers are financially sound and will continue to meet their contractual obligations.

Excess insurance and reinsurance has reduced member contributions earned and losses and loss adjustment expenses by the following amounts:

	<u>Year ended December 31,</u>	
	<u>2021</u>	<u>2020</u>
Member contributions earned		
Premiums paid	\$ 11,831,563	\$ 11,350,889

NOTE 4 - RESERVES FOR UNPAID LOSSES AND LOSS ADJUSTMENT EXPENSES

Beginning January 1, 1986, the Agency's coverage to member municipalities for all lines except for property, auto physical damage, and workers' compensation is on a claims-made basis. Accordingly, claims incurred in one year but not reported until a subsequent year are accounted for in the year reported. Claims incurred prior to January 1, 1986 are accounted for in the year of the loss occurrence. The following table provides a reconciliation of the beginning and ending reserve balances, net of excess insurance recoverable:

	<u>Year ended December 31,</u>	
	<u>2021</u>	<u>2020</u>
Reserves for unpaid losses and loss adjustment expenses, net of excess insurance recoverables, beginning of year	\$ 33,945,294	\$ 35,055,172
Add incurred loss and loss adjustment expenses, net of excess insurance:		
Provision for covered events of the current year	26,198,482	19,699,640
Decrease in provision for covered events of prior years	<u>(2,772,806)</u>	<u>(4,776,103)</u>
Total incurred losses and loss adjustment expenses, net of excess insurance	<u>23,425,676</u>	<u>14,923,537</u>
Deduct payments:		
For claims attributable to covered events of the current year	7,536,835	5,041,456
For claims attributable to covered events of prior years	<u>9,988,424</u>	<u>10,991,959</u>
Total payments	<u>17,525,259</u>	<u>16,033,415</u>
Reserves for unpaid losses and loss adjustment expenses, net of excess insurance recoverables, end of year	<u>\$ 39,845,711</u>	<u>\$ 33,945,294</u>

As a result of changes in estimates of insured events in prior years, the provision for loss and loss adjustment expenses decreased by \$2,772,806 and by \$4,776,103 in 2021 and 2020, respectively. The change in estimates resulted due to favorable development for losses incurred in years prior to 2021 and 2020, respectively.

The anticipated effect of inflation is implicitly considered when estimating liabilities for losses and loss adjustment expenses. While anticipated, price increases due to inflation are considered in estimating the ultimate claim costs, the increase in average severities of claims is caused by a number of factors that vary with the individual type of policy written. Future average severities are projected based on historical trends adjusted for implemented changes in underwriting standards, policy provisions, and general economic trends. Those anticipated trends are monitored based on actual development and are modified if necessary.

NOTE 5 - SURPLUS

Pursuant to the Agency's bylaws, the board of directors may, at their discretion, credit or distribute accumulated members' equity to member municipalities or transfer such accumulated excesses to a reserve fund that may be used to pay claims and expenses related thereto. Amounts credited or distributed to members are recorded as a charge to equity when they are declared.

The board of directors adopted a surplus policy, which sets forth a target formula for surplus. Surplus in excess of the computed target is considered by the Board for return to members. The target computation considers the amounts for the excess fund, a confidence level on the underlying loss funds, and an amount designated for purposes approved by the Board on an annual basis.

In 2021 and 2020, the board authorized the Agency to credit \$1,161,378 and \$957,174, respectively, to member municipalities and withdrawn members. At December 31, 2021 and 2020, \$1,397,915 and \$1,229,366 of credits remained undistributed, respectively. The undistributed amounts are included in member credits payable in the accompanying combined statutory statements of admitted assets, liabilities, and surplus. The surplus credits, and the related undistributed amounts, are applied to future deductibles, contributions, or loss control accounts in accordance with the requests of the member municipalities.

Pursuant to regulations of the Division of Insurance of the State of Colorado (the Division), the Agency is required to maintain minimum surplus of \$500,000. At December 31, 2021 and 2020, the Agency's statutory surplus was \$55,536,923 and \$55,239,664, respectively.

At December 31, 2021 and 2020, nonadmitted assets for statutory reporting purposes, which are shown as a reduction of unassigned surplus on the accompanying combined statutory statements of admitted assets, liabilities, and surplus, consisted of the following:

	<u>2021</u>	<u>2020</u>
Furniture, fixtures and equipment	\$ 3,107,977	\$ 3,083,828
Accumulated depreciation	(3,023,917)	(2,955,849)

NOTE 6 - LEASES

The Agency leases automobiles and office space in Montrose, Colorado under various noncancelable operating leases. Future minimum rental commitments under these operating leases are as follows:

Year ending December 31:

2022	\$	46,431
2023		28,298
2024		8,469

NOTE 7 - CONTINGENCIES

In the normal course of operations, the Agency is involved in litigation related principally to claims made under insurance contracts. Those actions are considered by the Agency in estimating the reserves for losses and loss adjustment expenses. In the opinion of management, the resolution of these matters will not have a material effect on the Agency's financial position, results of operations, or liquidity.

NOTE 8 - DEFINED CONTRIBUTION MONEY PURCHASE PENSION PLAN

The employees of the Agency participate in the Colorado Intergovernmental Risk Sharing Agency Retirement Plan, which is a defined contribution plan established by the Agency and is maintained and administered by Vanguard Fiduciary Trust Company. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees become plan members upon employment. Under this plan, 10% of the plan members' compensation is withheld and remitted to the Plan Administrator along with a matching payment of 10% from the Agency. The Agency's contributions, plus earnings, are 100% vested. There is no liability for benefits under the plan beyond the Agency's matching payments. Plan provisions and contribution requirements are established and may be amended by the Agency's board of directors.

Contributions actually made by plan members and the Agency for the years ended December 31, 2021 and 2020, which represents the 10% required contribution, are as follows:

	<u>2021</u>	<u>2020</u>
Plan members	<u>\$ 454,652</u>	<u>\$ 460,999</u>
Agency	<u>\$ 454,652</u>	<u>\$ 460,999</u>

SUPPLEMENTARY INFORMATION – WORKER'S COMPENSATION POOL
TEN-YEAR LOSS DEVELOPMENT INFORMATION**

December 31, 2021
(In Thousands of Dollars)

The following table illustrates how the Workers' Compensation Pool's (Pool) earned revenue (net of excess insurance) and investment income compare to related costs of loss (net of loss assumed by excess insurers) and other expenses assumed by the Pool as of the end of each of the previous ten years. The rows of the table are defined as follows:

- (1) This line shows the total of each year's gross earned member contributions and reported investment revenues, amounts of excess insurance\ premiums, and reported member contributions (net of excess insurance) and reported investment revenue.
- (2) This line shows each year's other operating costs of the Pool including overhead and claims expense not allocable to individual claims.
- (3) This line shows the Pool's gross incurred losses and allocated loss adjustment expense, losses assumed by excess insurers, and net incurred adjustment expenses (both paid and accrued) as originally reported at the end of the year in which the event that triggered coverage occurred (called coverage year).
- (4) This section of ten rows shows the cumulative net amounts paid as of the end of successive years, for each coverage year.
- (5) This line shows the latest reestimated amount of losses assumed by excess insurers for each coverage year.
- (6) This section of ten rows shows how each coverage year's net incurred losses increased or decreased as of the end of successive years. (This annual reestimation results from new information received on known losses, reevaluation of existing information on known losses, and emergence of new losses not previously known.)
- (7) This line compares the latest reestimated net incurred losses amount to the amount originally established (line 3) and shows whether this latest estimate of losses is greater or less than originally thought.

original estimates and reestimated amounts is commonly used to evaluate

the accuracy of net incurred losses currently recognized in less mature coverage years. The columns of the table show data for successive coverage years.

The following table illustrates how the Property and Casualty Pool's (Pool) earned revenue (net of excess insurance) and investment income compare to related costs of loss (net of loss assumed by excess insurers) and other expenses assumed by the Pool as of the end of each of the previous ten years.

The rows of the table are defined as follows:

- (4) This section of ten rows shows the cumulative net amounts paid as of the end of successive years, for each coverage year.
- (5) This line shows the latest reestimated amount of losses assumed by excess insurers for each coverage year.
- (6) This section of ten rows shows how each coverage year's net incurred losses increased or decreased as of the end of successive years. (This annual reestimation results from new information received on known losses, reevaluation of existing information on known losses, and emergence of new losses not previously known.)
- (7) This line compares the latest reestimated net incurred losses amount to the amount originally established (line 3) and shows whether this latest estimate of losses is greater or less than originally thought.

As data for individual coverage years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of net incurred losses currently recognized in less mature coverage years. The columns of the table show data for successive coverage years.
