INDEPENDENT AUDITOR'S REPORT

To the Board of Laredo Metro District

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Laredo Metro District as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Laredo Metro District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Laredo Metro District as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Laredo Metro District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Laredo Metro District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Laredo Metro District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Laredo Metro District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Laredo Metro District's basic financial statements. The combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
12-Month Period Ended
December 31, 2022**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – Total government funds	\$	(826,865)
--	----	-----------

The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.

Repayment of 2015 Series Bonds		3,735,000
Proceeds from 2022 Bank Loan		(2,585,000)

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Decrease in accrued bond interest payable		-
---	--	---

Changes in net position of governmental activities	\$	323,135
---	-----------	----------------

These financial statements should be read only in connection with
the accompanying notes to the financial statements.

LAREDO METROPOLITAN DISTRICT
NOTES TO FINANCIAL STATEMENTS
12-Month Period Ended December 31, 2022

NOTE 1 – DEFINITION OF REPORTING ENTITY

Laredo Metropolitan District (District), a quasi-municipal corporation and political subdivision of the State of Colorado, was organized on May 15, 2002, and is governed pursuant to provisions of the Colorado Special District Act (Title 32). The District operates under service plan approved by Commerce City (City) on April 03, 2002. The District's service area is located in Adams County, Colorado entirely within the boundaries of the City. The District was established to provide financing for the design, acquisition, construction and installation of streets, traffic and safety controls, park and recreation, transportation, television relay and translator, mosquito control, water facilities, sanitary sewer, and storm drainage.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organizations elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organizations governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District has no employees and all operations and administrative functions are contracted.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies of the District are as follows:

Government-wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by property taxes.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred inflows and the sum of liabilities and deferred outflows of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes and specific ownership taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is due.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

When both restricted and unassigned resources are available for use, it is the District's policy to use restricted resources first, then unassigned resources as they are needed.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. On October 18, 2021, the Board adopted the District's 2022 budget.

Pooled Cash and Investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Investments are carried at fair value.

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

On May 07, 2002, District voters authorized the District to assess property taxes at no more than \$50,000 annually, without limitation to rate, to pay the District's operations, maintenance and other expenses. Additionally, the District voters authorized the District to retain and spend all such revenue without regard to TABOR spending, revenue raising or other limitations.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

Specific Ownership Taxes

Beginning in 1937, the State of Colorado began assessing a tax annually on motor vehicles (aka Specific Ownership Tax). The Specific Ownership Tax is graduated based on a vehicle's age and original value. Specific Ownership Tax revenue collected by the State is apportioned among the 64 counties based on the number of state highway miles within each county. Each county allocates its respective share of specific ownership tax revenue proportionally among the various property-taxing governmental entities on the basis of total property taxes assessed by each entity in relation to total property taxes assessed by all entities within the County. In 2022, the District's share of Specific ownership taxes was equal to approximately 7.5% of the property taxes collected.

Specific ownership tax is allocated proportionally between each fund based on the ratio of property tax revenue collected for each fund compared to total property revenue collected by the District.

Collection Costs

Collection costs incurred by the District related to the collection of property taxes includes all costs incurred by the District that enable and support the District's ability to collect property taxes revenue. Generally, such costs include (a) operating and reporting compliance costs that protect the District's right to collect property taxes (e.g. financial statement audit fees, fees paid to professionals to prepare mandatory periodic financial and operational reports to the City and State, etc), (b) professional fees related to applying and monitoring accounting controls over the collection of District revenues, (c) costs related to managing the District's annual property tax assessment process and (d) insurance protecting the District from liability exposure that potentially could arise from performing these activities.

The District owns no land and provides no services to District residents and property owners. The District's sole function is to manage the repayment of the District's debts. Consequently, all costs incurred by the District are considered direct or indirect collection costs supporting the repayment of the District's debts.

Deferred Outflows of Resources and Deferred Inflows of Resources

A deferred inflow of resources is an acquisition of net position by a government that is applicable to a future reporting period and a deferred outflow of resources is a consumption of net position by a government that is applicable to a future reporting period. Both deferred inflows and outflows are reported in the statement of net position but are not recognized in the financial statement as revenues and expenses until the period(s) to which they relate. Deferred inflows of resources in the governmental fund financial statements of the District for the 12-month period ended December 31, 2022 are comprised of property taxes due from Adams County that will not be collected within 60 days of the end of the current calendar year. Deferred inflows of resources in the government-wide financial statements represents property taxes for which an enforceable legal claim to assets exists, but for which the levy pertains to the subsequent year.

Equity

Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the government's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: non-spendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

- **Non-spendable fund balance** – The portion of a fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts) or legally or contractually required to be maintained intact.
- **Restricted fund balance** – The portion of a fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.
- **Committed fund balance** – The portion of a fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.
- **Assigned fund balance** – The portion of a fund balance that is constrained by the government's intent to be used for specific purposes but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.
- **Unassigned fund balance** – The residual portion of a fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District's policy to use the most restrictive classification first.

NOTE 3 – CASH AND INVESTMENTS

Cash and investments as of December 31, 2022 are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and investments – unrestricted	\$ -
Cash and investments – restricted	75,813
Total cash and investments	\$ 75,813

Cash and investments as of December 31, 2022 consist of the following:

Deposits with financial institutions	\$ 7,162
Investments	68,651
Total cash and investments	\$ 75,813

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2022, the District's cash deposits had a bank and carrying balance of \$7,162.

Investments

The District has not adopted a formal investment policy. However, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those listed below, which are believed to have minimal credit risk, minimal interest rate risk, and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Revenue bonds of local government securities, corporate and bank securities, and guaranteed investment contracts not purchased with bond proceeds, are limited to maturities of three years or less.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities, and the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse purchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

As of December 31, 2022, the District's investments were comprised of the following:

Investment	Maturity	Amortized Cost
Colorado Surplus Asset Fund Trust (CSAFE)	Weighted Average Under 60 Days	\$ 68,651

CSAFE

The District holds investments in the Colorado Surplus Asset Fund Trust (CSAFE), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing CSAFE. CSAFE operates similarly to a money market fund and each share is equal in value to \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds and highest rated commercial paper. CSAFE measures its investments at amortized cost, which value is not materially different (less than 0.005% difference) than the fair value measurement of such investments. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption period notice. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. No limitations exist on the District's ability to withdraw funds invested in CSAFE. CSAFE is rated AAAM by Standard & Poor's.

NOTE 4 – LONG-TERM DEBT

The following is a summary of the changes in the District's long-term debt for the 12-month period ended December 31, 2022:

	Balance at Dec. 31, 2021	Additions	Retirements	Balance at Dec. 31, 2022	Due within one year
Series 2015 G.O. Bonds	\$ 3,735,000	\$ -	(\$ 3,735,000)	\$ -	\$ -
Accrued Interest – Series 2015 G.O. Bonds	10,191	-	-	10,191	-
Series 2022 Bank Loan	-	2,585,000	-	2,585,000	207,754
Total	\$ 3,745,191	\$2,585,000	(\$3,735,000)	\$ 2,595,191	\$ 207,754

Details regarding the District's long-term obligations are as follows:

Series 2015 General Obligation Refunding and Improvement Bonds (Bonds)

On November 20, 2015, the District issued General Obligation Limited Tax (Limited Tax Convertible to Unlimited Tax) Bonds, Series 2015 in the amount of \$4,740,000. The Bonds bear interest at 2.99% per annum, and are payable semi-annually on June 1 and December 1, beginning on December 1, 2015. The Bonds are subject to mandatory sinking fund redemption on December 1, 2016 and on each December 1 thereafter in increasing amounts annually through maturity on December 1, 2025.

As of December 31, 2022, the Series 2015 General Obligation Bonds have been refunded in the amount of \$3,789,960, consisting of \$2,585,000 from proceeds of the 2022 bank loan, \$74,500 transferred from the debt service reserve account, and \$1,131,028 cash in the District’s debt.

Vectra Bank Series 2022 Bank Loan:

In 2022, the District refunded the outstanding Series 2015 bonds and pay for the costs associated with issuance. The Loan constitutes a general obligation of the District, and secured by a pledge of the full faith and credit of the District, payable from general ad valorem taxes which may be levied without limitation of rate and in the amount necessary to pay the Loan when due against all taxable property within the District.

The Loan has a 10-year term at a fixed rate of 3.68% with semi-annual payments due on June 1 and December 1, beginning June 1, 2023 through December 1, 2032.

Outstanding principal and interest on the loan mature as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 207,754	\$ 130,905	\$ 338,659
2024	217,291	120,051	337,342
2025	227,127	109,078	336,205
2026	237,750	97,608	335,358
2027	249,129	85,601	334,730
2028-2032	<u>1,445,949</u>	<u>226,322</u>	<u>1,672,271</u>
Total	<u>\$ 2,585,000</u>	<u>\$ 769,565</u>	<u>\$ 3,354,565</u>

Debt Authorization

Debt Authorization – Service Plan

The District’s service plan limits the District's debt service to a Maximum Mill Levy of 50.000 mills, provided, however, that in the event the method of calculating the assessed valuation is changed after the date of the approved service plan (2002), the mill levy limitation applicable to such debt may be increased or decreased to reflect such changes. As of January 1, 2002, the ratio was 9.15%. The ratio for 2022 was 7.15%, which caused the District’s Maximum Mill Levy for debt service for 2022 to be 63.986.

Debt Authorization – TABOR

As of December 31, 2022, the District is prohibited from issuing any debt (other than refinancing existing debt that would generate a net cost saving to the homeowners) without first obtaining authorization from the District’s voters in compliance with TABOR.

NOTE 5 – CONTINGENT OBLIGATIONS

The District has entered into two contingent obligation agreements with the Developer (as defined in Note 7). The District has neither registered nor filed a notice of claim of exemption regarding these contingent obligation agreements with the Colorado Securities Commissioner. None of these contingent obligation agreements are transferrable to third parties. The contingent obligations of the District contemplated in the agreements identified below are subject to annual appropriation and are not multiple-fiscal year obligations for the purposes of Article X, Section 20 of the Colorado Constitution. The following contingent obligations exist, but are not necessarily owing, as of December 31, 2022:

Developer Advance and Reimbursement Agreement. On June 06, 2002, the District and the Developer entered into an Advance and Reimbursement Agreement (AR Agreement) in which the Developer agreed to fund costs related to the District’s organization and periodically fund, when shortfalls arise from other revenue sources, the District’s ongoing operating and administrative costs. In exchange, the District agreed to reimburse the Developer for such amounts, subject to annual appropriation by the District in its discretion. Simple interest accrues on this contingent obligation, until paid, at the rate of eight percent (8%) per annum.

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Developers Advances – Organizational & Operational Costs			
Beginning Balance (Jan. 01, 2022)	\$ 76,000	\$ 87,866	\$ 163,866
Additional advances	-	6,080	6,080
Payments to the Developers	-	-	-
Ending Balance (Dec. 31, 2022)	\$ 76,000	\$ 93,946	\$ 169,946

This AR Agreement shall continue until either (1) the District repays the Developer all amounts accrued under this Agreement or (2) both the Developer and the District mutually agree to terminate the Agreement.

Infrastructure Acquisition Agreement. On June 06, 2002, the District and the Developer entered into an Infrastructure Acquisition Agreement (IA Agreement) in which the Developer agreed to design, construct and complete certain public improvements to serve the development within the District’s service area. In exchange, the District agreed to acquire such improvements from the Developer. No interest accrues on this contingent obligation.

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Developers Advances – Capital Costs			
Beginning Balance (Jan. 01, 2022)	\$ 1,014,922	\$ -	\$ 1,014,922
Additional advances	-	-	-
Payments to the Developers	-	-	-
Ending Balance (Dec. 31, 2022)	\$ 1,014,922	\$ -	\$ 1,014,922

NOTE 6 – NET POSITION (DEFICIT)

Restricted Net Position

The District's restricted net position as of December 31, 2022 in the general fund and debt service fund totaled \$0, and \$78,075, respectively. The restricted net position within the general fund is due to spending restrictions established by TABOR. See Note 9 for further details. The restricted net position within the debt service fund is comprised of funds that are restricted to servicing the Series 2022 Loan. The restricted net position within the capital project fund is comprised of funds restricted for funding the construction of public infrastructure.

Non-Spendable Net Position

The District's non-spendable net position as of December 31, 2022 in the general fund and debt service fund totaled \$0 and \$5,521, respectively. These balances were created due to the District prepaying certain 2023 expenses in 2022.

Unassigned Net Position

The District's unassigned net position as of December 31, 2022 totaled (\$2,595,191). This deficit amount was a result of the District being responsible for the repayment of bonds issued for public improvements conveyed to the City of Commerce City and the District.

NOTE 7 – RELATED PARTIES

None of the directors that served on the District's board in 2022 reported any conflicts of interest arising from their participation on the District's board.

NOTE 8 – RISK MANAGEMENT

Except as provided in the Colorado Governmental Immunity Act, the District may be exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials' liability, and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 9 – TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution—referred to as the Taxpayer's Bill of Rights (TABOR)—contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

On May 07, 2002, District voters authorized the District to assess property taxes at no more than \$50,000 annually, without limitation to rate, to pay the District's operations, maintenance and other expenses. Additionally, the District voters approved a revenue change to allow the District to retain and spend all revenue, other than ad valorem taxes, in excess of TABOR spending, revenue raising or other limitations.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). TABOR prohibits the District from using its emergency reserves to compensate for economic conditions and revenue shortfalls.

TABOR is complex and subject to legal interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, may require judicial interpretation.
