## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Bellevue Station Metropolitan District No. 2  
City and County of Denver, Colorado

### **Opinions**

We have audited the financial statements of the governmental activities and each major fund of Bellevue Station Metropolitan District No. 2 (the District) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2022, and the respective changes in financial position thereof, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

|

**Fiscal Focus Partners, LLC**

## **Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate to those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

### **Supplementary and Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary and other information (together, the information), as identified in the table of contents on pages 25 through 32 is presented for the purposes of additional analysis and legal compliance and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES  
IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
YEAR ENDED DECEMBER 31, 2022**

Net Changes in Fund Balances - Total Governmental Funds \$ (208,721)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset.

Current Year Depreciation (256,855)

Long-term debt (e.g., bonds, Developer advances) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of long-term debt and related items is as follows:

Principal Payment - Series 2020 Loan	590,000
Principal Payment - Series 2021A-1 Loan	12,000
Principal Payment - Series 2021A-2 Loan	68,000

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Accrued Interest on 2021A-2 Loans - Change in Liability	162

**BELLEVUE STATION METROPOLITAN DISTRICT NO. 2**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 1 DEFINITION OF REPORTING ENTITY**

Bellevue Station Metropolitan District No. 2 (formerly Madre Metropolitan District No. 2) (the District), a quasi-municipal corporation and political subdivision of the state of Colorado, was organized in conjunction with Bellevue Station Metropolitan District No. 1 (District No. 1) and Bellevue Station Metropolitan District No. 3 (District No. 3) (collectively the Districts) by order and decree of the District Court for the City and County of Denver, Colorado, on December 9, 2005, and is governed pursuant to provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District's boundaries are located in the city and County of Denver, Colorado (Denver). The District was organized to provide financing for the construction of streets, water, sanitary sewer, storm drainage, traffic and safety signals, and park and recreation improvements.

As discussed in the District's Service Plan, which is dated July 11, 2005, and was approved by Denver City Council, District No. 1 is designated as the control district and will be responsible for coordinating the financing and construction of all public services and improvements mentioned above. The improvements will be for the use and benefit of the residents of the Districts, as well as for all citizens of the metropolitan Denver area and the state of Colorado. District No. 2 and District No. 3 will function as taxing districts. District No. 2 has issued general obligation debt and may issue additional debt in the future. The District currently levies taxes for operations, maintenance, and debt service. Taxes collected for operations and maintenance are transferred to District No. 1 for use. District No. 3 may, in the future, issue general obligation bonds to be used to fund improvements and/or levy taxes for operations, maintenance, debt service or capital expenditures of District No. 1.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity, including District Nos. 1 and 3.

The District has no employees, and all operations and administrative functions are contracted.

**BELLEVUE STATION METROPOLITAN DISTRICT NO. 2**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The more significant accounting policies of the District are described as follows:

**Government-Wide and Fund Financial Statements**

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the sum of assets and deferred outflows and the sum of liabilities and deferred inflows is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Redemption of bonds is recorded as a reduction in liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes and specific ownership taxes. All other revenue items are considered to be measurable and available only when cash is received by the District. The District determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred, or the long-term obligation is due.

**BELLEVUE STATION METROPOLITAN DISTRICT NO. 2**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)**

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of the governmental funds.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

**Budgets**

In accordance with the State Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

The District has amended its annual budget for the year ended December 31, 2022.

**Pooled Cash and Investments**

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

**BELLEVUE STATION METROPOLITAN DISTRICT NO. 2**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**DECEMBER 31, 2022**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Property Taxes**

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflow of resources in the year they are levied and measurable. The unearned property tax revenues are recorded as revenue in the year they are available or collected.

**Facility Fees**

During 2007, the District imposed upon property owners within the District a facility fee. The first 500 water taps purchased from Denver Suburban Water District (DSWD) will have a rate of \$3,925 times the size equivalency. After the first 500 taps purchased from DSWD, or if a tap is purchased from an entity other than DSWD, the facility fee rate is \$7,850 times the size equivalency.

Tap size equivalencies are as follows:

- ¾" = 1
- 1" = 2
- 1 ¼" = 3
- 1 ½" = 4
- 2" = 8
- 3" = 18
- 4" = 36
- 6" = 94

On March 28, 2013, the Denver Suburban Water District (DSWS) was officially dissolved. According to the Dissolution and Assumption of Services Intergovernmental Agreement between Denver Suburban Water District and the Goldsmith Metropolitan District, effective as of September 1, 2012, the Goldsmith Metropolitan District assumes all services previously provided by the Denver Suburban Water District.

**DECEMBER 31, 2022**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Deferred Inflow/Outflow of Resources**

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, *cost of refunding*, is deferred and recognized as an outflow of resources in the period that the amount is incurred.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Accordingly, the item, *deferred property tax revenue*, is deferred and recognized as an inflow of resources in the period that the amount becomes available.

**Equity**

**Net Position**

For government-wide presentation purposes, when both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

**Fund Balance**

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

*Nonspendable Fund Balance* – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

*Restricted Fund Balance* – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

*Committed Fund Balance* – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Equity (Continued)**

**Fund Balance (Continued)**

*Assigned Fund Balance* – The portion of fund balance that is constrained by the government’s intent to be used for specific purposes but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

*Unassigned Fund Balance* – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District’s practice to use the most restrictive classification first.

**Investments**

The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments.

The District generally limits its concentration of investments to those noted with an asterisk (\*) below, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- \* Certain money market funds
- . Guaranteed investment contracts
- \* Local government investment pools

As of December 31, 2022, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amount</u>
Colorado Surplus Asset Fund Trust (CSAFE)	Weighted-Average Under 60 Days	\$ 925,273
Morgan Stanley Institutional Liquidity Funds	Weighted-Average Under 90 Days	9,049,462

**CSAFE**

The District invested in the Colorado Surplus Asset Fund Trust (CSAFE) (the Trust), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all state statutes governing the Trust. The Trust currently offers two portfolios – CSAFE CASH FUND and CSAFE CORE.

CSAFE CASH FUND operates similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds and highest rated commercial paper, and any security allowed under CRS 24-75-601.

CSAFE CORE, a variable net asset value (NAV) Local Government Investment Pool, offers weekly liquidity and is managed to approximate a \$2.00 transactional share price. CSAFE CORE may invest in securities authorized by CRS 24-75-601, including U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain obligations of U.S. government agencies, highest rated commercial paper, and any security allowed under CRS 24-75-601.

A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. CSAFE CASH FUND is rated AAmmf and CSAFE CORE is rated AAf/S1 by Fitch Ratings. CSAFE records its investments at amortized cost and the District records its investments in CSAFE using the amortized cost method. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

**Morgan Stanley Institutional Liquidity Funds**

At December 31, 2022, some of the District's funds held in trust accounts at Zion Bank were invested in the Morgan Stanley Institutional Liquidity Funds Government Portfolio. This portfolio is managed by Morgan Stanley and each share is equal in value to \$1.00. Morgan Stanley may invest in U.S. Treasury securities, or repurchase agreements collateralized by U.S. Treasury securities. The fund is AAmmf rated by Fitch and invests in a process that seeks to select maturities based on the shape of the money market yield curve and on expectations as to future shifts in the level and shape of the curve, taking into consideration such factors as current short-term interest rates, Federal Reserve policy regarding interest rates, and U.S. economic activity. The average maturity of the underlying securities is 90 days or less. The District records its investments in Morgan Stanley at net asset value. There are no unfunded commitments, the redemption frequency is daily, and there is no redemption notice period.

**NOTE 4 CAPITAL ASSETS**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress and are not included in the calculation of net investment in capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

**General Obligation/Refunding Loans**

On October 26, 2020, the District entered into \$9,405,000 Series 2020 Tax-Exempt Refunding Loan (Series 2020 Loan), with interest of 2.70% per annum. Interest is payable semi-annually on June 1 and December 1, commencing on December 1, 2020. Mandatory principal payments are due on December 1, commencing on December 1, 2021, with final payment due on December 1, 2040. At its option, the District may prepay all or any part of the principal of the Loan upon payment to the Bank of the principal amount so prepaid, and accrued interest thereon to the prepayment date. The Series 2020 Loan is secured by (1) the Required Mill Levy, (2) that portion of the Specific Ownership Tax allocable to the Required Mill Levy, and (3) Capital fees, if imposed, and (4) any other legally available moneys which the District determines in its sole discretion to apply as pledged revenue. Proceeds of the Series 2020 Loan were used to (1) refund Series 2007B bonds, and (2) pay the costs of issuing the Series 2020 Loan.

The District's long-term Refunding Loan will mature as follows:

**General Obligation/Refunding Loans (Continued)**

On October 7, 2021, the District entered into \$33,100,000 Series 2021A-1 Loan, with an interest rate of 2.860% per annum. Interest is payable semi-annually on June 1 and December 1, commencing on December 1, 2021. Mandatory principal payments are due on December 1, commencing on December 1, 2022, with final payment due on December 1, 2041. The Series 2021A-1 Loan is secured by (1) the Required Mill Levy, (2) that portion of the Specific Ownership Tax allocable to the Required Mill Levy, and (3) Capital fees, if imposed, and (4) any other legally available moneys which the District determines in its sole discretion to apply as pledged revenue. Proceeds of the Series 2021A-1 Loan were used to (1) refund Series 2017 bonds, (2) pay the costs of issuing the Series 2021A-1 Loan, and (3) fund the costs of capital improvements.

For the purpose of paying the principal of and interest on the Loan, there shall be levied on all taxable property of the District, in addition to all other taxes, direct annual taxes in the amount of the Required Mill Levy, not to exceed 50 mills, such Required Mill Levy to be imposed in each of the years 2021 to 2040, inclusive (for collection in 2022 to 2041, inclusive), and to the extent necessary to repay any unpaid principal or interest due on the Loan, in each year thereafter until the principal of and interest on the Loan is fully paid, satisfied, and discharged. Nothing herein shall be construed to require the District to levy an ad valorem property tax in excess of the Required Mill Levy.

The District may, at its option, prepay the Loan in whole, or, with the consent of the Bank, in part, on any Interest Payment Date, as follows:

Prepayment Prior to December 1, 2026; Premium. If the Loan is prepaid on any Interest Payment Date prior to December 1, 2026, the prepayment price shall equal the principal amount of the Loan so prepaid plus accrued interest thereon to the date of such prepayment together with a 1.0% prepayment fee of the principal amount so prepaid (the Premium).

Prepayment on and after December 1, 2026. If the Loan is prepaid on any business day on or after December 1, 2026, the prepayment price shall equal the principal amount of the Loan so prepaid, plus accrued interest thereon to the date of such prepayment, without Premium.

Notwithstanding the forgoing provisions, (a) prepayment of the Loan with excess mill levy revenue will not be subject to the Premium, and (b) if the amount of the Premium on any proposed prepayment date exceeds the maximum amount permitted under then-applicable law, then the Loan shall be considered non-prepayable to that extent. Any partial prepayments of the Loan shall be applied first against the principal payment due on the Maturity Date, and then in inverse order of maturity.

In the future, the District may issue a portion or all of the remaining authorized but unissued general obligation debt for purposes of providing public improvements to support development within the District's service area. Per the Service Plan, the District is limited to issuing \$125,000,000 in debt, however, debt refinanced at a lower interest rate does not require the use of electoral authorization. In addition, the maximum debt service mill levy for the District is 50 mills, as adjusted for changes in the ratio of actual value to assessed value of property within the District.

**BELLEVUE STATION METROPOLITAN DISTRICT NO. 2  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 DECEMBER 31, 2022**

**NOTE 6 NET POSITION**

The District has net position consisting of two components – restricted and unrestricted.

The restricted component of net position consists of assets that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The District had a restricted net position as of December 31, 2022, as follows:

	Governmental Activities
Restricted Net Position:	
Emergency Reserve	\$ 27,500
Capital Projects	691,638
Total	\$ 719,138

The District has a deficit in unrestricted net position. This deficit amount is a result of the District being responsible for the repayment of bonds issued for public improvements which are conveyed to other governmental entities.

**NOTE 7 RELATED PARTIES**

The Developer of the property which constitutes the District is Front Range Land and Development Company (the Developer). The members of the Board of Directors of the District are owners of or are otherwise associated with the Developer and may have conflicts of interest in dealing with the District. Additionally, all of the members of the Board of Directors are owners of Madre Investment Company, LLC. In addition, the Developer provides financial, and construction management oversight to the District. During 2022, the District incurred \$5,092 in financial and management fees.

**Advance and Reimbursement Agreement**

The District and the Developer have entered into an Advance and Reimbursement Agreement dated January 12, 2006. Pursuant to the Advance and Reimbursement Agreement, the Developer has agreed to advance funds for financing the costs associated with the formation of the District, District operations, and construction of District improvements after formation. Advances made by the Developer shall accrue interest at 7.5% per annum from the time of deposit into the District’s account until repaid. The District shall make payments for the advances, subject to annual appropriation and budget approval, from funds available within any fiscal year and not otherwise required for operations, capital improvements, or debt service costs. In 2020, the advances were repaid in full.

**NOTE 8 RISK MANAGEMENT**

Except as provided in the Colorado Governmental Immunity Act, §24-10-101, et seq., C.R.S., the District may be exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (the Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers' compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, and public officials' liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

**NOTE 9 TAX, SPENDING, AND DEBT LIMITATIONS**

Article X, Section 20 of the Colorado Constitution, referred to as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue, and debt limitations which apply to the state of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

On November 1, 2005, the District voters passed an election question allowing the District to increase property taxes up to \$5,000,000 annually, without limitation of rate, to pay the District's operations, maintenance, and other expenses.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.

**NOTE:**

Property taxes collected in any one year include collection of delinquent property taxes assessed in prior years, as well as reductions for property tax refunds or abatements. Information received from the County Treasurer does not permit identification of specific year of assessment.

For collection year 2022 the district had an abatement due to the contention of property values. The abatement resulted in an amount owed to the county which will be paid in 2023.
