Reconciliation of actual (budgetary basis) to statement of revenues, expenses and changes in net position	24

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Granby Sanitation District
Granby, Colorado

Opinions

We have audited the accompanying financial statements of Granby Sanitation District (the District), as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of December 31, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 1 through 4 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during

our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information as identified in the table of contents is presented for purposes of additional analysis and legal compliance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Granby Sanitation District's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should review the information presented here in conjunction with the basic financial statements and the notes to financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- Assets of the District exceeded its liabilities at the close of the fiscal year by \$24,687,355 (net position). Of this amount, \$7,343,672 (unrestricted net position) may be used to meet the government's ongoing obligations to its citizens and creditors.
- The District's total net position increased \$936,785 from the prior fiscal year, primarily due to the receipt of \$1,363,674 in tap fees (offset by a loss of \$454,471 on decommissioning of the compost facility).
- Operating revenues increased \$67,343 from the prior year, or 4.4%.
- Operating expenses increased \$275,556 from the prior year, primarily due to an increase in depreciation expense of \$213,829 due to additional depreciation on developer-contributed assets.
- Investment income increased \$134,940 due to a substantial increase in interest rates on investment balances.

Overview of the Financial Statements

The Granby Sanitation District basic financial statements included in this report are those of a special-purpose government engaged in a business-type activity, providing wastewater collection and treatment services. The statements are comprised of two components: 1) basic financial statements and 2) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

Basic Financial Statements. The basic financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets, liabilities, and deferred outflows and inflows of resources, with the net difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Revenues, Expenses and Changes in Net Position* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result

MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)

in cash flows in future fiscal periods (e.g., earned compensation). The statement reports the District's operating and nonoperating revenue by source along with operating and nonoperating expenses and capital contributions.

The *Statement of Cash Flows* reports the District's cash flows from operating activities, investing, capital and noncapital activities.

The *Notes to the financial statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

A budgetary comparison statement has been provided in the *supplemental information* to demonstrate compliance with the budget.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Granby Sanitation District, assets exceeded liabilities by \$24,687,355 at the close of the most recent fiscal year.

Statement of Net Position

	December 31,		
	2022	2021	2020
Current assets	\$ 8,270,994	\$ 9,237,620	\$ 8,722,596
Capital assets	18,402,576	16,276,591	8,438,312
Total assets	26,673,570	25,514,211	17,160,908
Current liabilities	793,749	303,648	337,008
Long-term obligations	1,192,466	1,459,993	1,716,636
Total liabilities	1,986,215	1,763,641	2,053,644
Net position:			
Net investment in capital assets	16,942,583	14,559,955	6,470,475
Restricted	401,100	354,700	326,700
Unrestricted	7,343,672	8,835,915	8,310,089
Net position	\$ 24,687,355	\$ 23,750,570	\$ 15,107,264

Current assets are primarily composed of cash and investments. The District's unrestricted cash and investments are 10 times the cash needed to meet current liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)

Budgetary Highlights

The District prepares its budget on the modified accrual basis of accounting to recognize the fiscal impact of capital outlay and debt repayment in addition to operations and nonoperating revenue and expenses and contributions. Depreciation is not reflected in the budget since it does not affect funds available. Funds available (current assets less current liabilities, exclusive of the current portion of long-term obligations) decreased \$1,301,417 during 2022, primarily due to capital expenditures.

Tap Fee revenue was significant during 2022 and 2021 as development in the Granby area rose during both years. Capital expenditures were primarily related to the solids handling project.

Capital Assets

The District's capital asset detail as of December 31, 2022, 2020, and 2019 was as follows:

	December 31,		
	2022	2021	2020
Land	\$ 13,188	\$ 13,188	\$ 13,188
Construction in progress	4,247,301	1,061,829	310,948
Sewer plant	8,781,590	8,781,590	8,781,590
Buildings	4,845,022	5,583,677	5,583,677
Collection and transmission	8,050,072	8,050,073	614,429
Operating equipment	811,505	811,504	768,661
Vehicles	285,762	285,762	302,862
Office furniture and equipment	7,539	7,539	7,539
Total capital assets	27,041,979	24,595,162	16,382,894
Accumulated depreciation	(8,639,403)	(8,318,571)	(7,944,582)
Net capital assets	\$ 18,402,576	\$ 16,276,591	\$ 8,438,312

During 2022, the District decommissioned its compost facility and removed the building to provide space for the construction of the solids handling facility. The financial statements include a "special item" loss in the amount of \$454,471 to recognize the book value loss on the compost facility.

Additional information relating to the District's capital assets activity can be found in Note 4 of this report.

Debt Administration

As of December 31, 2022 the District had debt liabilities of \$1,459,993. This amount is a note payable to the Colorado Water Resources and Power Development Authority.

Additional detail on the District's debt is in Note 5 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)

Economic Factors and Next Year's Budget

- Granby Sanitation District services an area that includes the Town of Granby, areas adjacent to the Town, and the SilverCreek Water and Sanitation District. 2023 service fee revenues are based on an anticipated 3,658 single-family equivalent (SFE) units multiplied by a \$37.00/month/SFE sewer service fee. Approximately 1,605 SFEs are anticipated to be served within the boundaries of Granby Sanitation District, 588 served by SilverCreek Water and Sanitation District, and 1,465 serviced by the Town of Granby (outside of Granby Sanitation District boundaries). On January 1, 2021, sewer service fees increased from \$32.00/sfe/month to \$37.00/sfe/month. Fees have not increased since that date. The District expects to receive \$10,000 from the Town of Granby to reimburse the District for additional administrative and operational costs resulting from the 2004 and 2006 Agreements for Treatment of Sewage between Granby Sanitation District and the Town of Granby. These revenues, in addition to any surplus of sewer service fees minus operating expenses, will be added to the unrestricted operating contingency fund, which is included in the ending fund balance. Likewise, there may be maintenance and repair items that will need to be funded from this unrestricted operating contingency fund and again, the change in this fund will be reflected in the ending fund balance. The unrestricted operating contingency fund will accumulate any surplus from year to year. Plant investment fees and interest earned on the District's investments are added to the District's capital outlay fund.
- The District will make semi-annual debt service payments for the Colorado Water Pollution Control Revolving Funds loan received in 2006 to help pay for the upgrade and expansion of the District's wastewater treatment facilities. These payments are reflected in the 2023 budget.
- The sale of fifty (50) plant investment fees is budgeted for 2023. Plant investment fees are \$9,690/sfe.
- Capital improvements of \$4,785,165 is budgeted for 2023.

Requests for Information

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Granby Sanitation District

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

Note 1 – Definition of reporting entity

Granby Sanitation District (the District), a quasi-municipal corporation and political subdivision of the State of Colorado, is governed pursuant to the provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District's service area is located in Grand County, Colorado. The District was established to provide sewage removal and treatment for the users within the District's boundaries.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

Note 2 – Summary of significant accounting policies

The more significant accounting policies of the District are described as follows:

The accounting policies of the District conform to generally accepted accounting principles as applicable to governmental units accounted for as a proprietary enterprise fund. The enterprise fund is used since the District's powers are related to those operated in a manner similar to a private utility system where net income and capital maintenance are appropriate determinations of accountability. The District follows Governmental Accounting Standards Board pronouncements.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Basis of Accounting

The District's financial statements are reported using the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Depreciation is computed and recorded as an operating expense. Expenditures for capital assets are shown as increases in assets and payments on loans are recorded as reductions in liabilities. Tap fees, inclusion fees, and contributed assets from developers are recorded as capital contributions when received or collectible.

Granby Sanitation District

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2022 and 2021

Operating revenues and expenses

The District distinguishes between operating revenues and expenses from nonoperating items in the Statements of Revenues, Expenses and Changes in Net Position. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the District's purpose of providing sewer services to its customers. Operating revenues consist of charges to customers for service provided. Operating expenses include the cost of service, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions.

Cash equivalents

For purposes of the Statement of Cash Flows, the District considers cash deposits (including certificates of deposit) and highly liquid investments with original maturities of three months or less from the date of acquisition, to be cash equivalents.

Accounts receivable, allowance for doubtful accounts

User fees and tap fees constitute a perpetual lien on or against property served until paid. Such liens may be foreclosed upon as provided by the State of Colorado. Therefore, no provision for uncollectible receivables has been made in the financial statements.

Property Taxes

Service fees and other revenues have been sufficient for funding operations and debt service. Therefore, the District's Board of Directors elected not to certify a mill levy to the Grand County Commissioners for tax collection in 2022 and 2021.

Capital assets

Capital assets include land, buildings, collection system, and equipment and vehicles. Capital assets are defined by the District as those assets with an initial, individual cost of \$5,000 or greater. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation or at the developer's cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Interest incurred during the construction phase of capital assets is not included as part of the capitalized value of the assets constructed.

Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

Granby Sanitation District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2022 and 2021

Buildings	20-50 years
Collection system	33 years
Equipment and vehicles	5 to 10 years

Compensated absences

The District has a policy that allows employees to accumulate unused vacation benefits up to a certain maximum number of hours. Compensated absences are accrued when incurred in the financial statements.

Capital contributions

Sewer lines contributed to the District by developers are recorded as capital contributions and additions to the sewer system when received. Tap fees and inclusions fees are recorded as capital contribution revenue when received.

Debt original issue premium

Loan premiums are deferred and amortized over the life of the loan using the straight-line method.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The total appropriation can only be modified upon completion of notification and publication requirements.

Note 3 – Cash and investments

Cash and investments are reflected in the December 31, 2022 and 2021 Statements of Net Position as follows:

Granby Sanitation District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2022 and 2021

	2022	2021
Cash	\$ 156,369	\$ 2,502
Cash - restricted	401,100	354,700
Investments	7,638,673	8,810,279
Total cash and investments	<u>\$ 8,196,142</u>	<u>\$ 9,167,481</u>

Cash and investments as of December 31, 2022 and 2021 consist of the following:

	2022	2021
Cash on hand	\$ 200	\$ 200
Deposits with financial institutions	156,169	357,002
Investments	8,039,773	8,810,279
Total cash and investments	<u>\$ 8,196,142</u>	<u>\$ 9,167,481</u>

At December 31, 2022 and 2021, the District's cash deposits had bank balances of \$145,287 and \$404,076, respectively, and carrying balances of \$156,169 and \$357,002, respectively.

Deposits with financial institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. As of December 31, 2022 and 2021, the federal insurance limits were \$250,000. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits. The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

Custodial credit risk - deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has not adopted a deposit policy for custodial credit risk. As of December 31, 2022 and 2021, none of the District's bank balances were exposed to custodial credit risk.

Investments

The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments.

Granby Sanitation District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2022 and 2021

The District primarily limits its investments to local government investments pools, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to custodial credit risk for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest including the following:

- Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements certain reverse repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

As of December 31, 2022 and 2021, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>2022</u>	<u>2021</u>
Colorado Surplus Asset Fund Trust (CSAFE)	Weighted average under 60 days	\$ 4,843,245	\$ 5,659,860
Colorado Liquid Asset Trust (Colotrust)	Less than 1 year	3,196,528	3,150,419
Total Investments		<u>\$ 8,039,773</u>	<u>\$ 8,810,279</u>

CSAFE

During 2022 and 2021, the District invested in the Colorado Surplus Asset Fund Trust (CSAFE), which is an investment vehicle established by state statute for local government entities to pool surplus assets. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The trust is similar to a money market fund, with each share valued at \$1.00. CSAFE may invest in U.S. Treasury securities, repurchase agreements collateralized by U.S. Treasury securities, certain money market funds, and highest rated commercial paper. A designated custodial bank serves as custodian for CSAFE's portfolio pursuant to a custodian agreement. The custodian acts as safekeeping agent for CSAFE's investment portfolio and provides services as the

Granby Sanitation District

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2022 and 2021

depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by CSAFE. CSAFE is rated AAAM by Standard & Poor's. CSAFE records its investments at amortized cost and the District records its investment in CSAFE using the amortized cost method. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

COLOTRUST

The District invests in the Colorado Local Government Liquid Asset Trust (the Trust); an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAM by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST using the net asset value method. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

Restricted cash and investments

In accordance with the terms of the Colorado Water Resource and Power Development Authority Loan (see Note 5) the District is required to maintain an operating reserve equal to three months of operation and maintenance expenses, excluding depreciation of the sewer system, as set forth in the annual budget for the current fiscal year but in no event greater than \$1,250,000. At December 31, 2022 and 2021, the required operating reserve was \$362,000 and \$324,000, respectively.

The District had restricted cash of \$39,100 and \$30,700, for emergencies as required by Article X, Section 20 of the Constitution of the State of Colorado (see Note 9), as of December 31, 2022 and 2021, respectively.

Granby Sanitation District

December 31, 2022 and 2021

Note 5 – Long term obligations

The following is an analysis of the changes in the District's long-term obligations for the year ended December 31, 2022:

	<u>Balance at December 31, 2021</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance at December 31, 2022</u>	<u>Due Within One Year</u>
Direct Placement Borrowings:					
Loan	\$ 1,676,136	\$ -	\$ 250,332	\$ 1,425,804	\$ 267,527
Unamortized premium	40,500	-	6,311	34,189	6,311
	<u>\$ 1,716,636</u>	<u>\$ -</u>	<u>\$ 256,643</u>	<u>\$ 1,459,993</u>	<u>\$ 273,838</u>

The following is an analysis of the changes in the District's long-term obligations for the year ended December 31, 2021:

	<u>Balance at December 31, 2020</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance at December 31, 2021</u>	<u>Due Within One Year</u>
Direct Placement Borrowings:					
Loan	\$ 1,921,026	\$ -	\$ 244,890	\$ 1,676,136	\$ 250,332
Unamortized premium	46,811	-	6,311	40,500	6,311
	<u>\$ 1,967,837</u>	<u>\$ -</u>	<u>\$ 251,201</u>	<u>\$ 1,716,636</u>	<u>\$ 256,643</u>

On May 1, 2006, the District entered into a \$4,810,728 loan agreement with the Colorado Water Resource and Power Development Authority (CWRPDA). The loan proceeds were used for sewer treatment plant upgrades. Payments of principal and interest are to be made semi-annually beginning August 1, 2006 through August 1, 2027. CWRPDA refunded its underlying bonds in 2016 and passed refunding credits on to the District in the amount of \$340,444.

Total annual payments of interest and principal vary from \$265,275 to \$317,002. The annual interest rate on this loan varies between .19% and 2.37%. Interest on this loan is subsidized by a federal grant. The District has committed to various covenants that must be maintained to avoid events of default. The most significant covenant is for the District to establish rates and fees in amounts sufficient to pay loan and operating requirements. In the event of a default, the lender has the option to take any action pursuant to the loan agreement or to take legal action to require the District to cure such default, including the appointment of a receiver of the sanitary sewer system of the District, which serves as collateral for the loan.

Granby Sanitation District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2022 and 2021

Annual debt service requirements for the loan are anticipated as follows:

Year Ended December 31,	Principal	Interest	Total
2023	\$ 261,216	\$ 17,936	\$ 279,152
2024	266,658	7,980	274,638
2025	277,542	1,891	279,433
2026	299,310	-	299,310
2027	321,078	-	321,078
	<u>\$ 1,425,804</u>	<u>\$ 27,807</u>	<u>\$ 1,453,611</u>

Debt authorization

At December 31, 2022, the District had no authorized but unissued indebtedness.

Note 6 –Net position

The District's net position consists of three components – net investment in capital assets, restricted, and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets. As of December 31, 2022 and 2021, the District had net investment in capital assets calculated as follows:

	2022	2021
Capital assets, net	\$ 18,402,576	\$ 16,276,591
Current portion of outstanding long-term obligations	(267,527)	(256,643)
Noncurrent portion of outstanding long-term obligations	(1,192,466)	(1,459,993)
Net investment in capital assets	<u>\$ 16,942,583</u>	<u>\$ 14,559,955</u>

Restricted position includes net position that is restricted for use either externally imposed by creditors, grantors, contributors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. The purposes for the restrictions of net position are described in Note 3. As of December 31, 2022 and 2021, the District had restricted net position as follows:

	2021	2020
Loan operating reserve requirement	\$ 362,000	\$ 324,000
Emergency reserves	39,100	30,700
Total restricted	<u>\$ 401,100</u>	<u>\$ 354,700</u>

Granby Sanitation District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2022 and 2021

The District's unrestricted net position as of December 31, 2022 and 2021 was \$7,343,672 and \$8,835,915, respectively.

Note 7 – Retirement commitments

The District provides pension benefits for all of its full-time employees through a defined contribution plan administered by the ICMA Retirement Corporation. The plan is authorized under Internal Revenue Code Section 401. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate from the date of employment. The District requires that both the employee and the District contribute an amount equal to 7.65% of the employee's salary each month, although larger contributions can be made by employees. The contributions for each employee vest immediately.

The District's total gross payroll for employees during 2022 and 2021 was \$397,524 and \$327,769, respectively. The District's contributions were \$27,170 and \$24,350 in 2022 and 2021, respectively; contributions from employees amounted to \$27,170 and \$24,350 in 2022 and 2021, respectively. The plan was fully funded as of December 31, 2022 and 2021.

Note 8 – Risk management

The District is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The District carries commercial insurance for these risks of loss, including workers compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage during the past three fiscal years.

The District self-insures against worker's compensation claims. The Board of Directors has reserved \$66,000 for future claims.

Note 9 – Tax, spending and debt limitation

Article X, Section 20 of the Colorado constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR. The District's management believes its operations qualifies for this exclusion.

Spending and revenue limits are determined based on the prior year's fiscal year spending as adjusted for allowable increases for inflation and local growth. Fiscal year spending is generally defined as expenditures plus reserve increases with certain exceptions.

Granby Sanitation District

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2022 and 2021

Revenues in excess of the fiscal year spending limit must be refunded unless retention of such revenue has been approved by the voters.

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of fiscal year spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate fiscal year spending limits and qualification as an Enterprise will require judicial interpretation.

Note 10 – Construction Commitments

As of December 31, 2022, the District had approximately \$4,808,000 in unexpended construction commitments related to ongoing system improvements.
