**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
(Required Supplementary Information - Unaudited)

**-MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**  
**Required Supplementary Information (RSI)**  
**June 30, 2022**

The discussion and analysis of Wiggins School District's (the "District") financial performance provides an overall review of the district's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the financial statements, financial statement footnotes, budgetary comparison schedules and additional supplementary information to broaden their understanding of the District's financial performance.

**Financial Highlights**

The District's budget continues to remain fairly constant. Any increases in revenue are generally used to offset the cost of salary and benefits for additional staff and/or programs. The District continues to maintain a healthy fund balance in the General Fund. The District budgets sufficient contingencies greater than required by law to cover any unanticipated operational needs.

**Using the Basic Financial Statements**

The basic financial statements consist of the Management Discussion and Analysis (this section) and a series of financial statements and notes to those statements. These statements are organized so that the reader can first understand the District as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements - the Statement of Net Position and the Statement of Activities. Both provide long and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail. The governmental fund statements tell how general District services were financed in the short term as well as what remains for future spending. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

**Financial Analysis of the District as a Whole**

The District's total net position was \$15,494,804 as of June 30, 2022.

The District's governmental net position increased by \$4,604,878 from 2021 to 2022. The net position includes the long-term pension related liabilities with PERA and bonds payable. The general fund had an increase of \$1,922,624 to fund balance and food service fund had an increase of \$27,075.

## Government-Wide Financial Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private businesses. The statements of net position include all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. The change in net position is important because it tells the reader that for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of various factors, some financial, some not. Non-financial factors include facility conditions and required educational programs.

In the Statement of Net Position and the Statement of Activities, the District is divided into two distinct kinds of activities:

**Governmental Activities** – The majority of the District's programs and services are reported here including instruction, support services, operations and maintenance, and extracurricular activities.

A condensed summary of the Districts Net Position is as follows:

	2022	2021
<b>Assets:</b>		
Current Assets	\$ 45,147,814	\$ 14,873,854
Capital Assets – Net	38,754,425	35,858,891

Total Liabilities, Deferred Outflows and Net Position	\$ 86,861,580	\$ 55,578,642

Most of the district's net position is invested in capital assets (buildings, land, and equipment). The remaining net position is a combination of restricted and unrestricted amounts. The restricted balances are primarily amounts legally restricted to finance future purchases or capital projects as planned by the District and for debt repayment.

A condensed Statement of Activities and Changes in Net Position is as follows:

### Reporting the District's Most Significant Funds

The analysis of the District's major funds begins on page 4. Fund financial reports provide detailed information about the District's major funds. The District's major funds are the General, Capital Reserve, Pupil Activity, Bond Redemption and Food Service Funds.

**Governmental Funds.** Most of District's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements of the Governmental Funds. The District's governmental funds consist of the General, Capital Reserve, Bond Redemption Funds, Bond Project and Food Service Fund. The General Fund accounts for the majority of the District's instruction and support operations. The Capital Reserve Fund accounts for the District's capital needs, the Bond Redemption Fund accounts for the repayment of the District's bonded debt and the Food Service Fund accounts for the District's food service program.

**Fiduciary Funds.** Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The District's fiduciary fund is the Pupil Activity Fund. The Pupil Activity Fund generally accounts for student generated revenues and expenditures related to non-classroom activities.

**Fund Financial Statements**

As of June 30, 2022, the District's governmental funds reported a combined fund balance of \$43,660,782 which is an increase of \$29,555,832 from the June 30, 2021 balance. The majority of the increase is from elementary building project, grant funding, specific ownership taxes, and increased student count funding.

**Capital Assets**

As of June 30, 2022, the District had \$38,754,425 invested in a broad range of capital assets, including land, buildings, furniture, equipment and construction in progress. This amount represents a net increase (including additions, deletions, and depreciation) of \$2,895,534. A summary of the District's Capital Assets is as follows:

	<u>Balance 7/1/21</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance 6/30/22</u>

The District passed a bond election in November 2016 which was funded in 2017 in the amount of \$30,720,000. A bond passed in November 2021 for approximately \$31 million. This bond is to build a new 3-6 school and repair/improve existing facilities. The accrued compensated absences and early retirement liabilities represent the amounts to be funded for earned but unused vacation and sick leave as well as post termination payments to retiring employees that participate in the early retirement program. Additional information related to the District's debt can be found in Note 6 to the financial statements.

## General Fund Budget

The Board of Education adopts the District's budget in June of each year. Changes are then made in October when student enrollment is finalized. The adoption of supplemental budgets is allowed throughout the year when unanticipated additional revenues are received. Program funding is based upon student enrollment on October 1st of each year. This per pupil funding is a combination of Property Tax, State Equalization and Specific Ownership Tax.

General Fund revenues were more than budgeted which is due to specific ownership taxes and state share revenue received. General Fund expenditures were under budget after adjusting for budgeted contingency reserves.

## Next Year's Budgets and Rates

A bond passed in November 2021 for approximately \$31 million. The bond is to build a new 3-6 school and repair/improve existing facilities. With the addition of the school, expenses will be added for staff, supplies and maintenance.

## Requests for Information

This financial report is designed to provide a general overview of the Wiggins School District RE-50J's finances for all those with an interest in the government's finances. ### Independent Auditors' Report

#### **Opinion**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Wiggins School District RE-50J, as of and for the year ended June 30, 2022, and the related notes to the financial statements which collectively comprise Wiggins School District RE-50J's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Wiggins School District RE-50J as of June 30, 2022, and the respective changes in financial position, and, where applicable, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Wiggins School District RE-50J and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Wiggins School District RE-50J's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### **Auditors' Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Wiggins School District RE-50J's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt Wiggins School District RE-50J's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Report on Summarized Comparative Information***

We have previously audited the Wiggins School District RE-50J's 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated December 1, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2021 is consistent, in all material respects, with the audited financial statements from which it has been derived.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that a management's discussion and analysis, budgetary comparison information, historical pension information and other post-employment benefit plan information listed in the tables of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Supplementary Information**

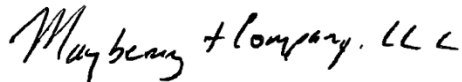

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Wiggins School District RE-50J's basic financial statements. The Individual fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Report on Other Legal and Regulatory Requirements**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

**Other Reporting Required by Governmental Accounting Standards**

In accordance with *Governmental Accounting Standards* on our consideration of the Wiggins School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Wiggins School District's internal control over financial reporting and compliance.

**June 30, 2022**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of Wiggins School District RE-50J (the District) conform to generally accepted accounting principles as applicable to governmental units. Following is a summary of the more significant policies:

**Reporting Entity**

In evaluating how to define the government, for financial reporting purposes, the District's management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in Governmental Accounting Standards Board ("GASB") Statement No. 14, *The Financial Reporting Entity* and as subsequently amended.

Based upon the application of these criteria, no additional organizations are includable within the District's reporting entity.

**Basis of Presentation**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information of the District as a whole. The reporting information includes all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include fees and charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues that are not classified as program revenues are presented as general revenues. The effects of interfund activity have been eliminated from the government-wide financial statements.

**Fund Financial Statements**

The fund financial statements provide information about the District's funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as non-major funds.

**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Basis of Presentation** (Continued)

Fund Financial Statements (Continued)

The District reports the following major governmental funds:

General Fund – This fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds –

Total Program Reserve Fund – Property tax revenues collected from a tax levy imposed pursuant to § 22-54-107(5) are accounted for in the Total Program Reserve Fund. The District may expend money from the Total Program Reserve Fund only to offset the amount of a reduction in the district’s state share caused by application of the budget stabilization factor pursuant to § 22-54-104(5)(g); except that, in a budget year in which the school district levies for its total program the number of mills calculated pursuant to § § 22-54-106(2)(a)(II), if the balance of the Total Program Reserve Fund exceeds an amount equal to the District’s total program for that budget year multiplied by the negative factor calculated pursuant to § 22-54-104(5)(g) for that budget year, the District may expend the amount of the excess balance. Any money remaining in the fund at the end of a fiscal year must remain in the fund and may be used in future years only as provided for above in this paragraph.

Food Service Fund – The Food Service Fund accounts for the District’s food service program.

Pupil Activity Fund – The Pupil Activity Fund accounts for the District’s pupil activities.

Debt Service (Bond Redemption) Fund – This fund is used to account for the repayment of the District’s general obligation indebtedness.

Building (Capital Reserve Projects) Fund – This fund is used to account for the construction of the District’s Building Project, funded by the issuance of General Obligation Bonds.

Capital Projects Fund (Capital Reserve Projects Fund) – This fund is used to account for the District’s major capital outlay activity.

The District reports the following fiduciary funds:

Agency Funds (Pupil Activity Fund) – This fund was used to account for the money held in trust by the District for student organizations. This fund is custodial and does not measure the results of operations. This fund was reclassified to special revenue presentation for fiscal year 2020.

**WIGGINS SCHOOL DISTRICT RE-50J**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Centennial Board of Cooperative Educational Services**

The District in conjunction with other surrounding districts created the Centennial Board of Cooperative Educational Services (BOCES). The BOCES is an organization that provides member districts educational services at a shared lower cost per district. The BOCES board is comprised of one member from each participating district. During the fiscal year ended June 30, 2022, the District paid total assessments of \$24,503 to the BOCES. Financial statements for the BOCES can be obtained from the BOCES administrative office at: 2020 Clubhouse Drive, Greeley, CO 80634.

**Measurement Focus and Basis of Accounting**

**Government-Wide and Fiduciary Fund Financial Statements**

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the same time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

**Governmental Fund Financial Statements**

Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available as allowed by the per pupil operating revenue formula approved by the State legislature or within sixty days after year end. These revenues could include federal, state, and county grants, and some charges for services. Grants are only recognized to the extent allowable expenditures have been incurred. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, they are both restricted and unrestricted net position available to finance the programs. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

**Budgets and Budgetary Accounting**

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year-end.

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- Budgets are required by state law for all funds. By May 31, the Superintendent of Schools submits to the Board of Education a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year end.
- Public hearings are conducted by the Board of Education to obtain taxpayer comments.
- Prior to June 30, the budget is adopted by formal resolution.
- Budgets are required to be filed with the Commissioner of Education within thirty days after the beginning of the fiscal year.
- Expenditures may not legally exceed appropriations at the fund level.
- Revisions that alter the total expenditures of any fund must be approved by the Board of Education.
- Budgeted amounts reported in the accompanying financial statements are as originally adopted by the Board of Education or as amended.
- Encumbrance accounting is not utilized.

**Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance**

Cash and Investments – The District pools cash resources of its various funds in order to facilitate the management of cash. Cash is pooled in interest bearing accounts which are comprised of certificates of deposit, savings accounts, and money market accounts which are legally authorized. Investments are stated at fair value.

Receivables – All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Inventories – Inventories of proprietary funds are valued at the lower of cost (first-in, first-out) or market.

**WIGGINS SCHOOL DISTRICT RE-50J**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

**Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance** (Continued)

Capital Assets – Capital assets used in governmental activities operations are shown on the government-wide financial statements. These assets are not shown in the governmental funds and are therefore listed as a reconciling item between the two presentations. Property and equipment acquired or constructed for governmental fund operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the government-wide presentation. No depreciation has been provided on capital assets in the governmental funds.

Property and equipment is stated at cost and capitalized on items purchased with a value over \$5,000. Where cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

Depreciation has been provided over the estimated useful lives of the asset in the government-wide presentation as well as in the proprietary fund. Depreciation is calculated using the straight-line method over the following useful lives:

Buildings and Site Improvements	10-75 years
Vehicles	15-30 years
Other Equipment	5-20 years

Accumulated unpaid sick and vacation and other pay are serviced from other revenues in the General Fund. These liabilities are only recorded on the government-wide financial statements as they are not expected to be financed from current resources. At June 30, 2019, the District has recorded accrued leave as disclosed in Note 5.

Long-Term Debt – The District’s general obligation bonds are accounted for in the Bond Redemption Fund. Principal repayments are shown as expenditures in the fund level financial statements. For the government-wide presentation, principal payments are reclassified as reductions in the outstanding obligation balances.

Deferred outflows/inflows of resources - In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The government has several items that qualify for reporting in this category, all related to outstanding pension and OPEB obligations and further described in Notes 8 and 10.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports pension and OPEB related deferrals as further described in Notes 8 and 10 as well as grant carryovers.

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

**Assets, Deferred Outflows, Liabilities, Deferred Inflows and Net Position/Fund Balance** (Continued)

Net Position/Fund Balances - In the government-wide financial statements, net position is either shown as net investment in capital assets, these assets essentially being nonexpendable; restricted when constraints placed on the net position are externally imposed; or unrestricted.

For the governmental fund presentation, fund balances that are classified as “nonspendable” include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts.

Fund balance are reported as “restricted” when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Education, and at their highest level of action are reported as “committed” fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action (for example, legislation, resolution, ordinance) it employed to previously commit those amounts.

Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, are reported as “assigned” fund balance. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

All remaining fund balance in the General Fund or deficits in other governmental funds are reported as unassigned.

**Net Position/Fund Balance Flow Assumptions**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government’s policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance, if allowed under the terms of the restriction. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**WIGGINS SCHOOL DISTRICT RE-50J**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Revenues and Expenditures/Expenses**

Revenues and Expenditures/Expenses – Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees, and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred. Revenues that are directly attributable to a program are shown as program revenues for the statement of activities. These revenues consist of, but are not limited to grants, fees and other charges for services.

Expenditures, where eligible, are first charged to restricted net position prior to being charged against unrestricted net position.

Property Tax Revenues – Property taxes are levied on December 15 based on the assessed value of property as certified by the county assessor on October 1. Assessed values are an approximation of market value. The property tax may be paid in total by April 30 or one-half payment by February 28 and the second half by June 15. The billings are considered due on these dates. The bill becomes delinquent and penalties and interest may be assessed by the County Treasurer on the post mark day following these dates. The tax sale date is the first Thursday of November.

Under Colorado Law, all property taxes become due and payable on January 1, in the year following that in which they are levied. Property taxes are recognized as revenue when payable to the County Treasurer. Due to the nature of Colorado school district funding, uncollected property taxes levied in the current fiscal year for collection in the subsequent fiscal year are identified as property taxes receivable at June 30 and are presented net of an estimated allowance for uncollectible taxes.

**Comparative Data**

Comparative total data for the prior year has been presented in the accompanying basic financial statements in order to provide an understanding of changes in the District's financial position and operations. However, comparative data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to understand.

**Custodial Credit Risk - Deposits**

In the case of deposits, this is the risk that in the event of bank failure, the government’s deposits may not be returned to it. The District’s deposit policy is in accordance with CRS 11-10.5-101, The Colorado Public Deposit Protection Act (PDPA), which governs the investment of public funds. PDPA requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels (\$250,000) must be collateralized by eligible collateral as determined by the PDPA. The financial institution is allowed to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group.

The market value of the collateral must be at least equal to 102% of the uninsured deposits. The institution’s internal records identify collateral by depositor and as such, these deposits are considered uninsured but collateralized. The State Regulatory Commissions for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools. At June 30, 2022, all of the District’s deposits as shown below were either insured by federal depository insurance or collateralized under PDPA and are therefore not deemed to be exposed to custodial credit risk.

	<u>Bank Balance</u>	<u>Carrying Balance</u>

**INVESTMENTS**

The following are the major categories of assets and liabilities measured at fair value on a recurring basis during the year ended June 30, 2022 using quoted market prices in active markets (Level 1), significant observable inputs for similar assets (Level 2) and significant unobservable inputs (Level 3):

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Uncategorized</u>	<u>Total</u>

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

- **Mutual Funds:** Valued at the proportionate share of ownership of the quoted market prices of the underlying assets.

The District recognizes transfers between levels in the fair value hierarchy at the end of the reporting period. During 2022, there were no changes in methods or assumptions utilized to derive the fair value of the District’s assets and liabilities.

The District has invested in mutual funds offered through UMB Corporate Trust Services, as custodian of the District’s Bond Redemption Fund investments. These amounts are held for repayment of the District’s general obligation debt. The custodian’s internal records identify the investments owned by the mutual funds. The District has also restricted other funds as shown above.

Credit Risk

Colorado statutes specify which instruments units of local government may invest, which include:

- Obligations of the United States and certain U.S. government agency securities
- Certain international agency securities
- General obligation and revenue bonds of the U.S. local government entities
- Bankers’ acceptances of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

The District’s investment policy limits its investments to those allowed by Colorado Revised Statute 24-75-601.1 as described above.

**WIGGINS SCHOOL DISTRICT RE-50J**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 2: CASH AND INVESTMENTS (Continued)**

**INVESTMENTS** (Continued)

During the year ended June 30, 2022, the District invested funds in Colotrust. As an investment pool, it operates under the Colorado Revised Statutes (24-75-701) and is overseen by the Colorado Securities Commissioner. It invests in securities that are specified by Colorado Revised Statutes (24-75-601). Authorized securities include U.S. Treasuries, U.S. Agencies, commercial paper (rated A1 or better) and bank deposits (collateralized through PDPA). The pool operates similar to a 2a-7-like money market fund with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. This fund is rated AAAM by the Standard and Poor’s Corporation.

Concentration of Credit Risk

The District places no limit on the amount that may be invested in any one issuer.

Interest Rate Risk

Colorado Statutes require that no investment may have a maturity in excess of five years from the date of purchase unless authorized by the local board. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates, other than those contained in state statutes.

Custodial Credit Risk – Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2022, the District did not have any investments requiring safekeeping.

A summary of the District’s investments is as follows:

**NOTE 8: DEFINED BENEFIT PENSION PLAN**

**Summary of Significant Accounting Policies**

*Pensions.* The District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees’ Retirement Association of Colorado (“PERA”). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**General Information about the Pension Plan**

*Plan description.* Eligible employees of the District are provided with pensions through the SCHDTF—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 8: DEFINED BENEFIT PENSION PLAN (Continued)**

**General Information about the Pension Plan (Continued)**

*Benefits provided as of December 31, 2020.* PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) benefit structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit.
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

**June 30, 2022**

**NOTE 8: DEFINED BENEFIT PENSION PLAN (Continued)**

**General Information about the Pension Plan (Continued)**

As of December 31, 2021, benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments, referred to as annual increases in the C.R.S., once certain criteria are met. Subject to the automatic adjustment provision (AAP) under C.R.S. § 24-51-413, eligible benefit recipients under the PERA benefit structure who began membership before January 1, 2007, and all eligible benefit recipients of the DPS benefit structure will receive the maximum annual increase (AI) or AI cap of 1.00% unless adjusted by the AAP. Eligible benefit recipients under the PERA benefit structure who began membership on or after January 1, 2007, will receive the lesser of an annual increase of the 1.00% AI cap or the average increase of the Consumer Price Index for Urban Wage Earners and Clerical Workers for the prior calendar year, not to exceed a determined increase that would exhaust 10% of PERA’s Annual Increase Reserve (AIR) for the SCHDTF. The AAP may raise or lower the aforementioned AI cap by up to 0.25% based on the parameters specified in C.R.S. § 24-51-413.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the lifetime retirement benefit formula(s) shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

*Contributions provisions as of June 30, 2022:* Eligible employees of, District and the State are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements for the SCHDTF are established under C.R.S. § 24-51-401, *et seq.* and § 24-51-413. Eligible employees are required to contribute 10.50 percent of their PERA-includable salary during the period of July 1, 2021 through June 30, 2022. Employer contribution requirements are summarized in the table below:

	<b>2021</b>
Employer contribution rate	10.90%
Amount of employer contribution apportioned to the Health Care Trust Fund as specified in C.R.S. 24-51-208(1)(f)	-1.02%

Amortization equalization disbursement (AED) as specified in C.R.S. 24-51-411	4.50%
Supplemental amortization equalization disbursement (SAED) as specified in C.R.S. 24-51-411	5.50%
<b>Total employer contribution rate to the SCHDTF</b>	<b>19.88%</b>

<sup>1</sup> Rates are expressed as a percentage of salary as defined in C.R.S. 24-51-101(42).

**NOTE 8: DEFINED BENEFIT PENSION PLAN (Continued)**

**General Information about the Pension Plan (Continued)**

As specified in C.R.S. § 24-51-414, the State is required to contribute \$225 million (actual dollars) direct distribution each year to PERA starting on July 1, 2018. A portion of the direct distribution payment is allocated to the SCHDTF based on the proportionate amount of annual payroll of the SCHDTF to the total annual payroll of the SCHDTF, State Division Trust Fund, Judicial Division Trust Fund, and Denver Public Schools Division Trust Fund. In addition to the \$225 million (actual dollars) direct distribution due July 1, 2022, House Bill (HB) 22-1029, instructs the State treasurer to issue a warrant to PERA in the amount of \$380 million (actual dollars), upon enactment, with reductions to future direct distributions scheduled to occur July 1, 2023, and July 1, 2024.

The allocation for 2021 was as follows:

<u>Trust Fund</u>	<u>Direct Distribution</u>
State Division	\$ 76,706
School Division	127,781
Judicial Division	1,360
DPS Division	<u>19,153</u>
	<u>\$ 225,000</u>

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from District were \$819,460 for the year ended June 30, 2022.

The net pension liability for the SCHDTF was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll-forward the total pension liability to December 31, 2021. The District proportion of the net pension liability was based on District contributions to the SCHDTF for the calendar year 2021 relative to the total contributions of participating employers and the State as a nonemployer contributing entity.

The proportions presented in this schedule are also based on the direct distribution payment received in July 2021 for \$127,781 and is considered a nonemployer contribution that meets the definition of a special funding situation for the purposes of GASB 68 paragraph 15.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2022, the District reported a liability of \$7,675,521 for its proportionate share of the net pension liability. The amount recognized by the District as its proportionate share of the net pension liability, the related support from the State as a nonemployer contributing entity, and the total portion of the net pension liability that was associated with the District were as follows:

**NOTE 8: DEFINED BENEFIT PENSION PLAN (Continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

\$371,919 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended June 30:</b>	<b>Fiscal Year Totals</b>
2023	\$ 498,823
2024	(503,119)
2025	(797,658)
2026	(350,270)
<b>Total</b>	<b>\$ (1,152,224)</b>

*Actuarial assumptions.* The total pension liability in the December 31, 2020 actuarial valuation was determined using the following actuarial cost method, actuarial assumptions and other inputs:

<b>Actuarial cost method</b>	<b>Entry Age</b>
Price inflation	2.30%
Real wage growth	0.70%
Wage inflation	3.00%
Salary increase, including wage inflation	3.40%-11.00%
Long-term investment rate of return, net of pension plan investment expenses, including price inflation	7.25%
Discount rate	7.25%
Post retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07 and DPS benefit structure (automatic) <sup>1</sup>	1.00%
PERA benefit struture hired after 12/31/06 (ad hoc, substantively automatic)	Financed by the Annual Increase Reserve (AIR)

<sup>1</sup> Post-retirement benefit increases are provided by the AIR, accounted separately with each Division Trust Fund, and subject to moneys being available, therefore, liabilities related to increases for members of these benefit tiers can never exceed available assets.

The total pension liability as of December 31, 2021, includes the anticipated adjustments to contribution rates and the annual increase cap, resulting from the 2020 automatic adjustment provision (AAP) assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.

The mortality tables described below are generational mortality tables developed on a benefit-weighted basis.

**NOTE 8: DEFINED BENEFIT PENSION PLAN (Continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

The pre-retirement mortality assumptions were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions were based upon the PubT-2010 Healthy Retiree Table, adjusted as follows:

- **Males:** 112 percent of the rates prior to age 80 and 94 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.
- **Females:** 83 percent of the rates prior to age 80 and 106 percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

Post-retirement non-disabled beneficiary mortality assumptions were based upon the Pub-2010 Contingent Survivor Table, adjusted as follows:

- **Males:** 97 percent of the rates for all ages, with generational projection using scale MP-2019.
- **Females:** 105 percent of the rates for all ages, with generational projection using scale MP-2019.

Disabled mortality assumptions were based upon the PubNS-2010 Disabled Retiree Table using 99 percent of the rates for all ages with generational projection using scale MP-2019.

The actuarial assumptions used in the December 31, 2020, valuations were based on the 2020 experience analysis, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA's Board on November 20, 2020

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

**June 30, 2022**

**NOTE 8: DEFINED BENEFIT PENSION PLAN (Continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board's November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected</b>
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
<b>Total</b>	<b>100.00%</b>	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

*Discount rate.* The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the scheduled increases in SB 18-200, required adjustments resulting from the 2018 AAP assessment, and the additional 0.50%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.

**WIGGINS SCHOOL DISTRICT RE-50J**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 8: DEFINED BENEFIT PENSION PLAN** (Continued)

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** (Continued)

- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the scheduled increase in SB 18-200, required adjustments resulting from the 2018 AAP assessment, and the additional 0.50%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103 percent, at which point the AED and SAED will each drop 0.50 percent every year until they are zero. Additionally, estimated employer contributions reflect reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- As specified in law, the State, as a nonemployer contributing entity, will provide an annual direct distribution of \$225 million (actual dollars), commencing July 1, 2018, that is proportioned between the State, School, Judicial, and DPS Division Trust Funds based upon the covered payroll of each Division. The annual direct distribution ceases when all Division Trust Funds are fully funded.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial FNP, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the FNP position and the subsequent AIR benefit payments were estimated and included in the projections.
- The projected benefit payments reflect the lowered annual increase cap, from 1.25% to 1.00%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the SCHDTF's FNP was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

**NOTE 9: DEFINED CONTRIBUTION PENSION PLAN**

Voluntary Investment Program

*Plan Description* - Employees of the District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Funding Policy* – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. The District does not contribute to the plan. Employees are immediately vested in their own contributions, employer contributions, if any, and investment earnings. For the year ended June 30, 2022 program members contributed \$31,856.

**NOTE 10: OTHER POST-EMPLOYMENT BENEFITS**

**Summary of Significant Accounting Policies**

*OPEB.* The District participates in the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer defined benefit OPEB fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, OPEB expense, information about the fiduciary net position (FNP) and additions to/deductions from the FNP of the HCTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefits paid on behalf of health care participants are recognized when due and/or payable in accordance with the benefit terms. Investments are reported at fair value.

**General Information about the OPEB Plan**

*Plan description.* Eligible employees of the District are provided with OPEB through the HCTF—a cost-sharing multiple-employer defined benefit OPEB plan administered by PERA. The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of the premium subsidies. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report (Annual Report) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

*Benefits provided.* The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the amount of the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

**NOTE 10: OTHER POST-EMPLOYMENT BENEFITS (Continued)**

**General Information about the OPEB Plan (Continued)**

Enrollment in the PERACare is voluntary and is available to benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

*PERA Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. § 24-51-1206(4) provides an additional subsidy. According to the statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

*DPS Benefit Structure*

The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

*Contributions.* Pursuant to Title 24, Article 51, Section 208(1) (f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the District is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the District were \$42,045 for the year ended June 30, 2022.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

At June 30, 2022, the District reported a liability of \$371,344 for its proportionate share of the net OPEB liability. The net OPEB liability for the HCTF was measured as of December 31, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of December 31, 2020. Standard update procedures were used to roll-forward the total OPEB liability to December 31, 2021. The District proportion of the net OPEB liability was based on District contributions to the HCTF for the calendar year 2021 relative to the total contributions of participating employers to the HCTF.

At December 31, 2021, the District proportion was 0.04306 percent, which was an increase of 0.00296 from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the District recognized OPEB expense of \$12,126. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and industry methods developed by health plan actuaries and administrators. In addition, projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services are referenced in the development of these rates. Effective December 31, 2020, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates used to measure the total OPEB liability are summarized in the table below:

Mortality assumptions used in the December 31, 2020 valuation for the determination of the total pension liability for each of the Division Trust Funds as shown below were applied, as applicable, in the determination of the total OPEB liability for the HCTF. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Pre-retirement mortality assumptions for the State and Local Government Divisions (Members other than State Troopers) were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for State Troopers were based upon the PubS-2010 Employee Table with generational projection using scale MP-2019.

The pre-retirement mortality assumptions for the School Division were based upon the PubT-2010 Employee Table with generational projection using scale MP-2019.

Pre-retirement mortality assumptions for the Judicial Division were based upon the PubG-2010(A) Above-Median Employee Table with generational projection using scale MP-2019.

The mortality tables described above are generational mortality tables on a head-count weighted basis.

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF:

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2020 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertaining to per capita health care costs and their related trend rates are analyzed and updated annually by the Board's actuary, as discussed above.

The actuarial assumptions used in the December 31, 2020, valuation were based on the results of the 2020 experience analysis for the period January 1, 2016, through December 31, 2019, and were reviewed and adopted by the PERA Board at their November 20, 2020, meeting.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

**June 30, 2022**

**NOTE 10: OTHER POST-EMPLOYMENT BENEFITS (Continued)**

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)**

<b>Asset Class</b>	<b>Target Allocation</b>	<b>30 Year Expected Geometric Rate of</b>
Global Equity	54.00%	5.60%
Fixed Income	23.00%	1.30%
Private Equity	8.50%	7.10%
Real Estate	8.50%	4.40%
Alternatives	6.00%	4.70%
<b>Total</b>	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25 percent.

*Sensitivity of the District proportionate share of the net OPEB liability to changes in the Health Care Cost Trend Rates.* The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

<b>Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates</b>			
	<b>1% Decrease</b>	<b>Current Trend Rate</b>	<b>1% Increase</b>
Initial PERACare Medicare trend rate	3.50%	4.50%	5.50%
Ultimate PERACare Medicare trend rate	3.50%	4.50%	5.50%
Initial Medicare Part A trend rate	2.75%	3.75%	4.75%
Ultimate Medicare Part A trend rate	3.50%	4.50%	5.50%
Proportionate share of the net OPEB asset (liability)	\$ (398,630)	\$ (409,206)	\$ (421,519)

*Discount rate.* The discount rate used to measure the total OPEB liability was 7.25 percent. The projection of cash flows used to determine the discount rate applied the actuarial cost method and assumptions shown above. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2021, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00 percent.

**WIGGINS SCHOOL DISTRICT RE-50J**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**June 30, 2022**

**NOTE 10: OTHER POST-EMPLOYMENT BENEFITS (Continued)**

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)**

- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the HCTF representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, the HCTF’s FNP was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent.

*Sensitivity of the District proportionate share of the net OPEB liability to changes in the discount rate.* The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

<b>Discount Rate</b>	<b>1% Decrease (6.25%)</b>	<b>Current Discount Rate (7.25%)</b>	<b>1% Increase (8.25%)</b>
Proportionate share of the net pension asset (liability)	\$ (468,753)	\$ (409,206)	\$ (358,328)

*OPEB plan fiduciary net position.* Detailed information about the HCTF’s fiduciary net position is available in PERA’s Annual Report which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 11: RISK MANAGEMENT**

Property and Liability Coverage

The District belongs to the Colorado School District Self Insurance Pool (“CSDSIP”) that was formed in 1981 to give individual school districts more buying power and financial stability. By partnering with districts across the state, members gain better access to essential coverage at a competitive price, and more control over the entire risk management function. The coverage provided by CSDSIP is property, crime, general liability, auto liability and physical damage, and errors and omissions. CSDSIP became self-administered in 1997. The board of directors is comprised of nine persons who are district school board members, superintendents, or district business officials. Each member’s premium contribution is determined by CSDSIP based on factors including, but not limited to, the aggregate CSDSIP claims, the cost of administrative and other operating expenses, the number of participants, operating and reserve fund adequacy, investment income and reinsurance expense and profit sharing. Reporting to the Division of Insurance, as well as an audit and actuarial study is conducted annually. These reports may be obtained by contacting the CSDSIP administrative offices at 6857 South Spruce Street, Centennial, CO 80112. The District has not materially changed its coverage from previous years. The District has not recorded any liability for unpaid claims at June 30, 2022.

CSDSIP has a legal obligation for claims against its members to the extent that funds are available in its annually established loss fund and amounts are available from insurance providers under excess specific and aggregate insurance contracts. Losses incurred in excess of loss funds and amounts recoverable from excess insurance are direct liabilities of the participating members.

The ultimate liability to the District resulting from claims not covered by the pool is not recently determinable. Management is of the opinion that the final outcome of such claims, of any, will not have a material adverse effect on the District’s financial statements.

Other Insurance

The District carries commercial insurance for other risks of loss, including workers compensation.

**NOTE 12: COMMITMENTS AND CONTINGENCIES**

Claims and Judgments – The District participates in a number of federal, state, and county programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the District may be required to reimburse the grantor government. As of June 30, 2022, significant amounts of grant expenditures have not been audited but the District believes that expenditures, if any, based on subsequent audits will not have a material effect on any of the individual governmental funds or the overall financial position of the District.

**NOTE 12: COMMITMENTS AND CONTINGENCIES** (Continued)

Tabor Amendment – In November 1992, Colorado voters passed Article X, Section 20, (the Tabor Amendment), to the State Constitution which limits state and local government tax powers and imposes spending limitations. The District is subject to the Amendment. In November, 1997, voters within the District authorized the District to collect, retain and expend all revenues lawfully received in the 1997-1998 fiscal year and in each fiscal year thereafter from all sources without regard to the limitations imposed by the Amendment. The Amendment is subject to many interpretations, but the District believes it is in substantial compliance with the Amendment. The District has established an emergency reserve of \$275,000, as required by the Amendment.

**NOTE 13: INTERFUND ACTIVITY**

The District has recorded the following routine transfers during the year ended June 30, 2022:

<b>General Fund</b>	
Due From Other Funds	\$ 29,956
<b>Program Reserve Fund</b>	
Due From Other Funds	4,853
<b>Food Service Fund</b>	
Due to Other Funds	(5,606)
<b>Building Fund</b>	
Due to Other Funds	<u>(29,203)</u>
<b>Net Internal Balance</b>	<u>\$ -</u>

The District has the following interfund balances at year end:

<b>General Fund</b>	
Transfer to Pupil Activity Fund	\$ 57,932
Transfer to Cap Res Fund	(100,000)
<b>Bond Redemption Fund</b>	
Transfer from Building Fund	(25,154)
