## INDEPENDENT AUDITORS' REPORT

Board of Health  
Pueblo Department of Public Health and Environment  
101 West 9th Street  
Pueblo, Colorado 81003-4103

### *Opinions*

We have audited the accompanying financial statements of the governmental activities and each major fund, and the aggregate remaining fund information of the Pueblo Department of Public Health and Environment, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Pueblo Department of Public Health and Environment's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund and the aggregate remaining fund information of the Pueblo Department of Public Health and Environment, as of December 31, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Pueblo Department of Public Health and Environment and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Pueblo Department of Public Health and Environment's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Pueblo Department of Public Health and Environment's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Pueblo Department of Public Health and Environment's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplemental Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison, pension information, and other post-employment benefits information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplemental Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Pueblo Department of Public Health and Environment's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 15, 2023 on our consideration of the Pueblo Department of Public Health and Environment's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Pueblo Department of Public Health and Environment's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Pueblo Department of Public Health and Environment's internal control over financial reporting and compliance.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2022**

As management of the Pueblo Department of Public Health and Environment, we offer readers this discussion and analysis in order to provide a financial performance overview of Pueblo Department of Public Health and Environment’s financial activities for the Fiscal Year ended December 31, 2022. Readers are encouraged to use the information presented here in conjunction with the financial statements that follow this narrative.

***Fund Financial Highlights***

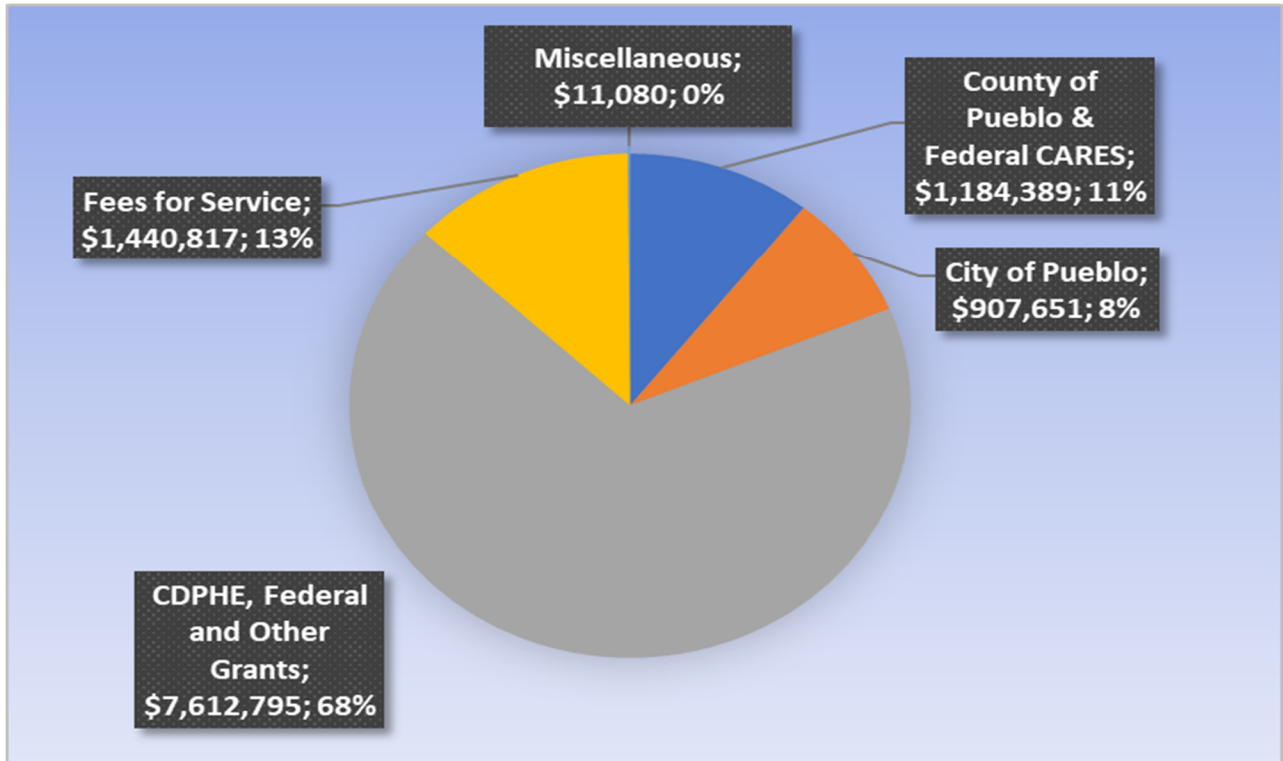

The Pueblo Department of Public Health and Environment is organized on the basis of funds, each considered an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other assets together with all related liabilities, obligations, reserves and equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

- The assets of the primary government of the Pueblo Department of Public Health and Environment exceeded its liabilities by \$4,737,101 at the close of the fiscal year. Of this amount, \$612,917 may be used to meet the Department’s ongoing obligations.
- The total assets of the primary government of the Department increased by \$434,396 due to an increase in accounts receivable and cash holdings. Normal operating liabilities increased by \$220,269. Total fund balance increased by the change in which revenues exceeded expenditures by \$214,131.
- Total revenues decreased by 1% or approximately \$77,000 which was due to a decrease in contributions and private grants. Expenditures increased by 6% or approximately \$580,000 due to an increase in salaries and related benefit payments as well as an increase of expenditures related to the COVID-19 and ELC response efforts.

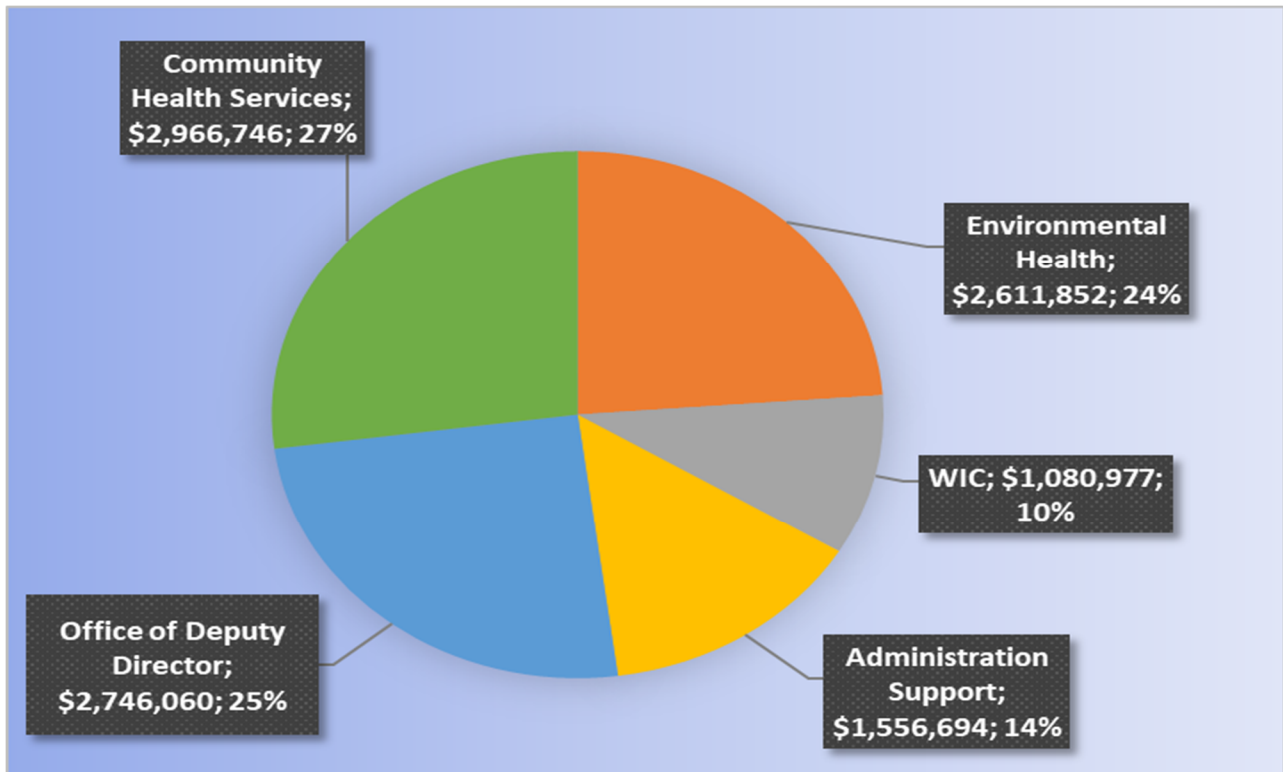

***Overview of the Financial Statements***

The Pueblo Department of Public Health and Environment is funded from a variety of sources. In 2022, the percentage of monies received from each of these sources is shown on the following page:

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2022**

The revenues from the previous sources were distributed in the following manner:

***Government-Wide Statement***

The Statement of Net Position presents information on the Pueblo Department of Public Health and Environment’s assets and liabilities, with the difference between the two reported as “net position.” Increases or decreases in net position may serve as a useful indicator as to whether the financial condition of the Department is improving or deteriorating over time.

The following table reflects the condensed Statement of Net Position compared to the prior Fiscal Year:

|  | <u>2022</u>         | <u>2021</u>           |
|--|---------------------|-----------------------|
| Current and Other Assets                     | \$ 5,832,570        | \$ 5,398,174          |
| Capital Assets                               | 211,707             | 303,645               |
| Net Pension Asset                            | 631,756             | -                     |
| Total Assets                                 | <u>\$ 6,676,033</u> | <u>\$ 5,701,819</u>   |
| <br>   |                     |                       |

| Unrestricted                                 | (649,951)           | (2,936,524)           |
| Total Net Position (Deficit)                 | <u>\$ 55,106</u>    | <u>\$ (2,112,472)</u> |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2022**

The Statement of Activities presents information showing how the Pueblo Department of Public Health and Environment’s net assets changed during the most recent fiscal year. Revenues and expenses in this statement are recorded when earned or a liability is incurred. For example, items such as the value of earned but unused vacation leave will be recorded as an expense of the current period even though the actual use of the vacation time may not be used until subsequent periods.

The following table reflects the condensed Statement of Activities compared to the prior Fiscal Year:

|   | <b>2022</b>         | <b>2021</b>       |
|---|---------------------|-------------------|
| <b>Expenses</b>                                 |                     |                   |
| Health and Welfare                              |                     |                   |
| Administrative                                  | \$ 270,217          | \$ 2,066,855      |
| Health Promotions and<br>Emergency Preparedness | 2,539,170           | 2,208,682         |
| Community Health Services                       | 3,754,540           | 4,069,568         |
| Environment Health                              | 2,444,955           | 2,157,764         |
| Total Expenses                                  | 9,008,882           | 10,502,869        |
| <br><b>Program Revenues</b>                     |                     |                   |
| Charges for Services                            | 1,440,817           | 1,476,090         |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2022**

The table below shows the condensed budget comparison for 2022:

|                          | <u>Final Budget</u>  | <u>Actual</u>        |
|--------------------------|----------------------|----------------------|
| <b>Revenues</b>          |                      |                      |
| Charges for Service      | \$ 1,566,299         | \$ 1,440,817         |
| Intergovernmental        | 1,907,783            | 2,092,040            |
| Grants and Contributions | 7,872,536            | 7,612,795            |
| Investment Earnings      | 500                  | 19,728               |
| Other                    | 92,500               | 11,080               |
|                          | <u>\$ 11,439,618</u> | <u>\$ 11,176,460</u> |
| <b>Expenditures</b>      |                      |                      |
| Personnel and Benefits   | \$ 8,413,142         | \$ 8,519,977         |
| Operating                | 2,903,976            | 2,442,355            |
| Capital Outlay           | 122,500              | -                    |
|                          | <u>\$ 11,439,618</u> | <u>\$ 10,962,332</u> |

The Pueblo Department of Public Health and Environment, continued to respond to COVID-19 needs focused on contract tracing, epidemiology efforts and community outreach. The Health Department continued to receive COVID-19 specific funding to meet the response needs.

***Economic Factors and Next Year’s Budget***

The Pueblo Department of Public Health and Environment provides critical services to the citizens within the City of Pueblo and Pueblo County. The costs of these services continue to rise due to inflation. The Health Department’s Revenue will decrease in 2023 by \$450,000 mainly due to the ending of COVID-19 funding sources. All programs will continue to be evaluated to assure that adequate funding is available to sustain the needed level of services required and to meet the goal of the Department to be fiscally responsible. The Pueblo Department of Public Health and Environment will continue to research new funding sources to meet the Public Health needs of the community.

***Request for Information***

This financial report is designed to provide a general overview of the Pueblo Department of Public Health and Environment’s finances for all interested parties. Questions concerning any information provided in this report or requests should be addressed to the Pueblo Department of Public Health and Environment, Budget and Finance Director, 101 West 9th Street, Pueblo, CO 81003.

|---|-----------------------------------|

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
RECONCILIATION OF THE BALANCE SHEET GOVERNMENTAL FUND - GENERAL FUND  
TO THE STATEMENT OF NET POSITION  
DECEMBER 31, 2022**

**Total Fund Balance - Governmental Fund** \$ 4,737,101

Amounts reported for governmental activities in the statement of net position are different because:

The net pension liability and related deferred items are not available for current period expenditures and are therefore not reported in the governmental funds.

|  |             |
|--|-------------|
| Net Pension Asset                                | 631,756     |
| Net OPEB Liability                               | (491,075)   |
| Deferred Outflows of Resources - Pension Related | 1,106,227   |
| Deferred Inflows of Resources - Pension Related  | (5,475,364) |
| Deferred Outflows of Resources - OPEB Related    | 77,020      |
| Deferred Inflows of Resources - OPEB Related     | (173,476)   |

Capital assets used in governmental activities are not financial resources, and therefore are not reported as assets in governmental funds.

|                          |             |
|--------------------------|-------------|
| Capital Assets           | 1,985,907   |
| Accumulated Depreciation | (1,774,200) |

Liabilities regarding compensated absences are not due and payable in the current period, and therefore are not reported as liabilities in the governmental funds.

(568,790)

|   |                                |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Pueblo Department of Public Health and Environment (Health Department) was established on April 10, 1952, by an intergovernmental agreement between the City of Pueblo and the County of Pueblo. The Health Department operates under the provisions of Colorado Revised Statutes (CRS) 1973, 25-1-504. The governing body of the Health Department is composed of five members, two of which are appointed by the City of Pueblo, two are appointed by the County of Pueblo, and one member is jointly appointed. The governing body of the Health Department appoints the Public Health Director, and the Public Health Director appoints all other personnel. The intergovernmental agreement requires the governing body of the Health Department to submit a proposed annual operating budget to the City of Pueblo and the County of Pueblo. The City and County individually determine the amount of their respective annual subsidies for the Health Department. The intergovernmental agreement also stipulates that the participants shall endeavor to appropriate funds to the Health Department that are reasonable, fair, and equitable to all parties.

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting standards and financial reporting principles.

The more significant accounting and reporting principles and practices used by the Health Department are described below.

**Reporting Entity** - The Health Department follows generally accepted accounting principles (GAAP) that provide guidance for determining which activities, organizations and functions should be included within the financial reporting entity. GAAP establishes financial accountability as the basic criterion for including a possible component organization in a primary government's legal entity. Financial accountability includes but is not limited to; ability to appoint a majority of the organization's governing body, ability to impose its will on the organization, and potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The Health Department does not have any component units.

As stated above, the Health Department operates under the provisions of CRS 1973, 25-1-504. The Health Department is not considered a component unit of the City of Pueblo or County of Pueblo for their annual financial reporting.

**Government-Wide and Fund Financial Statements**

**Government-Wide Financial Statements** - The government-wide financial statements report information on all of the nonfiduciary activities of the Health Department. The degree to which the direct expense of a given function or segment is offset by program revenues (i.e., the statement of activities).

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The government-wide focus is more on the sustainability of the Health Department as an entity and the change in aggregate financial position resulting from activities of the fiscal period. The focus of the fund financial statements is on the major individual fund.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

Since the Health Department does not operate any enterprise fund or internal service fund activities, no proprietary funds are included in this report. The General Fund, because it is considered a major governmental fund, is the Health Department's only fund.

***Fund Financial Statements*** - The accounts of the Health Department are organized on the basis of funds. Each fund is considered an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other assets together with all related liabilities, obligations, reserves and equities, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The Health Department reports the following major governmental fund:

***General Fund*** – The General Fund is the primary operating fund of the Health Department. It accounts for general operating financial resources of the Health Department and all operating expenditures are recorded in this fund.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation** - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay the liabilities of the current period. For this purpose, the Health Department generally considers revenue to be available if collected within 60 days of the end of the current fiscal period. In applying the measurable and available concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Expenditure-driven grants recognize revenue when the qualifying expenditures have been incurred and other grant requirements have been met.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the accrual criteria are met. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds while proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

Grant and entitlement revenues, interest, and charges for services are considered revenues susceptible to accrual. Other receipts are generally not susceptible to accrual because they are not generally measurable until received in cash. Entitlements and shared revenues are recorded at the time of receipt or earlier if the accrual criteria are met. Expenditure-driven grants recognize revenue when the qualifying expenditures have been incurred and other grant requirements have been met.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**Cash, Cash Equivalents, and Investments** - Cash and cash equivalents consist of non-interest-bearing demand deposits. Investments include deposits with Colorado Local Government Liquid Asset Trust (ColoTrust) investment pool and Colorado Surplus Asset Fund Trust (C-Safe) investment pool.

**Prepaid Fees and Grants** - Prepaid items represent payments made for expenditures to be charged to a future accounting period. Prepaid grants represent amounts collected for specified expenditures that have not been incurred yet.

**Capital Assets** - Capital assets of the Health Department consist primarily of furniture and fixtures, computer hardware and software, and equipment and leasehold improvements, used in the routine operations of the Health Department. Durable items with a useful life greater than one year and a cost greater than \$5,000 are capitalized. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the life of the asset are not capitalized.

The following is the Health Department's assets depreciated over their estimated useful lives:

| <u>Asset Type</u>              | <u>Years</u> |
|--------------------------------|--------------|
| Furniture and Fixtures         | 5-10         |
| Computer Hardware and Software | 3            |
| Equipment                      | 3-10         |
| Improvements                   | 20           |

**Compensated Absences** - Health Department employees hired prior to January 1, 2004, may accumulate vacation and sick leave subject to certain limitations regarding total accumulations and the amount that will be paid upon separation from service.

Health Department employees hired on or after January 1, 2004, may accumulate vacation and sick leave subject to certain limitations regarding total accumulations and the amount that will be paid upon separation from service.

Compensated absences are expected to be liquidated with available financial resources, and are reported as an expenditure and fund liability of the General Fund when amounts are due.

**Long-Term Liabilities** - In the government-wide financial statements, long-term debt and other similar long-term obligations are reported as liabilities of the General Fund in the applicable statement of net position.

**Fund Equity** - The Health Department adopted the provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, on January 1, 2011. The objective of the statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. As such, governmental funds report fund balances in classifications based primarily on the extent to which the Health Department is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance for the Health Department's governmental fund consists of the following:

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**Nonspendable** – Includes items not expected to be converted to cash in the near term or funds that legally or contractually must be maintained intact.

**Restricted** – Includes items restricted by external sources like grantors, donors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

**Committed**- Includes amounts that can only be used for the specific purposes determined by a formal action of the Board of Health. The same formal action must be taken to remove or change the limitations placed on the funds.

**Assigned** – Consists of funds intended to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. The Pueblo Department of Public Health and Environment has delegated the authority to the Public Health Director, or his designee, to assign funds and amounts to be used for specific purposes.

**Unassigned** – Is the residual classification of the General Fund and includes all spendable amounts not contained in other classifications. This category also provides the resources necessary to meet any unexpected expenditures and revenue shortfalls.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications, fund balance is reduced in the order of restricted, committed, assigned and unassigned.

In the government-wide financial statements, net position is classified in the following categories:

*Net Investment in Capital Assets* - this classification consists of capital assets net of accumulated depreciation and reduced by outstanding related debt that is attributed to the acquisition, construction, or improvement of capital assets.

*Restricted* - this classification consists of restrictions created by external creditors, grantors, contributors, laws, or regulations of other governments, enabling legislation and constitutional provisions.

*Unrestricted* - this classification represents the remainder of net assets that do not meet the definition of “invested in capital assets, net of related debt”, or “restricted net assets.”

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Deferred Outflows/Inflows of Resources** - This separate financial statement element, *deferred outflows of resources, and deferred inflows of resources* represents consumption or acquisition of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) or an inflow (revenue) until that time.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued**

**Legal Compliance – Budgets** - A formal budget for the General Fund is adopted for each calendar year upon approval by the Board of Health. Management may request the Board of Health adopt supplemental appropriations, when the need arises, but cannot amend the adopted budget. No requests from the Board of Health were made in 2022 for supplemental appropriations.

**NOTE 1 – CASH, CASH EQUIVALENTS, INVESTMENTS, AND DEPOSITS**

Cash, cash equivalents, and investments are summarized as follows:

|                                 |                     |
|---------------------------------|---------------------|
| Cash on Hand                    | \$ 1,087,128        |
| Demand Deposits                 | 55,199              |
| Deposit with County Treasurer   | 1,017,476           |
| Total Cash and Cash Equivalents | <u>\$ 2,159,803</u> |

**Deposits** –At December 31, 2022, the bank balance of the Health Department’s deposits, including deposits with County Treasurer, was \$1,164,171. Of the bank balance, \$250,000 was covered by federal depository insurance and remaining was collateralized in single financial institution collateral pools maintained by the individual financial institutions that hold these deposits but are not subject to credit risk because they are collateralized with securities held by the pledging financial institution’s agent in the Health Department’s name or County Treasurer.

Colorado law requires all public monies be deposited in financial institutions that have been designated as eligible public depositories. Eligible public depositories must pledge qualifying collateral as security for all public deposits held by that institution that are not insured by depository insurance. The market value of the collateral that each institution pledges as security must equal at least 102% of the total uninsured deposits held by that institution. Generally, the eligible collateral in the collateral pools is held by the depository institution or its agent in the name of the depository institution. Custodial credit risk is the risk that, in the event of bank failure, the Health Department’s deposits may not be returned to it. The Health Department does not have a policy for custodial credit risk.

**Investments** - The Health Department is subject to the provision of Colorado Revised Statutes 24-75-601 entitled “Concerning Investment in Securities by Public Entities.” This law, among other things, outlines the types of securities that public entities in Colorado may acquire and hold as investments. These include U.S. government and agency securities, certain bonds of political subdivisions, bankers’ acceptances, commercial paper, local government investment pools, repurchase agreements, money market funds, and guaranteed insurance contracts. The statute also includes a provision limiting any investment to a five-year maturity unless the governing body authorizes a longer period.

The Health Department invests in the ColoTrust Plus+ and C-Safe which are local government investment pools that are not registered with the SEC as investment companies, but both have policies that provide that they will and do operate in a manner consistent with the SEC’s rule 2a7 of the ‘Investment Company Act of 1940’. Rule 2a7 allows SEC-registered mutual funds to use amortized costs rather than market value in computing share prices if certain conditions are met.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 1 – CASH, CASH EQUIVALENTS, INVESTMENTS, AND DEPOSITS - Continued**

The regulatory oversight, for both pools, rests with the Colorado Securities Commission and the fair value of the Health Department’s investment in these two pools is the same as the value of the pool shares.

As of December 31, 2022, the following summarizes the investments and maturities of the Health Department:

| <b>Investment Type</b> | <b>Fair Value</b> |
|------------------------|-------------------|
| Colo Trust Plus+       | \$ 545,131        |
| C-Safe Cash            | 609,707           |
| Total Investments      | \$ 1,154,838      |

ColoTrust and C-Safe are external investment pool valued using the NAV per share (or its equivalent) of the investments. Colo Trust Plus and C-Safe investments do not have any unfunded commitments, redemption restrictions, or redemption notice periods.

ColoTrust Plus is a local investment pools that reports at the fair value per share of the pool’s underlying portfolio. For pricing and redeeming shares, ColoTrust Plus maintains a stable net asset value (NAV) of \$1 per share using the fair value method. ColoTrust is exempt from being measured at fair value and is excluded from the fair value hierarchy.

C-Safe Cash is an external investment pool valued at amortized cost, in accordance with GASB Statement No. 79, Certain External Investment Pools and Pool Participants.

**Interest Rate Risk** - The Health Department’s policy of limiting investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates parallels Colorado statutes.

**Credit Risk** - The Health Department does not have an investment policy that would further limit its investment choices beyond the requirements of Colorado statutes. As of December 31, 2022, the County’s investments, in ColoTrust Plus+ and C-SAFE, were rated AAAM by Standard & Poor’s.

**NOTE 2 – RECEIVABLES**

Receivables at December 31, 2022, consist of the following:

|                               |              |
|-------------------------------|--------------|
| Colorado Department of Health | \$ 1,699,027 |
| Other                         | 767,355      |
|                               | \$ 2,466,382 |

| Furniture and Fixtures                | (398,319)                    | (3,741)            | -                | (402,060)                 |
| Computer Hardware and Software        | (232,225)                    | (2,349)            | 677              | (233,897)                 |
| Equipment                             | (1,069,383)                  | (85,848)           | 18,965           | (1,136,266)               |
| Improvements                          | (1,977)                      | -                  | -                | (1,977)                   |
| <b>Total Accumulated Depreciation</b> | <b>(1,701,904)</b>           | <b>(91,938)</b>    | <b>19,642</b>    | <b>(1,774,200)</b>        |
| <b>Total Capital Assets, Net</b>      | <b>\$ 303,645</b>            | <b>\$ (91,938)</b> | <b>\$ -</b>      | <b>\$ 211,707</b>         |

Depreciation expense was charged to functions/programs as follows:

|  |                  |
|--|------------------|
| Administrative Support                       | \$ 9,019         |
| Health Promotions and Emergency Preparedness | 28,003           |
| Community Health Services                    | 8,932            |
| Environmental Health Services                | 45,984           |
|  | <u>\$ 91,938</u> |

**NOTE 4 - LONG-TERM LIABILITIES**

The following is a summary of changes in long-term liabilities reported in the government-wide financial statements for the year ended December 31, 2022:

| <b>Description</b>   | <b>Beginning<br/>Balance</b> | <b>Net Change</b> | <b>Ending<br/>Balance</b>       | <b>Due Within<br/>One Year</b> |
|----------------------|------------------------------|-------------------|---------------------------------|--------------------------------|
| Compensated Absences | \$ 487,696                   | \$ 81,094         | \$ 568,790                      | \$ 90,667                      |
|                      |                              |                   |                                 | <u>\$ 478,123</u>              |
|                      |                              |                   | Obligations Due Beyond One Year |                                |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 5 – NEW ACCOUNTING PRONOUNCEMENTS AND LEASES**

For 2022, the Health Department implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. GASB Statement No. 87 enhances the relevance and consistency of information of the government’s leasing activities. It establishes requirements for lease accounting based on the principle that leases are financing of the right to use an underlying asset. A lessor is required to recognize a lease receivable and a deferred inflow of resources. These changes had no effect on the Health Department’s 2022 financial statements as the Health Department has no leases applicable to this standard.

**NOTE 6 - FUND BALANCES**

In the fund financial statements, the governmental fund reports the following classification of fund balance at December 31, 2022:

|                                       | <b>Fund Financial<br/>Statements</b> |
|---------------------------------------|--------------------------------------|
| <b>Nonspendable</b>                   |                                      |
| Prepaid Items                         | \$ 51,547                            |
| <b>Restricted</b>                     |                                      |
| Donations and Deferred Income         | 493,350                              |
| <b>Committed</b>                      |                                      |
| Capital Replacement                   | 530,000                              |
| General Operating Fund                | 2,664,287                            |
| Employee Benefit Fund                 | 110,000                              |
| Total Committed Emergency Operating   | 3,304,287                            |
| <b>Assigned</b>                       |                                      |
| Core Services and Emergency Operating | 275,000                              |
| <b>Unassigned</b>                     | 612,917                              |
| Total Fund Balance                    | \$ 4,737,101                         |

**NOTE 7 - RISK MANAGEMENT**

The Health Department is exposed to various risks of loss related to employee health coverage: Injuries to employees, torts, theft of, damage to, and destruction of assets, errors and omissions, and natural disasters for which the Health Department carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN**

**Plan Description and Benefit Provisions**

The Pueblo Department of Public Health and Environment participates in the Local Government Division Trust Fund (LGDTF). The Local Government Division Trust Fund is a cost-sharing multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67 and is administered by the Public Employees’ Retirement Association of Colorado (“PERA”). PERA issues a publicly available annual comprehensive financial report (ACFR) that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly.

The Trust Fund serves as a defined benefit retirement plan where retirees receive a monthly benefit for their lifetime, and generally, an annual increase (AI) each year, as eligible. Members of affiliated employers are eligible to receive lifetime monthly retirement benefit when certain age and service credit requirements are met. These eligibilities vary by the membership date and consider credited service at key dates. The benefits are based upon a defined or fixed multiplier, age, years of credited service, and highest average salary (HAS). For most employees, HAS, as of December 31, 2021, is one-twelfth of the average of the highest annual salaries that are associated with three periods (five periods, under certain circumstance) of 12 consecutive months under PERA-covered employment. The basic retirement benefit equals  $2.5\% \times HAS \times \text{Years of Service}$ . If a member reaches early retirement requirements, then the monthly amount is reduced to consider the early receipt of monthly payments. Alternatively, if greater, a lifetime benefit is available that is calculated by annuitizing the member’s account. At benefit commencement, the member can choose from different payment options, some of which can continue after the retiree’s death to a named beneficiary, and for which the benefit amount is appropriately adjusted.

In addition to retirement benefits, the Trust Fund provides refund opportunities with matching employer dollars, if eligible, when leaving covered employment, and disability retirement and survivor benefits for those meeting certain criteria.

**Contributions** - Eligible employees and the Pueblo Department of Public Health and Environment are required to contribute to the LGDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq.* and § 24-51-413. Eligible employees are required to contribute 8 percent of their PERA-includable salary during the period of January 01, 2022 through December 31, 2022.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN - Continued**

Employers are required to contribute to the Trust Fund at a rate set by Colorado statute. The contribution requirements are established under C.R.S. section 24-51-401, *et eq.* Employer contribution requirements, as a percentage of salary, are summarized in the table below:

|   | <b>January 1<br/>Through<br/>December 31, 2021</b> |
|---|--|
| Employer Contribution   | 10.50%   |
| Amount of Employer Contribution Apportioned to the Health Care Trust Fund as Specified in C.R.S. §24-51-208(1)(f) | -1.02%   |
| Amount Apportioned to the LGDTF   | 9.48%  |
| Amortization Equalization Disbursement (AED) as Specified in C.R.S. §24-51-411                                    | 2.20%  |
| Supplemental Amortization Equalization Disbursement (SAED) as Specified in C.R.S. §24-51-411                      | 1.50%  |
| Defined Contribution Supplement as Specified in C.R.S. §24-51-415   | 0.02%  |
| Total Employer Contribution Rate to the LGDTF   | 13.20%   |

Contribution Rates for the LGDTF are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the LGDTF in the period in which the compensation becomes payable to the member and the Pueblo Department of Public Health and Environment is statutorily committed to pay the contributions to the LGDTF. Employer contributions recognized by the LGDTF from Pueblo Department of Public Health and Environment were \$925,735 for the year ended December 31, 2022.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The collective total pension liability is based upon the December 31, 2020, actuarial valuation, and generally accepted actuarial techniques were applied to roll forward the collective total pension liability to December 31, 2021. The roll forward calculation includes actual benefits, refunds and disability premiums paid for the plan year, interest on the total pension liability, the annual normal costs (also called service costs), changes of benefit terms, differences between expected and actual experience at the end of year, and changes of assumptions or other inputs. At December 31, 2022, the Pueblo Department of Public Health and Environment reported a asset of \$631,756 for its proportionate share of the net pension asset.

The Pueblo Department of Public Health and Environment’s proportion of the net pension asset was based on Pueblo Department of Public Health and Environment’s contributions to the LGDTF for the calendar year 2021 relative to the total contributions of participating employers to the LGDTF.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN – Continued**

The components of the collective net pension liability of the Trust Fund at the measurement date of December 31, 2020, were as follows:

|  |                            |
|--|----------------------------|
| Proportionate share of total pension liability | \$ 42,430,804              |
| Proportionate share of fiduciary net position  | (43,062,560)               |
| Proportionate share of net pension asset       | <u><u>\$ (631,756)</u></u> |

Plan fiduciary net position (FNP) as a percentage of total pension liability is 0.73685% an increase from the prior year of 0.0429%.

For the year ended December 31, 2022, the Pueblo Department of Public Health and Environment, recognized pension benefit of \$1,246,093. At December 31, 2022, the Pueblo Department of Public Health and Environment reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | <u>Deferred<br/>Outflows of<br/>Resources</u> | <u>Deferred<br/>Inflows of<br/>Resources</u> |
|---|---|--|
| Differences Between Actual and Expected Experience                                  | \$ 30,874                                     | \$ 10,552                                    |
| Changes in Assumptions or Other Inputs  | 214,152                                       | -  |
| Net Difference Between Projected and Actual Earnings<br>on Pension Plan Investments | -   | 5,464,812                                    |
| Contributions Subsequent to the Measurement Date                                    | 859,650                                       | -  |
| Changes in Proportion and Other Differences   | 1,551   | -  |
| Total   | <u><u>\$ 1,106,227</u></u>                    | <u><u>\$ 5,475,364</u></u>                   |

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Year Ended December 31,</u> | <u>Amounts Reported as Collective<br/>Deferred Outflows and Collective<br/>Deferred Inflows of Resources<br/>Recognized in Collective Pension<br/>Expense as Follows:</u> |
|--------------------------------|---|
| 2022                           | \$ (1,175,782)  |
| 2023                           | \$ (2,072,878)  |
| 2024                           | \$ (1,318,540)  |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN - Continued**

*Actuarial Assumptions* – The actuarial assumptions used in the December 31, 2020, actuarial valuation, and generally accepted actuarial techniques were applied to roll forward the collective total pension liability to December 31, 2021. The roll forward calculation includes actual benefits, refunds and disability premiums paid for the plan year, interest on the total pension liability, the annual normal costs (also called service costs), changes of benefit terms, differences between expected and actual experience at the end of year, and changes of assumptions or other inputs.

The December 31, 2020, valuation used the following actuarial cost method, actuarial assumptions and other inputs:

|   |              |
|---|--------------|
| Actuarial Cost Method   | Entry Age    |
| Price Inflation   | 2.30%        |
| Real Wage Growth  | 0.70%        |
| Wage Inflation  | 3.00%        |
| Salary Increases, Including Wage Inflation  | 3.20%-12.40% |
| Long-Term Investment Rate of Return, net of Pension Plan Investment Expenses, Including Price Inflation | 7.25%        |
| Discount Rate   | 7.25%        |
| Post-Retirement Structure Hired Prior to 1/1/07 and DPS Benefit Structure (Compounded Annually)         | 1.00%        |

The total pension liability as of December 31, 2021, includes the anticipated adjustments to contribution rates and the annual increase cap, resulting from the 2020 automatic adjustment provision (AAP) assessment, statutory recognized July 1, 2021, and effective July 1, 2022.

The actuarial assumptions used in the December 31, 2020, valuations were based on the 2020 experience analysis, dated October 28, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA’s Board on November 20, 2020.

The mortality tables described below are generational mortality tables developed on a benefit-weighted basis.

Pre-retirement mortality assumptions for Members other than State Troopers were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions for Members other than State Troopers were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

- Males: 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older, with generational projection using scale MP-2019.
- Females: 87% of the rates prior to age 80 and 107% percent of the rates for ages 80 and older, with generational projection using scale MP-2019.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN – Continued**

Disabled mortality assumptions for Members other than State Troopers were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA’s Board on October 28, 2020.

Several factors were considered in evaluating the long-term rate of return assumption for the LGDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board’s November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

| <u>Asset Class</u> | <u>Target<br/>Allocation (%)</u> | <u>30 Year Expected<br/>Geometric Real<br/>Rate of Return %</u> |
|--------------------|----------------------------------|---|
| Global Equity      | 54.00                            | 5.60  |
| Fixed Income       | 23.00                            | 1.30  |
| Private Equity     | 8.50                             | 7.10  |
| Real Estate        | 8.50                             | 4.40  |
| Alternatives       | 6.00                             | 4.70  |
| <b>Total</b>       | <b>100.00</b>                    |   |

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected nominal rate of return assumption of 7.25%.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.25 percent. The basis for the projection of liabilities and the FNP used to determine the discount rate was an actuarial valuation performed as of December 31, 2020, and the financial status of the Trust Fund as of the prior measurement date (December 31, 2020).

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN – Continued**

In addition, the following methods and assumptions were used in the projection of cash flows:

- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employee contributions were assumed to be made at the member contribution rates in effect for each year, including the 2018 AAP assessment, and the additional 0.50%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law for each year, including the required adjustments resulting from the 2018 AAP assessment, and the additional 0.50%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022. Employer contributions also include current and estimated future AED and SAED, until the actuarial value funding ratio reaches 103%, at which point the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- The projected benefit payments reflect the lowered annual increase cap, from 1.25% to 1.00%, resulting from the 2020 AAP assessment, statutorily recognized July 1, 2021, and effective July 1, 2022.
- Benefit payments and contributions were assumed to be made at the middle of the year.

Based on the above assumptions and methods, LGDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 8 – DEFINED BENEFIT PENSION PLAN – Continued**

***Sensitivity of the Pueblo Department of Public Health and Environment Proportionate Share of the Net Pension Asset to Changes in the Discount Rate*** - The following presents the Department’s collective net pension asset calculated using the discount rate of 7.25% as of the measurement date, as well as if the net pension liability or asset were calculated using a discount rate that is 1-percentage point lowers (6.25%) or 1-percent point higher (8.25%):

|   | <b>1% Decrease<br/>6.25%</b> | <b>Discount Rate<br/>7.25%</b> | <b>1% Increase<br/>8.25%</b> |
|---|------------------------------|--------------------------------|------------------------------|
| Health Department's Proportionate<br>Share of Net Pension Liability (Asset) | \$ 4,331,687                 | \$ (631,756)                   | \$ (4,783,459)               |

***Pension Plan Fiduciary Net Position*** - Detailed information about the LGDTF’s fiduciary net position is Available in PERA’s annual comprehensive financial report, which can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**NOTE 9 – DEFINED CONTRIBUTION PENSION PLAN**

***Plan Description*** - Employees of the Pueblo Department of Public Health and Environment that are also members of the LGDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S., as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available annual comprehensive financial report for the Program. That report can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

***Funding Policy*** - The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. Employees are immediately vested in their own contributions, employer contributions, and investment earnings. For the year ended December 31, 2022, program members contributed \$26,290.

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN**

**Health Care Trust Fund (OPEB)**

***OPEB*** – The Pueblo Department of Public Health and Environment contributes to the Health Care Trust Fund ("HCTF"), a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 74 and is administer by the Public Employees’ Retirement Association of Colorado (PERA). PERA issues a publicly available annual comprehensive financial report that can be obtained at [www.copera.org/investments/pera-financial-reports](http://www.copera.org/investments/pera-financial-reports).

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN – Continued**

**Brief Description of Benefits of the OPEB Plan**

The HCTF is established under Title 24, Article 51, Part 12 of the Colorado Revised Statutes (C.R.S.), as amended. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. Title 24, Article 51, Part 12 of the C.R.S., as amended, sets forth a framework that grants authority to the PERA Board to contract, self-insure, and authorize disbursements necessary to carry out the purposes of the PERACare program, including the administration of the premium subsidies.

The HCTF provides a health care premium subsidy to eligible participating PERA benefit recipients and retirees who choose to enroll in one of the PERA health care plans, however, the subsidy is not available if only enrolled in the dental and/or vision plan(s). The health care premium subsidy is based upon the benefit structure under which the member retires and the member's years of service credit. For members who retire having service credit with employers in the Denver Public Schools (DPS) Division and one or more of the other four Divisions (State, School, Local Government and Judicial), the premium subsidy is allocated between the HCTF and the Denver Public Schools Health Care Trust Fund (DPS HCTF). The basis for the premium subsidy funded by each trust fund is the percentage of the member contribution account balance from each division as it relates to the total member contribution account balance from which the retirement benefit is paid.

C.R.S. § 24-51-1202 et seq. specifies the eligibility for enrollment in the health care plans offered by PERA and the amount of the premium subsidy. The law governing a benefit recipient's eligibility for the subsidy and the amount of the subsidy differs slightly depending under which benefit structure the benefits are calculated. All benefit recipients under the PERA benefit structure and all retirees under the DPS benefit structure are eligible for a premium subsidy, if enrolled in a health care plan under PERACare. Upon the death of a DPS benefit structure retiree, no further subsidy is paid.

Eligibility to enroll in PERACare is voluntary and includes among others, benefit recipients and their eligible dependents, certain surviving spouses, and divorced spouses and guardians, among others. Eligible benefit recipients may enroll into the program upon retirement, upon the occurrence of certain life events, or on an annual basis during an open enrollment period.

***PERA Benefit Structure*** - The maximum service-based premium subsidy is \$230 per month for benefit recipients who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for benefit recipients who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum service-based subsidy, in each case, is for benefit recipients with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The benefit recipient pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For benefit recipients not participating in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, C.R.S. §24-51-1206(4) provides an additional subsidy. According to statute, PERA cannot charge premiums to benefit recipients without Medicare Part A that are greater than premiums charged to benefit recipients with Part A for the same plan option, coverage level, and service credit. Currently, for each individual PERACare enrollee, the total premium for Medicare coverage is determined assuming plan participants have both Medicare Part A and Part B and the difference in premium cost is paid by the HCTF or the DPS HCTF on behalf of benefit recipients not covered by Medicare Part A.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

**DPS Benefit Structure** - The maximum service-based premium subsidy is \$230 per month for retirees who are under 65 years of age and who are not entitled to Medicare; the maximum service-based subsidy is \$115 per month for retirees who are 65 years of age or older or who are under 65 years of age and entitled to Medicare. The basis for the maximum subsidy, in each case, is for retirees with retirement benefits based on 20 or more years of service credit. There is a 5 percent reduction in the subsidy for each year less than 20. The retiree pays the remaining portion of the premium to the extent the subsidy does not cover the entire amount.

For retirees who have not participated in Social Security and who are not otherwise eligible for premium-free Medicare Part A for hospital-related services, the HCTF or the DPS HCTF pays an alternate service-based premium subsidy. Each individual retiree meeting these conditions receives the maximum \$230 per month subsidy reduced appropriately for service less than 20 years, as described above. Retirees who do not have Medicare Part A pay the difference between the total premium and the monthly subsidy.

**Contributions** - Pursuant to Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended, certain contributions are apportioned to the HCTF. PERA-affiliated employers of the State, School, Local Government, and Judicial Divisions are required to contribute at a rate of 1.02 percent of PERA-includable salary into the HCTF.

Employer contributions are recognized by the HCTF in the period in which the compensation becomes payable to the member and the Pueblo Department of Public Health and Environment is statutorily committed to pay the contributions. Employer contributions recognized by the HCTF from the Pueblo Department of Public Health and Environment for the years ended December 31, 2022, and 2021 were \$66,105 and \$58,135.

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

The collective total OPEB liability is based upon the December 31, 2020, actuarial valuation, and generally accepted actuarial techniques were applied to roll forward the collective total OPEB liability to December 31, 2021. The roll forward calculation includes actual benefits, interest on the total OPEB liability, the annual normal cost (also called service cost), changes of benefit terms, differences between expected and actual experience at the end of the year, and changes of assumptions or other inputs.

At December 31, 2022, Pueblo Department of Public Health and Environment reported a liability of \$491,075 for its proportionate share of the net OPEB liability. Pueblo Department of Public Health and Environment's proportion of the net OPEB liability was based on Pueblo Department of Public Health and Environment's contributions to the HCTF for the calendar year 2021 relative to the total contributions of participating employers to the HCTF.

At December 31, 2021, the Pueblo Department of Public Health and Environment's proportion was 0.05695%, which was an increase of 0.00416% from its proportion measured as of December 31, 2020.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

For the year ended December 31, 2022, the Pueblo Department of Public Health and Environment recognized OPEB expense of \$45,369. At December 31, 2022, the Pueblo Department of Public Health and Environment reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|  | <b>Deferred<br/>Outflows of<br/>Resources</b> | <b>Deferred<br/>Inflows of<br/>Resources</b> |
|--|---|--|
| Differences Between Actual and Expected Experience | \$ 748  | \$ 116,440                                   |
| Changes in Assumptions and Other Inputs            | \$ 10,167                                     | 26,638                                       |
| Net Difference Between Projected and Actual        | \$  |  |
| Investment Earnings                                | \$ -  | 30,398                                       |
| Contributions Subsequent to the Measurement Date   | \$ 66,105                                     | -  |
| <b>Total</b>                                       | <b>\$ 77,020</b>                              | <b>\$ 173,476</b>                            |

Of the amount reported as deferred outflows of resources related to OPEB, resulting from contributions subsequent to the measurement date, \$66,105 will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| <b>For Plan Year December 31,</b> | <b>Amounts Reported as Collective<br/>Deferred Outflows and Collective<br/>Deferred Inflows of Resources<br/>Recognized in Collective<br/>Pension Expense as Follows:</b> |          |
|-----------------------------------|---|----------|
| 2022                              | \$  | (43,588) |
| 2023                              |   | (47,650) |
| 2024                              |   | (44,823) |
| 2025                              |   | (21,527) |
| 2026                              |   | (4,354)  |
| Thereafter                        | \$  | (618)    |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

*Actuarial Assumptions* - The December 31, 2020, valuation used the following actuarial assumptions and other inputs:

|  |   |
|--|---|
| Actuarial Cost Method  | Entry Age   |
| Price Inflation  | 2.30%   |
| Real Wage Growth   | 0.70%   |
| Wage Inflation   | 3.00%   |
| Salary Increases, Including Wage Inflation                       | 3.20% -11.30%   |
| Long-Term Investment Rate of Return, net of OPEB Plan Investment |   |
| Expenses, Including Price Inflation                              | 7.25%   |
| Discount Rate  | 7.25%   |
| Health Care Cost Trend Rates PERA Benefit Structure:             |   |
| Service-Based Premium Subsidy                                    | 0.00%   |
| PERACare Medicare Plans  | 4.50% in 2021, 6.00% in<br>2022, gradually decreasing to<br>4.50% in 2029 |
| Medicare Part A Premiums   | 3.75% for 2021, gradually<br>increasing to 4.50% in 2029                  |
| DPS Benefit Structure:   |   |
| Service-Based Premium Subsidy                                    | 0.00%   |
| PERACare Medicare Plans  | N/A   |
| Medicare Part A Premiums   | N/A   |

In determining the additional liability for PERACare enrollees who are age 65 or older and who are not eligible for premium-free Medicare Part A in the December 31, 2020, valuation, the following monthly costs/premiums (actual dollars) are assumed for 2021 for the PERA Benefit Structure:

| <b>Medicare Plan</b>                         | <b>Initial Costs for Members<br/>Without Medicare Part A</b> |                            |  |
|--|--|----------------------------|--|
|  | <b>Monthly<br/>Cost</b>                                      | <b>Monthly<br/>Premium</b> | <b>Monthly Cost<br/>Adj. to Age 65</b> |
| Medicare Advantage/Self-Insured Prescription | \$ 633   | \$ 230                     | \$ 591                                 |
| Kaiser Permanente Medicare Advantage HMO     | \$ 596   | \$ 199                     | \$ 562                                 |

The 2021 Medicare Part A premium is \$471 per month.

All costs are subject to the health care cost trend rates, as discussed below.

Health care cost trend rates reflect the change in per capita health costs over time due to factors such as medical inflation, utilization, plan design, and technology improvements. For the PERA benefit structure, health care cost trend rates are needed to project the future costs associated with providing benefits to those PERACare enrollees not eligible for premium-free Medicare Part A.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

Health care cost trend rates for the PERA benefit structure are based on published annual health care inflation surveys in conjunction with actual plan experience (if credible), building block models and heuristics developed by health plan actuaries and administrators, and projected trends for the Federal Hospital Insurance Trust Fund (Medicare Part A premiums) provided by the Centers for Medicare & Medicaid Services. Effective December 31, 2020, the health care cost trend rates for Medicare Part A premiums were revised to reflect the current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

The PERA benefit structure health care cost trend rates that were used to measure the total OPEB liability are summarized in the table below:

| <u>Year</u> | <u>PERACare<br/>Medicare Plans</u> | <u>Medicare Part A<br/>Premiums</u> |
|-------------|------------------------------------|-------------------------------------|
| 2021        | 4.50%                              | 3.75%                               |
| 2022        | 6.00%                              | 3.75%                               |
| 2023        | 5.80%                              | 4.00%                               |
| 2024        | 5.60%                              | 4.00%                               |
| 2025        | 5.40%                              | 4.00%                               |
| 2026        | 5.10%                              | 4.25%                               |
| 2027        | 4.90%                              | 4.25%                               |
| 2028        | 4.70%                              | 4.25%                               |
| 2029+       | 4.50%                              | 4.50%                               |

Mortality assumptions used in the December 31, 2020 valuation for the Local Government Division as shown below, reflect generational mortality and were applied, as applicable, in the December 31, 2020, valuation for the HCTF, but developed on a headcount-weighted basis. Affiliated employers of the State, School, Local Government, and Judicial Divisions participate in the HCTF.

Pre-retirement mortality assumptions were based upon the PubG-2010 Employee Table with generational projection using scale MP-2019.

Post-retirement non-disabled mortality assumptions were based upon the PubG-2010 Healthy Retiree Table, adjusted as follows:

*Males:* 94% of the rates prior to age 80 and 90% of the rates for ages 80 and older, with generational projection using scale MP-2019.

*Females:* 87% of the rates prior to age 80 and 107% of the rates for ages 80 and older, with generational projection using scale MP-2019.

Disabled mortality assumptions were based upon the PubNS-2010 Disabled Retiree Table using 99% of the rates for all ages with generational projection using scale MP-2019.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

The following health care costs assumptions were updated and used in the roll forward calculation for the HCTF.

- Initial per capita health care costs for those PERACare enrollees under the PERA benefit structure who are expected to attain age 65 and older ages and are not eligible for premium-free Medicare Part A benefits were updated to reflect the change in costs for the 2021 plan year.
- The health care cost trend rates for Medicare Part A premiums were revised to reflect the then-current expectation of future increases in rates of inflation applicable to Medicare Part A premiums.

Actuarial assumptions pertain to per capita health care costs and their related trend rates are analyzed and updated analyzed by the Board’s actuary, as discussed above.

The actuarial assumptions used in the December 31, 2020, valuation were based on the 2020 experience analysis, dated October 28, 2020, and November 4, 2020, for the period January 1, 2016, through December 31, 2019. Revised economic and demographic assumptions were adopted by PERA’s Board on November 20, 2020.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every four to five years for PERA. Recently this assumption has been reviewed more frequently. The most recent analyses were outlined in the Experience Study report dated October 28, 2020.

Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in the which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and then adding expected inflation.

The PERA Board first adopted the 7.25 percent long-term expected rate of return as of November 18, 2016. Following an asset/liability study, the Board reaffirmed the assumed rate of return at the Board’s November 15, 2019, meeting, to be effective January 1, 2020. As of the most recent reaffirmation of the long-term rate of return, the target asset allocation and best estimates of geometric real rates of return for each major asset class are summarized in the table as follows:

| <b>Asset Class</b> | <b>Target Allocation</b> | <b>30 Year Expected Geometric Real Rate of Return</b> |
|--------------------|--------------------------|---|
| Global Equity      | 54.00%                   | 5.60%   |
| Fixed Income       | 23.00%                   | 1.30%   |
| Private Equity     | 8.50%                    | 7.10%   |
| Real Estate        | 8.50%                    | 4.40%   |
| Alternatives       | 6.00%                    | 4.70%   |
| <b>Total</b>       | <b>100.00%</b>           |   |

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25 percent.

***Sensitivity of the Pueblo Department of Public Health and Environment Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates*** - The following presents the net OPEB liability using the current health care cost trend rates applicable to the PERA benefit structure, as well as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rates:

|                                       | <b>1% Decrease<br/>in Trend Rates</b> | <b>Current<br/>Trend Rates</b> | <b>1% Increase<br/>in Trend Rates</b> |
|---------------------------------------|---------------------------------------|--------------------------------|---------------------------------------|
| Initial PERACare Medicare Trend Rate  | 3.50%                                 | 4.50%                          | 5.50%                                 |
| Ultimate PERACare Medicare Trend Rate | 3.50%                                 | 4.50%                          | 5.50%                                 |
| Initial Medicare Part A Trend Rate    | 2.75%                                 | 3.75%                          | 4.75%                                 |
| Ultimate Medicare Part A Trend Rate   | 3.50%                                 | 4.50%                          | 5.50%                                 |
| <b>Net OPEB Liability</b>             | <b>\$ 476,973</b>                     | <b>\$ 491,075</b>              | <b>\$ 507,412</b>                     |

***Discount Rate*** - The discount rate used to measure the total OPEB liability was 7.25 percent. The basis for the projection of liabilities and the FNP used to determine the discount rate was an actuarial valuation performed as of December 31, 2020, and the financial status of the Trust Fund as of the prior measurement date. In addition, the following methods and assumptions were used in the projection of cash flows:

- Updated health care cost trend rates for Medicare Part A premiums as of the December 31, 2021, measurement date.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.00%.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date.
- Employer contributions and the amount of total service costs for future plan members were based upon a process to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- Estimated transfers of dollars into the Trust Fund representing a portion of purchase service agreements intended to cover the costs associated with OPEB benefits.
- Benefit payments and contributions were assumed to be made at the middle of the year.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 10 – DEFINED OTHER POST EMPLOYMENT BENEFIT (OPEB) PLAN - Continued**

Based on the above assumptions and methods, the projection test indicates the HCTF’s fiduciary net position was projected to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return of 7.25 percent on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The discount rate determination does not use the municipal bond index rate, and therefore, the discount rate is 7.25 percent. There was no change in the discount rate from the prior measurement date.

***Sensitivity of the Pueblo Department of Public Health and Environment Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate*** - The following presents the proportionate share of the net OPEB liability calculated using the discount rate of 7.25 percent, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

|  | <b>1% Decrease<br/>(6.25%)</b> | <b>Discount Rate<br/>(7.25%)</b> | <b>1% Increase<br/>(8.25%)</b> |
|--|--------------------------------|----------------------------------|--------------------------------|
| Proportionate Share of<br>the Net OPEB Liability | \$ 570,332                     | \$ 491,075                       | \$ 423,376                     |

**NOTE 11 - RELATED PARTIES**

As discussed in the SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, the Health Department was established by intergovernmental agreement between the City of Pueblo and the County of Pueblo. The following is a summary of the related party transactions for the year ended December 31, 2022:

**City of Pueblo**

|  |            |
|--|------------|
| Operating Subsidy Provided to the Health Department - Recorded as Revenue in the Statement of Activities | \$ 819,482 |
|--|------------|

**County of Pueblo**

|  |              |
|--|--------------|
| Operating Subsidy Provided to the Health Department - Recorded as Revenue in the Statement of Activities | \$ 1,184,388 |
|--|--------------|

|  |           |
|--|-----------|
| Payments Made to the County for Use of Data Processing Programs and Applications - Recorded as Expenses in the Statement of Activities | \$ 76,678 |
|--|-----------|

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO FINANCIAL STATEMENTS**

**NOTE 12 - COMMITMENTS AND CONTINGENCIES**

**TABOR Amendment** - Colorado voters passed an amendment to the state constitution in November 1992 that contains several limitations, including revenue raising, spending abilities and other specific requirements affecting state and local governments. The amendment is complex and subject to judicial interpretation, and it has not been determined if the Health Department is subject to the amendment.

**Other** - The Health Department participates in a number of federal and state assisted grant programs. The disbursement of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Health Department. In the opinion of management, however, any such disallowed claims would not have a material effect on the financial statements of the Health Department as of and for the year ended December 31, 2022.

**NOTE 13 - REVENUE – COLORADO DEPARTMENT OF PUBLIC HEALTH & ENVIRONMENT**

The Health Department receives various contracts and grants that are passed on from the Colorado Department of Health and Environment. Total revenue allocated to each function of the Health Department for the year ended December 31, 2022, is as follows:

|  |              |
|--|--------------|
| Per Capita                                   | \$ 420,880   |
| Health Promotions and Emergency Preparedness | 1,420,474    |
| Community Health Services                    | 4,067,441    |
| Environmental Health Services                | 403,370      |
| Total from CDPHE                             | 6,312,165    |
| Other Federal Funding                        | 924,044      |
| Total Intergovernmental Specific Grants      | \$ 7,236,209 |

The Health Department also reports the amounts redeemed under the WIC program for in-kind food debit type cards, from the Colorado Department of Public Health & Environment, in the amount of \$2,711,324. These in-kind donations are not included in the Statement of Activities or the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance, but are reported under the Schedule of Expenditures of Federal Awards as noncash expenditures.

**NOTE 14 - SUBSEQUENT EVENT**

Management has evaluated subsequent events through the date of the Independent Auditors' report which is the date the financial statements were available to be issued.

**PUEBLO DEPARTMENT OF PUBLIC HEALTH AND ENVIRONMENT  
NOTES TO BUDGETARY COMPARISON SCHEDULE - GENERAL FUND  
YEAR ENDED DECEMBER 31, 2022**

**NOTE 1 - BUDGETARY INFORMATION**

The Pueblo Department of Public Health and Environment adopts budgets on a basis consistent with US generally accepted accounting principles for all government funds.

The Pueblo Department of Public Health and Environment uses the following procedures in establishing the budgetary data reflected in the financial statements. These procedures are in compliance with Colorado Revised Statutes.

Budgets are required by state law for all funds. A formal budget is adopted each calendar year upon approval by the Board of Health and is employed as a management control device for the General Fund. In addition, the budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles. Budgetary control exists at the total fund level.

Unused appropriations for all of the annually budgeted funds lapse at the end of the year. Therefore, encumbrances are not presented as a reservation of fund balance and the Pueblo Department of Public Health and Environment appropriates funds in the subsequent year to honor these commitments.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Health  
Pueblo Department of Public Health and Environment  
Pueblo, Colorado

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Pueblo Department of Public Health and Environment, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise Pueblo Department of Public Health and Environment's basic financial statements, and have issued our report thereon dated June 15, 2023.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Pueblo Department of Public Health and Environment's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Pueblo Department of Public Health and Environment's internal control. Accordingly, we do not express an opinion on the effectiveness of Pueblo Department of Public Health and Environment's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pueblo Department of Public Health and Environment's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Pueblo, Colorado

### **Report on Compliance for Each Major Federal Program**

#### ***Opinion on Each Major Federal Program***

We have audited Pueblo Department of Public Health and Environment's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Pueblo Department of Public Health and Environment's major federal programs for the year ended December 31, 2022. Pueblo Department of Public Health and Environment's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Pueblo Department of Public Health and Environment complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2022.

#### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Pueblo Department of Public Health and Environment and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Pueblo Department of Public Health and Environment's compliance with the compliance requirements referred to above.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE – CONTINUED

Page 2

### *Responsibilities of Management for Compliance*

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Pueblo Department of Public Health and Environment's federal programs.

### *Auditor's Responsibilities for the Audit of Compliance*

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Pueblo Department of Public Health and Environment's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Pueblo Department of Public Health and Environment's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Pueblo Department of Public Health and Environment's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Pueblo Department of Public Health and Environment's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Pueblo Department of Public Health and Environment's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### Report on Internal Control over Compliance

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
