MANAGEMENT'S DISCUSSION AND ANALYSIS
(Required Supplementary Information)

Management's Discussion and Analysis

As management of the Project 7 Water Authority, (the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal years ended December 31, 2022 and 2021.

Financial Highlights

- The assets of the Authority exceeded its liabilities at December 31, 2022 and 2021 by \$14,488,604 and \$12,132,193 respectively, (net position). Of this amount, \$4,473,364 and \$4,241,278, at December 31, 2022 and 2021, respectively, (unrestricted net position), may be used to meet the Authority's ongoing obligations to citizens and creditors.
- The Authority's total net position increased by \$2,356,411 and \$1,575,574 for the years ended December 31, 2022, and 2021, respectively.
- The Authority's operating expenses increased from 2021 to 2022 due to increased chemical costs and another full-time employee being added. Water sales increased by 11.0% even though there was a decrease in consumption of 1%. There was a rate increase from \$1.15 per thousand gallons to \$1.30 per thousand gallons of treated water to the contracting parties.
- The cost per 1000 gallons has increased due to the increase in chemical costs and employee costs.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements in an enterprise fund. As an enterprise fund, the Authority's basic financial statements are presented as a special purpose government engaged only in business type activities, i.e. providing water treatment services and are comprised of two components: 1) the financial statements and 2) notes to financial statements used to explain in more detail some of the information in the financial statements.

The Statement of Net Position reports the Authority's current financial resources (short-term spendable resources) with capital assets and long-term obligations. The statements provide information about the nature and the amounts of investments (assets) and the obligations owed by the Authority (liabilities). It provides the basis for evaluating the capital structure of the Authority and assessing the liquidity and financial flexibility of the Authority. However, other non-financial factors should be considered, such as changes in economic conditions and the effects of new or changed governmental legislation.

The Statement of Revenues, Expenses and Changes in Net Position reports the Authority's operating and non-operating revenues and expenses. Operating expenses include all operational costs of the Authority including depreciation. Non-operating revenue includes interest income and non-operating expense includes interest expense.

The Statement of Cash Flows report the Authority's cash flows from operating, capital and investing activities. Also presented are beginning and end of year cash and cash equivalents.

The basic financial statements can be found on pages 4 through 6 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 8 through 16 of the report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information concerning the Authority's budgetary comparisons for revenues and expenditures. Supplementary information can be found on page 17 of this report.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the Authority's financial position. In the case of the Authority, assets exceeded liabilities by \$12,132,193 at the close of the most recent fiscal year.

A majority of the Authority's net position, (approximately 62 percent), reflects its investment in capital assets, (e.g. land, buildings, equipment, water tanks and distribution system), less any related debt used to acquire those assets that is still outstanding. The Authority uses these capital assets to provide services to members; consequently, these assets are not available for future spending. Restricted net position of \$312,500, are those net assets legally restricted for loan covenants.

At the end of the current fiscal year, the Authority is able to report positive balances in all categories of net position. The same situation held true for the prior fiscal year.

	<u>2022</u>	<u>2021</u>
ASSETS		
Current and Other Assets	\$ 11,990,246	\$ 4,788,024
Capital Assets	<u>14,074,964</u>	<u>12,488,840</u>

NET POSITION, ENDING	<u>14,488,604</u>	<u>12,132,193</u>

The end of year cash and investment balances increased due to decreased employee costs and the rate per thousand gallons charged to the member entities increased from 2021 to 2022.

Capital Asset and Debt Administration

Capital Assets. The Authority's investment in capital assets as of December 31, 2022 and 2021 amounted to \$14,074,964 and \$12,488,840, respectively, (net of accumulated depreciation). This investment in capital assets includes land, building, equipment, water tanks and distribution system. The major capital asset event during the past fiscal years are engineering and design for the additional water plant being constructed.

Additional information on the Authority’s long-term debt can be found in note 4 on page 14 of this report.

Economic Factors and Next Year’s Budgets

- In 2022 we selected CDM Smith McCarthy as our design build Contractor for the Resiliency Program. The Design/Builders will be merged with our existing Garver Team and will carry us forward to 30% and 75% design of the Raw water delivery line, Water Treatment Plant, and Finished Water transmission line.
- We applied for and received (Mar 2022) a 50/50 grant from Bureau of Reclamation (USBOR) to demonstrate the best technology for the new water treatment plant. The Pilot Study was conducted during May through August of 2022 by Garver and results were presented in a report. BOR paid for their half of the study via reimbursement.
- This pilot study grant also gives us leverage for up to \$5M construction grants from BOR.
- We have started to draw down the interim loan funds from Colorado Water Resources and Power Development Authority (CWRPDA) (first requisition April 2022)
- We have continued to upgrade monitoring stations on the pipeline to transition to an internet based SCADA system for getting information back from remote sites. The first new technology was installed at Grand Ave. to bring back signals from Chipeta Water District and the City of Montrose. The three sites in Delta are ready to be upgraded thanks to fiber installed by the City of Delta.
- We have contracted with Browns Hill Engineering to run our SCADA system as a vSaaS style that means they host the programming and provide the equipment we need for SCADA and we pay a monthly fee rather than buying a new software system from Rockwell Software. We are still in process of getting that up to speed.
- We were selected to the eligibility list for WIFIA; a relatively new program from US Environmental Protection Agency that can work concurrently with the State funding options to give us better payment options after construction. We are eligible up to \$79M at slightly under 50/49 split with State SRF.

Request for Information

This financial report is designed to provide a general overview of the Project 7 Water Authority's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to Project 7 Water Authority, 69128 E. Hwy 50, P.O. Box 1185, Montrose, Colorado, 81402.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Project 7 Water Authority
Montrose, Colorado

Opinion

We have audited the accompanying financial statements of Project 7 Water Authority, as of and for the year ended December 31, 2022, and the related notes to the financial statements which collectively comprise Project 7 Water Authority's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Project 7 Water Authority as of December 31, 2022, and the respective changes in financial position and cash flow for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Project 7 Water Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Project 7 Water Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on test basis, evidence regarding the amounts and disclosures in the financial statements. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Project 7 Water Authority internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt Project 7 Water Authority's ability to continue as a going concern for a reasonable period of time.

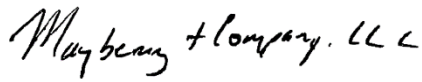

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis listed in the tables of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Project 7 Water Authority's basic financial statements. The individual fund financial statement is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

PROJECT 7 WATER AUTHORITY NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Project 7 Water Authority, (Authority), operates under a contract that established the Authority as a separate governmental entity on September 29, 1977, under Colorado Revised Statutes, 29-1-203. The contracting parties that the Authority provides treated water to are the Cities of Delta and Montrose, Colorado, the Town of Olathe, Colorado, Tri-County Water Conservancy District, Menoken Water District and the Chipeta Water District. The Authority is governed by a board consisting of an appointed representative from each of the contracting parties.

Financial Reporting Entity

Pursuant to the GASB Codification, the Authority applies the criteria outlined commencing at Section 2100.119, to determine which governmental organizations should be included in the reporting entity. The inclusion or exclusion of component units is based on the elected officials' accountability to their constituents, and the financial reporting entity follows the same accountability. Further, the financial statements of the reporting entity should enable the reader to distinguish between the primary government (including its blended component units, which are, in substance, part of the primary government) and discretely presented component units.

The criteria used for determining whether an entity should be included, either blended or discretely presented, includes but is not limited to: fiscal dependency, imposition of will, legal standing, and the primary recipient of services. Based on these criteria, the Authority has no includable component units. The Authority is also not included in the financial statements of any other entity.

Basis of Accounting

The Authority is a special-purpose government engaged only in business-type activities. As such, enterprise fund financial statements are presented.

Proprietary funds, which include enterprise funds, are accounted for on a flow of economic resources measurement focus using the accrual basis of accounting. Therefore, all assets, deferred outflows, liabilities, and deferred inflows associated with the operation of this fund are included on the statement of net position. Revenues and expenses are recorded in the accounting period in which they are earned or incurred, and they become measurable. Net position is segregated into amounts invested in capital assets, restricted for debt service and loan reserves, and unrestricted net assets. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in total net position. Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of the change in net position is necessary or useful to sound financial administration. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Authority are charges to contracting parties for sales of treated water. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Equivalents

For purposes of the statement of cash flows, the Authority treats all demand and money market bank accounts as cash and equivalents.

Investments

The Authority policy is to invest in certificates of deposit and securities guaranteed or issued by the Federal government or its agencies. Investments are stated at fair value.

Inventory

Inventory, consisting primarily of operating supplies for water treatment, is stated at the lower of cost or market. Cost is determined by using last invoice cost.

Receivables

Under the accrual basis of accounting, receivables consist of all revenues earned at year-end and not yet received. Based upon a review of the existing accounts receivable, no allowance for doubtful accounts is required.

Restricted Assets

These assets consist of certificate of deposit, investments and investments classified as cash and cash equivalents restricted for debt service.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Construction costs are increased by interest incurred on bonds during the construction period and reduced by earnings from investment of the unexpended bond proceeds. It is the Authority's policy to capitalize all capital expenditures over \$1,000 with an estimated useful life in excess of two years. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation is calculated using the straight-line method over the estimated useful lives and no depreciation is recorded in the year of acquisition or construction. The estimated useful lives are as follows:

Storage Reservoir	40 years
Buildings and Improvements	5 to 25 years
Water Treatment Plant	15 to 40 years
Equipment	3 to 10 years
Vehicles	5 years
Transmission and Distribution System	40 years

Compensated Absences.

The liability for compensated absences consists of unpaid, accumulated annual leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Debt Issuance Costs.

Debt issuance costs are recognized as an expense during the period of issuance.

PROJECT 7 WATER AUTHORITY NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets

The Authority follows these procedures in establishing the budget. The Authority's manager submits a proposed operating budget to the Board and a public hearing is held prior to December for the following calendar year. The operating budget includes proposed expenditures and the means of financing them. Prior to January 1, the budget is enacted by passage of a resolution. The budget is adopted on a basis consistent with generally accepted accounting principles, (GAAP), except that grants and loan proceeds are budgeted as revenues, principal payments and capital outlays are budgeted as expenditures, and no provision is made for depreciation or system abandonments. Budgeted expenditures are appropriated in total for the Authority and the level of control is in total. The Board of Directors may authorize supplemental appropriations during the year. Unused appropriations lapse at the end of the year.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses during the period. Actual results could differ from those estimates.

Equity

Equity is classified as net position and displayed in three components:

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position - consists of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - all other net position that do not meet the definition of "restricted" or "net investment in capital assets". This net position is available for future operations or distributions.

It is the Authority's policy to fund operations through the most restricted available equity first.

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 2: CASH AND INVESTMENTS

Deposits

The Colorado Public Deposit Protection Act, (PDPA), requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must at least equal the aggregate uninsured deposits.

Cash deposits and investments are comprised of and are allocated on the December 31, 2022 statement of net position as follows:

Cash	\$ 4,579,264
Investments	<u>1,017,298</u>
Total Cash and Investments	<u>\$ 5,596,562</u>
Restricted Cash and Investments	\$ 667,737
Unrestricted Cash and Investments	<u>4,928,825</u>
Total Cash and Investments	<u>\$ 5,596,562</u>

CASH DEPOSITS

At December 31, 2022, the Authority's cash deposits had bank and carrying balances as follows:

	<u>Bank Balance</u>	<u>Carrying Balance</u>
FDIC Insured	\$ 500,000	\$ 500,000
PDPA Collateralized (not in District's name)	<u>4,286,516</u>	<u>4,079,264</u>
Total	<u>\$ 4,786,516</u>	<u>\$ 4,579,264</u>

INVESTMENTS

Credit Risk

Eligible investments shall conform to state law and may include any of the following:

- Obligations of the United States and certain U.S. government agencies securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptance of certain banks
- Commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 2: CASH AND INVESTMENTS (Continued)

At December 31, 2022, the Authority had invested in the Colorado Local Government Liquid, Asset Trust (COLOTRUST), a local government investment pool. As an Investment pool, COLOTRUST operates under the Colorado Revised Statutes (2476-701) and is overseen by the

Colorado Securities Commissioner. COLOTRUST invests in securities that are specified by the Colorado Revised Statutes (2475-601). Authorized securities included US Treasuries, US Agencies, commercial paper (rated A1 or better) and bank deposits (collateralized through PDPA). COLOTRUST operates similar to a 2a-7-like money market fund with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. COLOTRUST is rated AAA by the Standard & Poor's Corporation. A designated custodial bank provides banking services and trust custody for securities held on behalf of the participating governments in COLOTRUST. The custodian's internal records identify the investments owned by the participating governments. This investment is reported at amortized cost which approximates fair value.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local government entities may invest including obligations of the United States and certain U.S. government agency securities; certain international agency securities; general obligation and revenue bonds of U.S. local government entities; bankers' acceptance of certain banks; commercial paper; local government investment pools; written repurchase agreements collateralized by certain authorized securities; certain money market funds; and guaranteed investment contracts.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to decline in fair value due to rising interest rates, the Authority's investment policy requires that the majority of its investments have a maturity date of 1 year or less.

Concentration of Credit Risk

The Authority places no limit on the amount the Authority may invest in any one issuer and all of the investments for the years ended 2021 and 2020 were in ColotrustedPlus.

RESTRICTED CASH AND INVESTMENTS

Restricted cash and investments for the operations and maintenance reserve for 2022 represent an amount equal to three months of subsequent year's budgeted operating expenses as required by the 2008 loan agreements with the Colorado Water Resources and Power Development Authority (CWRPDA) (see Note 4). These monies, per agreement with CWRPDA, can be used for emergency operating purposes, if necessary. The Authority has also restricted funds it has on deposit in escrow per developer agreements. The amount held in construction retainage escrow ultimately belongs to the contractor and a retainage payable account has been established to offset this amount.

Restricted for Capital Projects	\$ 1,691,941
Restricted for Debt Repayment	<u>667,737</u>
Total Restricted Cash	<u>\$ 2,359,678</u>

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 3: CAPITAL ASSETS

Summaries of changes to capital assets for 2022 are as follows:

	Balance 1/1/22	Additions	Deletions	Balance 12/31/22
Assets not being depreciated:				
Land and Rights of Way	\$ 1,412,134	\$ -	\$ -	\$ 1,412,134
Construction in Progress	1,205,417	2,103,256	-	3,308,673
Total assets not being depreciated	<u>2,617,551</u>	<u>2,103,256</u>	<u>-</u>	<u>4,720,807</u>
Assets being depreciated:				
Storage Reservoir & Transmission Line	1,333,704	-	-	1,333,704
Buildings and Improvements	362,390	-	-	362,390

Equipment	829,169	-	-	829,169
Vehicles	102,386	-	-	102,386
Transmission, Storage & Distrib Sys	13,700,285	-	-	13,700,285
Total assets being depreciated	<u>30,987,711</u>	<u>-</u>	<u>-</u>	<u>30,987,711</u>
Less: Accumulated depreciation				
Storage Reservoir & Transmission Line	(1,326,947)	(707)	-	(1,327,654)
Buildings and Improvements	(212,869)	(12,349)	-	(225,218)
Water Treatment Plant	(7,547,633)	(270,561)	-	(7,818,194)
Equipment	(566,784)	(59,367)	-	(626,151)
Vehicles	(86,386)	(4,000)	-	(90,386)
Transmission, Storage & Distrib Sys	(11,375,803)	(170,148)	-	(11,545,951)
Total accumulated depreciation	<u>(21,116,422)</u>	<u>(517,132)</u>	<u>-</u>	<u>(21,633,554)</u>
Net Capital Assets	<u>\$ 12,488,840</u>	<u>\$ 1,586,124</u>	<u>\$ -</u>	<u>\$ 14,074,964</u>

Depreciation expense for the year ended December 31, 2022 was charged to the following operations:

Source of Supply	\$ 706
Water Treatment	337,832
Transmission and Distribution	174,148
Administrative and General	4,446
Total	<u>\$ 517,132</u>

Future Expansion – Construction in Progress

The Authority has purchased property near Ridgeway, Colorado with the intention of building an additional water treatment plant in order to increase treatment capacity for the long-term. The Authority is still in the development stages of planning and designing the additional water treatment plant. The total cost of construction is estimated to be approximately \$70,000,000.

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 4: LONG TERM DEBT

The following is an analysis of changes in long-term debt:

	<u>Balance</u> <u>1/1/22</u>	<u>Advances</u>	<u>Repayments</u>	<u>Balance</u> <u>12/31/22</u>	<u>Due Within</u> <u>One Year</u>	<u>Interest</u> <u>Expense</u>	<u>Accrued</u> <u>Interest</u>
2008 CWRPDA Loan	\$ 4,910,425	\$ -	\$ 481,864	\$ 4,428,561	\$ 487,601	\$ 180,195	\$ 75,307
2021 CWRPDA Interim Loan	-	7,000,000	-	7,000,000	-	-	-
Accrued Compensated Leave	59,919	-	3,437	56,482	-	-	-
Total Noncurrent Liabilities	<u>\$ 4,970,344</u>	<u>\$ 7,000,000</u>	<u>\$ 485,301</u>	<u>\$ 11,485,043</u>	<u>\$ 487,601</u>	<u>\$ 180,195</u>	<u>\$ 75,307</u>

The Authority has an outstanding loan with the Colorado Water Resources and Power Development Authority. In 2008, the Authority entered into a loan agreement to complete the improvements of the existing water treatment plant. The loan contains various covenants and a revenue pledge.

Among the covenants are rate maintenance provisions, operations and maintenance reserve requirements and provisions against providing free service or capacity to any person, firm, corporation, public agency or instrumentality.

The 2008 loan requires semiannual payments through August 2030 with interest at an effective rate of approximately 3.82 percent. The Authority has the option to repay the loan in whole or in part upon prior written notice.

The Authority has pledged the revenue from the operation and use of the water treatment facilities and other legally available revenue, after the payment of operation and maintenance expenses of the system, for the repayment of the above loans. The loan agreements contain restrictive covenants and requirements, including a rate covenant (See Note 9) and maintenance of a three-month operating reserve for the 2008 loan (See Note 2). The Authority was in compliance with the covenants and requirements of the loan agreements at December 31, 2022.

A schedule of future loan payments is as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 487,601	\$ 173,219	\$ 660,820
2024	499,074	162,684	661,758
2025	504,810	156,666	661,476
2026	527,756	127,457	655,213
2027	550,702	112,085	662,787
2028	585,121	77,164	662,285
2029	619,540	36,868	656,408
2030	653,957	(8,679)	645,278
2028-2030	<u>1,858,618</u>	<u>105,353</u>	<u>1,963,971</u>
Total	<u>\$ 4,428,561</u>	<u>\$ 837,464</u>	<u>\$ 5,266,025</u>

Short-Term Loan

In August 2021, the Authority obtained an interim loan from the Colorado Water Resources and Power Development Authority in the principal amount of \$7,000,000 for up to 24 months at an interest rate of 3% for constructing the Ridgeway Water Treatment Plant. As of December 31, 2022, the Authority had drawn \$907,016 of the loan with the remaining \$6,092,984 shown as Cash with Fiscal Agent on the balance sheet.

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 5: BENEFIT PLANS

The Authority provides pension benefits for all employees through a Simplified Employee Pension (SEP) defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The Authority contributes 14.20% of the employee’s base salary each month. Contributions are transferred to an insurance company under terms of a group contract. Employees are not permitted to contribute to the plan. Full vesting of benefits begins immediately.

The Authority’s total payroll, base salary and contribution amounts were as follows:

	<u>2022</u>
Total Payroll	\$ 697,907
Base Salary	684,220
Contributions	97,159

NOTE 6: RECONCILIATION OF PROPRIETARY (GAAP) REVENUES AND EXPENSES TO BUDGETARY REVENUES AND EXPENDITURES

The Authority prepares its budget annually. The following reconciliation is presented to reconcile the annual budgeted revenues and expenditures to the GAAP basis financial statements.

	<u>Revenues</u>	<u>Expenditures</u>
Budgetary Basis	\$ 11,766,362	\$ 4,477,938
GAAP Basis Adjustments		
Capital Outlay	-	(2,103,255)
Debt Proceeds	(7,000,000)	-
Debt Service Principal	-	(481,864)
Depreciation Expense	-	517,132
GAAP Basis	\$ 4,766,362	\$ 2,409,951

NOTE 7: COMMITMENTS AND CONTIGENCIES

TABOR Amendment

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue, and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned businesses authorized to issue revenue bonds and receiving less than 10 percent of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR. The Authority's management believes, after consultation with legal counsel, it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including interpretation of qualification as an Enterprise will require judicial interpretation.

**PROJECT 7 WATER AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS**

NOTE 8: RISK MANAGEMENT

The Authority is exposed to risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Such exposure, except for the distribution system, is covered by purchase of commercial insurance, including worker’s compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

NOTE 9: RATE MAINTENANCE

The 2008 Colorado Water Resources and Power Development Authority loan agreement requires that Net Revenues shall represent a sum equal to 110% of the amount necessary to pay when due the principal and interest on the loan and any parity debt coming due.

Operating revenues	\$	4,211,889
