INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Grand Fire Protection District No. 1
Grand County, Colorado

Opinions

We have audited the financial statements of the governmental activities and each major fund of Grand Fire Protection District No. 1 (the District) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2023, and the respective changes in financial position thereof, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

I

Fiscal Focus Partners, LLC

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate to those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages IV through X and pension information on pages 33 through 35 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information as identified in the table of contents is presented for purposes of additional analysis and legal compliance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Grand Fire Protection District No. 1 MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of Grand Fire Protection District No. 1's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2023. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should review the information presented here in conjunction with the basic financial statements and the notes to financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- Assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$9,229,551 (net position). Of this amount, \$505,801 (unrestricted net position) may be used to meet the District's ongoing obligations to its citizens and creditors.
- The District's total net position increased by \$851,001 over the prior fiscal year.
- General fund and related activity remained consistent to prior year, with the following changes:
 - General fund revenue increased \$297,620 from the prior year, primarily as a result of increased property tax revenue and wildland fire assignment revenue.
 - General fund capital expenditures decreased 16% to \$4,473,460 from the prior year as a result of completion of the North Station construction which commenced in prior year.
 - General fund capital-related long-term debt decreased by \$145,000 as payment on the certificates of participation issued in the prior year commenced.
- The general fund ending fund balance was \$1,919,078, a decrease of \$4,224,618. The decrease is due to expenditures to complete the North Station project. Restricted cash of \$2,830,167 was utilized and then the District utilized unassigned funds for the remainder of the project. The unassigned portion of the general fund balance decreased by \$2,288,500.

Effective January 1, 2015, the District and all other state and local governments throughout the nation that provide their employees with pension benefits, were required to apply GASB Statement No. 68 to their financial statements. The objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. The District provides its employees with pension benefits through a multiple employer cost-sharing defined benefit pension plan administered by the Colorado Fire and Police Pension Association. It is important to note that the District does not have a responsibility to pay the amount shown as the District's net pension liability, nor receive a benefit from the net pension asset. The District's direct liability is limited to the annually required contributions established by the State Legislature. In addition, the District does not have any control over the investment policies associated with FPPA investments. These responsibilities lie solely with the FPPA board and administration. Decisions regarding the plan benefit design and the funding policies lie solely with the State Legislature. Please refer to Note 7 within the Notes to Financial Statements section of this report starting on page 19.

Grand Fire Protection District No. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)

The District also sponsors a defined benefit plan for volunteers which is subject to GASB 68. Information related to the plan can be found in Note 8 within the Notes to Financial Statements section of this report starting on page 24.

Overview of the Financial Statements

Grand Fire Protection District No. 1's basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The governmental activities of the District include fire, rescue and emergency services within its boundaries. In addition, the District maintains mutual aid and automatic aid agreements with adjacent fire protection districts. Other activities include fire prevention and fire safety education, fire training, fire inspections and plan reviews.

The government-wide financial statements can be found on pages 1-2 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Grand Fire Protection District No. 1, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Grand Fire Protection District No. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Grand Fire Protection District No. 1 maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the debt service fund, both of which are considered to be major funds.

The District adopts an annual appropriated budget for each of the funds described above. A budgetary comparison statement has been provided for these funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 3-8 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 9-31 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain supplemental information. A budgetary comparison for the debt service fund can be found on page 37 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of Grand Fire Protection District No. 1, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$9,229,561 at the close of the most recent fiscal year.

**Grand Fire Protection District No. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Net Position

	Governmental Activities	
	2023	2022
Current assets	\$ 6,003,329	\$ 8,978,934
Pension assets	-	160,916
Capital assets	16,173,537	11,895,816
Total assets	22,176,866	21,035,666
Deferred outflows of resources	503,716	211,179
Current liabilities	536,812	597,975
Pension liabilities	971,413	751,053
Long-term obligations	8,501,768	9,227,217
Total liabilities	10,009,993	10,576,245
Deferred inflows of resources	3,441,028	2,292,040
Net position:		
Net investment in capital assets	7,671,769	5,498,766
Restricted	1,051,991	1,207,786
Unrestricted	505,801	1,672,008
Net position	\$ 9,229,561	\$ 8,378,560

The District has 83% of its net position invested in capital assets (e.g., property, plant, and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, this net position is *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (11%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of \$505,801 (6%) may be used to meet the District's ongoing obligations to citizens and creditors.

Net position - ending	\$ 9,229,561	\$ 8,378,560

Financial Analysis of the Government's Funds

As noted earlier, Grand Fire Protection District No. 1 uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

**Grand Fire Protection District No. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
(continued)**

As of December 31, 2023, the District's governmental funds reported a combined ending fund balance of \$2,355,538, a decrease of \$4,203,414 in comparison with the prior year. The general fund balance decreased \$4,224,618 as a result of capital expenditures, primarily for the completion of the North Station construction while the debt service fund increase \$21,204.

General Fund Budgetary Highlights

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The Board of Directors can only amend appropriation resolutions upon completion of notification and publication requirements.

General fund revenues were more than budgeted by \$202,137. General Fund expenditures were less than budgeted by \$630,260 partially because a portion of amounts budgeted for capital expenditures for the District were not expended during 2023.

Capital Asset and Debt Administration

Capital Assets. The District's investment in capital assets for governmental activities as of December 31, 2023 amounts to \$16,173,537 (net of accumulated depreciation). This investment in capital assets includes land, buildings, vehicles, furniture and equipment.

Capital Assets, net of Depreciation

	December 31,	
	2023	2022
Land and improvements	\$ 1,149,262	\$ 1,149,262
Construction in process	-	5,181,241
Buildings and improvements	13,349,200	4,052,200
Vehicles	1,456,852	1,268,259
Equipment, furniture & fixtures	218,223	244,854
Total	\$ 16,173,537	\$ 11,895,816

Additional information relating to the District's capital assets activity can be found in Note 4 of this report.

Debt Administration. As of December 31, 2023, the District had general obligation bonded debt outstanding of \$835,000, and certificates of participation outstanding of \$6,880,000.

Additional detail on the District's debt is in Note 5 of this report.

**Grand Fire Protection District No. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Economic Factors and Next Year's Budget

New growth is expected to continue throughout the District during 2024. Conservative budgeting and spending will continue. The 2024 budget includes capital expenditures related to the purchase of additional apparatus and equipment.

General fund revenues budgeted for 2024 are anticipated to be sufficient to fund budgeted expenditures. Bond fund revenues will be sufficient to support bond debt service requirements in 2024.

Requests for Information

This financial report is designed to provide a general overview of Grand Fire Protection District No 1's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

GRAND FIRE PROTECTION DISTRICT NO. 1
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the year ended December, 31, 2023

Net change in fund balance - total governmental funds	\$ (4,203,414)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital expenditures, net	4,473,460
Depreciation expense	(195,739)
The issuance of long-term debt provides current financial resources to governmental funds while the repayment of the principal consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.	
Bond principal payments	520,000
COPS principal payments	145,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in government funds.	
Amortization of bond premium	5,506
Amortization of cost of refunding	(17,879)
Amortization of COPS premium	54,943
Pension expense	70,483
Compensated absences - change in liability	(6,307)
Interest expense - change in accrued interest	4,948
	4,948
Change in net position of governmental activities	\$ 851,001

The accompanying Notes to Financial Statements are an integral part of these statements.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS

December 31, 2023

Note 1 – Reporting entity

The District, a quasi-municipal corporation and political subdivision of the State of Colorado, was organized in 1951, and is governed pursuant to the provisions of the Colorado Special District Act (Title 32, Article 1, Colorado Revised Statutes). The District provides fire protection and responds to various emergency situations in a 150 square mile area within the Granby, Colorado region.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity.

Note 2 – Summary of significant accounting policies

The more significant accounting policies of the District are described as follows:

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District except for the fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and inter-governmental revenues.

The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, internally dedicated revenues,

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures, other than interest on long-term obligations, generally are recorded when a liability is incurred or the long-term obligation is paid.

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest, and are being accumulated for principal and interest maturing in future years.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

Pooled cash and investments

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Property taxes

Property taxes are levied based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November and December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable. The deferred inflows are recorded as revenue in the year they are available or collected.

Capital assets

Capital assets, which include property, plant, and equipment, are reported in the governmental activities of the government-wide financial statements at cost, net of accumulated depreciation. Capital assets are defined by the District as those assets with a cost of \$2,500 or greater and an estimated life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Interest incurred during the construction phase of capital assets is not included as part of the capitalized value of the assets constructed.

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2023

Depreciation expense has been computed using the straight-line method over the following estimated economic useful lives:

Buildings	30-50 years
Vehicles	10-20 years
Furniture and fixtures	5 years
Equipment	10 years

Compensated absences

The District has a policy whereby employees are compensated for unused paid time off. Unused accumulated paid hours will be paid based on an employee's regular rate of pay at time of termination. The earned, unpaid balance as of December 31, 2023 is approximately \$31,434.

Long-term debt

In the government-wide financial statements, long-term debt is reported as liabilities in the statement of net position.

In the fund financial statements, the face amount of debt issued is reported as other financing sources in the current period.

Fund Balances

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: non-spendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Non-spendable fund balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as inventory) or is legally or contractually required to be maintained intact.

Restricted fund balance – The portion of fund balance constrained to being used for a specific purpose by external parties (such as grantors or bondholders), constitutional provisions or enabling legislation.

Committed fund balance – The portion of fund balance constrained for specific purposes according to limitations imposed by the District's highest level of decision making authority, the Board of Directors prior to the end of the current fiscal year. The constraint may be removed or changed only through formal action of the Board of Directors.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

Assigned fund balance – The portion of fund balance that is constrained by the government’s intent to be used for specific purposes, but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned fund balance – The residual portion of fund balance that does not meet any of the above criteria.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the District’s policy to use the most restrictive classification first.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The total appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that District management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Fire Protection Postemployment Benefit Plan

The Governmental Accounting Standards Board (GASB) released Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, that is effective for the District for the year ending December 31, 2018. This statement details the reporting requirements for employers regarding other post-employment benefit (OPEB) plans.

FPPA administers the Statewide Death & Disability Plan discussed in Note 7, which qualifies as a cost sharing multiple-employer defined benefit OPEB plan under the standard. This plan covers substantially all active full-time (and some part-time) employees of fire and police departments in Colorado. As it pertains to the requirements in Statement No. 75 regarding the FPPA Statewide Death & Disability Plan and the District,

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2023

FPPA concluded that because all contributions to the plan are considered member contributions (and not employer), the employers' proportionate share of any Net OPEB liability (asset) is \$-0-.

Note 3 – Cash and investments

Cash and investments are reflected on the December 31, 2023 financial statements as follows:

	<u>Governmental</u>
Cash and investments	\$ 1,550,438
Cash and investments - restricted	1,049,133
Total cash and investments	\$ 2,599,571

Cash and investments as of December 31, 2023 consist of the following:

	<u>Governmental</u>
Deposits with financial institutions	\$ 1,131,444
Investments	1,468,127
Total cash and investments	\$ 2,599,571

Deposits with financial institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. As of December 31, 2023, the federal insurance limit was \$250,000. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2023, the District's cash deposits had bank balances of \$1,170,007 and carrying balances of \$1,131,444.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

Custodial credit risk - deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has adopted a deposit policy, which follows state statutes, for custodial credit risk. As of December 31, 2023, all of the District's bank balances and carrying balances were fully insured or collateralized.

Investments

The District's investment policy follows state statutes regarding investments. Colorado revised statutes limit investment maturities to five years or less unless formally approved by the District. Such actions are generally associated with a debt service reserve or sinking fund requirements.

Revenue bonds of local government securities, corporate and bank securities and guaranteed investment contracts not purchased with bond proceeds are limited to maturities of three years or less.

The District primarily limits its investments to local government investment pools, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to custodial credit risk for investments that are in the possession of another party.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- Obligations of the United States, certain U.S. government agency securities and securities of the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Certain certificates of participation
- Certain securities lending agreements
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

Fair Value Measurement and Application

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2023

prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments not measured at fair value and not categorized include governmental money market funds (PFM Funds Governmental Select series), money market funds (generally held by Bank Trust Departments in their role as paying agent or trustee), CSAFE which is recorded at amortized cost, and COLOTRUST which is recorded at net asset value.

As of December 31, 2023, the District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amount</u>
Colorado Liquid Asset Trust (COLOTRUST)	Weighted average under 60 days	\$ 1,468,127

COLOTRUST

The District invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST) (the Trust), an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust offers shares in three portfolios, two in which the District invests in from time to time, COLOTRUST PRIME and COLOTRUST PLUS+. Both portfolios operate similarly to a money market fund and each share is equal in value to \$1.00. The portfolios may invest in U.S. Treasury securities and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and any security allowed under CRS 24-75-601. A designated custodial bank serves as custodian for the Trust's portfolios pursuant to a custodian agreement. The custodian acts as safekeeping agent for the Trust's investment portfolios and provides services as the depository in connection with direct investments and withdrawals. The custodian's internal records segregate investments owned by the Trust. COLOTRUST is rated AAAM by Standard & Poor's. COLOTRUST records its investments at fair value and the District records its investment in COLOTRUST at net asset value as determined by fair value. There are no unfunded commitments, the redemption frequency is daily and there is no redemption notice period.

Cash and investments - restricted

At December 31, 2023, \$562,531 of cash and investments in the Governmental Funds were restricted for fire impact expenditures. \$433,602 of Governmental Funds cash and investments were restricted for future payment of bond principal, interest and related costs.

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2023

Article X, Section 20 of the Constitution of the State of Colorado requires the District to establish emergency reserves (see Note 12). At December 31, 2023, \$53,000 of Governmental Funds cash and investments were restricted in compliance with this requirement.

Note 4 – Capital assets

An analysis of the changes in capital assets for the year ended December 31, 2023 follows:

	Balance at December 31, 2022	Increases	Decreases	Balance at December 31, 2023
Capital assets, not being depreciated

Series 2012 general obligation bonds	1,355,000	-	520,000	835,000	535,000
Premium	9,508	-	5,506	4,002	3,393
Total long-term obligations	<u>\$ 9,227,217</u>	<u>\$ -</u>	<u>\$ 725,449</u>	<u>\$ 8,501,768</u>	<u>\$ 746,378</u>

A description of long-term obligations outstanding as of December 31, 2023 is as follows:

\$5,260,000 of General Obligation Bonds, Series 2012 dated August 24, 2012

The bonds were issued in the amount of \$5,260,000 due through May 15, 2025, with interest rates of 2.0% to 3.0%. The bonds were issued primarily to refund the Series 2004 Bonds and to pay costs of issuance. Principal payments are due annually on November 15 and interest is payable semi-annually on November 15 and May 15. The 2012 Series bonds are subject to redemption prior to maturity. The 2012 Series Bonds currently have a rating by Fitch of AA-.

The bonds are secured by the District's full faith and credit. All taxable property within the boundaries of the District is subject to ad valorem taxation without limitation as to rate or amount to pay the principal of and interest on the Bonds when due.

The District issued the 2012 bonds to achieve a net present value benefit of \$457,283 over the term of the bonds.

The District's long-term bond obligations will mature as follows:

Year Ended December 31	Principal	Interest	Total
2024	\$ 535,000	\$ 20,875	\$ 555,875
2025	300,000	3,750	303,750
	<u>\$ 835,000</u>	<u>\$ 24,625</u>	<u>\$ 859,625</u>

December 31, 2023

Certificates of Participation

In June 2022, The District entered into a Lease Purchase Agreement with a financial institution for the Certificates of Participation, Series 2022 (COPS) in the amount of \$7,025,000, the proceeds of which were used for the financing of construction of the District's north station and pay the cost of issuing the certificates. The COPS are to be retired over a 25-year period with interest at 5%. The COPS are subject to annual appropriation and do not constitute a general obligation or other indebtedness or multiple fiscal year obligation of the District within the meaning of any constitutional statutory debt limitation. Principal payments are due annually and interest payments are due semiannually through December 15, 2047.

The District's long-term bond obligations will mature as follows:

Year Ended December 31	Principal	Interest	Total
2024	\$ 155,000	\$ 344,000	\$ 499,000
2025	160,000	336,250	496,250
2026	170,000	328,250	498,250
2027	180,000	319,750	499,750
2028	190,000	310,750	500,750
2029-2033	1,095,000	1,402,000	2,497,000
2034-2038	1,390,000	1,100,250	2,490,250
2039-2043	1,780,000	715,750	2,495,750
2044-2047	1,760,000	225,000	1,985,000
	<u>\$ 6,880,000</u>	<u>\$ 5,082,000</u>	<u>\$ 11,962,000</u>

Debt authorization

At December 31, 2023, the District had no authorized but unissued debt.

Note 6 – Net position

The District reports net position consisting of three components – net investment in capital assets, restricted, and unrestricted.

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2023

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2023, the District had a net investment in capital assets as follows:

Capital assets, net	\$ 16,173,537
Current portion of outstanding long-term obligations	(746,378)
Noncurrent portion of outstanding long-term obligations	<u>(7,755,390)</u>
Net investment in capital assets	<u>\$ 7,671,769</u>

Restricted assets include net position that is restricted for use either externally imposed by creditors, grantors, contributors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. As of December 31, 2023, the District had restricted net position as follows:

Emergencies (Note 12)	\$ 53,000
Fire impact expenditures	562,531
Debt service (Note 5)	<u>436,460</u>
Total restricted net position	<u>\$ 1,051,991</u>

The District had unrestricted net position of \$505,801 and total net position of \$9,229,561 as of December 31, 2023.

Note 7 – Firefighters pension plan

State Fire and Police Pension Plan (FPPA)

The District contributes to the Statewide Defined Benefit Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the Colorado Fire and Police Pension Association (FPPA). The Statewide Defined Benefit Plan (SWDB) provides retirement benefits for members and beneficiaries. Death and disability coverage is provided for members hired prior to January 1, 1997 through the Statewide Death and Disability Plan, which is also administered by the FPPA. This is a noncontributory plan. All full-time, paid firefighters of the District are members of the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. Local revenue sources are responsible for funding of the Death and Disability benefits for firefighters hired on or after January 1, 1997.

Colorado statutes assign the authority to establish benefit provisions to the state legislature. FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for both the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. FPPA's comprehensive annual financial report that can be at <http://www.fppaco.org>.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

Subsequent to the measurement date, the assets and liabilities of the Statewide Defined Benefit Plan and Statewide Hybrid Plan were combined to form the Statewide Retirement Plan effective January 1, 2023, based on House Bill 22-1034. The Statewide Defined Benefit Plan became the Defined Benefit Component of the Statewide Retirement Plan.

Description of Benefits

A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member's combined years of service and age equals at least 80, with a minimum age of 50 (Rule of 80).

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members currently covered under Social Security will receive half the benefit when compared to the Statewide Defined Benefit Plan. Benefits paid to retired members are evaluated and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index or the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W).

A member is eligible for an early retirement at age 50 with at least five years of credited service or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

Contributions

The Plan sets contribution rates at a level that enables all benefits to be fully funded at the retirement date of all members. Contribution rates for the SWDB plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership. Effective January 1, 2021, contribution rates for employers and members

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2023

may be increased equally by the FPPA Board of Directors upon approval through an election by both the employers and members.

Members of the SWDB plan and their employers are contributing at the rate of 12.0 percent and 9.5 percent, respectively, of base salary for a total contribution rate of 21.5 percent in 2023. In 2014, the members elected to increase the member contribution rate to the SWDB plan beginning in 2015. Member contribution rates are 12.0 percent of pensionable earnings for the foreseeable future. Employer contributions will increase 0.5 percent annually beginning in 2021 through 2030 to a total of 13.0 percent of pensionable earnings. Contributions to the SWDB plan from the District were \$39,863 for the year ended December 31, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2023, the District reported a net pension liability of \$27,882 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. At December 31, 2022, the District's proportion was 0.03141 percent, which was an increase of 0.00172 percent from its proportion measured as of December 31, 2021.

For the year ended December 31, 2023, the District recognized pension expense of (\$19,667). At December 31, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between Expected and Actual Experience	\$ 60,354	\$ 3,422
Changes of Assumptions or other Inputs	35,720	-
Net Difference between Projected and Actual Earnings on Pension Plan Investments	63,095	-
Changes in Proportion and Differences between Contributions Recognized and Proportionate Share Share of Contributions	9,681	19,516
Contributions Subsequent to the Measurement Date	39,863	-
Total	\$ 208,713	\$ 22,938

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2023

\$39,863 in total reported as deferred outflows of resources related to pension resulting from District contributions subsequent to measurement date will be recognized as an addition to the net pension liability in the year ended December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	-	<u>Amount</u>
2024	\$	12,267
2025		24,776
2026		37,178
2027		51,714
2028		9,959
Thereafter		10,018

Actuarial Assumptions

The total pension liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>Total Pension Liability</u>	<u>Actuarial Determined Contributions</u>
Actuarial Valuation Date	January 1, 2023	January 1, 2022
Actuarial Method	Entry Age Normal	Entry Age Normal
Amortization Method	N/A	Level % of Payroll, Open
Amortization Period	N/A	30 Years
Long-term Investment Rate of Return*	7.0%	7.0%
Projected Salary Increases*	4.25 - 11.25%	4.25 - 11.25%
Cost of Living Adjustments (COLA)	0.0%	0.0%
*Includes Inflation at	2.5%	2.5%

For determining the total pension liability and actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The preretirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2018 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2019. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.5 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2022 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	35.00 %	8.93 %
Equity Long/Short	6.00	7.47
Private Markets	34.00	10.31
Fixed Income - Rates	10.00	5.45
Fixed Income - Credit	5.00	6.90
Absolute Return	9.00	6.49
Cash	1.00	3.92
Total	100.00	

Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the FPPA Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SWDB plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2023

Sensitivity of the District’s Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the District’s proportionate share of the net pension liability (asset) calculated using the discount rate of 7.00 percent, as well as what the District’s proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Proportionate Share of the Net Pension Liability (Asset)	\$ 192,212	\$ 27,882	\$(108,237)

Pension Plan Fiduciary Net Position

Detailed information about the SWDB’s fiduciary net position is available in FPPA’s comprehensive annual financial report, which can be obtained at <http://www.fppaco.org>.

Note 8 – Volunteer Pension Fund

Plan Descriptions and Provisions

The District, on behalf of its volunteer firefighters, contributes to an agent multi-employer defined benefit pension plan (the Plan). The plan provides retirement benefits for members and beneficiaries according to the plan provisions as enacted and governed by the Pension Fund Board of Trustees. Colorado Revised Statutes (CRS), as amended, establishes basic benefit provisions for such plans. The Plan is included as a Pension Trust fund of the District and the Pension Trust does not issue separate statements.

Volunteers Covered by Benefit Terms

As of the December 31, 2023, the following employees were covered by the benefit terms:

Retirees and Beneficiaries	29
Inactive, Nonretired Members	-
Active Members	8
Total	37

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2023

Benefits provided

The Plan provides retirement, survivor, death and funeral benefits. The plan provides a retirement benefit of \$700 a month for 20 or more years of service for all participants. For 4 participants vested prior to 2015, benefits are provided with a minimum of 10 years of service at a rate of \$35 per month for every year of service. Survivor's death benefit is a \$350 monthly benefit payment. Funeral benefit to the family members is a one-time payment of \$1,400.

Funding policy.

The contributions are not actuarially determined. An actuary is used to determine the adequacy of contributions. The Actuarial study as of January 1, 2023, indicated that the current level of contributions to the fund are adequate to support, on an actuarially sound basis, the prospective benefits for the present plan.

Contributions

For the year ended December 31, 2023, the District contributed \$90,000 to the plan.

Net Pension Liability

The total pension liability is based on an actuarial valuation performed as of January 1, 2023 and a measurement date of December 31, 2022. This measurement date is within two years of the plan sponsor's fiscal year-end of December 31, 2023 and may be used for December 31, 2023 reporting purposes.

Actuarial Assumptions. The total pension liability in the January 1, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurements:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Open*
Remaining Amortization Period	20 years*
Asset Valuation method	5-Year smoothed fair value
Inflation	2.50%
Salary Increases	N/A
Investment Rate of Return	7.00%
Retirement Age	50% per year of eligibility until 100% at age 65.

*Plans that are heavily weighted with retiree liabilities use an amortization period based on the expected remaining lifetime of the participants.

Grand Fire Protection District No.1

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2023

Mortality:

Pre-retirement: 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality.

Post-retirement: 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.

Disabled: 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.

For the purpose of this valuation, the long-term expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 4.05% (based on the weekly rate closet to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount rate is 7.00%.

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits). Being that the plan's fiduciary net position is projected to be sufficient to pay benefits, the long-term expected rate of return of 7.00% was used as the discount rate.

\$90,000 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a decrease in the pension liability in the year ended December 31, 2024. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ended December 30	Deferred Amounts
2024	\$ (3,545)
2025	9,214
2026	24,361
2027	46,576
Total	\$ 76,606

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in a separately issued FPPA financial report.

Note 9 – Deferred compensation plan

The District established a deferred compensation plan pursuant to Internal Revenue Code Section 457, which is being administered by the FPPA. The District has no administration or trustee responsibilities for this plan. Neither the assets nor corresponding liabilities of this plan are reflected in these financial statements. During 2023, the District contributed \$31,738 and the District's employees contributed \$31,738 to the Plan.

Grand Fire Protection District No.1
NOTES TO FINANCIAL STATEMENTS
(continued)

December 31, 2023

Note 10 – Intergovernmental Agreements

Joint Wildland Division (JWD)

During 2023 the District and Grand Lake Fire Protection District #2 (GLFPD2) developed a framework whereby the Districts will collaborate to develop the Joint Wildland Division (JWD), a wildland program, to provide larger benefits for the firefighters and residents of both fire protection districts. The JWD will allow both Districts to provide higher levels of staffing, training and experience to address the current trends in quantity, scale and intensity of modern Wildland Urban Interface fires.

Grand County Wildfire Council (GCWC) Memorandum of Understanding (MOU)

In 2023 the District and GCWC entered into an MOU to retain and utilize resources for the benefit of all residents and visitors to Grand County. The MOU provides for two employment positions within the District which will be funded by both the District and GCWC. These Grand Fire employees report to both the fire chief and the GCWC board of directors. Under the terms of the MOU, the District committed to \$70,000 annually related to these positions for up to four years, not to exceed \$240,000. The District invoices GCWC quarterly for the greater of 50% of the cost of the employment or the remainder of payroll costs not covered by the District.

Joint construction and facility use agreement

Grand Fire Protection District No. 1 and East Grand Fire Protection District No. 4 entered into a Joint Construction and Facility Use Agreement on June 27, 2006. The Districts agreed to share equally, the construction costs and future operating and maintenance costs of a regional response facility (known as the “South Station” or “Red Dirt Station”) in Grand County. The Districts have been utilizing this facility since then, providing living quarters to active firefighters and responding to emergencies in both Districts, improving response times and increasing manpower on scene.

Land valued at \$150,000 was donated by the YMCA of the Rockies for the South Station site. The Districts contributed \$270,000 each toward construction. The facility is being operated now by a joint management committee made up of two members from each District’s board. The Districts will rotate responsibility for management of the facility. The completed construction cost of \$1,075,603 was divided equally between the assets of both districts.

Grand Fire Protection District No.1

**NOTES TO FINANCIAL STATEMENTS
(continued)**

December 31, 2023

Note 11 – Risk management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees or volunteers; and natural disasters. The District carries commercial coverage for these risks of loss. Claims have not exceeded coverage in any of the last three fiscal years.

Note 12 – Tax, spending and debt limitation

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

On November 6, 2001, registered electors of the District passed an issue allowing the District, in the year 2002 and each subsequent year thereafter, to collect, retain, and expend the full proceeds of the District's fees, taxes, non-federal grants, and other revenues and to spend such revenue for debt service, District operations, capital projects, and any other lawful District purpose, notwithstanding any State of Colorado restrictions on revenues or spending including the restrictions of Article X, Section 20, of the Colorado Constitution, the revenue limitations in Section 29-1-301 of the Colorado Revised Statutes or any other law.

On May 4, 2004 the District voters approved a mill levy override to provide funds for District operations, allowing the District to levy up to 0.850 mills for such purposes. On November 18, 2021, voters approved a mill levy increase to provide an additional \$340,000 in 2022 and by such amounts as may be collected annually thereafter by imposing a maximum operating mill levy of 10 mills to pay operating, capital improvement and certain other expenses, which may be adjusted to offset refunds, abatements, and changes to the percentage of actual valuation used to determine assessed valuation.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.
