Introductory Section

June 24, 2024

To the Honorable Board of Directors and Citizens of Windsor Severance Fire:

The following is the Annual Comprehensive Financial Report (ACFR) of Windsor Severance Fire Rescue (WSFR) for the fiscal year ending December 31, 2023. The Government of Finance Officers Association (GFOA) established the Certificate of Achievement for Excellence in Financial Reporting Program to encourage and assist state and local governments to go beyond the minimum requirements of generally accepted accounting principles to prepare annual comprehensive financial reports that evidence the spirit of transparency and full disclosure and then to recognize individual governments that succeed in achieving that goal. These goals are perfectly aligned with the goals of Windsor Severance Fire Rescue.

The Office of the State Auditor's Local Government Audit Division tracks about 4,000 Colorado local governments for compliance with the Local Government Audit Law [Section 29-1-601, et seq., C.R.S.], which requires submission of an annual independent financial audit to the State Auditor. This report is published and submitted to the Office of the State Auditor to fulfill that requirement for the fiscal year ended December 31, 2023.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Walker Armstrong, a certified public accounting firm, has issued an unmodified ("clean") opinion on the Windsor Severance Fire Rescue financial statements for the year ended December 31, 2023.

The independent auditor's report is located at the front of the financial section of this report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

District Profile

On May 12, 1902, the Windsor Fire Department was organized for the protection of the property within the Town of Windsor. The Department started with just 550 feet of hose, a nozzle, and a couple of axes and buckets. Today WSFR has four fire stations featuring state-of-the-art equipment and highly trained firefighters.

WSFR is an ISO class 2 agency that provides fire and emergency services in Northern Colorado. The District is approximately 100 square miles located in Weld and Larimer Counties and includes the Towns of Windsor, Severance and portions of Fort Collins, Loveland, Eaton, and Greeley. WSFR is dedicated to providing quality fire suppression and prevention, Emergency Medical Services (EMS), community engagement, and public education while striving for the highest level of professionalism for over 60,000 residents served. The community outreach programs include CPR, First Aid classes, and school-aged and senior fire prevention programs.

WSFR responds to a wide variety of emergencies. On average, fire crews respond to eleven calls for service per day making WSFR one of the busiest fire departments in Weld County. The total number of calls for 2023 was 4,778, which is an increase of 11.8% from 2022 to 2023. This call volume is comprised of 81 fire incidents, 1,208 service and good intent incidents, 471 false alarms, 117 other incidents, and 2,901 EMS incidents. Community growth has led to consistent increases in call volume year over year. Effective planning, increased training to respond to new hazards, and active partnerships with local government and developers are all imperative for our ability to respond to increasing calls for service. These focused efforts combine to help ensure a safe community and efficient use of our valuable resources to best serve our citizens and visitors.

The vision of WSFR is “Building a culture of unwavering commitment to our community and each other while striving for greatness.”

The values of WSFR include:

“Readiness” – We will anticipate the needs of our community through preparedness, education, and continual improvement.

“Excellence” – We will pursue mastery of technical knowledge, skills, and abilities.

“Courage” – We will display the mental strength and moral character to do what is right, even in the presence of personal and professional adversity.

“Respect” – We will serve our community and each other with dignity, integrity, appreciation and kindness, while valuing the diversity and efforts of all.

The District is governed by a five-member Board elected by the public that is comprised of a Board President and four members including a Vice President, Board Secretary, and Treasurer. All board members are elected at large and serve staggered, three-year terms. The Board hires and has authority over a Fire Chief who is charged with managing the day-to-day operations of the District. The Board is required to adopt an annual budget which serves as the foundation for financial planning and control. The budget is prepared by fund, function, and object and is approved at the fund level. A current organization chart follows:

WINDSOR SEVERANCE FIRE RESCUE ORGANIZATIONAL CHART AUGUST 2022

About the Area

WSFR serves both the residents and visitors along the Front Range of Colorado which sits within two counties. While historically a more rural and agricultural community, Windsor became the home to Eastman Kodak in the early 1970s which helped to set the stage for other commercial expansion and the need to develop additional infrastructure to support this growth. The Fire District continues to experience significant residential and commercial growth due to being nestled between the larger communities of Greeley, Loveland, and Fort Collins. Notable industry includes a new minor league baseball and soccer complex, Vestas Blades Americas which produces large windmill blades for wind farms around the world, Owens-Illinois, Inc. which manufactures more than 2 million brown beverage bottles each year, Front Range Energy which is a leading producer and supplier of fuel ethanol, as well as many other companies in operation and other commercial projects that are in the planning stages including hotels, restaurants, and other large industrial projects. Additionally, Windsor and Severance have several master-planned, residential communities of significance and boasts many recreational opportunities within the Fire District and the region as it sits in the shadow of Rocky Mountain National Park and are hosts to golf courses and a large section of the Cache La Poudre River.

Budget Overview

The District budgets in accordance with the requirements of state law. The general and capital funds are budgeted on the modified accrual basis of accounting.

The Board of Directors adopts the general, capital, and debt service funds budget prior to December 15th. Throughout the budget process, the Board reviews the budgeted expenses at the fund, function, and object level. This is done to allow the Board and participating community members to gain a more detailed understanding of the budget. Although the Board reviews the budget at the fund, function, and object level, the budget is approved at the fund level and sets the level by which actual expenditures should not exceed budgeted expenditures. The legal level of budgetary control is at the fund level.

Budgeted expenditures lapse at year-end and may not be carried over to subsequent years.

Local Economy and Outlook

In recent years, the communities of Windsor and Severance has seen continued growth partly caused by historically low interest rates and an influx of people moving into the region that had low inventory of housing. The District's assessed value is a vital metric tracked by the District as a significant amount of revenue is based on the assessed value of property. This can be highlighted by the District realizing a 3% increase in commercial real estate assessment and a 6% increase in residential real estate assessment from 2022 to 2023. As WSFR looks into the future, increasing interest rates may influence real estate values but more time will be needed to understand the potential impact this has on the assessed value of property.

Outside of the population growth, Oil and Gas are a significant part of the local economy and WSFR's property tax revenue. This revenue source is highly volatile and fluctuates drastically and is illustrated by a 116% increase in Oil and Gas property value from 2022 to 2023. This increase was the key contributor to the overall increase in revenue from 2022 to 2023.

Long-term financial planning and major initiatives

While constantly adapting to the needs of the community, WSFR is always working toward long-term financial stability. WSFR implemented Impact Fees for new commercial and residential development to help offset long term capital costs needed to provide emergency services to the record-setting growth it is experiencing. These fees must be earmarked for capital improvement items that are directly tied to growth such as new station or apparatus costs, etc. This allows tax revenue to enhance operational capabilities with programs and associated staffing needed to meet future service delivery requirements.

Throughout the year, and particularly during budgeting, WSFR makes decisions based on the long-term financial sustainability of the District. This involves projecting operational cost and revenue over a five-year period while constantly evaluating the capital improvement plan and balancing the needs of the organization within its financial constraints.

Using focused and detailed financial management, WSFR has increased both its unrestricted fund balance and ability to fund capital needs. Given both the GFOA minimum recommendation of maintaining no less than two months of regular fund operating revenues and the volatility associated with WSFR revenues and expenses, this increased fund balance is an important piece in providing

long-term financial sustainability for the organization and its ability to provide the highest level of service to the communities it serves.

Relevant Financial Policies

WSFR has adopted a comprehensive set of financial policies. These policies are constantly evaluated for their effectiveness and how they keep the Governing Board and staff focused on increased internal controls, reporting, and long-term sustainability. The policies implemented have been effective in protecting the District and its focus on maintaining service levels while also providing long-term sustainability and success.

Awards and Acknowledgements

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Windsor Severance Fire Rescue for its Annual Comprehensive Finance Report (ACFR) for the fiscal year ended December 31, 2022. This was the first year that government achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

We would like to express our sincere gratitude to the personnel of the finance department who assisted and contributed to the preparation of this report. We also extend our sincerest appreciation to Board Chair Robert Thorn, Members of the Board, the managers, employees, and citizens of the District whose continued support is vital to the financial health of Windsor Severance Fire Rescue.

Respectfully submitted,

Christopher Angermuller
Fire Chief

Independent Auditor's Report

Board of Directors and Management
Windsor Severance Fire Protection District
Windsor, Colorado

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Windsor Severance Fire Protection District (the District), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 10, the budgetary comparison information on pages 37 and 38, and the pension related schedules on pages 39 through 41, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The budgetary comparison schedules for the capital fund and impact fund on pages 42 and 43 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedules for the capital fund and impact fund are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Windsor Severance Fire Protection District
Management's Discussion and Analysis
Year Ended December 31, 2023**

As management of Windsor Severance Fire Protection District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2023. We encourage readers to consider the information presented here in conjunction with District's financial statements, which begin on page 11. This annual financial report consists of three parts, Management's Discussion and Analysis (this section), the basic financial statements and the statistical section.

Nature of Operations

The District was created in 1950 by several citizens concerned about fire protection for their homes and businesses. The District provides fire services to homes, property and persons residing within the District boundaries which encompasses the towns of Windsor and Severance, Colorado.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$32,211,540. Of this amount, \$14,130,368 is invested in capital assets, net of related debt.
- Other assets decreased by \$11,728,916 due to the State delaying the certification of the property tax mill from December 2023 to January 2024.
- During the year, the District's total net position increased by \$2,540,386 or 8.56% from the previous year.
- Total revenues increased over the previous fiscal year by \$1,763,031 or 13.49% due to an increase for property tax of \$2,637,347, investment earnings of \$544,039, offset by a decrease in charges for service of \$621,183 and impact fees of \$601,459.
- Total public safety expenses increased by \$2,538,316.
- At the end of the current fiscal year, unrestricted net position for governmental activities was \$17,716,704.

Overview of the Financial Statements

Management's discussion and analysis is intended to serve as an introduction to the District's basic financial statements which are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the basic financial statements. This report also contains required supplementary information and a statistical section in addition to the basic financial statements themselves.

The main purpose of these statements is to provide the reader with sufficient information to assess whether or not the District's overall financial position has improved or deteriorated.

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. Consequently, the entity-wide presentation utilizes the accrual basis of accounting and consolidates all governmental funds of the District.

Management's Discussion and Analysis - Continued

Government-wide Financial Statements

The *statement of net position* presents information on all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements can be found on pages 11 and 12 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Management establishes governmental funds based on the application of generally accepted accounting principles and the evaluation of applicable laws, regulations and reporting objectives.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains three (3) governmental funds: the general fund, capital fund and impact fund.

Management's Discussion and Analysis - Continued

Fund Financial Statements - Continued

Information is presented separately in the governmental funds balance sheet and governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, capital fund and impact fund (major governmental funds). The concept and determination of major funds has been established by the Governmental Accounting Standards Board (GASB).

The District adopts an annual appropriated budget to provide for its general fund. A budgetary comparison statement for the general fund has been provided as part of the supplementary information following the basic financial statements to demonstrate compliance with the budget and is presented on pages 37 through 38. The District revises the capital improvement plan annually to outline anticipated replacements and projects to be completed during the year using the general fund.

The basic governmental funds financial statements can be found on pages 13-16 of this report.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 17-36 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report includes required supplementary information, other than *Management's Discussion and Analysis*, concerning a comparison of the District's budget to actual revenues and expenditures, as described earlier and can be found on pages 37 and 38 of this report and certain pension information is reported on pages 39 through 41.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$32,211,540 at the close of the 2023 fiscal year. A portion of the District's net position, \$14,130,368, reflects its investment in capital assets (e.g., land, construction in progress, buildings and improvements, machinery and equipment, vehicles, right-to-use subscription assets); less any related outstanding debt used to acquire those assets.

Management's Discussion and Analysis - Continued

Government-Wide Financial Analysis - Continued

The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The District had \$364,468 in restricted fund balance for emergencies with a remaining unrestricted net position of \$17,716,704.

The District's \$19,912,621 in capital assets consists of land, construction in progress, buildings and improvements, machinery and equipment, vehicles, and right-to-use subscription assets.

The following contains an analysis of the current year government-wide statements.

Condensed Statements of Net Position

GOVERNMENTAL ACTIVITIES

	<u>2023</u>	<u>2022</u>
Assets		
Cash and investments	\$ 17,315,120	\$ 15,115,813
Other assets	423,259	12,152,175
Net pension asset	-	2,924,460
Capital assets, net	<u>19,912,621</u>	<u>20,292,578</u>
Total assets	37,651,000	50,485,026
Deferred outflows of resources related to pension	3,937,105	1,771,420
Liabilities		
Current liabilities	350,401	651,384
Noncurrent liabilities	<u>7,987,187</u>	<u>7,202,964</u>

Deferred inflows of resources		
Related to property taxes	-	11,962,894
Related to pensions	<u>1,038,977</u>	<u>2,768,050</u>
Total deferred inflows of resources	<u>1,038,977</u>	<u>14,730,944</u>
Net position		
Net investment in capital assets	14,130,368	14,127,578
Restricted	364,468	2,528,967
Unrestricted	<u>17,716,704</u>	<u>13,014,609</u>
Total net position	<u>\$ 32,211,540</u>	<u>\$ 29,671,154</u>

Management's Discussion and Analysis - Continued

Government-Wide Financial Analysis - Continued

The following table presents a summary of the District's revenues and expenses for the current fiscal year:

Condensed Statements of Activities

GOVERNMENTAL ACTIVITIES

	<u>2023</u>	<u>2022</u>
Revenues:		
Program revenues:		
Charges for services	\$ 912,676	\$ 1,533,859
Impact fees	314,523	915,982
Operating grants and contributions	46,098	279,340
General revenues:		
Property taxes	11,889,891	9,252,544
Specific ownership taxes	562,424	567,457
Investment earnings	833,543	289,504
Other revenue	<u>276,204</u>	<u>233,642</u>
Total revenues	14,835,359	13,072,328
Expenses:		
Public safety	<u>12,294,973</u>	<u>9,756,657</u>
Total expenses	<u>12,294,973</u>	<u>9,756,657</u>
Change in net position	2,540,386	3,315,671
Net position, beginning of year	<u>29,671,154</u>	<u>26,355,483</u>
Net position, ending of year	<u>\$ 32,211,540</u>	<u>\$ 29,671,154</u>

The cost of all governmental activities for the year ended December 31, 2023, was \$12,294,973, the majority of which is salaries and wages.

Financial Analysis of the Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and generally accepted accounting principles (GAAP).

Management's Discussion and Analysis - Continued

Financial Analysis of the Governmental Funds - Continued

The focus of the District's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of fiscal year.

At the end of the current fiscal year, the District's governmental funds reported ending fund balances of \$17,375,308. Revenues for the year included property tax revenues, specific ownership taxes, impact fees, intergovernmental agreements, charges for services and investment earnings.

Of the \$17,375,308 total governmental fund balances, \$48,465 was nonspendable because of prepaid items, \$364,468 was restricted for emergencies, \$11,815,285 was committed for future capital outlay, and \$5,147,090 was unassigned. The general fund balance decreased by \$23,204.

The Capital Fund accounts for the funds dedicated to the purchase of future capital assets. As of December 31, 2023, the ending fund balance in the Capital Fund was \$10,570,702. The Capital Fund balance increased \$2,429,409 primarily due to a transfer in from the general fund for future capital projects.

The Impact Fund accounts for the impact fees charged to defray the costs of future development and growth dedicated to the purchase of future capital assets. As of December 31, 2023, the ending fund balance in the Impact Fund was \$1,244,583. The Impact Fund balance increased \$372,583 due to impact fees received during the year and no expenditures during the year.

General Fund Budgetary Highlights

Total revenues were \$243,314 less than budgeted revenues while total expenditures were \$1,721,445 less than budgeted expenditures. The increase in budgeted revenues occurred primarily due to property tax revenues being \$73,003 less than budgeted, specific ownership taxes being \$155,350 less than budgeted, and intergovernmental revenues being \$533,597 less than budgeted; offset by charges for services being \$62,676 more than budgeted and investment earnings being \$517,516 more than budgeted. The expenditure variance resulted primarily from personnel costs being \$1,123,194 under budget, and other expenditures being \$473,088 less than budgeted.

Capital Asset and Debt Administration

Capital Assets - The District's investment in capital assets as of December 31, 2023, totaled \$19,912,621 (net of accumulated depreciation/amortization). These assets include land, construction in progress, buildings and improvements, machinery and equipment, vehicles, and right-to-use subscription assets.

Major capital asset transactions during the year included \$517,895 in capital asset acquisitions including \$48,972 in subscription assets, 3 new vehicles and Station 3 roof repairs.

Management's Discussion and Analysis - Continued

Capital Asset and Debt Administration - Continued

The District depreciates/amortizes capital assets, except for land and improvements and construction in progress, consistent with generally accepted accounting principles, utilizing the straight-line depreciation method. The cost of the asset is divided by the expected useful life in years and the result is charged to expense each year until the asset is fully depreciated. Major outlays for capital assets and improvements are capitalized as projects are completed and placed into service. Additional information on the District's capital assets can be found in Note 3 in the basic financial statements on page 25.

Long-Term Liabilities - At the end of the current year, the District had long-term liabilities outstanding of \$7,987,187, which included unfunded pension liabilities in the amount of \$1,860,165, financed purchase of \$5,752,000, compensated absences of \$344,769, and subscription liabilities of \$30,253.

Additional information on the District's long-term liabilities can be found in Note 4 in the basic financial statements on pages 26 and 27.

Economic Factors Affecting Future Results

The District's mil rate is 8.250 for FY 2024 which is consistent from the prior year. The District expects a net assessed value increase in both Larimer and Weld Counties.

Oil and gas assessed values are extremely volatile in Weld County which are dependent on the oil market and other outside resources. When a decrease in oil and gas assessed values are expected by Weld County, the District is notified which allows the District to properly prepare for such events.

Contacting the District

This financial report is designed to provide an overview of the District's finances for anyone with an interest in the government's finances. Any questions regarding this report or requests for additional information may be directed to Windsor Severance Fire Protection District at 100 North Seventh Street, Windsor, Colorado, 80550.

Windsor Severance Fire Protection District
Reconciliation of the Governmental Funds Statement of Revenues,
Expenditures and Changes in Funds Balances to the
Government-wide Statement of Activities
Year Ended December 31, 2023

Net change in fund balances - total governmental fund	\$ 2,778,788
--	---------------------

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures.

However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense in the current period:

Expenditures for capital outlays	517,895
Depreciation/amortization expense	(895,941)

In the statement of activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the book value of the capital assets sold.

1,911

Property tax revenues, certain charges for services and certain intergovernmental revenues reported in the statement of activities do not provide current financial resources and therefore, are not reported as revenues in the governmental funds.

(45,306)

District pension contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the statement of net position because the reported net pension liability is measured a year before the District's report. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the statement of activities:

District pension contributions	635,919
Pension expense	(839,626)

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Change in compensated absences	7,037
Change in accrued interest	(3,038)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces noncurrent liabilities in the statement of net position. In the current year, the amount consists of:

Financed purchases	413,000
Subscription-based information technology arrangements paid	18,719
Subscription-based information technology arrangements incurred	(48,972)

Change in net position of governmental activities	\$ 2,540,386
--	---------------------

The accompanying notes are an
integral part of these basic financial statements.

Windsor Severance Fire Protection District
Notes to Financial Statements
Year Ended December 31, 2023

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Windsor Severance Fire Protection District (the “District”) conform to generally accepted accounting principles applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

For the year ended December 31, 2023, the District implemented the provisions of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, which (1) defined a subscription-based information technology arrangement (SBITA); (2) establishes that a SBITA results in a right-to-use subscription asset, an intangible asset, and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. As a result, the District’s financial statements has been modified to reflect the implementation of this new standard.

A. Reporting Entity

The District is a local governmental unit which was formed in 1950 and operates to provide fire protection and emergency medical services to the Windsor-Severance area within its boundaries. The District operates under the oversight of an elected five member board, which is the policy making body of the District. The day-to-day operations are supervised by the fire chief and the chief’s staff.

The District has the power to issue bonds, levy taxes, bill for services and raise revenues with the power of the County government. In addition, the District has the power to expend public funds for any legitimate purpose required to further its needs. The District operates as an independent governmental agency directly responsible to the local taxpayers and voters.

B. Basis of Presentation

The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements focus on the District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between entities to enhance the usefulness of the information.

Government-wide Financial Statements – These statements include a statement of net position and a statement of activities. These statements report the financial activities of the overall District.

A statement of activities presents a comparison between direct expenses and program revenues for each function of the District’s governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Notes to Financial Statements - Continued

Note 1 – Summary of Significant Accounting Policies - Continued

Program revenues include charges to customers for fire services provided, impact fees and operating grants for the purchase of new equipment.

Revenues not classified as program revenues, including internally dedicated resources and all taxes, are reported as general revenues.

Fund Financial Statements – These statements provide information about the District’s funds. The emphasis of fund financial statements is on the major governmental funds.

The District reports the following major governmental funds:

- The *general fund* is the District’s primary operating fund which accounts for all financial resources except those required to be accounted for in another fund.
- The *capital fund* is used to accumulate resources for, and the payment of, capital equipment and other firefighting activities provided by the District.
- The *impact fund* is a capital projects fund used to account for financial resources to be used for defraying projected impacts on capital facilities caused by new developments.

C. Basis of Accounting

The government-wide financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds in the fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they are due and payable.

General capital asset acquisitions are reported as expenditures in the general fund and capital fund. Proceeds of general long-term debt and acquisitions under lease contracts and subscription-based information technology arrangements are reported as other financing sources.

Property taxes, specific ownership taxes, impact fees, grants and investment earnings associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measureable and available only when cash is received by the government.

Fund Balance Classifications – Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted (which includes committed, assigned, and unassigned fund balance classifications).

Notes to Financial Statements - Continued

Note 1 – Summary of Significant Accounting Policies - Continued

The nonspendable fund balance classification includes amounts that cannot be expended because they are either not in spendable form, such as prepaid items, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors, such as through debt covenants, grantors, contributors, or laws and regulations.

The unrestricted fund balance category is comprised of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations approved by the District's Board of Directors, which is the highest level of decision-making authority within the District. The constraints placed on committed fund balances can only be removed or changed by the Board of Directors.

Assigned fund balances are resources constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The Board of Directors has authorized the Fire Chief to make assignments of resources for specific purposes.

The unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not reported in the other classifications. Deficits in fund balances of the other governmental funds are reported as unassigned. When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it is the District's policy to use restricted fund balance first. For the disbursement of unrestricted fund balances, it is the District's policy to use committed amounts first, followed by assigned amounts, and lastly unassigned amounts.

Cash and Investments – The District's cash and cash equivalents are considered to be cash on hand, demand deposits, investments in local government investment pool and highly liquid investments. Investments are stated at fair value. Investment earnings are comprised primarily of interest earnings.

Fair Value Measurements - Fair value is defined as the price to sell an asset between market participants in an orderly exchange in the principal or most advantageous market for that asset.

Receivables – Receivables outstanding at year-end consist of amounts due for property taxes, specific ownership taxes and intergovernmental grants. Management periodically evaluates the collectability of receivables based on their age and collection efforts and an allowance is established for an estimated uncollectible account. Uncollectible accounts are written off after all efforts for collection have been exhausted. As of December 31, 2023, there is no allowance for uncollectible accounts.

Notes to Financial Statements - Continued

Note 1 – Summary of Significant Accounting Policies - Continued

Prepaid Items – Prepaid items are accounted for using the purchase method in the governmental fund financial statements. Under this method, expenditures are reported at the time of purchase and unexpended amounts at year-end are reported on the balance sheet as a prepaid item for informational purposes only and are offset by a fund balance reserve to indicate that they do not constitute “available spendable resources.”

In the government-wide financial statements, prepaid purchases are recorded as assets when the goods or services are purchased and are expensed over the period consumed.

Capital Assets – Capital assets are reported in the government-wide financial statements at actual cost or estimated historical cost if historical records are not available. Donated capital assets are reported at acquisition value. Capital assets are assets with an initial, individual cost of \$5,000 or more and an estimated useful life exceeding two years.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are expensed as incurred.

Capital assets are depreciated/amortized using the straight-line method as follows:

Capital asset class	Estimated useful life
Land and improvements	Non-depreciable
Construction in progress	Non-depreciable
Buildings and improvements	5 to 50 years
Machinery and equipment	5 to 20 years
Vehicles	8 to 50 years
Intangibles:	
Right-to-use subscription	3-5 years

Intangible right-to-use lease assets are amortized over the shorter of the lease term or the useful life of the underlying asset, unless the lease contains a purchase option that the District is reasonably certain of being exercised, then the lease asset is amortized over the useful life of the underlying asset. Intangible right-to-use subscription assets are amortized over the shorter of the subscription term or the useful life of the underlying information technology (IT) assets.

Subscription-Based Information Technology Arrangements – The District recognizes subscription liabilities with an initial, individual value of \$5,000 or more. The District uses its estimated incremental borrowing rate to measure subscription liabilities unless it can readily determine the interest rate implicit in the arrangement. The District’s estimated incremental borrowing rate is 5.0%.

Notes to Financial Statements - Continued

Note 1 – Summary of Significant Accounting Policies - Continued

Compensated Absences – It is the District's policy to permit employees to accumulate unused vacation and sick time. A liability is reported for vacation that the District will pay upon termination or retirement. None of the liability for compensated absences is expected to be liquidated with expendable available financial resources. Accordingly, compensated absences are accrued as a liability only in the government-wide financial statements. The general fund has typically been used to liquidate the liability for compensated absences in prior years.

Deferred Outflows/Inflows of Resources – The statement of net position and balance sheet include separate sections, as appropriate, for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as revenue in future periods.

Postemployment Benefits – For purposes of measuring the net pension liabilities or assets, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The plan's investments are reported at fair value.

Estimates – The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources and disclosure of contingent assets, deferred outflows of resources, liabilities and deferred inflows of resources at the date of the basic financial statements and the reported amounts of revenues and expenditures/expenses during the tax calendar reporting period. Actual results may differ from those estimates.

Property Tax Calendar – The District levies real and personal property taxes on December 15 of each year and attach as an enforceable lien on subject property as of January 1 of the following year. The property taxes are payable in full on April 30 or if paid in two equal installments, due on last day of February and June 15. Property taxes are considered delinquent as of June 16. Larimar and Weld Counties bill and collect the property taxes on behalf of the District and remit the collections less the Treasurer's fees, to the District on a monthly basis. As the property taxes result in an enforceable lien on the subject property, in the event the property taxes are not paid, the subject property will be sold at public auction to collect the delinquent property taxes. Accordingly, no provision is deemed necessary for uncollected taxes.

In the fund financial statements, property taxes are recognized in the year for which levied, provided they become available and measurable. In the government-wide statements, the property tax revenue is considered a deferred inflow of resources in the year the taxes are levied and measurable, as the revenues are restricted for use for the following year.

Notes to Financial Statements - Continued

Note 1 – Summary of Significant Accounting Policies – Continued

Budgetary Accounting - The District's annual budget is prepared on a modified accrual basis for the District's funds. An annual appropriated budget is adopted for all funds. The annual appropriation lapses at the end of the District's fiscal year.

The District conforms to the following procedures, in accordance with the State of Colorado Revised Statutes in the establishment of the budgetary information reflected in the accompanying financial statements.

Prior to October 15, the District's Treasurer submits a proposed operating budget for the subsequent fiscal year to the District's board of directors. The board of directors may change the proposed budget prior to the publication of the notice of budget. Within ten days of the submission, a notice of the proposed budget is published. The operating budget includes proposed expenditures and the means of financing the expenditures.

Public hearings are held at the regular District board of directors' meetings to obtain taxpayer input on the proposed operating budget.

On or before December 15, the operating budget is legally adopted through passage of a budget resolution. Upon adoption, the District's Treasurer is authorized to transfer the budgeted amounts within the function and objects of the fund(s). The District's board of directors must approve revisions that change the total expenditures of the fund(s).

Appropriations are controlled and the budget can only be amended in accordance with the State of Colorado Revised Statutes that allows the District to amend the budget and adopt a supplemental appropriation, if funds for a specific purpose, other than ad valorem taxes, become available.

State of Colorado Statutes requires a balanced budget.

Taxpayers' Bill of Rights - Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights ("TABOR"), contains tax, spending and debt limitations which apply to the State of Colorado and all local governments.

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of fiscal year spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases. Cash equal to the required emergency reserve is reflected as restricted.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the calculation of the fiscal year spending limits will require judicial interpretation.

Notes to Financial Statements - Continued

Note 2 – Cash and Investments

The Colorado Public Deposit Protection Act (“PDPA”) requires that all units of local government deposit cash in eligible public depositories. State regulators determine the eligibility. Amounts on deposit in excess of the Federal Deposit Insurance Corporation (“FDIC”) insurance levels must be collateralized. The market value of the collateral must be equal to 102% of the aggregate uninsured public deposits.

Cash on Hand and Deposits – At December 31, 2023, the District’s carrying amount of the total cash in bank was \$1,287,554, and the bank balance was \$1,380,794. Of these balances, \$250,000 was covered by FDIC and the remaining balance covered by collateral held by authorized escrow agents in the financial institutions name.

Investments – Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest, which include:

- certificates of deposit with an original maturity in excess of three months
- obligations of the United States and certain U.S. government agency securities,
- certain international agency securities,
- general obligation and revenue bonds of U.S. local government entities,
- certain money market funds, and
- participation in local government investment pools.

The investments of the District are authorized for all fund and fund types used by Colorado municipalities.

The District had total investments of \$16,027,566 at December 31, 2023. The District categorizes certain investments measured at fair value within the fair value hierarchy established by generally accepted account principles as follows:

	Amount	Fair value measurement using		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Investments by fair value level				
U.S. Treasury securities	\$ 226,164	\$ 226,164	\$ -	\$ -
U.S. agency securities	3,667,348	3,667,348	-	-
Local government bonds	1,495,725	1,495,725	-	-
Total investments categorized by fair value level	<u>\$ 5,389,237</u>	<u>\$ 5,389,237</u>	<u>\$ -</u>	<u>\$ -</u>

Investments categorized as Level 1 are valued using prices quoted in active markets for those investments.

Notes to Financial Statements - Continued

Note 2 – Cash and Investments - Continued

In addition, the District has \$7,774,360 in the Colorado Surplus Asset Fund Trust (“CSAFE”) measured at fair value as of December 31, 2023. The investments are valued at the pools share price multiplied by the number of shares the District held. The fair value of a participants position in the pools approximates the value of that participants pool shares.

The District also had \$2,863,969 in certificates of deposit measured at amortized cost as of December 31, 2023.

Credit Risk – At December 31, 2023, credit risk of the District's investments, rated by Standard and Poor’s was as follows:

<u>Investment type</u>	<u>Rating</u>	<u>Amount</u>
U.S. Treasury securities	Unrated	\$ 226,164
U.S. agency securities	AA+	3,667,348
Local government bonds	AAA	262,430
Local government bonds	AA+	1,233,295
CSAFE	AAAm	7,774,360
Certificates of deposit	Unrated	2,863,969
		<u>\$ 16,027,566</u>

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the counterparty’s failure, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Interest Rate Risk – Colorado Revised Statutes limit investment maturities to five years or less from the date of purchase. This limit on investments is the means of limiting exposure to fair value losses arising from increasing interest rates. The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing rates. As of December 31, 2023, the District had the following investments:

<u>Investment Type</u>	<u>Amount</u>	<u>Investment maturities</u>	
		<u>Less than 1 Year</u>	<u>1-5 years</u>
U.S. Treasury securities	\$ 226,164	\$ 226,164	\$ -
U.S. agency securities	3,667,348	1,201,152	2,466,196
Local government bonds	1,495,725	-	1,495,725
Certificates of deposit	2,863,969	159,528	2,704,441
CSAFE	7,774,360	7,774,360	-
	<u>\$ 16,027,566</u>	<u>\$ 9,361,204</u>	<u>\$ 6,666,362</u>

Foreign Currency Risk – The District does not have a formal investment policy with respect to foreign currency risk because state statutes do not allow for foreign investments.

Notes to Financial Statements - Continued

Note 3 – Capital Assets

Capital asset activity for the year ended December 31, 2023, was as follows:

	Balance, January 1, 2023	Increases	Decreases	Balance, December 31, 2023
Capital assets not being depreciated/amortized:				
Land	\$ 1,380,834	\$ -	\$ -	\$ 1,380,834
Construction in progress	983,237	-	(983,237)	-
Total capital assets not being depreciated/amortized	2,364,071	-	(983,237)	1,380,834
Capital assets being depreciated/amortized:				
Buildings and improvements	15,977,363	178,656	-	16,156,019
Machinery and equipment	1,372,045	66,289	-	1,438,334
Vehicles	5,839,581	1,207,215	(328,134)	6,718,662
Intangibles:				
Right-to-use subscription Assets*	-	48,972	-	48,972
Total capital assets being depreciated/amortized	23,188,989	1,501,132	(328,134)	24,361,987
Less accumulated depreciation/amortization for:				
Buildings and improvements	(2,015,536)	(369,885)	-	(2,385,421)
Machinery and equipment	(850,660)	(110,956)	-	(961,616)
Vehicles	(2,394,286)	(408,015)	326,223	(2,476,078)
Intangibles:				
Right-to-use subscription Assets*	-	(7,085)	-	(7,085)
Total accumulated depreciation/amortization	(5,260,482)	(895,941)	326,223	(5,830,200)
Total capital assets being depreciated/amortized, net	17,928,507	605,191	(1,911)	18,531,787
Total capital assets, net	<u>\$ 20,292,578</u>	<u>\$ 605,191</u>	<u>\$(985,148)</u>	<u>\$ 19,912,621</u>

Governmental activities depreciation/amortization expense in the amount of \$895,941 was charged to the public safety function of the District.

*The District did not restate the January 1, 2023 beginning balance for Subscription-based information technology arrangements, as a result of the implementation of GASB Statement No. 96, as the amounts were immaterial.

Notes to Financial Statements - Continued

Note 4 – Long-Term Liabilities

A summary of the changes in long-term liabilities for the year ended December 31, 2023, follows:

	Balance January 1, 2023	Additions	Reductions	Balance December 31, 2023	Due Within 1 Year
Net pension liability	\$ 686,158	\$ 1,174,007	\$ -	\$ 1,860,165	\$ -
Compensated absences	351,806	214,838	(221,875)	344,769	218,280
Financed purchase	6,165,000	-	(413,000)	5,752,000	422,000
Subscription liability*	-	48,972	(18,719)	30,253	12,193
	<u>\$ 7,202,964</u>	<u>\$ 1,437,817</u>	<u>\$(653,594)</u>	<u>\$ 7,987,187</u>	<u>\$ 652,473</u>

*The District did not restate the January 1, 2023 beginning balance for Subscription-based information technology arrangements, as a result of the implementation of GASB Statement No. 96, as the amounts were immaterial.

The general fund is used to liquidate the liabilities for the net pension liability and compensated absences in prior years.

Financed Purchase - The District entered a financed purchase agreement for construction of Station 4 in Severance, Colorado dated March 2, 2021. The agreement is secured by the station. The total cost of construction of the station totaled \$8,351,616. The following schedule details minimum lease payments to maturity for the District's financed purchase at December 31, 2023:

Year ending December 31,	Principal	Interest	Total
2024	\$ 422,000	\$ 131,146	\$ 553,146
2025	432,000	121,524	553,524
2026	442,000	111,674	553,674
2027	452,000	101,597	553,597
2028	462,000	91,291	553,291
2029-2033	2,472,000	293,631	2,765,631
2034 - 2035	1,070,000	36,731	1,106,731
	<u>\$ 5,752,000</u>	<u>\$ 887,594</u>	<u>\$ 6,639,594</u>

Subscription-Based Information Technology Arrangements - The District has entered into a subscription-based information technology arrangement (SBITA) for various software. The total amount of the District's subscription assets were \$48,972, net of \$7,085 in accumulated amortization as of December 31, 2023.

Notes to Financial Statements - Continued

Note 4 – Long-Term Liabilities - Continued

The following schedule details minimum subscription payments to maturity for the District's subscription liability as of December 31, 2023:

<u>Year ending December 31,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2024	\$ 12,193	\$ 1,248	\$ 13,441
2025	13,225	607	13,832
2026	4,835	171	5,006
	<u>\$ 30,253</u>	<u>\$ 2,026</u>	<u>\$ 32,279</u>

Note 5 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for all such risks of loss, including workers' compensation and employees' health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 6 – Commitments

The District is party to a variety of intergovernmental agreements entered into in the ordinary course of business pursuant to which it may be obligated to provide services outside of its geographic boundaries and/or receive assistance from other parties. As part of these agreements, the District is obligated to indemnify other parties for certain liabilities that arise out of, or relate to, the subject matter of the agreements.

Note 7 – Employee Retirement System

The District contributes to the plans described below. At December 31, 2023, the District reported the following aggregate amounts related to pensions and other postemployment benefits (OPEB) to which it contributes:

	<u>Volunteer Firefighters' Pension Plan</u>	<u>Statewide Defined Benefit Plan</u>	<u>Total</u>
Net pension liability	\$ 1,349,266	\$ 510,899	\$ 1,860,165
Deferred outflows of resources	450,834	3,486,271	3,937,105
Deferred inflows of resources	237,462	801,515	1,038,977
Pension expense	271,376	568,250	839,626

The District's accrued payroll and employee benefits includes \$25,240 of outstanding pension contribution amounts payable for the year ended December 31, 2023.

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

A. Volunteer Firefighters' Pension Plan

The District has established the Windsor-Severance Fire Protection District Pension Fund, a defined benefit volunteer firefighters' pension plan (the "Plan"). The plan is affiliated with and administered by the Colorado Fire and Police Pension Association ("FPPA").

Description of the Plan - The Fire & Police Pension Association (FPPA) administers an agent multiple-employer Public Employee Retirement System (PERS). The PERS represents the assets of numerous separate plans that have been pooled for investment purposes. The pension plans have elected to affiliate with FPPA for plan administration and investment only. FPPA issues a publicly available annual comprehensive financial report that can be obtained at FPPAco.org.

Benefits provided - The benefit, payable at age 50 with 20 years of experience, is payable monthly in the amount of \$960. The amount would be prorated based upon the number of years of service accrued at termination, with a minimum vesting of 10 years. Surviving spouses of deceased retirees are entitled to 50% of the retirement benefit until remarriage or their death. Pre-retirement death and disability benefits are only available if incurred in the line of duty. The plan also provides for a lump-sum burial benefit upon death of an active or retired firefighter.

Employees covered by benefit terms - As of December 31, 2023, the most recent actuarial valuation date, the membership of the Loveland and Rural Consolidated Volunteer Firefighters Pension Plan is:

Retirees and beneficiaries	43
Inactive, non-retired members	3
Active	<u>1</u>
Total Participants	<u><u>47</u></u>

Contributions - In accordance with funding agreements and actuarial studies, the District contributes amounts to FPPA. The plan members do not make contributions. Also, the State of Colorado may make annual contributions to the Plan in amounts established by State Statutes. During the year ended December 31, 2023, the District contributed \$66,249 to the plan which was paid from the general fund.

Liability - At December 31, 2023, the District reported a liability of \$1,349,266. The net assets and liabilities were measured as of December 31, 2022, and the total liability used to calculate the net asset or liability was determined by an actuarial valuation as of that date.

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

Actuarial Assumptions - The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	December 31, 2022
Actuarial cost method	Entry age normal
Amortization method	Level dollar, open
Remaining amortization period	20 years
Asset valuation method	5-year smoothed fair value
Inflation	2.5%
Investment rate of return	7.0%
Retirement age	50% per year of eligibility until 100% at age 65
Mortality rates	Pre-retirement: 2006 central rates from the RP-2014 Employee Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years, 50% multiplier for off-duty mortality. Post-retirement: 2006 central rates from the RP-2014 Annuitant Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years. Disabled: 2006 central rates from the RP-2014 Disabled Mortality Tables for males and females projected to 2018 using the MP-2017 projection scales, and then projected prospectively using the ultimate rates of the scale for all years.

The long-term expected rate of return on pension plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

The target allocation and best estimates of rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Nominal Rate of Return
Global equity	35%	8.93%
Private markets	34%	10.31%
Absolute return	9%	6.49%
Fixed income – rates	10%	5.45%
Long short	6%	7.47%
Fixed income – credit	5%	6.90%
Cash	1%	3.92%
Total	<u>100%</u>	

Discount Rate - At December 31, 2023, the discount rate used to measure the FPPA total pension liability is 7 percent. The projection of cash flows used to determine the discount rate assumed that plan contributions will be made at the current contribution rates. Based on these assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefits payments of current plan members.

Changes in net pension liability

Pension	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Balances at December 31, 2022	\$ 3,971,260	\$ 3,285,102	\$ 686,158
Changes for the current year:			
Service cost	3,393	-	3,393
Interest on the total pension liability	266,055	-	266,055
Benefit changes	152,921	-	152,921
Difference between expected and actual experience	(4,201)	-	(4,201)
Changes to assumptions	37,833	-	37,833
Net investment income	-	(260,970)	260,970
Contributions - employer	-	66,249	(66,249)
Benefit payments	(350,196)	(350,196)	-
Pension plan administrative expense	-	(12,386)	12,386
Net changes	105,805	(557,303)	663,108
Balances at December 31, 2023	<u>\$ 4,077,065</u>	<u>\$ 2,727,799</u>	<u>\$ 1,349,266</u>

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

Sensitivity of the Districts net pension liability to changes in the discount rate – The following table presents the District’s net pension (asset) liability calculated using a discount rate of 7%, as well as what the District’s net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6%), or 1 percentage point higher (8%) than the current rate:

	1% Decrease 6%	Current Discount Rate 7%	1% Increase 8%
Net pension liability	\$ 1,738,019	\$ 1,349,266	\$ 1,019,389

Expense - For the year ended December 31, 2023, the District recognized pension expense of \$271,376.

Deferred Outflows/Inflows of Resources - At December 31, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Pension	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on plan investments	\$ 384,585	\$ 237,462
District contributions subsequent to the measurement date	66,249	-
Total	\$ 450,834	\$ 237,462

The amounts reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions and OPEB will be recognized in pension expense as follows:

Year Ending June 30,	Pension
2024	\$ (19,001)
2025	19,545
2026	50,432
2027	96,147

Note 7 – Employee Retirement System - Continued

B. Statewide Defined Benefit Plan (SWDB)

The District also participates in the Statewide Defined Benefit Plan (the “Plan”), a defined benefit pension plan. The Plan is affiliated with and administered by the Colorado Fire and Police Pension Association (“FPPA”).

Plan Description – The Plan is a cost-sharing multiple-employer defined benefit pension plan covering substantially all full-time employees of participating fire or police departments in Colorado hired on or after April 8, 1978 (New Hires), provided that they are not already covered by a statutorily exempt plan. As of August 5, 2003, the Plan may include clerical and other personnel from fire districts whose services are auxiliary to fire protection. The Plan became effective January 1, 1980.

The Plan assets are included in the Fire & Police Members’ Benefit Investment Fund and the Fire & Police Members’ Self-Directed Investment Fund (for Deferred Retirement Option Plan (DROP) assets and Separate Retirement Account assets from eligible retired members).

Colorado Revised Statutes Title 31, Article 31 grants the authority to establish and amend the benefit terms to the Fire & Police Pension Association of Colorado Board of Directors. The Fire & Police Pension Association of Colorado (FPPA) issues a publicly available financial report that can be obtained at <http://www.fppaco.org>.

Benefits Provided – A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55. Effective January 1, 2021, a member may also qualify for a normal retirement pension if the member’s combined years of service and age equals at least 80, with a minimum age of 50 (Rule of 80).

The annual normal retirement benefit is 2.0 percent of the average of the member's highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007, for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually. Effective January 1, 2007, members currently covered under Social Security will receive half the benefit when compared to the Statewide Defined Benefit Plan ("SWDB Plan"). Benefit adjustments paid to retired members are evaluated annually and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W).

A member is eligible for an early retirement after completion of 30 years of service or attainment of age 50 with at least five years of credited service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with at least five years of accredited service may leave contributions with the Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' pensionable earnings for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

Contributions – Contribution rates for the SWDB plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership. Effective January 1, 2021, contribution rates for employers and members may be increased equally by the FPPA Board of Directors upon approval through an election by both the employers and members.

In 2014, the members elected to increase the member contribution rate to the SWDB plan beginning in 2015. Member contribution rates increased 0.5 percent annually through 2022 to a total of 12 percent of pensionable earnings. Employer contributions increase 0.5 percent annually beginning in 2021 through 2030 to a total of 13 percent of pensionable earnings. In 2022, members of the SWDB plan and their employers are contributing at the rate of 12.0 percent and 9.0 percent, respectively, of pensionable earnings for a total contribution rate of 21.0 percent.

Contributions from members and employers of departments reentering the system are established by resolution and approved by the FPPA Board of Directors. The member and employer contribution rates will increase through 2030 as described above for the nonreentering departments. Effective January 1, 2021, reentry departments may submit a resolution to the FPPA Board of Directors to reflect the actual cost of reentry by department. Each reentry department is responsible to remit contributions to the plan in accordance with their most recent FPPA Board of Directors approved resolution.

The contribution rate for members and employers of affiliated social security employers is 12.0 percent and 9.5 percent, respectively, of pensionable earnings for a total contribution rate of 21.5 percent in 2023. Per the 2014 member election, members of the affiliate social security group had their required contribution rate increase 0.25 percent annually beginning in 2015 through 2022 to a total of 6 percent of pensionable earnings. Employer contributions will increase 0.25 percent annually beginning in 2021 through 2030 to a total of 6.5 percent of pensionable earnings.

Total pension contributions made during the year were \$569,670. The District's pension contributions are paid from the general fund.

Liability – At December 31, 2023, the District reported liabilities of \$510,899. The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2023. The District's proportion of the net pension asset was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions, actuarially determined. As of December 31, 2023, the District's proportion was 0.5756 percent, which was an increase of 0.0360 from its proportion measured as of December 31, 2021.

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

Expense – For the year ended December 31, 2023, the District recognized pension expense of \$568,250.

Deferred outflows/inflows of resources - At December 31, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,105,920	\$ 62,710
Changes of assumptions or other inputs	654,531	-
Net difference between projected and actual earnings on plan investments	1,156,150	-
Changes in proportion and differences between contributions and proportionate share of contributions		738,805
District contributions subsequent to the measurement date	569,670	-
Total	<u>\$ 3,486,271</u>	<u>\$ 801,515</u>

The \$569,670 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (income) as follows:

Year Ending June 30,	Pension
2024	\$ 162,753
2025	381,119
2026	581,907
2027	846,291
2028	90,839
Thereafter	52,177

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

Actuarial Assumptions - The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	January 1, 2023
Actuarial cost method	Entry age normal
Investment rate of return	7.0%
Wage inflation	4.25% - 11.25%
Price inflation	2.5%
Cost-of-living adjustment	0.00%
Mortality rates	PubS-2010 tables

Actuarial assumptions used in the December 31, 2022, valuation were based on the results of an actuarial experience study for the 5-year period ended December 31, 2021.

The long-term expected rate of return on the plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expenses and inflation) are developed for each major asset class.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global equity	35%	8.93%
Equity Long/Short	6%	7.47%
Private markets	34%	10.31%
Fixed income – rates	10%	5.45%
Fixed income – credit	5%	6.90%
Absolute return	9%	6.49%
Cash	1%	3.92%
Total	100%	

Notes to Financial Statements - Continued

Note 7 – Employee Retirement System - Continued

Discount Rate – At December 31, 2022, the discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at a current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate.

Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following table presents the District's proportionate share of the net pension/OPEB (assets) liabilities calculated using the discount rate of 7.0 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0 percent) or 1 percentage point higher (8.0 percent) than the current rate.

	1% Decrease (6.0%)	Current Discount Rate (7.0%)	1% Increase (8.0%)
Net pension (asset) liability	\$ 3,522,073	\$ 510,899	\$ (1,983,327)

Note 8 – Interfund Activity

Interfund receivables and payables – As of December 31, 2023, the impact fund reported a payable to the general fund in the amount of \$84,552 due to cash transfers in excess of revenues received.

Interfund transfers – During the year ended December 31, 2023, the general fund transferred to the capital fund \$2,740,365 for future capital expenditures.

Note 9 – Subsequent Event

During February 2024, the District entered into various contracts to remodel stations 1, 2 and 3 in the amount of \$282,711.

Also during April 2024, the District purchased a Type 2 tactical tender in the amount of \$536,535.

Windsor Severance Fire Protection District
Required Supplementary Information
Notes to Budgetary Comparison Schedule
Year ended December 31, 2023

Note 1 – Budgeting and Budgetary Control

State of Colorado Revised Statutes requires the District to prepare and adopt a balanced budget annually for its general fund. The Board of Directors must approve such operating budget on or before October 15 to allow sufficient time for the legal announcements and hearings required for the adoption of the property tax levy on December 15. State statute prohibits expenditures or liabilities in excess of the amount budgeted.

Note 2 – Budgetary Requirements and Basis of Accounting

The District's budget is prepared on a basis of accounting consistent with U.S. generally accepted accounting principles. A budgetary comparison schedule for the general fund is included as required supplementary information to provide meaningful comparison of actual results to budget. The Board is responsible for approving the budget on an annual basis.

Note 3 - Expenditures in Excess of Appropriations

For the year ended December 31, 2023, expenditures exceeded final budget amounts in the general fund for the following line items:

Capital outlay	\$	48,972
Buildings and land		47,420
Debt service – interest		9,627
Debt service – principal		8,341

The excesses for the capital outlay were primarily due to the use of committed fund balance in which the expenditures were not budgeted. The excesses for the remaining items above expenditures were primarily the result of incurring unexpected expenditures. In addition, the District monitors expenses on an ongoing basis to ensure that expenditures are within the budget.

Statistical Section

This page is intentionally left blank.

Statistical Section

This part of the annual comprehensive financial report of the District presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health of the District.

This section contains the following tables and information:

Financial Trends

These schedules contain trend information to help the reader understand how the financial performance and well-being of the District have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the most significant local revenue source of the District – the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the current levels of outstanding debt of the District and its ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the financial activities of the District take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the financial report of the District relates to the services the District provides and the activities it performs.

Windsor-Severance Fire Rescue			<u>5,782,253</u>
Total Direct and overlapping debt			<u>\$ 168,173,501</u>

Source: Individual taxing entities

(1) Estimate. Most current data available.

Note: Overlapping governments are those that coincide, at least in part, with the geographical boundaries of the District. This Schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. The process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
