## **I. INTRODUCTORY SECTION**

William J. (Mickey) Conway, Chief Executive Officer

March 31, 2024

To the Board of Directors and Citizens of  
Metro Water Recovery:

The Annual Comprehensive Financial Report (Annual Report) of Metro Water Recovery (Metro) for the fiscal years ended December 31, 2023 and 2022 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with Metro management. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of Metro's two reporting funds--the Enterprise Fund and the Fiduciary Fund. All disclosures necessary to allow the reader to gain an understanding of Metro's financial activities have been included. Management's Discussion and Analysis in the Financial Section provides an overview and analysis of the financial activities for the years ended December 31, 2023 and 2022.

Metro has included, in the accompanying financial statements, all funds controlled by Metro's Board of Directors in conformance with the Governmental Accounting Standards Board standards. Control is determined on the basis of budget adoption, appropriating authority, and managerial direction by Metro's Board. The reporting entity and fund types are described in detail in Note 1 to the financial statements. Metro itself is an Enterprise Fund for accounting purposes, although its budget and account records are segregated into several different activity funds per mandates in bond covenant requirements. The Fiduciary Fund, which reports the Defined Benefit Retirement Plan and a variety of Defined Contribution Retirement Plans, is included in the Annual Comprehensive Financial Report as members of the Defined Benefit Plan Retirement Board and the Defined Contribution Plan Retirement Board are appointed by Metro's Board.

Metro, a political entity authorized by the State of Colorado, was organized on May 15, 1961 for the purpose of constructing and operating a wastewater transmission and disposal system in the greater Denver metropolitan area. Metro's original 20 municipal and special district members (Member Municipalities) collect wastewater and deliver it to Metro's interceptor lines. An additional 32 municipalities and special districts (Special Connectors) which collect and deliver wastewater to Metro's interceptor system have been added since Metro's inception. Metro also receives flow from 10 indirect connectors through Member Municipalities and Special Connectors. Metro treats an average of 141 million gallons per day (mgd) of wastewater for the Member Municipalities and Special Connectors at its Robert W. Hite Treatment Facility (RWHTF) and the Northern Treatment Plant (NTP). Most of Metro's biosolids are land applied as a soil amendment on more than 300 permitted sites, including Metro's 52,000 acre METROGRO Farm.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Metro's service area totals approximately 817 square miles, located in all or part of six counties: Adams, Arapahoe, Denver, Douglas, Jefferson, and Weld. In 2023, the six-county area had an estimated total population of 3.2 million of which Metro estimates it serves an approximate population of 2.2 million.

## **ECONOMIC CONDITION AND OUTLOOK**

Metro is located in the largest metropolitan area in the State of Colorado. Metropolitan Denver (Metro Denver) is composed of Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas, and Jefferson counties. The economic region has experienced significant population and economic growth in the past ten plus years. Economic indicators as of December 2023 expects Metro Denver to continue with positive growth. Colorado and the Metro Denver area continue to see growth in the labor market as well as consumer spending habits, which continues to shift towards services. Inflation has been one major disruption to the economy in 2022, which continues to provide significant price pressure throughout 2023. The Federal Reserve adopted significant interest rate increases throughout 2022 and the first half of 2023 to combat inflation. Some economists predict a pullback on rate hikes in 2024 as inflation has been stable through the last half of 2023.

Metro experienced the impacts from the current economic cycle in 2023. Metro continues to experience higher prices for materials and fuels, chemicals, and utilities and significant escalation of capital project costs. Local unemployment rates remain low, which has led to labor shortages accompanied by higher-than-average turnover rates. In the operating budget for 2023, salaries savings from vacant positions are somewhat helping to offset higher prices in other categories. Additionally, some areas will need additional outside services to assist with vacant positions.

Fortunately, Sewer Connection Charge revenue in 2023 did not seem to be affected by the economic conditions in 2023. Growth in Metro Denver construction continued at the same pace in 2023 as it did in 2022 plus Metro received final buy-in of sewer connection charges from the City of Brighton. Therefore, the Sewer Connection Charges revenues received were more than the projections in 2023 and 2022.

Metro continues to track a variety of economic conditions which may affect future operations and budget projections. Metro continues to experience a higher-than-average turnover of employment and wages and benefits are increasing at a rate higher than has been experienced in quite some time. Metro is also watching prices of chemicals, utilities, and maintenance contracts as supply chain and inflationary pressures continue through the region.

## MAJOR INITIATIVES

### Strategic Planning

Metro’s Board of Directors adopted the updated Strategic Plan in the spring of 2023 to enhance its value to the organization and provide strategic guidance for the future. This update is focused on organizational values and strategic pillars that will guide Metro’s work in the next several years.

Led by employees from start to finish, the updated strategic plan now has a grand total of four values, which are:

- Excellence: Continuously improving ourselves and our organization.
- Inclusion: Fostering an environment where all are welcome, valued, and respected.
- Collaboration: Sharing expertise, building partnerships, and innovating together to achieve our mission.
- Integrity: Doing the right thing for the environment, our organization, and our people.

The Strategic Plan was also streamlined to include key components rather than tactics. The plan outlines three pillars—Our People, Our Work, and Our Communities—with two focus areas within each pillar.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Metro identified key results that could be achieved within each of its pillars and focus areas. Each year, Metro will select projects that align with focus areas and have the highest potential to positively impact and move the organization toward achieving its desired results.

**Employee Engagement and Growth**

- Enhanced reputation as a top employer with a clear value proposition.
- Fostered engaged, empowered, and well-equipped staff.
- Provided tailored training to support employees' growth.

**Diversity, Equity, Inclusion**

- Increased the diversity of our talent pool for Metro positions.
- Promoted intentional inclusion and collaboration in decision-making processes.
- Established clear organizational norms and expectations regarding diversity, equity, and inclusion.

## Our People

For 2024, several key projects have been identified to help achieve desired results:

- Conduct a diversity, equity, and inclusion (DEI) audit of Metro's current activities and develop a roadmap for future activities
- Define the employee value proposition

## Our Work

- Asset Management Implementation
- Continuous Improvement Framework
- NTP Process Modeling and Advanced Automation
- Energy Management Program
- Implement a Framework for the Organization of Employee-Driven Sustainability Practices

**Resource Optimization**

- Increased the value of Metro's finite resources through innovation.
- Invested strategically to enhance Metro's position as the utility of the future.
- Maintained responsible and transparent financial management.

**Sustainability**

- Defined internal sustainability objectives and implemented sustainable practices.
- Proactively engaged in regional environmental issues.
- Prioritized environmental impact analysis in project decisions.

**Engagement and Outreach**

- Improved understanding of community environmental, financial, and social priorities.
- Increased community awareness of Metro's value and resources.
- Cultivated community partnerships to discuss concerns, educate stakeholders, and promote mutual understanding.

**Water Partnerships**

- Fostered effective relationships with connectors, elected officials, and regulators at all levels.
- Established foundation for addressing long-term regional water and environmental priorities.

## Our Communities

- Community Engagement Strategy/Framework
- Regional Water Reuse Feasibility Study

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

**Purchasing Policy Update**

In February 2023, Metro's Board of Directors adopted the new *Purchasing and Contracts Policy*. Changes were needed to provide additional purchasing flexibility, add clarification for certain items, and incorporate industry and current business practices. Additionally, staff concurrently reviewed and updated the purchasing procedures, updated to match the policy revisions as well as provide additional guidance and clarifications for purchasing and contract activities. Purchasing staff provided training to all staff on the Policy and the Purchasing and Contracting Procedures in 2023.

**Enterprise Asset Management:**

Metro selected a new Enterprise Asset Management (EAM) software program during 2023. The new software will help facilitate routine processes for asset management, work order management, and materials management. Many departments at Metro use EAM software daily, including Maintenance, Purchasing, Resource Recovery and Reuse, Transmissions, and the Warehouse. Metro's current system has been used since 1993. The current system does not adequately meet Metro's business requirements and is not positioned to accommodate future needs without significant upgrades and reconfiguration. Metro's transition to the new software is anticipated to take 18 months.

**FINANCIAL INFORMATION**

**Internal Control**

Metro management is responsible for establishing and maintaining internal controls to ensure Metro assets are protected from loss, theft, or misuse, and to ensure adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States. The internal controls are designed to provide reasonable, but not absolute, assurance these objectives are met. The concept of reasonable assurance recognizes (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management.

**Budgeting Controls**

Metro maintains strict budgetary controls to ensure compliance with legal provisions embodied in the various bond covenants and in the annual budget approved by Metro's Board. Activities of the Operations and Maintenance Fund, as defined in bond covenants, are appropriated in the annual budget. Capital projects are appropriated individually from the Fixed Asset Replacement Fund, Acquisition and Construction Fund, or the General Fund, depending on the nature of the project. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is the fund total with a specific allocation for capital outlay for the Operations and Maintenance Fund. The individual project appropriation is the legal level of control for expenses incurred by the Fixed Asset Replacement Fund, Acquisition and Construction Fund, and the General Fund. All activities of Metro, other than the Fiduciary Fund activities, are reported in the Enterprise Fund in the enclosed financial statements in accordance with accounting principles generally accepted in the United States. Supplementary schedules display the budgetary comparison for 2023 as well as reconciliation between the budgetary format and that required by these generally accepted accounting principles. Management's Discussion and Analysis in the Financial Section provides an overview and analysis of the financial activities of Metro for the years ended December 31, 2023 and 2022.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

## **CAPITAL FINANCING POLICY**

Prior to 1991, Metro typically issued bonds to finance its capital needs. In 1991, in an effort to reduce or defer long-term debt, Metro began progressively cash-financing capital projects. From 2002 until late 2009, all capital projects were financed with revenue from operations, primarily from Annual Charges for Service, Sewer Connection Charge fees, and existing reserves. When the Board made the change to cash financing, the Board acknowledged that during future periods when capital needs were high, Metro would use bond financing when appropriate. Metro issued 2009A&B Bonds in the amount of \$250 million and in 2012 issued \$380 million in bonds. The 2009 and 2012 bond issues provided Metro with an additional funding source for financing its NTP Program and South Secondary Improvements Project, which helped mitigate the need for higher annual rate increases to its Member Municipalities and Special Connectors.

Metro completed a tax-exempt bond issue in October 2020 to fund the construction of the Second Creek Interceptor project which is expected to be completed in 2024. Metro issued \$146 million tax-exempt bonds at an all-in true interest cost of 2.34 percent with a repayment period of 25 years.

Metro is currently planning to expend over \$1.3 billion through 2034 to rebuild aging facilities, pay for needed improvements due to increased regulations, and build additional infrastructure to address growth throughout its service area. At this time, Metro anticipates cash financing most of these improvements with a potential bond issue in 2024.

## **INDEPENDENT AUDIT**

The *Bylaws of Metro Water Recovery* require an annual audit of the books of account, financial records, and transactions to be conducted by independent certified public accountants selected by the Board. The opinion of Metro's independent auditor, Moss Adams LLP, on the financial statements is included in this report.

## **AWARDS**

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Metro Water Recovery for its annual comprehensive financial report for the fiscal year ended December 31, 2022. This was the 35<sup>th</sup> consecutive year (1987-2021) that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Annual Comprehensive Financial Report whose contents conform to program standards.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

**ACKNOWLEDGMENTS**

The preparation of the Annual Comprehensive Financial Report on a timely basis was made possible by the dedicated service of the Accounting Division. Each member of the Division extends their sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Board of Directors, preparation of this report would not have been possible.

Respectfully submitted,

## ***II. FINANCIAL SECTION***

## **Report of Independent Auditors**

The Board of Directors  
Metro Water Recovery

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the statements of net position of the enterprise fund and fiduciary net position of the pension trust fund as of December 31, 2023 and 2022, and the related statements of revenue, expenses and changes in net position and cash flows of the enterprise fund, and changes in fiduciary net position of the pension trust fund of Metro Water Recovery (Metro) as of and for the years ended December 31, 2023 and 2022, and the related notes to the financial statements, which collectively comprise Metro's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of Metro's enterprise fund and pension trust fund as of December 31, 2023 and 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards (Government Auditing Standards), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Metro and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Metro's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

***Auditor’s Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Metro’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Metro’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management’s Discussion and Analysis, Schedules of Changes in Net Pension Liability and Related Ratios, Schedule of Employer Contributions, and Schedule of Changes in Total OPEB Liability and Related Ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Metro's basic financial statements. The Combining Statement of Net Position – Fiduciary Funds and Combining Statement of Changes in Net Position – Fiduciary Funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the Schedules of Revenue and Expenses – Budget and Actual, Schedules of Operating Expenses – Budget and Actual, Introductory section, and Statistical section, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated March 29, 2024, on our consideration of Metro's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Metro's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Metro's internal control over financial reporting and compliance.

Denver, Colorado

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Management's Discussion and Analysis

As management of Metro Water Recovery (Metro), we offer readers of Metro's financial statements this narrative overview and analysis of the financial activities of Metro for the years ended December 31, 2023 and 2022. This discussion and analysis is presented for Metro's primary operations.

**Financial Highlights**

- Metro's net position of \$1,107 million at December 31, 2023 increased during 2023 by \$64 million or approximately 6.2%.
- Sewer connection fees increased \$22 million, or 26.6%, totaling \$103 million in 2023 due primarily to the final buy-in payment from a Connector.
- Total operating expenses increased \$16 million in 2023 due primarily to inflation and economic factors. The national average for CPI amounted to 6.4% in 2022, which caused significant price increases to a variety of key expenses includes salaries and benefits, utilities, chemicals and maintenance materials and fuel. Prices continued to remain high in 2023.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Metro's basic financial statements. Metro's financial statements are comprised of four components: 1) management's discussion and analysis, 2) the financial statements, 3) notes to the financial statements that explain in more detail some of the information in the financial statements, and 4) Required Supplementary Information and Other Schedules.

**Required Financial Statements**

The financial statements of Metro report information using accounting methods similar to those used by private sector companies. These statements provide both long-term and short-term information about Metro's overall financial status.

The statements of net position present information on all of Metro's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the categories reported as net position. These statements provide information about the nature and the amounts of investments in resources and the obligations to Metro's creditors. They provide one way to measure the financial health of Metro by providing the basis for evaluating the capital structure of Metro and assessing the liquidity and financial flexibility of Metro. One will also need to consider other nonfinancial factors, such as changes in economic conditions, population, and industrial/commercial customer growth, and new or changed government legislation.

Each year's revenue and expenses are accounted for in the statements of revenue, expenses, and changes in net position. These statements measure operations over the year and can be used to determine whether Metro has recovered all of its costs through its user fees and other charges.

The statement of cash flows report cash receipts, cash payments, and net changes in cash resulting from operating, investing, capital financing, and noncapital financing activities. This statement provide answers to such questions as, where did cash come from, what was cash used for, and what was the change in the cash balance during the reporting period.

Two financial statements are presented for the fiduciary fund. The statements of fiduciary net position present assets held in trust for pension benefits at a given point in time, net of accrued liabilities of the pension trust fund. The statements of changes in fiduciary net position indicate the additions and deductions to the pension trust fund net position during the specified periods. The pension trust fund includes both the Defined Benefit Retirement Plan and the Defined Contribution Plan for Metro.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Management's Discussion and Analysis

**Financial Analysis of Metro's Operations**

As previously noted, net position may serve over time as a useful indicator of an entity's financial position. In the case of Metro Water Recovery, assets plus deferred outflows of resources, exceeded liabilities plus deferred inflows of resources by \$1,107 million at December 31, 2023 and \$1,042 million at December 31, 2022.

Unrestricted non-capital assets totaled approximately \$355 million and \$322 million at year-end 2023 and 2022, respectively. These balances primarily represent unrestricted cash, cash equivalents, investments, and accounts receivable from connectors. Restricted assets totaled \$69 million and \$92 million at year-end 2023 and 2022, respectively. These restricted assets represent cash, cash equivalents, and investments restricted by bond covenants required to be used for debt-funded capital projects and future debt service payments. Capital assets totaled \$1,363 million and \$1,344 million at year-end 2023 and 2022, respectively. These assets include investments in wastewater plant, including pipelines and buildings, machinery, equipment, vehicles and right-to-use assets.

Current liabilities totaled approximately \$67 million and \$71 million at year-end 2023 and 2022, respectively. The balances include trade payables, accrued payroll and related benefits to employees, accrued interest payable on outstanding bonded debt, and the current portion of long-term debt. Noncurrent liabilities totaled approximately \$616 million and \$655 million at year-end 2023 and 2022, respectively. The balances represent the noncurrent principal amounts of outstanding bond issues, the noncurrent portion of compensated absences, the net pension liability and other postemployment healthcare benefits liability.

As can be seen in the following Table A-1, net investment in capital assets is the largest portion of Metro's net position (70.2%) in 2023 and (72.5%) in 2022, and reflect its investment in capital assets (e.g., sewers, buildings, machinery, and equipment) less related debt. Net investment in capital assets totaled \$777 million and \$755 million at year-end 2023 and 2022, respectively. The net increase as of December 31, 2023, of \$22 million over 2022 is primarily due to a \$18 million net increase in capital assets combined with a decrease in outstanding capital-related borrowings. Metro uses these assets to provide wholesale wastewater transmission and treatment for approximately 715 square miles of the Denver metropolitan area and serves approximately 2.2 million people. As Metro uses these capital assets in its operations, they are not available for future spending. Although Metro's investment in its capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital assets themselves are not intended to be used to liquidate these liabilities.

Restricted net position is restricted for current debt service payments, debt service reserve, and includes unspent debt proceeds as required by debt covenants and represent the excess of assets restricted for debt service payments over the accrued interest liability. These totaled approximately \$62 million and \$61 million at year-end 2023 and 2022, respectively. Board of Directors restricted amounts includes funds specifically restricted by Board actions for a specific purpose. These totaled approximately \$56 million and \$53 million at year-end 2023 and 2022, respectively. Unrestricted net position comprises the remainder of the balance. This net position may be used for any purpose. Unrestricted net position totaled approximately \$211 million and \$173 million at year-end 2023 and 2022, respectively.

The primary variances between 2023, 2022, and 2021 in Summary of Net Position are related to capital assets, restricted assets, and noncurrent liabilities. Net capital assets increased by \$18 million and \$56 million during 2023 and 2022, respectively, due primarily to additions in construction in progress and completion of projects. Restricted assets decreased by \$23 million during 2023 and \$67 million during 2022 due primarily to the spend down of bond proceeds from 2020. Noncurrent liabilities decreased by \$39 million in 2023 and \$7 million during 2022 due primarily to the principal payments on outstanding bonds. For further information, please see the capital assets and debt administration discussion on pages 18 – 19.

As can be seen in the following Table A-2, net position increased \$65 million to \$1,107 million in 2023 and \$30 million to \$1,042 million in 2022. The increase in net position in 2023 was primarily due to receiving \$103 million in sewer connection fees reduced by loss before sewer connection fees of \$39 million. The increase in net position in 2022 was primarily due to receiving \$82 million in sewer connection fees reduced by loss before sewer connection fees of \$52 million.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Management's Discussion and Analysis

While the summary of net position (Table A-1) shows the change in financial position, the summary of revenue, expenses, and changes in net position (Table A-2) provides answers as to the nature and source of these changes. As can be seen in Table A-2, total revenue for 2023 including sewer connection fees increased by approximately \$56 million or 25.8%, and total expenses increased by approximately \$21 million or 11.3% from 2022. The major factors that drove these results and other changes during 2023 include:

- Operating revenue increased by \$8.4 million in 2023 primarily due to the increase in Annual Charges revenue, which had an overall rate increase of 5.0% from 2022.
- Sewer connection fees increased approximately \$22 million, or 26.6%, totaling \$103 million in 2023 due primarily to the final buy-in payment from a Connector.
- Investment revenue increased by \$25 million in 2023, primarily due to unrealized gains on investments resulting from the significant increase in bond values.
- The \$21 million increase in total expenses included an increase of \$15 million in operating costs, primarily due to significant increases in costs due to inflationary factors in 2022 and 2023, and an additional increase of \$6 million in other nonoperating expenses.

In Table A-2, total revenue for 2022 including sewer connection fees increased by approximately \$22 million or 10%, and total expenses increased by approximately \$16 million or 9.3% from 2021. The major factors that drove these results and other changes during 2022 include:

- Operating revenue increased by \$3.7 million in 2022 primarily due to the increase in Annual Charges revenue, which had an overall rate increase 2.0% from 2021.
- Sewer connection fees increased approximately \$22 million, or 38.0%, totaling \$82 million in 2022 due primarily to the buy-in payment from a new Connector.
- Investment revenue decreased by \$6.5 million in 2022, primarily due to unrealized loss on investments resulting from the significant increase in bond rates.
- The \$16 million increase in total expenses included an increase of \$17 million in operating costs, which includes an increase of \$5 million in wastewater treatment expense, netted with a decrease of \$2 million in interest costs and other expense.

### **Capital Assets and Debt Administration**

#### *Capital Assets*

As of December 31, 2023 and 2022, Metro's investment in capital assets amounted to \$1.362 billion and \$1.344 billion, respectively (net of accumulated depreciation), as shown in the following Table A-3. The \$18 million increase in net capital assets in 2023 was primarily due to approximately \$93 million in additions to construction in progress for various ongoing wastewater and improvement and rehabilitation projects offset by completed projects placed in service and offset by \$62 million of depreciation expense.

The following projects incurred such costs for 2023: Sand Creek and Second Creek Basins - \$29 million, Interceptor Rehabilitation – \$9 million, Lift Station - \$12 million, and Sludge Processing Building – \$11 million. The remaining increase of \$32 million to construction in progress was a result of other additions to numerous smaller projects.

The \$52 million increase in net capital assets in 2022 was primarily due to approximately \$116 million in additions to construction in progress for various ongoing wastewater and improvement and rehabilitation projects offset by completed projects placed in service and offset by \$61 million of depreciation expense.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Management's Discussion and Analysis

The following projects incurred such costs for 2022: Sand Creek and Second Creek Basins - \$61 million, Interceptor Rehabilitation – \$16 million, Lift Station - \$7 million, and Sludge Processing Building – \$6 million, The remaining increase of \$26 million to construction in progress was a result of other additions to numerous smaller projects.

Construction in progress decreased by \$24 million in 2023. The \$93 million in additions to construction in progress in 2023 discussed above, was offset by \$108 million in completed projects, such as the Solids Processing Building Improvements and progress completion of Interceptor Rehabilitation, which were transferred to plant and equipment. Construction in progress increased by \$75 million in 2022. The \$116 million in additions to construction in progress in 2022 discussed above, was offset by \$39 million in completed projects, such as the National Western Century Delgany Interceptor, the RWHTF Peracetic Acid Full Scale Pilot and progress completion of Interceptor Rehabilitation, which were transferred to plant and equipment.

The increase in capital assets in 2023 and 2022 was offset by capital asset disposals of \$36 million and \$5 million, respectively.

|  | 2,071,397    | 2,020,518               | 1,906,636    |
| Less accumulated depreciation            | (708,884)    | (676,096)               | (617,966)    |
| Net capital assets                       | \$ 1,362,513 | \$ 1,344,422            | \$ 1,288,670 |

In fiscal year 2023, Metro implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*. This statement requires recognition of certain subscription assets and liabilities for SBITAs that were previously classified as operating expenses. The statement was implemented effective January 1, 2022, resulting in a restatement of the financial results for the year ended December 31, 2022.

*Debt Administration*

At December 31, 2023 and 2022, Metro's long-term debt consisted of approximately \$580 million and \$610 million in bonds payable, respectively. Metro's underlying bond ratings are as follows:

| <b>Moody's Investors Services</b> | <b>Standard &amp; Poor's</b> |
|-----------------------------------|------------------------------|
| Aa1                               | AAA                          |

Additional information on Metro's capital assets and long-term debt can be found in notes 4, 5, and 6 to the financial statements.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Management's Discussion and Analysis

**Fiduciary Fund**

As of December 31, 2023 and 2022, the net position of the pension trust fund totaled \$151 million and \$132 million, respectively. The increase in fiduciary net position in 2023 was primarily due to net appreciation in the fair value of investments of \$14 million. In 2023 and 2022, contributions to the pension trust fund amounted to \$15 million and \$12 million, respectively. The increase in contributions in 2023 was primarily due to the increase in required employer contributions.

**Next Year's Budgets and Rates**

Metro approved a \$120 million 2024 Operation and Maintenance Budget, an increase of \$10 million from 2023. The increase is primarily from budgeted wage increases and significant increases in employee benefit costs, as well as an increase in the amount and cost of treatment chemicals, an increase in outside services, an increase in insurance expenses, and a significant increase in utility costs. Metro also approved Annual Charges for Service totaling \$155 million, a 7.0% increase from 2023. Annual Charges for Services are the annual user fees that Metro Connectors pay for the treatment of their wastewater and are allocated to individual connectors based on the relative amount and strength of their wastewater. Annual rates are set each year to cover the annual requirements of operating expenses, debt service, capital project expenditures, and fund balances.

Metro's Capital Projects Budget for 2024 totals \$132 million, an increase of \$4 million from the 2023 Capital Projects Budget of \$128 million. These projects include rehabilitation, growth, and improvement projects in Metro's system.

**Requests for Information**

This financial report is designed to provide a general overview of Metro Water Recovery's finances for all those with an interest in Metro's finances and to demonstrate Metro's accountability for the money it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the attention of Molly Kostelecky, Chief Financial Officer, Metro Water Recovery, 6450 York Street, Denver, CO 80229 or [www.metrowaterrecovery.com](http://www.metrowaterrecovery.com).

See accompanying notes to basic financial statements.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(1) Organization**

**(a) Organization**

Metro Water Recovery (Metro) was created in May 1961 pursuant to the Colorado Revised Statutes and is a governmental subdivision of the State of Colorado, with powers specifically granted and reasonably implied therefrom and necessary to carry out the objectives and purposes of Metro. Metro's facilities are used primarily to transport and treat sewage from the sewer systems of various connectors in the greater metropolitan Denver area.

The income generated by Metro, as an instrumentality of the State of Colorado, is excluded from federal income taxes under Section 115 of the Internal Revenue Code. In addition, pursuant to the provisions of the Colorado Revised Statutes, Metro is exempt from sales, property, and state income taxes.

**(b) Financial Reporting Entity**

Metro is not a component unit of the State of Colorado or any other municipality of the State of Colorado. It is a stand-alone governmental entity. The scope of Metro's public services encompasses only a limited portion of the State of Colorado. Metro is considered an enterprise under Section 20, Article X of the Colorado Constitution.

The Pension Trust Fund is reported separately from Metro and includes two different retirement plans. The Metro Water Recovery Defined Benefit Plan (the Defined Benefit Plan) is a single-employer, defined benefit plan covering all employees of Metro hired on or before December 31, 2012 (note 7). Metro contributes to the Defined Benefit Plan based upon actuarial studies and has primary responsibility for management of the Defined Benefit Plan as all Defined Benefit Retirement Board members are appointed by Metro's Board of Directors. Metro also provides all accounting, reporting, and administrative services to the Defined Benefit Plan. Metro has fiduciary responsibility for the Defined Benefit Plan. Accordingly, an evaluation of the Defined Benefit Plan using the above considerations results in the inclusion of the Defined Benefit Plan in the accompanying basic financial statements as a fiduciary fund of Metro. The Defined Benefit Plan issues stand-alone financial statements, which may be obtained from Metro.

The Metro Water Recovery Defined Contribution Plan (the Defined Contribution Plan) is a single-employer defined contribution plan, which includes four 401(a) plans. The primary plan is for all new employees hired on and after January 1, 2013. Employees in the primary Defined Contribution Plan are required to contribute 6% of their earnings to the Defined Contribution Plan. Metro matches the mandatory employee contributions with an additional 6% contribution. Employee contributions are deducted from each bi-weekly paycheck, and this amount together with Metro's matching portion, is sent each payday to the Defined Contribution Plan's administrator, Mission Square. As of December 31, 2023 and 2022 there were 264 and 258 active plan members. The Defined Contribution Plan is governed by the Defined Contribution Retirement Board, the members of which are appointed by Metro management and Metro Board of Directors. Accordingly, an evaluation of the Defined Contribution Plan using the above considerations results in the inclusion of the Defined Contribution Plan in the accompanying basic financial statements as a fiduciary fund of Metro.

**(c) Fund Accounting**

The accounts of Metro are organized into two separate funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenue, and expenses. Government resources are allocated to and accounted

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The financial activity of Metro is accounted for in two funds:

*Enterprise Fund* – The Enterprise Fund is used to account for any activity for which a fee is charged to external users for goods or services.

*Pension Trust Fund* – Pension Trust Fund for the Defined Benefit Plan and Defined Contribution Plan is maintained to account for assets held by Metro in a trustee capacity for active and retired employees.

**(2) Summary of Significant Accounting Policies**

**(a) Basis of Accounting**

The Enterprise and Pension Trust Fund, for financial reporting purposes, are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred.

**(b) Restricted Assets**

Separate accounts are provided in accordance with bond resolutions and utilized to segregate restricted assets from unrestricted assets. Related liabilities, payable from these restricted assets, are also segregated and utilized in determining financial position.

**(c) Cash and Cash Equivalents**

For purposes of the statement of cash flows, Metro considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

**(d) Capital Assets**

Metro records its plant and equipment at cost, or estimated historical cost, if actual cost is not available. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value, for which Metro has none. Assets are capitalized when they are greater than \$10,000 and have a service life greater than one year. Depreciation on facilities and equipment is charged as an expense against operations. Depreciation has been computed using the straight-line method over the following estimated useful lives:

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

|                         | <b>Estimated useful<br/>life in years</b> |
|-------------------------|---|
| Plant in service:       |   |
| Transmission            | 10 – 50                                   |
| Treatment               | 8 – 50                                    |
| Solids processing       | 5 – 50                                    |
| Solids recycling        | 5 – 50                                    |
| Support                 | 5 – 50                                    |
| Equipment and vehicles: |   |
| Plant                   | 10 – 50                                   |
| Support                 | 3 – 50                                    |
| Vehicles                | 5 – 20                                    |

Expenditures for repairs and maintenance are expensed as incurred. Major renewals, replacements, and betterments are capitalized. Upon retirement or disposition, the cost and accumulated depreciation of such assets are removed from the accounts, and the resulting gain or loss is included in the change in net position. Major outlays for utility plant and equipment are capitalized as projects are constructed.

**(e) Investments**

Metro’s investments are carried at fair value based upon market quotations, with the exceptions of investments held in the Colorado Statewide Investment Pool, which are carried at amortized cost. The Pension Trust Funds investments are also carried at fair value based upon market quotations, with the exception of real estate investments. These investment valuations are based upon an independent, third-party appraisal of each property. These appraisals are based upon a portfolio overview and updated cash flow modeling. See Note 3(j) for additional information.

**(f) Materials and Supplies Inventories**

Metro records its materials and supplies inventories at the lower of moving average cost. These materials and supplies are not held for resale. The inventory is charged to operations and maintenance expense as the items are used.

**(g) Leases**

Metro is a lessee for various noncancelable leases of equipment. For leases with a maximum possible term of 12 months or less at commencement, Metro recognizes expense based on the provisions of the lease contract. For all other leases (i.e. those that are not short-term), Metro recognizes a lease liability and an intangible right-to-use lease asset.

At lease commencement, Metro measures the lease liability at the present value of payments expected to be made during the lease term. If the present value of payments expected to be made is below \$10,000, then expenses will be recognized as short-term leases. Subsequently, for all other leases, the lease liability is reduced by the principal portion of lease payments made. The lease asset (right-to-use) is initially measured as the initial amount of the lease liability plus ancillary cost to place the asset into use, plus lease payments made to the lessor at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term. The lease

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

asset is amortized into amortization expense on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

The interest rate used for 2023 and 2022 was the lessor's discount rate of 3%.

Metro monitors changes in circumstances that may require remeasurement of a lease. When certain changes occur that are expected to significantly affect the amount of the lease liability, the liability is remeasured, and a corresponding adjustment is made to the lease asset. There was no remeasurement of leases during fiscal year 2023.

Leases are reported with capital assets and lease liabilities are reported with current liabilities and noncurrent liabilities (long-term) in the Statement of Net Position.

**(h) Subscriptions**

Metro has entered into a variety of noncancelable subscription-based information technology arrangements. For subscriptions with a maximum possible term of 12 months or less at commencement, Metro recognizes expense based on the provisions of the subscription arrangements. For all other subscription arrangements (i.e. those that are not short-term), Metro recognizes a subscription liability and an intangible right-to-use subscription asset.

Metro measures the subscription liability at the present value of payments expected to be made during the subscription term. If the present value of payments expected to be made is below \$10,000, then expenses are recognized as an operating expense. Subsequently, for all other subscriptions, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset (right-to-use) is initially measured as the initial amount of the subscription liability plus ancillary cost to place the asset into use. The subscription asset is amortized into amortization expense on a straight-line basis over the shorter of the subscription term or the useful life of the underlying asset.

The interest rate used for 2023 and 2022 was Metro's incremental borrowing rate equaling to the tax-exempt bond interest rate of 3.5%.

Metro monitors changes in circumstances that may require remeasurement of a subscription. When certain changes occur that are expected to significantly affect the amount of the subscription liability, the liability is remeasured, and a corresponding adjustment is made to the lease asset. There was no remeasurement of leases during fiscal year 2023.

Subscription arrangements are reported with capital assets and subscription liabilities are reported with current liabilities and noncurrent liabilities (long-term) in the Statement of Net Position.

**(i) Deferred Outflows of Resources and Deferred Inflows of Resources**

Changes in the components of the net pension liability is reported as a deferred outflow of resources or a deferred inflow of resources. See Note 7(b)(viii) for additional information.

Changes in the components of the net OPEB liability is reported as deferred outflow of resources and deferred inflow of resources. See Note 8(f) for additional information.

For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

The 2019B Series Refunding bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt, reported as a deferred inflow of resources of \$4,552,748 and \$4,820,557 as of December 31, 2023 and December 31, 2022, respectively. See Note 6(c) for additional information.

**(j) Unearned Revenue**

Unearned revenue represents insurance claim funds received during 2022 for a claim loss that was sustained on March 16, 2021, Clarifier Cover Failure at the Northern Treatment Plant due to heavy snow accumulation during a winter storm. The claim funds received are to be used to offset the cost of replacing the clarifier covers. As costs are incurred Metro will recognize an equal portion of the unearned claim funds as revenue. The portion of revenue recognized for the year ended December 31, 2023 matched to the actual costs incurred in 2023, which totaled \$1,453,269.

**(k) Net Position**

Net position is classified as follows:

*Net Investment in capital assets* – This represents the total investment in capital assets, net of accumulated depreciation, outstanding debt obligations and deferred gain on refunding (less unspent bond proceeds) related to those capital assets.

*Restricted net position – bonds* – Restricted net position – bonds includes resources in which Metro is legally or contractually obligated to spend resources in accordance with restrictions imposed by debt agreements.

*Restricted net position – board of directors* – Restricted net position – board of directors includes resources in which the Board of Directors has identified to be used for a specific purpose through a Board action.

*Unrestricted net position* – Unrestricted net position represents resources derived from annual charges to connectors, septic charge revenue, and other revenues. These resources are used for transactions relating to the operations of Metro and may be used to meet current expenses for any purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted net position are available, restricted resources are considered expended.

**(l) Classification of Revenues and Expenses**

Metro has classified revenues and expenses as operating, nonoperating, or capital contributions according to the following criteria:

*Operating revenue and expenses* – Revenue and expenses that result from providing wholesale wastewater transmission, treatment, and disposal services to 51 connectors, cities, towns, special districts, and industrial users.

*Nonoperating revenue and expenses* – Revenues and expenses that are not included as operating revenues. Nonoperating revenue includes investment income and rebates from the Build America Bonds program. Nonoperating expenses include interest expense on outstanding bonds and other nonoperating expenses.

*Capital contributions* – Revenues that include sewer connection fees.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(m) Sewer Connection Fees**

Metro charges fees for new sewer connections. Sewer connection fee receipts are used for payment of principal and interest on bonds issued to finance capacity-related facility improvements and to otherwise pay for such facilities.

**(n) Compensated Absences**

Metro employees earn sick leave at a rate of eight hours per month. Accumulated sick leave in excess of 960 hours is payable at one-half of the cash value at year-end or upon termination.

Employees are entitled to 100 to 168 hours of vacation leave per year depending on their length of service. A maximum of 200 hours of earned vacation leave may be carried forward to subsequent years. Unused vacation leave is paid to the employee upon termination.

Vacation and excess sick pay is recorded as an expense when earned by Metro employees. At December 31, 2023 and 2022, accrued vacation and excess sick pay aggregated \$3,041,998 and \$2,585,270, respectively.

**(o) Use of Estimates in Preparation of Financial Statements**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

**(p) New and Future Accounting Pronouncements**

In May 2020, GASB issue Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, effective for periods after June 15, 2022. The objective of this statement is to enhance consistency in accounting and financial reporting by requiring government entities to recognize a right-to-use subscription asset and corresponding subscription liability for such contracts with a specified term. Metro adopted the provisions of GASB 96 and Metro's financial statements effective January 1, 2022, resulting in restatement of financial results for the year ended December 31, 2022.

The following GASB statements were implemented for the fiscal year ended December 31, 2023, as required, and did not impact Metro's financial statements:

- GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, effective for periods after June 15, 2022
- GASB Statement No. 99, *Omnibus 2022*, effective for periods after June 15, 2022

**(q) Restatement of Previously Reported Amounts for Implementation of GASB Statement No. 96**

The cumulative effect implementing GASB Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, to Metro's financial statements as of the year ended December 31, 2022, is summarized in the table below related to the statement of net position.

**(a) Cash Deposits**

Colorado statutes require that Metro use eligible public depositories as defined by the Public Deposit Protection Act (PDPA). Under the PDPA, the depository is required to pledge eligible collateral having a fair value at all times equal to at least 102% of the aggregate public deposits held by the depository not insured by the Federal Deposit Insurance Corporation.

Eligible collateral, as defined by the PDPA, primarily includes obligations of, or guarantees by, the U.S. government, the State of Colorado, or any political subdivision thereof, and obligations evidenced by notes secured by first lien mortgages or deeds of trust on real property.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(b) *Restricted Cash and Cash Equivalents, and Investments***

Restricted cash and cash equivalents and investments are restricted for the current payment of principal and interest on outstanding bonds as required by debt covenants and amounts restricted by the Board of Directors for a specific purpose.

**(c) *Investment Policy***

Metro is authorized by Colorado Statute to invest in various types of instruments that include but are not limited to the following:

- Obligations of the United States, certain U.S. government agency securities and the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Written repurchase agreements collateralized by certain authorized securities
- Commercial paper
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools
- Certain reverse repurchase agreements
- Certain certificates of participation
- Certain securities lending transactions

Metro, excluding the Pension Trust Fund, has an investment policy that regulates investments in securities that have objectives of preservation of capital and protection of investment principal, maintenance of sufficient liquidity to meet Metro's financial obligations, diversification to avoid incurring unreasonable market risks, and attainment of a market rate of return throughout budgetary and economic cycles. Eligible securities are specific to Colorado State Statutes and Metro's bond indenture agreements. The indenture agreements limit the number of U.S. Agency issuers to three creating a concentration of credit risk, but each security in the investment portfolio is rated AAA or AA+. All securities owned by Metro are in conformity with the investment policy.

The Defined Benefit Plan has an investment policy that regulates investments by hiring a qualified investment consultant to oversee qualified investment management firms who manage the assets of the Defined Benefit Plan. The investment policy establishes an asset allocation strategy, investment objectives, and investment guidelines for all assets. The asset allocation strategy is designed to be consistent with the safety and return objectives of the Defined Benefit Plan and includes allowable global equity, debt, alternatives, and real estate investments. All securities and investments owned by the Defined Benefit Plan are in conformity with the investment policy.

The Defined Benefit Plan's allowable investments in equities, fixed income, and real estate are limited to qualified investment managers.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

The Defined Benefit Plan’s policy in regard to the allocation of invested assets is established and may be amended by the Metro Water Recovery Retirement Board by a majority vote of its members. The investment policy calls for cash reserves to be held in money market funds in the Plan’s operating account at the Trustee bank at a level based on the liquidity needs as determined by Metro finance staff. The following was the Retirement Board’s asset allocation policy as of December 31, 2023.

| <u>Investment Type</u> | <u>Target Allocation</u> | <u>Target Range</u> |
|------------------------|--------------------------|---------------------|
| Public equity          | 45.00%                   | 40%-65%             |
| Private equity         | 5.00%                    | 0%-10%              |
| Fixed rate debt        | 25.00%                   | 10%-30%             |
| Floating rate debt     | 10.00%                   | 5%-15%              |
| Real estate            | 15.00%                   | 10%-20%             |
|                        | 100.00%                  |                     |

The Defined Contribution Plan has an investment policy statement (IPS) that provides for investment objectives within the plan. The primary objective of the IPS is to provide participants with a diverse set of investment options that encompass a variety of risk/return characteristics from which the participant can self-direct their portfolio in a diversified manner. The Defined Contribution Board is responsible for selecting and monitoring investments options, while the participant selects in which option(s) they shall invest.

**(d) Credit Risk**

Metro manages credit risk by requiring all investments, including the use of external investment pools and money market funds, be rated AAA, AAA-G, AAAM, AA+, AA or AA- at the time of purchase, and including commercial paper, be A-1 rated by Standard & Poor’s or the equivalent rating of a nationally recognized rating agency. All securities held by Metro meet the credit quality objective.

As of December 31, 2023, Metro invested \$27,839,337 in corporate bonds. The credit ratings for the corporate bonds are based on Standard and Poor’s rating scale, and were as follows: \$3,230,825 were rated AAA, \$2,897,106 were rated AA, \$11,895,812 were rated AA-, and \$9,815,594 were rated A+. The bonds rated A+ meet Metro’s investment through ratings by another nationally recognized rating agency.

As of December 31, 2022, Metro invested \$10,396,733 in corporate bonds. The credit ratings for the corporate bonds are based on Standard and Poor’s rating scale, and were as follows: \$4,038,128 were rated AA, \$3,188,394 were rated AA+, and \$3,170,211 were rated AAA.

| Fair value  | \$ 2,212,400        | \$ 2,592,790  |
| Average rating  | Not rated           | Not rated     |
| First American Money Market Government Obligations Fund |                     |               |
| Fair value  | \$ 1,010,772        | \$ 962,365    |
| Average rating  | AAAm                | AAAm          |

The Defined Contribution Plan has no credit risk.

**(e) Custodial Credit Risk**

Metro has no custodial credit risk. All securities are registered in the name of Metro and held by a third-party safekeeping agent. Investments in money market mutual funds are not exposed to custodial risk because their existence is not evidenced by securities that exist in physical or book entry form.

Custodial credit risk is the risk that in the event of a bank failure, the Defined Benefit Plan's deposits may not be returned to it. All securities are registered in the name of US Bank as the Trustee for the Plan and held by third-party safekeeping agents. Investments in money market mutual funds are not exposed to custodial risk because their existence is not evidenced by securities that exist in physical or book entry form. Other deposits may include small amounts of cash held for short periods of time prior to investment. These deposits are insured by FDIC up to \$250,000. As of December 31, 2023, the Defined Benefit Plan's deposits had a balance of \$216,179. As of December 31, 2022, the Defined Benefit Plan's deposits had balance of \$0.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

The Defined Contribution Plan has no custodial credit risk. All securities held in trust for the participants at MissionSquare. Investments in money market mutual funds are not exposed to custodial risk because their existence is not evidenced by securities that exist in physical or book entry form.

**(f) Concentration of Credit Risk**

Metro has a concentration of credit risk where it holds more than 5% of its investment portfolio in any one security issuer, other than those explicitly guaranteed by the U.S. government. Metro's investment policy and bond indenture agreements restrict investments in U.S. Agency issuers to the three listed below:

|  | <b>Moody's Investor<br/>Service</b> | <b>Standard &amp; Poor's</b> |
|--|-------------------------------------|------------------------------|
| Federal Home Loan Bank (FHLB)                | Aaa Rated                           | AA+ Rated                    |
| Federal Home Loan Mortgage Corp (FHLMC)      | Aaa Rated                           | AA+ Rated                    |
| Federal National Mortgage Association (FNMA) | Aaa Rated                           | AA+ Rated                    |
| Federal Farm Credit Bank                     | Aaa Rated                           | AA+ Rated                    |

As a result, each issuer represents more than 5% of the total investments, and all securities are AAA or AA+ as rated by nationally recognized rating agencies. The following U.S. Agency securities are in excess of 5% of total investments:

|               | <b>December 31,</b> |                                    |               |                                    |
|---------------|---------------------|------------------------------------|---------------|------------------------------------|
|               | <b>2023</b>         |                                    | <b>2022</b>   |                                    |
| <b>Issuer</b> | <b>Amount</b>       | <b>Percentage<br/>of portfolio</b> | <b>Amount</b> | <b>Percentage<br/>of portfolio</b> |
| FHLMC         | \$ 10,422,223       | 2.76                               | \$ 23,635,958 | 7.13                               |
| FNMA          | 25,957,025          | 6.88                               | 54,025,527    | 16.29                              |

A concentration of credit risk exists for the Pension Trust Fund if they hold more than 5% of the investment portfolio in any one security issuer, other than those explicitly guaranteed by the U.S. government. Mutual funds, external investment pools, and other pooled investments are also excluded from this requirement. The Pension Trust Fund has no concentration of credit risk as of December 31, 2023 and 2022.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(g) Interest Rate Risk**

Metro has no formal policy to manage interest rate risk. Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements. Metro uses duration as the method to identify and manage interest rate risk. Duration measures exposure to fair value changes arising from changing interest rates. Duration uses the present value of cash flows weighted for those cash flows as a percentage of the full price of the investments. A large duration indicates more price sensitivity to changing interest rates. Each security purchased has a duration analysis, and the entire portfolio has a duration calculation weighted based on the size of each investment. As of December 31, 2023 and 2022, the duration for Metro's investments was as follows:

| Type                        | December 31, 2023 |                      |                        |
|-----------------------------|-------------------|----------------------|------------------------|
|                             | Fair value        | Duration<br>in Years | Call options<br>at 100 |
| U.S. Treasury Notes         | \$ 123,516,767    | 2.97                 | \$ —                   |
| U.S. Agency securities      | 30,067,266        | 1.42                 | —                      |
| Corporate Bonds             | 27,839,337        | 2.08                 | 4,390,000              |
| Supra-national agency bonds | 2,226,836         | 2.86                 | —                      |
| Bank notes                  | 1,432,969         | 2.42                 | —                      |
| Municipal Bonds             | 2,600,867         | 2.86                 | —                      |
| Total fair value            | \$ 187,684,042    |                      |                        |

| Type                   | December 31, 2022 |                      |                        |
|------------------------|-------------------|----------------------|------------------------|
|                        | Fair value        | Duration<br>in Years | Call options<br>at 100 |
| U.S. Treasury Notes    | \$ 108,774,503    | 2.04                 | \$ —                   |
| U.S. Agency securities | 82,438,860        | 1.17                 | 21,010,000             |
| Corporate Bonds        | 10,396,733        | 2.09                 | 4,900,000              |
| Municipal Bonds        | 1,345,090         |                      | —                      |
| Total fair value       | \$ 94,180,683     |                      |                        |

As of December 31, 2023 and 2022, Metro invested \$99,349,819 and \$61,728,489, respectively, in Colorado Surplus Asset Fund Trust (CSAFE), an investment vehicle established for local governments in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing CSAFE. CSAFE operates similarly to a money market fund, and each share is equal in value to \$1.00, and are rated AAAM by Standard and Poor's rating scale. The weighted average maturity of these investments was fewer than 49 days and 32 days as of December 31, 2023 and 2022, respectively.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

The Pension Trust Fund investment policy manages its exposure to fair value losses arising from rising interest rates by specific guidelines for debt managers. As of December 31, 2023 and 2022, the Pension Trust Fund held the following debt investments.

|  | <b>December 31,</b> |               |
|--|---------------------|---------------|
|  | <b>2023</b>         | <b>2022</b>   |
| <b>Western Asset Management Core Plus Bond Fund IS</b> |                     |               |
| Balance  | \$ 12,540,010       | \$ 10,377,944 |
| Modified duration (in years)                           | 7.1                 | 7.1           |
| <b>JP Morgan Core Bond Fund</b>                        |                     |               |
| Balance  | \$ 18,526,885       | \$ 4,319,858  |

| Balance  | \$ 723,139          | \$ 1,057,340  |
| Modified duration (in years)                           | 0.4                 | 0.4           |
| <b>Principal Real Estate Debt Fund III</b>             |                     |               |
| Balance  | \$ 2,212,400        | \$ 2,592,790  |
| Modified duration (in years)                           | 1.1                 | 1.1           |

Investments in money market funds of \$1,010,772 and \$962,365 as of December 31, 2023 and 2022, respectively, have an average maturity of fewer than 42 and 12 days, respectively.

**(h) Foreign Currency Risk**

Metro Water Recovery and Defined Contribution Plan were not exposed to foreign currency risk as of December 31, 2023 and 2022. For 2023 and 2022, the Plan's investments managed exposure to foreign currency risk by limiting the allocation percentage of interest of global equity investments to 25.0% and 28.0%, respectively. The global equities in which the Plan has invested have a fair value of \$33,192,985 and \$30,859,289, or 25.1% and 26.1% of the total portfolio at December 31, 2023 and 2022, respectively. Each fund is valued in U.S. dollars with exposure to various worldwide currencies. Any over-allocation of funds are rebalanced on a regular basis.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(i) Investment Income**

Investment income for Metro, excluding the Pension Trust Fund, for the years ended December 31, 2023 and 2022 was comprised of the following:

|   | <b>December 31,</b>  |                       |
|---|----------------------|-----------------------|
|   | <b>2023</b>          | <b>2022</b>           |
| Investment income                         | \$ 10,744,339        | \$ 4,464,990          |
| Net realized gain / (loss) on investments | (4,502,054)          | (1,337,866)           |
| Net unrealized gain (loss) on investments | 10,573,931           | (11,775,085)          |
| <b>Total</b>                              | <b>\$ 16,816,216</b> | <b>\$ (8,647,961)</b> |

Investment income for the Pension Trust Fund for the years ended December 31, 2023 and 2022 was comprised of the following:

|   | <b>December 31,</b>  |                        |
|---|----------------------|------------------------|
|   | <b>2023</b>          | <b>2022</b>            |
| Interest and dividend income              | \$ 2,737,360         | \$ 2,144,840           |
| Net realized gain on investments          | 2,069,623            | 2,736,882              |
| Net unrealized gain (loss) on investments | 10,290,248           | (23,016,074)           |
|   | 15,097,231           | (18,134,352)           |
| Less investment expense                   | (386,005)            | (381,948)              |
| Net investment income (loss)              | <b>\$ 14,711,226</b> | <b>\$ (18,516,300)</b> |

The calculation of realized gains is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in the fair value of investments reported in the prior year.

**(j) Fair Value**

The Enterprise and Pension Trust Funds categorize its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

For investments categorized as Level 1, prices are determined using quoted prices in active markets for identical securities. For investments categorized as Level 2, prices are determined using other significant observable inputs. Observable inputs are inputs that reflect the assumptions market participants would use by pricing a security and are developed based on market data obtained from sources independent of the reporting entity. These may include quoted market prices for similar assets, quoted prices for identical assets in markets that are not active or other quoted prices that are not observable. For investments categorized at Level 3, prices are determined using inputs that are not observable.

For investments measured at the Net Asset Value (NAV), Metro invested in the Colorado Statewide Investment Program, an investment program that provides Colorado local governments with tools for meeting their cash flow and investment needs. Investments are offered through the Colorado Statewide Investment Pool (“CSIP”), a local government investment pool authorized under 24-75-701 et. Seq. of the Colorado Revised Statutes. Currently, CSIP offers two investment options, 1) CSIP Liquid Portfolio and 2) CSIP Term Portfolio. The CSIP Liquid Portfolio is a fully liquid, variable rate investment option, rated AAAM by Standard and Poor’s. There are no unfunded commitments, the redemption frequency is daily and there is a one-day redemption notice. The CSIP Term Portfolio offers the ability for participants to invest in shares of fixed-rate, fixed-term investments, rated AAAs by Fitch Ratings. There are no unfunded commitments, the redemption period is planned at maturity, and the redemption period is a sixty-day minimum and one-year maximum.

| Floating rate debt (2)          | 12,429,513           | 5,650,504               | monthly, n/a, n/a, n/a,<br>quarterly               | 30 days, n/a, n/a, n/a,<br>90-days |
| Real estate (3)                 | 20,057,339           | -                       | daily based on liquidity                           | 1 day                              |
| Stable value funds (4)          | 1,452,604            | -                       | daily  | n/a                                |
|                                 | <u>\$ 44,077,769</u> |                         |  |                                    |

(1) There are four investments in this category. One fund's primary purpose of developing and actively managing an investment portfolio of private equity funds and other investment vehicles, principally by making, holding and disposing of privately negotiated investments in the form of limited partner interests and securities. The nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the fund. It is estimated that the underlying assets of the partnership would be liquidated over 12 to 15 years.

The second fund invests predominantly in U.S. venture capital-focused funds on a primary and secondary basis. Partnership investments will include start-up, early-stage, late-stage and growth equity funds as well as secondary funds focusing on direct investments in venture-backed and/or technology companies. The fund may re-invest proceeds of portfolio investments; provided, however, that the acquisition costs of all portfolio investments will not exceed 110% of aggregate subscriptions. The nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the fund would be liquidated over 12 years.

The third fund invests predominantly in North American and Western Europe value orientated equity investments. Partnership investments are generally traditional middle market buyouts of out-of-favor industries and companies focusing on investments in media, financial services, energy, and industrial companies. The nature of the investments in this type is that distributions are received through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the fund would be liquidated over 10 to 13 years.

## **Metro Water Recovery**

For the Years Ended December 31, 2023 and 2022

### Notes to the Basic Financial Statements

The fourth fund invests in global venture capital direct partnership investments. Investments are primarily core venture capital, with about 25% representing seed and early-stage partnerships. It is estimated that 60% of investments will be in the US and 40% allocated to international groups. Investments address a broad range of business opportunities primarily related to or enabled by technology. The fund may re-invest proceeds of portfolio investments; provided, however, that the acquisition costs of all portfolio investments will not exceed 115% of aggregate subscriptions, including secondary opportunities. Distributions are received through the liquidation of the underlying assets of the fund. It is expected that the underlying assets of the fund would be liquidated over 12 years.

- (2) There are five investments in the floating rate debt category.

The first is a fixed income fund that invests in actively managed investments in senior secured, floating rate assets and, to a limited degree, in secured bonds. The fund invests in a diversified portfolio of issuers in North America and Europe across a broad range of industries. Funds may be withdrawn monthly with 30 days written notice. The fund is open-ended.

The second and third investments are funds that invest in higher yielding private commercial real estate debt investments, including subordinate debt investments, such as mezzanine debt, b-notes, and senior mortgages, such as bridge loans and participating construction permanent loans. Distributions of net cash flow to investors will be made on at least a quarterly basis, as available, and it is estimated that the underlying investments of the partnership would be liquidated over 7 to 10 years.

The fourth investment is a fund that invests primarily in senior secured, floating rate middle market loans. Distributions of net income will be made on a quarterly basis, or more frequently at the General Partner's discretion. It is expected that the underlying assets of the fund would be liquidated over 10 years.

The fifth investment is a fund that invests in higher yielding private commercial real estate debt investments, primarily senior mortgages, and mezzanine investments. Distributions of net cash flow to investors will be made on at least a quarterly basis, as available. Funds may be withdrawn quarterly with 90 days written notice. This fund is open-ended.

- (3) This fund invests in a well-diversified real estate portfolio that reflects the overall performance of the U.S. commercial real estate market, consisting primarily of high quality, well-leased real estate properties in the multifamily, industrial, office, retail, and hotel sectors. The fund is open ended, and funds may be withdrawn daily subject to the availability of liquidity and the absence of a withdrawal queue with one-day written notice.
- (4) This category includes two funds, which are investment options of the defined contribution plan(s), which are designed to preserve capital and which are invested 100% in other capital preservation funds. Shares may be redeemed daily by participants.

All of Metro's revenues are pledged toward the repayment of these bonds. For these bonds there are no assets pledged as collateral. If the Bonds are not paid at the date of maturity then interest will continue to be paid at the original interest rate until those Bonds, both principal and interest, are paid in full.

**(a) Series 2009B**

On August 27, 2009, Metro issued \$187,380,000 of Series 2009B Sewer Improvement Bonds, bearing interest at 4.718% to 5.775%, for the purpose of financing construction of long-range capital improvement projects. The 2009B Bonds were issued as Direct Pay Build America Bonds. Build America Bonds were created as part of the American Recovery and Reinvestment Act of 2009 and are taxable bonds to the bond holder. Metro receives a direct federal subsidy in the amount of 35 percent of the interest payment on the Build America Bonds. Metro recorded \$1,803,674 and \$1,795,394 from the United States Treasury for the fiscal years ended December 31, 2023 and 2022 related to the federal subsidy received on these bonds.

As part of the issuance of the Series 2019A Sewer Refunding Bonds, a portion of the 2009B bonds were refunded, in the amount of \$78,875,000. The remaining outstanding series 2009B bonds, in the amount of \$94,195,000, are due in annual installments of \$17,475,000 to \$20,250,000 beginning April 1, 2025 through April 1, 2029.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(b) Series 2019A**

On May 17, 2019, Metro issued \$72,830,000 of Series 2019A Sewer Refunding Bonds, bearing interest of 5.00%, for the purpose of refunding a portion of the Series 2009B Bonds outstanding in the aggregate amount of \$78,875,000 with an interest rate of 5.00%. Proceeds from the 2019A Bonds were deposited with the Escrow Agent. The portion of the 2009B Bonds were called and defeased on May 17, 2019 and the escrow account closed. As a result, the refunded 2009B bonds were defeased and the liability for those bonds has been removed from Metro's statement of net position as of December 31, 2019.

The refunding was undertaken to reduce total debt service payments over the next five years by \$4.2 million and resulted in an economic gain of \$4.0 million, which is being amortized over the life of the 2019A bonds. The 2019A Bonds are due in annual installments ranging from \$13,210,000 to \$15,995,000 beginning April 1, 2020 through April 1, 2024.

**(c) Series 2019B**

On December 10, 2019, Metro issued \$332,770,000 of Series 2019B Taxable Sewer Refunding Bonds, bearing interest at 1.922%, for the purpose of defraying the cost of refunding and paying the principal and interest on the 2012A Bonds maturing on or after April 1, 2023 in the aggregate amount of \$311,740,000. The net proceeds of \$331,789,575 from the 2019B Bonds, after payment of \$980,425 underwriting fees and other issuance costs were deposited into an escrow account to provide for all future debt service payments of the refunded 2012A bonds. As a result, the refunded 2012A bonds are considered to be defeased in substance, and the liability for those bonds has been removed from Metro's statement of net position as of December 31, 2019.

The refunding was undertaken to reduce total debt service payments over the next ten years by \$26.7 million and resulted in a difference between reacquisition price and the net carrying amount of the old debt of \$5.6 million. This difference, reported in the accompanying financial statements as a deferred inflow of resources, is being amortized as a component of interest expense through the life of the 2019B bonds. The refunding resulted in an economic gain of \$19.6 million. The bonds are taxable and due in annual installments of \$4,250,000 to \$23,320,000 beginning April 1, 2020 through April 1, 2041.

**(d) Series 2020A**

On October 27, 2020, Metro issued \$146,545,000 of Series 2020A Sewer Improvement Bonds, bearing interest at 2.00% to 5.00%, for the purpose of financing construction of long-range capital improvement projects. The 2020A Bonds are due in annual installments ranging from \$5,095,000 to \$17,035,000 beginning April 1, 2030 through April 1, 2045.

**(e) Bond Covenants**

There are certain covenants associated with Metro's bonds. As of December 31, 2023 and 2022, the management of Metro believes they are in substantive compliance with these requirements.

**(7) Retirement Plans**

**(a) General**

Metro offers two retirement plans to employees. Employees hired on or before December 31, 2012 are under the Defined Benefit Plan. Employees hired on or after January 1, 2013 are under the Defined Contribution Plan. Additional information on each plan follows below.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(b) Defined Benefit Plan**

*Plan Description*

The Defined Benefit Plan is a single-employer, defined benefit pension plan covering all employees of Metro hired on or before December 31, 2012. The Defined Benefit Plan is administered by a retirement board, which consists of seven members who are appointed by the Board of Directors of Metro. The provisions of the Defined Benefit Plan give Metro's Board of Directors the right and authority to establish and amend the contribution requirements and benefit provisions of the Defined Benefit Plan. The costs of administering the Defined Benefit Plan are paid from the Defined Benefit Plan's investment earnings. The Plan was amended in 2021 to clarify the lump sum option for death benefits includes a participant's "entire vested Accrued Benefit," which could include post-2012 accruals.

*Benefits Provided*

The Defined Benefit Plan provides retirement, death, and disability benefits to Plan members and their beneficiaries. Participants are fully vested in Plan benefits after completion of five years of eligible service. Employees who terminate employment at age 65 generally receive the Normal Retirement Benefit, which is equal to 2% of their final average salary multiplied by the number of years of credited service. The final average salary is the average annual salary for the three highest consecutive years out of the participant's last 10 years of employment.

Employees who terminate employment after completing 10 years of service before the age of 65 are eligible for the Early Retirement Benefit, which is equal to the Normal Retirement Benefit reduced by 1/15th for each of the first 5 years and 1/30th for each additional year by which the payments precede the normal retirement age (age 65).

Employees who terminate employment after completing 10 years of service before age 65 and having the sum of age plus years of service equal to at least 80 are eligible for the Rule of 80 Benefit. The Rule of 80 Benefit is calculated in the same manner as the Normal Retirement Benefit.

Disability benefits are paid to participants who become totally and permanently disabled who meet the eligibility requirements for the Normal Retirement Benefit or the Early Retirement Benefit.

*Benefits Terms*

The standard method of paying benefits to participants is in monthly payments. The Plan also allows participants to elect a combination of a lump-sum distribution and monthly payments or certain other annuity options. The Board of Directors has elected occasionally, in the past, to make ad hoc postretirement increases for monthly payments to participants to adjust payments for the effect of inflation using the consumer pricing index. These ad hoc payments are at the discretion of the Board of Directors and are not required by the Plan.

A description of the Defined Benefit Plan and the vesting and benefit provisions are included in the official plan document. Copies of this document as well as the Defined Benefit Plan's financial statements are available from the Human Resources Division of Metro.

For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

At December 31, 2023 and 2022, the Defined Benefit Plan’s membership consisted of the following:

|  | <b>2023</b> | <b>2022</b> |
|--|-------------|-------------|
| Retirees and beneficiaries eligible to receive benefits<br>as of December 31 | 299         | 289         |
| Terminated employees entitled to, but not yet receiving,<br>benefits         | 113         | 118         |
| Active plan members  | 143         | 157         |
| Total  | 555         | 564         |

**i) Summary of Significant Accounting Policies**

**(i) Basis of Accounting**

The financial statements of the Defined Benefit Plan are prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental accounting in accordance with the Governmental Accounting Standards Board (GASB). Investment income is recorded when earned. Expenses are recorded when liabilities are incurred. Metro’s contributions are recognized when due, and Metro has made a formal commitment to provide the contribution. Employee contributions are recognized when due, as the contributions are withheld from the employee’s paychecks. Benefits and refunds are recognized when due and payable in accordance with the terms of the Defined Benefit Plan.

**(ii) Contributions**

Employee contributions to the Defined Benefit Plan were prohibited from 1979 to July 2007. However, changes to the Defined Benefit Plan, effective July 8, 2007, require employee contributions, which range from 1% in 2007 to 7% in 2015 and beyond. The payroll for employees covered by the Defined Benefit Plan for the years ended December 31, 2023 and 2022 was \$17,140,732 and \$17,228,409, respectively. Metro’s total payroll for the years ended December 31, 2023 and 2022 was \$42,778,354 and \$38,080,402, respectively.

During 2023 and 2022, contributions made by Metro totaled \$10,053,490 and \$8,385,864, respectively. Employee contributions to the Defined Benefit Plan totaled \$1,238,493 and \$1,229,481, respectively.

**(iii) Valuation of Investments**

The Defined Benefit Plan is a noninsured trust retirement plan, with a bank or trust company authorized to exercise trust powers in Colorado as trustee. As such, the Plan’s assets are invested using the “Colorado Uniform Prudent Investor Act” found in the provisions of Part 3 of Article 1 of Title 15, C.R.S.

The Defined Benefit Plan assets are invested and managed as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances. In satisfying this standard, all fiduciaries shall exercise reasonable care, skill, and caution. Investment decisions should be evaluated within the context of the entire portfolio (rather than on an individual investment basis) and as part of an overall investment strategy having risk and return objectives reasonably suited to the Retirement Plan’s purpose.

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

Separate accounts, mutual funds, and other investment vehicles may be used based upon the most favorable approach for the Plan's circumstances, assuming the vehicle meets the Fiduciary Standard and specific guidelines for the manager. It is recognized that if a pooled fund is used, the fund's investment manager, rather than the Defined Benefit Plan, sets the fund's investment policies, strategies, objectives, guidelines, and restrictions.

Mutual funds are recorded at quoted fair prices at December 31, 2023 and 2022. The underlying properties held within the real estate fund, Principal U.S. Property account, are appraised annually and financial statements are audited by an internationally recognized accounting firm. The Defined Benefit Plan also invests floating rate debt funds, which are valued monthly, and private equity funds, which are valued quarterly. These investments are valued at their fair value as determined by the custodian under the direction of the Defined Benefit Plan with the assistance of an independent consultant.

*ii) Net Pension Liability*

Metro's net pension liability was measured as of December 31, 2023 and 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2024 and 2023, respectively.

**vi) Long-term expected rate of return**

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

capital market assumptions are per CAPTRUST’s investment consulting practice as of December 31, 2023. The long-term expected rate of return is as follows:

| <u>Asset Class</u> | <u>Target Allocation</u> | <u>Long-Term Expected<br/>Arithmetic Real Rate of Return</u> |
|--------------------|--------------------------|--|
| Public Equity      | 45%                      | 8.60%  |
| Private Equity     | 5%                       | 10.78%   |
| Fixed Rate Debt    | 25%                      | 4.68%  |
| Floating Rate Debt | 10%                      | 7.80%  |
| Real Estate        | 15%                      | 6.61%  |

**vii) Discount rate**

The discount rates used to measure the total pension liability was 6.50% for the year ended December 31, 2023 and 6.50% for the year ended December 31, 2022. The projection of cash used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate that Metro contribution will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**viii) Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions**

For the years ended December 31, 2023 and 2022, Metro recognized pension expense of \$9,785,904 and \$12,407,294, respectively. At December 31, 2023 and 2022, Metro reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | <u>December 31, 2023</u>                   |   |
|--|--|---|
|  | <u>Deferred (Inflows)<br/>of Resources</u> | <u>Deferred Outflows<br/>of Resources</u> |
| Differences between expected and actual experience   | \$ —                                       | \$ 2,329,019                              |
| Changes of assumptions                               | —  | 284,145                                   |
| Net difference between projected and actual earnings | —  | 5,652,908                                 |
| Total  | \$ —                                       | \$ 8,266,072                              |

**Metro Water Recovery**

Notes to the Basic Financial Statements

|  | <b>December 31, 2022</b>                   |   |
|--|--|---|
|  | <b>Deferred (Inflows)<br/>of Resources</b> | <b>Deferred Outflows<br/>of Resources</b> |
| Differences between expected and actual experience   | \$ —                                       | \$ 2,610,753                              |
| Changes of assumptions                               | —  | 1,815,246                                 |
| Net difference between projected and actual earnings | —  | 9,256,096                                 |
| Total  | \$ —                                       | \$ 13,682,095                             |

Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <b>Year ended December 31:</b> |              |
|--------------------------------|--------------|
| 2024                           | \$ 3,390,931 |
| 2025                           | 1,741,054    |
| 2026                           | 4,028,850    |
| 2027                           | (894,763)    |
| 2028                           | —            |
| Thereafter*                    | —            |

\*Note that additional future deferred (inflows) and outflows of resources may impact these numbers.

**(c) Defined Contribution Plan**

Effective on and after January 1, 2013 all new employees are under the Defined Contribution Plan. Employees in the DC Plan are required to contribute 6% of their earnings to the Plan. Metro matches the mandatory employee contributions with an additional 6% contribution. Employee contributions are deducted from each bi-weekly paycheck, and this amount together with Metro's matching portion, is sent each payday to the DC Plan's administrator, Mission Square. As of December 31, 2023 and 2022 there were 264 and 258 active plan members. Metro's contributions for the years ended December 31, 2023 and 2022 were \$1,482,250 and \$1,214,353, respectively.

For the years ended December 31, 2023 and 2022, the Statement of Net Position for the Defined Contribution Plan is as follows:

|  | <b>December 31,</b> |               |

| End of year   | \$ 18,483,228       | \$ 13,984,095  |

**(8) Postemployment Healthcare Plan**

**(a) General**

Metro administers a single-employer defined postemployment healthcare plan. Metro provides healthcare benefits including coverage for medical insurance to retirees and their spouses up to age 65, and limited reimbursement for medical premiums. The Colorado Revised Code allows, but does not mandate, Metro to provide postemployment benefits. Authority for Metro to provide healthcare coverage to eligible participants and to establish and amend benefits is codified in Colorado Revised Statute sections 24-19-102 and 24-19-103 of the Colorado Revised Code. The healthcare plan is “pay-as-you-go” and does not have an OPEB Trust Fund, thus does not have a publicly available financial report.

Employees covered by benefit terms. As of December 31, 2023, the following employees were covered by the benefit terms:

|  | <b>2023</b> | <b>2022</b> |
|--|-------------|-------------|
| Inactive employees or beneficiaries currently receiving benefit payments | 245         | 232         |
| Inactive employees entitled to but not yet receiving benefit payments    | —           | —           |
| Active employees   | 414         | 381         |
| Total  | 659         | 613         |

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(b) Funding Policy**

Authority for Metro funding of the postemployment healthcare plan comes from Metro’s Board of Directors. There are no required contributions from plan members. The plan is financed on a pay-as-you-go basis.

**(c) Total OPEB Liability**

Metro’s total OPEB liability was based on the January 1, 2023 valuation date and measurement dates of December 31, 2023 and December 31, 2022, respectively. Metro’s total OPEB liability was \$12,033,701 and \$12,766,507 for the years ended December 31, 2023 and December 31, 2022, respectively.

**(d) Actuarial Methods and Assumptions**

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The significant assumptions underlying the actuarial calculations at December 31, 2023 and December 31, 2022 are as follows:

|                          | <b>December 31,</b>   |   |
|--------------------------|---|---|
|                          | <b>2023</b>   | <b>2022</b>   |
| Actuarial valuation date | January 1, 2023   | January 1, 2021   |
| Measurement date         | December 31, 2023   | December 31, 2021   |
| Inflation                | 2.50%   | 2.50%   |
| Salary increases,        | Graded by age   | Graded by age   |
| Mortality rate           | Pub-2010 General Employees mortality table fully generational using scale MP-2021 | Pub-2010 General Employees mortality table fully generational using scale MP-2019 |
| Actuarial cost method    | Entry Age Normal Level Percent of Pay   | Entry Age Normal Level Percent of Pay   |
| Discount rate            | 3.72%   | 2.06%   |

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Bond Index at the measurement date.

The actuarial assumptions used in the January 1, 2023 valuation were based on the results of an actuarial experience study for the period 2010 through 2014.

**Metro Water Recovery**

| Balances at End of Year                        | <u>\$ 12,033,701</u>     | <u>\$ 12,766,507</u>     |

Sensitivity of the total OPEB liability to changes in the discount rate. The following presents the total OPEB liability of Metro, as well as what Metro's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current discount rate. A similar sensitivity analysis is then presented for changes in the healthcare cost trend assumption:

|                    |    | <u>December 31, 2023</u> |                   |                    |

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

Contributions made after the measurement date will be recognized as expenses in future periods and not included in the table below. Amounts currently reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| <b>Year ended December 31:</b> |            |
|--------------------------------|------------|
| 2024                           | \$ 218,947 |
| 2025                           | 183,355    |
| 2026                           | 135,516    |
| 2027                           | (59,531)   |
| 2027                           | (57,220)   |
| Thereafter*                    | (2,572)    |

\*Note that additional future deferred (inflows) and outflows of resources may impact these numbers. For this purpose, deferred outflows from contributions subsequent to the measurement date are not shown.

**(9) Deferred Compensation Plan**

Metro offers its participants a deferred compensation plan created in accordance with Internal Revenue Code Section 457 (Section 457). The plan, available to all Metro’s employees, permits deferral of a portion of the employees’ salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency. Since the plan assets are held in trust by a third party, and Metro does not have a governing board that manages the Plan, Metro’s basic financial statements exclude such Section 457 plan assets and associated liability in accordance with GASB Statement No. 97 *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*.

**(10) Service Agreements**

Metro has entered into service agreements with each of the member municipalities and special connectors who provide for, among other things, charges for service to such connectors. Annual charges are based on the budgeted expenses of Metro for the year and are payable to Metro in quarterly installments by each of the connectors. The rates charged to connectors are based on the quantity and quality of the sewage flow received and treated.

For the years ended December 31, 2023 and 2022, Metro’s connectors and related revenue consisted of the following:

| <b>Classification</b> | <b>Year ended December 31, 2023</b> |                | <b>Year ended December 31, 2022</b> |                |
|-----------------------|-------------------------------------|----------------|-------------------------------------|----------------|
|                       | <b>Number</b>                       | <b>Amount</b>  | <b>Number</b>                       | <b>Amount</b>  |
| Member municipalities | 22                                  | \$ 133,174,010 | 22                                  | \$ 125,700,482 |
| Special connectors    | 27                                  | 11,883,112     | 27                                  | 12,449,158     |
|                       | 49                                  | \$ 145,057,122 | 49                                  | \$ 138,149,640 |

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

**(11) Board of Directors Restricted Amounts**

Included in the balance of restricted net position of Metro are funds restricted by Metro’s Board of Directors (Board) for specific purposes. Board restrictions were as follows:

|   | <b>December 31,</b> |               |
|---|---------------------|---------------|
|   | <b>2023</b>         | <b>2022</b>   |
| 90 day expense reserve plus \$1 million | \$ 31,066,525       | \$ 28,374,463 |
| Sewer connection charge reserve         | 25,000,000          | 25,000,000    |
| Total restricted amount                 | \$ 56,066,525       | \$ 53,374,463 |

**(12) Risk Management**

Metro is exposed to various risks of loss related to property, auto, health, and workers’ safety, for which Metro carries commercial insurance. Metro’s commercial insurance coverage has remained substantially the same as the prior year. Metro retains the first \$250,000 of any property loss. There were two loss claims filed in 2021, both filed with Zurich American Insurance Company. The first claim loss was sustained on January 14, 2021, for fire loss to the new South Bar Building construction project. Metro executed a contract with Horizon Mechanical Services. Actual costs incurred as of December 31, 2023 totaled \$1,955,931. The claim is closed as of December 31, 2023. The second claim loss was sustained on March 16, 2021, Clarifier Cover Failure at the Northern Treatment Plant due to heavy snow accumulation during a winter storm. Metro has been working with the original manufacturer, Ultraflote, to replace the covers. Late in 2021 Metro was notified by Ultraflote’s legal team that they are filing for Chapter 11. Based on this information, Metro bid the project to obtain a different manufacturer for the covers. Actual costs incurred as of December 31, 2023 totaled \$1,453,269. The claim remains open as of December 31, 2023, pending resolution of replacing the covers.

Metro carries insurance for public entity liability exposure with the Colorado Special District Property and Liability Pool with a limit of \$2,000,000 per occurrence plus excess coverage of an additional \$3,000,000. As of December 31, 2023 and 2022, there were no claims outstanding against Metro that were required to be reported in the accompanying financial statements.

**(13) Commitments and Contingencies**

Metro is a party to various lawsuits resulting from risks inherent in its operations. After consulting with legal counsel, Metro management has concluded that the final disposition of these matters will not have a significant adverse effect on Metro’s 2023 basic financial statements.

As of December 31, 2023, Metro had various commitments totaling approximately \$268 million for the construction of major capital improvements, growth, and replacement projects. Funding of these projects will be provided through annual charges for services, bond proceeds, investment earnings, and unrestricted net position. The largest projects, representing 60% of this total, are the Sand Creek and Second Creek Basins Regional Plan, the Lift Station Fixed Asset Rehabilitation, the Electrical Transmission Service Substation, and the Peracetic Acid Disinfection System Improvements – with remaining costs of \$159 million.

**(a) Suncor Air and Soil Contamination**

In November 2012, while trenching to install utilities on property leased from Metro, Suncor Energy USA Inc. (Suncor) identified groundwater contamination from the light non-aqueous phase liquids. Suncor notified Metro staff and the Colorado Department of Public Health and Environment (CDPHE).

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Notes to the Basic Financial Statements

In 2011, increasing levels of both dissolved and un-dissolved petroleum products was observed in various locations on Metro’s Robert W. Hite Treatment Facility (RWHTF). Metro began working with Suncor staff to address the situation, including having Suncor 1) install skimming devices to remove the free product from monitoring wells, 2) install additional monitoring wells to determine the source of the contamination, and 3) construct concrete “collars” around Metro’s Sand Creek Interceptor to prevent Suncor’s product from running along the Interceptor to Metro’s RWHTF. Metro staff began their own independent monitoring, and met with Suncor staff to discuss safety issues, reimbursement of costs, additional monitoring requirements, and future remediation.

Previously, in November 2011, Metro employees observed petroleum-like odors in other areas of the RWHTF and Metro conducted atmospheric tests in those areas. As a result of these tests, portions of the Technical Services Building were closed and equipment was installed to enhance ventilation. Since November 2011, Suncor has increased its efforts to monitor and remove both dissolved and un-dissolved petroleum products from Metro property and is responsible for developing and implementing long-term plans for remediation.

In response to the critical nature of the situation; the pace at which response actions were being initiated by the CDPHE, the Environmental Protection Agency (EPA) and Suncor on and around the RWHTF; and the lack of in-house environmental contamination expertise, Metro staff determined outside assistance was necessary, and, as a result hired an independent consultant and outside legal counsel to assist with the rapidly developing situation.

In December 2011, the consultant was engaged to assist Metro with monitoring and mitigating the air and soil contamination originating from the Suncor property. In February 2012, the Board of Directors appropriated \$1.5 million for the work related to the Suncor petroleum contamination. Metro has paid ARCADIS approximately \$38,000 and \$27,000 in 2023 and 2022, respectively, in the monitoring efforts. Metro did not incur outside legal counsel costs during 2023 and 2022.

Also in February 2012, Metro signed an Access and License Agreement with Suncor in which Suncor agreed to pay a fee of \$40,000 per quarter through 2017 for access to Metro’s site. Metro signed a Fifth Amendment to Access and License Agreement with Suncor in November 2022, extending the original terms of the Access Agreement through December 15, 2027. This amount, together with ARCADIS costs and certain other direct expenses, is billed to and reimbursed by Suncor on a quarterly basis. Suncor is fully responsible for remainder (not a liability of Metro) and has reimbursed Metro approximately \$198,000 and \$189,000 in 2023 and 2022, respectively.

This information is an integral part of the accompanying financial statements.

This schedule is presented to illustrate the requirement to show information for 10 years. However, recalculations of prior years are not required, and if prior years are not reported in accordance with GASB standards, they should not be reported. There are no assets accumulated in a trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits for the OPEB plan.

- (1) Personnel has been decreased by \$1,558,514 to reflect costs relating to capital projects that were capitalized during 2023
- (2) See Schedule of Revenue and Expenses - Budget and Actual for reconciling expenses

See accompanying independent auditors' report.

### **III. STATISTICAL SECTION**

**Metro Water Recovery**  
For the Years Ended December 31, 2023 and 2022

Statistical Section

**Index**

---

This section of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about Metro's overall financial health.

**I. Financial Trends .....84**

These schedules contain trend information to help the reader understand how Metro's financial performance and well-being have changed over time.

*Net Position by Component*  
*Changes in Net Position*  
*Annual Revenue by Source*  
*Annual Expenses by Type*  
*Nonoperating Revenues and Expenses*

**II. Revenue Capacity.....89**

These schedules contain information to help the reader assess Metro's most significant revenue sources.

*Wastewater Treated*  
*Annual Sewer Connections*  
*Number of Sewer Customers by Type*  
*Ten Largest Customers*

**III. Debt Capacity .....93**

These schedules present information to help the reader assess the affordability of Metro's current levels of outstanding debt and Metro's ability to issue additional debt in the future.

*Pledged Revenue Coverage*  
*Ratios of Outstanding Debt*

**IV. Demographic and Economic Information.....95**

These schedules offer demographic and economic indicators to help the reader understand the environment within which Metro's financial activities take place.

*Demographic and Economic Statistics*  
*Ten Largest Employers*

**V. Operating Information.....97**

These schedules contain service and infrastructure information to help the reader understand how the information in Metro's financial report relates to the services Metro provides and the activities performed.

*Number of Employees by Activity*  
*Operating Indicators by Function/Program*
