INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
The Aurora Highlands Community Authority Board
Adams County, Colorado

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of The Aurora Highlands Community Authority Board (the Authority) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Authority as of December 31, 2023, and the respective changes in financial position thereof, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

I

Fiscal Focus Partners, LLC

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate to those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinions on the basic financial statements are not affected by this missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The supplementary and other information (together, the information) as identified in the table of contents is presented for the purposes of additional analysis and legal compliance and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Matters

Economic Dependency

As disclosed in Note 9 of the financial statements, the Authority has not yet established a revenue base sufficient to pay the Authority's operational expenditures. Until an independent revenue base is established, the Authority may be dependent upon the developer of the Authority's service area for funding of continued operations.

Net Change in Fund Balances - Total Governmental Funds \$ (83,508,293)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful life of the asset. Therefore, this is the amount of capital outlay, depreciation and dedication of capital assets to other governments, in the current period.

Capital Outlay	25,092,273
Transfer of Capital Assets from AACMD	95,539,012

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of government funds. Neither transaction, however, has any effect on net position.

THE AURORA HIGHLANDS COMMUNITY AUTHORITY BOARD
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2023

NOTE 1 DEFINITION OF REPORTING ENTITY

The Aurora Highlands Community Authority Board (CAB), a political subdivision and public corporation of the State of Colorado, was established on November 21, 2019, and is governed pursuant to the power of Article XIV of the Colorado Constitution and in conformity with the provisions of Sections 29-1-203 and 203.5, C.R.S. The CAB operates pursuant to the Aurora Highlands Community Authority Board Establishment Agreement first effective November 19, 2019 and subsequently, amended and restated on April 16, 2020, April 27, 2022, and December 15, 2022 (CABEA), by and between Aerotropolis Area Coordinating Metropolitan District (AACMD), The Aurora Highlands Metropolitan Districts Nos. 1-3 (TAH Nos. 1-3), ATEC Metropolitan Districts Nos. 1 and 2 (ATEC Nos. 1 and 2), The Aurora Highlands Metropolitan District Nos 4-6 (TAH Nos. 4-6, and collectively with AACMD, TAH Nos. 1-3, and ATEC Nos. 1 and 2, the CAB Districts). The CAB's service area is within the boundaries of The Aurora Highlands master planned development, which is located in Adams County, Colorado, within the City of Aurora (City) and consists of the combined service areas of the CAB Districts. As set forth in the CABEA, the primary purpose of the CAB is to coordinate the development of public improvements for the benefit of the CAB Districts, the residents, and property owners, and to own, operate, and maintain all public improvements within the service area.

The CAB follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The members of the Board of Directors for the CAB are appointed by the CAB Districts. The CAB is financially accountable for the CAB Districts and shall provide administrative services to the CAB Districts listed in the CABEA, but the CAB is not considered a component unit of any other primary governmental entity, including the CAB Districts, nor are any of the CAB Districts considered a component unit of the CAB.

The CAB has no employees, and all operations and administrative functions are contracted.

THE AURORA HIGHLANDS COMMUNITY AUTHORITY BOARD
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the CAB are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by charges for services, operating contributions, and inter-governmental revenues.

The statement of net position reports all financial and capital resources of the CAB. The difference between the sum of assets and deferred outflows of resources and the sum of liabilities and deferred inflows of resources is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the CAB considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are system development fees, homeowner maintenance fees and intergovernmental revenues. All other revenue items are considered to be measurable and available only when cash is received by the CAB. The CAB determined that Developer advances are not considered as revenue susceptible to accrual. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred, or the long-term obligation is due.

THE AURORA HIGHLANDS COMMUNITY AUTHORITY BOARD
NOTES TO BASIC FINANCIAL STATEMENTS
DECEMBER 31, 2023

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The CAB reports the following major governmental funds:

The General Fund is the CAB's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund is used to account for the resources accumulated and payments made for principal and interest on bonds issued by the CAB.

The Capital Projects Fund is used to account for financial resources to be used for the acquisition and construction of capital equipment and facilities.

Budgets

In accordance with the State Budget Law, the CAB's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures and other financing uses level and lapses at year-end. The CAB's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

Pooled Cash and Investments

The CAB follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single bank account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

Capital Assets

Capital assets, which include property and infrastructure improvements, are reported in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

Capital assets which are anticipated to be conveyed to other governmental entities are recorded as construction in progress and are not included in the calculation of net investment in capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable. Any construction in process that will be dedicated to another entity is not depreciated.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity

Net Position

For government-wide presentation purposes when both restricted and unrestricted resources are available for use, it is the CAB's practice to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based on the extent to which the government is bound to honor constraints on the specific purposes for which spending can occur. Governmental funds report up to five classifications of fund balance: nonspendable, restricted, committed, assigned, and unassigned. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – The portion of fund balance that cannot be spent because it is either not in spendable form (such as prepaid amounts or inventory) or legally or contractually required to be maintained intact.

Restricted Fund Balance – The portion of fund balance that is constrained to being used for a specific purpose by external parties (such as bondholders), constitutional provisions, or enabling legislation.

Committed Fund Balance – The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

Assigned Fund Balance – The portion of fund balance that is constrained by the government's intent to be used for specific purposes but is neither restricted nor committed. Intent is expressed by the Board of Directors to be used for a specific purpose. Constraints imposed on the use of assigned amounts are more easily removed or modified than those imposed on amounts that are classified as committed.

Unassigned Fund Balance – The residual portion of fund balance that does not meet any of the criteria described above.

If more than one classification of fund balance is available for use when an expenditure is incurred, it is the CAB's practice to use the most restrictive classification first.

NOTE 3 CASH AND INVESTMENTS

Cash and investments as of December 31, 2023, are classified in the accompanying financial statements as follows:

Statement of Net Position:	
Cash and Investments	\$ 5,220
Cash and Investments - Restricted	<u>67,546,526</u>
Total Cash and Investments	<u>\$ 67,551,746</u>

Cash and investments as of December 31, 2023, consist of the following:

Deposits with Financial Institutions	\$ 178,460
Investments	<u>67,373,286</u>
Total Cash and Investments	<u>\$ 67,551,746</u>

Deposits with Financial Institutions

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least 102% of the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

On December 31, 2023, the CAB's cash deposits had a bank balance of \$380,075 and a carrying balance of \$178,460.

Investments

The CAB has not adopted a formal investment policy; however, the CAB follows state statutes regarding investments.

The CAB generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk, minimal interest rate risk, and no foreign currency risk. Additionally, the CAB is not subject to concentration risk or investment custodial risk disclosure requirements for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments (Continued)

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- . Obligations of the United States, certain U.S. government agency securities, and securities of the World Bank
- . General obligation and revenue bonds of U.S. local government entities
- . Certain certificates of participation
- . Certain securities lending agreements
- . Bankers' acceptances of certain banks
- . Commercial paper
- . Written repurchase agreements and certain reverse repurchase agreements collateralized by certain authorized securities
- . Certain money market funds
- . Guaranteed investment contracts
- . Local government investment pools

Fair Value Measurement and Application

The CAB categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments not measured at fair value and not categorized include governmental money market funds (PFM Funds Governmental Select series), money market funds (generally held by Bank Trust Departments in their role as paying agent or trustee), CSAFE (which are recorded at amortized cost), and COLOTRUST (which are recorded at net asset value).

As of December 31, 2023, the CAB had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Amount</u>
JP Morgan 100% U.S. Treasury Securities	Weighted-Average Under 60 Days	\$ 32,163,632
U.S. Treasury Bills	Weighted-Average Under 60 Days	35,209,654

2021 Bond Details

On December 22, 2021, the CAB issued the 2021A Bonds in the aggregate principal amount of \$297,464,000 and 2021B Bonds in the maximum aggregate principal amount of up to \$70,000,000.

2021A Bonds

The 2021A Bonds bear interest at the rate of 5.75% per annum and are structured as “cash flow” bonds, meaning that there are no scheduled payments of principal or interest prior to the final maturity date of December 1, 2051. Proceeds from the sale of the 2021A Bonds were used to (a) refund the CAB’s 2020A Bonds and Series 2020B Bonds; (b) pay or reimburse Project Costs; and (c) pay certain costs incurred in connection with the issuance of the 2021A Bonds and the 2021B Bonds.

Principal on the 2021A Bonds is payable on each December 1 from and to the extent of Pledged Revenue, if any, pursuant to a mandatory redemption. Interest not paid when due shall compound each December 1. To the extent any principal is not paid when due, such principal is to remain outstanding and is to continue to bear interest until the earlier of its payment or December 2 of the fiftieth year after the year in which the Last Residential District (as defined in the 2021A Trust Indenture) first imposed its debt service mill levy, regardless of the amount of principal and interest paid prior to such Termination Date, at which time all outstanding 2021A Bonds and the interest thereon shall be deemed to be paid, satisfied and discharged.

The 2021A Bonds are subject to redemption prior to maturity, at the option of the CAB, on December 1, 2028, and on any date thereafter, upon payment of par, accrued interest, and a redemption premium equal to a percentage of the principal amount so redeemed as follows:

NOTE 5 LONG-TERM OBLIGATIONS (CONTINUED)

2021A Bonds (Continued)

The 2021A Bonds are allocated to the voted debt authorization of AACMD and payable solely from and to the extent of the Pledged Revenue, consisting generally of the moneys derived from the following sources, net of any costs of collection:

- (a) the Debt Service Property Tax Revenues of TAH 1-3, AACMD, and ATEC 2 (Taxing Districts) derived from imposition by each of the Taxing Districts of its Required Debt Service Mill Levy;
- (b) the Debt Service Specific Ownership Tax Revenues of each of the Taxing Districts;
- (c) the Debt Service PILOT Revenues of each of the Taxing Districts;
- (d) the Single-Family Residential Facilities Fees; and
- (e) collected within the CAB service area any other legally available moneys which the CAB determines, in its absolute discretion, to transfer to the Trustee for application as Pledged Revenue.

Each of the Taxing Districts is required, pursuant to individual Revenue Pledge Agreement (Note 6) with the CAB, to impose an ad valorem mill levy upon all taxable property within the Taxing District's boundaries beginning in the tax levy year 2024 (for collection in 2025), with respect to TAH 1 or ATEC 2, or in the first tax levy year in which the assessed valuation is equal to or greater than \$10,000,000, with respect to TAH 3 and AACMD.

The Required Debt Service Mill Levy shall be imposed (a) for TAH 1-3, in the amount of 50 mills; (b) for ATEC 2, in the amount of 29 mills; and (c) for AACMD in the amount of 29 or 50 mills, as determined by whether the property within AACMD's boundaries is developed for residential, nonresidential, or high-density residential uses, all as subject to adjustment for changes in the ratio of actual valuation to assessed valuation on or after January 1, 2004.

2021B Bonds

Concurrently with the issuance of the 2021A Bonds, the CAB also issued its 2021B Bonds. The purposes of the 2021B Bonds are to (i) pay or reimburse Project Costs, (ii) pay Draw Fees, and (iii) pay Working Capital Costs (Bond Purposes).

The 2021B Bonds constitute draw down obligations of the CAB, and the principal amount thereof at issuance was zero. Draws on the 2021B Bonds shall bear interest at a variable rate reset annually on each anniversary of the initial draw date. The interest rate is the Municipal Market Data (MMD) BBB, 30-year index on the Annual Interest Reset Date plus 5.0%, with a maximum interest rate of 9.0% per annum. The 2021B Bonds are allocated to the voted debt authorization of AACMD and payable to the extent of Subordinate Pledged Revenue available on December 15 of each year, commencing on December 15 of the first year in which no Series 2021A Senior Bond is outstanding, and mature on December 15, 2061.

To the extent principal of any 2021B Bond is not paid on or prior to the maturity date of such Bond, such principal shall remain outstanding until paid and shall continue to bear interest at the rate then borne by the 2021B Bond, and to the extent interest on any 2021B Bond is not paid when due, such interest shall compound annually on each December 15, at the rate then borne by the 2021B Bond.

Events of Default

Events of default under the 2021 Bonds occur if the CAB does not apply Pledged Revenue in accordance with the Indentures of Trust, and other customary terms and conditions consistent with normal municipal financings as described in the Indentures of Trust. The annual debt service requirements of the 2021A and 2021B Bonds are not currently determinable since they are payable only from available Pledged Revenue.

To the extent interest on any 2022B Bond is not paid when due, such unpaid interest shall compound annually on each December 15, at the interest rate then borne by the 2022B Bond.

After application on December 15, 2072, of all available Subordinate Pledged Revenue to the payment of the 2022B Bonds, the 2022B Bonds and the lien of the Subordinate Indenture securing payment thereof shall be deemed fully satisfied on the Termination Date of December 16, 2072, and on such date the 2022B Bonds shall be discharged, and the Subordinate Indenture shall terminate.

On June 30, 2020, the CAB and the CAB Districts entered into the Mill Levy Policy Agreement, which was amended and restated on December 22, 2021, to set forth the agreement of certain CAB Districts that the respective obligations of each CAB District under the CABEA and the applicable pledge agreements are fair and equitable in light of the benefits received by the CAB Districts (Amended and Restated Mill Levy Policy Agreement). Each CAB District, that is a party to the Amended and Restated Mill Levy Policy Agreement, agrees to cooperate and coordinate with each other to ensure that the mill levies determined by the CAB each year are imposed and transferred to the CAB in accordance with the applicable pledge agreements. The Amended and Restated Mill Levy Policy Agreement shall continue to be in effect until: (a) each CAB District agrees in writing to terminate the agreement; (b) no debt is outstanding; (c) all public improvements owned by the CAB or the CAB Districts have been conveyed to another governmental entity; and (d) all operations and maintenance obligations with respect to such public improvements and all other services performed by the CAB and the CAB Districts have been assumed by another governmental entity.

Revenue Pledge Agreements

On December 22, 2021, the CAB and each of the CAB Districts entered into separate Revenue Pledge Agreements (Pledge Agreements). Per the Pledge Agreements, each CAB District is required to impose a debt service mill levy and remit the revenue received to the CAB. The CAB has pledged revenues derived therefrom to the payment of the 2021 Bonds (Note 5). The Required Debt Service Mill Levy required to first be imposed by TAH No. 1 in levy year 2024 (for collection in 2025), by TAH Nos. 2-3, AACMD and ATEC No. 2 in the year during which the actual assessed valuation of the taxable property within the relevant CAB District is equal to or more than \$10,000,000.

The Pledge Agreements shall remain in effect until the date on which all amounts due with respect to the 2021 Bonds, the 2022B Bonds and other CAB bonds issued in the future have been defeased or paid in full, provided however, that if the payment obligation payable is not paid in full or defeased on such termination date, then the Districts shall continue to be obligated to levy the Required Debt Service Mill Levy and apply their Pledged Revenue to the repayment of such unpaid payment obligations; provided further, however, that in no event may TAH Nos.1-3 and AACMD levy their Required Debt Service Mill Levy for longer than fifty (50) years after the year of the initial imposition of the Required Debt Service Mill Levy by the Districts in accordance with their Service Plans unless the Service Plans are amended to eliminate or extend such imposition term.

Pursuant to the CABEA, as acknowledged by the OFA, the CAB has assumed AACMD's reimbursement obligations. As of December 31, 2023, the CAB had no outstanding advances under the OFA.

NOTE 9 ECONOMIC DEPENDENCY

The CAB has not yet established a revenue base sufficient to pay all operational expenditures. Until an independent revenue base is established, continuation of operations in the CAB will be dependent upon funding by AH LLC.

NOTE 10 RISK MANAGEMENT

The CAB is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The CAB is a member of the Colorado Special Districts Property and Liability Pool (the Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials' liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The CAB pays annual premiums to the Pool for liability, property, public officials' liability, and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 11 TAX, SPENDING, AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue, and debt limitations that apply to the state of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the Emergency Reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The CAB's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.
