## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Lochbuie Station Residential Metropolitan District

### Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Lochbuie Station Residential Metropolitan District (the District) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Lochbuie Station Residential Metropolitan District, as of December 31, 2024, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lochbuie Station Residential Metropolitan District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lochbuie Station Residential Metropolitan District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from

fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lochbuie Station Residential Metropolitan District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lochbuie Station Residential Metropolitan District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### **Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Lochbuie Station Residential Metropolitan District's financial statements as a whole. The supplemental information section is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental and other information, as listed in the table of contents, is fairly stated in all material respects in relation to the financial statements as a whole.

## **Other Information**

Management is responsible for the other information. The other information comprises the Schedule of Debt Services Requirements to Maturity and Schedule of Assessed Valuation, Mill Levy and Property Taxes Collected but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

EXPENDITURES AND CHANGES IN FUND BALANCES OF  
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Neither transaction, however, has any effect on net position. The net effect of these differences in the treatment of long-term debt is as follows:

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE 1 - DEFINITION OF REPORTING ENTITY**

Lochbuie Station Residential Metropolitan District (District), a quasi-municipal corporation and political subdivision of the State of Colorado was organized on December 21, 2018 and is governed pursuant to provisions of the Colorado Special District Act. The District's service area is located within Adams County, Colorado. The District was established to provide various public improvements and services for the benefit of the property owners, residents and other taxpayers in the District.

The District has no employees and all operations and administrative functions are contracted.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements, which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens, and fiscal dependency.

The District is not financially accountable for any other District organization nor is the District a component unit of any other primary governmental entity.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The more significant accounting policies of the District are described as follows:

**Government-wide and Fund Financial Statements**

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities are normally supported by taxes.

The statement of net position reports all financial and capital resources of the District. The difference between the assets plus deferred outflows of resources and liabilities plus deferred inflows of resources of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Depreciation is computed and recorded as an operating expense. Expenditures for property and equipment are shown as increases in assets and redemption of bonds and promissory notes are recorded as a reduction in liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are property taxes. Expenditures, other than interest on long-term obligations are recorded when the liability is incurred or the long-term obligation paid. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds.

The Debt Service Fund accounts for the resources accumulated and payments made for principal, interest and related expenses on the long-term general obligation debt.

The Capital Projects Fund accounts for financial resources to be used for the construction of certain public improvements, facilities and services.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted first, then unrestricted resources as they are needed.

**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Budgets**

In accordance with the Local Government Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated.

For the year ended December 31, 2024, supplementary appropriations approved by the District's Board of Directors modified the appropriation in the Debt Service Fund from \$217,249 to \$6,547,450 and in the Capital Projects Fund from \$400,000 to \$1,300,000.

**Pooled Cash and Investments**

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a single account. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each fund's average equity balance in the total cash.

**Property Taxes**

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the county assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the county commissioners to put the tax lien on the individual properties as of January 1 of the following year. The county treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April 30 or if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The county treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows of resources in the year they are levied and measurable. The deferred inflows of resources related to property tax revenues are recorded as revenue in the year they are available or collected.

**Capital Assets**

Capital assets, which include property, plant and equipment and infrastructure assets (roads, bridges, sidewalks and similar items) are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

**December 31, 2024**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Deferred Inflows of Resources**

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The revenue continues to be recognized when earned in the government-wide statements. The District has one item that qualifies for reporting in this category. Accordingly, the item, deferred property tax revenue, is deferred and recognized as inflows of resources in the period that the amount becomes available.

**Fund Balances – Governmental Funds**

The District's governmental fund balances may consist of five classifications based on the relative strength of the spending constraints:

Nonspendable fund balance - the amount of fund balance that is not in spendable form (such as inventory or prepaids) or is legally or contractually required to be maintained intact.

Restricted fund balance - the amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government), through constitutional provisions or by enabling legislation.

Committed fund balance - amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., Board of Directors). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.

Assigned fund balance - amounts the District intends to use for a specific purpose. Intent can be expressed by the District Board of Directors or by an official or body to which the District Board of Directors delegates the authority.

Unassigned fund balance - amounts that are available for any purpose.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds and finally unassigned funds, as needed, unless the District Board of Directors has provided otherwise in its commitment or assignment actions.

**NOTE 3 - CASH AND INVESTMENTS**

Cash and investments as of December 31, 2024 are classified in the accompanying statement of net position as follows:

Statement of net position:

|                                     |                  |

| Cash and investments - restricted   | <u>14,718</u>    |
| Total cash and investments          | <u>\$ 15,644</u> |

Cash and investments as of December 31, 2024 consist of the following:

|                                      |                  |

| Total cash and investments           | <u>\$ 15,644</u> |

**Cash Deposits**

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits.

The state commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

At December 31, 2024, the District's cash deposits had a bank balance of \$1,498 and carrying balance of \$926.

**Investments**

**Credit Risk**

The District has not adopted a formal investment policy; however, the District follows state statutes regarding investments.

**NOTE 3 - CASH AND INVESTMENTS (CONTINUED)**

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

- \* Obligations of the United States and certain U.S. government agency securities and the World Bank
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Certain reverse repurchase agreements
- Certain securities and lending agreements
- Certain corporate bonds
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- \* Local government investment pools

The District generally limits its concentration of investments to those noted with an asterisk (\*) above, which are believed to have minimal credit risk, minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to investment custodial risk for investments that are in the possession of another party.

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors. Such actions are generally associated with a debt service reserve or sinking fund requirements.

As of December 31, 2024, the District had the following investments:

| <u>Investment</u>                            | <u>Maturity</u>                | <u>Fair Value</u> |
|----------------------------------------------|--------------------------------|-------------------|
| Colorado Local Government Liquid Asset Trust | Weighted average under 60 days | <u>\$ 14,718</u>  |

**COLOTRUST**

During 2024, the District invested in COLOTRUST PLUS+, one of the three portfolios offered by the Colorado Local Government Liquid Asset Trust (Colostrust). Colostrust is an investment vehicle established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing Colostrust. The COLOTRUST PLUS+ fund operates similarly to a money market fund. COLOTRUST PLUS+ may invest in U.S. Treasury securities and repurchase agreements collateralized by such securities, certain securities of U.S. government agencies and repurchase agreements collateralized by such securities, collateralized bank deposits, AAAM rated money market funds, corporate bonds and highest rated commercial paper. A designated custodial bank serves as

Cash and investments of \$14,718 are restricted in the Debt Service Fund for servicing the District's bond debt (Note 5).

**NOTE 5 - LONG-TERM OBLIGATIONS (CONTINUED)**

**General Obligation (Limited Tax Convertible to Unlimited Tax) Bonds, Series 2020A**

On July 16, 2020, the District issued General Obligation (Limited Tax Convertible to Unlimited Tax) Bonds, Series 2020A (Series 2020A Bonds) in the principal amount of \$3,545,000. The Series 2020A Bonds were issued for the purpose of: (i) funding the costs of public improvements for the District, (ii) paying the costs in connection with the issuance of the Series 2020A Bonds, (iii) funding a portion of the initial interest to accrue on the Series 2020A Bonds and (iv) funding an initial deposit to the surplus fund.

The Series 2020A Bonds bear interest of 5.75% payable semi-annually on June 1 and December 1 and mature on December 1, 2050. Unpaid interest on the Series 2020A Bonds will compound semiannually on each payment date. The payment of principal on the Series 2020A Bonds begins on December 1, 2026.

The Series 2020A Bonds will convert from limited tax to unlimited tax obligation bonds at such time as (a) the debt to assessed ratio is 50% or less and (b) no amounts of principal or interest on the Series 2020A Bonds are due but unpaid (conversion date).

The Series 2020A Bonds are secured by and payable solely from senior pledged revenue, which includes property taxes derived from the senior required mill levy, net of the costs of collection, senior specific ownership taxes, capital fees and any other legally available moneys of the District transferred to the senior debt fund as senior pledged revenues.

Prior to the conversion date, the senior required mill levy will not be in excess of 50 mills (subject to increases or decreases as a result of constitutional or legislative imposed adjustments), generating an amount, when combined with other sources of senior pledged revenue, sufficient to (1) fund the senior bond fund for the relevant bond year to pay all amounts as they come due and (2) fund the senior surplus fund to the senior maximum surplus amount of \$709,000. The District has no obligation to fund the senior surplus fund except to the extent of the availability of senior pledged revenue. On and after the conversion date, the senior required mill levy is without limitation of rate and in amounts sufficient to pay all amounts as they come due, regardless of any subsequent increase in the debt to assessed ratio.

The Series 2020A Bonds are subject to mandatory sinking fund redemption prior to maturity, as well as extraordinary mandatory redemption prior to maturity under certain circumstances and redemption prior to maturity at the option of the District.

Significant events of default under the Series 2020A Bonds include (i) prior to the conversion date, failure to impose the senior required mill levy or to apply senior pledged revenue as required, (ii) on or after the conversion date, failure to pay principal or interest when due, (iii) failure to meet financial performance of the covenants, agreements or conditions and failure to remedy the same after notice and (iv) filing of a petition for bankruptcy or insolvency.

**NOTE 6 – FUND EQUITY**

**Nonspendable Fund Balance**

The nonspendable fund balance in the General Fund in the amount of \$2,813 represents prepaid expenditures for the ensuing fiscal year and is therefore not in a spendable form.

**Restricted Fund Balance**

The restricted fund balance in the General Fund in the amount of \$3,500 is comprised of the emergency reserves that have been provided for as required by Article X, Section 20 of the Constitution of the State of Colorado (see Note 9).

The restricted fund balance in the Debt Service Fund in the amount of \$15,573 is to be used exclusively for debt service requirements.

**Unassigned Fund Balance**

The District anticipates that the deficit unassigned fund balance in the amount of \$9,093 will be eliminated with developer advances.

**NOTE 7 - NET POSITION**

The District's net position consists of three components - net investment in capital assets, restricted and unrestricted.

Net investment in capital assets consists of net capital assets, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets and increased by balances of deferred outflows or resources related to those assets. As of December 31, 2024, the District had a negative investment in capital assets of \$4,524,413.

The restricted portion of the net position include amounts that are restricted either externally by creditors, grantors, contributors, or laws and regulations of other governments or imposed by law

**NOTE 8- RISK MANAGEMENT**

Except as provided in the Colorado Governmental Immunity Act, the District may be exposed to various risks of loss related to torts, thefts of, damage to, or destruction of assets, errors or omissions, injuries to employees or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool). The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials’ liability, boiler and machinery and workers compensation coverage to its members. Settled claims have not exceeded this coverage in any of the past three fiscal years.

The District pays annual premiums to the Pool for liability, property, public officials’ liability and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

**NOTE 9 - TAX, SPENDING AND DEBT LIMITATIONS**

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer's Bill of Rights (TABOR), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments, except Enterprise.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

**LOCHBUIE STATION RESIDENTIAL METROPOLITAN DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**December 31, 2024**

**NOTE 9 - TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)**

TABOR requires local governments to establish emergency reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.
